How to Use this Catalog

The CU Denver Catalog is comprised of four main sections, About the Catalog and Archive Information (p. 9), About CU Denver (p. 10), Undergraduate Catalog (p. 39), and Graduate Catalog (<http://catalog.ucdenver.edu/cu-denver/graduate/>).

The About the Catalog and Archive Information (p. 9) provides information about the published catalog and information to find previous versions of the catalog.

The About CU Denver (p. 10) section provides information about CU Denver that is beneficial for undergraduate and graduate students, faculty, staff, and our campus community. The information in this section of the catalog includes:

- Campus (p. 14)
- Administration (p. 20)
- Related Organizations (p. 22)
- Student Services and Other Student Resources (p. 23)
- University Policies (p. 34)

The Undergraduate Catalog (p. 39) section provides information focused towards the undergraduate student population including:

- Admissions (p. 39)
- Student Finances (p. 52)
- Tuition Classification (p. 56)
- Records and Registration (p. 57)
- Academic Policies and Procedures (p. 93)
- Advising and Other Student Services (p. 95)
- Undergraduate Core Requirements (p. 104)
- Graduation (p. 107)
- Schools, Colleges, and Departments (p. 109)
- Courses A-Z (p. 762)
- Programs A-Z (p. 759)

The Graduate Catalog (<http://catalog.ucdenver.edu/cu-denver/graduate/>) section provides information focused towards the graduate student population including:

- Information for Graduate Students (<http://catalog.ucdenver.edu/cu-denver/graduate/information-graduate-students/>)
- International Admissions (<http://catalog.ucdenver.edu/cu-denver/graduate/international-admissions/>)
- Student Finances (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/>)
- Tuition Classification (<http://catalog.ucdenver.edu/cu-denver/graduate/tuition-classification/>)
- Records and Registration (<http://catalog.ucdenver.edu/cu-denver/graduate/records-registration/>)
- Graduate School Policies and Procedures (<http://catalog.ucdenver.edu/cu-denver/graduate/graduate-school-policies-procedures/>)
- Schools, Colleges, and Departments (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/>)
- Courses A-Z (<http://catalog.ucdenver.edu/cu-denver/graduate/courses-a-z/>)
- Programs A-Z (<http://catalog.ucdenver.edu/cu-denver/graduate/programs-a-z/>)

ABOUT THE CATALOG AND ARCHIVE INFORMATION

The 2021-2022 CU Denver catalog is considered the source for academic and programmatic requirements for students entering programs during the Fall 2021, Spring 2022, and Summer 2022 semesters. Although this catalog was prepared using the best information available at the time, all information is subject to change without notice or obligation. The university claims no responsibility for errors that may have occurred during the production of this catalog.

The courses listed in this catalog are intended as a general indication of the University of Colorado Denver curricula on the Denver campus. Courses and programs are subject to modification at any time. Not all courses are offered every semester, and faculty teaching particular courses or programs may vary from time to time. The content of a course or program may be altered to meet particular class needs.

The catalog is published only online in an accessible format. In accordance with requirements under the Americans with Disability Act (ADA), alternate formats are available upon request.

The CU Denver catalog is produced by the Office of the Registrar (<https://www.ucdenver.edu/registrar/>) at the University of Colorado Denver (<https://www.ucdenver.edu/>). Previous archived editions of this catalog are available online (<https://www.ucdenver.edu/registrar/catalogs/archived/>).

The University of Colorado Denver is an affirmative action/equal opportunity employer and educator committed to excellence through inclusiveness.

ABOUT CU DENVER

University of Colorado Denver

The University of Colorado Denver was formed on January 11, 1973, lawmakers, upon proclamation of the governor, amend that state constitution to establish additional CU campuses, transforming the University of Colorado - Denver Center into the University of Colorado Denver (CU Denver). In 1977, CU Denver students began taking classes on the Auraria campus. Today, CU Denver educates more than 15,000 students and is the only public urban research institution in the state of Colorado.

The University of Colorado Denver offers a unique academic experience for students. Conveniently located in the heart of Denver, our students have unparalleled access to the business, cultural and political capital of the West. CU Denver is where academic rigor meets city vigor.

More and more undergraduates are discovering the value of classes in the city taught by professors who are connected to local companies and organizations. New housing adjacent to campus, easy commuting by RTD Light Rail and discounts to cultural and sporting events give students many options for immersion in vibrant city life. In addition, affiliations with research labs and hospitals at CU Anschutz make CU Denver an excellent place to start a health care career.

The University of Colorado Denver enrolls students from 46 different states and countries, and awards over 3,800 undergraduate and graduate degrees every year. It is known for its programs in urban sustainability, criminal justice, business, education, applied science and engineering, film and music industry as well as a full array of professional health programs. The graduate student population is a diverse mix of ages and ethnicities, creating a rich environment for learning and networking.

Other reasons why students choose the University of Colorado Denver:

Small class sizes: average undergraduate student-to-teacher ratio is 18:1.

The Denver vibe: Colorado has always attracted the adventurous. Denver ranks as #2 Best Place to Live (U.S. News & World Report), with an extensive network of bike trails and quick access to mountain sports. CU Denver is adjacent to a thriving arts district.

Collaborative culture: Cross-disciplinary learning and research is a core value: programs blend technology with health care, business with public policy, and behavioral health with architecture.

Choices: With seven schools and colleges offering more than 100 degree programs, the University of Colorado Denver | Anschutz Medical Campus is a major university for the coming century.

About Our Students

The diversity of our student body is a source of deep pride. With students of color making up 42 percent of the student body, CU Denver is the most diverse research university in Colorado. Classes are filled with traditional students who enrolled after high school as well as transfer students and those who delayed college entry. Many professionals enroll mid-career to retool and strengthen their skills. The average age of an undergraduate student is 23 years while the average graduate student is 31 years old.

Bringing a rich mix of backgrounds, students travel across the country and the world to attend CU Denver. Domestic students come from 48 states and international students from 68 countries. All take advantage

of convenient courses at times that meet their schedules. An enviable student-to-faculty ratio of 18:1 and a high-tech advising platform means students receive focused attention from professors and a clear path to graduation.

University Quick Facts

CU Denver Quick Facts*

Enrollment

- 15,162 students
- 70% undergraduate, 30% graduate/professional
- 73% full-time students
- 86% from Colorado
- 14% nonresident students of which International students come from 66 different countries
- 44% male, 55% female
- 43% of new undergraduate students are transfers

Student-to-Faculty Ratio

- 18:1

Diverse Population

- 50% of enrolled students are students of color
- 51% of all new enrolled students are students of color
- Average age of undergraduate students: 23
- Average age of graduate students: 31
- Students from 49 states and DC and 66 countries

Average entering ACT score

- 23.0 Composite

Average entering SAT score

- 550 Math
- 551 Verbal

Average high school GPA

- 3.5

Schools and Colleges on the CU Denver Campus

College of Architecture and Planning (p. 153)

College of Arts & Media (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-arts-media-cam/>)

- #97 for best online Master's in Education
- #16 for Graduate Public Affairs programs
- #59 for Statistics Programs
- #48 for Clinical Psychology Graduate program
- #80 for Mathematics Graduate programs

*Based on Fall 2020 enrollment

From the Chancellor

Welcome to Colorado's public urban research university, where a diverse student body through quality academics, ambitious research and creative work, and community engagement in the city we call home. We are CU in the city.

Your success is our #1 priority. At CU Denver, you will benefit from:

Academic choices: More than 100 high-quality, in-demand degree programs in seven schools and colleges, leading to bachelor's, master's and doctoral degrees; hands-on learning opportunities, including work in research labs, service learning, study abroad and work-study;

Powerful connections: To partnerships, projects, internships and career opportunities in downtown Denver; to the vibrant arts and culture scene

at our front door; and to a network of influential alumni who are leaders in Denver's civic, nonprofit and business communities;

Outstanding location: Access to a vibrant, safe urban lifestyle; resources and support to develop innovative solutions to complex local and global issues; and opportunities to build your skills in the city ranked by Forbes as the #1 Best Place for Business and Careers.

CU Denver is a place of academic excellence, where you will gain the powerful combination of immersive classroom and project-based experiences that are in demand today. Here you will meet gifted faculty, experts in their field, dedicated to student success, academic excellence and the real-world applications of their research and creative work. You'll interact with fellow students who are diverse, goal-oriented and energetic. Whether you engage in undergraduate or graduate studies, the University of Colorado Denver degree earns global respect and you can be confident that you will have been well-prepared for the next stage of your work or academic life.

We're delighted you've chosen CU Denver!

Michelle A. Marks, PhD
Chancellor

CU Denver Strategic Priorities

In 2016, CU Denver established five strategic priorities to guide its ongoing success as Colorado's public, urban, research university.

- Elevate student success (<https://www1.ucdenver.edu/about/leadership/strategic-planning/strategic-priorities/student-success/>) through increased enrollment, retention and graduation rates.
- Advance scholarly excellence (<https://www1.ucdenver.edu/about/leadership/strategic-priorities/scholarly-excellence/>) and innovation in teaching, research and creative work.
- Strengthen our position and impact as a vital community asset (<https://www1.ucdenver.edu/about/leadership/strategic-priorities/community-impact/>).
- Create a more cohesive, collaborative and inclusive culture (<https://www1.ucdenver.edu/about/leadership/strategic-priorities/inclusive-culture/>).
- Achieve long-term financial sustainability (<https://www1.ucdenver.edu/about/leadership/strategic-priorities/financial-sustainability/>) and stability.

CU Denver 2030

Strategic Planning

The *100 Days of Listening* report serves as the foundation for CU Denver's strategic planning process. With the report's initial discoveries in mind, we turn our attention toward creating a vision and strategy to differentiate CU Denver and realize our full potential as a public urban research university.

With our sights set on who we want to be in 2030, we welcome all members of the CU Denver community to share their boldest ideas.

To learn more about CU Denver's Strategic Planning initiatives, please visit our website (<https://www.ucdenver.edu/about/leadership/strategic-planning/>).

Our History

CU Denver is one of four campuses that make up the University of Colorado system (https://www.cu.edu/about-cu-system/?_ga=2.198221871.1449492668.1588702111-627714767.1588702111&_gac=1.18150475.1586808742.Cj0KCQiw9D0BRCMARIsAIfvflakqGT2NJ3o-yVndLuxSeNevi1VDZvGYzQLUYSBgrmd1ZNgMK4roCEaAhlyEALw_wcB).

We began in 1912 as an extension of the University of Colorado Boulder. In 1973, we became an independent campus, and the University of Colorado Denver was officially founded. In 2023, we will celebrate CU Denver's 50th anniversary.

CU Denver Timeline

Take a look at where we began, occupying one building in downtown Denver, and where we ended up—we now serve more than 15,000 students a year.

1912 – 1972

The Denver Extension

In 1912, the University of Colorado in Boulder established the Denver extension to offer courses in downtown Denver. By 1969, academic offerings included 34 programs at the undergraduate and graduate levels. In 1971, the current College of Liberal Arts and Sciences (<https://clas.ucdenver.edu/>) was established. These early years made it clear there was a need for quality academic programs in the city of Denver.

1973 -- 1979

University of Colorado Denver Established

In 1973, Colorado lawmakers amended the state constitution to establish additional CU campuses, transforming the University of Colorado – Denver Center into the University of Colorado Denver. In its first year as an independent institution, CU Denver founded the School of Education & Human Development (<https://education.ucdenver.edu/>) and the School of Public Affairs (<https://publicaffairs.ucdenver.edu/>).

In 1977, CU Denver students began taking classes on the Auraria Campus, alongside students from Metropolitan State University of Denver and Community College of Denver. CU Denver students, faculty, and alumni marched on the Colorado State Capitol in 1979—to preserve the university's sovereignty in the face of a potential merger.

1980 – 1990

Significant Growth

During the 1980s, CU Denver grew significantly as a university, establishing three additional colleges: the College of Architecture and Planning (<https://architectureandplanning.ucdenver.edu/>), the College of Arts & Media (<https://artsandmedia.ucdenver.edu/>), and the College of Engineering, Design and Computing (<https://engineering.ucdenver.edu/>). In 1990, the university acquired a new building at the corner of 14th and Larimer Streets, which became the CU Denver Building. This location east of Speer Boulevard extended the university's footprint into LoDo (lower downtown).

1994

International College Beijing

In 1994, CU Denver joined forces with China Agricultural University to establish the International College Beijing (<https://www.ucdenver.edu/academics/InternationalPrograms/OIA/icb/Pages/default.aspx>) (ICB). This global collaboration was the first of its kind in China. The cross-

cultural exchange of students and faculty increased CU Denver's reputation as a truly diverse academic community.

2000 – 2010

Colorado's Public Urban Research University

In 2004, the Board of Regents voted to consolidate CU Denver with the CU Anschutz Medical Campus. The consolidated CU Denver | Anschutz Medical Campus holds R1 status as a research university, the highest rating given by Carnegie Institute. CU Denver claimed its identity as “CU in the City,” Colorado's only public urban research university.

2011 – 2013

Welcome Milo the Lynx

In 2013, CU Denver unveiled its official mascot, Milo the lynx, who was named for a combination of the Mile High City and the campus' location near Lower Downtown.

2014 – Present

Campus Construction

The first part of the new millennium also brought significant change to CU Denver's campus. In 2014, the Student Commons Building opened as the university's first newly built facility, and in 2018, the Lola & Rob Salazar Student Wellness Center opened as the first named building on campus. The year 2021 will mark completion of a new residence hall named City Heights, designed specifically for first-year students.

Accreditation

The University of Colorado Denver is institutionally accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.

The commission can be contacted at:

230 South LaSalle Street, Suite 7-500
Chicago, IL 60604

Telephone: 1-800-621-7440

Many professional organizations have also granted accreditation to specific academic programs, colleges and schools at the Denver Campus, including:

- Accreditation Board for Engineering and Technology
- Association for the Advancement of Collegiate Schools of Business-International
- Colorado State Board of Education
- Commission on Accreditation of Healthcare Management Education
- Council for Accreditation of Counseling and Related Educational Programs
- Council for the Accreditation for Educator Preparation
- Landscape Architecture Accreditation Board
- National Architectural Accrediting Board
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- Planning Accreditation Board

Our Programs

As Colorado's only public urban research university, CU Denver is devoted to the needs of the residents of the city and the region. A solid foundation of academic and general education is assured through a comprehensive core curriculum. Students may pursue graduate education through all of the campus' colleges and schools. Pre-professional training in the fields of education, architecture, law, journalism and health careers is also available. Complete listings of areas of study available on the Denver Campus are available in the Programs (p. 759) section of the catalog.

The colleges and schools sections of this catalog provide information on bachelor's, master's and doctoral degree programs, policies on requirements for graduation, course requirements, course descriptions and other similar information.

College of Architecture and Planning (p. 153)

College of Arts & Media (p. 164)

Business School (p. 109)

School of Education & Human Development (p. 685)

College of Engineering, Design and Computing Course (p. 233)

College of Liberal Arts and Sciences (p. 292)

School of Public Affairs (p. 731)

Continuing and Professional Education

The Division of Continuing and Professional Education offers certificate/certification courses, professional development programs, precollegiate outreach programs and personal enrichment courses across the state of Colorado. Courses are offered in a variety of formats, including traditional on-campus, off-campus, online, hybrid, weekend, evening, short and condensed courses and many others.

Registration and tuition vary by school or college. Contact the specific school or college to learn about current program and course offerings or send an inquiry to continuingeducation@ucdenver.edu.

CAMPUS

Our Campus and Community

Located in downtown Denver, the University of Colorado Denver, Denver Campus is physically located on the 151-acre Auraria Campus, which is shared with two other institutions: Metropolitan State University of Denver and Community College of Denver. Because we share facilities, our students have access to the level of resources found at much larger public universities.

Three beautiful buildings are central to our student community: Student Commons, Student Wellness Center, and City Heights, our new first-year student housing building (opening Fall 2021). Students get together at Student Commons to study and eat. It's also home to Lynx Central, a help desk for prospective and current students that provides resources, referrals, and solutions. The Student Wellness Center houses a state-of-the-art sports and recreation facility, a Wellness Suite that includes the CU Denver Food Pantry, study rooms, a game lounge, and a two-story climbing wall. And City Heights, opening Fall 2021, will house our students in the center of campus life. On the east side of Speer Boulevard, you will find our three buildings located in the heart of downtown Denver: Lawrence Street Center, CU Denver Building, and the Business School. The three buildings are within walking distance of many restaurants, cafes, and shops, as well as the 16th Street Mall.

Our campus is convenient for students who live throughout the metro area's many diverse neighborhoods. Students who work downtown love that we are so close. And students who live north or south of the city along the Front Range Corridor also benefit from our centrally located campus.

Both our shared campus and our downtown location contribute to an inclusive community that fosters respect for diverse students and groups.

CityCenter Links Campus and Community

CityCenter provides university resources to civic, nonprofit, and business leaders. With a street-level, retail-like location at the southwest corner of 14th & Lawrence Street, CityCenter provides a physical and virtual portal for the community to connect with faculty expertise, student ingenuity, and other CU Denver resources. Staffed during regular business hours, CityCenter is open to community members who would like to access the university's knowledgeable faculty, innovative student population, and research capabilities.

About the Auraria Campus

The Auraria Campus is a dynamic and vibrant higher education community located in the heart of downtown Denver. The 150-acre campus is shared by three separate and distinct institutions of higher learning: Community College of Denver, Metropolitan State University of Denver, and University of Colorado Denver. This is the most efficiently utilized campus in the state. Classrooms on the Auraria Campus are used an average of 50+ hours per week. Classes are held from 8 a.m. to 10 p.m.; for building hours, please visit the AHEC website (<https://www.ahec.edu/campus-info/building-hours/>).

The Auraria Campus offers numerous amenities to students, faculty and staff, from the largest bookstore in the Rocky Mountain region to a state-

of-the-art fitness facility. Details of these amenities are outlined in this section.

In addition to its proximity to the thriving business and industry of downtown Denver, the Auraria Campus has a distinct historic flavor. The Tivoli Student Union is housed in a renovated brewery originally built in the 1860s. Historic Ninth Street Park, St. Cajetan's Church/Performing Arts Center, St. Elizabeth's Church, and the Emmanuel Art Gallery are also located on campus.

Auraria Higher Education Center

The Auraria Higher Education Center (AHEC) is a separate state entity whose role is to provide and manage shared services, facilities, and property to support these prominent institutions in achieving their goals. The collective student population is approximately 38,000, with an additional 5,000 faculty and staff.

AHEC provides common services for the campus including: classroom scheduling, facilities services and construction, campus police, telecommunications infrastructure, student union, media services, book store, early learning center, parking and transportation, mail services and facilities master planning. Visit the AHEC website (<https://www.ahec.edu/>) for additional information.

Auraria Campus Event Services

Location: 900 Auraria Parkway, Suite 325

Phone: 303-556-2755

Email: acesmaindesk@ahec.edu

Website: www.ahec.edu/eventservices/ (<http://www.ahec.edu/eventservices/>)

Auraria Campus Event Services (ACES) manages all non-academic events that take place on the Auraria Campus. From a simple meeting to an impactful campus event like Spring Fling or Fall Fest, our team is committed to providing quality service and producing successful events.

A majority of the event spaces on campus are located in the Tivoli Student Union, but other event venues are also available in St. Cajetan's Event Center, the PE/Event Center, and several outdoor event spaces including the Tivoli Quad. Student groups can contact us for assistance with locating and booking a space and coordinating support services.

Services available include:

- event facility scheduling
- event coordination and planning
- audiovisual rental, set-up, and support
- management of student filming on campus
- coordination of event advertising on campus
- organization of information and fundraising tables

Auraria Early Learning Center (Child Care Center)

Location: 950 9th Street Park

Phone Number: 303-556-3188

Email: Please refer to website for more information

Website: <https://www.ahec.edu/early-learning-center/> (<https://www.ahec.edu/services-departments/early-learning-center/>)

The Auraria Early Learning Center (AELC), a 5-star Colorado Shines-rated center, provides full-time programs for children 12-months to 5-years-old and summer camp for children through age 8. The center serves the students, faculty, and staff of the Auraria Campus. On a space-available basis, the center also serves the Denver community. All of the center's programs are fully licensed by the Colorado Department of Human Services.

Auraria Event Center/Student Recreation Center

Location: PE Building/Event Center, 1255 10th St Plaza, Denver, CO 80204

Phone: 303-615-1500

Email: campusrec@msudenver.edu

Website: <http://msudenver.edu/campusrec> (<http://msudenver.edu/campusrec/>)

The Auraria PE/Event Center is a 2,800-seat facility for team and individual sport activities, academic programs, events and conferences. Our purpose is to foster individual and community well-being through the power of engagement, leadership, partnership and recreation. We provide a wide range of affordable, high quality, and inclusive recreational and wellness opportunities designed to support personal, academic, community and institutional success of Auraria Campus students, faculty, staff, alumni and the community at-large. Our building consists of Fitness and Wellness, Outdoor Adventure and Leadership, Recreational Sports, Educations/Certification, Member Services, Employment Opportunities, Partnerships, and Community Outreach.

Auraria Library

Location: 1100 Lawrence Street Denver, CO

Phone Number: 303-315-7763

Email: Please refer to website for more information

Website: <https://library.auraria.edu/>

The Auraria Library connects users with ideas through technology-enabled information discovery and delivery on an "anytime, anyplace" basis. The Library's collections of learning materials, resources, and research services support the information, research, and curriculum needs of the Auraria Campus. We strive to create a welcoming environment that fosters equity, diversity, and inclusion and nurtures creativity and learning. We are deeply committed to ensuring equitable access to knowledge and information from diverse perspectives for everyone as we build a shared vision that challenges existing notions of the library and sparks discovery and curiosity about the world around us. Assistance from Library staff is available via one-on-one meetings, by phone, text, or chat on our website (<https://library.auraria.edu/>).

Auraria Media Center and Classroom Support

Location: 1100 Lawrence Street (East side of the Auraria Library), 015

Phone Number: 303-556-2426 **Classroom Equipment**

Service: 303-556-3342

Email: jennifer.kerber@ahec.edu

Website: <http://mediacenter.ahec.edu> (<https://www.ahec.edu/services-departments/classroom-support/media-center/>)

The Auraria Media Center and Classroom Support Services offers a full range of media services and classroom support:

- distance learning technologies including video conferencing, webinars, audio conferencing, video over IP and ISDN and videotaping of course delivery
- circulation of a wide range of audio, video and data (AVD) presentation equipment for one-time use
- long-term classroom equipment check-out
- production of content on digital tape, DVD, CD and videotape by an award-winning staff using state-of-the-art digital editing, graphics and animation systems
- quantity duplication of DVD, CD, audio and videotape media
- equipment maintenance and repair
- equipment/systems consultation and installation

The Auraria Media Center's 34-channel closed-circuit campus cable system can be used in the classroom to broadcast channels such as CNN, MSNBC, History, Discovery, A&E, PBS, CSPAN, NASA and local television networks. One channel is dedicated to and managed by each institution for distribution of programming of their choice.

Auraria Media Center staff are available to train faculty in the use of equipment in "smart" classrooms on campus and offer consulting services to faculty and other clients in such areas as media design and production, effective use of media types and effective use of distance learning technologies, effective use of those technologies and equipment selection to best meet instructional needs.

Auraria Media Center and Classroom Support Services will handle all of your classroom needs regarding furniture, projector screens, whiteboards, smart classroom equipment and ADA furniture placement.

Emmanuel Gallery

Location: 10th and Lawrence Street Pedestrian Mall

Phone Number: 303-315-7431

Email: jeff.lambson@ucdenver.edu

Website: <http://www.emmanuelgallery.org/>

Tri-institutional campus on Auraria Campus for over 35 years. Historical landmark who received the Mayor's Art for Excellence in 2012 featuring national, international artists, designers and architects as well as featuring student and faculty shows for each school on campus. Emmanuel Gallery's exhibitions are always free and open to the public. Stop in for a relaxing break.

Health Center at Auraria

Location: Plaza Building 150

Phone Number: 303-615-9999 **24 Hour Mental Health Crisis**

Line: 303-615-9911

Email: Please refer to website for more information

Website: www.healthcenter1.com (<https://www.msudenver.edu/healthcenter/>)

Medical Care

The Health Center at Auraria provides primary medical care, disease prevention, health education, wellness promotion, and various specialty services to all registered MSU Denver, CCD and CU Denver students.

The Health Center is open Monday through Thursday from 8 a.m. to 5 p.m., and Friday from 8 a.m. to 3 p.m.

Eligibility

All current Students, faculty and staff on the Auraria Campus are eligible for medical services. Be prepared to show a Student I.D. card or a photo ID each time you check in. Click here for more information about eligibility and payment options (<https://healthcenter1.com/eligibility-fees-and-service-charges/>).

Payment

Patients who participate or are enrolled in the MSU Denver or CU Denver Student Health Insurance will have their covered charges submitted directly to the insurance carriers. Patients are required to pay at the time of service for any plan exclusions and co-payments.

Health Center @ Auraria accepts most major health insurance plans because we understand the importance of health insurance for the individuals we serve. As insurance benefits shift and change, it is important to know your plan and what is covered before your appointment with your provider.

In an effort to assist our patients, Health Center @ Auraria has listed below the insurance plans we accept. We encourage you to access your individual policy, and identify what your specific plan will cover. Please note that, while many wellness and preventative services may now be covered 100% by your plan, specific benefits will vary according to your policy benefits.

It is imperative that patients review and understand their financial responsibility and portion of the services that are provided to them. Please contact your insurance carrier for specific details of your plan. Click here for more information regarding health insurance (<https://healthcenter1.com/health-insurance/>).

We currently accept most insurance plans with the following carriers:

Aetna: <https://www.aetna.com>

Anthem Blue Cross/Blue Shield: <https://www.anthem.com>

Cigna: <https://my.cigna.com>

Cofinity: (refer to the link on the back of your insurance card)

Humana: <https://www.humana.com>

Multi-plan: (refer to the link on the back of your insurance card)

Rocky Mountain Health Plan: <http://www.rmhp.org>

TriCare: <https://tricare.mil> (<https://www.tricare.mil>)

United HealthCare: <https://www.myuhc.com>

Staff

The Health Center is staffed by Physicians, Physician Assistants, Nurse Practitioners, Radiologic Technologists, Medical Assistants, and Allied Health Professionals. Psychiatrists and Gynecologists provide specialty medical care.

Appointments

To be respectful of your time it is suggested that you schedule an appointment in advance by calling (303) 615-9999. Walk-in Care is also available on a "first come / first served" basis. Patients are encouraged to arrive early to increase the likelihood of Walk-in availability. Patients are scheduled for a same day or a future appointment according to the severity of their medical need.

Services

The Health Center at Auraria can treat the majority of your health concerns on-site, including illnesses, injuries and physicals. See the list below for other on-site services.

- Illness Treatment
- First Aid
- Urgent Care
- Physical Examinations
- Lab Testing
- X-ray
- Medications
- Skin and Mole Evaluations
- Immunizations
- Blood Pressure Check
- Annual Gynecologic Exams
- Sexual Assault Services
- Transgender Care
- Safer Sex Instruction
- Sexually Transmitted Disease Screening and Treatment
- Pregnancy Tests
- Birth Control Information and Supplies
- Colposcopy/Cryotherapy
- Referral to On-Site Physician Specialists

- Cholesterol Screening/Fitness Analysis
- Minor Surgery/Suturing/Biopsies

Free Clinical Services

The Health Center at Auraria offers a variety of services at no charge regardless of insurance coverage. These exclusive free services are available to all MSU Denver, CU Denver, CCD and AHEC students, faculty and staff.

Free services include:

- Flu Vaccination
- HIV Testing, including Rapid HIV Testing
- Nutritional Counseling
- Prescriptive Exercise Rehabilitation
- Tobacco Cessation - includes free medication if indicated

King Academic and Performing Arts Center

Location: 855 Lawrence Way

Phone Number: 303-556-2296

Email: Please refer to website for more information

Website: www.ahec.edu/kingcenter/ (<http://www.ahec.edu/kingcenter/>)

The King Center houses six performing spaces: three permanently assigned production studios, a 197-seat recital hall; 520-seat concert hall; and the 270 seat Eugenia Rawls Courtyard Theatre. There are dressing rooms, green room, recording studio, lighting lab, music electronics lab, classroom space, box office, scene shop, paint shop and costume shop. All spaces are fully equipped with state-of-the-art equipment and a variety of spaces for exhibiting fine art. The entire facility has more than 180,000 square feet dedicated to the education of the student and development of the student who wishes to study performance/arts. The center can support many forms of entertainment, anywhere from legit theatre to large choral ensembles and other forms of performances.

Tivoli Student Union

Location: 900 Auraria Parkway #325

Phone Number: 303-556-6330

Email: an (angela.levally@ahec.edu)gela.levally@ahec.edu (Angela.LeValley@ahec.edu)

Website: www.ahec.edu/tivoli (<http://www.ahec.edu/tivoli/>)

The Tivoli Student Union, managed by the Auraria Higher Education Center's Student Facilities Services department, provides a wide variety of amenities for the campus community. As the hub of the campus, the Tivoli Student Union houses the campus bookstore, called Tivoli Station, full-service restaurants and a food court, conference and meeting spaces, and facilities for recreational, social, and organized co-curricular student activities. The following services are located in the Tivoli Student Union:

- Tivoli Station (formerly Auraria Campus Bookstore)
- Full-service restaurants and a food court
- ID Station (located within Tivoli Station)
- Conference and meeting spaces
- i-lov-iT Market convenience store
- Tivoli Starbucks
- Facilities for recreational, social, and organized co-curricular student activities
- Credit Union of Denver
- Free mobile charging stations (located in Tivoli Station)
- Study lounges and spaces

ID Center (Commuter Resource Center)

Location: 900 Auraria Parkway, Suite 269

Phone Number: 303-556-8352

Email: ids (idstation@ahec.edu)tation@ahec.edu (IDStation@AHEC.edu)

Website: www.ahec.edu/id-center (<http://www.ahec.edu/id-center/>)

The Commuter Resource Center (ID Center) provides information about programs and services available to the campus community related to commuting to campus, student IDs, the RTD CollegePass, off-campus housing, getting around campus, and much more. Visit the ID Center to get your University of Colorado Denver student ID card and your RTD CollegePass smart card for unlimited rides on the RTD bus and light rail system.

Tivoli Station (Campus Bookstore)

Location: Tivoli Student Union, suites 105 and 205

Phone number: 303-556-4286

Email: tivolistation@ahec.edu

Facebook: facebook.com/TivoliStation (<http://www.facebook.com/TivoliStation/>)

Website: www.tivolistation.com (<http://www.tivolistation.com>)

We've got you covered at Tivoli Station, your best resource for **technology, CU Denver spirit gear, and cost-saving options for textbooks**. We offer both convenience and value. Look to us for easy one-stop shopping and a variety of programs designed to benefit students.

• Tech Station

As an **Apple Authorized Campus Store** and **Apple Authorized Service Provider**, we offer student discounts and in-store tech support. We also carry **Dell** computers, discounted HP technology, calculators, flash drives, headphones, and more.

• Book Station

Thousands of textbook titles are available to rent (save up to 50%) or **buy new or used**. At the end of each semester, sell your used books for cash with the **Textbook Buyback Program**, a service we offer to help offset student expenses.

You can also visit ahec.verbacompare.com (<http://www.ahec.verbacompare.com>) to compare textbook prices from the web, giving you options to find the best value available.

• Lynx Station

Show your school spirit with **CU Denver clothing and gear**, such as shirts, hats, pants, lanyards, hoodies, mugs, and water bottles.

• Supply Station

We offer a variety of course supplies, including general school supplies and art, culinary, and science lab materials.

• Reading Station

In the general merchandise area, we provide study aids, reference materials, gift items, and discounted New York Times Bestsellers.

• Charging Station

Charge your device for free using one of our phone ports or outlets.

• Snack Station

Grab a snack while you are waiting for your device to charge, or take it on the go. We have pre-wrapped sandwiches, drinks, yogurt, chips, and candy.

• Campus Commitment

We are committed to the campus. Revenue from the bookstore helps fund campus programs and keeps your student bond fee down. We are also one of the largest student employers on campus.

Downloadable PDF: General-Campus-Map.pdf (<http://catalog.ucdenver.edu/cu-denver/about-cu-denver/campus/General-Campus-Map.pdf>)

For an interactive version of the CU Denver campus map, please visit the Campus Map website (<https://www.ucdenver.edu/maps/cu-denver-map/>).

For additional Auraria Campus maps (including but not limited to parking, campus accessibility, landing zones and lounges), please the Maps website (<https://www.ahec.edu/campus-info/maps/>).

Parking & Transportation Services

Location: 777 Lawrence Way, 1st Floor

Phone: 303-556-2003

Email: ahec_parking@ahec.edu

Website: <https://www.ahec.edu/services-departments/parking> (<https://www.ahec.edu/services-departments/parking/>)

A degree should help you get somewhere, and how you get to campus to earn that degree is an important thing to consider. CU Denver students have several options for traveling to and from campus safely and efficiently. CU Denver is conveniently located downtown near multiple light rail stations and bus stops. Bicycle commuting is also a popular option, given Denver's sunny weather, active culture, and miles of protected bike lanes. If you prefer to drive, there are parking spots available, too.

Parking Garages and Lots

Click here (<http://catalog.ucdenver.edu/cu-denver/about-cu-denver/campus/Parking-Map.pdf>) to download a copy of the parking map.

Tivoli Garage

Located at 9th Street and Auraria Parkway

- Use pay machine or pay-by-cell (license plate # needed)
- Payment required 24/7, 365 days a year
- **Payment is required immediately upon parking**
- Citations will be mailed instead of placed on the windshield

7th Street Garage

Located at Lawrence Way and 7th Street

- Attended Garage | Pay-on-exit
- Monday–Thursday: 6:30 a.m.–10:30 p.m.
- Fridays: 6:30 a.m.–6 p.m.
- Saturdays: 8 a.m.–4:30 p.m.
- Sundays: closed (except for special events)

*Please Note: As of November 9, 2020:

- The 7th Street Garage will not be attended.
- Parking validations will no longer be accepted
- Parking in the 7th Street Garage will be available for 7th Street Garage and Juniper Permit Holders, and all Gold Passport holders
- You can pay for parking with the free ParkMobile App, or you can call (877) 727-5457 and enter Zone #3047

5th Street Garage

Located at 5th Street and Walnut Street

- Use pay machine or pay-by-cell (license plate # needed)
- Payment required 24/7, 365 days a year
- Payment is required immediately upon parking

Vehicles that remain in garages after closing may be retrieved by contacting the Auraria Campus Police Department at 303-556-5000.

Daily Fee Lots

- All surface lots on campus are unattended and require payment by license plate number at a pay station or by cell phone.
- You may keep the payment receipt for your records, but it doesn't need to be displayed on your dash.
- Payment is required immediately upon parking.

Metered Parking

- Parking meters on the Auraria Campus are intended for short-term parking.
- Parking meters accept credit cards and coins.
- Parking permits and passports issued by Auraria Campus are not acceptable forms of parking meter payment.
- State issued blue disability placards and disability license plates are not exempt from payment at Auraria Campus parking meters.

Motorcycle Parking

- Motorcycle-designated spaces are available in the 5th Street Garage and Tivoli Parking Garage.

Accessible Parking

Accessible parking is available in nearly all lots on the Auraria Campus. Parking spaces are marked and reserved for vehicles that have a state-issued or campus-issued hangtag. See requirements below:

- **Permit lots and spaces:** an AHEC-issued permit is required
- **Daily-fee lots and garages:** a state-issued hangtag for persons with disabilities is required

All accessible parking on campus follows the standard Auraria Campus fee schedule. Daily-fee lots require payment at the time of parking.

Click here (<https://www.ahec.edu/files/general/Accessible-Parking-Guide.pdf>) to view the Accessible Parking Guide

Parking Permits

A number of lots are reserved for permit holders who purchase a prepaid permit each semester. Prepaid permits allow in-and-out privileges. Most permits can be customized to accommodate specific days of the week.

How to Purchase a Permit

- Purchase a Permit online » (<https://ahec.t2hosted.com/Account/Portal/>)
- Visit the Parking & Transportation Services Office (777 Lawrence Way in the 7th Street Garage). **In accordance with CDPHE Guidelines:** We are practicing safe social distancing, and only 5 people are allowed in the office at a time. The parking Staff is wearing masks, and you must wear a mask when you enter the office to purchase your permit.
- **Please bring the following:**
 - Current campus ID (or semester schedule)
 - Current vehicle registration
 - Payment in the form of a check, cash, or charge card (Visa, MasterCard, Discover, American Express)
 - For **accessible parking**, a valid disability parking registration, a valid disability parking placard or a valid disability license plate is required

Parking Rules and Regulations

The Auraria Campus Parking & Transportation Services is a self-supporting auxiliary enterprise, receiving no state appropriations.

Parking fees are established by the Auraria Board of Directors to provide sufficient annual revenue to support the cost of operation, maintenance, and development of the Auraria Campus Parking & Transportation Services.

State law prohibits the use of public funds or student bond fees for the construction or operation of the AHEC parking system. Therefore, construction improvement, maintenance, and operation of all parking facilities at Auraria Campus are financed solely through user fees.

Click here (<https://www.ahec.edu/files/general/Policy-Parking-Rules-Regs.pdf>) to view Parking Rules & Regulations

Public Transit (RTD) and Alternative Transportation

RTD CollegePass

The CU Denver RTD CollegePass provides students access to buses, light rail, Call-n-Ride, and Skyride. RTD CollegePass helps get you to and from campus and across the city. The cost for the pass is included in student fees.

Click here (<https://www.ahec.edu/services-departments/parking/rtd-alternative-transportation/>) for more information.

RELATED ORGANIZATIONS

CU Denver Alumni

Mailing Address:

Lawrence Street Center
Office of Advancement | Alumni Engagement
1380 Lawrence Street Center, Suite 1201
Denver, CO 80204 (*mailing and physical*)

Telephone: 303-315-2333

E-mail: alumni@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/cu-denver-alumni> (<https://www.ucdenver.edu/offices/cu-denver-alumni/>)

CU Denver Alumni is the formal name for our community of former students including over 104,000 graduates from any of the University's undergraduate, graduate, and certificate programs. While 67% of our graduates stay in Colorado, our global community stretches across 105 countries.

CU Denver Alumni seeks to engage graduates in the life of the university and with each other through advocacy, philanthropy, volunteering, and lifelong learning.

CU Denver Alumni Relations sponsors activities and programs to benefit and engage alumni, current students, and friends of the university. By fostering loyalty among our alumni and providing opportunities for involvement, CU Denver Alumni Relations facilitates an environment in which alumni can establish life-long contact with their alma mater.

CU Denver Alumni is part of the Office of Advancement (<https://www1.ucdenver.edu/offices/office-of-advancement/home/>) which connects those who are passionate about education and research to the people and programs at CU Denver who can excel with their support.

CU Denver academic leadership establishes priorities for private support, and gifts are directed to the specific schools, program, or purpose that the donor designates. CU Denver Advancement staff identify and/or generate interest in the university, assist donors in gift planning, solicit gifts in collaboration with academic partners and leaders, and establish and maintain relations with alumni. (Gift funds are managed and invested by the partner University of Colorado Foundation, which also manages the university endowment).

These gifts endow scholarships and professorships, further research, enrich academic programs, upgrade and construct facilities, and support projects and programs in all areas of the university.

Office of University Advancement

Mailing Address:

Lawrence Street Center
Office of Advancement | Alumni Engagement
1380 Lawrence Street Center, Suite 1201
Denver, CO 80204 (*mailing and physical*)

Telephone: 303-315-3601

Fax: 303-315-2063

Email: advancement@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/office-of-advancement> (<https://www.ucdenver.edu/offices/office-of-advancement/>)

The Office of Advancement connects those who are passionate about education and research to the people and programs at CU Denver who can excel with their support. We serve as a trusted campus and community resource that inspires alumni pride and private support to advance CU Denver's mission, and we work to ensure a bright and promising future for CU Denver through robust engagement, transformative philanthropy, and a deep sense of pride in the university. We are also grateful for the advocacy and support provided by the Chancellor's Development Committee (<https://www.ucdenver.edu/offices/office-of-advancement/about-us/chancellors-development-committee/>), a group of alumni and friends who volunteer their time and expertise in support of CU Denver's educational mission.

STUDENT SERVICES AND OTHER STUDENT RESOURCES

Lynx Life

Here you are: At an urban university with powerful programs and opportunities—for your education, your career, your life. On a high-energy, downtown campus right next to the Rocky Mountains. Part of a strong CU Denver Lynx community, where we lift one another up to meet our challenges. You are right where you belong. Below are some of programs you are able to utilize as a CU Denver student.

CU Denver Live!

Location: Various Locations: refer to website for more information

Phone: 303-315-5483

Email: live@ucdenver.edu

Website: <https://cudenverlive.com/>

CU Denver Live! is a student run arts programming committee that works as a sub-committee under The Events & Partnerships. *CU Denver Live!* strives to program arts events that spark the interests of numerous types of students while maintaining a multicultural and educational mindset. Additionally the team hopes to create a fun and inclusive atmosphere that promotes school pride and a sense of community at CU Denver.

Center for Identity & Inclusion | Diversity, Equity & Inclusion

Location: Student Commons Building, Room 2007

Phone: 303-315-1880

Email: cii@ucdenver.edu

Website: <http://www.ucdenver.edu/about/departments/odi/CII/Pages/default.aspx>

Office Hours: 8:00 am - 5:00 pm

The Center for Identity & Inclusion (CII) provides services: a) to support underrepresented students and b) to promote a diverse and inclusive campus for all students, faculty, and staff.

American Indian Student Services

Location: Student Commons Building, Room 2007C

Phone: 303-315-1882

Email: grace.tyon@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/american-indian-student-services> (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/american-indian-student-services/>)

American Indian Student Services (AISS) welcomes students of all American Indian and Alaska Native heritages! AISS serves both students who are tribally enrolled and those who identify but are not enrolled in their tribes.

CU Denver American Indian and Alaska Native students represent more than 100 different tribes. The Denver Indian Community is strong! Many families in Denver live far from tribal homelands, yet retain tribal identities and cultures. Twenty percent speak Native languages. The Southern Ute and the Ute Mountain Ute Tribes, located in the Four Corners area are the two federally-recognized tribes in Colorado.

Asian American Student Services

Location: Student Commons Building, Room 2007E

Phone: 303-315-1879

Email: soyon.bueno@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/asian-american-student-services> (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/asian-american-student-services/>)

Asian American Student Services within the Center for Identity & Inclusion offers a wide array of services and programs to support, engage, and educate all students.

Our mission:

- Support the retention, graduation, and success of Asian American Pacific Islander students
- Encourage students to become actively engaged in their learning experience
- Promote students' exploration of social identity, leadership, and professional development
- Provide opportunities for networking

Black Student Services

Location: Student Commons Building, Room 2007F

Phone: 303-315-1881

Email: omar.montgomery@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/black-student-services/>

Black Student Services Program offers a uniquely-designed network of support services to assist students in all phases of their educational career at CU Denver. Since its inception in 1969, Black Student Services has helped hundreds of students with admission into undergraduate and graduate programs, academic counseling, and peer support services. Because we believe that students should have a strong supportive environment during their education, we subscribe to the concept of Jamaa II: "a second family away from home."

Latinx Student Services

Location: Student Commons Building, Room 2007H

Phone: 303-315-1878

Email: abenicio.rael@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/latinx-student-services> (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/latinx-student-services/>)

The mission of Latinx Student Services is to provide an inclusive environment to support the intersectional experiences, diverse cultures, and educational goals of Latinx students at CU Denver.

Undocumented Student Services

Location: Student Commons Building, Suite 2007

Phone: 303-315-1883

Email: uss@ucdenver.edu

Website: <https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/undocumented-student-services> (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/undocumented-student-services/>)

The mission of the Undocumented Student Services Program is to serve DREAMer and mixed status students at all intersections of

documentation and equity needs, to support DREAMers in achieving their degree, to create an equitable educational environment, and to advocate alongside students for continuous improvements in the DREAMer college experience. The University of Colorado Denver remains committed to providing access to all qualified students, including students under the Deferred Action for Childhood Arrivals (DACA (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/undocumented-student-services/terminology/>)) and Advancing Students for a Stronger Economy Tomorrow (ASSET (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/undocumented-student-services/terminology/>)) program. ASSET, DACA, Mixed Family Status (<https://www.ucdenver.edu/offices/diversity-and-inclusion/our-offices/undocumented-student-services/terminology/>), and undocumented students are valuable members of our student body whom we strive to ensure are safe and respected on our campus. We are pleased to provide a variety of services, support, and information for students, faculty, and staff to help undocumented students succeed at CU Denver and CU Anschutz.

Women & Gender Center

Location: Tivoli Student Union 310

Phone: 303-315-7262

Email: WGC@ucdenver.edu

Website: www.ucdenver.edu/wgc (<https://www.ucdenver.edu/wgc/>)

The Women & Gender Center (WGC) at CU Denver is committed to advancing issues of gender equity and supporting the gender-focused needs of students, faculty, and staff on the Auraria campus. The mission of the Women and Gender Center is to address gender inequities and foster a campus community that values inclusion, social justice, equity, and respect for everyone regardless of background and experience. We are committed to enacting intersectional feminism in our programming by exploring gender as it overlaps and interacts with the multiple identities that people inhabit across their lifespans. We serve all members of the CU Denver community, regardless of gender identity.

Disability Resources and Services Office

Location: Student Commons Building, Room 2116

Phone: 303-315-3510

Email: disabilityresources@ucdenver.edu

Website: <http://www.ucdenver.edu/disabilityresources> (<http://www.ucdenver.edu/disabilityresources/>)

The Office of Disability Resources and Services (DRS) is committed to providing equal opportunities and fostering the personal growth and development of students with disabilities. The DRS staff strives to meet the needs of a large and diverse community of students with disabilities. We are available to provide assistance and to arrange for reasonable accommodations that will address specific educational needs. Accommodations may include, but are not limited to, the following:

- Priority registration for classes
- Assistance in identifying volunteer note takers
- Alternative testing for assessment tests and classroom examinations
- Oral/sign language interpreters
- Real-time captioning
- Textbooks in alternate formats (audio taped, Braille, enlarged, scanned)

ESL Academy

Location: 1100 Lawrence St #014

Phone: 303-315-2383

Email: esl@ucdenver.edu

Website: <http://esl.ucdenver.edu>

The University of Colorado Denver's English as a Second Language (ESL) Academy offers a rich diversity of academic, social, and cultural learning opportunities. The Academy offers high-quality, year-round ESL instruction specifically designed for university preparation. The curriculum helps students improve their language skills through a rigorous program of study, campus involvement, and cultural and educational activities.

Our program offers the following distinctive advantages when compared against other programs:

The curriculum is designed especially for university-bound students. In addition to mastering academic English, students will learn how to succeed academically at the University of Colorado Denver.

Students in the ESL Academy will be considered University of Colorado Denver students. They will be on the university campus from day one of our program and will be eligible to live in university housing, though there will be limited availability for students who join our program mid-term.

Students will have access to all of the activities and resources that the university has to offer, not to mention the spectacular outdoors and urban life in Denver and Colorado.

The ESL Academy also offers the LynxDirect Pathway for students. This 16-week program allows students to complete level 5, our highest level, in the first 8 weeks of the semester and then complete 6 credits towards an undergraduate degree in the second 8 weeks of the semester.

When a student completes the ESL Academy successfully, s/he will automatically fulfill the University of Colorado Denver's English language proficiency requirement and will be eligible for full admission.

Students will be issued a Form I-20 from the University of Colorado Denver for a seamless immigration experience and will not have to transfer their immigration status to begin their degree program upon complete completion of the ESL Academy.

Students will benefit from a seamless transition to university degree programs after they successfully complete the ESL Academy, thus maximizing the prospects of their success.

For full details, visit the ESL Academy online at esl.ucdenver.edu. Here, students can get information about:

- The online application (<https://clas.ucdenver.edu/esl/future-students/application-information/>)
- Program information (<https://clas.ucdenver.edu/esl/academics/curriculum-overview/>)
- Tuition and Fees (<https://clas.ucdenver.edu/esl/future-students/tuition-fees/>)
- International Student Services (<https://www.ucdenver.edu/services/international-student-and-scholar-services/>)

If you have additional questions you may send an email to esl@ucdenver.edu or call 303-315-2383. Located at 1100 Lawrence Street #014 Denver, CO 80204

LGBTQ Student Resource Center at Auraria

Location: Tivoli Student Union 213

Phone: 303-615-0515

Email: info@glbtss.org

Website: <https://www.msudenver.edu/lgbtq/>

The LGBTQ Student Resource Center is a tri-institutional office on the Auraria Campus serving the students, faculty and staff of Metropolitan State University of Denver, Community College of Denver and University of Colorado at Denver. We are available to all Auraria students as a resource for exploring issues of sexual orientation and gender identity.

The LGBTQ Student Resource Center is located in the Tivoli Student Union, Room 213, and is staffed by a director and assistant director, with the support of student employees and volunteers. Input and involvement from the entire campus community are welcomed. Our center offers a variety of support, education, and advocacy services for the entire campus community including:

- Support for those who may have questions about their own sexual orientation, gender identity, gender expression, or that of a friend or family member
- Advocacy for students experiencing discrimination or harassment based on a real or perceived LGBTQ identity
- Speakers for events, workshops, and classes on various aspects of sexual orientation/gender identification
- Programs and workshops about working more effectively with the gay, lesbian, bisexual, and transgender communities and combating misinformation, misconceptions, and homophobia
- Resource library with over 1700 books and videos (documentary and cinema) available for research and leisure as well as a multitude of free literature regarding other organizations and services throughout Denver and Colorado that provide outreach, services, and advocacy.

LynxConnect

Location: 900 Auraria Parkway #439 (Tivoli Annex)

Need help connecting what you're studying to your future goals? LynxConnect is your one-stop-shop for enhancing your student experience, expanding your global perspective, researching your world, discovering internships, finding campus employment and exploring your career options.

Four Offices, One Location

Our brand new 15,000 square foot center is focused on providing you with experiences outside the classroom, making you more marketable as you prepare for your next chapter in life, career and job search. Make an appointment or drop in to meet with an expert who can tackle your questions and help you gain hands-on, real-world experience.

The Career Center

Location: Tivoli Student Union, LynxConnect, Suite 439

Phone: 303-315-4000

Email: CareerCenter@ucdenver.edu

Website: <https://www1.ucdenver.edu/services/career-center> (<https://www1.ucdenver.edu/services/career-center/>)

The Career Center offers a full array of services that prepare students for their transition from college to career. Students are encouraged

to participate in career-related events and services as early as their freshman year. This includes obtaining help in choosing a major, deciding on career options, and mapping out experiences necessary to be successful upon graduation. The Career Center also supports students in refining job search skills like resume & cover letter writing, interview preparation, and targeting employers through our internship and job board called Handshake.

The Career Center's mission is to provide personal and meaningful interactions with students, alumni and employers in order to prepare them for the world of work.

Internships

Location: Tivoli Student Union, LynxConnect #439

Phone: 303-315-7258

Email: Experiential.LearningCenter@ucdenver.edu

Website: <https://www.ucdenver.edu/lynxconnect/internships> (<https://www.ucdenver.edu/lynxconnect/internships/>)

Experiential learning includes a variety of activities with one common goal-to immerse you in hands-on learning outside the classroom where your experience is at the heart of the learning process. The Experiential Learning Center (ELC) serves students, faculty, and employers as a resource for experiential learning opportunities. We offer information, resources and support in the development and coordination of academic and non-academic internship experiences, professional skill development opportunities, and undergraduate research experiences.

Undergraduate Research & Creative Activities

Location: Tivoli Student Union, LynxConnect, Suite 439

Phone: 303-315-4000

Email: LynxConnect@ucdenver.edu

Website: <https://www.ucdenver.edu/lynxconnect/undergraduate-research> (<https://www.ucdenver.edu/lynxconnect/undergraduate-research/>)

The Office of Undergraduate Research & Creative Activities (URCA) is your connection to the research opportunities that are out there just waiting for you. We're here to help you get the information you need to jump-start your research career.

This is your chance to connect your classroom learning to real-world research opportunities through grants, work-study, summer fellowships, and more.

It's education through undergraduate research and creative activities and we call it EURēCA! Once you've discovered the possibilities, you'll see why.

The EURēCA! Program

The Education Through Undergraduate Research and Creative Activities (EURēCA!) Program is your connection to the support you need to succeed in research activities at CU Denver | Anschutz. We help with grants, student research jobs, and fellowships, and feature student projects at our annual symposium.

The Office of Global Education | Study Abroad

Location: Tivoli Student Union, LynxConnect Suite 439

Phone: 303-315-2001

Email: study.abroad@ucdenver.edu

Website: <https://www.ucdenver.edu/students/study-abroad> (<https://www.ucdenver.edu/students/study-abroad/>)

The Office of Global Education / Study Abroad provides academically and professionally relevant international experiences to a diverse student population at the University of Colorado Denver | Anschutz Medical Campus. These experiences equip students with cross-cultural skills necessary to succeed in an interconnected global society. The Office of Global Education is committed to providing students with a wide range of engaging and affordable study, internship, research, and clinical opportunities.

International program offerings vary to meet the needs and interests of all students. These programs are open to undergraduate, graduate, and international students; it is not necessary to be a particular major to participate. Program lengths range from two weeks to an academic year or more. The vast majority of programs do not require language proficiency beyond the English language.

The Office of Global Education strives to keep study abroad programs affordable. In most cases, students are able to utilize financial aid and are eligible for an array of internal and external scholarships. For the most current information on programs, policies, and funding, please visit the Office of Global Education website at <https://www.ucdenver.edu/students/study-abroad> (<https://www.ucdenver.edu/students/study-abroad/>) or visit LynxConnect in the Tivoli.

Office of International Affairs

Location: Lawrence Street Center, Suite 932

Phone: 303-315-2230

Email: Please refer to website for more information

Website: <https://www.ucdenver.edu/offices/international-affairs> (<https://www.ucdenver.edu/offices/international-affairs/>)

The Office of International Affairs (OIA) serves the university by providing administrative support, strategic advice, technical services, collaborative educational programs with the university's 13 schools and colleges, and related services that contribute to the strategic international goals of the university. OIA provides visa and orientation services to international students and scholars; offers expertise in the development and maintenance of undergraduate, graduate and professional global education; assists with brokering and designing bilateral international educational programs; and offers comprehensive international recruitment and admissions services. OIA addresses international policy issues, has oversight of international risk management protocols, serves as a resource for best practices in the internationalization of higher education, maintains central data bases pertaining to international activities of the university, advises on the development of international affiliations and agreements, assists departments/programs and schools/colleges with the development of comprehensive international strategic planning, and seeks to promote and support initiatives that advance international research, education, and global cooperation in order to enhance the reputation of the University of Colorado Denver | Anschutz Medical Campus.

OIA also serves as a resource for faculty seeking international research opportunities, provides a comprehensive list of international scholarship/fellowship information, and serves as the institutional liaison for the CIES Fulbright Scholars Program.

The divisions of OIA include:

- International Operations (<https://www.ucdenver.edu/offices/international-affairs/about/staff/international-operations> (<https://www.ucdenver.edu/offices/international-affairs/about/staff/international-operations/>))

- Global Education: Study Abroad (<https://www.ucdenver.edu/students/study-abroad> (<https://www.ucdenver.edu/students/study-abroad/>))
- International Admissions (<http://www.internationaladmissions.ucdenver.edu> (<http://www.internationaladmissions.ucdenver.edu/>))
 - For more information, visit the Undergraduate (p. 46) and Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/international-admissions/>) catalogs.

International Student and Scholar Services

Location: Lawrence Street Center, Suite 932

Phone: 303-315-2230

Email: isss@ucdenver.edu

Website: <https://www.ucdenver.edu/services/international-student-and-scholar-services> (<https://www.ucdenver.edu/services/international-student-and-scholar-services/>)

The International Student & Scholar Services (ISSS) unit in the Office of International Affairs serves approximately 1,400 international students and 500 international scholars from all over the world each year. ISSS is responsible for ensuring university-wide compliance with a wide range of federal regulations relating to the enrollment and/or employment of international students and scholars. ISSS creates immigration documents, coordinates Check-In and Fundamentals sessions for new international students, helps students maintain their immigration status once they are here, offers a variety of programs and activities, and advises students on everything from adjusting to a new culture to applying for work authorization. ISSS also works closely other members of the University of Colorado Denver community to ensure the success of our international students. For additional information about ISSS staff members and the services we provide, please visit our website at international.ucdenver.edu/ISSS (<http://www.international.ucdenver.edu/ISSS/>)

International College Beijing

International College Beijing- <https://www.ucdenver.edu/offices/international-affairs/partners/international-college-beijing> (<https://www.ucdenver.edu/offices/international-affairs/partners/international-college-beijing/>)

International College Beijing (ICB) is a joint education program between the University of Colorado Denver (CU Denver) and China Agricultural University (CAU), located in Beijing, People's Republic of China. The partnership, formed in 1994, was one of the first of its kind approved by the Chinese Ministry of Education.

