

## Resolutions passed unanimously at 5/5/2009 UC Denver Downtown Faculty Assembly meeting:

The University of Colorado Denver Downtown Faculty Assembly finds the process by which the system administration made radical budget and restructuring decisions to be unsatisfactory and in contravention of the University of Colorado Constitution approved by the Board of Regents because proper collaboration with Faculty did not take place. We expect further implementation of the announced budget cuts and restructuring will be suspended until collaboration with Faculty Council and its appropriate committees has occurred.

The University of Colorado Denver Downtown Faculty Assembly find the complete elimination of the independent professional editorial body to inform faculty, staff, students and administration of university matters to be unsatisfactory.
