

c u o n l i n e Performance Based Activities Symposium

Symposium on Teaching Performance Based Activities Online

Friday, October 23, 2009

9 a.m. to 2:30 p.m.

CU Online, 8th floor, CU Building

As the online format grows in popularity and the range of subject matter increases, many educators have considered teaching subjects online that have traditionally been taught exclusively in the classroom. This day-long symposium gathers interested faculty from across various UCD disciplines to discuss how to teach such hands-on subjects as art, music, computer skills, speech, counseling and lab science in an online format.

The symposium will feature **special guests John Sharp, Pd.D.** from the **Savannah College of Art and Design** and **Sheila McLain MFA, IDEC from the Art Institute of Pittsburgh - Online Division.** Dr. Sharp will talk about his program's success in using the online format to teach undergraduate and graduate computer skills and studio classes online. Ms. McLain will discuss her role in the Interior Design and Residential planning programs where she teaches Introduction to AutoCAD and Basics of Interior Design.

What does the future of online learning hold of performance based activities? Come join the discussion and help us decide!

To sign up, email kim.penoyer@ucdenver.edu **Seating is limited!**

Agenda

9 - 9:30: Breakfast

11:30 – 12: 15: Lunch

9:30 – 10:00: Introductions and framing the issue