At ICB students can choose to earn a CU Denver Bachelor of Arts degree in either economics or communication on site in Beijing. Students can also choose to study in Denver to complete their undergraduate programs after a year or two of study at ICB. As courses are taught in English by CU Denver faculty, U.S. students can learn or perfect their Chinese while pursuing rigorous courses alongside ICB Chinese students, fostering a truly global classroom experience.

ICB is located on the east campus of China Agricultural University in the Haidian district north of downtown Beijing. The campus is a 30-minute ride from downtown Beijing, Beijing International Airport and major cultural centers such as Tiananmen Square, the Forbidden City and the Summer Palace.

Joanne Wambeke, International Student Cohort and International Operations Manager, joanne.wambeke@ucdenver.edu, 303-315-2121.

The Office of Student Life and Campus Community

Location: Tivoli Student Union 303

Phone: 303-315-7288

Email: studentlife@ucdenver.edu

Website: <https://www.ucdenver.edu/student-life> (<https://www.ucdenver.edu/student-life/>)

The Office of Student Life integrates the academic, residential, and co-curricular spheres of student's lives, linking the out-of-class experience to the academic mission of the University while enhancing the overall educational experience of students through the development of, exposure to and participation in social, cultural, intellectual, recreational, leadership and governance programs. Student Life and Campus Community is the advising, coordinating, resource and general information center for student organizations, the academic honor societies student government and the student newspaper. We collaborate with students, faculty, administrators, and other partners both inside and outside of the CU Denver community to create safe environments for students. In addition, we create opportunities for students to learn through active participation and reflection where they can develop as responsible leaders and engage with their peers and cultivate appreciation for diversity and the betterment of our global society. Student Life and Campus Community is comprised of Student Organizations and Student Leadership Programs, Volunteer and Community Engagement, and Parent and Family Program.

Student Newspaper: CU Denver Sentry

Location: Tivoli Student Union, 345

Phone: 303-556-2535

Email: Please refer to website for more information

Website: www.cu-sentry.com (<http://www.cu-sentry.com>)

Since 1964, *The Sentry* has served as CU Denver's premier source of campus and community news for students and members of the university community. This paper has published every Wednesday and continues to do so in this new century providing the latest in campus news and events in the Denver community. Once known as *The Advocate*, as of 2016 *The Sentry* has once again revived the original name in efforts of getting back at our original history. *The Sentry* boasts a succinct team of more than 15 contributing members working under 4 editorial sections that help contribute to making the paper come to life each week. Student's serve at *The Sentry's* editors, writers, photographers, and visual designers. An editorial team composed of CU Denver students serves as the official representatives in expressing the CU Denver student body views and ideas. CU Denver may not have a journalism program, but *The Sentry* serves as the opportunity to expose students to the world of journalism. Learning practical skills in writing, editing, and publishing. *The Sentry* serves as a resource to the students, faculty, and staff and community members of Denver and the Auraria Campus. The print paper offers coverage of not only on-campus events and topics but as well as encouraging the community to find something to call their own in the city of Denver.

Student Organizations

Location: Tivoli Student Union 303

Phone: 303-315-7288

Email: Please refer to website for more information

Website: <https://www.ucdenver.edu/student-life/student-organizations> (<https://www.ucdenver.edu/student-life/student-organizations/>)

Get involved with a student organization, student government or the campus newspaper. CU Denver houses over 100+ student organizations whose focus range from academics to culture, faith/spirituality, community service, professional development, and everything in between! We help students register with student organizations, and provide services, information, education, support, and advising to assist with the development and strengthening of students and student groups. In addition, we provide multiple opportunities for students to engage in practicing and developing their leadership skills. Leadership programs include diverse leadership conferences including CO-Leads, a state wide multi-cultural leadership conference; and the Lynx Leadership Conference, a program designed to increase the leadership skills of CU Denver Students. We also provide leadership trainings that enhance the co-curricular experience on campus through programs such as Leadership On demand, a program designed for students involved in student organizations on campus; and Student Government Association, providing a voice for students on campus. We encourage students to take advantage of shared governance and increase the sense of community on campus through all of the leadership programs.

Student Leadership Programs

Location: Tivoli Student Union 303

Phone: 303-315-7288

Email: Please refer to website for more information

Website: <https://www.ucdenver.edu/student-life/leadership-programs> (<https://www.ucdenver.edu/student-life/leadership-programs/>)

CU Denver provides leadership education programs and workshops through the Office of Student Life and Campus Community, and Peer Advocate Leaders (PAL). Leadership education programs are designed to provide students with tools and skills to become confident leaders. Participation in leadership programs may also help students connect with each other, giving them an increased sense of belonging here at CU Denver.

- Learn to be a socially responsible leader
- Develop your career readiness competencies in the areas of critical thinking/problem-solving, teamwork/collaboration, leadership, and professionalism/work ethic
- Experience the rewards of peer mentorship

Our Summit Leadership Program (<https://ucdenver.presence.io/organization/summit-leadership-program/>) is open to all CU Denver students. To join the program (<https://ucdenver.presence.io/>), log into our CU Denver student engagement platform MyLynx. Members of the Summit Leadership Program receive information on leadership events, registration deadlines, and are invited to special events just for Summit members.

Student Life & Campus Community also coordinates programs and services to enhance student development and encourage students to lead an active campus life by providing opportunities for co-curricular involvement. Beyond leadership workshops & programs, our staff team supports leadership development through our work with student organizations, community service, campus speakers, leadership conferences, and a variety of campus programs.

TRIO Student Support Services & McNair Scholars

Location: Student Commons Building Ste 2011

Phone: 303-315-3550

Email: Please refer to website for more information

Website: <https://www.ucdenver.edu/trio/>

CU Denver TRIO Student Support Services (TRIO SSS) at helps first-generation, low-income students and students with disabilities reach their full potential and achieve academic success. We are a supportive academic community committed to student excellence and achievement. Student success is at the center of everything we do in.

The Ronald E. McNair Post-baccalaureate Achievement Program is one of seven federally funded programs under the TRIO umbrella that supports first-generation and low-income students.

Health & Wellness

Wellness is a priority for us. The Health and Wellness website (<https://www.ucdenver.edu/student/health-wellness/>) is dedicated to providing an exceptional and holistic wellness experience for all CU Denver students. Below are some of the ways that CU Denver supports health and wellness. To learn more about all of the health and wellness services at CU Denver, please visit our website.

Food Resources

CU Denver Food Pantry

Location: 3rd Level in the Lola and Rob Salazar Student Wellness Building

Phone: 303-315-4010

Email: foodpantry@ucdenver.edu

Website: <https://www.ucdenver.edu/wellness/matters/food-pantry/>

The Lynx Food Pantry is here to help students find more resources to fight food insecurity and lack of nutritious food. CU Denver students have access to free food and hygiene products. For more information about how to utilize the Lynx Food Pantry, hours, volunteering, needed items, and the Lynx Mobile Food Pantry, please visit our website (<https://www.ucdenver.edu/wellness/matters/food-pantry/>).

Mental Health Resources

Counseling Center

Location: Tivoli Student Union 454

Phone: 303-315-7270

Email: Please refer to website for more information

Website: <https://www.ucdenver.edu/counseling-center/>

The CU Denver Student and Community Counseling Center (SCCC) provides mental health counseling services to CU Denver Students as well as community members and Denver Public Schools (DPS) students and their families. Fee-paying students receive counseling sessions at no cost. Community members are charged a nominal fee for services. The counseling center provides strength-based culturally responsive mental health services focused on relationship, support, growth and solutions. The SCCC uses a brief, goal-directed counseling model that helps students achieve their academic and personal goals. There are no fees for counseling sessions. We also offer an array of other services, such as group therapy, drop-in workshops, and wellness-promotion activities.

If you would like to learn more about services offered and/or would like to schedule an appointment, please do give us a call at 303-315-7270.

The Phoenix Center

Location: Tivoli Student Union 227

Phone: 303-315-7250

Email: info@thepca.org

Website: <https://www.thepca.org/>

The Phoenix Center at Auraria (PCA) serves students, staff, and faculty associated with University of Colorado Denver, Community College of Denver, and Metropolitan State University Denver. The PCA provides **free and confidential** resources and assistance to survivors of interpersonal violence (relationship violence, sexual violence, and stalking), as well as their friends, families, and concerned others. The PCA support services include academic advocacy, assistance reporting to the school and/or law enforcement at the survivor's request, safety planning, court accompaniment, emotional support, and more. The PCA also provides campus education and training, awareness raising events, and campus policy guidance.

To learn more about the services provided by PCA, please visit our website (<https://www.thepca.org/>).

Safety & Support

The Office of Equity

Location: Lawrence Street Center 12th Floor

Phone: 303-315-2567

Email: equity@ucdenver.edu

Website: <https://www1.ucdenver.edu/offices/equity/>

The Office of Equity's stated mission is to strive to stop, prevent, and remedy discrimination, harassment, sexual misconduct, and any related retaliation; provide education, training and outreach; design policies and procedures to make our campus safer and more inclusive; and ensure all individuals are treated with dignity, compassion, and respect.

The Sexual Misconduct Policy prohibits:

- Sexual Assault: Rape, Fondling, Statutory Rape, and Incest
- Dating Violence
- Domestic Violence
- Sexual Exploitation
- Stalking: Title IX Stalking and Stalking
- Sexual Harassment: Title IX Sexual Harassment Quid Pro Quo, Sexual Harassment Quid Pro Quo, Title IX Hostile Environment, & Hostile Environment

The Nondiscrimination Policy prohibits discrimination or harassment on the basis of:

- Race
- Color
- National Origin
- Sex
- Gender Identity
- Gender Expression
- Sexual Orientation
- Pregnancy

- Disability
- Age
- Creed
- Religion
- Veteran Status
- Political Philosophy
- Political Affiliation

To report an incident of sexual misconduct, discrimination, harassment, or retaliation or to request a training, please contact the Office of Equity at:

- **Phone number:** 303-315-2567
- **Email address:** equity@ucdenver.edu
- **Office address:** Lawrence Street Center, 12th floor, Denver, CO 80204
- **Mailing address:** Campus Box 134, P.O. Box 173364, Denver, CO 80217-3364.
- **Or visit our website for an online report and more information about our policies, procedures, trainings, and other resources:** <https://www1.ucdenver.edu/offices/equity> (<https://www1.ucdenver.edu/offices/equity/>)

Dean of Students

Location: 900 Auraria Parkway #309

Phone: 303-315-7310

Email: DeanOfStudents@ucdenver.edu

Website: <https://www.ucdenver.edu/student/health-wellness/dean-of-students> (<https://www.ucdenver.edu/student/health-wellness/dean-of-students/>)

The Dean of Students Office supports the CU Denver community by advocating for students, addressing concerns, and promoting wellness and accountability. In partnership with students, faculty, and staff, we foster an environment rich in student success and opportunities for personal growth, while promoting a diverse and inclusive campus community. We serve our talented students by advocating for student needs, addressing issues of wellness and safety, and supporting all students in times of challenge and crisis. We encourage all initiatives that strengthen our campus and community.

Campus Assessment, Response and Evaluation (CARE) Team

Location: Tivoli Student Union, Suite 227

Phone: 303-315-7306

Email: shareaconcern@ucdenver.edu

Website: <https://www.ucdenver.edu/student/health-wellness/care-team> (<https://www.ucdenver.edu/student/health-wellness/care-team/>)

Submit a concern at: https://cm.maxient.com/reportingform.php?UnivofColoradoDenver&layout_id=1 (https://cm.maxient.com/reportingform.php?UnivofColoradoDenver&layout_id=1)

The Campus Assessment, Response & Evaluation (CARE) Team is committed to improving campus safety and student success at both the CU Denver | Anschutz Medical Campus.

The CARE Team was created to address the health and safety needs of students and the campus community. We assess whether individuals pose a risk to themselves or others and intervene when necessary. More generally, we identify and provide assistance to those in need.

The team takes a preventative approach to risk assessment by offering resources, referrals, and support to both the concerning individual and those impacted by their behavior.

The Office of Case Management

Location: Tivoli Student Union 309

Phone: 303-315-7306

Email: csm@ucdenver.edu (csm@ucdenver.edu)

Website: <https://www.ucdenver.edu/student/health-wellness/case-management> (<https://www.ucdenver.edu/student/health-wellness/case-management/>)

The Office of Case Management was established to better serve the needs of the campus community and struggling students. Case management services include, but are not limited to, providing intervention, advocacy, resources and referrals, as well as follow-up services for students who are experiencing significant difficulties. Case managers support students struggling to navigate the university system, students with current and emerging mental or physical health issues, and students experiencing issues adjusting to academic and social life.

Case Managers coordinate student services and provide referrals to the appropriate resources on campus such as the Office of Community Standards and Wellness, Office of the Registrar, Student and Community Counseling Center, Office of Financial Aid, Disability Resources and Services, Student Mental Health Services, and student advocacy offices.

The Office of Student Conduct and Community Standards

Location: Tivoli Student Union 309

Phone: 303-315-7311

Email: StudentConduct@ucdenver.edu

Website: <http://www.ucdenver.edu/life/services/standards/Pages/default.aspx>

We serve the university community by meeting the developmental and educational needs of students related to community expectations, civility and respect for self and others. We support community members with conflict management and resolution, and respond to inappropriate and threatening behaviors. We provide student-centered educational services, which promote personal development and individual responsibility. We strive to create a dynamic, open and just environment where civility, cultural competence and learning are expected and celebrated.

Campus Safety

Auraria Police Department

Location: 1201 5th Street Suite 110, Denver, CO 80217

Police Dispatch Number: 303-556-5000

Website: <https://www.ahec.edu/services-departments/police> (<https://www.ahec.edu/services-departments/police/>)

CAMPUS POLICE MISSION

The Auraria Campus Police Department is committed to enhancing the quality of life on the Auraria Campus by protecting life and property, and providing a wide range of services to prevent crime and resolve problems.

Services (*The Auraria Campus Police Department provides campus services 24 hours a day, 7 days a week.*)

- Crime prevention programs
- Informational services

- Police support to campus staff
- Night escorts to your vehicle
- Security patrols, bicycle patrols, foot patrols
- Vehicle unlocks
- Emergency response (Emergency Phone Map: <http://www.ahec.edu/campusmaps/>)
- Timely Notification Bulletin for the Auraria Campus
- Immediate notice of crimes affecting the Auraria Campus.

The Auraria Handivan Service is offered Monday through Thursday 7:00 am-10:00 pm and on Friday's from 7:00 am-6:00 pm. Also, take advantage of Auraria's Nightrider escort service. It will take you to any building or parking lot on campus Monday through Thursday, Sundown to 10:00pm. The wait time is usually no longer than 10 minutes. To arrange for the Nightrider, contact the Auraria Parking Office at (303) 556-2001. If the Nightrider is not running, contact the Auraria Campus Police Department at (303) 556-5000 to arrange for an escort to your car.

The Emergency Notification System (ENS) tool provided by the University of Colorado Denver (CU Denver) for students, faculty and staff provides timely life-safety alerts. You are able to receive these alerts via text, voice and email messaging. Your CU Denver email address has already been added to this system. If you would receive emergency alerts on your cell phone, make sure that you enter your cell phone number into the PROFILE section of your student or employee portal at <https://my.cu.edu/>. **Identify the phone type as a "Cellular" device and check it as the "Preferred" number.**

Wellness

Location: Lola & Rob Salazar Student Wellness Center
1355 12th St
Phone: 303-315-WELL (9355)
Email: lynxwellness@ucdenver.edu
Website: <https://www.ucdenver.edu/wellness/>

Our Purpose: To promote a culture of belonging through innovative spaces, programs & experiences.

Our Vision: To make wellness a priority for every person in the CU Denver community. To do wellness differently.

Guiding Principles:

7 Dimensions of Wellness

Innovation and creative thinking
Equity, diversity and inclusion
Learning, leadership, service and citizenship
Student development
Spirit and fun

Club Sports

Location: Lola & Rob Salazar Student Wellness Center
Phone: 303-315-9355
Email: lynxwellness@ucdenver.edu
Website: <https://www.ucdenver.edu/wellness/sports/club-sports/>
(<https://www.ucdenver.edu/wellness/sports/club-sports/>)

Club Sports is a program designed to provide students with the opportunity to engage in team sports in a friendly and competitive environment. The purpose of the program is to unite individuals with a shared interest in sports, develop lasting friendships, and build community among students across campus, all while increasing their overall well-being through physical activity. Any student who is enrolled in at least 1 credit hour and is paying the Club Sports fee may participate

in Club Sports. Students can pick from a variety of sports to participate in and have the chance to serve in a leadership position during their time. All Club Sports serve under the Wellness and Recreation Services department and indoor practice spaces are housed in the Lola and Rob Salazar Student Wellness Center. Club Sports policies and guidelines can be found in the Club Sports Manual.

Student Health Insurance Office

Location: Plaza Building, Suite 150
Phone: 303-615-9999
Email: Please refer to website for more information
Website: <https://www.msudenver.edu/healthcenter/>

Hours: Monday- Thursday: 8:00am- 5:00pm, Friday 8:00am- 3:00pm

The Student Health Insurance Office strongly encourages all students to have adequate health insurance coverage. The university health plan is designed to coordinate services with the Health Center at Auraria to provide quality health care at the lowest possible cost. **For domestic students, the university health plan is voluntary.** International students with F-1 and J-1 student visas are required to carry the health insurance plan provided by the university. For more information for international students, please visit: <https://healthcenter1.com/international-health-insurance-requirement/>

Housing, Dining, and Parking

There are a variety of housing, dining, and parking choices available at CU Denver. To learn more, check out the information below.

Housing and Dining

Location: 318 Walnut St
Phone: 303-315-5272
Email: Housing@ucdenver.edu
Website: <https://www.ucdenver.edu/housing-and-dining/home> (<https://www.ucdenver.edu/housing-and-dining/home/>)

Although CU Denver is located in the heart of the city, we've always operated with the needs of college students in mind. Whether you're looking for on-campus housing and dining close to classrooms or wish to explore other off-campus options in Denver, we've got the resources to help you find the perfect environment.

Housing

Lynx Crossing Residence Hall

Website: <https://www.ucdenver.edu/housing-and-dining/lynx-crossing>
(<https://www.ucdenver.edu/housing-and-dining/lynx-crossing/>)

Lynx Crossing is conveniently close to CU Denver and the heart of the city, so you're never far away from your classes or fun. Lynx Crossing offers a wide range of floor plans and other features you can choose from at a fair price for students.

City Heights Residence Hall

Website: <https://www.ucdenver.edu/housing-and-dining/city-heights>
(<https://www.ucdenver.edu/housing-and-dining/city-heights/>)

CU Denver's First-Year student residential building with dining and campus services opening Fall 2021. The facility includes two connected building components: a six to seven-story residential tower and a three-story Learning Commons—the future home to student life services and faculty development services.

Off-Campus Housing

Off-Campus Housing Database Website: offcampushousing.ucdenver.edu (<https://offcampushousing.ucdenver.edu/>)

The Office of Commuter Services supports students with commuting resources and an off-campus housing database that can be accessed through the link listed above.

Dining

The Auraria Campus offers multiple dining choices and programs for the CU Denver community. To learn more about dining choices, please visit the following websites:

- Residence Hall Dining (<https://lynxdining.sodexomyway.com/>)
- Auraria Campus Dining (<https://www.ahec.edu/campus-info/food/>)
- Discounted Dining in Denver (<https://www.ucdenver.edu/student-finances/discounts-deals/food-dining/>)

Transportation and Parking

Website: <https://www.ucdenver.edu/life/living-on-around-campus/student-transportation-parking> (<https://www.ucdenver.edu/life/living-on-around-campus/student-transportation-parking/>)

A degree should help you get somewhere, and how you get to campus to earn that degree is an important thing to consider. CU Denver students have several options for traveling to and from campus safely and efficiently. CU Denver is conveniently located downtown near multiple light rail stations and bus stops. Bicycle commuting is also a popular option, given Denver's sunny weather, active culture, and miles of protected bike lanes. If you prefer to drive, there are parking spots available, too.

For more information about parking and transportation options, please visit our website (<https://www.ucdenver.edu/life/living-on-around-campus/student-transportation-parking/>).

Other Student Resources

Feeling like you belong and getting support when you need it—that's what's going to help you reach your goals. As a member of the CU Denver Lynx community, you have access to student services that can support you in so many ways.

Bursar's Office

Location: 5th Floor Student Commons Building, 1201 Larimer Street Ste 5123

Customer Service Phone Center: 303-315-1800

E-mail: bursar@ucdenver.edu

Website: <https://www.ucdenver.edu/student-finances/billing-payments> (<https://www.ucdenver.edu/student-finances/billing-payments/>)

When a student begins researching higher education institutions, tuition is often the first stop. The Bursar's Office provides services in the following areas.

- Application Fees Payments
- College Opportunity Fund
- Departmental Deposit Transactions
- Tuition and Fee Payments
- Refunds and Direct Deposits
- Student Account Reconciliation

- Third-Party Billing
- Student Balance Outreach
- Past Due Tuition Collection
- Tax Offsets

For more information for undergraduate students, please visit the Student Finance (p. 52), Tuition and Fees (p. 55), and Billing and Payments (p. 56) sections in the Undergraduate Catalog.

For more information for graduate students, please visit the Student Finance (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/>), Tuition and Fees (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/tuition-fees/>), and Billing and Payments (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/billing-payments/>) sections in the Graduate Catalog.

Financial Aid and Scholarships

Location: 5th Floor Student Commons Building, 1201 Larimer Street Ste 5105

Phone: 303-315-1850

Email: FinancialAid@ucdenver.edu

Website: <https://www.ucdenver.edu/student-finances/financial-aid> (<https://www.ucdenver.edu/student-finances/financial-aid/>) and <https://www.ucdenver.edu/student-finances/scholarships> (<https://www.ucdenver.edu/student-finances/scholarships/>)

While the world of financial aid can seem intimidating, if you break it down and put in the work, making financial aid work for you will be the first step toward opening a door to your future. The Financial Aid and Scholarships Offices provides services in the following areas.

- How to apply for financial aid
- Free Application for Federal Student Aid (FAFSA) <https://fafsa.ed.gov/>
- Work-study and student employment opportunities
- Grant and student loan information
- Special circumstances, academic progress or financial hardship appeals
- Scholarships Information

For more information for undergraduate students, please visit the Student Finance (p. 52), Financial Aid (p. 53), and Scholarships (p. 55).

For more information for graduate students, please visit the Student Finance (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/>), Financial Aid (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/financial-aid/>), and Scholarships (<http://catalog.ucdenver.edu/cu-denver/graduate/student-finances/scholarships/>).

Learning Resources Center

Location: Student Commons Building, Suite 2105

Phone: 303-315-3531

Email: tutorialservices@ucdenver.edu

Website: <https://www.ucdenver.edu/learning-resources-center> (<https://www.ucdenver.edu/learning-resources-center/>)

The CU Denver Learning Resources Center is designed to promote student success, retention, and graduation in a supportive, vibrant and inclusive academic setting. Our services are available to currently enrolled CU Denver undergraduate and graduate students and include

free services such as CRLA certified tutoring, Supplemental Instruction (SI), Academic Development Workshops, Student Success Seminars, academic coaching, Conversation Groups, and English for Speakers of Other Languages (ESOL) support.

Lynx Central

Location: Student Commons Building, Suite 1107

Phone: 303-315-5969 (303-315-LYNX)

Email: lynx.central@ucdenver.edu

Website: <https://www.ucdenver.edu/student> (<https://www.ucdenver.edu/student/>)

Office Hours: Monday-Friday, 8am-5pm

Lynx Central provides all prospective and current CU Denver students with support throughout the admissions and enrollment process including help with financial aid and scholarships along with registration. Lynx Central staff can also help with general campus questions. For more information, check us out at <https://www.ucdenver.edu/student> (<https://www.ucdenver.edu/student/>).

Office of Information Technology

Location: Lawrence Street Center, 1350

Phone: 303-724-4357 (4-HELP)

Email: oit-servicedesk@ucdenver.edu

Website: <https://www1.ucdenver.edu/offices/office-of-information-technology> (<https://www1.ucdenver.edu/offices/office-of-information-technology/>)

The Office of Information Technology (OIT) works in partnership with academic and business units to provide technical support to meet the needs of students, faculty and staff at the CU Denver | Anschutz Medical Campus. OIT serves as the primary source of campus wide technology services (<https://www1.ucdenver.edu/offices/office-of-information-technology/services/>) in partnership with school, college and department IT professionals.

Services range from providing wireless networks, email (<http://myemail.ucdenver.edu/>) and university passwords (<https://passport.ucdenver.edu/passwordreset/>), software (<https://www1.ucdenver.edu/offices/office-of-information-technology/software/>), desktop services, security (<https://www1.ucdenver.edu/offices/office-of-information-technology/software/how-do-i-use/cu-secure-and-multi-factor-authentication/>), and systems development, to protecting the integrity of the university's data and administrative systems. Additional resources are available from the student technology guide (<https://www1.ucdenver.edu/offices/office-of-information-technology/get-help/cu-denver-student/>) and technology tools and software (<https://www1.ucdenver.edu/offices/office-of-information-technology/get-help/working-remotely/tools-and-software/>) remote learning and working webpages. Please contact the OIT service desk (<https://www1.ucdenver.edu/offices/office-of-information-technology/get-help/>) for assistance with a service or help troubleshooting technology issues.

OIT also provides student computing services to currently enrolled students within the computer labs (<https://www1.ucdenver.edu/offices/office-of-information-technology/get-help/student-labs/>) and study spaces located in the North Classroom 1206, Student Commons Building 2nd floor, and the Tivoli 241. The computer labs have Macintosh and Windows-based computers with internet access, as well as printing, scanning, and copying availability with assistance from a lab advisor. For more information about these services, visit the student work

spaces and computer labs webpage (<https://www1.ucdenver.edu/offices/office-of-information-technology/get-help/student-labs/>) or email StudentLabs@ucdenver.edu.

Office of the Registrar

Location: Student Commons Building, Suite 5005

Telephone: 303-315-2600

Fax: 303-315-2550

E-mail: registrar@ucdenver.edu

Website: www.ucdenver.edu/Registrar (<http://www.ucdenver.edu/Registrar/>)

CU Denver offers students a completely online system of planning their schedules and registering for classes. As a student, you are responsible for knowing the deadlines, rules, regulations, course loads, prerequisites and policies of the university, as well as those of the college or school in which you are enrolled, all of which is provided within this online catalog. Please refer to the Academic Policies section for more specific information related to records and registration.

Students should review the sections of this catalog that describe in detail the academic programs available at the Denver Campus.

The registrar's office will send an e-mail message to the student's university-assigned e-mail address, inviting the student to register, including registration information and a registration time assignment. Registration is by time assignment only. Students may register via the web on or after their assigned time.

For more information for undergraduate students, please visit the Records and Registration (p. 57) section in the Undergraduate Catalog.

For more information for graduate students, please visit the Records and Registration (<http://catalog.ucdenver.edu/cu-denver/graduate/records-registration/>) section in the Graduate Catalog.

Ombuds Office

Location: Lawrence Street Center Building, Room 1003

Phone: 303-315-0046

Contact: Teresa Ralicki; **Email:** Terese.ralicki@ucdenver.edu

Website: www.ucdenver.edu/ombuds (<http://www.ucdenver.edu/ombuds/>)

The Ombuds Office is a **safe**, confidential, and **nonbiased** resource that members of the University of Colorado Denver | Anschutz Medical Campus can approach to discuss, voice, and clarify any university-related concerns. We are a neutral third-party resource that is available to hear individual complaints and help sort out and **identify options** for resolving those concerns.

The Ombuds Office is well-trained in listening, facilitating, recommending, mediating, and coaching. Each individual on our team is a member of the International Ombudsman Association and are **Certified Organizational Ombudsman Practitioners**.

We even offer trainings and seminars for groups and departments to help learn communication skills, conflict management, and effective team building.

Communications with the Ombuds Office may begin with a phone call, e-mail, letter, or visit. Please contact our office (<https://www1.ucdenver.edu/offices/ombudsoffice/>) to make an appointment.

Veteran & Military Student Services

Location: Tivoli Student Union 124

Phone: 303-315-7300

Email: vmss@ucdenver.edu

Website: <https://www.ucdenver.edu/veterans> (<https://www.ucdenver.edu/veterans/>)

Veteran & Military Student Services (VMSS) is the initial contact point for student active service members, veterans and their families attending CU Denver. The main priority of the office is to verify U.S. Department of Veterans Affairs education benefit certification for eligible students, ensuring that each student meets the Veterans Administration requirements for attendance, course load, content, as well as all other regulations necessary to receive educational benefit payments. This office assists students with filling out Veteran Affairs paperwork and in solving problems associated with the receipt of Veteran Affairs related educational benefits. The VMSS provides student peer to peer mentoring, transition assistance into higher education, scholarships, mental health services that are specific to the military and transition issues, and career preparation through the Boots to Suits Program. The office also serves as a liaison for numerous campus and community resources.

Writing Center

Location: North Classroom 4014

Phone: 303-315-7355

Email: writing.center@ucdenver.edu

Website: <https://clas.ucdenver.edu/writing-center/>

The Writing Center at CU Denver is a free resource available to all university students who wish to improve as writers. Services include in-person and online one-on-one appointments; an asynchronous Graduate Drop Box for graduate students; an asynchronous After Hours Drop Box for all students; workshops on a variety of topics (for example: citation, literature reviews, C.V.s, and more); and downloadable handouts, podcasts, and videos. Professional Writing Consultants will work on any type of writing and any aspect of the writing process, including (but not limited to) idea-generation, organization, thesis development, source usage, and grammar. Students bring in documents ranging from resumes, personal statements, and research essays to theses, rhetorical analyses, and grant applications. All writing is welcome. Interested students can schedule appointments (required) online and get more information (hours, directions, etc.) about each of our 9 locations/services for students right from the homepage (<https://clas.ucdenver.edu/writing-center/>):

- CU Denver: NORTH 4014
- CU Anschutz: HSL 1204
- CU South Denver: Student Commons, 2nd floor, Liniger Building
- Auraria Library: Knowledge Market, 1st floor
- Business School: Cordillera Conference Room, 1st floor
- Campus Village at Auraria (residents only): Cyber Café, 1st floor
- Online (real-time) consultations
- An asynchronous Graduate Drop Box for graduate students
- An asynchronous After Hours Drop Box for all students

University System Policies

Phone: 303-860-5711

Website: <https://www.cu.edu/ope> (<https://www.cu.edu/ope/>)

The University of Colorado System Office of Policy and Efficiency (<https://www.cu.edu/ope/>) - with input from system and campus policy owners - develops, oversees and maintains the University's system wide policy-making process; facilitates the development, review, approval, and maintenance of University-wide policies.

Policies include:

- Intercampus Enrollment and Tuition
- Adopting Standards for Intercampus Transfer of Credits
- Sexual Misconduct, Intimate Partner Violence, and Stalking
- Digital Accessibility

Campus Policies

Phone: 303-315-2102

Email: policy@ucdenver.edu

Website: <http://www.ucdenver.edu/policies> (<http://www.ucdenver.edu/policies/>)

The Campus Policy Office resides in the Provost Office. This office oversees all development, coordination, management, rescissions and archives for all CU Denver and CU Anschutz campus policies.

Policies include:

- Academic Standing for Undergraduates
- Academic Internships
- Denver Campus Enrollment and Billing
- Four-Year Graduation Guarantee
- Grade Forgiveness
- International Travel Policy for Students
- Transferring Undergraduate Credit

Academic Integrity And Discipline Policies

CU Denver defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as

1. a student's use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or
2. actions that interfere with the ability of the instructor to fairly judge the work of the student or other students.

Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one's responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for full policy (<https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7050.pdf?sfvrsn=2ae2bcb9>))

Students are expected to know, understand and comply with the ethical standards of the university. Academic dishonesty is defined as a student's use of unauthorized assistance with intent to deceive an instructor or other such people who may be assigned to evaluate the student's work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

1. *Plagiarism*

Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.

2. *Cheating*

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.

3. *Fabrication and Falsification*

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.

4. *Multiple Submissions*

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

5. *Misuse of Academic Materials*

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, falsification of university documents.

6. *Complicity in Academic Dishonesty*

Complicity involves knowingly allowing or contributing to another's academic misconduct.

School/College Specific Policy

Business School (p. 114)

College of Engineering, Design and Computing (p. 237)

College of Liberal Arts and Sciences (p. 312)

Disruptive Student Behavior

Students are required to adhere to the behavioral standards listed in the Student Code of Conduct and the course syllabus and to refrain from disrupting classes and other academic settings.

What Constitutes Disruption? "Disruption," as applied to the academic setting, is defined as behavior a reasonable faculty member would view as interfering with normal academic functions (teaching, learning, and research). Examples include, but are not limited to: persistently speaking without being recognized, persistently interrupting other speakers, behavior which distracts the class from the subject matter or discussion, personal insults to the faculty member or other students, abusive behavior (as identified in the CU Denver Student Code of Conduct), refusal to comply with faculty direction, or verbal or physical threats.

Disagreement with the course instructor or other students, during times when the instructor permits open discussion, is not in itself disruptive behavior and is not necessarily prohibited.

Some students engaging in disruptive behavior may have developmental or other related disabilities. Although such students may be considered to have disabilities and to have protections under the Americans with Disabilities Act and the Rehabilitation Act, these students are held to the same standards of conduct and behavior as any other student. Faculty are asked to refer students to any of the resources listed at the end of this policy statement as appropriate.

Where this policy conflicts with the Student Code of Conduct, this policy will prevail with regard to disruptive behavior in the academic setting.

Please refer to Policy 7004 for the full policy (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7004.pdf?sfvrsn=4df9bcb9_0).

Email Account

Email is an official means for communication within CU Denver. Therefore, CU Denver has the right to send communications to students/staff/faculty via email and the right to expect that those communications will be received and read in a timely fashion.

FERPA: Family Educational Rights and Privacy Act

FERPA is a federal privacy law that protects students' educational records. Under this law, students have three primary rights:

- Inspect and review their education records.
- Seek to amend incorrect education records.
- Have some control over the disclosure of information from their education record.

FERPA directory information is information contained in a student's education record that generally would not be considered harmful or an invasion of privacy if disclosed. Under current CU Denver policy, the following information is designated as directory information:

- Student name. If provided, a preferred name will be used when there is not a documented business or legal reason to provide a

student's primary name. Students may also select a diploma name for graduation and commencement materials.

- Hometown (city, state).
- Campus email address.¹
- Dates of attendance.
- Previous educational institutions attended.
- School/college or division of enrollment.
- Majors, minors and field of study.
- Classification level (e.g., freshman, sophomore, graduate student).
- University-recognized honors and awards.
- Degree status (e.g. expected graduation date and/or conferral dates/terms).
- Enrollment status.
- Employment related to student status (e.g. teaching assistant, resident assistant or work-study) and dates for positions held.
- Participation in officially recognized activities/sports, including height and weight of athletes.
- Photos and videos taken or maintained by the university.

¹ Campus email addresses are only disclosed to requestors who agree not to use them for solicitation.

Although these items are designated by CU Denver as directory information, only a limited amount of this information is routinely disclosed by CU Denver university officials. The university retains the discretion to refuse disclosure of directory information if it believes such disclosure would be an infringement on student privacy rights.

Students may ask the University not to publicly disclose directory information. Be aware, however, if you are seeking employment, the Registrar's Office cannot release your enrollment, degree status or major to anyone unless you come to the Registrar's Office with a photo ID.

Forms to prevent disclosure of directory information can be obtained at the Registrar's Office, located in the Student Commons Building, or via the Registrar's website at www.ucdenver.edu/registrar (<http://www.ucdenver.edu/registrar/>).

Information that is never released without your consent includes grades, tuition/fees owed, financial aid, etc. If you would like to give permission to someone else to have access to that information, you can submit a Release of Confidential Information Form to the Office of the Registrar. This form also must be submitted in person.

More information about FERPA can be found in the University Catalog. If you have questions regarding your rights under FERPA, please contact the Office of the Registrar.

Student Bill of Rights

The University of Colorado Denver subscribes to the Student Bill of Rights as defined in 23-1-125 of the Colorado Revised Statutes. Students enrolled in public institutions of higher education shall have the following rights:

1. Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
2. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
3. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
4. Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
5. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
6. Students have a right to know if courses from one or more public higher education institutions satisfy the students' degree requirements;
7. A student's credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferrable.

Student Code of Conduct

The complete Code of Conduct, including a detailed explanation of the conduct process and sanctions, can be found online on the Student Conduct and Community Standards website (<https://www.ucdenver.edu/student/health-wellness/student-conduct/>) with the full policy here (https://www1.ucdenver.edu/docs/librariesprovider122/health-and-wellness/cu-denver-student-code-of-conduct--final-with-suspension-update-9-16-20.pdf?sfvrsn=4d0ea7b9_2).

You can also visit the Student Conduct and Community Standards office in the Tivoli Student Union Room 309.

Article 7, Part B of the Laws of the Regents (<https://www.cu.edu/regents/regent-laws/>) requires each campus to develop a student code of conduct and related processes. The Dean of Students is the designated authority to establish and enforce the CU Denver Student Code of Conduct. Any questions regarding interpretation of this document or any of its provisions should be directed to the Dean of Students or their designee for final determination.

The Dean of Students and/or their designee shall appoint student Conduct Educators and Appeal Readers. The Director of Student Conduct and Community Standards or their designee shall determine which Conduct Educator shall be assigned to hear each matter.

The Dean of Students and/or their designee shall develop policies for the administration of the student conduct process and procedural rules. Decisions made by a Conduct 5 Educator shall be final, pending the appeal process. Proceedings initiated under this policy are separate from civil or criminal proceedings that may exist in connection to the same incident. Investigations or conduct proceedings by the university may not be postponed while criminal or civil proceedings are pending, unless otherwise determined by the assigned Conduct Educator.

The CU Denver Student Code of Conduct shall apply to a student's behavior that violates local, state, federal, or university laws, policies, or regulations, and as a result can adversely affect the university community or damages the institution's reputation or relations with the greater community. A student's behavior may be addressed through the student conduct process if it occurs on campus, off campus, or at university sponsored programs or activities, including, but not limited to, study abroad programs, alternative break trips, and student organization sponsored events and programming.

The CU Denver Student Code of Conduct shall apply to a student/campus organization's behavior that adversely affects the university community, violates local, state, federal, or university laws, policies, or regulations, or damages the institution's reputation or relations with the greater community. A student/campus organization's behavior may be addressed through the Organizational Conduct Process if it occurs in connection with a campus organization. An organization's involvement in the Organizational Conduct Process does not preclude one or more individuals from being held accountable through the student conduct process for behavior connected to the same incident.

Prohibited Student Behavior

The following has been developed in accordance with CU Regent Law 7.B.1. and Regent Policy 7.B.1. All behaviors contained in this Student Code of Conduct are subject to the Student/Organizational Conduct Process.

1. Abusive Behavior: Engaging in any act or acts that, based on a reasonable person standard, would cause substantial emotional distress to the impacted party or parties, including, but not limited to:
 - a. Verbal abuse
 - b. Intimidation
 - c. Coercion
 NOTE: This policy should not be construed, and will not be enacted, to deny any student the right of free speech and expression.
2. Aiding and Abetting: Attempting to commit, aid, abet, or incite others to engage in behavior prohibited by law, the CU Denver Student Code of Conduct, the CU Housing & Dining Handbook, or other AHEC or university policies
3. Alcohol: Violating any local, state, federal, or university law, policy, or regulation pertaining to alcohol, including, but not limited to:
 - a. Manufacturing, selling, or providing alcohol to an individual(s) under the age of 21
 - b. Possessing or using alcohol while under the age of 21
 - c. Using alcohol on campus, regardless of age, with the exception of responsible use at an authorized restaurant or event and in compliance with the CU Denver Housing & Dining policy
 - d. Being in the presence of alcohol or alcohol use on campus when knowledge of the alcohol or alcohol use is reasonable with the exception of responsible use at an authorized restaurant or event and in compliance with the CU Denver Housing & Dining policy
 - e. Using or possessing alcohol in the presence of an individual(s) under the age of 21 on campus, with the exception of responsible use at an authorized restaurant or event
 - f. Attending classes or university functions under the influence of alcohol
4. Bullying: Engaging in severe aggressive behavior likely to intimidate or intentionally harm, control, or diminish another person, physically or mentally
5. Cyberbullying: Tormenting, threatening, harassing, humiliating, embarrassing, or otherwise targeting of another person by an

- individual using the internet, interactive and digital technologies, or mobile telephones
6. Disrupting Emergency Response: Engaging in any act(s) that interfere with, obstruct, or disrupt the response or official action of an emergency responder, including, but not limited to:
 - a. Interfering with the performance of police or fire department duties
 - b. Resisting arrest
 - c. Failing to abide by the directions of a police officer
 7. Disruption: Materially and substantially interfering with, obstructing, or disrupting a normal university activity, including, but not limited to:
 - a. Behavior resulting in injury to persons or damage to property on the campus
 - b. Interference, obstruction, or disruption of the freedom of movement of students or other members of the university community and their guests
 8. Driving Under the Influence: Driving under the influence of, or while one's ability is impaired by, alcohol, marijuana, or other illicit or prescription drugs
 9. Failure to Comply: Failing to comply with the direction of employees of CU Denver, CU Denver Housing & Dining, and AHEC who are performing their duties
 10. Failure to Report: Failing to report the behavior of another individual/student when that behavior may be a violation of any local, state, federal, or university law, policy, or regulation including, but not limited to, the CU Denver Student Code of Conduct, the CU Denver Housing & Dining Handbook, or other AHEC or university policies
 11. False Information: Providing false or misleading information, including, but not limited to:
 - a. Making a false statement to emergency responders or an employee of CU Denver, CU Denver Housing & Dining, and AHEC who is performing their duties
 - b. Using a false identification or the identification of another to gain entrance to a facility or business
 - c. Forging, altering, falsifying, or misusing documents or records
 - d. Using or possessing forged, altered, or false documents or records
 12. Fighting: Assaulting another person, being involved in a fight or brawl, or physically harming another person
 13. Fire Safety: Violating local, state, federal, or campus fire policy, including, but not limited to:
 - a. Intentionally or recklessly causing a fire
 - b. Tampering with, impairing, disabling, or misusing fire protection systems such as smoke detectors, fire extinguishers, sprinklers, and alarms
 - c. Failing to evacuate a university controlled building during a fire alarm
 - d. Improper use of university safety equipment
 14. Hazing: Engaging in or planning any act, typically associated with belonging to a group of peers, which may produce, or is intended to produce, mental or physical discomfort, embarrassment, harassment, or ridicule, or any acts which are humiliating, intimidating, or demeaning, or that endanger the health and safety of another person, including, but not limited to:
 - a. Paddling in any form
 - b. Inducement of excessive fatigue
 - c. Required exercise inconsistent with the mission of the organization, team, or group
 - d. Physical or psychological shocks
 - e. Personal servitude
 - f. Forced or coerced consumption
 - g. Forced or coerced engagement in public stunts, morally degrading or humiliating games and activities, drinking games, late work sessions, other unorganized activities, and other obligations that interfere with scholastic pursuits NOTE: See Appendix 4 – Colorado Law Regarding Hazing
 15. Illicit Drugs: Violating any local, state, federal, or university law, policy, or regulation pertaining to federally illegal drugs other than marijuana, including, but not limited to:
 - a. Manufacturing, selling, providing, using, or possessing federally illegal drugs other than marijuana
 - b. Being in the presence of federally illegal drugs other than marijuana or drug paraphernalia when knowledge of the drugs or drug paraphernalia is reasonable
 - c. Attending classes or university functions under the influence of federally illegal drugs other than marijuana NOTE: See Section G.17 for marijuana
 16. Inhalants: Using household or industrial chemicals in a manner not intended by the manufacturer with the intention of getting high
 - a. Also known as huffing, sniffing, or bagging
 17. Marijuana: Violating any local, state, federal, or university law, policy, or regulation pertaining to marijuana, including, but not limited to:
 - a. Manufacturing, selling, or providing marijuana without authorization or to an individual(s) under the age of 21
 - b. Possessing or using marijuana or drug paraphernalia while under the age of 21
 - c. Possessing or using marijuana, including medical marijuana, or drug paraphernalia on campus, regardless of age
 - d. Being in the presence of marijuana, marijuana use, or drug paraphernalia that violates policy when knowledge of the marijuana, marijuana use, or drug paraphernalia is reasonable
 18. Attending classes or university functions under the influence of marijuana
 19. Prescription Drugs: Violating any local, state, federal, or university law, policy, or regulation pertaining to prescription drugs, including, but not limited to:
 - a. Manufacturing, selling, or providing prescription drugs
 - b. Possessing or using prescription drugs prescribed to another
 - c. Using prescription drugs in a manner not prescribed
 20. Property Damage: Intentionally or recklessly damaging property that belongs to the university, an organization, or another person
 21. Public Exposure: Deliberately and publically exposing one's intimate body parts including, but not limited to:
 - a. Public urination and defecation
 - b. Mooning
 - c. Public sex acts
 22. Retaliation: Engaging in retaliatory acts against another person
 23. Rioting: Engaging in, inciting, or arming someone for a riot or public disturbance NOTE: See Appendix 5 – Colorado Law Regarding Riots
 24. Theft: Taking property of another without permission or possessing property known to be stolen, even with the intent to return the property
 25. Threats: Threatening the health or safety of a person(s) that, based on a reasonable person standard, would cause the impacted person(s) distress

26. Unauthorized Presence or Access: Entering into, exiting from, being present in, or accessing property, including, but not limited to, buildings, vehicles, 12 belongings, and digital accounts and systems, that belongs to the university, an organization, or another person without authorization
27. Unauthorized Recording: Making an audio and/or visual recording of another person without the person's expressed permission when such recording could, based on a reasonable person standard, cause the impacted person(s) substantial emotional distress and the storing, sharing, or distribution of such recordings by any means
28. Violation of Law, Policy, or Regulation: Violating any local, state, federal, or university law, policy or regulation; which includes but is not limited to noncompliance with a public health order
29. Violating the CU Denver Housing & Dining Resident Handbook: Engaging in any act or acts that violate any policy or procedure listed in the CU Denver Housing & Dining Resident Handbook while on Lynx Crossing property, regardless of individual student's status as a resident or guest
30. Weapon: Possessing firearms, explosives, fireworks, incendiary devices, ammunition, or other weapons on campus except as permitted by law, or the possession of a harmless instrument designed to look like a firearm, explosive, or dangerous weapon with the intent to cause fear in or assault on another person
 - a. NOTE: See Regents Policy 14I (<https://www.cu.edu/regents/policy-14i-weapons-control/>)
 - i. Students, faculty, and staff possessing a valid Concealed Handgun Permit are allowed to carry concealed handguns on campus in accordance with the law.
 - ii. CU Denver Housing & Dining does not permit handguns regardless of an individual's possession of a Concealed Handgun Permit.

another institution, 40% retained at CU Denver, nearly 15% graduated from CU Denver, and another 5.6% received degrees elsewhere.

RIOT LAW (STUDENT RIOT BILL)

Student enrollment-prohibition-public peace and order convictions:

1. No person who is convicted of a riot offense shall be enrolled in a state-supported institution of higher education for a period of 12 months following the date of conviction;
2. a student who is enrolled in a state-supported institution of higher education and who is convicted of a riot offense shall be immediately suspended from the institution upon the institution's notification of such conviction for a period of 12 months following the date of conviction, except that if a student has been suspended prior to the date of conviction by the state-supported institution of higher education for the same riot activity, the twelve month suspension shall run from the start of the suspension imposed by the institution;
3. nothing in this section shall be construed to prohibit a state-supported institution of higher education from implementing its own policies and procedures or disciplinary actions in addition to the suspension under (2) of this section, regarding students involved in riot.

SEX OFFENDER INFORMATION (CAMPUS SEX CRIMES PREVENTION ACT)

Sex offenders are required to list the locations of all institutions of post-secondary education where they volunteer or are enrolled or employed. The Colorado Bureau of Investigation maintains a database identifying all such persons and makes it available to all law enforcement agencies in which jurisdiction the institution of postsecondary education is located. The campus community can obtain this information by contacting the Auraria Police Department at 303-556-5000.

VOTER REGISTRATION (NATIONAL VOTER REGISTRATION ACT)

In compliance with the National Voter Registration Act, the state of Colorado voter registration application form and information is available online at www.sos.state.co.us/pubs/elections/ (<http://www.sos.state.co.us/pubs/elections/>) or www.fec.gov/votregis/vr.shtml (<http://www.fec.gov/votregis/vr.shtml>)

Student Right to Know and Disclosure Information

Website: <https://www.ucdenver.edu/student/forms-policies/right-to-know> (<https://www.ucdenver.edu/student/forms-policies/right-to-know/>)

CRIME STATISTICS

In compliance with the federal Student Right-to-Know and Campus Security Act, the Auraria Campus publishes crime statistics on campus in the Auraria Campus Clery Report. In an emergency, please contact Auraria Campus Police at 303-556-5000 or dial 911 from a campus phone.

PERSISTENCE AND COMPLETION DATA

Section 103 of Title 1 of Public Law 101-542 as amended by Public Law 102-26 (the Federal "Student Right-to-Know" Act) requires that institutions produce and make available to current and prospective students the completion rate of first-time, full-time, degree-seeking undergraduate students entering the institution. Six years after entering, 40 percent of the fall 2008 cohort graduated.

CU Denver's one-year fall-to-fall retention rate is 75 percent for the fall 2012 cohort. That is, of the first-time, full-time, degree-seeking undergraduate students who entered the university in fall 2012, 75 percent were enrolled at the Denver Campus in fall 2013 at the end of the term.

Voluntary System of Accountability (VSA) data indicate that the 2008 Denver Campus first-time, full-time, degree-seeking freshman cohort has an overall 4-year success rate of more than 80%, with 21% retained at

UNDERGRADUATE

Undergraduates

At CU Denver, we are committed to undergraduate education. Whether you know exactly what you want to study or want to explore different areas that inspire you, our undergraduate programs give you choices—choices in your degree and in your career.

CU Denver programs are varied and extensive. Students can major in everything from accounting to creative writing, from pre-health #to environmental studies, from elementary education to digital design. You can customize your degree (p. 759) by adding a minor in anything from biophysics to women's & gender studies. No matter your area of interest, you will find academic opportunities here.

(<https://www.ucdenver.edu/undergraduate-admissions/home/>)

Overview

(Applies to Fall 2021, Spring 2022 and Summer 2022)

The University of Colorado Denver provides a diverse array of baccalaureate majors, minors, certificates, and teacher licensure options to meet the ever-challenging demands of a global society. Undergraduate education programs consist of a general core curriculum, a major, and elective courses for all areas of study. The campus-wide core curriculum develops proficiency in writing and mathematics, cultivates a breadth of knowledge, promotes critical thinking, allows for the flexibility to meet career goals, and helps develop sensitivity to cultural diversity and international perspectives.

A list of all undergraduate programs, including minors and online programs, is available by clicking here (p. 759).

Everyone is welcome to apply (<https://www.ucdenver.edu/admissions/-apply-now/>). CU Denver values a culture of inclusion and does not discriminate on aspects of identity, including but not limited to gender, race, ethnicity, sexual orientation, ability status, veteran status, nationality, citizenship, religion, and socioeconomic background.

CU Denver seeks to identify applicants who are likely to be successful in a rigorous academic program of study. Admission decisions are based on many factors, the most important being:

- Previous academic performance
- Evidence of academic ability and accomplishment as indicated by scores on national aptitude tests
- Evidence of maturity, motivation, and potential for academic success

CU Denver may deny admission to applicants or readmission to former students whose total credentials indicate an inability to assume obligations of performance and behavior deemed essential by the university.

After completing the application process, official notification of your admission status is provided by the Office of Undergraduate Admissions.

Note: The University of Colorado Denver reserves the right to change the admission decision at any time if additional credentials are received that affect your qualifications.

Application Deadlines

Semester	Date
Fall 2021	July 31, 2021
Spring 2022	January 2, 2022
Summer 2022	May 1, 2022

The university may change document/credential deadlines in accordance with enrollment demands. For the best scholarship and registration time considerations, applicants should apply as early as possible. Admission

to the university does not guarantee the availability of desired courses. For an applicant to be considered for a specific term, all documents required for admission must be received by the deadline for that term. Applicants who are unable to meet the deadline may elect to be submit a request to be considered for a later term. Please allow sufficient time to have transcripts sent from previously attended institutions.

Freshman Student Admission

The University of Colorado Denver considers a number of factors in determining student's academic success. CU Denver follows Colorado Department of Higher Education (CDHE) freshman admission standards and uses the average GPA and ACT/SAT middle 50 percent ranges to help determine admissibility. Meeting or not meeting the middle 50 percent does not guarantee admission.

Applicants are considered under freshmen admission standards if:

- applying for the first time after graduating from high school or passing a high school equivalency exam; and/or
- earned fewer than 24 college-level credit hours since high school graduation.

Note: College credits earned while in high school may be transferrable to the university but are not required for an admission decision.

Admission Consideration by Academic Program

In addition to the above admission standards, each school/college within CU Denver has admission criteria specific to their area.

- College of Architecture and Planning (p. 154)
- College of Arts & Media (p. 165)
- Business School (p. 111)
- School of Education & Human Development (p. 685)
- College of Engineering, Design and Computing (p. 235)
- College of Liberal Arts and Sciences (p. 293)
- School of Public Affairs (p. 732)

How to Apply for Freshman Admission

1. Complete and submit your application online at www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>).
2. Pay your \$50 non-refundable application fee. **Note:** You can indicate your eligibility for a fee waiver when you apply.
3. Send official (p. 50) high school transcripts or high school equivalency exam scores to the Office of Undergraduate Admissions mailing address or electronically (p. 50).
 - a. *For high school graduates:* An admission decision can be determined before high school graduation. However, if admitted to CU Denver, a final official high school transcript with a graduation date will be required.
 - b. *For high school equivalency exam recipients:* Students who did not graduate from high school are required to have a copy of their high school equivalency exam test scores and certificate sent directly from the certifying agency to the CU Denver Office of Undergraduate Admissions. High school equivalency exam scores and ACT or SAT scores are the basis for the admission decision.

4. Send official SAT or ACT scores to the Office of Undergraduate Admissions mailing address or electronically.
 - Scores reported on official high school transcripts are considered official test scores (p. 50). Otherwise, please request test score reports from the offices listed below:

Minimum Academic Preparation Standards (MAPS)

First-time freshman and transfer students entering the University of Colorado Denver are required to meet the following minimum academic preparation standards (MAPS) for high school units of study, either prior to initial enrollment or before graduation from the University of Colorado Denver. College courses taken before or after graduation from high school can be considered toward MAPS fulfillment. **Note:** Students who graduated from high school between 1988 and 2009 may have reduced unit requirements in some areas. Students who graduated from high school before 1988 are exempt from MAPS.

