Immigrant Integration through Community Planning:

Conversations with youth about issues of Community,
Education, and Identity

Do you want to be prepared for the
future of community design?

Do you want to have the knowledge
and understanding of how
immigration affects our
communities?

Do you want to gain practical skills
to use in the design professions?

ENVD 4361-001

TR 10:40am-12:30pm

ENVD room 102

3 Credits

Instructors:

Debra Flanders Cushing
& Emily Wexler Love

This course will examine immigrant integration from a multidisciplinary lens that considers **community planning and design, education, and policy issues**. Students will learn facilitation skills and work with multicultural youth in a local high school focused on creating youth-friendly communities for multicultural populations. Seminar style class sessions on **community design, multicultural urban planning, social justice, diversity, immigrant integration policy, discrimination** among other topics will complement the outreach component of the course. This course provides practical experience that will prepare students for **careers in community planning and design, education, or the nonprofit sector**.