Students with MAPS deficiencies may be considered for admission to CU Denver. If admitted, students must make up any MAPS deficiencies prior to graduation from CU Denver. Students may make up MAPS deficiencies by successful completion of:

1. Courses taken at CU
2. Courses taken at other institutions of higher education
3. Additional high school credits
4. Credit-by-examination programs
5. Other requirements as approved by each college or school on the Denver Campus

MAPS Requirements by School or College

College of Architecture and Planning

Subject	Years
English (emphasis on composition)	4
Mathematics (including two years of algebra and one year of geometry)	4
Natural science (including physics and/or biology and at least one lab course)	3
Social science (including one year of U.S. or world history)	3
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	17

College of Arts & Media

Subject	Years
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective or arts course	1
Total	16

Business School

Subject	Years
English (emphasis on composition-one year of speech/debate and two years of composition are strongly recommended)	4
Mathematics (including two years of algebra and one year of geometry)	4
Natural science (including two years of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective (additional course in English, foreign language, mathematics, natural or social science)	1
Total	16

College of Engineering, Design and Computing

Subject	Years
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (including two years of algebra, one year of geometry and one year of trigonometry and analytical geometry)	4
Natural sciences (including one year of physics, one year of chemistry and two years of laboratory science)	3
Foreign language (all units must be in a single language)	2
Social science (including one year of U.S. or world history)	2
Academic elective	1
Total	16

College of Liberal Arts and Sciences

Subject	Years
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2

Academic elective	1
Total	16

School of Education and Human Development

Subject	Years
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	16

School of Public Affairs

Subject	Years
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	16

Higher Education Admission Requirements (HEAR)

First-time freshmen as well as transfer applicants with fewer than 30 credit hours who graduated from high school in spring of 2008 or later must meet the state of Colorado Higher Education Admission Requirements (HEAR) for high school units of study. College courses taken before or after graduation from high school can be considered toward fulfillment of HEAR unit requirements for admission consideration.

For students who graduated in 2008 or 2009, the following minimum high school courses (units) are required:

Subject	Year (Units)
English	4 years (units)
Mathematics	3 years (units)
Natural Science	3 years (units), 2 of which must be lab-based
Social Studies	3 years (units), 1 of which must be United States or world history
Academic Electives	2 years (units)

For students who graduated in 2010 or later, the following minimum high school courses (units) are required:

Subject	Year (Units)
English	4 years (units)
Mathematics	4 years (units)
Natural Science	3 years (units), 2 of which must be lab-based
Social Studies	3 years (units), 1 of which must be United States or world history
Foreign Language	1 year (unit), must be in a single language
Academic Electives	2 years (units)

Students with HEAR deficiencies may be considered for admission on an individual basis based on the rigor of units completed as well as other admission criteria (e.g., test scores and GPA).

Transfer Student Admission

Applicants are considered transfer students for admission purposes if they have completed any number of college courses after graduating from high school or passing a high school equivalency exam. Applicants with college courses taken prior to high school graduation are considered freshmen (p. 40) for admission purposes.

Transfer applicants who graduated from high school in 1988 or later are subject to MAPS (p. 40) requirements. Transfer students who graduated from high school in 2008 or later and have fewer than 30 college credits completed at the time of application are subject to HEAR (p. 41) requirements in addition to MAPS.

Admission Consideration

At the time of application, admission consideration is determined by the following:

- Applicants with 23 or fewer semester hours of completed college-level course work¹ are considered for admission as freshmen based on high school GPA or high school equivalency exam scores and ACT or SAT scores.
- Applicants with 24 or more semester hours of completed college-level course work* are considered for admission based upon college course work alone.

¹ College-level coursework must be completed at a regionally accredited institution as outlined in transfer credit policy on accreditation (p. 86).

Admission Criteria by Academic Program

(For applicants with 13 or more credits of completed college-level coursework at time of application)

College of Architecture and Planning

For admission to the College of Architecture and Planning, applicants must have a 2.750 cumulative GPA. Applicants with at least a 2.300 cumulative GPA may be considered on an individual basis if the academic record shows consistent improvement and/or strong performance in science, mathematics, art, or architecture-oriented courses. Applicants not meeting requirements for direct admission to the College of Architecture and Planning may be considered for admission to the College of Liberal Arts and Sciences with a Pre-Architecture interest.

College of Arts & Media

For admission to the College of Arts & Media, a minimum 2.400 cumulative GPA is required; however, students with a 2.000 cumulative GPA are considered.

- **Music & Entertainment Industry Studies (MEIS):** In addition to being admitted to CU Denver, applicants to one of the audition track programs in the *Music and Entertainment Industry Studies (MEIS)* Department must complete additional music application requirements. Please review the music section on our How To Apply webpage (<https://artsandmedia.ucdenver.edu/prospective-students/how-to-apply/>) for complete information about the audition/application process for audition track program applicants. Applicants to the MEIS non-audition track programs do not have to audition or complete any additional requirements
- **Film & Television:** The Film and Television Department requires that applicants complete a secondary Film & Television application in addition to being admitted to CU Denver. Please review the film section on our How To Apply webpage (<https://artsandmedia.ucdenver.edu/prospective-students/how-to-apply/>) for complete information about the secondary application for Film & Television program applicants.

Business School

For admission to the Business School, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

Note: Students who have completed an undergraduate degree in business will not be accepted for a second undergraduate degree-seeking status in the Business School. These students are encouraged to pursue a graduate degree in business.

School of Education & Human Development

For admission to the School of Education & Human Development, a minimum 2.000 cumulative GPA is required for non-licensure programs, including Human Development and Family Relations, BS and Education and Human Development, Early Childhood Education Non-Licensure, BA*.

For admission to the EDHD BA licensure program, a cumulative GPA of 2.400 is required.

**Students who already hold a BA/BS degree and are interested in teacher licensure are encouraged to contact the School of Education & Human Development for information on graduate teacher licensure options.*

Note: The Professional Year, a two-semester (fall and spring) residency in the student's final year of the undergraduate degree with licensure programs, requires a separate application and acceptance is not guaranteed. For instructions and minimum requirements, please see the Education and Human Development website (<https://education.ucdenver.edu/academic-services/admissions/>).

College of Engineering, Design and Computing

For direct admission to the College of Engineering, Design and Computing, transfer applicants meet the following criteria:

Direct Admission to:

BS in Civil Engineering
BS in Construction Engineering and Management
BS in Computer Science
BS in Electrical Engineering
BS in Mechanical Engineering

BS in Bioengineering

Criteria:

- Minimum 3.000 cumulative high school GPA with a grade of B- or better in Calculus I **or**
- Minimum 2.75 overall GPA **and** a minimum 2.5 GPA (based on most recent course attempts) in Calculus I, Calculus II, and Calculus-based Physics I with corresponding lab, with a grade of C- or better in each course.

Note: For admission into the Computer Science major, Calculus-based Physics I **is not** required, but will be accepted. In addition, department chairs may consider the utilization of any subsequent math courses for the Calculus I/Calculus II/Physics GPA requirement.

Direct Admission to:

BA in Computer Science
BS in Construction Management

Criteria:

- Minimum 2.5 overall GPA
- Completion of at least one of the following courses with a grade of C or better:
 - College Algebra,
 - College Trigonometry,
 - Pre-Calculus,
 - Calculus I, or
 - Calculus II

Admission to Pre-Engineering

Students who do not meet the criteria for direct admission to a major will be considered for admission to the Pre-Engineering **with a major interest**.

Criteria:

- Minimum 2.5 overall GPA
- Completion of at least one of the following courses with a grade of C or better:
 - College Algebra,
 - College Trigonometry,
 - Pre-Calculus,
 - Calculus I, or
 - Calculus II

Admission to CLAS - Undeclared

Transfer students who do not meet the criteria for direct admission to a major or Pre-Engineering, but otherwise meet the University's admission criteria, will be admitted to CLAS as an undeclared major, or in the case of an IUT, remain in their current CU Denver school or college.

Notes: CU Denver students may apply to a major or Pre-Engineering major through an Intra-University Transfer (IUT) (<https://www.ucdenver.edu/registrar/student-resources/forms/>) **after** they have completed 12 or more CU Denver credit hours. Please visit the College of Engineering, Design and Computing website (<https://engineering.ucdenver.edu>) for additional information.

College of Liberal Arts and Sciences

For admission to the College of Liberal Arts and Sciences, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

School of Public Affairs

For admission to the School of Public Affairs, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

How to Apply as a Transfer Student

1. Complete and submit your application online at www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>).
2. Pay your \$50 nonrefundable application fee. **Note:** You can indicate your eligibility for a fee waiver when you apply.
3. Request official (p. 50) transcripts from each regionally accredited (p. 88) college or university attended, including foreign institutions. Official transcripts should be sent directly to the CU Denver Office of Undergraduate Admissions mailing address or electronically.

Second Bachelor's Degree Admission

Applicants who already hold a bachelor's degree may apply for admission to complete a second bachelor's degree. Students cannot apply to the same major in which they previously have received a bachelor's degree. If you do not plan to complete a second bachelor's degree (only need to complete pre-requisites), you must apply as a **graduate** non-degree or degree-seeking student.

Note: There are implications for students wishing to pursue a second bachelor's degree in the Business School (p. 109) or the School of Education & Human Development (p. 685).

How to Apply as a Student Seeking a Second Bachelor's Degree

For instructions on how to apply, please visit <https://www1.ucdenver.edu/transfer> (<https://www1.>).

Readmission Requirements for Former Students

Degree-seeking students who have not attended classes on the Denver Campus for one year (three semesters) or longer must apply for readmission by completing an online application. The University of Colorado transcripts (Boulder, Colorado Springs, & Denver) are not required; however, official transcripts from each college or university attended following enrollment at CU Denver must be submitted.

Note: The Office of Undergraduate Admissions may require you to resubmit transcripts depending on the desired major.

How to Apply as a Readmit Student

Please visit <https://www.ucdenver.edu/admissions/-apply-now> (<https://www.ucdenver.edu/admissions/-apply-now/>) and apply as an undergraduate student.

For readmission information of service members, please click here (p. 46).

Academic Suspension/Probation Review (ASPR) for CU System Students

Transfer/readmit students with a cumulative CU GPA below 2.0 from any University of Colorado campus (Boulder, Colorado Springs or Denver) are subject to additional review by the school or college to which they are applying. Applicants must meet program requirements of the school or college to which they are applying. If requirements are not met, the applicant can be reviewed by the College of Liberal Arts and Sciences for general admission to CU Denver. Applicants should allow additional processing time for this review and contact the school or college advising office for additional information.

Note: Each school and college may also have petition deadlines in place. Due to the time sensitive nature of this process, applicants should contact the school to college advising office as soon as possible.

Applicants who completed high school concurrent courses through any University of Colorado institution and have a GPA below 2.0 are not subject to additional review. However, applicants should be aware that concurrent coursework completed at a University of Colorado institution is counted toward their cumulative CU GPA.

Readmission School/College Specific Policy

College of Arts & Media

All students who have not registered and attended classes at the university for one calendar year (three consecutive semesters, including summer term) or longer must apply for readmission through the CU Denver Office of Admissions. Former music majors who have not registered at the university for three consecutive semesters (not including summers) may need to re-apply to the Department of Music & Entertainment Industry Studies. Contact CAM@ucdenver.edu for more details.

Due to the dynamic nature of College of Arts & Media programs, returning students who have not attended in more than five years must complete their programs based on the current curriculum and policies.

Business School

For students newly admitted to the Business School and former business students readmitted to the school after an absence of three semesters, applicable credits up to five years old will be counted toward business degree requirements. Courses more than eight years old will be evaluated individually for their current relevance to the degree program. Students may be required to update their knowledge by taking additional courses when past courses are outdated. Generally, business courses more than eight years old will not apply toward degree credit.

A University of Colorado student from another campus, or a Denver campus student who has not registered for three consecutive semesters (including summer term), is considered a former student and must reapply for admission. Former Denver campus business degree students will be automatically readmitted to the school for up to three years from the semester they last attended if they are in good standing (not on probation or suspension) in the school. Students who have not attended for more than three years, or who have completed the equivalent of 12

or more semester hours at another institution of higher education, must meet the admission and degree requirements applicable at the time they reapply.

School of Education and Human Development

All SEHD students who have not registered and attended classes on the Denver campus for one calendar year (three consecutive semesters, including summer term) or longer must reapply for admission to the Office of Admissions. Students must be in good academic standing to be eligible to gain readmission. Students not in good academic standing will be reviewed on a case-by-case basis.

College of Liberal Arts & Sciences

Students who have attended the University of Colorado, Denver and have been admitted to the College of Liberal Arts and Sciences, but never registered and attended or have not registered for and attended classes on the Denver Campus for one year or longer (three consecutive semesters, including summer term), must reapply for admission through the Office of Admissions (per University policy). Students who are in good academic standing are eligible to gain readmission to the college, but students who are not must follow the academic probation and suspension policies before they can be readmitted.

This policy applies to any student who meets all of the following criteria:

- Is a former degree-seeking CU Denver campus student,
- Is a former declared CLAS student, and
- Has not completed any transfer coursework since leaving CU Denver.

Once the university has readmitted a student, the following guidelines will help to determine the academic requirements and catalog that a student will follow to complete their academic program. These policies apply to all degree granting programs in the College of Liberal Arts and Sciences, including graduate programs, undergraduate majors, undergraduate minors, certificates (graduate, undergraduate and non-degree seeking), unless other program-specific policies are established and explicitly stated in the academic catalog under the academic program requirements. Students should always meet with both their CLAS advisor and program advisor(s) as soon as they are readmitted to make sure that they know what catalog and degree requirements that they must follow. Advisors will make sure that credits are applied to a student's specific degree requirements according to the best fit, and will work with the appropriate graduation certification team to make sure that the student's degree audit (when available) is accurate.

All students are responsible for requisite knowledge for courses with prerequisites. A student may have taken prerequisite coursework, but either because they have been away from the subject matter for any amount of time or because there have been new developments in the discipline in the intervening time may lack some of this requisite knowledge. Students may substantially benefit from retaking prerequisite coursework, though they will not receive duplicate credit for courses that have been taken previously and only one iteration of the course will apply toward fulfilling degree requirements.

If a student has completed a minimum of 60 credit hours that are applicable toward a degree, or the equivalent of half the coursework applicable toward the degree through their last active term, the college will allow the student to choose to either

- Follow the college requirements established in the academic catalog from the admit term of their most recent matriculation, provided that the courses and curriculum are still offered, or
- Follow the college requirements established in the academic catalog under their new admit term.

If a student has completed a minimum of half the coursework applicable toward a major, minor, or certificate program through their last active term, the major department will allow the student to choose to either

- Follow the program requirements established in the academic catalog from the admit term of their most recent matriculation, provided that the courses and curriculum are still offered, or
- Follow the program requirements established in the academic catalog under their new admit term.

Students must meet with their CLAS and departmental advisors when they are readmitted to determine which of these options are available.

If a student has completed less than 60 credit hours that are applicable toward a degree, or less than the equivalent of half the coursework applicable toward the degree through their last active term, the college requires the student to follow the college and program requirements established in the academic catalog under their new admit term.

Any exceptions to this policy will be reviewed by the Academic Standards Committee and approved by the appropriate Associate/Assistant Dean.

Students Returning Who Are in Good Standing

CU Denver students who have not registered and attended classes on the Denver Campus for one year or longer and who have not attended another institution since the University of Colorado are considered returning students and must formally apply for readmission. An additional application fee is only required if changing from undergraduate to graduate or non-degree to degree status, or if a degree was earned and the student is applying for a second degree. Students applying for readmission may complete an online application form at www.ucdenver.edu/ ([http://www.ucdenver.edu/admissions/-apply-now](http://www.ucdenver.edu/admissions/admissions/-apply-now)) (<https://www.ucdenver.edu/admissions/-apply-now/>). A paper application may also be requested by calling 303-556-2704 or by email at admissions@ucdenver.edu.

Students Returning Who Are Not in Good Academic Standing

Students on Suspension

During the one-year academic suspension period, students who wish to return to the university should consider one (or both) of the following actions:

- Attend another regionally accredited college/university.
 - Students who choose to attend another institution while on academic suspension can take as many or as few credits as they choose, but must earn a 2.750 cumulative GPA in all transferable course work.
- Students should consult their academic advisor to discuss appropriate course work.

- Students should use the time off to directly address and resolve the factors that contributed to the academic difficulty.

After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:

- Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.750 in transferable credit.
- Explanation of their previous academic difficulty, demonstration of what has changed and how this will allow them to now achieve and maintain good academic standing (including a semester GPA of at least 2.300 and a cumulative GPA of at least a 2.000).

Students who choose to petition their college's appellate committee for re-admission must submit their petitions by the following deadlines:

- For fall admission: June 1
- For spring admission: December 1
- For Maymester/summer admission: April 1

If a student is granted readmission and their CU GPA is below a 2.0, they will be re-admitted **on restricted academic probation**. These students must meet the condition of restricted academic probation every semester until their cumulative CU GPA is at least a 2.000.

Students Who Have Attended Another College or Institution

Students who have attended another college or university since last attending the University of Colorado must apply as transfer students and meet the admission criteria and transfer student deadlines for receipt of documents. This requires payment of the \$50 (subject to change) nonrefundable application fee and submission of one official transcript from each college or university attended since last enrollment at CU Denver. Transcripts must be sent directly from the issuing institution. Paper copies must be sent directly to:

Office of Admissions
University of Colorado Denver
Campus Box 167
P. O. Box 173364
Denver, CO 80217-3364

OR

Electronic transcripts are only accepted through Parchment/Docufile (<https://exchange.parchment.com/u/auth/login/>), SENDedu (<https://sendedu.org/>), etc. and are considered official when received. To send transcripts electronically from a verified sender/school, please send to: admissionstranscript@ucdenver.edu.

Students Who Last Attended Another University of Colorado Institution

Students who last attended another University of Colorado campus as a degree seeking student must formally apply for admission and meet the admission criteria of CU Denver. An application fee is not required unless going from undergraduate to graduate status, from non-degree to degree status, or if a degree was earned. Students may apply

online at www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>). If applying online, students should indicate “pay by check” when prompted for application fee payment. The fee requirement is then removed during application processing. Transcripts from another University of Colorado institution are not required, but official transcripts from each college or university attended prior to enrollment at the University of Colorado must be submitted.

Non-Degree Student Admission

Applicants who do not plan to complete a University of Colorado Denver bachelor's degree, may be admitted as non-degree students. Applicants that have already earned a bachelor's degree, should apply as a non-degree graduate student. To change from non-degree to degree-seeking status, applicants need to apply as an undergraduate or graduate degree-seeking student and meet the admission requirements of the intended program of study.

Non-degree eligibility requires a minimum 2.000 cumulative GPA.

Note: For further information on financial implications for non-degree students, please visit the financial aid (p. 53) page.

How to Apply as a Non-degree Student

1. Complete and submit your application online at www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>).
2. Pay your \$50 nonrefundable application fee.
3. No additional credentials are required.

High School Postsecondary and Concurrent Enrollment

High school students with demonstrated academic abilities may be admitted to CU Denver with special approval for one term only. This approval may be renewed. Credit for courses taken may subsequently be applied toward a university degree program, if applicable. For more information and application instructions, contact the Office of Admissions, 303-315-2601 or admissions@ucdenver.edu.

Transfer of College Level Credit

For more information on transfer of college level credit, please consult the Records and Registration - Transfer Credit (p. 66) section.

Application Updates

Applicants or admitted students who wish to change the term indicated on their application must submit a term change request to the Office of Undergraduate Admissions prior to registering for and/or attending any classes at CU Denver. Admission can be deferred for up to one year (three semesters) from the initial term indicated on the application. For example, an admitted student that initially applied for Fall 2021 may defer until Fall 2022. A new application is not required for a change up to one year from the initial term indicated on the application.

Note: A maximum of three term change requests per application are honored.

Applicants and admitted students who wish to change the major indicated on their application must submit one of the following requests:

Program/Plan Change

Prior to the first day of classes, the Office of Undergraduate Admissions completes program/plan change requests within or between the University of Colorado Denver colleges/schools.

Note: Admissibility into the desired major will be re-evaluated.

Intra University Transfer

After the first day of classes, students wishing to change from one CU Denver school or college to another must submit an Intra-University Transfer (IUT) (p. 63) form to their intended school.

Change of Major

After the first day of classes, students wishing to change their major within the same CU Denver school or college must submit a Change of Major request (p. 63) to their advisor.

Active Military & Veteran Applicants

The University of Colorado Denver is a Military Friendly institution.

Active military and veteran applicants are offered the following admission benefits:

- Waived application fee
- Waived SAT/ACT if high school graduation was more than five years prior and with the submission of a Joint Services Transcript (JST)

The readmission of service members:

- The University of Colorado Denver will readmit a service member with the same academic status as they had when last attending the school or accepted for admission to the school. This requirement applies to any student who cannot attend school due to military service.
- The student must notify VMSS of their military service and intent to return to school.
- VMSS will work with the appropriate offices to assist in the readmission of the student in the next applicable term.

Note: For additional information on transfer credit and other university benefits, please contact Veteran and Military Student Services (VMSS) at vmss@ucdenver.edu.

International Admissions

Director of International Enrollment Management: Clay Harmon

Website: <http://internationaladmissions.ucdenver.edu> (<http://internationaladmissions.ucdenver.edu/>)

Overview

CU Denver International Admissions manages the admission process for international undergraduate applicants who currently have or will require a temporary, non-immigrant visa to study in the United States. Advisors are available to help you through the entire application process.

We also evaluate international academic credentials for international graduate applicants, as well as US citizens, permanent residents, and other applicants who have studied outside the United States before studying at CU Denver | Anschutz Medical Campus.

This page contains information for international applicants to undergraduate programs. For information about applying to a graduate program as an international student, please visit this page (<http://catalog.ucdenver.edu/cu-denver/graduate/international-admissions/>).

Application Information for Undergraduate International Students

The University of Colorado Denver provides a diverse array of baccalaureate majors, minors, certificates, and teacher licensure options to meet the ever-challenging demands of a global society. Undergraduate education programs consist of a general core curriculum, a major, and elective courses for all areas of study. The campus-wide core curriculum develops proficiency in writing and mathematics, cultivates a breadth of knowledge, promotes critical thinking, allows for the flexibility to meet career goals, and helps develop sensitivity to cultural diversity and international perspectives.

A list of all undergraduate programs, including minors and online programs, is available by clicking here (p. 759).

Everyone is welcome to apply (<https://www.ucdenver.edu/international-admissions/>). CU Denver values a culture of inclusion and does not discriminate on aspects of identity, including but not limited to gender, race, ethnicity, sexual orientation, ability status, veteran status, nationality, citizenship, religion, and socioeconomic background.

CU Denver seeks to identify applicants who are likely to be successful in a rigorous academic program of study. Admission decisions are based on many factors, the most important being:

- Previous academic performance
- Evidence of academic ability and accomplishment as indicated by scores on national aptitude tests
- Evidence of maturity, motivation, and potential for academic success

CU Denver may deny admission to applicants or readmission to former students whose total credentials indicate an inability to assume obligations of performance and behavior deemed essential by the university.

After completing the application process, official notification of your admission status is provided by International Admissions.

Note: The University of Colorado Denver reserves the right to change the admission decision at any time if additional credentials are received that affect your qualifications.

Application Deadlines

Term	Scholarship Consideration Deadline	Recommended Deadline	Final Deadline
Fall 2021	January 15, 2021	March 15, 2021	May 15, 2021
Spring 2022	September 15, 2021	October 15, 2021	November 15, 2021
Summer 2022	N/A	January 15, 2022	March 15, 2022

The university may change document/credential deadlines in accordance with enrollment demands. For the best admission and immigration experience, applicants should apply as early as possible. Admission to the university does not guarantee the availability of desired courses. For an applicant to be considered for a specific term, all documents required for admission must be received by the deadline for that term. Applicants who are unable to meet the deadline may elect to be considered for a later term (see Term Change Requests (p. 46)). Please allow sufficient time to have transcripts sent from previously attended institutions.

Application Processing

Your application will be processed and you will receive a decision within 10 business days of CU Denver receiving a complete application.

First-Year and Transfer Student Admission

CU Denver International Admissions considers a number of factors in determining an applicant's level of academic preparation and success. We interpret the Colorado Department of Higher Education (CDHE) and CU Denver freshman and transfer admission standards in an internally consistent manner, while also taking into account the wide variety of educational backgrounds and experiences international students bring to the university.

Applicants are considered for admission as first-year students if applying to university for the first time after completing their secondary education (comparable to US high school completion) or a relevant high school equivalency exam. Applicants are considered for admission as transfer students if they have completed any amount of post-secondary coursework. In unusual or unique cases, International Admissions may elect to use either the first-year or transfer admission criteria in order to base our admission decision on the best available set of evidence regarding the applicant's likelihood for academic success at CU Denver.

For detailed information about CDHE and CU Denver admission criteria for undergraduate applicants, please see this page (<https://www.ucdenver.edu/undergraduate-admissions/>).

How to Apply for First-Year Admission

1. Complete and submit your application online via the International Admissions website (<https://www.ucdenver.edu/international-admissions/>).
2. Pay your \$75 non-refundable application fee. **Note:** you can provide a fee waiver code, or request a fee waiver, before submitting your application.
3. Provide the following documents:
 - a. Complete transcripts from **all** high schools you have attended - even if you did not graduate from the school.

- i. For high schools located inside the United States, you **must** provide official transcripts. For high schools located outside the United States, you may provide copies or unofficial transcripts.
- ii. If your transcript was issued in a language other than English, you must also provide a certified English translation of the transcript. CU Denver does not have a preferred translation provider; we recommend that you use an ATA member company (<https://www.atanet.org/>). **Note:** You do **not** need to provide an external evaluation of your transcript. International Admissions will evaluate your transcript during the application process. You only need to provide a translation.
- b. High school completion examination scores, as appropriate for your country or situation. Please see this list (<https://www.ucdenver.edu/international-admissions/apply-for-admission/>) for freshman documentation requirements from around the world.
- c. SAT or ACT scores (required only if you will graduate from a high school inside the United States). Scores reported on official high school transcripts are considered official test scores. Otherwise, please request test score reports from ACT (school code: 0533) or the College Board (school code: 4875).
- d. Proof of English language proficiency (ELP). Please see below for more information. **Note:** applicants who do not provide proof of ELP, or who do not meet the ELP requirement, will be considered for conditional admission.
- e. After reviewing your file, International Admissions may determine that we require additional documents. In this case, you must provide all requested documents in order to complete your application.

How to Apply for Transfer Admission

1. Complete and submit your application online via the International Admissions website (<https://www.ucdenver.edu/international-admissions/>).
2. Pay your \$75 non-refundable application fee. **Note:** you can provide a fee waiver code, or request a fee waiver, before submitting your application.
3. Provide the following documents:
 - a. Complete transcripts from all colleges, universities, and post-secondary institutions of any kind that you have attended - even if you did not complete a degree at the institution.
 - i. For institutions located inside the United States, you must provide official transcripts. For institutions located outside of the United States, you may provide copies or unofficial transcripts.
 - ii. If your transcript was issued in a language other than English, you must also provide a certified English translation of the transcript. CU Denver does not have a preferred translation provider; we recommend that you use an ATA member company (<https://www.atanet.org/>). **Note:** You do **not** need to provide an external evaluation of your transcript. International Admissions will evaluate your transcript during the application process. You only need to provide a translation.
 - b. If you have completed less than 24 US semester credits or one year of post-secondary study, you must also provide complete transcripts from all high schools you have attended. Please follow

the high school transcript instructions listed under "How to Apply for First-Year Admission" above.

- c. Proof of English language proficiency (ELP). Please see below for more information. **Note:** applicants who do not provide proof of ELP, or who do not meet the ELP requirement, will be considered for conditional admission.
- d. After reviewing your file, International Admissions may determine that we require additional documents. In this case, you must provide all requested documents in order to complete your application.

Non-Degree Admissions

Summer Study at CU Denver

Do you have an I-20 at another US institution, want to take courses during summer break, and bring your credits back to your home institution? If so, non-degree admission is right for you.

Other Non-Degree Study

Do you need an I-20 from University of Colorado Denver or do you want to explore CU Denver before applying to a degree program? Would you like to complete a course for professional development or transfer credits to another institution? If so, non-degree admission is right for you.

If you want to take specific courses requiring pre-requisites, we recommend that you contact the Registrar's office at registrar@ucdenver.edu before you apply.

*Note that if you already have a bachelor's degree, you will need to complete the graduate non-degree application. As a graduate non-degree student, you still will have the option to enroll in undergraduate course work.

Certificate/Continuing Professional Programs

Professionals who want to advance their careers or learn a new skill can earn a certificate from CU Denver. Our certificate programs provide specialized information delivered by knowledgeable professors. Additionally, our continuing education classes help you stay current with developments in your field.

*If you want to enroll in courses identified as Continuing and Professional Education (<http://www.ucdenver.edu/academics/continuing-education/Pages/>), do not apply for non-degree admission. See your program for application information.

Undergraduate Non-Degree Admissions

How to Apply

UndergradUATE Non-Degree Admission Requirements for International Students

- High school diploma *or* 1+ semester of undergraduate study
- Overall GPA of 2.0 or higher
- International non-degree applicants must provide Proof of English Language Proficiency (<https://www.ucdenver.edu/international-admissions/apply-for-admission/undergraduate/freshman-admissions/>)

*If you are currently attending another US institution or have attended another US institution for at least 1 semester or more, your transcript will

act as proof of English language proficiency (ELP). However, you must provide your official US transcript at the time of application.

After Admission

- Immigration Clearance Form is required for all non-degree international applicants

Non-degree coursework requires additional processing steps for the I-20. International Student and Scholar Services (<https://www.ucdenver.edu/services/international-student-and-scholar-services/>) (ISSS) will help with those requirements.

Proof of English Language Proficiency

International applicants to CU Denver must provide proof of English Language Proficiency (ELP) in order to be considered for full admission. Undergraduate applicants (except Nursing) and some graduate applicants will be considered for conditional admission if they apply without adequate proof of ELP. You may meet the ELP requirement via any of the options listed below. For the most up-to-date information, please visit the International Admissions website (<https://www.ucdenver.edu/international-admissions/>).

International Admissions will update the English language proficiency policy, effective for admission in the spring 2021 term and forward. Please see below for up-to-date information.

1. Citizenship Exemption

International applicants holding citizenship from the following countries do not need to prove their English language proficiency for admission to CU Denver. This list is based on the United Kingdom government's list of countries (<https://www.gov.uk/tier-4-general-visa/knowledge-of-english/>) exempt from proving English ability when applying for a UK student visa.

- Antigua & Barbuda
- Australia
- The Bahamas
- Barbados
- Belize
- Canada
- Dominica
- Grenada
- Guyana
- Ireland
- Jamaica
- Malta
- New Zealand
- Saint Kitts & Nevis
- Saint Vincent & the Grenadines
- Trinidad & Tobago
- United Kingdom

2. ESL Academy

International applicants may meet the English language proficiency requirement for any program of study at CU Denver by successfully completing every class in level 5 at CU Denver's ESL Academy (<https://clas.ucdenver.edu/esl/>).

3. English Language Proficiency Tests

CU Denver accepts the following tests as proof of English language proficiency.

Minimum Score Requirements

Test	TOEFL iBT	IELTS Academic	PTE Academic	Duolingo English Test
Overall Score	79	6.5	58	105
Subscores				
- Reading	18	5.5	42	Literacy: 85
- Listening	17	5.5	42	Conversation: 85
- Speaking	20	5.5	42	Comprehension: 85
- Writing	17	5.5	42	Production: 85

Notes:

- The university minimum scores listed above apply to all undergraduate programs, with the exception of Nursing. Please visit the College of Nursing (<https://nursing.cuanschutz.edu/admissions/>) website for more information.
- CU Denver's TOEFL code is 4875. For all other tests, please search for or choose "University of Colorado Denver."
- CU Denver accepts TOEFL MyBest scores and superscored IELTS scores.

4. Coursework Completion

International applicants who have completed any of the following coursework will be considered to have met the English language proficiency requirement.

Undergraduate Admission (First-Year and Transfer)

- Earn a high school diploma in the United States, with 1+ year of study in the US and college-prep English coursework
- Earn a high school credential (comparable to a US high school diploma) in any of the exempt countries listed above
- Earn a high school credential (comparable to a US high school diploma) at an exempt country-accredited school located in a non-exempt country

Additional Options for Transfer Admission

- Earn an associate or bachelor degree in the United States
- Earn a post-secondary credential (comparable to a US associate or bachelor degree) in any of the exempt countries listed above
- Earn a post-secondary credential (comparable to a US associate or bachelor degree) at an exempt country-accredited institution located in a non-exempt country
- Complete the GTPathway at a Colorado community college
- Earn 24 or more transferable semester credits at an accredited institution in the US, **and**:
 - Earn an overall college-level GPA of 2.7/4.0 or higher, **or**
 - Earn a final grade of B- or higher in English Composition 1, or equivalent, or a higher English composition course

5. Additional Tests for Undergraduate English Language Proficiency

International applicants to undergraduate programs (except Nursing) may also use the following test scores as proof of ELP. International

Admissions must receive the official score report in order to use these tests for ELP.

Test	Required Score
ACT:	
- English	18 or higher
SAT:	
- Evidence-Based Reading and Writing	480 or higher
Advanced Placement (AP):	
- English Literature and Composition	3 or higher
International Baccalaureate (IB):	
- English A Literature (HL or SL)	4 or higher
- English A Language and Literature (HL or SL)	
General Certificate of Education (GCE) A-Level:	
- English Literature	E or higher
- English Language	
General Certificate of Education (GCE) AS-Level:	
- English Language	E or higher

6. LynxDirect Pathway Program

International undergraduate applicants to undergraduate programs who do not meet any of the English Language Proficiency requirements listed above will be considered for admission to the LynxDirect pathway program in the CU Denver ESL Academy. The English Language Proficiency requirement for LynxDirect admission is as follows:

Test/Option	Minimum Required Score (Overall)
TOEFL iBT	70
IELTS Academic	6.0
Duolingo English Test	95
CU Denver ESL Academy	Successful Completion of Level 4

Immigration Process

International Services Specialists in International Student & Scholar Services (ISSS) (<https://www.ucdenver.edu/services/international-student-and-scholar-services/>) handle the immigration process for international students. ISSS will issue an immigration document (Form I-20 or Form DS-2019) to you, if applicable, only after you have confirmed your acceptance and submitted the Immigration Clearance Form (see below). Financial documentation is not required at the time of application.

You will be contacted within five (5) business days of receiving your decision letter and will need to provide:

Proof of Financial Support: If you have already sent financial documents to the International Admissions Office, that information will be forwarded to ISSS. If you have not already provided this information, or if your information needs to be updated, you will have an opportunity to provide ISSS with your proof of financial support when you complete the online Immigration Clearance Form that your International Services Specialist will send to you.

Passport/Visa Information: If you have already sent this information to International Admissions, it will be made available to ISSS who will contact you if they need more information.

Note: International students living outside of the U.S. will need to provide a copy of their passport, if it has not already been sent. Those living in the U.S. should be prepared to submit a copy of their passport, visa, Form I-94 Arrival/Departure Record and Form I-20, Form DS-2019, or Form I-797 (if applicable). In all correspondence, please use your name as it appears on your passport.

Please visit ISSS (<https://www.ucdenver.edu/services/international-student-and-scholar-services/>) for more information on Pre-Arrival, Arrival at CU Denver, I-20/DS-2019 Timeline, and more.

Admissions Policies

To learn more about Admissions Policies, please review the links below.

- Transcripts (p. 50)
- Supplementary Review (p. 51)
- Admissions Promise (p. 52)

Transcripts

Official High School Transcripts

Official high school transcripts are required for all degree-seeking undergraduate applicants. Official high school transcripts are those issued by the last institution attended and are accepted via email from a high school official, mail, or electronically through a third party e-transcript exchange agent directly to the Office of Undergraduate Admissions (p. 39). Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

- High school graduates: Three years of completed high school course work is the minimum requirement for an admission decision. An admission decision can be determined before high school graduation; however, if admitted to CU Denver, a final official high school transcript noting a graduation date will be required.
- High school equivalency exam recipients: Students who did not graduate from high school are required to have a copy of their high school equivalency exam test scores and certificate sent directly from the certifying agency to the CU Denver Office of Admissions. High school equivalency exam scores and ACT or SAT scores are the basis for the admission decision.

Note: Applicants who have attended multiple high schools are only required to submit the transcript of the last institution attended provided that the transcript contains all previous high school course work. When requesting a transcript, indicate to the school official that all course work from previous high school/s be included.

Official College Transcripts

Official college transcripts are required for all degree-seeking undergraduate applicants. Official college transcripts are those issued by each institution attended and are accepted via mail or electronically through a third party e-transcript exchange agent and sent directly to the Office of Undergraduate Admissions (p. 39). Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

Individual transcripts are required for each regionally accredited institution attended. Applications are not considered complete until all transcripts from all institutions attended are received.

Note: Transfer credit accepted and documented on another institution's transcript do not fulfill the transcript requirement.

Unofficial Transcripts

CU Denver will accept unofficial high school or college transcripts as a *placeholder* for official transcripts during the application process. These transcripts will allow us to provide an admission decision or a preliminary review of transferability of courses. Transfer credit will not be applied until official transcripts are received. Students will ultimately need to submit official transcripts and may be prevented from registering for courses until official transcripts are received.

Domestic Students with International Transcripts

Non-international applicants that have attended and completed course work at a foreign institution must submit transcripts from those institutions. Transcripts that are not in English must be submitted with a certified English translation. Once received, international transcripts are evaluated by the Office of International Admissions (<https://www.ucdenver.edu/international-admissions/>).

Note: Evaluations by outside agencies are not accepted or used in an admission decision.

In-Progress Course Work

Applicants who are admitted and enroll at CU Denver with pending completion of in-progress course work are permitted one term to submit final official transcripts. If official transcripts are not received by the end of the initial term of attendance, registration for subsequent terms is restricted. Final transcripts should be sent via mail or electronically through a third party e-transcript exchange agent and sent directly to the Office of Undergraduate Admissions (p. 39). Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

Remedial/Developmental College Course Work

The University of Colorado Denver does not accept remedial/developmental course work as part of an applicant's cumulative GPA and/or credit total. Remedial/developmental courses are intended to bolster the basic skills of new college students so they are adequately prepared for college-level work. Remedial/developmental courses are typically defined as below a 100 course level.

Note: The University of Colorado Denver does not offer remedial/developmental course work.

Grade Replacement

Grade replacement policies vary between institutions and CU Denver defers to each institution's policy when evaluating an applicant's cumulative GPA and credits.

Semester Hours

All college course work is converted into semester hours for purposes of admission evaluation. For example, 1.5 quarter hours is equal to 1 semester hour and 1 trimester hour is equal to 0.75 semester hours.

Required Institution Accreditation

The University of Colorado Denver only considers transcripts from regionally accredited institutions in an admission decision. The following regional accrediting organizations are acceptable:

- Higher Learning Commission
- Accrediting Commission for Community and Junior Colleges
- Middle States Commission on Higher Education and Middle States Commission on Secondary Schools
- New England Commission of Higher Education
- Southern Association of Colleges and Schools Commission on Colleges
- Western Association of Schools and Colleges and WASC Senior College and University Commission
- North Central Association of Colleges and Schools Commission on Colleges
- Northwest Accreditation Commission and North West Commission on Colleges and Universities

To determine regional accreditation of an institution, please visit the Council for Higher Education Accreditation (CHEA) webpage www.chea.org (<http://www.chea.org>).

Note: The University of Colorado Denver does not recognize accreditation from faith-related or career-related accrediting organizations.

Official Test Scores

The University of Colorado Denver requires official test scores for all applicants with less than 24 completed college credits. CU Denver accepts both the ACT and SAT.

House Bill HB20-1407 permits the University of Colorado to waive the use of test scores in admissions decisions for students who have graduated, or will graduate, in the 2021 calendar year.

Note: AP, IB, and CLEP scores can be submitted to the university for potential transfer credit but do not impact an admission decision.

Document Retention

All credentials submitted as application materials become the property of the University of Colorado Denver. Original documents are not returned or provided to students.

Supplementary Review

Academic Suspension/Probation

Academic Suspension/Probation Review (ASPR) for CU System Students

Transfer/readmit students with a cumulative CU GPA below 2.0 from any University of Colorado campus (Boulder, Colorado Springs or Denver) are subject to additional review by the school or college to which they are applying. Applicants must meet program requirements of the school or college to which they are applying. If requirements are not met, the applicant can be reviewed by the College of Liberal Arts and Sciences for general admission to CU Denver. Applicants should allow additional processing time for this review and contact the school or college advising office for additional information.

Note: Each school and college may also have petition deadlines in place. Due to the time sensitive nature of this process, applicants should contact the school to college advising office as soon as possible.

Applicants who completed high school concurrent courses through any University of Colorado institution and have a GPA below 2.0 are not subject to additional review. However, applicants should be aware that concurrent coursework completed at a University of Colorado institution is counted toward their cumulative CU GPA.

Admission Decision Appeal

Applicants interested in appealing their admission decision should submit a letter to the Office of Undergraduate Admissions with additional information regarding circumstances that may have impeded their academic performance. Additionally, any updated test scores or coursework also should be submitted. Send letters to Admissions@ucdenver.edu and include the subject line "Admission Decision Appeal."

Revoking Admission

Applicants may be denied admission to the university or have their admission revoked if they knowingly:

- Falsify transcripts
- Falsify test scores
- Fail to indicate and provide credentials from all previously attended institutions
- Fail to disclose criminal history or suspension/expulsion information

Criminal History/Suspension

Applicants with criminal history and/or previous suspension/expulsion may undergo additional review by the Special Admissions Committee. The Special Admissions Committee meets regularly to review criminal history and suspension/expulsion application information for students who are academically admissible to the university.

Note: Disclosing criminal history or suspension/expulsion information is required but is not grounds for automatic denial of admission.

Appeal process

Applicants may appeal the Special Admissions Committee's decision when new information is available that was not included or available in the initial review of the application file. The information must be provided as part of the appeal. To request an appeal, submit a written letter to the Special Admissions Committee stating the grounds for the appeal and a request to be reconsidered for admission. This letter must be addressed to:

Special Admissions Committee
University of Colorado Denver
Campus Box 167
P.O. Box 173364
Denver, CO 80217-3364

Applicants are notified in writing of the results of the appeal. Should the appeal be denied, applicants may request in writing the appeal be submitted for review to the Dean of Students. In this event, the Special Admissions Committee will inform the Dean of Students and will provide the Dean with the application file, including information relevant to the Special Admissions Committee's decision and the initial appeal.

Applicants are notified in writing of the results of the Dean of Students' final admission decision.

Admissions Promise

The Admissions Promise is a partnership between the University of Colorado Denver and select Colorado Community Colleges to provide advising and ongoing support to applicants in pursuit of a four-year degree. Program participants are automatically accepted to the University of Colorado Denver as a junior upon completion of an approved associate's degree from a participating community college:

- Arapahoe Community College (ACC)
- Colorado Northwestern Community College (CNCC)
- Community College of Aurora (CCA)
- Community College of Denver (CCD)
- Front Range Community College (FRCC)
- Morgan Community College (MCC)
- Pikes Peak Community College (PPCC)
- Red Rocks Community College (RRCC)

Overview

At CU Denver, we have a longstanding belief that finances should never stand in the way of motivated, talented individuals who want to better themselves and make a positive impact on the world around them. Through a tradition providing strong financial assistance and aid programs, we enforce this belief every day.

Financial Aid

It's been said that a college degree is an investment in your future. But for many, financing that investment seems unattainable. That doesn't have to be the case. While the world of financial aid can seem intimidating, if you break it down and put in the work, making financial aid work for you will be the first step toward opening a door to your future.

Below is more information to help you navigate the financial aid process:

- Applying (p. 53)
- Awards (p. 53)
- Eligibility (p. 53)
- Grants, Loans and Work-Study (p. 53)
- Qualifying (p. 54)

Applying

The Financial Aid & Scholarships Office delivers more than \$128 million in financial aid awards to qualified students at the Denver Campus each year. Students will be considered for a financial aid award of need-based grants (federal, state, and institutional), Work-study (part-time employment), Federal Direct Loans and, if applicable, Federal Direct Parent PLUS Loans. To be considered for the best funding available, students should complete the FAFSA and submit requested documentation by the CU Denver priority deadline of April 1 each year.

To be considered for financial aid, students should complete the Free Application for Federal Student Aid (FAFSA (<https://studentaid.gov/h/apply-for-aid/fafsa/>)) annually. The application becomes available October 1 of each year for the upcoming year's funding. Upon completing the application, students should monitor their email provided on the FAFSA, University email, and UCDAccess (<https://passport.ucdenver.edu/login.php>) portal To Do List for requests for follow up paperwork. Students may also obtain important information online at <https://www.ucdenver.edu/student-finances/financial-aid> (<https://www.ucdenver.edu/student-finances/financial-aid/>). All financial aid policies and procedures are subject to change due to revisions in federal and state laws, regulations, guidelines and applicable institution policies.

Awards

Students are informed by University email when awarded financial aid. The email notice advises students to review their award on the

UCDAccess (<https://passport.ucdenver.edu/login.php>) portal. Financial aid awards should be available for review approximately four to six weeks after the Financial Aid & Scholarships Office accepts and processes all required documents. The information provided will include types of awards and the amount of aid awarded.

Eligibility

Each student must meet the following eligibility criteria to be considered for financial aid:

1. Be a U.S. citizen or eligible noncitizen.
2. Have a valid social security number (exceptions for students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau).
3. Be classified as degree-seeking in an eligible degree or certificate program.
4. Be enrolled at least half-time (6 credit hours) to be eligible for most types of financial aid, including the Direct Student Loan Programs.
5. Meet Satisfactory Academic Progress (SAP) standards at the end of each term.
6. Not be in default on any student loan or owe a refund on any educational grant.
7. Male applicants must be registered with the Selective Service.
8. Show proof of a high school diploma or recognized equivalent (GED or approved homeschooling).
9. Sign a statement on the FAFSA indicating that you will use federal student aid for educational purposes only.

Note: Students with intellectual disabilities who do not meet the eligibility requirements as outlined above may be able to obtain certain types of aid. To be eligible, you must be accepted for enrollment in a comprehensive transition and postsecondary program. For more information, go to [StudentAid.gov/eligibility](https://studentaid.gov/eligibility) (<https://studentaid.gov/understand-aid/eligibility/>) and select Students With Intellectual Disabilities (<https://studentaid.gov/understand-aid/eligibility/requirements/intellectual-disabilities/>).

Grants, Loans and Work-Study

Grants

1. *Federal Pell Grant* - This is a need-based, federally funded grant. Pell Grants are awarded based off a need-based formula provided by the federal government. Award amounts vary depending on financial need and a student's enrollment status. Only undergraduate students seeking a first time bachelor's degree are eligible.
2. *Federal Supplemental Educational Opportunity Grant (SEOG)* - This is a need-based, federally funded grant awarded to students with exceptional financial need. Students must be eligible for the Federal Pell Grant to be considered for SEOG. Because the SEOG Grant has limited funding, the grant is awarded to the highest need students, and is not guaranteed to be awarded to all eligible students.
3. *Federal TEACH Grant* - This is a non-need based, federally funded grant available to students in specific programs who intend to teach in a public or private school that serves students from low-income families. Students may be considered for up to \$4000 per academic year in TEACH Grant.
4. *CU Denver University Need Grant* - This is a need-based, institutionally funded grant awarded to students who document financial need

through the FAFSA. The grant is a limited fund award and awarded to students on a first come, first served basis.

5. *Colorado Student Grant* - This is a need-based, state funded grant available to eligible resident undergraduate students. The grant is awarded to students who document financial need through the FAFSA. The grant is a limited fund award and awarded on a first come, first served basis.

Loans

1. *Federal Direct Subsidized Loan* - The Federal Direct Subsidized Loan is a need-based, federally funded loan. Interest on the Subsidized Loan is paid by the federal government during certain periods. Borrowers receive a six-month grace period before entering repayment. The grace period begins six-months after the student ceases to be enrolled at least half-time, discontinues their program of study or graduates.
2. *Federal Direct Unsubsidized Loan* - The Federal Direct Unsubsidized Loan is a non-need based, federally funded loan. Borrowers receive a six-month grace period before entering repayment. The grace period begins six-months after the student ceases to be enrolled at least half-time, discontinues their program of study or graduates.
3. *Federal Direct Parent PLUS Loan* - The Parent PLUS Loan is a federally funded loan, available to parents of dependent students. The Parent PLUS Loan is credit-based and begins to accrue interest from the date of disbursement. If a parent cannot secure a PLUS Loan due to credit, the undergraduate student may qualify for additional Unsubsidized Loan. Repayment on the PLUS loan begins almost immediately after disbursement, however a parent may make arrangements to have repayment deferred while the student is enrolled at least half-time. The interest on this loan, even while in deferment, will continue to capitalize on the principle amount.
4. *Federal Perkins Loan* - This is a need-based, federally funded loan. The Perkins Loan has a 5% fixed interest rate. No repayment of interest or principal is due until nine months after the student ceases to be enrolled at least half-time or graduates.

Work-Study

1. *Federal Work-Study* - Work-study is a need-based, federally funded program that allows students to work part-time job (on-campus, off-campus or at nonprofit agencies) to help meet their educational costs.
2. *Colorado Work-Study* - Colorado Work-study is a state funded program similar to Federal Work-Study. It is available to resident undergraduate students pursuing their first bachelor's degree. Limited amounts of Colorado Work-study is available to students regardless of financial need.

Qualifying Financial Need

Financial Aid eligibility is largely based on the concept of financial need. Financial need is calculated as Cost of Attendance (tuition, fees, books, and living expenses) minus the Expected Family Contribution or EFC (student/spouse contribution and parents' contribution for dependent students). A student's EFC is assigned directly from the information provided on the FAFSA application.

Cost of Attendance is the estimated annual cost to attend CU Denver, including tuition and fees, room, board, books and supplies,

transportation and personal expenses. The Financial Aid & Scholarships Office determines COA based upon average tuition and fees charged and other items established by the Colorado Department of Higher Education. Current COA figures are available on our website at <https://www.ucdenver.edu/tuition-cost/cost-of-attendance> (<https://www.ucdenver.edu/tuition-cost/cost-of-attendance/>).

The EFC from the student/spouse and from the parents (if applicable) are calculated by a standardized formula that is determined by data provided on the FAFSA and is required by federal law. The formula considers income, savings and other assets, family size, number of children in post-secondary school and other factors and then assigns a student an EFC.

Financial Aid is intended to supplement and not replace financial contributions from the student and parents. If the EFC is equal to or greater than the COA, a student will not qualify for need-based financial aid, but can still receive non-need based financial aid such as Direct Unsubsidized Loans or Direct Parent PLUS Loans. Students may appeal for special consideration if they are experiencing unusual or extenuating circumstances that are negatively impacting their finances such as a job loss.

Determining Dependency Status

The federal government provides specific guidelines that define dependency status for federal financial aid. Dependency status is determined by a series of questions on the FAFSA. Students classified as dependent are required to provide student and parent household and financial information when applying for financial aid. If a student is classified as independent, the student's parental information is not considered when the calculation of the Expected Family Contribution is made. Students may review dependency questions by visiting <https://studentaid.ed.gov/sa/fafsa/filling-out/dependency> (<https://studentaid.ed.gov/sa/fafsa/filling-out/dependency/>).

A dependency status may be appealed to the financial aid office if unusual circumstances exist. Contact the office for appeal guidelines.

Enrollment Status

Most undergraduate financial aid programs require at least half-time enrollment (6 credit hours per semester) to be eligible for awards. Higher or lower minimums may be required for specific individual awards (review your award notification for the exact number of credits required for aid eligibility).

Satisfactory Academic Progress (SAP)

To continue to be eligible for financial aid, students must meet Satisfactory Academic Progress. If a student is not meeting SAP standards, they may be ineligible for financial aid and scholarships. For more information, students should review the Satisfactory Academic Policy by visiting <https://www.ucdenver.edu/student-finances/financial-aid/eligible/sap> (<https://www.ucdenver.edu/student-finances/financial-aid/eligible/sap/>).

A student may appeal financial aid suspension by submitting a SAP Appeal. The SAP appeal should document the extenuating circumstances that led to the student's suspension. All appeals should include third party supporting documentation.

Course Withdrawals and Repayments

Financial aid is disbursed based on the assumption a student will attend courses for the entire semester and earn passing grades. A student

who withdraws or fails all courses and received financial aid must have a Return of Title IV (R2T4) calculation performed to determine the percentage of aid that was earned based on the amount of time the student attended their courses. Students are entitled to aid that was earned. The University will return any unearned aid to the appropriate Federal Title IV program, which may create a balance owed to the University.

The University will also determine the earned and unearned portions of any state or institutional aid. This calculation is separate from the R2T4 aid calculation.

If you withdraw on or before the University's census date, you will be required to return all state and/or institutional aid received for the term. The Bursar's Office will bill your account for the amount owed.

If you withdraw after the census date, you will be required to repay a portion of any state and institutional received for the term based on your withdrawal date.

CU Denver is required to verify a student began attendance in any course a student withdraws from or fails. If the Financial Aid & Scholarships Office receives notification that a student never began attendance.

Scholarships

Each year, CU Denver undergraduate students are awarded over \$30 million in scholarships from institutional, local, state and national sources. Most of these funds are institutional provided through our schools and colleges. Local, state, and national undergraduate sources can be found at My Colorado Journey (https://www.mycoloradojourney.com/journey/?gclid=Cj0KCQiApY6BBhCsARIsAOL_GjaGpumsh-5Sngv-CfE1sgh0AFkUaJxJSOelSuYxTRRLc9pspWP7LOUaAsKeEALw_wcB).

Before applying for any scholarships, you should first fill out the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/apply-for-aid/fafsa/filling-out/>). Filling out the FAFSA won't cost you anything, and you don't need to pay someone else to prepare it for you.

It's also important to know the difference between financial aid and scholarships (<https://www.ucdenver.edu/student-finances/financial-aid/types/compare/>). Simply put, **scholarships are free money** – money given to you for your education by a higher education institution, state or federal government, or a private company or organization that you don't have to pay back.

At CU Denver, searching for scholarships has never been easier. We have one tool to support you in searching and applying for scholarships. Our ScholarLynx+ Application allows you to apply for scholarships offered by CU Denver and private donors (<https://ucdenver.scholarshipuniverse.com/>). Both applications identify scholarships that would be the best fit for you.

For a complete listing of the many scholarships offered at the Denver Campus, visit <https://www.ucdenver.edu/student-finances/scholarships> (<https://www.ucdenver.edu/student-finances/scholarships/>).

Tuition and Fees

When a student begins researching higher education institutions, tuition is often the first stop. Undergraduate tuition costs are different for in-state students – students who have Colorado residency – and out-of-state students – those attending CU Denver from outside of Colorado.

Tuition and fees are based largely on the classes you take, and which school or college is offering your classes, as well as your resident status. It is important that you understand your residency status (<https://www.ucdenver.edu/registrar/residency/>) because it impacts more than just tuition rates.

Tuition is the amount a student pays for instruction per course at a college or university. Tuition costs are often listed along with additional fees that all students must pay. These fees cover anything from the student wellness center and other facility maintenance costs to technology upgrades and transportation expenses.

All tuition and fee rates are established by the Board of Regents, the governing body of the University of Colorado, in accordance with legislation enacted annually by the Colorado General Assembly. The Regents set tuition rates and fees at a budget retreat each spring for the coming fall, spring and summer terms, but reserve the right to change rates at any time. Rates for the current year are available online to assist prospective students in anticipating costs. Please refer to the Tuition and Fees (<https://www.ucdenver.edu/student-finances/tuition-fees/>) site in July for new rates.

- College Opportunity Fund (COF) (p. 55)
- Direct Deposit (p. 55)
- Drop Charge (p. 56)
- Past Due Tuition and Fees (p. 56)
- Tuition Appeals (p. 56)

College Opportunity Fund (COF)

The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to eligible undergraduate students paying in-state tuition. The stipend pays a portion of your total in-state tuition for eligible undergraduate students who attend a public Colorado institution or a participating private institution. Eligible undergraduate students must be admitted and enrolled at a participating institution to use the stipend for eligible undergraduate classes. It isn't considered financial aid and doesn't figure into any financial aid packages offered by the college or university. The stipend pays a portion of your total in-state tuition and is paid directly to your institution on a per-credit-hour basis. This means that you will not receive a check in the amount of the COF, rather, you will see a deduction on your tuition bill.

The stipend is paid to the institution on a per-credit-hour basis, and the credit-hour amount is set annually by the General Assembly. Please check the official state College Opportunity Fund (<https://cof.college-assist.org/>) website for the current amount. For more information about COF and CU Denver please refer to our website (<https://www.ucdenver.edu/registrar/residency/college-opportunity-fund/>).

Direct Deposit

Direct deposit is the standard method of issuing student account refunds to CU Denver students with credit balances. Students are strongly encouraged to sign up for direct deposit well in advance of any anticipated student account refunds, and may do so online via the UCDAccess portal (<https://passport.ucdenver.edu/login.php>).

In your "Student Center", select "Student Account"

1. Go to "Direct Deposit Student Refunds"
2. Follow the instructions and input your banking information.

Students who do not sign up for direct deposit will receive a paper refund check through the mail. Refunds will only be issued via direct deposit or through the mail. **Students are not allowed to pick up their refund check from the Bursar's Office.**

Drop Charge

Beginning the second Tuesday of the fall and spring terms until census date, a \$100 drop transaction charge will be assessed each time a student drops a course. Please refer to the academic calendar (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>) for exact dates. This includes student initiated drops done in order to change sections within a course. Section changes done for an administrative purpose through the deans' offices will be exempted from drop charges. If a student withdraws, dropping all classes, a drop charge will be assessed for each course.

Past Due Tuition and Fees

Past due student accounts will be assessed a one-time per semester late charge and a monthly service charge for every month the balance remains unpaid. After the semester of the past due debt, student accounts are referred to Student Debt Management. An overdue student account may be referred to a third party collection agency and reported to one or more credit bureau reporting services; the student explicitly authorizes University of Colorado Denver to release personal and financial information under those circumstances. To the extent permitted by applicable law, the student agrees to reimburse the University of Colorado Denver for the fees of any collection agency, which may be based on a percentage at a maximum of 40% of the debt, and all costs and expenses, including reasonable attorney's fees, the University may incur in such collection efforts. In addition, while the student maintains a past due balance with the University of Colorado Denver, a hold will be placed on the student record preventing any future registration, as well as the release of official transcripts and diplomas.

Pursuant to C.R.S. § 23-5-115, in the event of a default on an amount owed to University of Colorado Denver, University of Colorado Denver may certify to the Colorado Department of Revenue information regarding persons with past due accounts. The Colorado Department of Revenue may then disburse funds to University of Colorado Denver in satisfaction of that debt from tax refund amounts owed to the individual, if any.

See the [Tuition and Fees Payment Disclosure Statement \(https://www.ucdenver.edu/docs/librariesprovider22/billing-payments/tuition-and-fee-agreement.pdf\)](https://www.ucdenver.edu/docs/librariesprovider22/billing-payments/tuition-and-fee-agreement.pdf).

Students who owe a past due debt to the university in excess of \$500.00 may be administratively dropped from any future terms if the past due amount is not paid in full or set up on a payment plan. The drop will occur the Friday prior to the first day of classes of the next term. For more information, please see the Bursar's Administrative Withdrawal Policy (<https://www.ucdenver.edu/docs/librariesprovider22/billing-payments/admin-withdrawal-policy.pdf>)

Tuition Appeals

Students are responsible for abiding by the published deadlines. Tuition is not refundable when students drop or withdraw from courses after the published deadlines. If circumstances beyond the student's control have

made the late drop or withdraw necessary, the student may file a tuition appeal.

Instructions and forms for submitting a tuition appeal are available here (<https://www.ucdenver.edu/student-finances/tuition-fees/tuition-appeals/>).

Billing and Payments

Please visit our website (<https://www.ucdenver.edu/student-finances/billing-payments/>) for more information, including state and federal regulations, policies specific to CU Denver (<https://www.ucdenver.edu/student-finances/billing-payments/policies/>), cost per credit hour, how to make payments, important dates (<https://www.ucdenver.edu/student/registration-planning/billing-calendars/>), as well as Residency (<https://www.ucdenver.edu/registrar/residency/>) and the College Opportunity Fund (<https://www.ucdenver.edu/registrar/residency/college-opportunity-fund/>) (COF) and how they could affect your tuition bill.

Payment of Tuition and Fees

All tuition and fees, except the application fee, are due on the day indicated on your billing statement. Students have an option to choose a payment plan available through QuikPAY, our payment processor. Specific information on the payment plan can be located here (<https://www.ucdenver.edu/student-finances/billing-payments/payment-plans/>).

Students who register for courses are liable for payment of tuition and fees if they withdraw from school after census date. Refund policies for students who withdraw from the University both before and after census date are included in the academic calendar. A student with financial obligations to the University will not be permitted to register for any subsequent term(s), or be issued transcripts or diplomas. The only exception to this regulation involves federal student loans and other types of indebtedness that are due after graduation. Students may pay tuition and fees through the UCDAccess portal or with cash, personal checks, by credit card at the Bursar's Office. Any payment transaction that is returned by the bank will be assessed an additional returned payment charge.

The University of Colorado Denver is committed to providing students and their families a range of options for paying their educational expenses. The credit card (including debit card) payment method has become prohibitively expensive due to the fees charged by credit card companies to CU Denver for credit card transaction processing. This expense has been covered by University tuition revenues, and reduces the tuition dollars available for academic programs and services for all students. Therefore, a service fee of 2.75% of the payment amount will be assessed for all credit and debit card transactions.

Students who register in a non-degree status, and who later apply and are admitted to a degree status for that term, are responsible for the difference in tuition between the non-degree program and their applicable degree program and will be billed accordingly.

Tuition Classification

Initial Residency

Initial residency classification for tuition purposes is determined by information submitted on the application for admission. Information regarding residency classification can be found at www.ucdenver.edu/

residency (<http://www.ucdenver.edu/registrar/residency/future-students/>).

Deferred Action for Childhood Arrivals (DACA) and Colorado ASSET

The University of Colorado Denver encourages and provides access for all qualified students. CU Denver accepts and welcomes students under both DACA and ASSET. Diversity is a guiding principle and core value of the university, and CU Denver is committed to maintaining an inclusive environment.

Residency Classification for Tuition Purposes

Tuition classification is governed by Colorado statutes that apply to all state-funded institutions in Colorado. Institutions are bound by the provisions of this statute and are not free to make exceptions to the rules set forth.

Students are initially classified as in-state or out-of-state for tuition purposes at the time of application. The classification is based upon information furnished by the student and from other relevant sources. After the student's status is determined, it remains unchanged in the absence of satisfactory evidence to the contrary.

Once a student is classified as a nonresident for tuition purposes, the student must petition for a change in classification. Petitions must be submitted **no later than the Monday prior to the first official day of classes** of the term for which the student wishes to be classified as a resident. It is preferred that petitions be received 30 days prior to the beginning of the term. Late petitions will not be considered until the next semester. Specific information may be obtained from the Office of the Registrar.

The final decision regarding tuition status rests with the university. Questions regarding residence (tuition) status should be referred only to the tuition classification officer. Opinions of other persons are not official or binding upon the university. Additional information is available on our website (<https://www.ucdenver.edu/registrar/residency/>).

Basic Requirements

The statute provides that an in-state student is one who has been a legal domiciliary of Colorado for one year or more immediately preceding the beginning of the term for which the in-state classification is being sought. Persons over 23 years of age or who are emancipated establish their own legal domicile. Those who are under 23 years of age and are not emancipated assume the domicile of their parent or court-appointed legal guardian. A non-emancipated minor's parent/legal guardian must, therefore, have a legal domicile in Colorado for one year or more before the minor may be classified as an in-state student for tuition purposes.

Establishing Domicile

Domicile is established when one has a permanent place of habitation in Colorado and the intention of making Colorado one's true, fixed and permanent home and place of habitation. The tuition statute places the burden of establishing a Colorado domicile on the person seeking to establish the domicile. The question of intent is one of documentable fact and needs to be shown by substantial connections with the state sufficient to evidence such intent. Legal domicile in Colorado for tuition purposes begins the day after connections with Colorado are made

sufficient to evidence one's intent. The most common ties with the state are

1. change of driver's license to Colorado,
2. change of automobile registration to Colorado,
3. Colorado voter registration,
4. permanent employment in Colorado and most important,
5. payment of state income taxes as a resident by one whose income is sufficient to be taxed.

Caution: payment or filing of back taxes in no way serves to establish legal domicile retroactive to the time filed. In order to qualify for in-state tuition for a given term, the 12-month waiting period (which begins when the legal domicile is established) must be over by the first day of classes for the term in question. If one's 12-month waiting period expires during the semester, in-state tuition cannot be granted until the next semester.

Resident Tuition for Military-Connected Students

Military-connected students living in the state of Colorado may be able to receive in-state residency for tuition purposes at CU Denver and CU Anschutz as designated by Federal or State Law. Please review the information on the Veteran and Military Student Services website (<https://www.ucdenver.edu/veterans/benefits/>) for more information.

Western Undergraduate Exchange (WUE)

Students earning a bachelor's degree can qualify for the WUE tuition rate. The WUE program allows students to pay 150% of the Colorado resident rate. In order to qualify for the WUE program the student must live in one of the qualifying states. A student's WUE status is determined at the time of admission, please click here (<https://www.ucdenver.edu/student-finances/tuition-fees/wue/>) to obtain more information.

Records and Registration Office of the Registrar

Associate Vice Chancellor for Student Enrollment Operations & Compliance and University Registrar: Carrie John

Director of Registrar Services: Cindy Justice

Office: Student Commons Building, Suite 5005

Telephone: 303-315-2600

Fax: 303-315-2550

E-mail: registrar@ucdenver.edu

Website: www.ucdenver.edu/Registrar (<http://www.ucdenver.edu/Registrar/>)

Overview

CU Denver offers students a completely online system of planning their schedules and registering for classes. As a student, you are responsible for knowing the deadlines, rules, regulations, course loads, prerequisites and policies of the university, as well as those of the college or school in which you are enrolled, all of which is provided within this online catalog. Please refer to the Academic Policies section for more specific information related to records and registration.

Students should review the sections of this catalog that describe in detail the academic programs available at the Denver Campus.

The registrar's office will send an e-mail message to the student's university-assigned e-mail address, inviting the student to register, including registration information and a registration time assignment. Registration is by time assignment only. Students may register via the web on or after their assigned time.

Services offered include:

- Academic Calendar
- Catalog
- Degree Audit
- Diplomas
- Enrollment Verification
- Grades and Academic Standing
- Name and Record Update Form
- Registration including Inter-Campus and Inter-Institutional
- Residency Petition Forms for Continuing Students
- Schedule Adjustment Forms
- Transfer Credit Evaluation
- Transcripts

Academic Calendar

Consult the official CU Denver Academic Calendar to determine when registration will open and close for each term. CU Denver academic calendars for upcoming semesters can be found here (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>) or here (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>).

FERPA

FERPA: Family Educational Rights and Privacy Act

FERPA is a federal privacy law that protects students' educational records. Under this law, students have three primary rights:

- Inspect and review their education records.
- Seek to amend incorrect education records.
- Have some control over the disclosure of information from their education record.

FERPA directory information is information contained in a student's education record that generally would not be considered harmful or an invasion of privacy if disclosed. Under current CU Denver policy, the following information is designated as directory information:

- Student name. If provided, a preferred name will be used when there is not a documented business or legal reason to provide a student's primary name. Students may also select a diploma name for graduation and commencement materials.
- Hometown (city, state).
- Campus email address.¹
- Dates of attendance.
- Previous educational institutions attended.
- School/college or division of enrollment.
- Majors, minors and field of study.
- Classification level (e.g., freshman, sophomore, graduate student).
- University-recognized honors and awards.
- Degree status (e.g. expected graduation date and/or conferral dates/terms).

- Enrollment status.
- Employment related to student status (e.g. teaching assistant, resident assistant or work-study) and dates for positions held.
- Participation in officially recognized activities/sports, including height and weight of athletes.
- Photos and videos taken or maintained by the university.

¹ Campus email addresses are only disclosed to requestors who agree not to use them for solicitation.

Although these items are designated by CU Denver as directory information, only a limited amount of this information is routinely disclosed by CU Denver university officials. The university retains the discretion to refuse disclosure of directory information if it believes such disclosure would be an infringement on student privacy rights.

Students may ask the University not to publicly disclose directory information. Be aware, however, if you are seeking employment, the Registrar's Office cannot release your enrollment, degree status or major to anyone unless you come to the Registrar's Office with a photo ID.

Forms to prevent disclosure of directory information can be obtained at the Registrar's Office, located in the Student Commons Building, or via the Registrar's website at www.ucdenver.edu/registrar (<http://www.ucdenver.edu/registrar/>).

Information that is never released without your consent includes grades, tuition/fees owed, financial aid, etc. If you would like to give permission to someone else to have access to that information, you can submit a Release of Confidential Information Form to the Office of the Registrar. This form also must be submitted in person.

More information about FERPA can be found in the University Catalog. If you have questions regarding your rights under FERPA, please contact the Office of the Registrar.

Registration

Academic Calendar

Consult the official CU Denver Academic Calendar to determine when registration will open and close for each term. CU Denver academic calendars for upcoming semesters can be found on the Lynx Central Registration and Planning web page (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>).

Add/Drop Deadlines

Please review the current term's academic calendar for the most recent add/drop deadlines by visiting the Registrar's website at www.ucdenver.edu/registrar (<http://www.ucdenver.edu/registrar/>).

For more information regarding the registration process, please see below:

- Registration Process (p. 59)
- Registration for Non-Degree Seeking Students (p. 59)
- Waitlist (p. 59)
- Adding a Course (p. 59)
- Holds (p. 60)
- Withdraw (p. 60)
- Auditing (p. 61)
- Enrollment Status (p. 61)

- Intercampus Enrollment (p. 62)
- Inter-Institutional Coursework (p. 62)
- Pooled Courses at Metropolitan State University of Denver (p. 63)
- How to Declare or Change Your Major/Minor (p. 63)

Registration Process

CU Denver students can register and obtain information regarding their academic and financial records by logging into their **UCD Access portal**.

Online registration allows the student to check the availability of specific courses prior to their registration time and to search for available courses by department, course level or meeting time. If registration in a course is denied, the reason will be specified in UCD Access.

Enrollment Appointment

An enrollment appointment is a specific time and date at which a student can register for classes through UCDAccess. This enrollment appointment is assigned to a student the semester prior to the term of registration. Students cannot enroll for classes prior to the date and time specified. Enrollment appointment dates are based on the number of academic hours completed. Enrollment appointment times are randomly assigned in fifteen minute timeslots. Students can check the UCDAccess student portal for their specific enrollment appointment date and time. The general progression of registration will start with graduate students, 5th-year seniors, seniors, juniors, sophomore, freshman, and non-degree students. Students who register as soon as their enrollment appointment begins are more likely to find space in the courses they prefer.

Course Load/Restriction

In most cases, students wishing to take more than 18 semester hours (12 in the summer session) must have the overload approved by the dean of their college or school. Consult the individual college or school for specific guidelines as to course-load restrictions.

School/College Specific Policy

College of Engineering, Design & Computing (p. 237)

Registration for Non-Degree Seeking Students

Students who have been matriculated as Main Campus Non-Degree are eligible to enroll in classes that are offered as part of a degree program or as part of Extended Studies. Main Campus Non-Degree Seeking students can register during Open Enrollment, which begins after enrollment periods for degree-seeking students.

Students who have been matriculated as Continuing and Professional Education are only eligible to enroll in Extended Studies classes. Enrollment periods for these courses vary because not all of them meet in accordance with the regular semester. Students should check with the school or department offering the Extended Studies course or program for drop/add deadlines, course details, and eligibility.

School/College Specific Policy

COLLEGE OF ENGINEERING, DESIGN & COMPUTING (p. 237)

Waitlist

If you are eligible to take a class but find that it is closed/full, you may request to be placed on a waitlist (if available) through UCDAccess.

Placing your name on a waitlist does not guarantee that you will be enrolled in that class. However, waitlists have proven to be a very effective tool for students wishing to register in closed classes.

You cannot be enrolled in, and/or waitlisted, for classes offered at the same time. You cannot be enrolled/waitlisted for two sections of the same class (except in the case of Special Topics classes). Use the 'drop this class if enrolled' function in UCDAccess to maximize your enrollment choices.

Monitor your status on the waitlist; you will be enrolled in the class if space becomes available. You may attend all classes until you confirm whether or not you are officially enrolled in the class. You are responsible for the tuition if you become enrolled from the waitlist, even if you do not attend. If you do not wish to take the class, you are responsible for dropping it according to the published deadlines in the Academic Calendar (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>).

Waitlist Positions and Enrollment

When someone drops a closed class, the student who is next in line on the waitlist is automatically enrolled. Schools and colleges reserve the right to make exceptions to manage their waitlists based on unique needs and circumstances. Please check your class schedule on UCDAccess to see if you have been enrolled in the class(es).

CU Online-Waitlisted Courses

You will have access to an online class while you are on the waitlist. While you are waiting for confirmation or denial of enrollment, you may participate in a waitlisted online class. After the first week of class, if you have not been automatically enrolled into the class, you will be dropped. If you want to be added to a closed class, you must obtain permission from the instructor. Contact CU Online (<https://online.cu.edu/student-support/>) for assistance in contacting the instructor.

Dropping Waitlisted Courses

If you choose not to remain on a waitlist, drop the class as soon as possible. Or if you find that you have been enrolled in a class that you no longer want, drop the class as soon as possible.

Adding a Course

From your registration time assignment to the published Add deadline, you are able to add classes through UCDAccess. If a class is closed/full, you can add your name to the waitlist (if available) through this date. See the Waitlist Policy for more information.

To add a class after the published Add Deadline date to census date, you will need to obtain the instructor's permission by completing the Schedule Adjustment Form found here (<https://www.ucdenver.edu/registrar/student-resources/forms/>).

School/College Specific Policy

Holds

A hold is a service indicator that prevents registering for classes and receiving an official transcript and/or diploma. A hold can be placed on a student's record for a variety of reasons that may include financial, health, academic standing, required documentation, and advising. Students can view holds in UCDAccess. These holds should be resolved in a timely manner. Students should contact the appropriate department to get these holds addressed.

School/College Specific Policy

Business School (p. 114)

COLLEGE OF Arts & Media (p. 168)

Withdraw

From census until the 10th week of classes, a student may withdraw from most courses using the UCDAccess Portal.

Students may be financially responsible for part or all tuition and fees for any class drops or withdrawals and drops or withdrawals may lead to adjustments to financial aid/awards packages, Department of Veteran Affairs education benefits, or other eligibility/benefits that are dependent upon enrollment status. Class drops or withdrawals may impact immigration status for international students. A W grade appears on the transcript after published deadlines. Contact the Registrar's Office with questions about class drops or withdrawals.

School/College Specific Policy

College of Engineering, Design and Computing (p. 237)

Administrative Drop Policy

An administrative drop is processed by university officials in the registrar's office by approval of a school/college dean's office. A student

may be administratively dropped from one or more classes or withdrawn from all classes for any of the following reasons:

- failure to meet certain preconditions, including but not limited to:
 - class cancellations
 - failure to meet course prerequisites
- whenever the safety of the student, faculty member or other students in a course would be jeopardized
- academic suspension, including but not limited to failure to attain or maintain a required GPA
- as a potential sanction for a violation of the code of student conduct
- disruptive behavior determined by the chair and/or associate dean or Office of Student Conduct and Community Standards to be detrimental to the progress of the course and the education of other students

School/College Specific Policy

Business School (p. 114)

COLLEGE OF ARTS & MEDIA (p. 168)

College of Liberal Arts and Sciences (p. 312)

Outstanding Debt/Administrative Drop Policy

Students who owe a past due debt to the university in excess of \$300 will be administratively dropped from any future terms if past due amount is not paid in full before the Friday prior to the first day of classes of the next term.

Retroactive Drop/Withdrawal**School/College Specific Policy**

College of Arts & Media (p. 168)

College of Engineering, Design and Computing (p. 237)

COLLEGE OF LIBERAL ARTS AND SCIENCES (p. 312)

To Withdraw from CU Denver

To withdraw from the University of Colorado Denver, students must withdraw from all courses for the semester. Through the 10th week of the semester (4th week for summer semester), students can withdraw from most classes through the UCD Access Portal. If unable to withdraw in UCDAccess, students should contact their student advisor. At the start of the 11th week (5th week for summer semester) through the Wednesday before finals week, students submit a Late Withdrawal Petition (<https://www.ucdenver.edu/registrar/student-resources/forms/>) to their home college. After the Wednesday before finals week, students submit a Retroactive Withdrawal Petition to their home college. See the Academic Calendar (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>) for all withdrawal deadlines.

If the Late Withdrawal or Retroactive Withdrawal petition is approved, students are withdrawn from the courses indicated on the petition and a grade of W is recorded on their academic record. If the Late Withdrawal or Retroactive Withdrawal petition is not approved, students remain enrolled in the course.

Prior to the census date (see Academic Calendar (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>)), withdrawn classes are not recorded on the student's academic record. After census date, withdrawn courses are recorded on the student's academic record with a grade of W. A student who stops attending classes without officially withdrawing from classes will receive grades based on the work they completed in the course, according to course and college specific grading policies.

Medical Withdrawal

A student who wishes to withdraw under the Medical Withdrawal Policy must withdraw from all classes. Additionally, international students must contact their assigned International Services Specialist to discuss visa implications associated with withdrawing. Students seeking to withdraw for non-medical reasons will need to review the withdrawal policies and procedures for their respective school or college. For more information, see The Office of Case Management (<https://www.ucdenver.edu/student/health-wellness/case-management/>).

Auditing

To qualify as an auditor for fall, spring or summer semester, a student must be 21 years of age or older or approved by the registrar. Auditors may not be registered for any other University of Colorado courses during the time they are auditing. Auditors are not eligible to audit courses if they are under suspension from the university or have outstanding financial obligations to the university.

The registrar's office does not keep any record of courses audited; therefore, credit for these courses cannot be established. Auditors may attend as many courses as they wish (except those courses with laboratories or where special equipment is used), provided they have received permission from each instructor.

An auditor's card is issued by the Bursar's Office after classes begin. An auditor's card is non-refundable. Auditors, whether resident or nonresident, pay for three semester hours of resident tuition for all audited courses during the fall, spring and or summer semester for class instruction and library privileges only. Auditors do not receive student parking privileges and are not eligible for other student services. This card should be presented to the instructor upon entering the class. For more information, contact the Bursar's Office (p. 52).

Lifelong Learners Program

Area residents who are 60 years of age or older may attend classes at the University of Colorado Denver on a non-credit/non-tuition basis during the fall and spring semesters.

Note: Each academic department/unit may have its own policy regarding your acceptance into a specific class. Seniors may take any course (offered at the Downtown Campus) listed in the online course schedule except: courses which require laboratory or special equipment use, computer courses, courses offered through the Division of Extended Studies, courses with additional fees, CU online courses, CU Denver South campus or Anschutz Medical campus courses, and intensive and/or module courses (i.e. maymester, 6 week, or hybrid).

Acceptance into a class will be determined by the instructor, based on space availability, and the previous level of education obtained by the senior citizen student. Participants may register for classes beginning on the first day of class. The last day to register for a class via the Lifelong Learners Program is the second Friday after classes begin. Submissions after this day will not be reviewed. A limit of two courses may be taken per semester.

Note: The instructor is **not** required to review written or oral exams, or assignments.

For more information about this program, please visit the Lifelong Learners webpage (<https://www.ucdenver.edu/lifelong-learners/>).

Enrollment Status

Individual students receiving financial aid may be required to complete credits in addition to those listed below. The exact requirements for financial aid will be listed in the student's financial aid award letter.

Undergraduates and Non-degree Undergraduate students:

- Full-time
 - 12 or more credit hours
- Half-time
 - 6 to 11.5 credit hours

Graduate and Non-degree Graduate students:

- Full-time
 - 5 or more credit hours
 - 0 credit hours as a candidate for degree
 - 1 or more credit hours of thesis or dissertation (not master's reports or thesis preparation)
- Half-time
 - 3 to 4.5 credit hours

Notes:

Enrollment verification of full-time/part-time attendance can be certified beginning the first day of class.

Credits used for calculating full-time/part-time enrollment status do not include interinstitutional credits, nor do they include credits from another CU campus, unless the student is enrolled through Intercampus Enrollment (<http://catalog.ucdenver.edu/cu-denver/graduate/records-registration/registration/intercampus-enrollment/>).

Students receiving veteran benefits should contact the Veteran Student Services manager for the definition of full-time status for summer sessions. Contact information: 303-556-2745 or VMSS@ucdenver.edu.

Individual exceptions to the minimum graduate course-load levels are considered for financial aid purposes by the financial aid committee. Students must file a written appeal with the Office of Financial Aid (p. 52).

Course Load/Restrictions

In most cases, students wishing to take more than 18 semester hours (12 in the summer session) must have the overload approved by the dean of their college or school. Consult the individual college or school for specific guidelines as to course-load restrictions.

Student Classification

Students are classified according to the number of semester hours passed:

Classification	Hours
Freshman	0-29 hours
Sophomore	30-59 hours
Junior	60-89 hours
Senior	90+ hours

All transfer students will be classified on the same basis according to their hours of credit accepted by the University of Colorado.

Intercampus Enrollment

The Intercampus Enrollment Program is open to all CU Denver degree seeking students who are currently enrolled in CU Denver courses. This program helps students fulfill degree requirements so that they may graduate in a timely manner. Students who wish to utilize this program and enroll in courses at the Boulder or Colorado Springs campus concurrently, must meet with their Academic Advisor from their School/College at the Home (Denver) Campus to confirm that the course taken at a Host Campus is equivalent to the course needed to graduate, and to ensure that all required prerequisites/requisites are fulfilled.

Actively-enrolled CU Denver degree seeking students may be eligible for enrollment in up to two (2) courses **or** six (6) credit hours, whichever is greater, at another CU campus, by submitting the Intercampus Enrollment and Policy Form to the Registrar's Office prior to the Add Deadline date of the Host Campus (Boulder/Colorado Springs). The Intercampus Enrollment and Policy Form can be obtained by accessing the CU Denver Registrar's Office website or by visiting the office in person.

Students who wish to utilize this program must meet the following requirements for eligibility:

- Must be currently enrolled in at least one (1) course at their home campus during the term in which they are seeking enrollment at CU Boulder/CU Colorado Springs.
- Students must have their Academic Advisor confirm that all requisites have been met by the student prior to enrollment in the requested Intercampus course(s).
- Courses requested through the Intercampus Enrollment Program must be Main Campus courses. Continuing Education courses are **not** eligible under any circumstance.
- Some Undergraduate & Graduate Students may be exempt from Home campus enrollment if seeking a degree in the following programs at the campus listed:
 - Applied Mathematics (PhD) - Boulder, Denver
 - Architecture & Planning, (PhD) - Boulder, Denver
 - Civil Engineering, (PhD) - Boulder, Denver
 - Computer Science (MS & PhD) - Boulder, Denver
 - Education Administration (All Careers) - Denver
 - Electrical Engineering - Boulder, Colorado Springs, Denver
 - Geography (MA) - Boulder, Colorado Springs
 - Master of Engineering - Boulder, Colorado Springs, Denver
 - Mechanical Engineering - Boulder, Denver
 - Psychology - Boulder, Colorado Springs, Denver
 - Public Affairs - Colorado Springs, Denver

Enrollment and the dropping of Intercampus Enrollment course(s) can only be performed by the student's Home Campus Registrar's Office.

Students enrolled for course(s) at a Host Campus are responsible for requesting the adding and/or dropping of courses within the host campus's deadlines, published on the Host Campus Academic Calendar.

Any questions regarding this program should be directed to the "Home Campus" Intercampus Enrollment Coordinator within the Registrar's Office.

The University Policy can be found here - <https://www.cu.edu/oape/aps/8002> (<https://www.cu.edu/oape/aps/8002/>)

Inter-Institutional Coursework

CU Denver degree seeking students can take courses to count towards degree completion or fulfill pre-requisites for CU Denver courses, by taking courses at Community College of Denver (CCD) through the Inter-Institutional Program.

To be eligible to participate in the Inter-Institutional program between CU Denver and the Community College of Denver (CCD), a student will need to follow the steps outline below. Please note, there are restrictions that will apply:

- Consult your department chair, Dean, or advisor to verify that the courses apply toward your degree requirements.
- Must be a CU Denver, degree-seeking student.
- Must be enrolled in classes at CU Denver during the same term as requested enrollment at CCD.
- Apply for Admission as a non-degree seeking student and register for classes at according to their published deadlines.
- Complete the Inter-Institutional Application and Registration form.
- Registration form must be approved and signed by the student's Dean's office.
- Submit the completed Inter-Institutional forms to the Registrar's office at CU Denver for approval.
- Waitlisted CCD classes are not eligible for the Inter-Institutional program.
- Online classes are not eligible for the Inter-Institutional program.
- Credit hours taken at CCD must be equal to or less than the number of enrolled credits taken at CU Denver. Enrollment credits may not exceed 9 credit hours or two full-term classes (whichever may be higher) per semester.
- CU Denver students are required to meet all CCD course prerequisites prior to registration.
- Tuition fees for all classes will be billed through CU Denver and payment must be made according to published deadlines.
- Enrollment credit hours at CCD through the Inter-Institutional program are not eligible for Financial Aid.
- Students must follow the CCD academic calendar concerning all deadline dates.
- Courses must be added or dropped by the published date on the Inter-Institutional form.
- It is the student's responsibility to verify all CCD deadline dates, as they are different than CU Denver's Academic Calendar deadlines.
- Any registration modifications must be submitted to both Registrar Offices at CCD and CU Denver.
- If classes are not dropped by CCD's drop deadline date, you may receive an "F" as a letter grade on your transcripts.
- At the end of the term, CU Denver students must obtain an official transcript from CCD and submit it to CU Denver Transfer Articulation for transfer credits.

Pooled Courses at Metropolitan State University of Denver

Certain courses in the College of Liberal Arts and Sciences and the College of Arts & Media at CU Denver may be taken by Metropolitan State University of Denver students and a number of courses at Metropolitan State University of Denver (MSU Denver) may be taken by CU Denver students. Pooled courses and restrictions/policies are listed on the Metro Pooled website (<https://www.ucdenver.edu/student/registration-planning/register-for-classes/pooled-classes/>) each semester. Undergraduate students at the University of Colorado Denver Campus can register for pooled classes in UCDAccess using the 5-digit class number. Some restrictions apply to the pooled courses.

How to Declare or Change Your Major/Minor

Students must declare a major to graduate. Minors, additional majors and certificates are optional. Meet with your advisor to discuss options.

School/College Specific Policy

Business School

Business students must complete the prescribed major courses, all of which must be taken at CU Denver. Major core sections range from 18-36 credit hours. Business students are advised to select a major prior to completing the business core, and are encouraged to declare a major by the time they have accumulated 60 to 75 credit hours. The courses in the major core are completed in the junior and senior years after completing the required prerequisites.

The majors offered include Accounting, Entrepreneurship, Finance, Financial Management, Human Resources Management, Information Systems, International Business, Management, Marketing, Risk Management and Insurance, and Sports Business. The specific requirements for these majors are described in subsequent sections.

College of Arts & Media

Declaring a Major or Minor

All undergraduate degrees offered through the College of Arts & Media (CAM) comprise 120 semester hours. Students must declare a major to graduate. Minors are optional.

All CAM majors require students to select a degree plan (BA, BS or BFA) and an emphasis. Links to information about specific majors, emphases and minors, including any required reviews/assessments for admission, may be found on the Programs (p. 759) page in this catalog. If an emphasis or minor does not require review/assessment for admission, CAM students in good academic standing may contact their CAM advisor.

Students may choose to pursue a double degree, double major, double emphasis or minor. Each of these options may require more than 120 semester hours to graduate. Please contact CAM@ucdenver.edu for additional information.

Changing a Major or Minor

Undergraduate students who wish to transfer from one emphasis or minor to another within CAM must currently be in good academic standing, pass appropriate reviews/assessments, as outlined in the program pages of this catalog, and notify CAM in Arts 177 by submitting a change of major or a change of minor form.

College of Engineering, Design and Computing

Students enrolled in the College of Engineering, Design and Computing who wish to change to another department within the college must apply for transfer by submitting a change of major form for undergraduate degree students, which can be found on the college website (<http://engineering.ucdenver.edu>) under > Policies and Forms. This form requires the approval of the new department.

Pre-engineering students who are eligible for admission to an engineering major should consult their advisor prior to submitting the change of major form.

Students enrolled in another school/college who wish to transfer into the College of Engineering, Design and Computing, must complete the Intra-University Transfer (IUT) (https://www.ucdenver.edu/docs/librariesprovider234/student-resources/iutform.pdf?sfvrsn=47fa1db9_4) form. This form is submitted electronically to the appropriate department.

College of Liberal Arts and Sciences

A complete list of undergraduate programs in the College of Liberal Arts and Sciences (CLAS) is available on the CLAS Departments and Programs page (p. 293).

CLAS students with a declared CLAS program intending to declare or change a CLAS major or minor should complete the CLAS Major/Minor Declaration Form available through the CLAS Advising Office in North Classroom (NC) 1030. CLAS students with a declared CLAS program may also initiate their request to declare or change a CLAS major or minor with their assigned CLAS Academic Advisor.

CLAS also offers pre-health career tracks/courses of study for students intending to pursue a health profession. Students with a pre-health track/course of study should work with a Health Professions Advisor – located in North Classroom (NC) 3002 – to discuss pathways to their intended health career. Students with a pre-health career track/course of study intending to complete an undergraduate degree must declare a major to graduate.

CLAS Undeclared Majors should work with Success Advisors in the Center for Undergraduate Exploration & Advising (CUE&A) to create a plan to declare their intended major as early as possible in their undergraduate career. CUE&A is located in Student Commons 1113. Undeclared Majors intending to declare a CLAS major or minor must complete the CLAS Major/Minor Declaration Form available through the CLAS Advising Office in North Classroom (NC) 1030.

School of Education and Human Development

Undergraduate majors in the SEHD include the Bachelor of Arts in Education and Human Development (EDHD) and the Bachelor of Science in Human Development and Family Relations (HDFR). Additionally, the EDHD major has several tracks, including Elementary Education (K-6 licensure), Special Education (ages 5-21 licensure), Early Childhood Education licensure (birth-age 8 licensure), Early Childhood Education non-licensure, and several secondary pathways (math, science, English, social studies, middle school math). It is important for students to declare a major and track (if applicable) as early as possible in their academic career to ensure they take appropriate courses.

Declaring/Changing Your Major

Intra-University Transfer (IUT)

Students on the Denver Campus may change colleges or schools within the university provided they are accepted by the college or school to

which they wish to transfer. Intra-university transfer forms may be obtained from the student's school or college or from the Office of the Registrar. Decisions on intra-university transfers are made by the college or school to which the student wishes to transfer.

Transfer deadlines for all programs are August 1 for Fall semester, December 1 for Spring semester, and May 1 for Summer semester sessions.

Students in continuing and professional studies programs wishing to enroll in regular courses or degree programs at CU Denver and undergraduate students wishing to become graduate students (or vice versa) should apply for admission to CU Denver. Visit www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>) or contact the Office of Admissions at 303-315-2601 or admissions@ucdenver.edu for assistance with application processes and options.

School/College Specific Policy

BUSINESS SCHOOL

Students who want to transfer to the Business School from another college or school of the University of Colorado Denver must formally apply for an intra-university transfer (IUT) to the Business School. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form and transcripts from the University of Colorado to the business program coordinator. Transfer forms are available at the Office of Admissions or the Business School Advising Office; transcript request forms are available at the Office of the Registrar. The transcript must include the student's most recent semester at the university. Students with previous course work from other institutions are also required to submit a copy of their transfer credit evaluations (advanced standings).

College of Architecture and Planning

Students who want to transfer to the BS Architecture program from another college or school of the University of Colorado Denver must formally apply to the College. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form to the undergraduate advisor. Transfer forms are available at the Office of Registrar or the College Undergraduate Advising Office; transcript request forms are available at the Office of the Registrar. Transfer deadlines are August 1 for fall semester, December 1 for spring semester and May 1 for the summer session. Students must have earned a minimum of 12 University of Colorado Denver semester hours and have a 2.300 cumulative University of Colorado GPA to be eligible for an IUT to the BS Architecture program.

College of Arts & Media

Students who want to transfer to the College of Arts & Media (CAM) from another college or school within the university must formally apply for an intra-university transfer (IUT) and pass any appropriate reviews/assessments as outlined in the program pages of this catalog. To be considered for admission, students must have a minimum 2.000 cumulative University of Colorado GPA. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form to the undergraduate advisor. Transfer forms are available at the Office of Registrar or from a CAM advisor; transcript request forms are available at the Office of the Registrar.

College of Engineering, Design and Computing

CU Denver students interested in an undergraduate engineering program but not enrolled in the college must request an intra-university transfer (IUT). Those approved for an IUT will be admitted into the engineering program. Students who are not directly admitted to their program will

be automatically considered for pre-engineering. Admission to Pre-Engineering does not guarantee admission to the major.

- a 2.750 (or higher) cumulative CU Denver GPA
- a 2.500 (or higher) GPA in Calculus I, Calculus II, and Calculus-based Physics I and the corresponding lab and no lower than a C- in any one of these courses.
- IUT guidelines are subject to change. Students are encouraged to meet with an engineering advisor to discuss the IUT process prior to submitting a request.

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT

Students who wish to transfer to the SEHD from another school/college must meet with an academic advisor and formally apply for an intra-university transfer (IUT). Students must have a minimum of 2.000 cumulative University of Colorado GPA to be eligible for an IUT to the SEHD. Students should also be aware that, for teacher education licensure tracks, a minimum of a 3.000 cumulative University of Colorado GPA is required for admission to their final year, the Professional Year (students with a lower GPA may be considered under certain conditions; please see SEHD website).

school of public affairs

Students who want to transfer to the School of Public Affairs from another college or school of the University of Colorado Denver must formally apply for an intra-university transfer (IUT) to the School of Public Affairs Advising Office (spa.advising@ucdenver.edu). To apply for an IUT, students must submit an IUT form to the School of Public Affairs Advising Office. IUT forms are available from the Office of the Registrar or from an academic advisor.

Grading, Credits, and Exams

For more information about Grading, Credits, and Exams, please refer to the links below.

- Final Examinations (p. 66)

Academic Standing

Click here (p. 93) for more information about the Academic Standing Policy.

Grade Appeals

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

College of Architecture and Planning (p. 155)

COLLEGE OF ARTS & MEDIA (p. 168)

College of Engineering, Design and Computing (p. 237)

School of education and human development (p. 687)

Grade Forgiveness

Click here (p. 95) to for more information about the Grade Forgiveness Policy.

Grading System

The instructor is responsible for whatever grade symbol (e.g., A, B, C, D, F, I or IP) is to be assigned. Special symbols (NC and W) are indications of registration or grade status and are not assigned by the instructor. Pass/fail designations are not assigned by the instructor but are automatically converted by the grade application system, as explained under "Pass/Fail Procedure."

Standard Grades	Quality Points
A = superior/excellent	4.000
A(-) =	3.700
B(+) =	3.300
B = good/better than average	3.000
B(-) =	2.700
C(+) =	2.300
C = competent/average	2.000
C(-) =	1.700
D(+) -	1.300
D =	1.000
D(-) = minimum passing	0.700
F = failing	0

Note: Instructors may, at their discretion, use the **plus/minus** system but are not required to do so.

Grade	Explanation
I	Incomplete - converted to an F if not completed within one year
IP	in progress thesis at the graduate level only
P/F ¹	Pass/Fail - P grade is included in the GPA; the F grade is included
H/P/F	Honors/Pass/Fail - intended for honors courses; semester hours count toward the degree but are not included in the GPA
NC	Indicates registration on a no-credit basis
W	Indicates withdrawal without credit

¹ Up to 16 hours of pass/fail course work may be credited toward a bachelors degree.

Pass/Fail

1. Students who wish to request a course be graded on a pass/fail basis (or to revert from pass/fail to graded status) may do so up until the tenth week of the term for 16-week fall or spring session, or until the withdraw deadline of the eight-week or five-week fall or spring session, or summer session.
2. Up to 16 semester hours of course work may be taken on a pass/fail basis and credited toward the bachelor's degree. Only six hours of course work may be taken pass/fail in any given semester. (**Note:** Individual schools and colleges may have additional restrictions as to pass/fail credits. See the accompanying chart for an overview.)

3. Instructors will not be informed of pass/fail registration. All students who register for a pass/fail appear on the regular class roster, and a normal letter grade is assigned by the professor. When grades are received in the Registrar's Office, those registrations with a pass/fail designation are automatically converted by the grade application system. Courses taken pass/fail will be included in hours toward graduation. Grades of C- and above convert to P+. Grades of D+, D, and D- convert to grades of P. Pass grades (P+ and P) are not included in a student's GPA. An F grade in a course taken pass/fail will be included in the GPA.
4. Pass/fail registration records are maintained by the Registrar's Office.
5. Exceptions to the pass/fail regulations are permitted for specified courses offered by the School of Education & Human Development, the extended studies programs and study abroad programs.
6. Graduate degree students can exercise the pass/fail option for undergraduate courses only. A grade of P+ or P will not be acceptable for graduate credit to satisfy any Graduate School requirement.

Students who register for a course on a pass/fail basis may not later (after the stated deadline) decide to receive a letter grade.

Notes:

- In the event of a transfer, the receiving institution may not accept a P + grade for transfer credit.
- The pass/fail grading basis is subject to changing as APS 1025 is currently being reviewed (<https://www.cu.edu/ope/aps/1025/>).

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

College of Architecture and Planning (p. 155)

COLLEGE OF ARTS & MEDIA (p. 168)

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING (p. 237)

COLLEGE OF LIBERAL ARTS AND SCIENCES (p. 312)

School of Education and Human Development (p. 687)

School of Public Affairs (p. 733)

No Credit

Students may register for a course on a no-credit basis with the consent of their instructor and the dean of their school or college. No grade or credit is awarded. The transcript reflects the name of the course taken and an N/C notation.

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

COLLEGE OF ARTS & MEDIA (p. 168)

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING (p. 237)

Incomplete Grade

An I is an incomplete grade. Policies with respect to I grades are available in the individual college and school dean's offices.

An I is given only when students, for reasons beyond their control, have been unable to complete course requirements. A substantial amount of work must have been satisfactorily completed before approval for such a grade is given.

The instructor who assigns an I sets the conditions under which the course work can be completed and the time limit for its completion. The student is expected to complete the requirements by the established deadline and not retake the entire course.

It is the instructor's and/or the student's decision whether a course should be retaken. If a course is retaken, it must be completed on the Denver Campus or in extended studies classes. The student must re-register for the course and pay the appropriate tuition.

The final grade (earned by completing the course requirements or by retaking the course) does not result in deletion of the I from the transcript. A second entry is posted on the transcript to show the final grade for the course, with a notation that the course was 'originally graded as I.'

At the end of one year, I grades for courses that are not completed or repeated are changed to an F.

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

COLLEGE OF ARTS & MEDIA (p. 168)

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING (p. 237)

COLLEGE OF LIBERAL ARTS AND SCIENCES (p. 312)

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT (p. 687)

Final Grades

Final grades are normally available within two weeks after the end of the semester and can be accessed by logging into the UCD Access portal.

GPA Calculation

GPA is computed by multiplying the credit points per hour (for example, B = 3) by the number of semester hours for each course. Total the hours, total the credit points and divide the total points by the total hours. Grades of P, NC, ***, W, IP, and I are not included in the GPA. I grades that are not completed within one year are calculated as F in the GPA.

If a course is repeated, all grades earned are used in determining the GPA. Grades received at another institution are not included in the University of Colorado GPA.

Undergraduate, graduate and non-degree graduate GPAs are calculated separately. Enrollment in a second undergraduate or graduate program will not generate a second undergraduate or graduate GPA.

Students should refer to their academic dean's office for individual GPA calculations as they relate to academic progress and graduation from their college or school.

Sample GPA Calculation

Grade Earned:	Credit Points per Hour:	x Credit Hours:	= Credit Points in Course
A	4.000	4.000	16.000
A-	3.700	4.000	14.800
B+	3.300	4.000	13.200
P	-	3.000	(excluded)
F	0	3.000	0

Total of 15 credit hours with 44 credit points, so $44/15 = 2.930$ GPA

Explanation of Course Numbers

- Courses numbered 1000-2999 are considered lower-division undergraduate.

- Courses numbered 3000-4999 are considered upper division undergraduate.
- Courses at the 5000 level and above are graduate.

Explanation of Semester Hours

The University of Colorado Denver uses a semester system with the academic calendar separated into 3 semesters: Fall, Spring, and Summer.

The University of Colorado Denver is on a semester credit hour system. A credit hour is the numeric measure of the instructional, research and/or other academic work over the length of a semester, and the value of a unit is calculated based upon standard semester credit hour formulas.

For every semester credit hour enrolled, students should expect to spend 2-3 additional hours on school work outside of the assigned class time.

Final Examinations

All students enrolled in a course for credit are required to attend a final examination unless the professor has made previous arrangements. All faculty are to alert students about the date, time, and location of the final examination in a timely manner. With approval from the appropriate department, final examinations may be removed from a course.

If a student has three or more finals on the same day, the student has the ability to change the time of one final with approval from the instructor of the final they wish to change. Students should check their final exam schedule for conflicts as soon as possible and alert their instructors promptly and prior to the scheduled final examination.

Transfer Credit

To learn more about our transfer credit process, please see the links below for more information.

- Advanced Placement (AP) Program (p. 66)
- International Baccalaureate (IB) Diploma Program (p. 70)
- College-Level Examination Program (CLEP) (p. 75)
- Cambridge A-Levels (p. 78)
- Joint Services Transcript Credit (p. 80)
- Military Experience Credit (p. 84)
- DSST/ DANTES Exam Credit (p. 84)
- Accepted Courses for Transfer (p. 86)
- Courses Not Accepted for Transfer (p. 88)
- Minimum Transfer Standards (p. 88)
- Transferring to CU Denver as a New or Current Student (p. 90)

Advanced Placement (AP) Program

The Advanced Placement Program of the College Entrance Examination Board (CEEB) allows students to take advanced work while in high school and then be examined for credit at the college level. Students who take advanced placement courses and subsequently receive scores of 3, 4, or 5 on the CEEB Advanced Placement examination are generally given college credit for lower-level courses in which they have demonstrated proficiency. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

International Baccalaureate (IB) Diploma Program

The International Baccalaureate (IB) Diploma Program, available at select high schools, is a rigorous, pre-university course of study emphasizing liberal arts from an international perspective.

In accordance with HB 03-1108, CU Denver will grant at minimum 24 semester hours of credit for any student who has graduated from high school having successfully completed an International Baccalaureate diploma program with a minimum score of 4 on each exam. Credit may be granted for individual IB courses where examinations are completed with at least a score of 4 for students who do not complete an IB diploma program. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official IB transcripts with exam

scores must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

College-Level Examination Program (CLEP)

Incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the College-Level Examination Program (CLEP) of the College Entrance Examination Board (CEEB) testing service.

Acceptable CLEP examinations and credit awards are outlined in the following chart. Original, official CLEP score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents credit awarded for exams taken from August 2019 and later. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

Select CLEP exams taken January 2019 and later will receive gtPathways credit.

College Level Examination Program (CLEP) - gtPathways

Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Denver Campus. Health programs at the Anschutz Medical Campus have

different credit award and prerequisite policies; visit www.ucdenver.edu/academics (<https://www.ucdenver.edu/academics/>) and/or contact the program office directly for additional information.

For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

School/College Specific Policy

College of Engineering, Design and Computing

Students may earn credit through certain College-Level Examination Program (CLEP) examinations, provided that they score at the 50th percentile or above. CLEP credit may be applied toward graduation if comparable to CU Denver coursework included in the College of Engineering curriculum. Official CLEP score reports are required for transfer credit consideration.

College of Liberal Arts and Sciences

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to a separate evaluation by the faculty advisor in the department or program. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit will count toward the degree.

Cambridge A-Levels

Incoming students may earn credit from the Cambridge A-Level examinations. Cambridge A-Levels are internationally benchmarked qualifications providing excellent preparation for university education. They are taken in over 125 countries and offer a wide variety of different subjects. Cambridge International A-Level qualifications are widely recognized and valued by universities and employers alike. CU Denver does not recognize AS-Levels currently. The acceptable A-Level examinations and credit awards are outlined in the chart linked below. Original, official A-Level score reports must be submitted to International Admissions for credit award consideration.

This chart represents credit awarded for exams taken during the 2021-2022 catalog year. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

A-Level Exams

This chart represents academic credit that may be awarded to new freshmen or to new transfer students seeking initial academic credit through the A-Level examination program. To receive academic credit, students must present official A-Level scores sent directly to the Office of Admissions.

Credit awarded and course equivalency information in this table applies only to degree programs, including bioengineering, at the University of Colorado Denver. Students seeking academic credit or a waiver of admission requirements for degree programs at the Anschutz Medical Campus need to contact the program directly.

Academic credit is limited to either A-Level credit or CU Denver course credit when students elect to register and successfully complete courses identified in this table as equivalent or content substitution.

Joint Services Transcript Credit

Beginning Spring 2019, select courses and occupations from the Joint Services Transcript qualify for the Colorado gtPathways program.

The courses and occupations in this chart can apply to CU Denver's Undergraduate Core Curriculum. An official copy of the Joint Service Transcript is required for evaluation.

Joint Service Transcript Military Occupations Evaluation

This chart represents academic credit that may be awarded to new freshmen or to new transfer students seeking initial academic credit through the evaluation of their Joint Service Military transcript. To receive academic credit, students must present official Joint Service Transcript to the University of Colorado Denver.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning Spring 2019.

Credit awarded and course equivalency information in this table applies only to degree programs at the University of Colorado Denver.

Academic credit is awarded as University of Colorado Denver general equivalent courses. The specific courses/occupations designate how credit will be applied to the Undergraduate Core Curriculum. Only one course per core category will be applied to the core curriculum requirements. For additional applicability please contact your academic advisor or major department.

Additional Military Experience may be awarded by the Veteran and Military Student Services office. Please see the chart on this page for more information about how credit is awarded for Military Experience- AP (p. 66)/IB (p. 70)/CLEP (p. 75)/A-Level (p. 78) Test Information Inline

P.O. Box 173364
Campus 155
Denver, CO 80217-3364

Military Experience Credit

It is the policy of CU Denver to award transfer credit for military courses and/or military service based on the recommendations of the American Council on Education's (ACE) Guide to the Evaluation of Education Experiences in the Armed Services, provided such credit is generally applicable to CU Denver programs of study. For military transcripts such as CCAF and AARTS, transfer credit is considered on the same basis as transcripts from traditional collegiate institutions.

Upon review of the Certificate of Release of Discharge from Active Duty form (DD-214)/Member 4 Service 2 or additional documentation as required, either elective or core course credit will be awarded based on ACE recommendations.

Element of Service	Course Awarded	Credit Hours Awarded	CU Denver Undergraduate Core Curriculum Category or Requirement Fulfilled
Basic Training	HUMN 1999ME	3	Humanities
Non-Commissioned Officer's Course	SSCI 1999ME	3	Social Science
Overseas Deployment of at Least 6 Months	None	None	International Perspectives (Waived of Requirement)
Military Language Training Institute	None	None	School/College Foreign Language Graduation Requirement (Waived of Requirement)
Enlisted Rank E4 or higher	None	None	Business Experiential Learning Requirement (Waived of Requirement for Business Majors Only)
Rank E4 or below	XFCR 1999ME	6	General Elective Credit
Rank E5 or higher/ More than 1 enlisted term (5+ years)	XFCR 1999ME and XFCR 3999ME	12	General Elective Credit (6 lower division credits and 6 upper division credits)

The applicability of electives is determined by the student's major and/or college.

For any questions or further information regarding military credit transfer, please contact the CU Denver Veteran and Military Student Services at 303-315-7300.

DSST/ DANTES Exam Credit

Beginning January 2019, incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the DSST/DANTES testing as a part of their Military Service.

Acceptable DSST examinations and credit awards are outlined in the following chart. Original, official DSST score reports must be submitted to the Office of Admissions for credit award consideration.

DSST Exams - gtPathways

Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Denver Campus. Health programs at the Anschutz Medical Campus have different credit award and prerequisite policies; visit www.ucdenver.edu/academics (<https://www.ucdenver.edu/academics/>) and/or contact the program office directly for additional information.

Beginning Spring 2019, some exams taken January 1, 2019 and later will receive gtPathways designation.

For exams taken in future catalog years, consult those academic catalogs for exam equivalency information.

Accepted Courses for Transfer Military Service and Schooling

To have credit for educational experiences evaluated, applicants with military experience will be required to submit the DD-214 to the Office of Veterans Student Services. Applicants should also submit the Smart Transcript and official Dantes Subject Standard Test (DSST) score reports (if applicable) to the Office of Admissions for additional credit consideration. For students with other military credit for which a separate transcript is issued, such as Community College of the Air Force (CCAF) or Army/American Council on Education Registry Transcript System (AARTS), official transcripts should be sent to the Office of Admissions.

It is the policy of CU Denver to award transfer credit for military courses and/or military service based on the recommendations of the American Council on Education (ACE)'s Guide to the Evaluation of Education Experiences in the Armed Services, provided such credit is generally applicable to CU Denver programs of study. For DSST exams, only upper-level credit as recommended by the ACE guide is considered in transfer. For military transcripts such as CCAF and AARTS, transfer credit is considered on the same basis as transcripts from traditional collegiate institutions.

Upon review of the Certificate of Release of Discharge from Active Duty form (DD-214)/Member 4 Service 2 or additional documentation as required either elective or core course credit will be awarded based on ACE recommendations.

Element of Service	Course Awarded	Credit Hours Awarded	CU Denver Undergraduate Core Curriculum Category or Requirement Fulfilled
Basic Training	HUMN 1999ME	3	Humanities
Non-Commissioned Officer's Course	SSCI 1999ME	3	Social Science
Overseas Deployment of at Least 6 Months	None	None	International Perspectives (Waived of Requirement)
Military Language Training Institute	None	None	School/College Foreign Language Graduation Requirement (Waived of Requirement)

Enlisted Rank E4 or higher	None	None	Business Experiential Learning Requirement (Waived of Requirement for Business Majors Only)
Rank E4 or below	XFCR 1999ME	6	General Elective Credit
Rank E5 or higher/ More than 1 enlisted term (5+ years)	XFCR 1999ME and XFCR 3999ME	12	General Elective Credit (6 lower division credits and 6 upper division credits)

The applicability of electives is determined by the student's major and/or college.

For any questions or further information regarding military credit transfer, please contact the CU Denver Office of Veteran Student Services at 303-556-2745 (DD-214 credit consideration).

Other University of Colorado Campus Coursework

A current CU Denver student can take courses at other University of Colorado campuses. Those campuses include Boulder and Colorado Springs. However, courses taken at another University of Colorado campus are subject to various transfer rules as stated below:

- When the course is taken, all coursework needs to be submitted to the Office of Admissions.
- Courses will be calculated into the cumulative University of Colorado GPA.
- Course subject codes and numbering are subject to change due to the different curriculum taught at the various campuses. In other words, courses will not be transferred as equivalencies.

School/College Specific Policy

College of Architecture and Planning

BS Architecture students must have the written approval of the BS Architecture director or undergraduate academic advisor to register for courses (excluding MSUD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C or better must be earned to receive the undergraduate bachelor's degree credit. Generally, only non-architecture electives or lower-division, non-architecture requirements are acceptable for transfer from other institutions once a student has been admitted to the BS Architecture Program. Students who, after admission to the college, take more than 12 semester hours from another institution, must reapply for admission to the college as transfer students and must meet the current admission requirements.

The maximum number of credit hours applied to individual architecture major requirements from transfer coursework must not exceed the number of credit hours given to its equivalent CU Denver course. Excess credit hours from architecture-related transfer coursework will not count toward the 120 credit hours needed for the BS Architecture degree.

College of Arts & Media

Students should consult the College of Arts & Media in advance at CAM@ucdenver.edu to determine how courses from other University of Colorado campuses may complete degree requirements at CU Denver.

Business School

Business students must have the written approval of the business program director to register for courses (excluding MSUD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C- or better must be earned for most transfer credit to receive business degree credit, however, upper division business core must be a C. Generally, only non-business electives or lower-division, non-business requirements are acceptable for transfer from other institutions once a student has been admitted to the Business School.

1. Admitted Business School students may request by email or petition to complete business lower division courses or 3000-level business core courses at another institution as long as:
 - a. The student still meets our 30-hour residency rule (Business courses completed at CU Denver),
 - b. The student still meets our 45 upper division hours rule (we count upper-division transfer credit toward this 45),
 - c. The institution of choice meets our transfer agreements (AACSB, Colorado Community Colleges),
 - d. The course is approved for transfer via syllabus review
2. We will not transfer in any of our major courses, international studies, or MGMT 4500 Business Policy and Strategic Management except in rare situations by petition. If approved, the student must still meet all residency rules.

School of Education and Human Development

Students should consult with the undergraduate advisor in advance to determine how courses from other University of Colorado campuses may complete degree requirements at CU Denver.

College of Engineering, Design and Computing

Transfers between campuses of the University of Colorado should be carefully planned to avoid loss of academic credit. Courses and credits required for engineering degrees vary from campus to campus; therefore, students should plan as far ahead as possible. An advisor can help choose the right courses. Such planning should also include contacting the engineering department to which the student plans to transfer at least one semester before the transfer is planned. The transfer student must have at least a 2.000 GPA for 30 hours of credit toward an engineering degree to be eligible to transfer. A higher GPA may be required to transfer directly into the College of Engineering, Design and Computing. In general, calculus, physics and chemistry courses will transfer for full credit. In addition, 12 semester hours of humanities and social sciences electives will usually transfer for full credit. Fundamental computing courses may be unique by campus and should be checked with the campus to which the student is transferring. Any minimum academic preparation standards (MAPS) deficiencies should be eliminated before transferring.

International Coursework

Study Abroad Coursework

Current CU Denver students are encouraged to participate in the various study abroad programs offered through the Office of Global Education (<https://www.ucdenver.edu/academics/InternationalPrograms/OIA/globaleducation/Pages/default.aspx>).

Before a student studies abroad on a non-CU Denver (third-party) program, they must have all courses pre-approved by the appropriate academic departments as well as their primary school/college advisor. All courses taken abroad must apply towards the degree in some capacity

whether that be for major, minor, or elective credit. This pre-approval process must be completed via the Office of Global Education (OGE) Course Approval Form. This form can be found in a student's online OGE application or students can pick up a blank copy in the Office of Global Education. After being signed by all relevant advisors, this form must be submitted to and signed by the Office of Global Education. The Office of Global Education will only process credit back to CU Denver from an accredited institution or provider that has been approved by the office.

Prior to departure students will be enrolled in the variable-credit placeholder course STDY 3995/5995 (Undergraduate/Graduate) for each term they are abroad. Registration in STDY 3995/5995 maintains full-time enrollment and student status at CU Denver and authorizes the release of financial aid.

Transcripts will be issued by the foreign institution or domestic school of record. Once transcripts are received by the Office of Global Education, the Course Approval Form will be compared to the transcripts. Credits will be transferred to the University and onto the student's transcript following the university's transfer credit policy.

The grades and courses will not appear on the student's transcripts, but earned credits and the issuing institution will appear. Should a student fail a course, no credit will be issued, and the course will not appear on the transcript.

School/College Specific Policy

Business School

Transfer credit from study abroad programs requires prior written approval from the Advising Department. Students must meet with a business staff advisor to determine course acceptability prior to the semester in which they intend to study abroad. Information on the various programs is available at the Office of International Affairs (<https://www.ucdenver.edu/academics/internationalprograms/OIA/Pages/default.aspx>).

Courses Not Accepted for Transfer

Developmental, remedial, religious doctrinal, religious training, single religion, outdoor leadership, and student orientation courses are not accepted in transfer. Prior learning credit through vocational/technical courses, internship, cooperative education, life experience, and work experience are not accepted in initial transfer, but exceptions may be granted by the dean responsible for the student's curriculum. Independent study, special topics and other experiential learning programs that lack catalog descriptions are not accepted in initial transfer but may be reviewed for transfer consideration by the corresponding academic department. Students wishing to appeal transfer credit decisions should contact their school or college advisor. Except for developmental/remedial courses, academic departments make final decisions on transfer credit appeals.

Program pathways and/or courses identified in transfer agreements between CU Denver and any internal/external partnerships in an academic or programmatic memorandum of understanding will be honored in both the content and program eligibility by which both parties agreed, upon a student's initial transfer. Students who transfer into other CU Denver programs are subject to the additional transfer policies of their receiving school or college, which may result in changes to applicability of credit.

School/College Specific Policy

College of Engineering, Design and Computing

Credit earned from the following courses, College Algebra, College Trigonometry, or Precalculus Mathematics (CU Denver Numbers MATH 1110 College Algebra, MATH 1120 College Trigonometry, MATH 1130 Precalculus Mathematics), will not be applied to the Engineering major requirements, but may be accepted in transfer.

Courses on basic subjects such as mathematics or physics may be acceptable for direct transfer of credit if they were taught as part of an accredited program for all students and were not specifically designated for engineering technology students. Engineering technology courses (courses with technology designations) will not be considered for transfer into an engineering degree program. Students may seek credit for coursework by examination.

Appeals Process

Transfer credit that was not originally accepted by the Office of the Registrar may be appealed through the student's advisor. Most commonly, a copy of the syllabus will be requested from the student to give to their advisor. If it is an international course, the syllabus will need to be in English. Once the student's petition is approved, the advisor will request that the course be accepted by the Office of the Registrar.

If a dispute cannot be resolved between the student and CU Denver, a student is at liberty to file a formal complaint with the Colorado Department of Higher Education (<https://higher.ed.colorado.gov/Academics/Complaints/>).

School/College Specific Policy

College of Arts & Media

If certain courses are not initially accepted by the Office of the Registrar, the student and advisor can discuss the petition process for accepting these courses. If the student's petition is approved, the advising office will request that the Office of the Registrar accept the course(s) in transfer.

College of Engineering, Design and Computing

All requests for consideration of transfer credit and its application toward a degree must be submitted prior to the student's last two semesters at the Denver campus.

Minimum Transfer Standards

Student course work of comparable content and scope to that of CU Denver curriculum will be considered for transfer credit if it was completed at a college or university with regional accreditation. If coursework was completed at an institution not regionally accredited, the student may specifically request that credit be considered in transfer by initiating a review process that begins with the student's academic advisor. Only courses in which a grade of C- or better (1.700) was earned are considered for transfer. Courses in which a grade of Pass (P) was earned are considered for transfer only if a grade of Pass at the sending institution is defined as a C- or better. Courses identified on transcripts as State of Colorado guaranteed transfer courses (gtPathways) are always accepted in transfer (with C- or better grades) and applied to degree requirements per gtPathways guidelines.

The Office of the Registrar considers course work for general transfer regardless of the age of the academic credit. Certain departments, however, have specific age of credit policies for applying credit to degree

requirements and for meeting prerequisites. State-guaranteed general education courses will be accepted in transfer and applied to graduation requirements for a period of at least 10 years after course completion as outlined in gtPathways guidelines.

Credit Hour Conversion

The University of Colorado Denver is on a 16-week fall and spring semester system. Summer terms, study abroad programs, and independent learning vary in length but are reported in semester hours. Students who transfer from a quarter-based institution will receive the following conversion:

1 quarter hour = 0.67 semester hours
Example: 4 quarter hours = 2.7 semester hours

Maximum Number of Transfer Credit Hours Accepted

School/College Specific Policy

Business School

The Business School generally limits its applicability of business course credits to those that are comparable to lower-division business courses at CU Denver. Students who have taken upper-division business courses from an Association for Advancement of Collegiate Schools of Business (AACSB) accredited business program may request review of these courses for possible transfer by contacting the Business School advising office. All courses taken in their major must be completed at CU Denver.

For students newly admitted to the Business School and former business students readmitted to the school after an absence of three semesters, applicable credits up to eight years old will be counted toward business degree requirements. Courses more than eight years old will be evaluated individually for their current relevance to the degree program. Students may be required to update their knowledge by taking additional courses when past courses are outdated; in such cases, credit will be given for both courses.

College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu to plan out their transfer credits and subsequent University of Colorado Denver course work. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Engineering, Design and Computing

The College of Engineering, Design and Computing, in general, requires that engineering course transfer credit must come from an Accreditation Board for Engineering and Technology (ABET) accredited engineering program to be acceptable for degree purposes. Engineering technology courses are not considered equivalent to engineering courses.

Transfer Credit Level Determination

School/College Specific Policy

College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student

knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu to plan out their transfer credits and subsequent University of Colorado Denver coursework. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Liberal Arts and Sciences

The general rule for determining transfer credit is that the level of credit awarded (lower-division or upper-division) will be determined by the level of the course at the sending institution. If the institution of origin listed the course as 1000 (or 100) or 2000 (or 200), or if the numbering system otherwise indicates lower-division credit, then it automatically will receive lower-division credit for fulfilling college requirements.

This rule will apply in all cases other than those where course- or student-specific exceptions have been made as described in the paragraphs below. Also, exceptions will be made on a case-by-case basis in instances where the sending institution does not use a four-level course numbering system or otherwise indicate lower-and upper-division credit distinctions.

Academic units retain the authority to determine whether an individual transfer course (taken at either upper or lower division) will count as fulfilling an upper-division major requirement. If the transfer course was taken as lower-division but is deemed to fulfill a University of Colorado Denver upper-division major requirement, the academic unit is additionally responsible for determining whether the course should be awarded upper-division credit toward the CLAS graduation requirement of a minimum of 45 upper-division credit hours. These are separate decisions, thus it is possible for a lower-division transfer course to fulfill an upper-division requirement in the major but not count toward the 45 upper-division hours required by CLAS. In either case, the academic unit's decision can either be applied to all future students entering with the same transfer course (this is known as course equivalency) or made on a one-time basis (this is known as a course substitution). These decisions will be made by the appropriate department chair or undergraduate major advisor. The academic unit that owns the course prefix for the substituted course holds the authority to make these transfer determinations, even in cases where the substituted course fulfills a major requirement for a separate academic unit.

Academic units will report all course substitutions and equivalencies using the DATC Universal Form. This form requests that the approving chair or major advisor examine the course description and, if possible, the syllabus from the sending institution. When approving major credit for a transfer course taken at the lower division, the chair or major advisor should indicate whether the course should also count toward the CLAS requirement of 45 upper-division credit hours, or whether the hours should continue to be counted at the lower division. The chair or major advisor should also indicate whether the determination should be applied to all future students entering CU Denver with the same transfer course (equivalency). This indication may result in revisions to the automated transfer-equivalency tables used for degree audit purposes. One exception made for a given course may then become the standard for all future students sending in that same course. The Advising Office will report such exceptions to the Registrar's Office for consideration of whether or not to revise the transfer equivalency tables.

Transferring to CU Denver as a New or Current Student

After all transcripts have been received, the Office of the Registrar prepares a transfer credit report, indicating which courses are accepted in general transfer by CU Denver. Students will receive this report along with their admission decision. At this time, students are encouraged to contact their academic advisor, who will determine how transferred credit applies to specific degree requirements, sometimes using automated systems and with assistance from academic departments. Academic units make all final decisions regarding application of transfer credit to degree requirements. Transfer credit evaluations are valid only for degree programs offered entirely at the CU Denver.

Courses are accepted in initial transfer and applied to graduation requirements at CU Denver at the same academic level as on the transcript from the sending institution. Transfer courses with similar content to CU Denver courses (but are listed on the transcript at a different level) may be substituted upon approval from the academic unit. Such courses, however, apply to overall requirements at the level listed by the sending institution unless an exception is granted. Only undergraduate courses are considered in transfer. Though unofficial transcripts may be used for admissions decisioning and initial transfer credit review, official transcripts must be submitted to the Office of Admissions for validation before the census date of a student's first term. Failure to do so will result in a registration hold.

School/College Specific Policy College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu (<http://catalog.ucdenver.edu/mauiito:CAMadvising@ucdenver.edu>) to plan out their transfer credits and subsequent University of Colorado Denver course work. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Engineering, Design and Computing

Transfer students should make an advising appointment as soon as possible after being admitted to the college.

Students must contact the department to which they've been admitted to schedule an appointment with a faculty advisor.

To expedite the advising process, please bring a copy of your transcripts from all institutions you have attended, copies of course descriptions for any courses you wish to have considered for transfer and, if possible, a syllabus for each of those courses. Only courses with a grade of C- or better will be considered for transfer credit. Pass/fail courses, internship courses, research-related courses and special topics courses will not be considered for transfer credit.

gtPathways Curriculum

The Colorado Department of Higher Education oversees the Guaranteed Transfer (gtPathways) program, which provides for guaranteed transfer,

and more importantly, guaranteed application of credit toward lower-division general education credit requirements at Colorado public institutions of higher education. All gtPathways approved courses undergo statewide faculty review, and all lower division CU Denver Core courses are gtPathways approved. Please see the list of Core courses for their gtPathways content area.

Statewide Transfer Articulation Agreements

In compliance with Colorado's Statewide Transfer Policy, students may transfer credit from a Colorado community college on a course-by-course basis or by completing an associate of arts (AA) or associate of science (AS) degree. Students who complete an AA/AS degree may be guaranteed full transfer of the associate degree (60 credits maximum).

The guaranteed transfer program applies only to students who began Colorado community college studies in fall 2003 or later and who meet the following requirements:

- Complete an AA/AS degree, which includes 31 credits of state-guaranteed general education courses
- Earn credit only at Colorado community colleges within the last 10 years
- Earn a grade of C- or better in each course

Statewide articulation agreements are in place governing transfer of students from Colorado community colleges into programs in anthropology, business, economics, elementary education teacher licensure, engineering, French, history, mathematics, political science, psychology, sociology, and Spanish.

Transfer advising plans for Colorado community college students are available from the Office of Admissions and at www.ucdenver.edu/admissions (<http://www.ucdenver.edu/admissions/>). In addition, an admissions representative can assist students with planning a transfer program of study. Representatives regularly visit Colorado community colleges. Call the Office of Admissions at 303-315-2601 or email admissions@ucdenver.edu for additional information.

School/College Specific Policy College of Engineering, Design and Computing

The College of Engineering, Design and Computing has formal transfer agreements with all Colorado community colleges, including the following Denver metro-area community colleges:

Arapahoe Community College (Littleton) 303-794-1550
Community College of Aurora 303-360-4790
Community College of Denver 303-556-2600
Front Range Community College (Westminster) 303-466-8811
Red Rocks Community College (Lakewood) 303-988-6160

Students interested in transferring should contact the engineering department to which they plan to transfer and the respective community college counseling office at the phone number indicated above.

Transferability of Modified Grades

The University of Colorado Denver will be accommodating the following grading modifications to traditional transfer admissions and enrollment in response to the COVID-19 pandemic. These modified processes apply to existing undergraduate and prospective students across CU Denver and from institutions across Colorado and beyond.

Transfer credit – Transfer students from an institution other than CU Denver and CU Denver students transferring to another CU Denver program through Intra-University Transfer (IUT), who took classes in Spring and beyond, must meet the following modified requirements to have courses transferred with credit:

- Non-letter grades (P, P+, S, etc.) appearing on a student transcript from an institution outside CU Denver starting Spring 20 and beyond will be accepted and applied to degree and/or CU Denver core, if the non-letter grade is defined as a C- or better.
- Any course with a non-letter grade that lacks an equivalence to a traditional letter grade will be handled by the CU Denver Office of the Registrar on a case-by-case basis.

Adjusted major/minor/certificate criteria for College of Arts and Media (CAM) – Transfer students from an institution other than CU Denver and CU Denver students transferring to CAM by an IUT, who took classes with modified grading in Spring 2020 and beyond, must meet the following requirements for course transferability in progression towards CAM major, minor, or certificate programs:

- For students applying with IUT credits toward transfer, lettered or modified grades representing a D- or higher (P/P+/S, etc.) will be applied as transferable toward a CAM major, minor or certificate requirement.
- For students applying from an institution other than CU Denver, lettered or modified grades representing a C- or higher (P+/S, etc.) will be applied as transferable toward a CAM major, minor or certificate requirement.
- Any course with a non-letter grade that lacks an equivalence to a traditional letter grade will be handled on a case-by-case basis.

Transferability of courses per the CAM grade modifications identified above will only be applicable toward CAM degrees, majors, minors, and certificates. Courses below the C- threshold will not be IUT transferrable towards other degrees and programs at CU Denver

Degree entrance criteria for transfer students – Transfer students from an institution other than CU Denver and CU Denver students transferring to another CU Denver program through IUT, will still be expected to meet college/school admissions requirements for direct admit into their program of choice.

- CU Denver will only accept the cumulative GPA, as calculated and documented by the students sending institution and reported on the students submitted transcript(s).
- For current CU Denver students who opted into Spring and/or Summer 2020 P/P+/NP grades, original letter grades will not be used to calculate cumulative transfer GPA.
- In the occurrence that an institution other than CU Denver allows for appeals to non-letter grades (P/P+/S, etc.), resulting in an impact to the student's cumulative transfer GPA, the student must contact CU Denver's Office of the Registrar (registrar@ucdenver.edu) and re-submit any official transcript with the revised cumulative GPA. *CU Denver's Office of the Registrar will re-evaluate degree admissibility on a case-by-case basis. A new transcript showing a higher GPA will not automatically be considered for degree/admissions admissibility.*
- If a CU Denver student elects to change their grade to a P+/P/ NP in any course, they will be unable to appeal a reversal of their request once processed, and will only be able to transfer credits and cumulative GPA as documented on their transcript.

Adjusted degree entrance criteria for College of Engineering, Design and Computing (CEDC) – Transfer students from an institution other than CU Denver and CU Denver students transferring to CEDC by an IUT, who took classes in Spring 2020 or beyond, must meet the following requirements to enter into a CEDC major.

- For all CEDC degrees EXCEPT the Bachelor of Arts in Computer Science and the Bachelor of Science in Construction Management:
 - Min 2.5 cumulative GPA. For current CU Denver students who opted into Spring and/or 2020 P+/P/NP grades and non-letter grades will not be used to calculate cumulative GPA.
 - C- or better or P+/S or equivalent grade in Calculus I and Calculus based Physics I with corresponding lab.
 - Non-letter grades (P/P+/S, etc.) appearing on a student transcript from an institution outside CU Denver in Spring 2020 or later in Calculus I and Calculus based Physics I, will be accepted if the non-letter grade is defined as a C- or better.
 - Any course with a non-letter grade that lacks an equivalence to a traditional letter grade will be handled on a case-by-case basis.
- For the Bachelor of Arts in Computer Science and the Bachelor of Science in Construction Management degrees:
 - Min 2.5 cumulative GPA. For current CU Denver students who opted into Spring and/or Summer 2020, P+/P/NP grades and non-letter grades will not be used to calculate overall GPA.
 - Completion of at least one of the following math courses with a grade of C- or better or P+/S or equivalent grade: College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II.
 - Non-letter grades (P/P+/S, etc.) appearing on a student transcript from an institution outside CU Denver in Spring 2020 and beyond, in College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II, will be accepted if the non-letter grade is defined as a C- or better.
 - Any course with a non-letter grade that lacks an equivalence to a traditional letter grade will be handled on a case-by-case basis.

Transcripts

Official Transcripts

The official transcript includes the complete undergraduate and graduate academic record of courses taken at all campus locations or divisions of the University of Colorado. It contains the signature of the Registrar and the official seal of the university.

Official transcripts with posted grades for any given semester are available approximately three weeks after final exams. A transcript on which a degree is to be recorded is available approximately eight weeks after final exams.

For Denver students, transcripts may be ordered through the online ordering portal by visiting www.ucdenver.edu/transcripts (<http://www.ucdenver.edu/transcripts/>).

Transcripts are prepared when a student submits an order online. A student with financial obligations to the university that are due and unpaid will not be granted a transcript. The official PDF transcript is delivered within twenty-four hours, and mailed transcripts are processed within one business day. Rush service is available and processed within one business day.

Glossary of Terms

Census

The date in which enrollment is considered finalized for the term/semester. After this date, full tuition is assessed for any new courses added to a student's schedule or withdrawn courses.

Credit of Semester Hour

The unit of measurement for college credit. For each credit hour earned, students will spend approximately 50 minutes per week in class. Most core classes are three credit hours. Most degrees require 120 credit hours to graduate, however, some require more. Often, credit hours are referred to as "hours" or "credits."

Class Level

The student's class level is based on the number completed credit hours. Class level is determined by the following credit-hour breakdown:

- First-Year/Freshman: 0-29 completed semester hours
- Sophomore: 30-59 completed semester hours
- Junior: 60-89 completed semester hours
- Senior: 90-120 completed semester hours

College or School

An individual degree-granting unit within the University.

At CU Denver, there are seven undergraduate school and colleges:

- College of Architecture and Planning
- College of Arts and Media
- Business School
- School of Education and Human Development
- College of Engineering, Design and Computing
- College of Liberal Arts & Sciences
- School of Public Affairs

All of which are part of the University of Colorado Denver. Regardless of what school or college a student has been admitted to, they are a CU Denver student.

Course Drop

Dropping one or more courses, but not all, within a specific term **prior** to census. Dropped courses are not reflected on the student's transcript.

Course Withdrawal

Dropping one or more courses, but not all, within a specific term **after** census. When students withdraw from a course, the course earns a grade of "W," which will be reflected on the student's transcript, but does not affect a student's GPA.

Core Curriculum

The set of general education requirements all CU Denver students must complete.

The core curriculum of the CU Denver Downtown Campus is designed to provide each undergraduate student with a high quality general education based on a liberal arts foundation, while allowing students flexibility based on their individual backgrounds and specific career goals. The

Core Curriculum develops multiple literacies, stimulates creative thinking, and utilizes technology. A goal of the CU Denver Core Curriculum is to engage students in developing sensitivity to diversity and developing their place in an urban environment as well as in the rapidly changing global environment.

The Core Curriculum includes courses in:

- English
- Math
- Arts
- Humanities
- Behavioral Science
- Social Science
- Biological and Physical Sciences
- Cultural Diversity
- International Perspectives

General Electives

Courses students choose to take in addition to the CORE, school or college, and major requirements.

Grades

Please see the Grading System (p. 65) section of the catalog for more information.

Grade Point Average

The grade point average (GPA) is calculated by multiplying the credit hours for the course by the points for the letter grade, totaling all the credit points and dividing them by the number of credit hours included. Pass grades and no-credit courses are not included in a student's GPA.

Student's University of Colorado GPA will not include courses that have been taken at other institutions prior to enrollment at the University of Colorado. The GPA for undergraduate students includes all courses taken as an undergraduate. This includes all grades for courses taken more than once.

Hold

A hold is a service indicator that prevents registering for classes and receiving an official transcript and/or diploma. A hold can be placed on a student's record for a variety of reasons that may include financial, health, academic standing, required documentation, and advising. Students can view holds in the UCDAccess student portal. Students should contact the appropriate department to resolve the hold in a timely manner.

Incomplete Grade

Policies with respect to "I" grades are available in the individual college and school dean's offices. Use of the "I" is at the discretion of the course instructor and/or the academic dean's office. Please see the Grades definition for more information.

Lower Division Courses (1000 & 2000 level)

Introductory level survey courses designed for first year/freshmen and sophomores.

Major

As a component of a degree, a major is the area of study chosen by a student to be their main focus of study. The number of credits required for a major varies by degree type and/or the school or college offering the major.

Major Electives

Courses students choose to take within their major that may be required to fulfill the major requirements. Some departments within schools and colleges have approved lists of major electives from which students can choose.

Minor

An optional course of study that allows students to take several classes as an introduction to a specific subject or discipline area outside of their major. Minors require significantly fewer credits than majors and are not required at CU Denver.

Recitation

A class component, in addition to lecture, which involves supplemental discussion of course content.

Requisites

Prerequisites

A course that needs to be taken prior to registration for the next course in the designated sequence.

Co-requisites

A course(s) that must be completed concurrently, in the same semester, with another course. Some schools and colleges may allow students to complete corequisites before enrolling in a concurrent course.

Restrictions

Restricted to a specific population (i.e. Restricted to MUSC majors, Restricted to junior standing, etc.)

Repeat

A course students may have re-enrolled in after completing the same course with a D- or higher. If a student has earned credit for a course already and chooses to re-enroll in the same course, the student will not earn additional credit.

Semester/Term Withdrawal

Dropping all courses within a specific semester or term. When students withdraw from all courses, each course earns a grade of "W," which will be reflected on the student's transcript, but does not affect their GPA. A term withdrawal note is also reflected separately on the transcript.

Upper Division Courses (3000 & 4000 level)

Advanced academic courses designed for juniors and seniors.

Academic Policies and Procedures

- Academic Standing (p. 93)
- Attendance Policy (p. 94)

- Course Repeat Policy (p. 95)
- Fresh Start Policy (p. 95)
- Grade Forgiveness (p. 95)

For specific academic policies for each school or college, please visit their catalog page:

- Business School (p. 109)
- College of Architecture & Planning (p. 153)
- College of Arts & Media (p. 164)
- College of Engineering, Design & Computing (p. 233)
- College of Liberal Arts & Sciences (p. 292)
- School of Education & Human Development (p. 685)
- School of Public Affairs (p. 731)

Additional academic policy information for each school/college can also be found in the Records and Registration (p. 57) section of the catalog.

For information regarding University and Campus wide policies, please click here (p. 34).

Academic Standing

This policy defines four levels of academic standing and identifies rules that apply to undergraduate students based on their academic standing. Undergraduate students at CU Denver are expected to maintain progress toward their degree program, as defined by being on "Good Academic Standing." Good Academic Standing requires minimally a cumulative grade point average (GPA) of 2.000 on University of Colorado course work.

While it is normal for some students to experience academic difficulty and drop below the good academic standing threshold for a period of time, it is important to return to good academic standing as soon as possible. Maintaining Good Academic Standing status is important because eligibility for enrollment, financial aid, and other aspects of university life can be affected if a student's cumulative GPA falls below 2.000. Students cannot graduate with an undergraduate degree from CU Denver with a cumulative GPA below 2.000. Many campus resources (p. 100) exist to help students get back on track, engage in meaningful learning experiences, and graduate.

To review the **Academic Standing for Undergraduates** policy in full, please click here (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7016b1b8fde5302864d9a5bfff0a001ce385.pdf?sfvrsn=7e9099b9_0).

Good Academic Standing

Students at the University are expected to maintain progress in their degree program, as defined by being on "good academic standing." Good academic standing requires a minimum cumulative grade point average (GPA) of 2.000 on University of Colorado course work.

Academic Warning

If a student's cumulative CU GPA falls below 2.000 in any given semester, the student will be placed on "Academic Warning."

- Students are notified of their Academic Warning standing by university e-mail.

- An academic standing hold is placed on a student's account every semester until their cumulative GPA is raised to 2.000 or higher.
- Academic Warning entails:
 - Completion of the Academic Support Module (ASM). The ASM is an online module designed to support students' academic progress. Students will receive a link to access the ASM in their Academic Warning notification e-mail.
 - By completing the module, students learn about various support services available through CU Denver and the Auraria Campus such as financial aid, tutoring, career exploration services, veteran student services, writing support services, the Auraria Library, the Office of International Affairs, and many others. They also learn about the requirements, tools, and strategies for getting back on Good Academic Standing.
- Students are strongly encouraged to meet with their academic advisor. (<https://www.ucdenver.edu/student/advising/undergraduate/#AdvisingUnits>)
- Students must complete the ASM prior to registering for the next semester.
- Students must earn a semester GPA of 2.000 in their subsequent semester(s), including summer session, regardless of the number of credit hours attempted, until their cumulative GPA is raised to 2.000 or higher.
- Students have five attendance semesters or 30 credit hours to improve their cumulative CU GPA to 2.000.
- Once a student's cumulative GPA reaches 2.000 or better, the student is considered to be in Good Academic Standing. Registration or advising holds related to Academic Standing will be removed.
- If a student is unable to achieve a semester GPA of 2.000 or better while on Academic Warning in any given semester, the student will be placed on Academic Monitoring.
- Students are notified via university e-mail when they are placed on Academic Suspension.
- Suspension entails:
 - Students are unable to attend the University of Colorado Denver, or any University of Colorado campus, for one year/three semesters (including summer session).
 - To prepare for readmission, students can either attend another institution and demonstrate improved academic performance (minimum GPA at another institution must be 2.750) or use the time off to address issues directly contributing to their academic difficulties.
- Students may petition the individual college's (<https://www.ucdenver.edu/student/advising/undergraduate/#AdvisingUnits>) appellate committee for readmission after the required one year/three semester suspension period. It is recommended that students apply early to allow time for adequate review.
- For readmission, students must meet and document at least one of the following criteria:
 - Attendance at another regionally accredited college/university wherein they completed a minimum of 12 transferable credit hours that are applicable to their degree, with a cumulative GPA of at least 2.750.
 - Provide an explanation in writing of their previous academic difficulty, demonstrate what has changed, and how readmission will allow them to achieve and maintain good academic standing.
- If a student is granted readmission, they will be readmitted on Academic Monitoring and must meet the conditions of Academic Monitoring as described above.

Academic Monitoring

If a student on Academic Warning is unable to achieve a 2.000 minimum semester GPA, the student will be placed on "Academic Monitoring."

- An appointment with the student's academic advisor (<https://www.ucdenver.edu/student/advising/undergraduate/#AdvisingUnits>) is required.
- Students on Academic Monitoring are restricted to a maximum course load of 13 credit hours (for fall and spring semesters) or 7 credit hours (for summer) in subsequent semesters until their cumulative GPA is at or above 2.000.
- Students on Academic Monitoring must achieve a 2.000 semester GPA in their subsequent semester(s).
- Students remain on Academic Monitoring until they achieve a cumulative GPA of 2.000 or higher or are academically suspended.

International status students may have additional restrictions and should contact the Office of International Affairs (<https://www.ucdenver.edu/offices/international-affairs/about/contact-address-information/>) for additional information and guidance.

Academic Suspension

If a student on Academic Monitoring is unable to achieve a 2.000 minimum semester GPA, the student will be placed on "Academic Suspension".

Attendance Policy

Successful performance in college courses is dependent upon regular student attendance and participation. It is the University's expectation that students will participate in every class, independent of whether attendance is formally part of the course grade. The University recognizes there will be occasions when students must miss classes that contain examinations, graded assignments, experiments or projects, and general class participation. The University Policy website further addresses the issues of student absences, identifies possible accommodations, and outlines both faculty and student responsibilities.

The University also recognizes that excessive excused absences will make it impossible to evaluate a student's performance in a class based on attendance and participation or in a class with multiple missed graded assignments. Under these circumstances, an administrative solution should be explored with the student to drop the course(s) before the end of the semester.

The full administrative policy is available here (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7030.pdf?sfvrsn=6f26bfb9_0).

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

COLLEGE OF ARCHITECTURE AND PLANNING (p. 155)

COLLEGE OF ARTS & MEDIA (p. 168)

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING (p. 237)

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT (p. 687)

Course Repeat Policy

Though students may take any course more than once, credit toward graduation is counted only once for a typical course, unless otherwise noted in the course description. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. See course descriptions for the max semester hours applicable from each course.

School/College Specific Policy

BUSINESS SCHOOL (p. 114)

COLLEGE OF ARCHITECTURE AND PLANNING (p. 155)

COLLEGE OF ARTS & MEDIA (p. 168)

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING (p. 237)

COLLEGE OF LIBERAL ARTS AND SCIENCES (p. 312)

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT (p. 687)

Fresh Start Policy

This policy allows undergraduate students who left CU Denver with a cumulative transcript G.P.A. of below 2.0 the opportunity to return for a second chance with a recalculated G.P.A. To qualify, students must have been previously enrolled at CU Denver and left for at least one calendar year (three semesters). At the time of departure, students must be in good standing in terms of academic honesty and/or student conduct matters.

To review the policy and complete list of qualifications in full, please click here (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7040.pdf?sfvrsn=a375bfb9_0).

Note: Students who are readmitted under the Fresh Start policy are no longer eligible to replace grades through the Grade Forgiveness policy.

Grade Forgiveness

Degree-seeking undergraduate CU Denver students pursuing their first degree at CU Denver may request to forgive a grade from a prior instance of taking a 1000-level or 2000-level CU Denver class if they received a D+, D, D-, or F in the prior attempt. Course retaken must be an exact match for the previous attempt. Ineligible courses include special topics, repeatable courses, course grades received from academic dishonesty, mismatched credit hours, and equivalent cross-listed courses. Courses repeated for grade forgiveness must be taken for a letter grade (not audit, pass/fail, no credit). Limited to one attempt per course, up to a maximum of 18 credit hours.

Grade forgiveness deadlines can be found in the Academic Calendar (<https://www.ucdenver.edu/student/registration-planning/academic-calendars/>). The highest grade becomes the final grade that calculates in the GPA.

If a student drops the class for which grade forgiveness was requested, the grade forgiveness request will automatically be cancelled on the student's behalf. If the student later re-enrolls in the same or different section of the same course, they will need to re-submit the grade forgiveness request form.

Note: Students may repeat courses throughout their academic career without invoking grade forgiveness. When courses are repeated without invoking grade forgiveness, all attempts are included in student credit and GPA totals calculations, and some programs limit the number of course repeats.

To review the policy in full, please click here (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7037.pdf?sfvrsn=b374bfb9_0).

Advising and Other Student Services

The CU Denver academic advising community recognizes the importance of having access to accurate information and support when you need it.

We can help you connect with your advisor, find the most updated degree maps, and understand university academic policies. Advisors assist students, navigate and personalize their college experience, connect them with the right resources, and guide them along their entire academic journey.

This information and the resources in Undergraduate Academic Advising (<https://www.ucdenver.edu/student/advising/undergraduate/>) are designed for students in **undergraduate programs**.

In addition to our advising services, CU Denver offers other valuable resources for our Undergraduate Students to help you navigate your time here at CU Denver.

- Advising (p. 95)
- Other Student Services (p. 100)

Advising

There's no central advising center at CU Denver. Most undergraduate student advising is done through the student's school or college.

The Center for Undergraduate Exploration and Advising (CUE&A) is a resource for undergraduate students who are still deciding on their major, students in their first year in the College of Arts and Media, and students who are preparing to transition into the College of Architecture and Planning. Students will be directed to appropriate advising offices based on their declared majors and/or the school or college to which they've been accepted.

For additional information about advising, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/>).

- Center for Undergraduate Exploration and Advising (p. 95)
- College of Architecture and Planning Academic Advising (p. 96)
- College of Arts & Media Advising and Student Services (p. 96)
- College of Engineering, Design and Computing Academic Advising (p. 96)
- College of Liberal Arts & Sciences Academic Advising Office (p. 97)
- CU Denver Business School Undergraduate Advising (p. 98)
- School of Education and Human Development Academic Services (p. 99)
- School of Public Affairs Academic Advising (p. 99)

Center for Undergraduate Exploration and Advising

Location: Student Commons Building, Suite 1113

Phone Number: 303-315-1940

Email: cuea@ucdenver.edu

Website: <http://ucdenver.edu/life/services/asac/Pages/default.aspx>

The Center for Undergraduate Exploration & Advising is a resource for students still exploring major and career pathways at CU Denver. We welcome students who are still deciding on a major, planning to change their major, and/or looking to supplement their current major with a minor or certificate program. In addition to being a general resource for exploratory students, the CUE&A Success Advisors serve as primary Academic Advisors for:

- College of Liberal Arts & Sciences (CLAS) Undeclared Students
- First-year Students (under 30 credits) in the College of Arts & Media (CAM)
- Pre-Architecture Students
- Undergraduate Non-degree and Concurrent Enrollment Students

We also invite prospective students needing a general overview of the many academic and major opportunities at CU Denver to meet with a CUE&A Success Advisor.

College of Architecture and Planning Academic Advising

Location: CU Denver Building, 1250 14th St Ste 200

Phone Number: 303-315-1000

Email: CAP.UGAdvising@ucdenver.edu

Website: <https://architectureandplanning.ucdenver.edu/studentresources/academic-advising> (<https://architectureandplanning.ucdenver.edu/studentresources/academic-advising/>)

Overview

Our Mission

The College of Architecture and Planning student services team aims to foster student success by offering a welcoming environment, where students are provided tools and resources that will empower them to make decisions leading to the highest level of academic, career, and personal achievement.

To accomplish our mission, the student services staff in the College of Architecture and Planning will:

- Assist students in the development of meaningful education plans.
- Serve as a resource for students to provide timely, accurate information and professional advice about degree programs, university policies and procedures, campus resources, and student engagement opportunities.
- Support and advance the recruitment, admission, and enrollment of students to the College.
- Encourage self-reliant problem-solving.
- Empower students to take responsibility for achieving their academic, career, and personal goals.
- Assist students in their transition and integration into college/the College.
- Foster community at the College and University level.
- Collaborate with faculty to ensure accurate curricular information is communicated to both current and prospective students.
- Help students build professional networks and skills in their field through participation in Internship and Mentorship programs.

College of Arts & Media Advising and Student Services

Location: Arts Building, Suite 177

Phone Number: 303-315-7400

Email: CAMadvising@ucdenver.edu

Website: <https://artsandmedia.ucdenver.edu/>

Hours of Operation: M-F 8:00 a.m.-5:00 p.m

Overview

Advising and Student Services at the College of Arts & Media (CAM) provides current and prospective CAM students with academic information about the college and university. CAM advisors assist students with tracking their academic progress, discussing remaining requirements and course sequencing and by offering appropriate referrals to faculty and other university services (e.g., career resources). Advisors also coordinate academic email notifications to students (e.g., add/drop deadlines and applying to graduate), as well as maintaining advising-related materials. While students are encouraged to make use of the service of academic advising throughout their college career, they are ultimately responsible for their own academic progress.

Academic advising may be mandated or suggested prior to registration depending on the student's status. Students can view registration holds in the Student Center of their UCDAccess account.

First-Year and Transfer Students

First-Year students with fewer than 30 credit hours are required to attend New Student Orientation and meet with an advisor before registering for their first semester, and then later are required to meet with an advisor in the Center for Undergraduate Exploration and Advising (CUE&A) before registering for their second semester. Transfer students with 30 or more credit hours are required to meet with a CAM academic advisor and may also be required to complete an orientation prior to registering for their first semester of courses.

Continuing Students

Students with declared majors who have completed at least 30 semester hours are assigned to CAM Advising and Student Services. Students are encouraged to meet with an advisor at least once per year and to bring a sample schedule to each advising appointment.

Students approaching their junior and senior years are encouraged to meet with a faculty mentor in their area of study or academic advisor to discuss internships, career/employment opportunities, graduate school, professional organizations and other post-graduation information. Additional resources exist in CAM and across campus to support career exploration. Students may contact CAM Advising and Student Services for details.

College of Engineering, Design and Computing Academic Advising

Main Office Information

Location: North Classroom, 1200 Larimer Street, Room 3034

Phone Number: 303-315-7170

Email: engineering@ucdenver.edu

Website: engineering.ucdenver.edu/current-students/academic-advising
(<https://engineering.ucdenver.edu/current-students/academic-advising/>)

Overview

Students in the College of Engineering, Design and Computing meet with an academic advisor every semester. Students admitted into an engineering major meet with an advisor in their engineering major/interest department. Students admitted to the pre-engineering program meet with our pre-engineering advisor.

Check your student portal if you are unsure of the program you have been admitted to. For questions or to schedule advising appointments, please contact our academic advisors by email or phone.

CLAS Academic Advising Mission

We create and sustain an inclusive, safe, and supportive learning environment where students are empowered to build meaningful relationships and skills that foster lifelong learning and success.

CLAS Advising System

Academic advising in the College of Liberal Arts and Sciences (CLAS) is a partnership between students, faculty, and staff. CLAS utilizes a shared advising system, which means all undergraduate students in a CLAS major will have at least two advisors with whom they should work throughout their time at CU Denver: a CLAS Academic Advisor and a CLAS Faculty Advisor.

CLAS Academic Advisors

- Help students learn to navigate CU Denver systems
- Explain and help students track their progress with CU Denver Core Curriculum, CLAS, and general graduation requirements
- Explain university and college policies
- Help students make informed decisions about course registration and academic plans
- Evaluate the application of transfer credits toward general education requirements
- Connect students to the campus and campus resources
- Determine students' graduation eligibility and facilitate the graduation process
- Support student through degree completion and empower them to achieve their academic goals.

Students can identify their assigned CLAS Advisor in the "Advisor" box in their Student Center on UCD Access.

CLAS Faculty Advisors

- Explain major/minor requirements
- Evaluate transfer credits and their applicability to major/minor requirements
- Help students track their major/minor requirements
- Determine students' graduation eligibility
- Discuss career and graduate school opportunities

An updated list of faculty advisors is available in the CLAS Advising Office and on the CLAS Advising website under the About Us page and Faculty Advisors link.

CLAS Students

- Meet regularly with assigned CLAS academic and faculty advisor(s)
- Learn CU Denver, CLAS, major/minor, and general graduation requirements
- Use available resources (degree audit, transfer credit reports, transcript, CLAS handouts, etc.) to track academic progress and maintain individual records of progress
- Set academic goals with the assistance of advisors
- Know university and college academic policies and deadlines
- Choose and enroll in courses
- Understand the importance of and practice professionalism and ethical behavior
- Use campus resources and ask for help

Health Careers and Professions Advising

Director/Advisor: Trishia Vasquez

Telephone: 303-315-7541

Advisor: Dr. Gene Brooks

Telephone: 303-315-7538

Undergraduate Pipeline Program Coordinator/Advisor: Ken English

Telephone: 303-315-7542

Main Office Email: ucdhealthcareers@ucdenver.edu

Phone: 303-315-7536

Health Career Advisors on the Denver Campus assist in planning a course of study designed to improve a student's chance of success in a health career of their choice by sharing information about career paths in the health professions, work role and environment, related careers and relevant professional development or graduate school programs. We can provide insight into career options, professional opportunities, and extracurricular opportunities to improve your chances of success in the health career of your choice, including: dentistry and dental hygiene, medicine, medical technology, nursing, optometry, osteopathy, pharmacy, physical therapy, physician assistant, podiatry or veterinary medicine. A comprehensive list of health career options and additional information to help you mold your academic experience to your specific goals is available on the health professions programs website at <https://clas.ucdenver.edu/health-professions-programs/>.

Undergraduate Pipeline Programs

BA/BS-MD Program

The BA/BS-MD degree program at the University of Colorado Denver and Anschutz Medical Campus aims to promote the diversity of medical professionals practicing medicine in Colorado and to better serve the health care needs of the State of Colorado by assembling up to 10 outstanding students each year from broadly diverse backgrounds. Applicants must be Colorado residents and have an interest in serving the health care needs of Colorado as primary care physicians. This program is a partnership between the University of Colorado Denver College of Liberal Arts and Sciences and the University of Colorado School of Medicine.

Being accepted to the program allows students to earn a reserved spot at the University of Colorado School of Medicine provided he or she meets specific academic, non-academic, and professional requirements annually.

Admission of individuals will be conducted through a holistic review in a manner which treats each applicant fairly, on the basis of experience, attributes, and metrics. For more information,

visit <https://clas.ucdenver.edu/health-professions-programs/babs-md-program-information/> (<https://clas.ucdenver.edu/health-professions-programs/babs-md-program-information/>) or contact Mr. Ken English at kenneth.english@ucdenver.edu.

BA/BS-DDS Program

The BA/BS-DDS degree program at the University of Colorado Denver and CU School of Dental Medicine at Anschutz Medical Campus aims to promote the diversity of dental professionals practicing dentistry in Colorado and to better serve the health care needs of the State of Colorado by assembling and educating up to five students each year from broadly diverse backgrounds. Applicants must be Colorado residents who are interested in serving the health care needs of Colorado as dentists. Acceptance and participation in this program does not guarantee admission to the University of Colorado School of Dental Medicine or any other dental school.

Students who successfully meet all program requirements including a successful interview with the School of Dental Medicine (SDM) Admission Committee, will be eligible for a "reserved" spot in the CU SDM matriculating class.

Admission of individuals will be conducted through a holistic review in a manner which treats each applicant fairly, on the basis of experience, attributes, and metrics.

For more information, visit <https://clas.ucdenver.edu/health-professions-programs/babs-dds-program/> (<https://clas.ucdenver.edu/health-professions-programs/babs-dds-program/>) or contact Mr. Ken English at kenneth.english@ucdenver.edu.

CLAS Advising Partners

Students who are still deciding their college major (Liberal Arts-Undeclared), along with pre-architecture are served through the Center for Undergraduate Exploration and Advising (CUE&A) located within the Student Commons Building (SCB) Room 1113, 303-315-1940. E-mail: CUEA@ucdenver.edu. Website: www.ucdenver.edu/cuea (<http://www.ucdenver.edu/cuea/>)

CU Denver Business School Undergraduate Advising

Location: 4th floor of the Business School, 1475 Lawrence Street

Phone Number: 303-315-8110 or 303-315-8111

Email: undergrad.advising@ucdenver.edu

Website: <https://business.ucdenver.edu/current-students/undergraduate-advising/> (<https://business.ucdenver.edu/current-students/undergraduate-advising/>)

Overview

We are committed to the success of all students and strive to aid in your personal, professional, and educational growth. Through meaningful interactions, we will empower you by building strong relationships while helping you navigate the college experience.

Our services

Appointments are not required, but we recommend that you check in with us at least once a semester.

- 30-minute in-person appointments**

- 30-minute phone appointments
- Email advising (email your assigned advisor directly)

To schedule an appointment with your advisor, call the front desk at 303-315-8110/8111 or use the self-scheduler link: <https://ucdenver.campus.eab.com/home> (<https://ucdenver.campus.eab.com/home/>). We do not accept walk-ins or same day appointments, so plan ahead!

***Please note that all advising appointments are being held virtually due to COVID-19 at this time. Please check the advising website (<https://business.ucdenver.edu/current-students/undergraduate-advising/>) for the most up to date information.*

Reach out to your advisor if you need any help with the following:

- Class and degree planning
- Registration questions
- Course overrides and permissions
- Study abroad course approval
- Transfer credit evaluations and approval
- 4+1 program
- Four-year planning
- Graduation checks
- Major/Minor exploration
- Probation/Suspension advising
- Referrals to other academic resources

While we do not assist with tuition assistance, financial aid advising, scholarship assistance, immigration/visa regulation, and internship advising/approval, we are happy to refer you to the right department or person if you have any of these concerns.

School of Education and Human Development Academic Services

Location: 7th Floor Lawrence Street Center, 1380 Lawrence Street Ste 701
Phone Number: 303-315-6300

Email: academicsservices@ucdenver.edu

Website: <https://education.ucdenver.edu/academic-services/student-resources/undergraduate> (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>)

Appointments: ucdenver.campus.eab.com (<http://catalog.ucdenver.edu/file:///data.ucdenver.pvt/dept/SEHD/Rhino/Queue/SSC/Catalog/2021-2022%20Catalog/Undergraduate/ucdenver.campus.eab.com>) or call 303-315-6308

Overview

Academic Services provides support for all SEHD students and is a one-stop location that connects students with support for everything from advising, registration, and graduation to academic and socioemotional support. In addition, Academic Services serves as the approval for add/drops, admission to candidacy, degree conferral, CDE licensure and other processes.

Undergraduate Students (new freshmen, new transfer students, continuing students)

Staff academic advisors work with students to create customized four-year degree plans that best meet the aspirations, career goals and timelines of each student. SEHD advisors go above and beyond assisting students with course selections, they also help students:

- Navigate CU Denver systems;
- Track each students' progress in meeting degree, major and licensure requirements;
- Explain university and college policies and processes;
- Connect students to the SEHD Student Success Center and other campus resources; and
- Facilitate advising and registration sessions during New Student Orientation (for first-year students) and Transfer Student Orientation (for transfer students).

Supporting Student Success

The SEHD Student Success Model provides a wrap-around system of support that builds on students cultural and community assets in an inclusive, culturally sustaining approach. Professional academic advisors, faculty, the SEHD Success Center, and SEHD student engagement programming work together in this wrap-around system to ensure the personal, educational, and professional growth of all students. Students also benefit from Peer Mentoring programs, Learning Communities, and other high impact practices that are key to successful and impactful college experiences.

School of Public Affairs Academic Advising

Location: 5th Floor Lawrence Street Center, 1380 Lawrence Street Ste 500
Phone Number: 303-315-2228

Website: <https://publicaffairs.ucdenver.edu/current-students/academic-advising> (<https://publicaffairs.ucdenver.edu/current-students/academic-advising/>)

Overview

Academic Advising

The School of Public Affairs offers personalized support to students enrolled in criminal justice and public affairs programs. Students are assigned an academic advisor who will help them to plan their path to graduation and to navigate university and school policies and procedures. It is recommended that students meet regularly with their advisors — at least two to three times per semester for undergraduate students, and two to three times over the course of the program for graduate students.

Advisors can provide support to:

- Help students understand the requirements of their program and how to use the Degree Audit tool in the UCD Access student portal (<https://passport.ucdenver.edu/login.php>)
- Help transfer students understand which transfer credits can be applied to their program of study

- Help students choose the classes that meet their program requirements and that align with their concentrations and areas of interest
- Help students to understand and resolve any holds that may appear on their student accounts, thus preventing them from registering for classes
- Help students to register for classes
- Refer students to academic and other support available through the School of Public Affairs and CU Denver
- Ensure students are on track with their program completion plans
- Provide authorizations for changes to their class schedules
- Provide information on the process of graduating from CU Denver and participating in Commencement

Other Student Services

CU Denver offers a variety of services specifically geared towards our undergraduate community. Below are just some of the offices that provide those services.

Center for Pre-Collegiate and Academic Outreach Programs

Location: North Classroom 4032

Phone Number: 303-315-7070

Email: pcdp@ucdenver.edu

Website: <https://www.ucdenver.edu/pre-college-programs> (<https://www.ucdenver.edu/pre-college-programs/>)

The Center currently houses unique and distinct programs. These programs are identified as having: early outreach, ongoing pro-active guidance, educational access, retention, and finally graduation from higher education. The mission of the Center for Pre-Collegiate and Academic Outreach Programs at the University of Colorado Denver (CU Denver) is to administer pre-college and pipeline programs. These programs are designed to educate, motivate, and prepare first-generation students to be successful in secondary and post-secondary education with the ultimate goal of obtaining a higher education degree.

Core Curriculum

Core Curriculum Oversight Committee Chair: Kim Regier

Phone: 303-315-7609

Email: ccoc@ucdenver.edu

The general-education Core delivers the knowledge, skills, and dispositions that all students need to be successful in multiple future careers and as informed and engaged citizens of a rapidly changing, diverse, global world. All undergraduates, regardless of major, take courses in each of the nine Core Areas: Composition, Mathematics, Arts, Behavioral Sciences, Biological & Physical Sciences, Humanities, Social Sciences, Cultural Diversity, and International Perspectives. The Core Curriculum is designed to provide each undergraduate student with a high-quality general education based on a liberal arts and sciences foundation, while allowing students flexibility based on their individual backgrounds and specific career goals.

A complete listing of Core courses can be found here (p. 104).

Early Action (EA)

EA Contact: Erika Larson

Phone: 303-315-5280

Email: success.initiatives@ucdenver.edu

Early Action is a referral-based student support program for faculty and staff to communicate and triage students to resources on campus that provide academic and administrative support. Early Action is one of the ways we support our students. It's an opportunity for instructors to communicate with students about resources on campus that can help support success in the course. It is a process that opens up the conversation between students, faculty and support staff so that together we can develop strategies for students to achieve their goals in courses and beyond.

Succeeding at college does not mean that you don't struggle in a class or classes or during particular semesters. Our goal at CU Denver is to do all we can to support every student and facilitate their success. From the first to tenth week of the semester, you may get an email or phone call from a CU Denver staff member offering assistance and opportunities for academic support. Please engage in this process. Getting an Early Action communication is not an indication that you will not succeed in the course. It is a call to action. Students who have taken advantage of resources offered to them are able to move forward and succeed in the course.

Learning Resources Center

Location: Student Commons Building, Suite 2105

Phone: 303-315-3531

Email: tutorialservices@ucdenver.edu

Website: <https://www.ucdenver.edu/learning-resources-center> (<https://www.ucdenver.edu/learning-resources-center/>)

The CU Denver Learning Resources Center is designed to promote student success, retention, and graduation in a supportive, vibrant and inclusive academic setting. Our services are available to currently enrolled CU Denver undergraduate and graduate students and include free services such as CRLA certified tutoring, Supplemental Instruction (SI), Academic Development Workshops, Student Success Seminars, academic coaching, Conversation Groups, and English for Speakers of Other Languages (ESOL) support.

New Student Orientation

Location: Student Commons Building, Suite 1107

Phone: 303-315-3506

Email: orientation@ucdenver.edu

Website: <https://www.ucdenver.edu/orientation> (<https://www.ucdenver.edu/orientation/>)

New Student Orientation (NSO) welcomes all incoming Lynx and their families, by creating a supportive, inclusive and encouraging environment. NSO assists our diverse student population by ensuring a smooth transition through the academic, personal and social adjustments to life at CU Denver. Our programs are dedicated to helping students exceed their own expectations through graduation, all the while creating a community at CU Denver that feels like home.

Office of Academic Achievement

Associate Vice Chancellor for Student Success: Margaret C. Wood, PhD

Phone: 303-315-2133

Email: margaret.c.wood@ucdenver.edu

Website: [ucdenver.edu/ue](http://www.ucdenver.edu/ue/) (<http://www.ucdenver.edu/ue/>)

The **Office of Academic Achievement** promotes the creation of high-quality learning experiences in and out of the classroom. We support

faculty as they create courses that help students learn, persist, and ultimately graduate. We serve students by providing support for their academic endeavors through advising, tutoring, peer mentoring, and tools for classroom success. We also provide opportunities for enhanced student engagement through research, honors coursework, first-year experiences, and leadership training. From orientation through graduation our programs help students achieve their academics goals, setting them up for success at CU Denver and beyond. The Office of Academic Achievement includes the following areas: Student Transitions & Family Engagement, University Honors & Leadership, Learning Resources Center, Undergraduate Research & Creative Activities, Undergraduate Advising, and the Center for Excellence in Teaching & Learning.

High Impact Practices (HIPs)

HIPs are specialized practices or programs of engaged teaching and active learning. Ten specific HIPs are recognized nationally: First-Year Seminars, Common Intellectual Experiences, Learning Communities, Writing-Intensive Courses, Collaborative Assignments and Projects, Undergraduate Research, Diversity/Global Learning, Service Learning and Community-Based Learning, Internships, and Capstone Courses and Projects. National research shows that student participation in HIPs increases engagement, retention, and completion, especially in the case of underrepresented groups.

First-Year Experiences (FYE)

FYE Director: Emilie Waggoner

Email: emilie.waggoner@ucdenver.edu

Website: [ucdenver.edu/fye/](http://www.ucdenver.edu/fye/) (<http://www.ucdenver.edu/fye/>)

First-Year Experience (FYE) is housed under the Student Transitions and Family Engagement Unit (under OAA). It is a comprehensive approach to ensure that First-Year students at CU Denver make a successful transition to college. Our primary goals for FYE participation are active engagement with the CU Denver community, relationships with peers, faculty, and university staff, high levels of academic performance, and strong academic and professional skills. Our **First Year Seminar** program delivers faculty-designed special topics courses that apply toward Core Curriculum credit in the various knowledge areas. Along with rigorous academic content, first-year students participate in academic skill workshops and campus social events. The new **College Success** course (UNIV 1110 College Success) focuses more exclusively on academic skills, support, and transition to the university. Students receive hands-on support in developing their academic writing, critical thinking, library research, career preparation, professional communication skills, and personal strengths from faculty, staff, and campus resources across the university.

Why should incoming students participate in a First-Year Experience course?

- higher first semester grades
- student engagement with campus activities
- small class size
- faculty and peer mentoring
- knowledge of campus resources and student support services
- early exploration of career paths and a suitable major
- more likely to stay in college
- Core curriculum credit (for First-Year Seminars)
- active learning pedagogy designed to improve writing and critical thinking skills

Additionally, housed under FYE are Learning Communities (LCs). LCs create intentional and inclusive communities formed around common themes or purposes where students learn together. These communities strive to cultivate critical inquiry and reflection, holistic student growth, and collaborative connections on campus. At CU Denver, learning communities typically include paired courses, or a single course, integrated by an academic theme, collaborative learning, peer mentoring, and intentional co-curricular activities.

Internships & Experiential Learning Center.

Senior Director of Student Career Development: Sarah Trzeciak

Phone: 303-315-7318

Email: sarah.trzeciak@ucdenver.edu

Website: ucdenver.edu/elc (<http://www.ucdenver.edu/elc/>)

Housed under the Student Community and Engagement umbrella, Experiential learning includes a variety of activities with one common goal-to immerse students in hands-on learning outside the classroom where experience is at the heart of the learning process. The **Experiential Learning Center**, located within the SCE division, is committed to working closely with students, faculty, employers, and community partners to provide quality experiential learning opportunities that enhance academic learning, integrate theory and practice, and promote professional development and active citizenship. The ELC offers resources for internships, undergraduate research, and professional development experiences.

Global Learning | Study Abroad

Location: Tivoli Student Union, LynxConnect Suite 439

Phone: 303-315-2001

Email: study.abroad@ucdenver.edu

Website: <https://www.ucdenver.edu/students/study-abroad> (<https://www.ucdenver.edu/students/study-abroad/>)

The Office of Global Education / Study Abroad provides academically and professionally relevant international experiences to a diverse student population at the University of Colorado Denver | Anschutz Medical Campus. These experiences equip students with cross-cultural skills necessary to succeed in an interconnected global society. The Office of Global Education is committed to providing students with a wide range of engaging and affordable study, internship, research, and clinical opportunities.

International program offerings vary to meet the needs and interests of all students. These programs are open to undergraduate, graduate, and international students; it is not necessary to be a particular major to participate. Program lengths range from two weeks to an academic year or more. The vast majority of programs do not require language proficiency beyond the English language.

The Office of Global Education strives to keep study abroad programs affordable. In most cases, students are able to utilize financial aid and are eligible for an array of internal and external scholarships. For the most current information on programs, policies, and funding, please visit the Office of Global Education website at <https://www.ucdenver.edu/students/study-abroad> (<https://www.ucdenver.edu/students/study-abroad/>) or visit LynxConnect in the Tivoli.

Peer Advocate Leader (PAL) Program

Location: Tivoli Student Union 127

Phone Number: 303-315-5492

Email: PAL@ucdenver.edu

Website: <https://www.ucdenver.edu/first-year-experiences/peer-advocate-leaders> (<https://www.ucdenver.edu/first-year-experiences/peer-advocate-leaders/>)

PAL stands for Peer Advocate Leaders. We serve as peer mentors to help students navigate a successful college career. PALs are trained to work with students to connect them with CU Denver, the Auraria Campus, and the Denver Community. The mentoring relationship in the PAL is designed to foster student engagement and academic success by providing peer-level support that promotes student achievement, growth, and learning through the student's career at CU Denver. PALs are paired in First-Year Experience courses to plan and facilitate educational and social activities. PALs also assist students in one-on-one environments.

If you would like to apply to become a Peer Advocate Leader, please visit MyLynx to complete the application: <https://ucdenver.presence.io/form/new-peer-advocate-leader-pal-application-2020> (<https://ucdenver.presence.io/form/new-peer-advocate-leader-pal-application-2020/>)

Student Government Association

Location: Tivoli Student Union 301

Phone Number: 303-315-7286

Email: sga@ucdenver.edu

Website: <https://www.ucdenver.edu/student-life/student-government> (<https://www.ucdenver.edu/student-life/student-government/>)

The Student Government Association serves as a voice for students. Similar to the structure of the U.S. Government, SGA has executive, legislative and judicial branches. Executives, Senators, College Council Members, and SACAB representatives are elected each year in the spring semester. SGA assists students with information concerning student clubs and organizations, campus events, issues concerning student status and other information of general interest to students. SGA also provides student assistance with grievances and the opportunity to become more closely involved with the university community through active participation in student government itself or through service on university, tri-institutional and Auraria committees.

University Honors and Leadership Program (UHL)

Director: Jennifer Reich, PhD

Program Coordinator: Elisabeth Hawksbee

Office: 1047 Ninth Street Park

Telephone: 303-315-7838

Fax: 303-315-7836

E-mail: UHL@ucdenver.edu

Website: <https://www.ucdenver.edu/honors> (<https://www.ucdenver.edu/honors/>)

University Honors and Leadership (UHL) is a program of excellence designed for students who have demonstrated superior achievement in academic performance and/or outstanding leadership qualities. UHL is founded on the premise that the integration of rigorous programs of academic excellence and leadership education provides the ideal environment in which to develop the gifts of the next generation of leaders in academia, business, policy-making, and service to communities local, national, and global.

The UHL program is unique in integrating academic honors and leadership education within a highly selective learning community of outstanding students and faculty. The UHL program allows students to

complement their major field of study with a traditional honors. Students move through the UHL program in cohorts that simultaneously promote community, teamwork, and individual initiative. All UHL courses are multidisciplinary, reflecting the view that the ability to effectively analyze the challenges faced in all sectors of society can be enhanced by the integration of appropriate information drawn from a broad base of perspectives and problem-solving skills. The UHL program complements this philosophy with an emphasis on the development of exceptional oral and written communication skills, projects that steep students in sophisticated research methods, and the opportunity to work in teams to solve practical problems in the community.

The Academic Program

For first-time freshmen, UHL is a multidisciplinary cohort program consisting of 27 semester hours of coursework to be completed over three or four years. The UHL courses substitute for most of the CU Denver core curriculum requirements and leads to a minor. Students have a shared first-year experience, taking a core of coursework. The second and third years of the UHL program offer electives designed for the minor in Multidisciplinary Research and Leadership. In the final year, students come together for a two-semester capstone research seminar. UHL students who successfully satisfy the course and credit-hour requirements and maintain a GPA of 3.50 or higher in their UHL courses will graduate with "University Honors."

For transfer students and upper division students, UHL is a multidisciplinary cohort program consisting of 15 semester hours of coursework to be completed over two years. The program leads to a minor in Honors and Leadership. Students have a shared first-year seminar, nine credits of UHL electives, and a two-semester senior research seminar.

Reserve Officers Training Corps (ROTC)

The Air Force, Navy/Marines, and Army offer college students the opportunity to receive a commission as an officer through the Reserve Officers Training Corps (ROTC) program. These military training programs occur in conjunction with a student's undergraduate coursework and lead to a commission upon graduation. All ROTC programs offer competitive scholarships, allow for elective academic credit depending on policies of the student's home school or college, and include a commitment to military active or reserve duty.

The University of Colorado Denver actively supports students desiring to participate in one of the ROTC programs and provides registration access to Army ROTC (sponsored by the Metropolitan State University of Denver) and to Navy/Marines or Air Force ROTC (sponsored by the University of Colorado Boulder).

Interested students should contact the specific ROTC program directly for military training, scholarship information, and registration details.

Air Force ROTC

AFROTC Detachment 105

University of CO Boulder

UCB 371

Boulder, CO 80309-0371

Phone: (303) 492-3128; (303) 492-8352

Navy/Marines ROTC

Naval ROTC

University of CO Boulder

UCB 374

Boulder, CO 80309-0374
Phone: (303) 492-2576

Army ROTC

Dept. of Military Science
633 Curtis Street
Modular Building MO-1
Denver, CO 80217
Phone: (303) 352-7419

Transfer students enrolled in Army, Air Force, or Navy/Marines ROTC programs should consult with their school or college regarding the application of ROTC course credit toward graduation requirements.

Math Pathways

Offering students the highest quality education is a central goal for CU Denver. The choice of the right type and level of Math is crucial for student success. CU Denver highly recommends that all students take Math in their first or second semester. Students who wait longer find it much harder with Math, you use it or lose it.

National statistics show that one of the primary reasons that students halt their degree is connected to completing their first college-level Math course with a grade lower than a C. Since we want CU Denver students to finish their degree, and to do so at the lowest cost in time and money, without having to re-take a Math course because of a low grade or withdrawal (D, F or W), we have tools to guide students with initial placement.

All undergraduate students must complete one Core Mathematics course in order to fulfill the university's graduation requirement. There are currently five different mathematics pathways which are available for students:

- the Quantitative Literacy Pathway,
- the Business Mathematics Pathway,
- the STEM Pathway,
- the Statistics Pathway and
- the Elementary/Middle School Teacher Mathematics Pathway

Students should consult with their advisor and major graduation requirements to select which math pathway is best for them.

Quantitative Literacy Pathway

MATH 1010 Mathematics for the Liberal Arts is the recommended entry-level math course for all degrees within the Arts and the Humanities, including but not limited to majors in Art History, English, Film & Television, History, Modern Languages, Music, Philosophy, and Visual Arts.

To support student success in this course, a co-requisite class, MATH 1011 Math for Liberal Arts Workshop is available for students to take alongside MATH 1010 Mathematics for the Liberal Arts. Students with a High School GPA less than 3.25 and an ACT score less than 19 (equivalent SAT less than 520) are required to register for this 1-credit hour workshop along with their MATH 1010 course.

Business Mathematics Pathway

MATH 1060 Finite Mathematics is the recommended entry-level math course for students in different business tracks.

STEM Pathway

MATH 1108 Stretch College Algebra-Part 1 and MATH 1109 Stretch College Algebra-Part 2; MATH 1110 College Algebra; MATH 1120 College Trigonometry; MATH 1130 Precalculus Mathematics or MATH 1401 Calculus I are the recommended entry-level math courses for all degrees within the Applied, Natural and Physical Sciences, including but not limited to majors in Architecture, Biology, Chemistry, Engineering, Mathematics and Physics. Many health careers also require these mathematics courses.

Since student success is one of our goals, students will most likely need to complete a math placement assessment from the "ALEKS Placement, Preparation and Learning" program prior to registering, to determine which level the student is best prepared to enter.

ALEKS PPL guides appropriate mathematics placement and registration, in addition to providing students an opportunity to review material and gain confidence in their math skills. Students may take the ALEKS PPL assessment up to five times, and the highest score is the one that will count as a prerequisite for registering for classes. Using ALEKS PPL, the learning modules that are provided in response to assessment results and advising resources, can lead students to success in the first semester of math and save valuable tuition dollars. Students in this pathway should use these tools to help them succeed.

- The assessment typically takes 60-90 minutes with approximately 30 questions.
- Students should complete ALEKS PPL assessment before orientation and/or registration so they are eligible to register for Math before they leave that day.
- It's important to be honest while taking the placement assessment.

Students must complete the assessment with the score from the chart below for the corresponding course. The only course that is open to all students in this pathway that does not require assessment is MATH 1108 Stretch College Algebra-Part 1 and MATH 1109 Stretch College Algebra-Part 2

Course #	Course Name	ALEKS Score Range	Prior Coursework Requisite (alternative to assessment)
MATH 1108 & MATH 1009	Stretch College Algebra	No ALEKS assessment is required	Students must complete both MATH 1108 and MATH 1109 to earn Core mathematics credit and to fulfill the prerequisite for MATH 1120
MATH 1110	College Algebra	46 or higher	NA
MATH 1120	College Trigonometry	61 or higher	MATH 1109 or MATH 1110 with a C- or higher
MATH 1130	Pre-Calculus	61 or higher	NA
MATH 1401	Calculus I	76 or higher	MATH 1109 or MATH 1110 and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher

If students already have math college credit from AP/IB/CLEP exam or a concurrent enrollment course, CU Denver will recognize that once we receive official test scores and/or transcripts. This previous coursework (AP/IB/CLEP/concurrent enrollment) may shift your eligibility to enroll in a higher level math course, but ALEKS will still help to give you the most

current reflection of your level of preparation and help inform and guide your math selection.

Statistics Pathway

MATH 2830 Introductory Statistics is the recommended entry-level math course for all degrees within the Social, Behavioral, Educational and Integrated Sciences, including but not limited to majors in Anthropology, Communication, Education, Ethnic Studies, Geography and Environmental Sciences, International Studies, Political Science, Psychology, Public Administration, Public Health and Sociology.

To support student success in this course, a co-requisite class, MATH 2831 Introductory Statistics Workshop is available for students to take alongside MATH 2830 Introductory Statistics. Students with a High School GPA less than 3.25 and an ACT score less than 19 (equivalent SAT less than 520) are required to register for this 1-credit hour workshop along with their MATH 2830 Introductory Statistics course.

Elementary/Middle School Teacher Mathematics Pathway

MATH 3041 Fundamental Mathematics: Algebra, Probability and Data Analysis, is the recommended entry-level math course for students in education tracks pursuing elementary or middle school licensure.

Questions? Contact MATH.Placement@ucdenver.edu or your academic advising unit.

Undergraduate Core Requirements
Philosophy of the Core Curriculum

The University of Colorado Denver subscribes to a liberal arts philosophy of education in order to develop a broad set of academic skills for the baccalaureate student and to establish a foundation for lifelong learning. Since 1990, the CU Denver Core curriculum of general education has been a campus-wide program for all undergraduate students, independent of the student's major.

The CU Denver faculty designed the Core curriculum to provide undergraduate students a high quality academic foundation while still allowing flexibility based on students' individual backgrounds and specific career goals. The Core curriculum develops multiple literacies, stimulates creative thinking, and utilizes technology. The Core engages students in developing sensitivity to diversity and developing their place in an urban environment, as well as in the rapidly changing global environment. The Core provides an understanding of ourselves, ours and other cultures, and our environment.

CU Denver Core Curriculum: Full Course Listing

Click the link below to view the CU Denver Core Curriculum full course listing in a separate page.

CU Denver Core Curriculum (p. 104)

Please note, some Core requirements may overlap with other major and graduation requirements and others may not. Students should work with an advisor to understand degree requirements and determine their optimal degree plan.

CU Denver Core Curriculum

The following represents the CU Denver Core Curriculum as approved by the faculty on the Core Curriculum Oversight Committee (CCOC). The Core Curriculum is a total of 34-40 semester hours.

Intellectual Competencies
9-10 Total Semester Hours

A minimum letter grade of C- (1.7) ins required for English Composition and Mathematics courses. Pass/Fail grading is not an option.

Core English Composition

Both courses are required.

Code	Title	Hours
ENGL 1020	Core Composition I	3
ENGL 2030	Core Composition II	3

Core Mathematics

Code	Title	Hours
Select one of the following:		3-4
MATH 1010	Mathematics for the Liberal Arts	
MATH 1060	Finite Mathematics	
MATH 1109	Stretch College Algebra-Part 2 ¹	
MATH 1110	College Algebra ¹	
MATH 1120	College Trigonometry ¹	
MATH 1130	Precalculus Mathematics ¹	
MATH 1401	Calculus I ¹	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
MATH 2830	Introductory Statistics	
MATH 3041	Fundamental Mathematics: Algebra, Probability and Data Analysis	

¹ Students may receive credit for only one of the following:

- MATH 1108 Stretch College Algebra-Part 1 or MATH 1070 College Algebra for Business or MATH 1110 College Algebra or MATH 1130 Precalculus Mathematics
- MATH 1109 Stretch College Algebra-Part 2 or MATH 1070 College Algebra for Business or MATH 1110 College Algebra or MATH 1130 Precalculus Mathematics
- MATH 1120 College Trigonometry or MATH 1130 Precalculus Mathematics
- MATH 1080 Calculus for Social Sciences and Business or MATH 1401 Calculus I

Knowledge Areas
19-24 Total Semester Hours

While not formally approved for general CU Denver Core credit, CCOC has authorized new freshmen to apply one (only one) First-Year Seminar course for credit in the Knowledge Area section of the Core. Please see the First-Year Seminar website for a complete listing of FYS courses approved by CCOC for Core credit; www.ucdenver.edu/fye (<http://www.ucdenver.edu/fye/>) # FYS Courses # FYS Core Curriculum Table.

- General Graduation Requirements (p. 109)
- Petitioning for Exceptions to Standing Academic Policy (p. 109)
- Selection of Catalog for Degree Requirements (p. 109)

Academic Honors

Dean's List

CU Denver uses fixed criteria across all schools/colleges for determining eligibility for the Dean's List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete nine graded hours in the semester. These courses can be both within and outside of the student's home school/college. Metropolitan State University of Denver pooled courses will not be included in the GPA

calculation nor will they apply toward the nine hours required for consideration. The GPA for inclusion in the Dean's List is 3.750.

In the summer semester, students must complete six graded hours. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean's List in summer is also 3.750.

Scholarships tied to Dean's Lists may have additional requirements.

The Registrar's Office calculates the semester GPAs that are the basis for determining the Dean's List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean's List will not be recalculated to include completed incompletes.

College Honors

School/College Specific Policy

College of Arts & Media (p. 166)
 Business School (p. 111)
 School of Education and Human Development (p. 686)
 College of Engineering, Design and Computing (p. 236)
 College of Liberal Arts and Sciences (p. 312)

Departmental Honors

School/College Specific Policy

College of Liberal Arts and Sciences (p. 312)

Applying for Graduation

Students planning to graduate must apply for graduation through the UCDAccess student portal between the first day of registration and census for the term they intend to graduate. Students must contact their academic advisor to determine what requirements remain for graduation, as well as complete any paperwork required by their school/college. Students will not be officially certified to graduate until a final audit of the student's record has been completed approximately six weeks after the end of the term. After students have been certified to graduate, they must reapply with the Office of Admissions in order to return to the Denver Campus.

To review the official policy, please click here (https://www.ucdenver.edu/docs/librariesprovider284/default-document-library/7017.pdf?sfvrsn=7fcebdb9_0).

School/College Specific Policy

College of Architecture and Planning (p. 154)

College of Arts & Media (p. 166)

Business School (p. 111)

School of Education and Human Development (p. 686)

College of Engineering, Design and Computing (p. 236)

Class Rank

Class rank will be calculated by undergraduate degree program within a school or college. It is possible for more than one student to have the same class rank. If more than one student has equivalent class ranking it will be reported as such. The option for a letter indicating the student's class rank will be provided to any graduating undergraduate, but there will be no designation on the University of Colorado transcript for Denver Campus students receiving bachelor's degrees. There will be one class rank per student per degree. Students can obtain class rank letters through the student portal. Late postings and grade changes

after degrees are posted will not recalculate rankings. Rankings will be a snapshot calculation conducted once per term for each graduating undergraduate student after degrees are posted.

Commencement Ceremony

In early March, informational brochures will be mailed to students eligible to participate in the May spring-semester commencement. In early October, information regarding the December commencement will be mailed to students who graduated in summer term or expect to graduate in fall term. Information will be provided about ordering special display diplomas, fittings for caps and gowns and obtaining diplomas and transcripts with the degree recorded. This information is also available at the Commencement website (<https://www.ucdenver.edu/commencement/>).

Four-Year Graduation Guarantee

The University of Colorado Denver has adopted a set of guidelines to define the conditions under which an undergraduate student will be guaranteed to graduate in four years. More information is available through the undergraduate advising offices for each college and the major program offices. The Denver Campus has five undergraduate colleges in which this guarantee applies: College of Arts & Media, Business School, College of Engineering, Design and Computing, College of Liberal Arts and Sciences and School of Public Affairs.

CU Denver guarantees that if a student begins studies in a fall semester and lack of scheduling of essential courses is found to have prevented a student from completing all course work necessary for a BA, BFA or BS degree from the university by the end of the student's eighth consecutive fall and spring semester, the college/school shall provide tuition plus any course fees for all courses required for completion of the degree requirements. This applies only when needed courses are not offered by the college/school and does not apply to scheduling conflicts for individual students. Students must satisfy all the requirements described below to be eligible for this guarantee.

This guarantee applies to all students who enroll beginning in a fall term as first-semester, full-time freshmen without admission deficiencies, who do not need remedial course work and who satisfy all the requirements described below. This guarantee does not include completion of all options within the major, a second major, a double degree, a minor or a certificate program. The four-year graduation guarantee does not apply to programs in which the degree has been discontinued or is in the process of being phased out. In these cases, every effort will be made to allow students to fulfill requirements by taking courses at other universities and colleges to facilitate timely completion of the degree.

Some study abroad programs may not provide a sufficient range of courses to allow students to meet the requirements, thus, students who participate in study abroad programs during the fall or spring semesters may not be eligible for this guarantee. A student may be able to participate in a study abroad program during the summer semester and still meet all the requirements of this guarantee. It is essential that a student work closely with an advisor to determine if the student can participate in a study abroad program and still meet all the requirements of this guarantee.

Requirements

Students must satisfy all of the following requirements to be eligible for this guarantee.

1. Students must begin studies in a fall semester and enroll in CU Denver course work as specified on the student plan of study for eight consecutive fall and spring semesters.
2. Students must complete all required course work by the end of the eighth semester.
3. No fewer than 60 semester hours of applicable course work must be completed successfully by the end of the second year (24 calendar months); 90 semester hours by the end of the third year (36 calendar months); and 120 semester hours by the end of the fourth year (48 calendar months). Students must successfully complete an average of 15 semester hours each semester.
4. Students must meet with their college advisor and their major advisor for academic advising during the first, third, fifth and seventh semesters of study.
5. The major must be declared no later than the end of the first semester of study and students must not change their major or any options within the major.
6. A required plan of study toward the major must be agreed upon and signed by the student and advisor at the end of the first semester. Thereafter students must make satisfactory progress toward completing the major, as defined by each major, and the general education requirements. Courses with certain grades may not meet the satisfactory progress requirement of this guarantee. A statement of what constitutes satisfactory progress and what grades are acceptable is available from the major or departmental office at the time the major is declared.
7. A minimum of 30 semester hours of college general education courses should be completed by the end of the second year, including core curriculum courses that also meet major requirements and foreign language proficiency.
8. All lower-division graduation requirements must be successfully completed by the 90-semester-hour mark.
9. Students must remain in good academic standing according to their school/college academic policies.
10. Grades of C-, C or C+, as defined by the college/school, must be earned in all course work required for the major, and students must have a cumulative GPA of 2.000 in all major course work attempted.
11. Students must register each semester within one week of the student's specified eligibility to register.
12. Students must take courses that are specified in the student plan of study approved by their advisor.
13. Elective courses must be avoided if they conflict with required major or general education courses. Elective courses must not be given a higher priority than required courses.
14. Students must meet all departmental, school or college and university policies regarding graduation requirements.
15. The college/school must be notified in writing of the student's intent to graduate no later than the beginning of the seventh semester of study. A graduation application must be filed no later than the deadline for the appropriate graduation date. The student must complete a graduation checkout/senior audit with their advisor.

The student is responsible for and must keep documentation proving that these requirements were satisfied (e.g., records of advising meetings attended, advising records and instructions, etc.).

General Graduation Requirements

To receive a bachelor's degree from the University of Colorado Denver, students must satisfy all of the requirements below, in addition to completing a Major (p. 759) and fulfilling all of their School or College requirements (see links below).

Please note that the requirements below are basic university requirements. Consult your School/College and Major to determine whether they have put additional requirements in place that further restrict these categories.

- A minimum of 120 credit hours is required to graduate from CU Denver with a bachelor's level degree
- A minimum 2.000 cumulative GPA is required for all University of Colorado coursework
- Satisfactory completion of the CU Denver Core Curriculum (an 11 course, 34-38 semester hour curriculum of general education, outlined here (p. 104))

Repeat Statement

Though students may take any course more than once, credit toward graduation is counted only once for a typical course, unless otherwise noted in the course description. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. See course descriptions for the max semester hours applicable from each course.

Residency Requirement

The Higher Learning Commission (HLC), which accredits this university, requires that at least 30 of the 120 credits earned for a baccalaureate degree be taken in residence at the University of Colorado Denver. Students are advised that individual schools/colleges may have higher residency requirements.

School/College Specific Graduation Requirements

Overview

Located in the heart of the Rocky Mountain business community, the Business School at the University of Colorado Denver prepares students with the knowledge and skills necessary to become effective, responsible business professionals. We're able to achieve a standard of excellence by bringing together nationally recognized faculty and highly motivated, mature students in an intellectually challenging academic environment. CU Denver's Business School is a research institution. Because our faculty are nationally recognized for scholarly research as well as for their teaching skills, our students have the opportunity to be on the leading edge of business management theory and practice. Our class schedules and curriculum offer flexibility to meet your needs whether you plan to attend full or part-time. Whether you're an experienced working professional seeking an advanced degree or preparing for a new career in the business world, you'll gain the knowledge and perspective necessary to succeed in today's challenging business environment.

Educational Goals

The Business School is committed to superb teaching, connecting theory to practice that focuses on:

- current and relevant knowledge and skills necessary for success in the highly competitive global business environment
- experience in cooperative and team-based work skills
- integrated professional and functional expertise
- sensitivity to cultural and ethnic diversity

Our undergraduate program, which serves both traditional and nontraditional students, leads to a baccalaureate degree in business with a substantial liberal arts component. The program is closely linked, through articulation agreements, to lower-division programs offered by Colorado's four-year and community colleges.

Key elements of our academic programs are the provision of top-quality career advising and placement services, as well as flexible schedules and programs to meet a wide range of student needs. We are committed to supporting our students' efforts to pursue rewarding careers.

Faculty

Our nationally recognized faculty members are vigorous and enthusiastic about teaching and research. Faculty members hold degrees from the nation's leading business schools, including Berkeley, Harvard, Stanford, University of Chicago, University of Pennsylvania, UCLA and Yale. Many of them also bring years of valuable experience in private industry. Their interdisciplinary expertise, academic achievements, scholarly research

and business experience provide students with a dynamic learning environment.

Scholarships and Financial Aid

Many programs for financial aid are administered by the Office of Financial Aid (p. 52). Call 303-315-1850 for detailed information.

Thanks to the generous support of the Colorado business community and others, the Business School has a significant number of scholarships to offer its students. Scholarships are awarded on the basis of merit and/or financial need. The amount of the award and the number of awards available vary.

Over 30 different scholarships are available to eligible Business School students, with multiple awards from most scholarships.

Further information about these scholarships, including eligibility criteria and application forms, may be obtained by visiting the Financial Aid & Scholarships website (<https://www.ucdenver.edu/student-finances/scholarships/>), by calling 303-315-1850, or by viewing scholarship information on the Business School website (<https://business.ucdenver.edu/>).

Institute for International Business

CU Denver's Institute for International Business (IIB) was created in 1988 by the Board of Regents of the University of Colorado to serve as a center for the advanced study and teaching of international business (IB). The US Department of Education designated the IIB as a Center for International Business Education and Research, a prestigious center of excellence award that it has competitively held since 1993. CU Denver is one of only 15 CIBERs in the United States and the only one in Colorado. Among others, the IIB/CIBER promotes interdisciplinary and multi-campus collaboration at the University of Colorado; hosts monthly International Executive Roundtable lectures focused on global competitiveness; and sponsors IB development programs, conferences and workshops for faculty and the business community in Colorado, the Rocky Mountain region and the United States. The IIB/CIBER works closely with CU Denver's Business School in advancing its international business programs and research, as well as other colleges, schools, and departments at CU to promote various internationalization initiatives.

Call 303-315-8884 or visit the IIB website at www.ucdenver.edu/institutes/international-business/ for more information.

Academic Programs

A carefully designed curriculum to prepare students for success in business administration is available for the student seeking an undergraduate degree. The school offers courses leading to the bachelor of science in business administration (BSBA).

Undergraduate Degree Programs

Associate Dean: Ronald Ramirez

Assistant Dean: Shane Hoon

The undergraduate curriculum leading to the bachelor of science (business administration) degree is intended to help the student achieve the following general objectives:

- an understanding of the activities that constitute a business enterprise and the principles underlying administration of those activities

- the ability to think logically and analytically about the kind of complex problems encountered by management
- facility in the arts of communication
- a comprehension of human relationships involved in an organization
- awareness of the social and ethical responsibilities of those in administrative positions
- skills in the art of learning that will help the student continue self-education after leaving the campus

Double Major Programs

Numerous career opportunities exist for persons trained in both a specialized field and management. For this reason, students may be interested in combined programs of study in two different majors leading to completion of degree requirements concurrently in two areas. If you have questions on our programs, email the undergraduate business advisors at undergrad.advising@ucdenver.edu or call 303-315-8110 to make an appointment with a business advisor.

Undergraduate Advising and Academic Planning

Upon admission to the school, students are encouraged to meet with an advisor who will guide you through the steps needed to have a successful career as a student in the Business School and help you complete the requirements for the BSBA (bachelor of science business administration) degree. If you seek advising, or have questions on course selection and other matters, you may email the advisors at: undergrad.advising@ucdenver.edu or call 303-315-8110 to make an appointment.

Undergraduate Majors

Business students must choose a major and complete the requirements for the major. The major provides specialization beyond the general background of the undergraduate core and the business core. Business students are strongly encouraged to declare a major by the time they have accumulated 60-75 semester hours. The courses in the major are typically completed in the junior and senior years.

Extend Your Education

Whether you are looking to advance in your current field or prepare for an entirely new career, the Business School offers opportunities to suit your goals.

A variety of classes and programs are available to community members and alumni. Classes are taught by expert faculty or influential members of the Denver business community, imparting knowledge that is readily applicable in the field.

Entrepreneurship

The Jake Jabs Center for Entrepreneurship offers programs for those looking to start a new venture or enhance their entrepreneurial skills.

Business School Admissions Information

Applicants whose cumulative GPA and SAT/ACT test scores meet or exceed the middle 50 percent range are considered strong candidates for admission to the Business School.

To be considered for transfer admissions, applicants must have at least a 2.0 cumulative GPA and have completed 24 or more college credits. For

transfer students who have less than 24 college credits, high school GPA and or ACT/SAT test scores are required.

(For Graduate Programs and information please refer to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/business-school/#departmentstext>) **catalog.**)

- Undergraduate Certificate in Risk Management and Insurance Studies (p. 152)

Business School Graduation Requirements

For additional information regarding Graduation policies and procedures, please visit the Graduation (p. 107) section of the catalog.

In addition to the campus core, the following requirements must be met:

Required Courses

The following courses are required prerequisites for courses in the business core and may count toward the campus core as well. Please see an advisor for more details:

Code	Title	Hours
ECON 2012	Principles of Economics: Macroeconomics	3
ECON 2022	Principles of Economics: Microeconomics	3
MATH 1060	Finite Mathematics ¹	3
Total Hours		9

The following courses are graduation requirements for all business students:

Code	Title	Hours
COMM 2050	Business and Professional Speaking	3
ENGL 3170	Business Writing	3
Business General Credit - Experiential Learning ²		3
Total Hours		9

¹ Other higher level math classes may apply in place of this requirement. Check with an advisor for more information.

² Business students must earn 3 semester hours of credit in an approved Experiential Learning course: study abroad, internship, or 1 of 3 project-based courses.

Business Core

Specific grades are required for the business core courses in order to meet prerequisites and qualify for graduation. Prerequisites are listed within the course description. Students should meet with their advisor for recommendations on which courses to take first.

The following courses require a C- or higher:

Code	Title	Hours
BUSN 1200	Career and Professional Development	3
ISMG 2050	Introduction to Business Problem Solving	3
BANA 2010	Business Statistics	3
ACCT 2200	Financial Accounting and Financial Statement Analysis	3
ACCT 2220	Managerial Accounting and Professional Issues	3
BLAW 3050	Business Law and Ethics	3
Total Hours		18

The following courses require a C or higher:

Code	Title	Hours
BANA 3000	Operations Management	3
FNCE 3000	Principles of Finance	3
ISMG 3000	Technology In Business ¹	3
MGMT 3000	Managing Individuals and Teams	3
MKTG 3000	Principles of Marketing	3
MGMT 4500	Business Policy and Strategic Management ²	3
Total Hours		18

¹ Note: Students in the Accounting or Financial Management majors or Accounting or Financial Management with specializations in Information Systems are required to complete ACCT 4054 Accounting Information Systems instead of ISMG 3000 Technology In Business.

² This is a capstone course and must be completed in your last semester and only after the 33 credit hours of business core listed above are completed.

International Studies

Choose **one** of the following courses: (a specific course may be required for some majors)

Code	Title	Hours
Select one of the following:		3
ACCT 4370	International Accounting	
FNCE 4370	International Financial Management ¹	
MGMT 4400	Environments of International Business	
MKTG 4200	International Marketing	
RISK 4509	Global Risk Management	
Total Hours		3

¹ Students in the Finance Major, Financial Management Major, and Financial Management with Information Systems Specialization Major are required to complete this course specifically.

Other courses in international business may be offered periodically that satisfy the international studies requirement.

Major

Business students must complete the prescribed courses in a major at CU Denver/ complete all requirements associated with your individual major. Transfer courses are not permitted to apply in the major.

The majors include:

- Accounting Major - BS in Business Administration¹
- Entrepreneurship Major - BS in Business Administration
- Finance Major - BS in Business Administration
- Financial Management Major - BS in Business Administration¹
- Human Resources Management Major - BS in Business Administration
- Information Systems Major (specializations available in Accounting, Financial Management, Human Resources Management, Management, and Marketing) - BS in Business Administration
- International Business Major - BS in Business Administration
- Management Major - BS in Business Administration¹
- Marketing Major - BS in Business Administration¹
- Risk Management and Insurance Major - BS in Business Administration
- Sports Business Major - BS in Business Administration

¹ Option to specialize in Information Systems

The specific requirements of these majors are described in subsequent sections.

Experiential Learning

Business students must earn 3 semester hours of credit in an approved Experiential Learning course. This can be satisfied by completing: an Internship; MGMT 4900 Project Management and Practice/ISMG 4900 Project Management and Practice; MGMT 4120 Collaborative Experiential Learning; MGMT 4825 Sustainable Change Leadership: Turning Business Into a Force for Good; or completing an approved Study Abroad business course. Students completing the RISK program must take RISK 3949 Experiential Learning in RMI Industry.

Experiential learning is a graduation requirement for students beginning their bachelor degree program at any institution in summer 2007 or later. Students beginning their bachelor degree program prior to summer 2007 are not required to meet the experiential learning requirement. Students may petition to waive the experiential learning requirement based on documented full time work experience of one year or more related to their chosen major.

General Electives

General electives are credits needed in addition to your specific degree requirements in order for you to reach the minimum 120 credits needed for graduation. The amount of electives needed varies from student to student, so always check with your advisor to confirm how many you need.

You are welcome to take courses from any area, business or non-business, and any level, lower or upper division. Generally, to be acceptable, electives must be college level, not repetitious of other work applied toward the degree, and academic as opposed to vocational or technical.

If you have a lot of general electives to complete, you may want to consider adding a second business major or a non-business minor. Talk to your advisor about how a minor or second major could fit into your degree plan.

Independent Study

Junior or senior business students desiring to work beyond regular course coverage may take variable credit courses (1-3 semester hours) as electives under the direction of an instructor who approves the project, but the student must have the appropriate approval before registering. A maximum of 6 semester hours may be applied toward degree requirements. An independent study request form must be signed by the student, the instructor, the program director and the Assistant Dean.

Internship

A maximum of 6 semester hours of approved independent study, internships, experimental studies, choir, band and/or music lessons, art lessons may be applied.

Pass/Fail

Students may select the pass/fail grading option for some courses. In addition to Downtown Campus policies covering the pass/fail grading option (see the Academic Policy (p. 93) section of this catalog), Business School students must adhere to the following pass/fail grading policies:

- Courses used to complete Business Core, a student's major, business minor, specializations, and/or certificate requirements may not be taken on a pass/fail basis.
- Courses required to demonstrate proficiency may not be taken on a pass/fail basis (includes the first two semesters of foreign language and regional expertise coursework.)
- Courses used to satisfy Business School graduation requirements may not be taken on a pass/fail basis. (COMM 2050 Business and Professional Speaking, ECON 2012 Principles of Economics: Macroeconomics, ECON 2022 Principles of Economics: Microeconomics, ENGL 3170 Business Writing, and MGMT 4900 Project Management and Practice/ISMG 4900 Project Management and Practice, MGMT 4120 Collaborative Experiential Learning, and MGMT 4825 Sustainable Change Leadership: Turning Business Into a Force for Good. Exception: an internship must be taken on a pass/fail basis.)

GPA Requirement

To graduate, a student must maintain a minimum cumulative GPA of 2.0 for all university courses as well as a minimum college GPA of 2.0 for all business courses taken at CU Denver. All graded attempts are calculated in the cumulative and Business GPAs.

Upper Division

All students receiving a BS degree in business must take at least 45 upper-division semester hours.

Residency Requirement

At least 30 semester hours of business courses (including the business major courses) must be completed as a CU Denver student. The 30 hours for residence must include MGMT 4500 Business Policy and Strategic Management.

Business School Foreign Language Hours Proficiency

The Business School's foreign language requirement or regional expertise requires that students demonstrate a minimum level of proficiency in one foreign language or culture.

This requirement is met through the completion of one of the following:

- a second-year (Level II) high school course with a minimum grade of C-
- a second-semester-level college course (1020) with a minimum grade of C-
- satisfactory proficiency testing, including taking and passing a proficiency exam
- completion of three regional expertise courses

****High school courses will not apply toward degree credit; however, they will serve to satisfy the foreign language requirement. Students may need additional electives to make up this credit - check with an advisor.***

Students choosing the regional expertise requirement with one year of high school foreign language or one semester of college-level work can satisfy the requirement by completing a minimum of 6 semester hours of course work from an approved list that relates to the politics, arts, history, culture or economy of any region of the world other than North America.

Courses used in the expertise area must meet the Business School guidelines and can be chosen from the list specified by the Business School. Students should contact their business advisor if they have questions. The advisors can be reached by emailing undergrad.advising@ucdenver.edu or calling 303-315-8110 to schedule an appointment.

Applying for Graduation

A senior audit is completed on all students who have completed 90 or more semester hours. Students must file an undergraduate candidacy form prior to registering for their final semester. Failure to do so will delay graduation.

Students must complete the online intent to graduate form on their student portal when they register for their last semester.

Academic Honors

Students who demonstrate superior scholarship are given special recognition at graduation. Students must achieve a cumulative GPA of 3.500-3.649 in all business courses taken at the University of Colorado to be considered for cum laude, achieve a cumulative GPA 3.650-3.749 in all business courses taken at the University of Colorado to be considered for magna cum laude, and achieve a cumulative GPA of 3.750 or higher in all business courses taken at the University of Colorado to be considered for summa cum laude.

Petitioning for Exceptions to Standing Academic Policy

Students should contact a staff advisor in the Business School's programs office (undergraduates call 303-315-8110) for appeal and petition procedures pertaining to rules and regulations of the school.

Business School Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 93) section of the catalog.

Explanation of Course Numbers

The course numbering system used at CU Denver identifies the class standing required for enrollment. Students are expected to take 1000-level courses in their freshman year, 2000-level courses in their sophomore year, 3000-level courses in their junior year and 4000-level courses in their senior year. Courses at the 5000 and 6000 level are restricted to master's-level business students, and courses at the 7000 level are restricted to PhD students.

Independent Study

Junior or senior business students desiring to work beyond regular course coverage may take variable credit courses (1-3 semester hours) as non-business electives under the direction of an instructor who approves the project, but the student must have the appropriate approval before registering. A maximum of 6 semester hours may be applied toward degree requirements. A Special Processing form (<https://www.ucdenver.edu/registrar/student-resources/forms/>) must be signed by the student, the instructor, the program director and the director of advising and admissions.

Internships

Internships are included in the experiential learning requirement of the undergraduate business program. To be eligible to enroll in an internship for experiential learning credit, the undergraduate student must meet the following grade and course work requirements:

- the student must be in good standing with a cumulative GPA of at least 2.750, and a GPA in the area of emphasis of at least 2.000
- the student must have completed (a) all required lower-division course work and (b) at least 21 semester hours of the business core courses

Graduate students must be admitted to the Business School, be in good standing with at least a 3.000 GPA and have completed 15 semester hours of graduate work on the Denver Campus.

Interested students should contact the Experiential Learning Center (303-556-6656) for further details about the program.

Adding a Course

Students may add courses to their original schedule through the census date (first 12 days of the fall or spring semester, first eight days of summer session). Instructor approval is required to add a course after the first week of classes. In some cases, instructors do not allow students to add their course if the student fails to attend the first week of classes. In addition, instructors may ask that a student be administratively dropped from the course for failure to attend the first week of classes.

Course Credit Limitations

The school will accept:

- a maximum of 6 semester hours of the theory of physical education, theory of recreation and/or theory of dance
- a maximum of 6 semester hours of approved independent study, internships, experimental studies, choir, band and/or music lessons, art lessons
- a maximum of 12 semester hours of advanced ROTC, providing the student is enrolled in the program and completes the total program.

The school will not accept:

- activity physical education classes, recreation, workshops, orientations, dance, teaching methods, practicums and courses reviewing basic skills in computers, English composition, mathematics and chemistry.

Administrative Drop Policy

The school reserves the right to administratively drop students who are incorrectly enrolled in business courses. Instructors also may recommend that students who fail to meet expected course attendance or course prerequisites be dropped from the course. Generally, students who are administratively dropped will not receive tuition refunds.

In some cases, failure to attend the first week of classes may result in an administrative drop from that course.

Note: Students who never attend class are not automatically dropped from the course. The student is responsible for dropping courses and failure to do so will result in a tuition charge for the class and an F grade.

Grade Appeals

Students must follow the process below.

1. Discuss concerns with the faculty member.
2. If the issue is not resolved after a conversation with the faculty member, discuss concerns with the Department Chair.
3. If the issue is not resolved after a conversation with the Department Chair, discuss concerns with the Associate Dean. Neither the Dean, nor any director, will offer an opinion with respect to the qualitative assessment of a student's work, but, may consider whether the procedures used to determine a grade were consistent with the syllabus and written amendments to the syllabus. No passing grade will be changed after one year. Requests for grade adjustments/appeals must be made in the semester immediately following the semester in which the disputed grade was earned.

Pass/Fail

Only internships, independent studies and nonbusiness elective courses may be taken pass/fail. Required business and nonbusiness courses (including the campus core) may not be taken pass/fail. A maximum of 6 hours pass/fail credit may be applied toward the business degree. Courses taken in excess of the maximum will not be applied toward degree credit. Pass/fail determination must be made within the posted deadlines (at census dates) and may not be rescinded (unless approved by the undergraduate committee).

No Credit

Pass-Fail or No Credit (Audit). With the exception of internships, experiential learning and travel study courses, the Business School does not permit the election of pass-fail grading for any business course required for the student's degree. Students are not allowed to audit business courses.

Incomplete Grades

The only incomplete grade given in the school is I. An I grade is assigned only when documented circumstances clearly beyond the student's control prevent completion of course requirements (exams, papers, etc.). Students must sign a contract outlining how they will make up the missing work with the instructor giving the I. Students need not register for the course a second time. All I grades must be made up within the contract period (which may not exceed one year), or the I will automatically be changed to the grade of F. The student is responsible for contacting the instructor to schedule the completion of the coursework.

Holds

Enrollment in business classes is limited to students who have been admitted to business degree programs and to other students as described in the separate undergraduate and graduate policy sections. The course registration criteria are designed to meet a number of objectives:

- to serve students in other colleges who have business-related education objectives or requirements
- to serve non-degree students who have specific career or education goals
- to assure access to business courses for students admitted into a business degree program

Refer to the student portal each term for course availability and prerequisites.

Attendance Policy

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor and must conform with university and instructor policies on attendance.

Course Repeat Policy

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C grade in required business core courses. Core business courses must be repeated if the student earns less than a C grade.

Credit Age and Applicability Policy

For students newly admitted to the Business School and former students readmitted to the school after an absence of three semesters, applicable credits (business core, major core, graduation requirements, and prerequisite requirements) up to eight years old will be counted toward business degree requirements. Courses more than eight years old will not count automatically, but can be evaluated individually for their current relevance to the degree program through a petition process with the dean's office. Approval for courses older than 8 years is not guaranteed so students may be required to update their knowledge by taking additional courses when past courses are outdated. Refer to the campus policy on age of applicable credits for CU Denver Core requirements and general electives.

***For questions, please contact your advisor.

Academic Integrity And Discipline Policies

CU Denver Campus Policy 7050, Academic Integrity (https://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/7XXX%20Student%20Affairs/7050%20-%20Academic%20Integrity.pdf), defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as

1. a student's use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or
2. actions that interfere with the ability of the instructor to fairly judge the work of the student or other students.

Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one's responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for more detailed definition)

Students are expected to know, understand and comply with the ethical standards of the university. Academic dishonesty is defined as a student's use of unauthorized assistance with intent to deceive an instructor or other such people who may be assigned to evaluate the student's work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

1. Plagiarism

Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.

2. Cheating

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.

3. Fabrication and Falsification

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.

4. Multiple Submissions

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

5. Misuse of Academic Materials

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, falsification of university documents.

6. Complicity in Academic Dishonesty

Complicity involves knowingly allowing or contributing to another's academic misconduct.

School/College Specific Policy

BUSINESS SCHOOL

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery, falsification of official records and similar acts or any attempt to engage in such acts are grounds for suspension or expulsion from the university. In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student's own. It is recommended that students consult with the instructors as to the proper preparation of reports, papers, etc., to avoid this and similar offenses. Also, actions that disrupt the administrative process, such as misrepresentation of credentials or academic status, other forms of deception or verbal abuse of university staff are grounds

for suspension or probation. All discovered acts of dishonesty must be referred to the Business School's Internal Affairs Committee.

Business Administration

Programs

- Accounting, BS in Business Administration with Specialization in Information Systems (p. 138)
- Accounting, BS in Business Administration (p. 139)
- Entrepreneurship, BS in Business Administration (p. 140)

Business (BUSN)

BUSN 1110 - Intro to Investment Services Careers (1 Credit)

Open to all majors! Provides a comprehensive overview of careers in the Investment Services industry. Emphasis will be on interactions with industry professionals to provide hands-on knowledge and opportunities for in-depth discussion. Students are required to participate in a site visit to an investment services company during the course. Max hours: 1 Credit.

Grading Basis: Pass/Fail Only

BUSN 1200 - Career and Professional Development (3 Credits)

This first year course develops a student's professional skills, providing knowledge on key factors for early and long-term career success. Through applied learning and career-oriented experiences, the course covers: career and major exploration, student resources, resume writing, interview skills, business communications, professional etiquette, emotional intelligence, time management, ethical behavior, and workplace expectations. Students will have opportunities to develop their own professional network with business leaders as new members of the Business School. Restriction: Restricted to freshman level Business School majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to freshman and sophomore level Business School majors.

BUSN 4950 - Special Topics (1 Credit)

Research methods and results, special topics and professional development in business. Prerequisites vary according to topic and instructor requirements.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 3.

Accounting (ACCT)

ACCT 2200 - Financial Accounting and Financial Statement Analysis (3 Credits)

The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher.

Restriction: Restricted to undergraduate students at a sophomore standing or higher.

ACCT 2220 - Managerial Accounting and Professional Issues (3 Credits)

Introduces managerial accounting. Shows managers how to use accounting information to make decisions. Principal focus on cost behavior analysis, budgeting and product costing. Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher and ACCT 2200 with a C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher and ACCT 2200 with a C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

ACCT 2550 - Introductory Accounting for Entrepreneurs and the Arts (3 Credits)

An integration of financial and managerial accounting processes as they relate to Entrepreneurs, Arts & Media managers and similar applications. This course will cover the analysis and interpretation of financial statements, asset and liability valuation and the determination of net income. Incorporates the use of accounting information to make decisions focusing on cost behavior analysis, budgeting and product costing in entrepreneurial and arts related businesses. Prereq: MATH 1070 or 1110. Max hours: 3 Credits.

Grading Basis: Letter Grade

ACCT 3220 - Intermediate Financial Accounting I (3 Credits)

A foundation course in financial accounting, this course provides an intensive analysis of generally accepted accounting principles, accounting theory and the construction and interrelation of financial statements for public corporations. Encourages critical thought and application of financial accounting standards to business transactions. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ACCT 3230 - Intermediate Financial Accounting II (3 Credits)

Continuing the intensive coverage of financial accounting from ACCT 3220/ACCT 6031, this course covers concepts of financial accounting theory and generally accepted accounting principles not covered in 3220/6031. This typically includes detailed coverage of liabilities and equity, especially the topics of leases, deferred taxes, pensions and stock-options. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 3220, completed with a grade of a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6032. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher Typically Offered: Fall, Spring.

ACCT 3320 - Intermediate Cost Accounting (3 Credits)

Cost accounting links financial and managerial accounting and emphasizes communication between accountants and managers. Topics include managerial uses of cost data for decision making, analysis of activities and cost behavior, the role of accounting in planning and control, and computer-assisted decision modelling. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6070. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring, Summer.

ACCT 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 9.

ACCT 4030 - Financial Accounting (3 Credits)

Analysis of financial accounting concepts, the development of accounting thought and principles and critical review of generally accepted accounting principles. (Not recommended for candidates planning to sit for the CPA examination.) Note: Students who have taken ACCT 3220 or ACCT 3230 (or equivalent) may not take this course.

Prereq: ACCT 2200 and ACCT 2220 or equivalent. Must have a 'C' or better in courses. Strictly enforced. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to undergraduate majors within the Business School.

ACCT 4054 - Accounting Information Systems (3 Credits)

This course focuses on the analysis, design, implementation and control of accounting information systems. Emphasis is placed on primary business processes including documentation, modeling, retrieving information to support managerial decisions and controlling risks.

Topics include transaction cycles, relational database modeling, data analytics and information systems risks and controls. Must earn a grade of C or better to qualify for graduation at the UG level and to receive credit for the CPA license. Prereq: ACCT 3220 with a grade of C or higher and ISMG 2050 with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6054. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a grade of C or higher and ISMG 2050 with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ACCT 4070 - Management Accounting (3 Credits)

Designed to provide students with a foundation in management accounting models and information, with emphasis on management decision making uses of accounting information. (Not recommended for candidates planning to sit for the CPA examination.) Prereq: ACCT 2200 and 2220 or equivalent with a grade of a 'C' or better. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Note: Students who have taken ACCT 3320 or its equivalent may not take this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Spring.

ACCT 4240 - Advanced Financial Accounting (3 Credits)

Advanced financial accounting concepts and practices with an emphasis on accounting for equity investments, business combinations, and foreign currency. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C or higher, or department consent. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6024. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

ACCT 4280 - Accounting Ethics (3 Credits)

This course examines the ethical responsibilities of accounting professionals from a personal and professional perspective, including examples of ethical dilemmas accounting professionals confront. The course utilizes various authoritative codes of conduct, professional standards and applied ethical theory as ethical guidance for auditors, accountants, tax professionals, and accounting management. A variety of case studies are employed to give students practice in developing a decision making approach in dealing with difficult ethical scenarios. Prereq ACCT 4620. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq ACCT 4620 Restriction: Restricted to undergraduate Business majors with junior standing or higher.

ACCT 4282 - Capitalism, Accounting and Ethical Choices (3 Credits)

Examines the development of the U.S. economy from 1850 to today with emphasis on the ethics of accounting, capitalism, and government controls. Prereq: ACCT 3220 with a C or higher or permission. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

ACCT 4330 - Managerial Accounting Problems and Cases (3 Credits)

Critical analysis of advanced topics in managerial accounting. Considerable use of cases and current readings. Prereq: Completion of ACCT 3320 with a grade of 'C'. Strictly enforced. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ACCT 4370 - International Accounting (3 Credits)

Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 6370 and INTB 6370. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Spring.

ACCT 4410 - Fundamentals of Federal Income Tax (3 Credits)

Provisions and procedures of federal income tax laws and requirements affecting individuals and business organizations, including problems of tax planning and compliance. Note: Students cannot receive credit for both ACCT 4410 and ACCT 6140. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3220 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6140. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring.

ACCT 4420 - Taxation of Business Entities (3 Credits)

A federal tax course stressing tax planning issues affecting corporations (both C corporations and S corporations) and partnerships. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4420 and ACCT 6150. Cross listed with ACCT 6150. Prereq: ACCT 2220 with a C- or higher. Prereq: ACCT 4410 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 4410 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher

ACCT 4442 - Accounting: Professional Research and Communications (3 Credits)

This course provides students with a structured approach to researching and communicating practice-oriented financial accounting, auditing, and tax-related issues. After completing this course, students should be able to effectively: (1) Communicate (both oral and written) solutions to practice-oriented financial accounting, auditing, and tax-related issues. (2) Navigate through U.S. and international accounting, auditing, and tax authorities. (3) Conduct systematic research for all types of accounting-related problems then reach and communicate efficient conclusions using a variety of techniques. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Prereq: ACCT 4620 and ACCT 4410 both with a grade of C or higher. Cross-listed with ACCT 6442. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher Prereq: ACCT 4620 and ACCT 4410 both with a grade of C or higher

ACCT 4490 - Experiential Learning (3 Credits)

Designed to provide practical knowledge on developing a professional practice in accounting or financial management. Topics: Marketing, operating a professional practice. Lectures, guest speakers student projects. Prereq: ACCT 3220 completed with a 'C' or better, or permission of instructor. Cross-listed with ACCT 6490. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Pass/Fail Only

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ACCT 4520 - Oil and Gas Accounting (3 Credits)

The Oil and Gas Accounting course is designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: ACCT 3220 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6520. Max Hours: 3 credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ACCT 4620 - Auditing Theory (3 Credits)

Auditing Theory: Focus on the professional responsibilities of CPAs, generally accepted auditing standards, and PCAOB auditing standards, with emphasis on the theory underlying the development of standards, objectives and procedures. Students cannot receive credit for both ACCT 4620 & ACCT 6020. Note: A grade of C or higher must be earned to receive credit for the CPA license. A grade of B or higher must be earned if planning to take 6025 in the future. Prereq: ACCT 3220 with a grade of C or higher. Coreq: ACCT 4054. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a grade of C or higher. Coreq: ACCT 4054.

Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring.

ACCT 4625 - Auditing Practice (3 Credits)

Focus on the application of generally accepted auditing standards and PCAOB auditing standards to practice. Emphasis on procedures used by CPAs to gather and document audit evidence. Prereq: ACCT 4620 with a grade of C (2.0) or higher. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4625 and ACCT 6025. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 4620 with a grade of C (2.0) or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

Typically Offered: Fall, Spring.

ACCT 4780 - Accounting and Information Systems Processes and Controls (3 Credits)

The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT4054 with a grade of 'C' or better. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

ACCT 4800 - Accounting for Government and Nonprofit Organizations (3 Credits)

Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3220 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6080. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ACCT 4840 - Independent Study (1-8 Credits)

Restricted to undergraduate Business majors with junior standing or higher. Max hours: 8 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ACCT 4900 - Professional Certification in Accounting (3 Credits)

This course will prepare students for the Uniform Certified Public Accountant Examination, including the Auditing and Attestation (AUD), Business Environment and Concepts (BEC), Financial Accounting and Reporting (FAR), and Regulation (REG) sections. Topical coverage will include a balance of most-tested topics, difficult topics, and exposure to topics not addressed in required accounting degree courses. Note: there will be a materials fee of \$1,100 for this course. All materials will continue to be available until successful passage of the CPA Exam. Note: Undergraduate Accounting students typically perform better in this class when taking it during the final semester prior to graduation. Restriction: Restricted to Undergraduate and MS Accounting students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Undergraduate and MS Accounting students.

ACCT 4915 - Accounting for the Public Interest (3 Credits)

Applies accounting knowledge and concepts in a not-for-profit organization. Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned. Prereq: Permission of instructor. Cross-listed with ACCT 6015. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Pass/Fail Only

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Fall, Spring, Summer.

ACCT 4950 - Special Topics (3 Credits)

Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings. Prereq: Varies according to topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to undergraduate majors within the Business School.

Business Analytics (BANA)

BANA 2010 - Business Statistics (3 Credits)

Basic principles of probability and statistics with applications in business. Includes descriptive statistics, probability and probability distributions, data collection, sampling distributions, statistical inference, simple regression and the use of a computer to perform statistical analysis. Students are required to present their analyses in written and/or oral form and defend their conclusions. This is a business core course. Therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher.

BANA 3000 - Operations Management (3 Credits)

Introduces the concepts and methods commonly used in manufacturing and service operations. Topics include aggregate planning, inventory control, scheduling, quality control, and linear programming. This is a business core course. Therefore a grade of a 'C' or better must be earned to satisfy Business graduation requirements. Prereq: BANA 2010 and ACCT 2200 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BANA 2010 and ACCT 2200 both with a grade of 'C-' or higher.

Restriction: Restricted to undergraduate students at a junior standing or higher.

Typically Offered: Fall, Spring, Summer.

BANA 4840 - Independent Study (3 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

BANA 4950 - Special Topics in Business Analytics (3 Credits)
 Course offered on an irregular basis for the purpose of presenting new subject matter in Business Analytics. Prereq: Will vary depending upon the particular topic and instructor. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Commodities (CMDT)

CMDT 1000 - Introduction to Commodities (1 Credit)

Introduction to Commodities will expose students to the business side of commodity markets – energy, minerals and agriculture. Students will learn about potential career options in commodities including risk management, supply chain, trading, and investment analysis. Students will have the opportunity to access various state of the art learning technologies that the J.P. Morgan Center for Commodities offer, such as: Bloomberg, Morningstar, and CQG through live demonstrations. This class will have the opportunity to meet and interact with guest speakers and industry executives as well as attend field trips to various commodity sites. Examples may include visiting Newmont Mining's gold mine in Cripple Creek and visiting Excel Energy and/or Ardent Mills' trading floors in downtown Denver to further learn the business skills required for these types of positions. Max hours: 1 Credit.

Grading Basis: Pass/Fail Only

CMDT 4490 - Commodity and Equity Trading (3 Credits)

This is a co-listed class with the J.P. Morgan Center for Commodities and the Finance Department. This course focuses on how securities and futures contracts are designed and traded including trading exchange operations, regulation, trading mechanisms and processes. Students will learn the theory and practice of securities and futures contract trading with a focus on hands-on trading experience using industry software (CQG and Bloomberg) as well use of data sources (Morningstar). In this course, we will review the origins of liquidity, volatility, price efficiency, and trading profits. Next we will cover a host of topics concerning equity and commodity trade execution strategies, such as why and how investors trade, what and when investors profit from investing and speculating, the key principles of high-frequency trading and investor's overconfidence, why market institutions are organized as they are, and the role of public policy in the markets. Cross-listed with CMDT 6490, FNCE 4490 and FNCE 6490. Max hours: 3 Credits.

Grading Basis: Letter Grade

CMDT 4582 - Commodity Supply Chain Management (3 Credits)

This course introduces the design, analysis, management, and control of supply chains as applied to commodities. The course covers integration of processes and systems, relationship management of upstream and downstream supply chain players, and commodity-specific supply chain strategies. Cross-listed with CMDT 6582. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

CMDT 4682 - Commodity Valuation and Investment (3 Credits)

This course is a practical introduction to commodity markets. Students will learn how commodities are managed in the global markets from a hedgers, speculators and arbitrageurs point of view. Understanding the relationships between commodities and the global economy will be investigated. In addition, commodities will be looked at as an asset class and cross-asset relationships will be studied. Students will be introduced to futures and options markets analysis deploying strategies professional traders use in diverse market conditions. Students will work with the various trading software throughout the course and gain proficiency in real-world trading. Cross-listed with CMDT 6682. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

CMDT 4782 - Commodity Data Analysis (3 Credits)

This course is an applied introduction to commodity data analysis. Students will learn how to analyze commodity prices using quantitative techniques. Relationships between commodities and the global economy will be investigated. In addition, commodities will be looked at as an asset class and cross-asset relationships will be studied. Students will be introduced to forecasting techniques and be able to develop and evaluate various forecasting models. Students will work with the open source R software environment throughout the course and gain proficiency. Cross-listed with CMDT 6782. Max hours: 3 Credits.

Grading Basis: Letter Grade

CMDT 4802 - Foundations of Commodities (3 Credits)

This course introduces students to the physical aspects of commodities and connects them to the financial markets in which commodities are traded. Fundamental concepts and terminology necessary for understanding commodity production, transportation, economics, financial analysis and marketing are described. Supply chains for several specific commodities are reviewed in detail, as examples of the production and market structure knowledge needed to be successful professional participants in commodity trading capacities. The course also serves a foundation for more focused education in the specific commodity sectors, as well as the applied use of marketing and financial trading concepts learned in other courses. Cross-listed with CMDT 6802 and FNCE 4802/6802. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

Entrepreneurship (ENTP)

ENTP 3200 - Essentials in Entrepreneurship (3 Credits)

This introductory course informs students of concepts, skills and practical information relevant to startup companies. The materials are designed to help students anticipate HR, financial, and marketing problems through proper planning. The primary objective of the course is to teach students the real-world aspects of entrepreneurship in order to improve the odds of success. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3201 - Lean Startup Fundamentals (3 Credits)

This course covers everything an entrepreneur needs to know about finance when running a startup or small business. Topics include: financial and legal aspects, financial reporting and cash flow analysis, budgeting, working capital management, asset decisions, obtaining capital, business valuation, franchising, lease versus buy decisions and more. This course counts as a prerequisite to ENTP 3299. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3210 - Visionary Leadership for New Ventures (3 Credits)

This course provides students with an overview of key leadership principles for creating strategy and managing teams in a startup environment. It introduces leadership concepts critical to gaining true organizational commitment and focuses on case studies relevant to common business issues. By exploring what entrepreneurial leaders actually do and how visionary leadership is required to develop an organization, students will learn how to execute these concepts through measurable goals and objectives. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3230 - Small Business Accounting and Finance (3 Credits)

Includes financial and legal aspects, financial reporting and cash flow analysis, financial planning, budgeting, working capital management, asset decisions, obtaining capital, business valuation, franchising, lease versus buy decisions, and financial aspects of international trade and different methods of obtaining capital. This course counts as a pre-req to ENTP 3780 and ENTP 3299. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3240 - Developing Dynamic Concepts (3 Credits)

This course is designed to prepare entrepreneurial-minded students to critically and objectively evaluate the feasibility of their ideas. Entrepreneurs are motivated by plethora of "the next big idea" and are often fatally optimistic about their ideas. The course work will demonstrate how to objectively test and validate the feasibility of an entrepreneurial idea through data-driven analytical and strategic planning. Additionally, this course will provide pragmatic applications of the course content by incorporating real-life case studies presented by practicing entrepreneurs as guest lecturers. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3260 - High Impact Sales for Entrepreneurs (3 Credits)

Selling one's own concept to prospective customers and investors is very different from selling products in a corporate environment. In this course, students will learn how to get their message heard, get their ideal clients to want to work with them, and use their authentic brand to sell their small-business concept successfully. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3270 - New Venture Operations (3 Credits)

Introduces an operations model for developing internal and external operation plans for new ventures. Project management knowledge and skills are used to build operation plans. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3299 - Business Model Development & Planning (3 Credits)

At the heart of every great business is a well-thought out business plan. This course teaches entrepreneurially-minded students how to create one, and students will tackle this project with a team or as an individual. Local entrepreneurs and investors will serve as guest speakers and share their experiences. Mentors and advisors associated with the Jake Jabs Center, as well as special Center-organized experiential events, will provide students with practical feedback. Prereq or Coreq: ENTP 3230 may be taken at the same time as 3299 for a coreq. If 3230 is completed as a prerequisite, a grade of C- or higher is required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ENTP 3230 may be taken at the same time as 3299 for a coreq. If 3230 is completed as a prerequisite, a grade of C- or higher is required.

ENTP 3420 - Ethics: Formula for Success (3 Credits)

Students will learn how to spot and address red flags that foster unethical behavior in both publicly-traded and privately-held businesses. Governance and stakeholder management techniques that incentivize ethical behavior will be highlighted using examples of companies that are financially successful by "doing the right thing." Principle-based ethics are emphasized, namely, integrity, trust, accountability, transparency, fairness, respect, viability, and compliance with the rule of law. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 3800 - Special Topics in Entrepreneurship (3 Credits)

A variety of topics in entrepreneurship are offered. Consult the current 'schedule Planner' for semester offerings. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENTP 4028 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with ENTP 6028, INTB 4028, and INTB 6028. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 4200 - Impact Driven Entrepreneurship (3 Credits)

The course helps students understand some of the strategies that entrepreneurs employ to create high-impact ventures, highlighting unique models for social problem-solving that offer bold solutions to complex and entrenched societal issues. The course considers the full spectrum of business models, including strictly non-profit organizations, enterprises developing revenue-generating solutions for a mission-driven goal, and socially responsible for-profit companies. The course takes a global perspective to solve mission-driven problems. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 4840 - Entrepreneurship Independent Study (1-3 Credits)

Max hours: 3 Credits.

Grading Basis: Letter Grade

ENTP 4950 - Special Topics (3 Credits)

A variety of topics in entrepreneurship are offered. Consult the current "Schedule Planner" for semester offerings. Prereq: Topics vary. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Finance (FNCE)

FNCE 1500 - Introduction to Investment Services (1 Credit)

This class provides students with a broad overview of career opportunities in finance, focusing on financial services and banks. We first introduce several career paths in finance, and then briefly introduce the origins of money and banking. We turn to an in-depth study of the financial services industry, including the services provided by companies and listing financial services products as well as who develop and regulates those services. We map the skills (technical and personal) that are required for an individual to succeed in the industry. The course will have a special focus in companies in Colorado and the Colorado Investment Service Coalition (CISC). We close the course with mapping key ethics in the financial services industry. The course will address the full range of financial services careers, including investment and commercial banking, insurance, pension plans, risk management, mutual funds, e-commerce, and personal and business planning. Max hours: 1 Credit.

Grading Basis: Letter Grade

FNCE 2939 - Internship (1-3 Credits)

Repeatable. Max Hours: 3 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 3.

FNCE 3000 - Principles of Finance (3 Credits)

This course provides an introduction to financial markets and institutions, financial statement analysis, interest rates and the time value of money, principles of security valuation, concepts of risk and return, and capital budgeting. Note: This course is required in the Business Core. A grade of 'C' or better must be earned. Prereq: MATH 1070 or MATH 1060 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401, AND ACCT 2200, AND DSCI/BANA 2010 or ECON 3811 all with a grade of C- or higher, AND ECON 2012 AND ECON 2022. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1070 or MATH 1060 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 AND ACCT 2200 AND DSCI/BANA 2010 or ECON 3811 all with a C- or higher AND ECON 2012 AND ECON 2022. Rest: Restricted to undergrad students at junior standing or higher.

FNCE 3500 - Management of Business Capital (3 Credits)

Students learn the basic principles governing the management of capital in the business firm. Topics include management of working capital, cost of capital, capital budgeting, firm valuation, and theory and management of capital structure, grade of 'C' must be earned to take subsequent courses for which this course is a pre-req.. Prereq: FNCE 3000 with a grade of 'C' or better. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher Typically Offered: Fall, Spring, Summer.

FNCE 3600 - Financial Markets and Institutions (3 Credits)

Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institution. Prereq: FNCE 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher Typically Offered: Fall, Spring.

FNCE 3700 - Investment and Portfolio Management (3 Credits)

In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Note: FNCE 3700 and FNCE 3600 may be taken concurrently. Prereq: FNCE 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 3840 - Independent Study: FNCE (1-3 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4370 - International Financial Management (3 Credits)

Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. Cross-listed with INTB 4370. Prereq: FNCE 3000 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher Typically Offered: Fall, Spring, Summer.

FNCE 4382 - Survey of Financial and Commodity Derivatives (3 Credits)

This course introduces forward contracts, used in price risk management for millennia. We cover the properties of forward/futures contracts, structure of the markets and strategic implications for speculation and hedging. We price forwards from spot price, and introduce convenience yield. Options used for insurance purpose (think of your car insurance as a put option) is a more expensive way to manage risk; we cover option strategies and basic pricing. The course concludes with swaps, credit derivatives and structured products. Asset classes covered are equity, fixed income, currency, agriculture, energy (oil/gas and electricity) and metal/mining. Prereq: FNCE 3500 and FNCE 3700 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 and 3700 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

Typically Offered: Fall, Spring, Summer.

FNCE 4411 - International Corporate Governance (3 Credits)

Discusses the structure and goals of the modern corporation, the primary governance mechanisms used to help companies achieve these goals, and how and why these roles, goals, and mechanisms vary across nations. The topics covered in the course include managerial compensation, board of director structure and ethics, shareholder activism, and how governance structures differ across countries. Prereq: FNCE 3000. Cross-listed with FNCE 6411 and INTB 6411 Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000

FNCE 4424 - Corporate Restructuring (3 Credits)

Examines the processes and decisions by which mergers, takeovers and other corporate restructuring occur, the transactions occur. Analyzes merger and acquisition decisions as part of strategic decision making, and how firms are valued in mergers. Discusses the market for corporate control and the public policy implications of mergers and corporate governance. Prereq: FNCE 3500. Restriction: Restricted to undergraduate Business majors with a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 Requisite: Restricted to undergraduate Business majors with a junior standing or higher

FNCE 4470 - Behavioral Finance (3 Credits)

Over the past several decades, the field of finance has developed a successful paradigm based on the notions that investors and managers were generally rational and the prices of securities were generally "efficient." In recent years, however, anecdotal evidence as well as theoretical and empirical research has shown this paradigm to be insufficient to describe various features of actual financial markets. In this course we examine how the insights of behavioral finance complements the traditional paradigm and sheds light on the behavior of asset prices, corporate finance, and various Wall Street institutions and practices. Prereq: FNCE 3500 with a C or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 with a C or higher

FNCE 4480 - Introduction to Financial Modeling (3 Credits)

Develops and implements financial models for purposes of financial planning and decision making. This course seeks to increase students' knowledge and skill in the development of basic Excel-based financial planning models, including cash budgets, financial statements, and capital budgeting analysis. The course also introduces Monte Carlo simulation using Palisade Corporation's @RISK software. Knowledge of computer and spreadsheet software needed. Restriction: Restricted to undergraduate Business majors at a junior standing or higher Prereq: FNCE 3000, FNCE 3500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 and FNCE 3500. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 4490 - Commodity and Equity Trading (3 Credits)

This is a co-listed class with the J.P. Morgan Center for Commodities and the Finance Department. This course focuses on how securities and futures contracts are designed and traded including trading exchange operations, regulation, trading mechanisms and processes. Students will learn the theory and practice of securities and futures contract trading with a focus on hands-on trading experience using industry software (CQG and Bloomberg) as well use of data sources (Morningstar). In this course, we will review the origins of liquidity, volatility, price efficiency, and trading profits. Next we will cover a host of topics concerning equity and commodity trade execution strategies, such as why and how investors trade, what and when investors profit from investing and speculating, the key principles of high-frequency trading and investor's overconfidence, why market institutions are organized as they are, and the role of public policy in the markets. Cross-listed with CMDT 4490, CMDT 6490 and FNCE 6490. Max hours: 3 Credits.

Grading Basis: Letter Grade

FNCE 4500 - Corporate Financial Decisions (3 Credits)

This is a required capstone course for the financial management emphasis. It uses the case method to develop the analytical and decision making skills of students. Students are required to apply theories and concepts learned in previous finance and accounting classes to real world scenarios. Topical coverage includes financial analysis, planning, control, working capital management, long-term investment and financing decisions and corporate valuation. A grade of 'C' or better must be earned to receive credit towards graduation. Prereq: MATH 1070 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 AND DSCI/BANA 2010 AND ACCT 2200 all with a C- or higher; ECON 2012 AND ECON 2022 with a D- or higher; FNCE 3000 AND FNCE 3500 AND FNCE 3700 all with a C or higher. Restriction: Restricted to undergraduate students at a senior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1070 or 1110 or 1080 or 1130 or 1401 AND DSCI/BANA 2010 AND ACCT 2200 with a C- or higher; ECON 2012 AND 2022 with a D- or higher; FNCE 3000 AND 3500 AND 3700 with a C or higher. Restriction: undergraduate seniors or higher.

FNCE 4709 - Life and Health Insurance (3 Credits)

The course is designed to provide the student with the basic understanding of life and health insurance concepts. The course will focus on a needs analysis for individual life insurance needs in preserving an estate or creating an estate. We also focus on the needs of the family and the preservation of the income stream for meeting short and long term needs and how we accomplish this via life insurance. We also will look at life insurance in terms of business planning using such concepts as key person life insurance, funding buy sell agreements, and related needs. On the health side, we will use a needs analysis approach to provide health coverage for the individual and family. We also explore the employee benefits arena and how businesses will focus on providing group medical coverage and related benefits in an ever changing health care environment with health care reform being phased in. We also will explore the internal workings of life and health insurance companies by review. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4750 - Business Intelligence and Financial Modeling (3 Credits)

This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply business intelligence software tools to enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely incorporate finance departments. Prereq: ISMG 2050 with a grade of C- or higher, FNCE 3000 and (ISMG 3000 or ACCT 4054) all with a grade of 'C' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ISMG 4750 and ISMG 6820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 with a grade of C- or higher, FNCE 3000 and (ISMG 3000 or ACCT 4054) all with a grade of 'C' or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 4802 - Foundations of Commodities (3 Credits)

This course introduces students to the physical aspects of commodities and connects them to the financial markets in which commodities are traded. Fundamental concepts and terminology necessary for understanding commodity production, transportation, economics, financial analysis and marketing are described. Supply chains for several specific commodities are reviewed in detail, as examples of the production and market structure knowledge needed to be successful professional participants in commodity trading capacities. The course also serves a foundation for more focused education in the specific commodity sectors, as well as the applied use of marketing and financial trading concepts learned in other courses. Cross-listed with FNCE 6802 and CMDT 4802/6802. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4840 - Independent Study: FNCE (1-8 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4950 - Special Topics (1-3 Credits)

Research methods and results, special topics and professional development in finance. Prerequisites vary according to topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

International Business (INTB)**INTB 1111 - International Social Entrepreneurship (3 Credits)**

The end of the 20th Century saw the rise of a powerful new force: the International Social Entrepreneur. Leveraging the power of market forces, social media, the internet, and the desire to make the world better, these people have developed powerful ways to tackle the social, economic, and environmental problems that confront us all. In this class, we will study the rise of international social entrepreneurship, and the innovative tools international social entrepreneurs have developed to address some of our most dire challenges. Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

INTB 2939 - Internship (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 9.

INTB 3000 - Global Perspectives (3 Credits)

Globalization brings both opportunities and anxieties that need to be fully explored, discussed and understood both by the business and non-business student. This interdisciplinary course is designed to stimulate thought, perspective, discussion and debate for business and non-business students on issues ranging from globalization; political economy and geopolitics; the environment; cultures; finances; economic integration; trade; global regions; emerging markets; human rights; terrorism and conflict; leadership, ethics and values; entrepreneurship, to future trends in global issues. The Global Perspective course is designed (1) to increase and promote both business and non-business students' capacity for international understanding and international enterprise through the study and discussion of global business environment-related issues from multiple points of views in a neutral forum. (2) It is to provide students with the awareness that global issues cannot be viewed in isolation, Restriction: Restricted to undergraduate majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

Additional Information: Denver Core Requirement, International Perspectives.

INTB 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4028 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with ENTP 4028, ENTP 6028, and INTB 6028. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4200 - International Marketing (3 Credits)

Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Cross-listed with MKTG 4200. Prereq: MKTG 3000 with a C or higher. Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a C- or higher.

Additional Information: Denver Core Requirement, International Perspectives.

INTB 4370 - International Financial Management (3 Credits)

Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. Cross-listed with FNCE 4370. Prereq: FNCE 3000 with a C or higher. Restriction: Restricted to undergraduate Business majors at junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

INTB 4400 - Environments of International Business (3 Credits)

An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher and SPAN-BA majors with a SPP subplan at junior level. Cross-listed with MGMT 4400. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MGMT 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher and SPAN-BA majors with a SPP subplan at junior level.

INTB 4410 - Operations of International Business (3 Credits)

Focuses on the impact of environmental factors on international business operations and the identification and analysis of complex strategic and operational issues facing business firms in global markets. The strategies and structures of international businesses, alternative foreign market entry modes, and the unique roles of various business functions at international business firms are explained and assessed. Prereq: INTB 4400 or MGMT 4400 with a grade of C or higher. Restriction:

Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with MGMT 4410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: INTB 4400 or MGMT 4400 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

INTB 4840 - Independent Study (1-8 Credits)

Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Restriction: Restricted to undergraduate business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4950 - Special Topics in International Business (3 Credits)

Current topics in international business are occasionally offered. Consult the 'Schedule Planner' for specific course offerings or contact an advisor for information. Prereq: Topics vary depending on the topic and the instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Information Systems (ISMG)

ISMG 2050 - Introduction to Business Problem Solving (3 Credits)

Focuses on the technology and problem solving skills necessary for students to succeed both at school and in the business world. Focuses on business decision making using spreadsheets, database and web tools. Students solve problems in statistics, accounting, finance, marketing, management and information systems. The objective is to provide problem solving methods necessary for students to succeed in the business community. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy Business graduation and prerequisites for other business courses. Max hours: 3 Credits.

Grading Basis: Letter Grade

ISMG 2075 - Introduction to Microsoft Access (1 Credit)

Introduction to Microsoft Access prepares students to use data bases to analyze data and solve real-life business problems. It challenges students to use critical thinking and analysis to find efficient and effective solutions to real-life business situations. Students will use databases to solve problems in accounting, finance, and information systems. Prereq: Computer Competency. Max hours: 1 Credit.

Grading Basis: Letter Grade

ISMG 2800 - Designing for the Web (3 Credits)

Students examine how the Web is evolving to support a variety of business needs. The course covers the design and usability principals necessary for improving online interactions via traditional websites as well as using technologies promoting collaboration and information sharing (e.g. social networks, blogs, wikis, forms). Topics include: the principles of web page and web site design; hypertext markup language, cascading style sheets, streaming video, online collaboration technologies; client and server scripting; and the process of testing and publishing web sites. Coreq: ISMG 2050. As a corequisite, ISMG 2050 can be taken concurrently or completed prior. If completed prior, must earn a C- or higher. Restriction: Restricted to undergraduate Business majors at a sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ISMG 2050. If completed prior, must earn a C- or higher.

Restriction: Restricted to undergraduate Business majors at a sophomore standing or higher.

Typically Offered: Spring.

ISMG 3000 - Technology In Business (3 Credits)

Covers the role of information technology in business organizations. It exposes students to innovative and interesting technologies and illustrates how those technologies are changing the way businesses operate. It highlights the importance of IT in organizations, including the relationship between technology & competitiveness, the alignment of business and IT strategy, the development and management of an effective IT infrastructure and the use of IT strategy, the development and management of an effective IT infrastructure and the use of IT-enabled organizational processes. Topics include: coping with information intensity, web sites, social networks and blogs; business intelligence at each level of management; IT based reports and data; collaboration and the impact of technology on organizational interaction; the use of IT for controlling and enhancing business processes; security, privacy & disaster recovery; and emerging technologies. Note: Business core course therefore a grade of a "C" or better must be earned to satisfy graduation requirements. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

Typically Offered: Fall, Spring.

ISMG 3300 - Social Media in Business (3 Credits)

This course focuses on the fundamentals and practical skills of social media marketing. Topics include social interactions, social media metrics, social media ads, content marketing, viral and influencer marketing, the use of social media in marketing research, managing consumers via social media, as well as other trends in social media marketing. Students engage in hands on applications including the creation and management of real brands' social media marketing activities. Cross-listed with MKTG 3300. Prereq: MKTG 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring.

ISMG 3500 - Enterprise Data and Content Management (3 Credits)

The success of today's business often hinges on the ability to turn mountains of data into critical information to make right decisions quickly and efficiently. This course introduces students to data, content and multimedia management using current enterprise data management tools. Topics include: Oracle SQL for relational database and for multimedia content; Oracle forms and reports, XML, and content management. Prereq: ISMG 2050 with a grade of C- or higher or department approved equivalent transfer credit (may need 1-credit ISMG 2075 as supplement). Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

D-BU ISMG 2050 C-+BUSNU+Junior

Typically Offered: Fall.

ISMG 3600 - System Strategy, Architecture and Design (3 Credits)

This course is designed to provide the understanding of current concepts related to information systems development in an organizational context. It emphasizes the interactive nature of the analysis and design process. Topics include: requirements analysis, model based analysis and design; evaluating outsourcing, COTS and other systems acquisition options; and quality, six-sigma, and ethics in design. New concepts such as agile modeling and extreme programming are covered. Prereq: ISMG 2050 with a grade of C- or higher or department approved equivalent transfer credit (may need 1-credit ISMG 2075 as supplement). Coreq: ISMG 3500. As a corequisite, ISMG 3500 can be taken concurrently or completed prior. If completed prior, must earn a D- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 or equivalent with a grade of 'C-' or higher. Coreq:

ISMG 3500. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Spring.

ISMG 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4028 - Travel Study Topics (3 Credits)

Join your classmates in an international travel study course to understand the business operations of another culture. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4200 - Building Business Applications (3 Credits)

Examines how software platforms for mobile business applications are designed and implemented. Usability, logic, and platform selection issues are highlighted through the development of simple mobile business systems. Includes programming concepts, interface design; storing, retrieving, and manipulating information; real time decision making; platform selection, testing and deployment. Prereq: ISMG 2800 with a D- or higher. Coreq: ISMG 3500. As a corequisite, ISMG 3500 can be taken concurrently or completed prior. If completed prior, must earn a D- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2800 Coreq: ISMG 3500 Restriction: Restricted to undergraduate Business majors at a junior standing or higher
Typically Offered: Fall.

ISMG 4300 - Information Security and Compliance (3 Credits)

This course covers information security threats and various mechanisms available to organizations to defend against information compromise. It offers thorough analysis of state, national, and international information security regulations with which businesses must comply, including the Sarbanes-Oxley, Gramm-Leach-Bliley and Hippa Acts. The regulatory compliance analysis will include measures the organizations must and should perform to be in compliance. Coreq: ISMG 3000. As a corequisite, ISMG 3000 can be taken concurrently or completed prior. If completed prior, must earn a C or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ISMG 3000. As a prerequisite, a grade of C or higher is required. Restriction: Restricted to undergraduate Business majors with junior standing or higher
Typically Offered: Spring.

ISMG 4400 - Programming Fundamentals with Python (3 Credits)

This course is designed to provide a thorough introduction to Python and fundamental programming concepts like data structures, networked application program interfaces, files and databases. Principles of object-oriented programming and secure programming practices are demonstrated using programming constructs taken from the business domain. Students are required to design and create their own applications for data retrieval, processing, and visualization. Prereq: ISMG 2800 with a D- or higher. Co-req: ISMG 3500. As a corequisite, ISMG 3500 can be taken concurrently or completed prior. If completed prior, must earn a D- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2800 Co-req: ISMG 3500 Restriction: Restricted to undergraduate Business majors at a junior standing or higher

ISMG 4450 - Web Development Immersive (12 Credits)

This course is designed to simulate what you'll experience in a real work environment, and covers the languages, frameworks, and computer science fundamentals essential to a career in web development. It will cover introduction to programming and Front End Development, Server Side Programming with Node, Front End frameworks and Single Page Applications, and Data Structures and Algorithms, as well as a capstone project. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 12 Credits.

Grading Basis: Pass/Fail Only

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4700 - Business Data Communications and Networking (3 Credits)

Provides an in-depth knowledge of data communications and networking requirements including: networking and telecommunications technologies, hardware, and software. Emphasis is upon the analysis and design of networking applications in organizations. Management of telecommunications networks, cost-benefit analysis, and evaluation of connectivity options are also covered. Students learn to evaluate, select, and implement different communication options within an organization.

Topics include: network hardware and software; network configuration; network applications; distributed versus centralized systems; network architectures, topologies and protocols; network performance analysis; privacy, security, reliability; management of telecommunications, and communications standards. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Spring.

ISMG 4750 - Business Intelligence and Financial Modeling (3 Credits)

This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply business intelligence software tools to enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely incorporate finance departments. Prereq: ISMG 2050 with a grade of 'C-' or higher, FNCE 3000 and ISMG 3000 (ACCT 4054 may substitute for ISMG 3000) all with a grade of 'C' or higher. Cross-listed with FNCE 4750 and ISMG 6820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 with a grade of 'C-' or higher, FNCE 3000 and ISMG 3000 (ACCT 4054 may substitute for ISMG 3000) all with a grade of 'C' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ISMG 4760 - Customer Relationship Management (3 Credits)

This marketing-theory driven course examines customer relationship management (CRM) as a key strategic process for organizations. Composed of people, technology and processes, effective CRM optimizes the selection or identification, acquisition, growth and retention of desired customers to maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization and its place in marketing, students have an opportunity to create simulated CRM database using popular software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG 3000 and ISMG 3000 both with a grade of C or higher. Cross-listed with MKTG 4760. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 and ISMG 3000 both with a grade of C or higher
Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4780 - Accounting and Information Systems Processes and Controls (3 Credits)

The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 4780, 6510 and ISMG 6510. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT4054 with a grade of 'C' or better. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT4054 with a grade of 'C' or better. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

ISMG 4785 - Ethics: A Formula for Success (3 Credits)

Students will learn how to spot and address red flags that foster unethical behavior in both publicly-traded and privately-held businesses. Governance and stakeholder management techniques that incentivize ethical behavior will be highlighted using examples of companies that are financially successful by "doing the right thing." Principle-based ethics are emphasized, namely, integrity, trust, accountability, transparency, fairness, respect, viability, and compliance with the rule of law. Cross-listed with MGMT 3420, MGMT 6420, ISMG 6885. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4840 - Independent Study (1-8 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 8.
Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4900 - Project Management and Practice (3 Credits)

Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: Students must be a junior status and have completed either: 1. ISMG 3000 or ACCT 4054 and MGMT 3000 and MKTG 3000, OR 2. ISMG 3000 and ISMG 3500 and ISMG 3600. Restriction: Restricted to undergraduate students in the Business School. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Students must be a junior status and have completed either: 1. ISMG 3000 or ACCT 4054 and MGMT 3000 and MKTG 3000, OR 2. ISMG 3000 and ISMG 3500 and ISMG 3600. Restriction: Restricted to undergraduate students in the Business School.

ISMG 4950 - Special Topics (3 Credits)

Seldom offered. This course varies from offering to offering. Typically, it is a research-oriented course exploring new developments in information systems. Prerequisites vary according to topic. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Restriction: Restricted to undergraduate Business majors with junior standing or higher

Management (MGMT)

MGMT 1000 - Introduction to Business (3 Credits)

This course will introduce students to the nature and role of business in our society. Problems confronting business are surveyed from a management, financial, economic and marketing viewpoint. Career opportunities in business are also considered. Students are advised to take this course during their freshman year and may not take it in the junior or senior years. Prereq: Open to freshman and sophomores, non-degree students and music majors at all levels. Cross-listed with BMIN 1000. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

MGMT 1111 - Business Freshman Seminar (3 Credits)

This course introduces students to the nature and role of business in our society. Career opportunities in business are also considered. This course is designed to assist first year students transition to life on campus. The course content is integrated with various activities designed to familiarize 1st year students with school resources, develop critical thinking and writing skills and build relationships critical to ongoing academic success. Students are advised to take this course during the first semester of their freshman year. Note: Credit will not be given for both MGMT 1111 and MGMT 1000. Restriction: Restricted to Freshman level students. Max hours: 3 Credits. Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students
Typically Offered: Fall, Spring.

MGMT 2939 - Internship (1-3 Credits)

Repeatable. Max Hours: 3 Credits. Grading Basis: Pass/Fail Only
Repeatable. Max Credits: 3.

MGMT 3000 - Managing Individuals and Teams (3 Credits)

Focuses on helping students understand how to manage individuals and groups effectively. Students are encouraged to know themselves better and how their behavior affects how they deal with organizational situations; they also learn how individuals differ and how to design, manage and work in a team. This is a business core course therefore a grade of a 'c' or better must be earned to satisfy graduation requirements. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Restriction: Restricted to undergraduate students at a junior standing or higher

Risk Management (RISK)

RISK 1000 - Introduction to Risk Management and Insurance Careers (1 Credit)

This course introduces students to the many and varied career opportunities in the risk management and insurance industry via visiting industry professionals and on-site industry visits. The course meets 1 hour each week. No co-credit with RISK 1001. Max hours: 1 Credit.

Grading Basis: Pass/Fail Only

RISK 1001 - Careers in Risk Management (1 Credit)

This course introduces high school students to the many and varied opportunities in the risk management and insurance industry via visiting professionals and on-site industry visits. This course meets during the summer semester. It is pass/fail. This course is equivalent to RISK 1000 Introduction to Risk Management and Insurance Careers in content. Note: Must be a high school student or recent high school graduate to enroll. CU Denver students cannot enroll. No co-credit with RISK 1000. Max hours: 1 Credit.

Grading Basis: Pass/Fail Only

RISK 3809 - Introduction to Risk Management (3 Credits)

This course introduces students to the fundamentals of risk and risk management for businesses and individuals. Corporate risk management techniques covered range from insurance to enterprise risk management. Personal risks discussed range from unemployment to retirement. Coreq: FNCE 3000. Insurance carrier operations are also considered. Restriction: junior/senior standing required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: FNCE 3000 Restriction: Restricted to undergraduate Business majors at a junior standing or higher

RISK 3949 - Experiential Learning in RMI Industry (3 Credits)

This course connects students to risk management service providers through the Risk Management and Insurance (RMI) Program. The students will intern with a specific provider. The RMI program and faculty will supervise and monitor tasks and assignments, and coordinate with the providers to maximize the learning experience. Restriction: junior/senior standing required. Max hours: 3 Credits.

Grading Basis: Pass/Fail Only

Restriction: Restricted to Juniors and Seniors only.

RISK 4129 - Practical Enterprise Risk Management (3 Credits)

Enterprise RM involves identifying the risks and opportunities faced by a firm, assessing them, developing and implementing a plan to address them, and then monitoring progress. Students will learn the basics of ERM while working with risk management professionals to develop and present such a plan to an ongoing business. Coreq: FNCE 3500. Cross-listed with RISK 6129. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: FNCE 3500

RISK 4209 - Cyber Risk Management (3 Credits)

Computer networks and the data that travels upon them are under constant and increasing attack. This course will focus on a discussion of how state and non-state actors utilize this form of asymmetrical warfare to infiltrate government and corporate networks, risk management responds and risk strategies apply. Cross-listed with RISK 6209. Restriction: junior/senior standing or instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Junior standing or higher.

RISK 4309 - Strategic Risk Management (3 Credits)

Strategic risk management (SRM) seeks to manage the risks inherent in a company's strategy, the risks to its plans to add value to its owners and society by raising its return on equity, allowing the company to compete successfully across a wider array of business environments, acting when its competitors cannot, and reducing its 'risk of ruin.' Because the future is unknown, SRM is charged with identifying and managing unknown uncertainties. The challenge of doing this makes for a fascinating course. Cross-listed with RISK 6309. Prereq: RISK 3809 and RISK 4809. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RISK 3809 and RISK 4809.

RISK 4409 - Employee Benefits and Workforce Risk Management (3 Credits)

The course surveys an array of popular employee benefit programs to attract, protect, and retain valued employees. It also focusses on risk management programs that invest in human capital and address the downside risks of employing a workforce. Restriction: Junior or Senior standing. Cross-listed with RISK 6409 and MGMT 4460/6760. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Junior or Senior standing

RISK 4509 - Global Risk Management (3 Credits)

This course is designed to study how risk is transferred globally. The course will include travel to London, which is the home to many of the world's largest insurers and reinsurers. While in London, we will visit and have presentations from insurance brokers, companies, Lloyds of London, and reinsurers. Prereq: One RISK course. Restriction: Junior or Senior standing. Cross-listed with RISK 6509. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: One RISK course Restriction: Restricted to students with junior/senior standing.

RISK 4609 - Claims Management (3 Credits)

This course will provide an overview of the claims process in the Property and Casualty Insurance world. Students will learn about basic claims handling for personal and commercial claims as well as how to determine coverage and legal issues. Prereq: RISK 3809 with a grade of at least C (GPA 2.0). Restriction: Junior/Senior standing required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RISK 3809 with a grade of at least C (GPA 2.0) Restriction: Junior/Senior standing required

RISK 4709 - Life and Health Insurance (3 Credits)

This course introduces students to life and health insurance concepts and policy types with an emphasis on insurance planning for individuals and businesses. The insurance industry and trends within it are also explored. Prereq: RISK 3809 and FNCE 3000 with a grade of at least C (GPA 2.0). Restriction: Junior/Senior standing required. Cross-listed with RISK 6709. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RISK 3809 and FNCE 3000 with a grade of at least C (GPA 2.0)

Restriction: Junior/Senior standing required

RISK 4809 - Property & Casualty Insurance (3 Credits)

Students learn the fundamentals and uses of personal and commercial property and casualty insurance, including cost and pricing issues. Insurance company financial management and current trends in the insurance industry are also explored. Restriction: Junior/Senior Standing, or permission of the instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Junior/Senior Standing

RISK 4909 - Corporate Risk Management (3 Credits)

This course provides an overview of the corporate risk management process. It considers the ways companies identify their risk exposures, the tools used to measure and mitigate those exposures including the latest developments in alternative risk transfer, and ultimately, how risk management adds value to the firm. Prerequisite: RISK 3809 with a grade of C or higher. Corequisite: FNCE 3500. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with FNCE 4909/6909 and RISK 6909. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: RISK 3809 with a grade of C or higher. Corequisite: FNCE 3500. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

Accounting - BS in Business Administration with Specialization in Information Systems

Introduction

Please click [here](#) (p. 109) to see Business School information.

Accounting courses are offered in several fields of professional accountancy at the intermediate, advanced and graduate levels. They provide preparation for practice in one or more of the following fields:

- Public Accounting: auditing, consulting, and tax compliance and planning
- Accounting in Industry: all industries, including energy, financial, manufacturing, retail
- Accounting in Government and Nonprofits
- Academics: teaching and research in accounting areas of financial reporting, managerial accounting, auditing, accounting information systems, and taxation

In all of these fields a thorough knowledge of the social, legal, economic and political environment is needed. A high degree of analytical ability and communication skill is indispensable.

Courses in English composition, speech, ethics and logic are desirable. Courses in statistics and information systems, beyond the required business core courses, are highly recommended.

Within the Accounting curriculum, students can specialize in Information Systems to complement their individual interest.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 63) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)

- Business School Graduation Requirements (p. 111)
- Click here (p. 93) for information about Academic Policies

Program Requirements

Code	Title	Hours
ACCT 3220	Intermediate Financial Accounting I ¹	3
ACCT 3230	Intermediate Financial Accounting II	3
ACCT 3320	Intermediate Cost Accounting	3
ACCT 4054	Accounting Information Systems ²	3
ACCT 4410	Fundamentals of Federal Income Tax	3
ACCT 4620	Auditing Theory	3
ISMG 3500	Enterprise Data and Content Management	3
Two upper division ISMG electives		6
Total Hours		27

¹ A grade of C or higher must be earned in all accounting courses that are used as prerequisites.

² Replaces ISMG 3000 Technology In Business in Business Core

Notes

- Students should note that all finance, risk, and accounting courses are not offered every semester. Students should take the ACCT 2200 Financial Accounting and Financial Statement Analysis and ACCT 2220 Managerial Accounting and Professional Issues courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the major or specialization.
- Students also have the opportunity to continue their education with an MS in Accounting. The Accounting 4+1 program allows students to potentially complete the BS and MS degrees in as little as five years through substituting two graduate courses for two undergraduate courses. The graduate courses count towards both the BS and MS degrees.
- If you are considering this 4+1 program, contact your advisor immediately so that you can appropriately plan your coursework. Email: undergrad.advising@ucdenver.edu
- If you are pursuing a CPA, talk to the accounting department about the best courses to take. Email: accounting.cpa@ucdenver.edu

Finance, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

The principal areas of study in finance are financial management in small and large businesses, investments, financial institutions, and international finance. The study of finance is intended to provide an understanding of fundamental theory and practice pertaining to finance, to make sound financial decisions. Students are taught to think logically about financial problems, so that they can formulate and implement value maximizing decisions and policies for the business. For this purpose, it is necessary to understand the importance of finance in the economy and the functions and purposes of monetary systems, credit, prices, money markets and financial institutions. Emphasis is placed on financial policy, management, control, analysis, and decision making.

The finance major provides students with the skills to succeed in all areas of finance. Numerous job opportunities exist in the field of business finance and with financial institutions, mutual funds, securities firms, personal wealth management firms, and financial planning firms including positions involving an understanding and sale of securities.

ACCT 3230	Intermediate Financial Accounting II	3
ACCT 4054	Accounting Information Systems ^{1,2}	3
ACCT 4410	Fundamentals of Federal Income Tax	3
FNCE 3500	Management of Business Capital ¹	3
FNCE 3600	Financial Markets and Institutions	3
FNCE 3700	Investment and Portfolio Management ¹	3
FNCE 4500	Corporate Financial Decisions ¹	3
RISK 3809	Introduction to Risk Management	3
Total Hours		30

¹ Must be completed with a C or higher.

² Replaces ISMG 3000 Technology In Business in Business Core.

Note

Students should note that all finance, risk and accounting courses are not offered every semester. Students should take the ACCT 2200 Financial Accounting and Financial Statement Analysis and ACCT 2220 Managerial Accounting and Professional Issues courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.

Students also have the option to complete a Financial Management major with a specialization in Information Systems. Click here (p. 141) to view this option.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/business-school/>).

Human Resources Management, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

Human Resources Management offers opportunities for students to develop professional competence in the areas of personnel administration and development. Students acquire an understanding of, and skills in, developing and implementing human resources systems including recruitment, selection, evaluation, training, motivation, and compensation.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- Business School Graduation Requirements (p. 111)

Information Systems, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

The information systems program at the University of Colorado Denver is a nationally accredited program for students who want to design and implement effective solutions to meet organizational and management needs for information, control and decision making.

An information systems (ISMG) major draws on a diverse set of skills and strengths requiring creative and innovative thinking at the intersections of disciplinary knowledge and practice. Information systems students learn how information technology, effective teamwork and leadership and sound project management combine to enable innovation and change, to improve organizational agility and to add competitive value. Courses require extensive hands-on projects, teamwork, and use of high-end technology. A combination of technical skills gained in class work with broad-based business process knowledge enables our graduates to be

ideally situated to take leading roles in shaping the technology-based future of employers in the Rocky Mountain region and the nation.

Specializations available in Accounting, Finance, Human Resource Management, Management and Marketing

Undergraduate Options

The Business School at the University of Colorado Denver offers a bachelor of science in business administration where you may choose information systems as your primary core specialty:

- Information Systems, Bachelor of Science in Business Administration degree

Or you may choose to add an information systems specialization to another business discipline:

- Accounting with an Information Systems specialization
- Financial Management with an Information Systems specialization
- Management with an Information Systems specialization
- Marketing with an Information Systems specialization

Career Opportunities

Careers in information systems continue to be one of the highest growth markets in the business world. A student completing the information systems program curriculum will be prepared for challenging careers as a business analyst, database analyst, Web content manager, project manager, IT consultant, and information auditing and compliance specialist. Employment possibilities include financial operations, health care, management consulting, service operations, transportation, and logistics and government.

Information systems are becoming the foundation of all business activities, and a solid understanding of the role of information systems in business and in the national and global economy is now critical for every business student. The information systems major focuses on the effective use of information technology in business. You are equipped with logical and analytical thinking in all areas of business and a strong basis for continued career growth in a variety of growing professions. You will develop the technical skills, business know-how and administrative insights required for acquisition, deployment and management of IT resources and services development, operation and evolution of IS infrastructure for use in accounting, finance, marketing, management and other business processes.

Program Delivery

- This is an on-campus or online program (Note: not all specializations are available online).

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- Business School Graduation Requirements (p. 111)
- Click here (p. 93) for information about Academic Policies

Program Requirements

The courses emphasize both team and individual work, allowing students to gain critical thinking skills, knowledge and experience to analyze, design, program, implement and use information.

MKTG 4760	Customer Relationship Management	

Notes

Not all Information Systems courses are offered every semester - so contact advising to plan ahead.

Students also have the opportunity to continue their education with an MS in Information Systems. The ISMG 4+1 program allows students to potentially complete the BS and MS degrees in as little as five years through substituting two graduate courses for two undergraduate courses. The graduate courses count towards both the BS and MS degrees.

If you are considering this 4+1 program, contact your advisor immediately so that you can appropriately plan your coursework. Email undergrad.advising@ucdenver.edu

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/business-school/>).

International Business, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

The International Business major integrates a global dimension in the business curriculum. Students develop a global mindset, broaden their knowledge of the environment of international business, and learn fundamental skills in international business operations.

The University of Colorado Denver is the only Colorado university, and one of just 15 universities nationwide, granted the U.S. Department of Education's prestigious designation as a Center for International Business Education Research (<https://www1.ucdenver.edu/institutes/international-business/>) (CIBER), an honor earned in large part through the excellence of the international business program.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- Business School Graduation Requirements (p. 111)
- Click here (p. 93) for information about Academic Policies

Program Requirements

Code	Title	Hours
Foundation		
MGMT 4370	Organization Design	3
MKTG 4050	Applied Marketing Management	3
FNCE/INTB 4370	International Financial Management	3
INTB 4400	Environments of International Business	3
INTB 4410	Operations of International Business	3
INTB 4200	International Marketing	3
Total Hours		18

Notes

International Business Majors must take one upper division business elective to replace the International Studies requirement.

A second major in Business is highly recommended. In addition, serious consideration should be given to advanced study of a foreign language and participation in international field study opportunities.

Students are encouraged to participate in multiple activities in International Business offered by the Business School in collaboration with the Institute for International Business and CIBER, such as the International Business Student Network (student club), International Executive Roundtable Lecture Series, and CIBERVets (international program for veterans and military students).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/business-school/>).

Management with Specialization in Information Systems, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

The management curriculum provides the foundation for careers in supervision and general management in a wide variety of organizations. It develops skills in management practice through an understanding of general management principles, individual and group behavior, organizational change, and design and human resources management.

Information technology is the prime driver of business strategy. This specialization focuses on the strategic, technological, financial, and organizational issues involved with the effective management of information technology.

Program Delivery

- This is an on-campus program.

Marketing with Specialization in Information Systems, BS in Business Administration

Introduction

Please here (p. 109) to see Business School information.

Marketing is concerned with directing the activities of the organization toward the satisfaction of customer wants and needs. This involves understanding customers, identifying those wants and needs that the organization can best serve, guiding the development of specific products or services, planning and implementing ways to take products or services to the market, securing the customer's order and finally, monitoring customer response in order to guide future activities.

In most organizations, marketing is a major functional area that provides a wide variety of career opportunities in such fields as personal selling and sales management, advertising and sales promotion, public relations, marketing research, physical distribution, product management, market management, marketing information systems, and retail management. Increasingly, career opportunities exist in service businesses and nonprofit organizations.

Within a specialization in Information Systems, students can complement their individual interests as well as prior education and work experiences.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

Risk Management and Insurance, BS in Business Administration

Introduction

Please click here (<https://business.ucdenver.edu/centers/risk-management-and-insurance/>) for more information on this program, opportunities and scholarships.

The Risk Management and Insurance (RMI) major provides students with the fundamental knowledge needed to accurately measure and manage risk. Risk Management and Insurance professionals are found in corporate, public sector, and non-profit organizations. Risk Management is a lucrative field with a looming talent shortage, and the demand for this expertise is high. 50% of this industry is retiring in the next 5 to 10 years, so there is a huge need for new talent. The CU Denver Business School RMI program is proud to have placed 100% of its students in great jobs!

Recent crisis situations suggest that understanding risk and how to manage it, and ultimately, how risk management can be used to increase firm value, is essential in the current business environment. The RISK major will provide an overall perspective on risk, with a specific focus on insurance products and their use in mitigating risk in business and personal situations. The insurance industry recognizes many high-level certifications as a sign of expertise, and the RISK coursework will provide the knowledge base so that students can proceed to acquire certification in their specific choice of insurance specialty.

Potential job opportunities include positions in the insurance industry and those that require a thorough understanding of risk, such as corporate risk officer or risk manager. In addition, students who choose to work in the insurance industry can make a seamless transition into underwriting, broker, claims management, loss control, or investigator.

The program will be supported by a unique internship in the risk management or insurance industry and is the first program of its kind in the region. The CU Denver Risk Management and Insurance (RMI) Program was named an international Global Center for Insurance Excellence (GCIE). This certification recognizes outstanding RMI Programs that play an integral role in promoting insurance knowledge and research.

Program Delivery

- The BSBA in Risk Management and Insurance (RMI) can be completed fully online or a combination of on-campus and online classes.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major. Business School students may declare their major here (<https://ucdenverdata.formstack.com/forms/buscom/>).

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)

Sports Business, BS in Business Administration

Introduction

Please click here (p. 109) to see Business School information.

The Sports Business major offers students the opportunity to prepare for a competitive career in the sports industry. This program was developed with industry partners who are in need of qualified leaders in the field. Sports firms are currently hiring at the entry level and promoting from within. The Sports Business major will provide you with the knowledge and skills you need to begin your career in the exciting field of sports.

The program includes faculty who are active researchers in the field, prominent guest speakers, and the opportunity to participate in exciting internships with local leaders in the industry. Some companies where students have interned include Broncos Football Club, Kroenke Sports and Entertainment, United States Olympic Committee, and Anschutz Entertainment group.

Students completing the Sports Business major are also eligible to participate in the London Calling study abroad program. This unique opportunity provides students with a firsthand look at the global sports management field through behind-the-scenes visits to key sports and entertainment organizations and venues in London. The two-week elective includes visits to the UK's top sports facilities, including Arsenal FC, O2 Arena, Wimbledon, 2012 Olympic Committee, and more.

Students enrolled in the program will learn about diverse, cross-functional areas of the sports industry, including:

- *Sports industry trends & growth opportunities*
- *Sports media trends & new media*
- *Stadium financing & development*
- *Naming rights & sponsorships*
- *Sports specific marketing plans*
- *Sports pricing & fan loyalty*
- *Negotiating contracts with athletes*
- *Team valuations*
- *Labor law and collective bargaining agreements*
- *Pro team and college athletics management*
- *Money flow in teams - managing revenue streams*
- *Outdoor sports industry - marketing & management*
- *Community relations and event planning*
- *Olympics bid process and finances*

Business Minor

Introduction

Please click here (p. 109) to see Business School information.

Business minors can give you an edge in your career.

By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree you will gain an edge in the job market. The business minor allows you to focus on a specific area of business that fits your career goals.

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in business administration.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver Undergraduate student, you need a 2.0 GPA to be accepted for a business minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 93) for information about Academic Policies

Program Requirements

1. Please see an advisor regarding residency requirements.
2. If the student has already taken the equivalent of one or more of these courses, other higher-level business courses may be substituted with Business School approval.
3. Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Code	Title	Hours
MGMT 1000	Introduction to Business	3
or ISMG 2050	Introduction to Business Problem Solving	
ACCT 2200	Financial Accounting and Financial Statement Analysis ¹	3
Select three of the following:		9
BANA 3000	Operations Management ²	
BLAW 3050	Business Law and Ethics

FNCE 3000	Principles of Finance ²	
MGMT 3000	Managing Individuals and Teams	
MKTG 3000	Principles of Marketing	
INTB 4400	Environments of International Business ²	
Total Hours		15

¹ Finite Mathematics must be completed as a pre-requisite.

² The courses have several required prerequisites which must be completed prior to enrolling. Check with an advisor as early as possible if you are interested in taking any of these courses. Email: undergrad.advising@ucdenver.edu

Entrepreneurship Minor

Introduction

Please click [here](#) (p. 109) to see Business School information.

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in entrepreneurship.

Students enrolled in this minor have the benefit of following their passion with their undergraduate degree while adding the business knowledge and skills employers want and entrepreneurs need. By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree, you will gain an edge in the job market.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver Undergraduate student, you need a 2.0 GPA to be accepted for an entrepreneurship minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) for information about Academic Policies

Program Requirements

1. Students must take 9 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
2. Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Finance Minor

Introduction

Please click [here](#) (p. 109) to see Business School information.

Students in other undergraduate schools and colleges at CU Denver wishing to complete the Finance minor need to complete the course work described below.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare the Finance minor, students must have a 3.0 GPA, either cumulative or from their last 24 completed semester hours.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) for information about Academic Policies

Program Requirements

1. Students must maintain or exceed a 2.0 GPA to graduate with the minor.
2. A student must take 12 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these

courses at another university, other higher-level business courses may be substituted with the approval of the Business School.

- Students must have declared the Finance minor to register for any of the upper-division FNCE courses or petition separately to take each of these courses.

Code	Title	Hours
Required Prerequisite and Proficiency Courses		
MATH 1060	Finite Mathematics ¹	3
ECON 2012	Principles of Economics: Macroeconomics	3
ECON 2022	Principles of Economics: Microeconomics	3
BANA 2010	Business Statistics ²	3
Other Courses		
ACCT 2200	Financial Accounting and Financial Statement Analysis	3
FNCE 3000	Principles of Finance	3

Total Hours		27

¹ Talk to an advisor about substituting a higher-level math.

² May be substituted with ECON 3811 Statistics with Computer Applications, MATH 3382 Statistical Theory, or MATH 3800 Probability and Statistics for Engineers.

³ Can be from list above or any other upper-division FNCE course.

Fundamentals of Business Minor

Introduction

Please click here (p. 109) to see Business School information.

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in fundamentals of business.

Students enrolled in this minor have the benefit of following their passion with their undergraduate degree, while adding the business knowledge and skills employers want and entrepreneurs need. By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree, you will gain an edge in the job market.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver undergraduate student, you need a 2.0 GPA to be accepted for a fundamentals of business minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) for information about Academic Policies

Program Requirements

- Please see an advisor regarding residency requirements.
- Students may only use transfer coursework in place of BMIN 1000 Introduction to Business. All remaining courses must be completed at CU Denver.
- Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Risk Management and Insurance Minor

Introduction

Please click here (<https://business.ucdenver.edu/centers/risk-management-and-insurance/>) for more information about this program, opportunities, and RMI scholarships available.

The Risk Management and Insurance (RMI) Minor provides students with the fundamental knowledge needed to accurately measure and manage risk. Risk Management and Insurance professionals are found in corporate, public sector, and non-profit organizations. Risk Management is a lucrative field with a looming talent shortage, and the demand for this expertise is high. 50% of this industry is retiring in the next 5 to 10 years, so there is a huge need for new talent. The CU Denver Business School RMI program is proud to have placed 100% of its students in great jobs!

Recent crisis situations suggest that understanding risk and how to manage it, and ultimately, how risk management can be used to increase firm value, is essential in the current business environment. The RISK minor will provide an overall perspective on risk, with a specific focus on insurance products and their use in mitigating risk in business and personal situations. The insurance industry recognizes many high-level certifications as a sign of expertise, and the RISK coursework will provide the knowledge base so that students can proceed to acquire certification in their specific choice of insurance specialty.

Potential job opportunities include positions in the insurance industry and those that require a thorough understanding of risk, such as corporate risk officer or risk manager. In addition, students who choose to work in the insurance industry can make a seamless transition into underwriting, broker, claims management, loss control, or investigator. However, all management positions can benefit from an understanding of the risks in their industry. This is the first program of its kind in the region. The CU Denver Risk Management and Insurance (RMI) Program

was named an international Global Center for Insurance Excellence (GCIE). This certification recognizes outstanding RMI Programs that play an integral role in promoting insurance knowledge and research.

Other Business School majors and students in other undergraduate schools and colleges at CU Denver wishing to complete the Risk Management and Insurance minor need to complete the course work described below.

Program Delivery

- The RMI Minor can be completed fully online or a combination of on-campus and online courses.

Declaring This Minor

- To declare the RMI minor, students must have a 2.0 GPA, either cumulative or from their last 24 completed semester hours. If you are a non-Business major, you may declare the RMI minor here (https://ucdenverdata.formstack.com/forms/busminor_declaration_for_nonbus_students/). If you are a Business major, you may declare your RMI minor here (https://ucdenverdata.formstack.com/forms/minor_declaration_for_business_students/).

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) for information about Academic Policies

Program Requirements

- Students must maintain or exceed a 2.0 GPA to graduate with the minor.
- Up to 6 of the 18 semester hours required for the minor may be completed at another institution.
- Students must have declared the Risk Management and Insurance minor to register for any of the courses or petition separately to take each of these courses.

Total Hours	36

- ¹ BANA 2010 Business Statistics can be substituted with an upper division stats course such as ECON 3811 Statistics with Computer Applications or MATH 3800 Probability and Statistics for Engineers

Notes

Some of the prerequisite courses may be substituted on a case by case basis. Please see an advisor for details.

All RISK courses have a fixed tuition rate. However, students have the option to apply for RMI scholarships for each RISK course they take (one scholarship per semester).

Commodities Certificate

Introduction

Please click [here](#) (p. 109) to see Business School information.

The Business Schools undergraduate certificates are primarily intended for students currently pursuing a degree in any undergraduate discipline that want to expand their business knowledge to give themselves a leg up when they enter the work force. However, they can also be taken by students with only a high school diploma.

Students can pursue one of our undergraduate certificates, even if they are not CU Denver students. Credit earned as a part of the certificate **does** count towards your undergraduate degree, should you choose to pursue a degree here.

The Business School awards a Certificate (of completion) in Commodities to students completing three finance and commodities courses. Students completing the certificate will have an improved understanding of the complex commodities market. Topics covered include regulation, trading, fundamentals, investing, risk management and ethics on commodity markets. Please contact the Commodities Center for more information.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Please contact the Commodities Center for more information.

Entrepreneurship Certificate

Introduction

Fundamentals of Business Alumni Certificate

Introduction

Please click [here \(p. 109\)](#) to see Business School information.

The AACSB accredited CU Denver Business School provides a business certificate designed to introduce recent graduates from any major to the fundamentals of business and to equip them with the knowledge and skills that complement their major, helping launch their careers.

The business certificate consists of three courses designed for recent college graduates with a bachelor's degree in an area other than business. Emphasis is placed on developing the knowledge and skills that provide a practical business foundation.

Many hiring managers are looking for employees with business skills which may not be acquired in other highly specialized areas of study. The

business fundamentals certificate gives you business knowledge and skills that employers want.

Over 300 business partners participate on boards and advisory councils, provide scholarships, advise on curriculum and provide internships and jobs to business school students.

When you are enrolled, you have access to Business School resources including:

- career coaching
- job opportunities
- networking
- paid internships
- job search boot camps
- career fairs

Program Delivery

- This is an on-campus program.

Undergraduate Certificate in Risk Management and Insurance Studies

Introduction

Please click [here \(https://business.ucdenver.edu/academics/professional-development/credit-certificates/risk-management-and-insurance-undergraduate/\)](https://business.ucdenver.edu/academics/professional-development/credit-certificates/risk-management-and-insurance-undergraduate/) to see additional information about the Undergraduate Certificate in Risk Management and Insurance (RMI) Studies on the Business School website.

Broaden your knowledge of Risk Management and Insurance (RMI) by completing a one-year Certificate in RMI Studies from the University of Colorado Denver. By completing three semester-long RMI courses, all available online, and meeting prior finance course requirements, you will be on your way to enhancing your personal knowledge and providing your employer with RMI awareness and professional skills. Previous course work and some professional designations may waive the prerequisites.

The Risk Management and Insurance industry is actively seeking young talent and the RMI program has 100% job placement of our graduates at competitive salaries. 50% of this industry is retiring in the next 5 to 10 years, leaving a huge need for new talent. The pervasive reality of risk affects all individuals and organizations. Specialized knowledge and understanding of risk increase students' marketability and potential for success across a wide range of industries.

This certificate is for students currently pursuing a degree in any undergraduate discipline that wants to expand their business knowledge of risk management to give themselves a leg up when they enter the workforce. Degree-seeking students are eligible to apply for RMI scholarships each semester they are enrolled in a certificate course. However, this certificate can also be taken by students with only a high school diploma or those that have completed their degree.

Students can pursue this undergraduate certificate, even if they are not CU Denver students. Credit earned as a part of the certificate **does** count towards your undergraduate degree, should you choose to pursue a degree here.

Potential Career Opportunities in Risk Management:

• Underwriter • Broker • Risk Manager • Claims Adjuster • Risk Analyst • Account Executive • Loss Control • Agent

Add an RMI Certificate to your degree in:

• Business • Economics • Math • Actuarial Science • Criminal Justice • Information Technology • Engineering • Other Majors

Program Delivery

- This certificate can be completed fully online or a combination of online and on-campus classes.

Declaring This Certificate

See the Undergraduate Certificate in Risk Management and Insurance Studies (<https://business.ucdenver.edu/academics/professional-development/credit-certificates/risk-management-and-insurance-undergraduate/>) for more information. CU Denver students can contact their advisor to add this certificate to their degree. Non-degree students may contact lori.genuchi@ucdenver.edu for assistance enrolling or for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

Overview

The College of Architecture and Planning offers the only accredited degrees in architecture, planning, and landscape architecture in the State of Colorado as well as the only master's degrees in historic preservation and urban design, and the only doctoral degree in design and planning. The college offers a Bachelor of Science in Architecture degree and graduate programs for over 800 students. Many students intending to enter the design and planning professions complete the college's undergraduate degree as preparation for one of our graduate-level professional programs. Those who already hold an undergraduate degree in an unrelated field are also eligible for admission into our graduate programs. With an outstanding faculty committed to excellence in teaching, research, scholarship and creative work, the college provides students with opportunities beyond the classroom including study abroad, internships, mentorships, and participation in design and planning competitions. The College of Architecture and Planning ignites evolution that enriches places for people and the planet through learning by doing, practicing co-creation, and valuing the unique spark of each person as well as the full range of professional and historical traditions.

College Facilities

The college is located at 1250 14th Street in downtown Denver, on the northeastern edge of the Auraria Campus adjacent to Larimer Square. This favorable location gives easy access both to the extensive campus facilities and the urban dynamism of Denver's lively lower downtown. Most of the major professional design offices in Denver and many planning firms and agencies are nearby, offering many opportunities for contact between students and practitioners. College facilities include studio spaces for students, lecture and seminar rooms, design jury spaces, exhibition spaces and faculty offices. Students have access to our well-equipped and well-maintained 3,000-square-foot Design Fabrication Lab that houses a full-scale wood shop, 3D print lab, a large spray booth and four laser cutters. An annex adjacent to the building provides additional fabrication space, a 5-AXIS CNC Router, metalworking equipment and a CNC Plasma cutter. The Visual Resource Center (VRC) provides access to a variety of photographic and audiovisual equipment, two portfolio photography studio rooms, and digital image collections. There are two computer labs focused on computer aided design (CAD), computer 2-D and 3-D imaging and analytic tools for planning. These computer labs include Windows PCs and Macs, small and large format scanners, large format plotters, laser printers and computer data projection devices. All systems are 100base T Ethernet / Internet savvy and accessible 24 hours a day in secure rooms. Find more details about college facilities on the website. Also associated with the college is a geographic information systems (GIS) computer laboratory, open to all CU Denver students.

Computing in the College

The Bachelor of Science in Architecture program suggests students acquire and use their own computers and software applications during their study. CU Denver neither endorses nor requires a student to procure a machine from a particular vendor. Students are encouraged, but not required, to procure laptops mainly for reasons of security and mobility in studios and classrooms. Software applications (program) requirements relate to specific course curricula. Consult with instructors or refer to course syllabi regarding applications for imaging, computer aided design, modeling or rendering before purchasing.

Undergraduate Information

The Department of Architecture at the University of Colorado Denver offers a Bachelor of Science in Architecture degree program on the downtown Denver campus. The program's design studio-based curriculum combines critical thinking with active making in pursuit of creative solutions to contemporary design problems.

In their first 54-57 credits of study, students learn the fundamentals of design, how to apply them to the design of buildings, neighborhoods and cities, and how to graphically communicate a design solution

Before their final two semesters of the program, students have the option to choose to continue on the Architectural Studies Track or move to the Architectural Design Track. Both tracks will allow students to complete a 4 studio-track professional Master of Architecture degree (MArch) at CU Denver and pursue a professional career in architecture. In addition to offering a strong foundation in architecture, both the Architectural Design and the Architectural Studies tracks prepare students to pursue graduate studies and future careers in allied design disciplines, including Digital Design (games and animation), Industrial Design, Graphic Design, Landscape Architecture, Urban Design, and Real Estate Development, among others.

The Architectural Studies Track offers students a less prescribed path, with greater freedom to shape the direction of their studies in the final two semesters. Based on individual interests and projected career paths, students who choose this track will have the opportunity to focus on one or more areas of study in architecture and/or allied disciplines. These include architectural history/theory, technology, and visualization/design among other options.

The Architectural Design Track is for students who desire additional Design Studios to hone their design skills. This track also prescribes additional history and technical course work to support design thinking and application.

Both tracks prepare students for admission to a two-year (minimum) accredited graduate architecture degree program in the United States, Canada, or compatible degree programs internationally. Advance standing in a Master of Architecture program can be maximized in either track by selecting elective courses in technical studies and professional practice typically recognized by accredited graduate architecture degree programs.

Scholarships/Financial Aid

For information on scholarships, visit the college's website. For information on federal and state financial aid, contact the

Office of Financial Aid
University of Colorado Denver
Campus Box 125

P.O. Box 173364

Undergraduate Advising and Academic Planning

Admissions Advising

Persons not yet admitted to the BS Architecture program can receive advising on course selection, admission requirements and other matters from an undergraduate staff advisor. To make an appointment, call 303-315-1000.

Admitted Students

Students admitted to the BS Architecture program are required to meet with an undergraduate academic advisor prior to registration in their first semester, as well as prior to enrolling in ARCH 2121 Design Studio II - Foundational. Students are also welcome to meet with their advisor as often as needed, in addition to the required meetings. Though the student is ultimately responsible for the decisions made regarding their academic career at CU Denver, advisors are available to assist in helping students make informed decisions.

College of Architecture and Planning Courses

Click here (p. 774) to see a complete list of undergraduate courses.

College of Architecture & Planning Admissions Requirements

Applicants who have a cumulative 3.0 GPA and a Composite score of 24 on the ACT or 1150-1180 on the SAT Total (Math and Evidence-Based Reading and Writing) Score are considered strong candidates for admission to the College of Architecture and Planning. Applicants not meeting requirements for direct admission to the College of Architecture and Planning may be considered for admission to the College of Liberal Arts and Sciences with a Pre-Architecture interest.

College of Architecture & Planning Departments and Programs

- Architecture (p. 157)
- Architecture, BS (p. 162)

(For Graduate Programs and information please refer to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-architecture-planning/>) catalog.)

College of Architecture & Planning Graduation Requirements

For additional information regarding Graduation policies and procedures, please visit the Graduation section of the catalog.

Foreign Language Proficiency

BS Architecture students are required to demonstrate a minimum level of proficiency in one foreign language. This requirement is met through the completion of one of the following:

- A second year (level II) high school course with minimum grade of C- or 1.7
- A second semester level college course (1020) with a minimum grade of C- or 1.7
- Satisfactory proficiency testing. Contact the CU Denver Department of Modern Languages at 303-315-7234 for details

Repeating Courses

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C- grade in required architecture and math courses, including design studios. Required architecture courses must be repeated if the student earns less than a C- grade.

Residency Requirement

Students must complete a minimum of 30 credit hours from CU Denver. Students must also satisfactorily complete three Architecture Design Studios (18 credit hours) at CU Denver.

Undergraduate Upper-Division Requirement

Students must complete a minimum of 45 upper-division (3000-4000 level) credit hours.

Courses from Other Institutions

Grades of C- or better must be earned in courses from other institutions to receive undergraduate bachelor degree credit. Courses from other institutions will be transferred and applied based upon current transfer credit policies and limitations established by the College of Architecture and Planning and the University of Colorado Denver. Students should consult with the undergraduate academic advisor prior to taking courses from other institutions to determine applicability to BS Architecture degree requirements.

A maximum of twelve credit hours may be transferred from other institutions as Architecture electives (prefix ARCH) or CAP electives (any prefix used in the College of Architecture and Planning). Transfer credit award for Visualization courses and Design Studios are contingent upon a satisfactory portfolio review.

The maximum number of credit hours applied to individual architecture major requirements from transfer coursework must not exceed the number of credit hours given to its equivalent CU Denver course. Excess credit hours from architecture-related transfer coursework will not count toward the 120 credit hours needed for the BS Architecture degree.

Major

Complete all requirements associated with your individual major.

Applying for Graduation

All students **MUST** meet with their advisor at the beginning of their final term for a graduation check-out appointment. We recommend students schedule an appointment **PRIOR** to the add/drop deadline of their final

term in case schedule adjustments need to be made to fulfill final degree requirements. After meeting with their advisor, students should apply for graduation online through UCDAccess.

College of Architecture and Planning Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 93) section of the catalog.

Independent Study and Internships

Architecture students desiring to work beyond regular course coverage may take variable credit courses (1-3 hours) as either an internship or an independent study, both of which would count as architecture or CAP electives. The total combination of independent study and internship credit may not exceed 9 semester hours toward Architecture electives.

- **Architecture Independent Study:** A maximum of 6 semester hours of independent study credit may count toward Architecture electives. Requires department approval, including the completion of the Independent Study Worksheet with the Academic Advisor, and a faculty advisor to serve as the instructor.
- **Architecture Internship:** A maximum of 6 semester hours of internship credit may count toward Architecture electives. Graduate credit requires department approval, including the completion of the Special Processing Form, and the Director of Professional Development + Internships serves as the instructor. Undergraduate internships are administered through the Office of Experiential Learning.

Two independent studies or two internships will not be allowed in any one semester

Grade Appeals

Any student wishing to appeal a course grade must first contact the course instructor to discuss issues pertaining to the student's performance, evaluation criteria, final grade, reason(s) for the appeal, and adjustment sought. If the course instructor determines that a change of grade is not warranted and the disagreement remains unresolved, the student may then initiate the formal appeal process. Please visit the College of Architecture and Planning Student Policies, Handbooks, and Forms (<https://architectureandplanning.ucdenver.edu/studentresources/academic-advising/policies-handbooks-forms/>) page for additional information.

Incomplete Grade Policy

The College of Architecture and Planning recognizes that a student's normal course of study may be unexpectedly interrupted owing to circumstances beyond the student's control.

It is the student's responsibility to communicate with the instructor about any such circumstance or event that may prevent full completion of coursework as outlined in the course syllabus. Further, it is the student's responsibility to provide documentation of any circumstances beyond their control prohibiting course completion (e.g. doctor's note for medical emergency), when requested by the instructor.

Incomplete grades are not awarded for poor academic performance or as a means of extending assignment deadlines. To qualify for an

incomplete grade, a student will typically have completed a majority of course requirements with a passing grade. The option of an Incomplete is not guaranteed, and the decision to award an Incomplete is at the sole discretion of the course instructor. Students who feel that a denial of a request for an incomplete is unreasonable may appeal through the grade appeal process.

If an *Incomplete* is to be awarded, the instructor should use the CAP Incomplete Grade Report Form to document the student's grade at the time of interrupted study, all outstanding coursework, the timeline for completion, and the expected method of collecting owed assignments (e.g. emailed written assignment, or, in-person proctored exam, etc.). The student is expected to complete the course requirements within the established deadline. The student should **not** re-enroll for the entire course in a future term while the *Incomplete* is pending. While an *Incomplete* grade is pending, the course is not considered to be complete; thus, if the course serves as a pre-requisite for a future course, the student may not enroll in any dependent course until all material is completed and a passing letter grade is officially entered. Students may be administratively withdrawn from courses for which pre-requisites have not been met. The *Incomplete* grade will be automatically converted to a *Failing* grade (F) after one calendar year if the specified work is not completed. If the grade at time of approved Incomplete is higher than an (F), the student may request a change of record form to record the higher grade.

The student is responsible for requesting an incomplete grade and submitting all of the appropriate paperwork and obtaining approvals. Please contact CAPUGAdvising@ucdenver.edu for additional information.

Pass/Fail

The Pass/Fail grading policy may be used for a maximum of 6 credit hours toward any of the required 120 credit hours of the BS Architecture degree. Courses taken in excess of the maximum will not be applied toward degree credit. Courses taken as Pass/Fail are subject to the same minimum grade standards as specified for BS Architecture degree requirements (i.e. courses that require a minimum grade of C- will require a P+ in the Pass/Fail grading policy to fulfill the degree requirement). If the P+ grade option is unavailable, courses requiring a C- or higher grade cannot be fulfilled by Pass/Fail grading.

Pass/Fail grading determination must be made within the deadlines posted on the academic calendar by the CU Denver Registrar's Office and may not be rescinded. ***Students are strongly encouraged to check in with CAP Undergraduate Advising before electing Pass/Fail grading.***

Attendance Policy

Students are expected to attend all meetings of classes. Excessive unexcused absences may result in a grade reduction at the discretion of the instructor. Absence from a class will be excused for verified medical reasons, religious obligations or for extreme personal emergencies. The student may be required to furnish evidence.

TIMELINESS OF WORK

Students' assignments are to be completed in a timely manner. Any assignment turned in late may have its grade reduced by an amount set at the discretion of the instructor. An assignment may be turned in late without penalty for verified medical reasons, religious obligations or for extreme personal emergencies. Students must have their instructor's written permission to turn an assignment in late. Students with excused late work may turn in the assignment by the end of finals week without

penalty. Otherwise, the grade "I" will be assigned at the discretion of the faculty.

Course Repeat Policy

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C- grade in required architecture core courses, including design studios. Architecture core courses must be repeated if the student earns less than a C- grade.

Requisites

Prerequisites

Students must abide by all published prerequisites and corequisites, including minimum grades. The College of Architecture and Planning reserves the right to administratively drop students who enroll without the necessary prerequisites or corequisites.

Prerequisite Checking

Programs in the college are structured so that certain courses must be taken concurrently, others sequentially. Students will not be allowed to enroll in a course if its co-requisites or prerequisites have not been satisfied.

Undergraduates Taking Graduate Coursework

With prior written approval of the architecture department chair or undergraduate advisor, students may take a maximum of 6 semester hours of graduate-level architecture elective credits. GPA and class standing review may be required. Graduate-level courses from other departments must be reviewed and approved by the architecture department chair or undergraduate advisor for applicability to degree requirements.

Intra-University Transfer (IUT)

Students who want to transfer to the BS Architecture program from another college or school of the University of Colorado Denver must formally apply to the College. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form to the undergraduate advisor. Transfer forms are available at the Office of Registrar or the College Undergraduate Advising Office; transcript request forms are available at the Office of the Registrar. Transfer deadlines are August 1 for fall semester, December 1 for spring semester and May 1 for the summer session. Students must have earned a minimum of 12 University of Colorado Denver semester hours and have a 2.300 cumulative University of Colorado GPA to be eligible for an IUT to the BS Architecture program.

Other University of Colorado Campus Coursework

BS Architecture students must have the written approval of the BS Architecture director or undergraduate academic advisor to register for courses (excluding MSUD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C or better must be earned to receive the undergraduate bachelor's degree credit. Generally, only non-architecture electives or lower-division, non-architecture requirements are acceptable for transfer from other institutions once a student has been admitted to the BS Architecture Program. Students who, after admission

to the college, take more than 12 semester hours from another institution, must reapply for admission to the college as transfer students and must meet the current admission requirements.

The maximum number of credit hours applied to individual architecture major requirements from transfer coursework must not exceed the number of credit hours given to its equivalent CU Denver course. Excess credit hours from architecture-related transfer coursework will not count toward the 120 credit hours needed for the BS Architecture degree.

Degrees

The College of Architecture and Planning offers a pre-professional Bachelor of Science in Architecture (BSArch) degree and the professional Master of Architecture (MArch) degree which is fully accredited by the National Architectural Accrediting Board (NAAB).

(For Graduate Programs and information please refer to the [Graduate](#) catalog.)

Programs

- Architecture, BS (p. 162)

(For Graduate Programs and information please refer to the [Graduate](#) catalog.)

Faculty

Professors:

Amir Ameri, PhD, Cornell University
Julee Herdt, MArch, Southern California Institute of Architecture
Michael K. Jenson, PhD, University of Edinburgh
Laurence K. Loftin III, MArch, University of Virginia
Marc Swackhamer, March, Rice University
Ekaterini Vlahos, MArch, University of Colorado Denver

Associate Professors:

Osman Attmann, PhD, Georgia Institute of Technology
Christopher Koziol, PhD, University of Colorado Denver

Assistant Professors:

Erik Sommerfeld, MArch, University of Colorado Denver
Kevin Hirth, MArch, Harvard Graduate School of Design
Matthew Shea, MArch, University of Colorado Denver

Assistant Professors (Clinical Teaching Track):

Barbara Ambach, MArch, Southern California Institute of Architecture

Visiting Assistant Professors:

Annicia Streete, MArch, University of Colorado Denver

Instructors:

Matt Gines, MArch, University of North Carolina Charlotte
Jo Vanenburg, MArch, University of Colorado Denver

Visiting Instructors:

Mira Woodson, MFA, University of New Mexico

Visiting Teaching Fellow:

Will Koning, MArch, University of Colorado, Denver

Additional information about faculty in this department is available on the college website. (<https://architectureandplanning.ucdenver.edu/>)

Architecture (ARCH)

ARCH 1110 - Introduction to Architecture (3 Credits)
 Introduces students to the essential ways of looking at and thinking about buildings, sites and cities, exposing students to the various perspectives, positions and practices that they will encounter in both an architecture curriculum and in architectural practice. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 1710 - Architectural Drawing: Analysis and Representation (3 Credits)

This course explores the development of graphic skills emphasizing drawing as a means to analyze and represent architectural ideas throughout the design process. Using freehand and mechanical drawing methods students will learn the conventions and opportunities of the three architectural projections. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 1711 - Architectural Visualization I (3 Credits)

First in the sequence of two visual studies courses, this course introduces students to the fundamental principles of two and three-dimensional visual analysis and communication. Students are taught basic drawing and model-making conventions, both mechanical and digital, and how to use drawings and models as design and communication tools. No co-credit with ARCH 2110. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 1721 - Architectural Visualization II (3 Credits)

Second in the sequence of two visual studies courses, this course introduces students to advanced principles of two and three-dimensional visual analysis and communication. Students are introduced to advanced mechanical and digital communication techniques and the use of drawings and models as design and communication tools. Prereq: ARCH 1711. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. No co-credit with ARCH 3801. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 1711. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 2110 - Design Studio I (3 Credits)

Introduces students to the principles of design and composition through studies of architecture's formal, spatial, and geometric systems. Students explore these using a variety of drawing techniques including diagramming and drawings that are exploratory, analytical and developmental. No co-credit with ARCH 1711. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 2111 - Design Studio I - Foundational (6 Credits)

First in the sequence of two foundational design studio courses, this course introduces students to the fundamental principles of three-dimensional design and composition. Students learn to translate and express ideas through willful manipulation of form and space, in a sequential series of exercises. Prereq or Coreq: ARCH 1711. No co-credit with ARCH 3110. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ARCH 1711.

ARCH 2121 - Design Studio II - Foundational (6 Credits)

Second in the sequence of two foundational design studio courses, this course introduces students to the formal and spatial vocabulary of Architecture and its organizational principles through a series of micro-scale architectural design exercises. Prereq: ARCH 2111 and ARCH 1711. Coreq or Prereq: ARCH 1721. No co-credit with ARCH 3120. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2111 and ARCH 1711. Coreq or Prereq: ARCH 1721.

ARCH 2230 - Architectural History I (3 Credits)

Introduces architecture and urbanism from prehistory to the mid-seventeenth century by exploring the social, cultural, technical, philosophical and aesthetic ideas that shaped buildings and other architectural and urban settings in different parts of the world. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 3110 - Design Studio II (6 Credits)

Introduces students to the expressive potential of architecture's elements and systems. Students explore techniques for translating and expressing ideas in buildings through the static, dynamic and sequential manipulation of architectural form and space. Prereq: ARCH 2110. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. No co-credit with ARCH 2111. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2110 Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 3111 - Design Studio III - Elemental (6 Credits)

First in the sequence of two foundational design studio courses, this course introduces students to the fundamental principles of three-dimensional design and composition. Students learn to translate and express ideas through willful manipulation of form and space, in a sequential series of exercises. Prereq: ARCH 2121 and ARCH 1721. No co-credit with ARCH 4110. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2121 and ARCH 1721.

ARCH 3120 - Design Studio III (6 Credits)

Focuses on the design of buildings in their relationship to physical, natural and cultural contexts. Students explore non-formal concepts and translate them into architectural experiences that integrate program, site and climate. Prereq: ARCH 3110. Restriction: Must be an undergraduate Architecture student. No co-credit with ARCH 2121. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3110 Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 3121 - Design Studio IV - Elemental (6 Credits)

Second in the sequence of two elemental design studio courses, this course focuses on the design of small-scale buildings to advance students' understanding of the role of context in design communication. Students learn to translate non-formal concepts into sequential architectural experiences in deference to program and site. Prereq: ARCH 3111. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. No co-credit with ARCH 4120. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3111. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 3130 - Construction Practices: Material and Structural Systems (3 Credits)

Provides an overview of the materials, systems, assemblies and processes that inform the design and construction of buildings, reviewing the building technologies and developing student understandings of the interrelationship between the interconnected elements and systems that define buildings and spaces. Prereq: PHYS 2010/2030 and MATH 1130 are recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to sophomore standing or higher.

ARCH 3230 - Architectural History II (3 Credits)

Introduces architecture and urbanism from the mid-seventeenth century to the present, exploring the forces that shaped buildings and other architectural and urban settings in different parts of the world. Prereq: ARCH 2230. Restriction: Open to all undergraduate majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2230 Restriction: Open to all undergraduate majors.

ARCH 3330 - Building Systems I (3 Credits)

Introduces the concepts of thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control, plumbing, electrical, communication systems, water supply and sanitation systems. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 3340 - Theory of Structures I (3 Credits)

Introduction to the analysis and design of structural elements and focuses on the principles of statics and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 3430 - Construction Practices: Building Envelope (3 Credits)
 Discusses the principles and processes of building construction and introduces the major systems and assemblies that inform construction practices. Stresses the relationship between architectural concepts and emerging building technologies, teaching students how to select appropriate materials, systems and assemblies. Prereq: ARCH 3130. Restricted to sophomore standing or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ARCH 3130. Restricted to sophomore standing or higher.

ARCH 3600 - Special Topics Cultural (3 Credits)
 Special topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking. Repeatable. Max hours: 24 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 24.
 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3602 - Architecture Photography (3 Credits)
 Architecture elective in photography of space, interior, and exterior with an emphasis on design composition of architecture. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3690 - Cultural Research Abroad (3 Credits)
 Topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking in other cultures. Work shall include preparation in culture, history and language skills in other countries. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Restrictions: Restricted to Junior standing or higher.

ARCH 3691 - Cultural Design Abroad (3 Credits)
 Design topics in architecture studies related to cultural inquiries including design, cultural implications of design, and/or cross cultural application of design. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Restrictions: Restricted to Junior standing or higher.

ARCH 3692 - International: Project Delivery (3 Credits)
 This course is the delivery of the design solution developed in ARCH 3703. Critical thinking skills will be honed as students respond to construction material and technology limitations during the 10 day build in a South American cultural setting. Prereq ARCH 3703. Restriction: Restricted to undergraduates with a Junior standing or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq ARCH 3703. Restricted to undergraduates with a Junior standing or higher.

ARCH 3693 - Rome: Architecture & Urbanism (3 Credits)
 The objective of this course is to provide a broad overview of the city's major architectural sites, topography, infrastructure and systems of urban design and organization through the study of the rich palimpsest of buildings, piazzas and landscapes from antiquity to the present day. Coreq. ARCH 3694 Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6755. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Coreq: ARCH 3694. Restriction: Restricted to undergraduate BS-ARCH students with Junior standing or higher.

ARCH 3694 - Rome: Documentation, Analysis and Design (3 Credits)
 With graphic representation as the primary mode of inquiry, this course is an intensive study of a single building, piazza or landscape within the rich urban fabric of Rome. The graphical inquiry will be supported by pre-departure research and onsite observation and presentations. Coreq: ARCH 3693. Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6760. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Coreq: ARCH 3693. Restriction: Restricted to undergraduate BS-ARCH students with Junior standing or higher.

ARCH 3700 - Special Topics Design (3 Credits)
 Special topics in architecture studies related to design inquiries including theory, design skills, and/or analytical thinking. Repeatable. Max hours: 24 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 24.
 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3701 - Survival Sketching (3 Credits)
 The focus of this course will be the sketchbook and the keeping of a sketchbook. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3702 - Design Thinking (3 Credits)
 Students will be introduced to tools that will enable them to reframe design dilemmas in favor of productive resolutions. Course content will include examples and specific techniques of design thinking, including empathy, abductive reasoning, testing, plussing and diagramming. Prereq: sophomore standing or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restrictions: Restricted to sophomore standing or higher.

ARCH 3703 - International: Design in Context (3 Credits)
 The course is a project-based design seminar. In collaboration with a small community in Central America, students have the opportunity to engage in the context of another culture, environment, construction limitations and economic constraints. The course integrates architecture, engineering, and business. Restriction: Restricted to ARCH-BS majors with Junior standing. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to ARCH-BS majors with Junior standing.

ARCH 3704 - The Poetic Detail-Studies in Tectonics—Wood (3 Credits)
 This research seminar focuses on tectonics through traditional timber frame and wood construction case studies. The relationship between function, aesthetics, detail, and tectonics are explored in relation to contemporary concerns. Learning by making. Cross-listed with ARCH 6357. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3705 - Human Centered Design, Innovation and Prototyping (3 Credits)

Introduces techniques for collaborative design by interdisciplinary teams: design thinking, problem solving, and rapid prototyping. Teams of students design and implement increasingly complex projects while acquiring essential innovation and problem-solving skills. The course will culminate in a final project chosen by each team. Cross-listed with IWKS 2100. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3706 - 3D Design, Computation, and Prototyping (3 Credits)

Introduces the design and computer-controlled fabrication of three-dimensional objects using both additive (3D printing) and subtractive (laser cutter, CNC router/mill) processes. Various commercial and open-source software tools for 3D design (CAD), manufacturing (CAM) and visualization will be explored. Increasingly complex projects throughout the semester will be used to illustrate fabrication techniques. The course will culminate in a final project. Restriction: Restricted to ARCH-BS majors with sophomore standing. Cross-listed with IWKS 3100 and 5170. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3707 - Color Theory + Application (3 Credits)

This course will explore Color perception and theory; media/medium technique/application and landscape/built-environment drawing preparation, composition and presentation. The objective is to develop your understanding of color interaction and interrelationship especially, as it pertains to the use of color in the design and implementation of the built environment. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3708 - Introduction to the Essentials of Biomimicry (3 Credits)

Biomimicry is the conscious emulation of nature's genius that can be applied to the fields of design, engineering, medicine, transportation, and social interaction. This class will be geared towards designers and will give an overview of the discipline, the (3) Essential Elements, the human-nature connection, The Biomimicry Thinking Methodology, and Life's Principles. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3709 - Furniture Design (3 Credits)

Students learn how to design and build furniture in the College's woodshop. Topics include ergonomics, properties of materials, principles and techniques of joinery and techniques of hand and machine tools. Cross-listed with ARCH 6180. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3800 - Special Topics - Technical (3 Credits)

Special topics elective will include coursework in either Digital Media In Design courses, Design-Build site Construction, or the Science and Art of Engineering Buildings. Additional topics will be develop in conjunction with the required undergraduate technical electives. Restriction: Must be an undergraduate Architecture student with sophomore standing or higher. Repeatable. Max hours: 24 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 24.

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3801 - Introduction to Digital Media (3 Credits)

Introduces Building Information Modeling (BIM) systems as a means to integrate and optimize design processes and building systems in the professional practice of architecture. Topics include creation of simulated, complex, three-dimensional environments in support of the architectural design studio sequence. No co-credit with ARCH 1721. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3802 - Arch Project Presentation (3 Credits)

Architecture elective in digital and analog methods of presentation and composition for various audiences and formats. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3804 - Green Tech Eco-Furniture Fabrication I (3 Credits)

Green Tech I is the first of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3806. Cross-listed with ARCH 6375. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ARCH 3806 Restriction: Restricted to ARCH-BS majors with sophomore standing or higher

ARCH 3805 - Beginning Revit (3 Credits)

Introduction to Building Information Modeling through Autodesk's Revit Architecture software. The course explores fundamental architectural concepts as they are developed and expressed in Revit. Appropriate program use and team learning experiences are emphasized. Prereq: ARCH 3110 and 3130. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3110 and 3130 Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3806 - Green Tech Eco-Furniture Fabrication II (3 Credits)

Green Tech II is the second of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3804. Cross-listed with ARCH 6376. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ARCH 3804 Restriction: Restricted to ARCH-BS majors with sophomore standing or higher

ARCH 3807 - Small Eco Home Design & Fabrication (3 Credits)

This unique, quick-paced seminar focuses on small-scale residential design, from tiny-homes, to prefab, and movable residences. Students learn Small Home design, methods, and techno-systems, then using green materials, they design and fabricate architectural elements and furniture for enhancing small-scale living. Restriction: Restricted to ARCH-BS majors with sophomore standing. Cross-listed with ARCH 6377. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3808 - Architectural Design and Fabrication (3 Credits)

This course explores architectural production using advanced 3D-modeling, fabrication, and construction documentation techniques. The course connects contemporary design practice with material experimentation and architectural production. Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing.

ARCH 3809 - Architectural Design and Graphics (3 Credits)

This course explores the varied mediums of graphic representation in architecture. Using advanced tutorials in 3D-modeling, computer-generated rendering, and workflows through multiple software platforms, students will create work that is reflective of contemporary architecture culture. Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing.

ARCH 3949 - Internship I (1-3 Credits)

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Prereq: Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

ARCH 4110 - Design Studio IV (6 Credits)

Design Studio IV. Introduces students to analysis and design as complementary processes. Students learn how to form design intentions based on analytical research and close study of the relationship between architecture, precedent and culture, and to consider buildings as settings that address issues of culture, society, economy and ecol. Prereq: ARCH 3120. No co-credit with ARCH 3111. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3120 Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 4111 - Design Studio V - Analytical (6 Credits)

First in the sequence of two analytical design studio courses, this course introduces students to analysis and design as complementary processes. Students learn how to form design intentions based on analytical study of the relationship between architecture and culture. Focused on the design of small-scale buildings, students learn to incorporate structure, light, and material as expressive elements of an architectural composition. Prereq: ARCH 3121. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3121. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 4120 - Design Studio V (6 Credits)

Explores the place and role of architecture as an instrument of critical social engagement and cultural change, the role of history and precedent in the design process, and the role of detail through projects that demonstrate student's proficiency as designers. Prereq: ARCH 4110. No co-credit with ARCH 3121. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 4110 Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 4121 - Design Studio VI - Analytical (6 Credits)

Second in the sequence of two analytical design studio courses, this course advances students' understanding of the relationship between architecture and culture and their ability to design intermediate scale buildings as effective settings for cultural rituals. Students explore the role of history and precedent in the design process along with the role of detail in architectural compositions. Prereq: ARCH 4111. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 6 credits.

Grading Basis: Letter Grade

Prereq: ARCH 4111. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 4220 - A History of Theoretical Discourse on Architecture (3 Credits)

This course traces the history of theoretical discourse on architecture from the Renaissance to the present. It explore the genealogy of current theoretical stances and critical methodologies in the discipline of Architecture through the close reading of a select group of historic and contemporary texts. Prereq: ARCH 3230. Cross-listed with ARCH 6220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 6220

ARCH 4340 - Theory of Structures II (3 Credits)

Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel, and wood structural systems and members. Prereq: ARCH 3340. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3340 Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 4440 - Building Systems II (3 Credits)

Focuses on the environmental systems in commercial and other nonresidential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection.

Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergrad ARCH students within the College of Architecture and Planning. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning

ARCH 4610 - A History of American Architecture (3 Credits)

This course investigates the history of architecture in the United States as a chronological survey of buildings, architects, landscapes, and urban forms and as an exploration of the social, political, economic, technological, and similar issues that inform this built environment.

Prereq: ARCH 2230 and 3230. Cross-listed with ARCH 6210. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2230 and ARCH 3230.

ARCH 4612 - A History of Modern Architecture (3 Credits)

This course traces the various theoretical and formal developments in European and American Architecture from the end of the 19th century through the 20th century. The works of a select group of architects will be examined and discussed in relation to the diverse body of goals and objectives, ideas and ideals that constituted the Modern movements in architecture. Prereq: ARCH 2230. Restriction: Restricted to Sophomore standing or higher. Cross-listed with ARCH 6212. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2230 Restriction: Restricted to Sophomore standing or higher

ARCH 4840 - Independent Study (1-3 Credits)

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to architecture.

Prereq: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher.

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 4949 - Internship II (1-3 Credits)

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Introduction

Please click here (p. 157) to see Architecture department information.

The Department of Architecture at the University of Colorado Denver offers a Bachelor of Science in Architecture degree program on

the downtown Denver campus. The program's design studio-based curriculum combines critical thinking with active making in pursuit of creative solutions to contemporary design problems.

In their first three years of study, students learn the fundamentals of design, how to apply them to the design of buildings, neighborhoods and cities, and how to graphically communicate a design solution.

Before their final two semesters of the program, students have the option to choose to continue on the Architectural Studies Track or move to the Architectural Design Track. Both tracks will allow students to complete a 4 studio-track professional Master of Architecture degree (MAarch) at CU Denver and pursue a professional career in architecture. In addition to offering a strong foundation in architecture, both the Architectural Design and the Architectural Studies tracks prepare students to pursue graduate studies and future careers in allied design disciplines, including Digital Design (games and animation), Industrial Design, Graphic Design, Landscape Architecture, Urban Design, and Real Estate Development, among others.

The Architectural Studies Track offers students a less prescribed path, with greater freedom to shape the direction of their studies in the final two semesters. Based on individual interests and projected career paths, students who choose this track will have the opportunity to focus on one or more areas of study in architecture and/or allied disciplines. These include architectural history/theory, technology, and visualization/design among other options.

The Architectural Design Track is for students who desire additional Design Studios to hone their design skills. This track also prescribes additional history and technical course work to support design thinking and application.

Both tracks prepare students for admission to a two-year (minimum) accredited graduate architecture degree program in the United States, Canada, or compatible degree programs internationally. Advance standing in a Master of Architecture program can be maximized in either track by selecting elective courses in technical studies and professional practice typically recognized by accredited graduate architecture degree programs.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Architecture and Planning Graduation Requirements (p. 154)
- Click here (p. 93) for information about Academic Policies

Program Requirements

All BS Architecture students will take common required foundational courses (54-57 credit hours) to learn the fundamentals of design, how to apply them to the design of buildings, neighborhoods and cities, and

how to graphically communicate a design solution. Before their final two semesters of the program, students in the BS Architecture program will choose one of two tracks with different course requirements. All students are enrolled in the Architectural Studies Track when declaring the BS Architecture major. Before the final two semesters in the program, students must choose to either stay in the Architectural Studies Track (p. 163) or opt-into the **Architectural Design Track**. Each track has 27 credits of specified course work to complete the degree. Students should meet with their CAP academic advisor for guidance on determining which track is best suited for their academic and professional goals

Below is the required course list for BS Architecture, which shows both the common curriculum for all BS Architecture majors, as well as the requirements for the individual tracks. Students will not take the requirements for both the Architectural Studies Track and the Architectural Design Track. Students will choose just one of the 27-hour track to follow:

Code	Title	Hours
Representation Studies		6
ARCH 1711	Architectural Visualization I	
ARCH 1721	Architectural Visualization II	
Design Studies		24
ARCH 2111	Design Studio I - Foundational	
ARCH 2121	Design Studio II - Foundational	
ARCH 3111	Design Studio III - Elemental	
ARCH 3121	Design Studio IV - Elemental	
Cultural Studies		9
ARCH 1110	Introduction to Architecture	
ARCH 2230	Architectural History I	
ARCH 3230	Architectural History II	
Technical Studies		6
ARCH 3130	Construction Practices: Material and Structural Systems	
ARCH 3430	Construction Practices: Building Envelope	
Math Courses/Sets ¹		4-7
Select one of the following sequences:		
<i>Sequence A</i>		
MATH 1110	College Algebra	
& MATH 1120	and College Trigonometry	
<i>Sequence B</i>		
Select one of the following:		
MATH 1130	Precalculus Mathematics	
MATH 1401	Calculus I	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
Physics ²		5
PHYS 2010	College Physics I	
PHYS 2321	Intro Experimental Phys Lab I	
Select ONE of the Required Tracks:		27
<i>Architectural Studies</i>		
15 hours of Architecture Electives (ARCH prefix)		
12 hours of CAP electives (Any prefix in the College of Architecture and Planning)		
<i>Architectural Design</i>		
ARCH 4111	Design Studio V - Analytical	

ARCH 4121	Design Studio VI - Analytical
ARCH 3330	Building Systems I
ARCH 3340	Theory of Structures I
ARCH 36XX	Any History/Cultural Architecture elective
6 hours of CAP electives (Any prefix in the College of Architecture and Planning)	
Total Hours	81-84
1	Also applies to the Core Math requirement
2	Also applies to the Core Biological and Physical Sciences requirement

Additional General elective hours may be needed to reach the required 120 hours for the BS Architecture degree. A maximum of 72 CAP credit hours (courses within the ARCH, LDAR, HIPR, and URPL prefixes) may be applied toward the 120 credit hours required for the BS Architecture degree. LDAR 1015 will not be counted toward this 72 credit hour maximum.

Note: Required math and physics courses may apply toward General electives if not already applied toward Core Math and Biological and Physical Sciences requirements.

BS Architecture Tracks:

Before their final two semesters of the program, students will choose to continue on the Architectural Studies Track or move to the Architectural Design Track. Both tracks will allow students to complete a 4 studio-track professional Master of Architecture degree (MArch) at CU Denver and pursue a professional career in architecture. In addition to offering a strong foundation in architecture, both the Architectural Design and the Architectural Studies tracks prepare students to pursue graduate studies and future careers in allied design disciplines, including Digital Design (games and animation), Industrial Design, Graphic Design, Landscape Architecture, Urban Design, and Real Estate Development, among others.

Architectural Studies Track Requirements:

The Architectural Studies Track offers students a less prescribed path, with greater freedom to shape the direction of their studies in the final two semesters. Based on individual interests and projected career paths, students who choose this track will have the opportunity to focus on one or more areas of study in architecture and/or allied disciplines. These include architectural history/theory, technology, and/or visualization, among other options.

Code	Title	Hours
15 hours of Architecture Electives (ARCH Prefix)		15
12 hours of CAP Electives (Any prefix used in the College of Architecture and Planning)		12
Total Hours		27

NOTE: Any of the specific courses listed in the Architectural Design sub-plan may be taken and will count as ARCH electives.

Architectural Design Track Requirements:

The Architectural Design Track is for students who desire additional Design Studios to hone their design skills. This track also prescribes additional history and technical course work to support design thinking and application.

Code	Title	Hours
ARCH 4111	Design Studio V - Analytical	6
ARCH 4121	Design Studio VI - Analytical	6
ARCH 3330	Building Systems I	3
ARCH 3340	Theory of Structures I	3
ARCH 36XX-Any History/Cultural Architecture elective		3
6 hours of CAP electives (Any prefix used in the College of Architecture & Planning)		6
Total Hours		27

Overview

Mission

Our mission is to effect change by preparing students to successfully pursue their passions.

Our students acquire the skills they need to excel in an academically rigorous, experiential learning environment energized by creative exchange, real-world experience and diversity of voice.

Core Values

Creative Excellence - Academic and artistic rigor, creativity and innovation are bedrock principles of the CAM community and the cornerstone of how

we define excellence. As champions of creative excellence in art making and artistic expression we support risk-taking, intellectual freedom and social responsibility.

Discovery - We believe in a culture of shared discovery. Our students learn by doing, and as emerging peers, are important contributors to the knowledge exchange. We value rigorous investigation, critical thinking, diversity, collaboration and invention.

Denver - We are committed to learning both inside and outside the classroom. The accessibility, diversity and cultural energy of Denver make CAM a better place to teach, work and learn. We strive to offer reciprocal experiences to the citizens of this great city and pay it forward by extending our reach and impact in the global community.

Facilities

CAM is committed to both traditional and new technologies and celebrates the dynamic synergy between the two. CAM students can take advantage of superb studios, laboratories, editing facilities, equipment, screening rooms, galleries and performance spaces on campus. Students across all three CAM departments create work in computer labs where equipment and software are upgraded regularly. Most CAM studios are open for use by enrolled CAM students when classes are not scheduled. However, policy mandates that all equipment can only be used for class related projects. CAM is constantly working to enhance and add to its facilities; see below for just some of the resources.

Music & Entertainment Industry Studies Facilities

- Five recording studios
 - Three studios include surround sound capabilities
 - All studios are ProTools equipped
- Large inventory of microphones and outboard equipment available
- Vintage keys collection, including DX-7, ARP Odyssey, ARP 2600, MiniMoog, PolyMoog, D-10, Hammond B3 and Rhodes
- MIDI lab featuring ProTools, Logic and Ableton Live; supplemental access to three CAM computer labs
- Consoles, including SSL AWS 924, Yamaha DM2000, AVID S6 and Mackie 32x8 Bus, as well as an Avid Artist Control Surface
- 16-station piano lab featuring Apple Macintosh iMac computers with a wide selection of musical and songwriting/composition software applications
- Eight performance teaching studios
- 12 practice suites
- Private teaching studios for voice, piano, guitar, bass, drum kit and percussion
- Audio/video forensics labs at the National Center for Media Forensics
 - Computer lab featuring multimedia analysis and processing software such as Cognitech, Ocean Systems, DAC, Agnitio, iZotope Rx Advanced, Adobe Creative Cloud, MATLAB, EnCase, Cellebrite and CEDAR Cambridge hardware/software systems
 - Security DVR and camera lab
 - Graduate student workstations accessible from anywhere in the world via Remote Desktop Connection
 - ENF (Electric Network Frequency) databases around the US

Visual Arts Facilities

- Photography labs with black-and-white, non-silver, digital imaging and color capabilities, and large-format digital, color, and black and white printing (four large wet labs, individual color darkrooms, an RA4

color processor, an alternative process darkroom and a fully-outfitted digital lab with large-format Epson printers).

- Transmedia sculpture lab with wood shop, metal shops and a foundry, as well as digital facilities (metal and wood fabrication, mold casting/design, digital modeling, electronic art, foundry casting, and teaching gallery).
- Drawing and painting studios with flexible open space and excellent natural and studio lighting (studio classrooms with roll-out computers, projectors and small monotype presses, screen printing facilities, digital lab access and large format printing).
- Digital design labs, computer labs, sound booths, editing suites, and video and digital cameras for student use
- Digital Animation Center computer labs and motion capture studio
- Illustration studios including state-of-the-art computer labs using Adobe software and open hands-on studio facilities (design, drawing, painting, printmaking, 3D sculpting equipment).
- Auraria Visual Resources Center digital collection of contemporary and historical images, music and video
- Emmanuel Gallery and Next Stage Gallery, public arts spaces for student and faculty exhibitions and special exhibition events
- Community partnerships with the Museum of Contemporary Art Denver, Redline Gallery, the Denver Performing Arts Center and more.

Film & Television Facilities

- Two Apple computer labs utilizing the Adobe Creative Suite as well as other industry-level software applications
- Equipment cage stocked with state-of-the-art tools for video production, including 4-6K cameras, HD cameras, lighting, sound and grip equipment
- Three "black box" production studios
- Scenic shops: wood, metal and paint
- Three full-size green screens
- Auraria Media Center, with two 3-camera TV studios with full control rooms, isolation booth and lighting control
- 120-seat movie theatre/classroom with a 2K projector and surround sound

Kenneth King Academic and Performing Arts Center

- 520-seat Concert Hall
- 268-seat Eugenia Rawls Courtyard Theatre - proscenium theater with optional thrust stage
- 200-seat Recital Hall
- Fully wheelchair accessible production facilities, including catwalks
- Assisted Listening System available in all venues
- Wireless access

College of Arts & Media Admissions Information

Admission to CU Denver is all that is required to start in many of the College of Arts & Media degree programs, with the exception of those listed below.

- Music & Entertainment Industry Studies (MEIS): In addition to being admitted to CU Denver, applicants to one of the audition track programs in the *Music and Entertainment Industry Studies (MEIS)* Department must complete additional music application

requirements. Please review the music section on the How to Apply webpage (<https://artsandmedia.ucdenver.edu/prospective-students/how-to-apply/>) for complete information about the audition/application process for audition track program applicants. Applicants to the MEIS non-audition track programs do not have to audition or complete any additional requirements.

- Film & Television: The Film and Television Department requires that applicants complete a secondary Film & Television application in addition to being admitted to CU Denver. Please review the film section on the How to Apply webpage (<https://artsandmedia.ucdenver.edu/prospective-students/how-to-apply/>) for complete information about the secondary application for Film & Television program applicants.

Students wishing to pursue a CAM degree must be admitted to the University of Colorado Denver. See the Office of Admissions (<https://www.ucdenver.edu/admissions/>) website for application requirements and deadlines. In addition, all audition track emphases in Music & Entertainment Industry Studies, and the Film & Television program require additional application components. Students typically submit these additional components at the same time as university applications. Certain Visual Arts require portfolio-reviews after students have completed initial course work at CU Denver. Find more details about CAM program application requirements and deadlines in this catalog by selecting the above program links. Music and Film & Television application guidelines and deadlines may also be found on the CAM Admissions website (<https://artsandmedia.ucdenver.edu/>).

(For Graduate Programs and information please refer to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-arts-media/#departmentstext>) catalog or contact CAM@ucdenver.edu.)

College of Arts & Media (CAM) Departments and Programs

- Film & Television (p. 169)
 - Film & Television Emphasis, BFA (p. 174)
 - Film & Television Performance Minor (p. 175)
 - Film & Television Production Minor (p. 175)
 - Film & Television Writing Minor (p. 176)
 - Theatre, Film & Television Minor (p. 176)
- Music & Entertainment Industry Studies (p. 177)
 - General Music Minor (p. 200)
 - Music Business Emphasis, Audition Track, Music BS (p. 200)
 - Music Business Emphasis, Non-Audition Track, Music BS (p. 201)
 - Music Industry Studies Minor (p. 202)
 - Performance Emphasis, Music BS (p. 203)
 - Recording Arts Emphasis, Audition Track, Music BS (p. 204)
 - Recording Arts Emphasis, Non-Audition Track, Music BS (p. 205)
 - Singer/Songwriter Emphasis, Music BS (p. 206)
 - Songwriter Entrepreneur Emphasis, Audition Track, Music BS (p. 207)
- Visual Arts (p. 209)
 - 3D Graphics and Animation Emphasis, BFA (p. 223)
 - Art History Minor (p. 224)

- Art History, Fine Arts BA (p. 224)
- Art Practices Emphasis, BFA (p. 225)
- Digital Design Emphasis, BFA (p. 227)
- Digital Design Minor (p. 228)
- Illustration Emphasis, BFA (p. 228)
- Illustration Minor (p. 230)
- Painting and Drawing Minor (p. 230)
- Photography Emphasis, BFA (p. 231)
- Photography Minor (p. 232)
- Studio Art Minor (p. 232)
- Transmedia Sculpture Minor (p. 233)

College of Arts & Media Graduation Requirements

Important Note:

In addition to the requirements listed below, College of Arts & Media (CAM) students must complete requirements listed on the CU Denver Core Curriculum (p. 104) page and also General Graduation Requirements listed on the General Graduation Requirements (p. 109) page in this catalog.

Grade and GPA Requirements

- A cumulative GPA of 2.0 is required in all University of Colorado course work
- A minimum of C (2.0) is required for each course applied toward a CAM major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Upper Division

For BA and BFA degrees, a minimum of 45 semester hours of upper division (3000/4000-level) course work is required.

Residency Requirement

A minimum of 30 semester hours of resident credit is required.

CAM General Course Requirements

Non-Major Arts

All CAM undergraduates must complete at least one course in the arts outside of their major area. Specifically:

- **Music majors** must take three semester hours in theater, film and/or visual arts
- **Visual arts majors** must take three semester hours in film & television and/or music
- **Film and television majors** must take three semester hours in visual arts and/or music

Students may mix and match disciplines to reach 3 semester hours, or they may take a 3-semester hour course in one discipline.

Note: The course selected to fulfill Non-Major Arts cannot also fulfill a category of the CU Denver Core.

Foreign Language

For BA degree (Art History) students must complete the foreign language requirement using one of the options below:

- Completion of a 2nd year (Level II) high school course with a minimum grade of C- (1.7) in the final semester.
- Completion of a 2nd semester (Level II) college-level course with a minimum grade of C- (1.7). May not be taken pass/fail. A “conversation” course is not acceptable. This option may involve taking up to 10 semester hours.
- Demonstration of college-level second semester proficiency by exam. Contact the CU Denver Department of Modern Languages at 303-315-7234 for details.

For BFA degrees in Film and Television students must complete the foreign language requirement using one of the options below:

- Take a second course from the approved list for Core category: International Perspectives (recommended to be taken at the upper division (3000/4000) level)
- Take any level foreign language course

For BFA degrees in Fine Arts and the BS in Music, foreign language is not included as a requirement.

General Electives

CAM undergraduates may need to complete general elective courses to meet minimum credit requirements described in the General Graduation Requirements (p. 109). (p. 109)

Majors

All CAM students must be admitted to a major and an emphasis within that major. Students must complete all major requirements to graduate. Links to information about specific majors and emphases, including any required reviews/assessments for admission, may be found on the Programs (p. 759) page in this catalog.

Minors

Departments in the college have developed a variety of minors. A maximum of six non-CU Denver semester hours can be used toward each CAM minor. In addition, students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Students are not required to have a minor to graduate. Students may choose to declare a minor in CAM or in another college/school in the university. Links to information about specific minors, including any required reviews/assessments for admission, may be found on the Programs (p. 759) page in this catalog.

More than 120 semester hours may be required to complete both a major and minor.

Certificates

Departments in the college are working to develop a variety of certificates. In general, all credits toward a CAM certificate must be completed at CU Denver.

Students are not required to have a certificate to graduate. Students may choose to declare a certificate in CAM or in another college/school in the university. Links to information about specific certificates, including

any required reviews/assessments for admission, may be found on the Programs (p. 759) page in this catalog.

More than 120 semester hours may be required to complete both a major and a certificate.

Double Emphases

Students may graduate with more than one emphasis within the same CAM major by completing all requirements for each emphasis (e.g., BFA in Fine Arts with double emphases in digital design and photography). Completing these requirements will likely require more than 120 semester hours.

Double Majors

Students may graduate with more than one major in CAM by completing all requirements for each major within a single degree (e.g., a BFA with a major in fine arts, photography emphasis **and** a second major in film & television). Completing these requirements will likely require more than 120 semester hours. Double majors apply to students completing two majors from different CAM departments.

Double Degrees

Students may earn two degrees in the College of Arts & Media (e.g., BFA in Film & Television and BA in Fine Arts) or from two different schools or colleges in the university (e.g., BS in Music and a BS in Physics) simultaneously by fulfilling all requirements for both degrees. Students must complete a minimum of 120 semester hours applied toward the two degrees, and likely more will be needed to fulfill all requirements.

Second Degrees

Students who have been awarded a bachelor's degree from CAM may be granted a second bachelor's degree provided that

1. all general requirements for the second degree have been met;
2. the degree plan for the second bachelor's degree is different from the first (for example, a student cannot twice complete a BFA in Fine Arts with an emphasis in photography); and
3. the college and major department residence requirements are satisfied.

A second degree from CAM requires a minimum of 30 additional semester hours.

Selection of Catalog for Degree Requirements

Students who switch majors (e.g., BS in Music to BFA in Film & Television) are required to complete the major curriculum in place when they declare their new degree or major. Students who switch degrees within the same major (e.g., BFA in Fine Arts to BA in Fine Arts) will be required to complete the degree curriculum that is in place when they declare their new degree. Students who switch emphases within a degree and major will be required to complete the emphasis curriculum that is in place when they are accepted into the new emphasis.

Due to the dynamic nature of the College of Arts & Media programs, returning students who have not attended in more than five years must complete their programs based on the current curriculum and policies.

Applying for Graduation

Students are encouraged to meet with a College of Arts & Media advisor the semester before they intend to graduate to review graduation

procedures and degree requirements. Students who have not attended the university for one calendar year (three consecutive semesters, including summer term) or longer must gain readmission to the university prior to applying for graduation. It is the student's responsibility to apply with enough time for the readmission process to be finalized by the census date.

Academic Honors

Latin Academic Honors

Latin academic honors are awarded at the time of graduation, based on cumulative University of Colorado undergraduate GPA. To be eligible for honors, a College of Arts & Media (CAM) student must have completed a minimum of 30 semester hours at the University of Colorado (on any CU campus). A cumulative CU GPA of 3.650-3.749 earns cum laude, a 3.750-3.849 earns magna cum laude and 3.850 or above earns the summa cum laude honors designation on a degree.

Outstanding Graduates

CAM recognizes "outstanding graduates" each fall and spring term. Students are nominated by CAM faculty and final selections are determined by the CAM Executive Committee.

Criteria for Outstanding Graduates:

- Cumulative University of Colorado GPA of 3.500 or higher
- Graduating senior in the semester the award is given
- Active member of CAM student club(s)
- Participant in production programs of the student's department
 - E.g., art exhibits, record productions, audio engineering
- Participant in outreach programs for the department and/or college
- Leadership qualities in the classroom
- Growth, development and demonstration of excellence as a practicing artist or scholar
- Active citizenship in the department, college, university and/or community
- Superior academic achievement

Petitioning for Exceptions to Standing Academic Policy

Students are required to complete the College of Arts & Media (CAM) general course requirements (including Core requirements) that were in effect when they began as degree-seeking students at CU Denver, and major requirements as outlined when they declared their degree, major and emphasis and were admitted to the program. If a program revises its curriculum, students have the option of following their original degree requirements or the revised curriculum. Courses under the original requirements may no longer be taught or may not be available for a set duration. In this case, the department faculty will approve reasonable course substitutions.

Course substitutions in the major or minor must be approved by the designated program director in the specific program area, the department chair and/or possibly the associate dean. Course substitutions in the CAM Core requirements must be approved by the university Core Curriculum Oversight Committee through a petition process. Please contact CAMadvising@ucdenver.edu for additional information.

The CAM Academic Policies, Procedures and Curriculum Committee is the appellate committee for all student-related academic petitions,

issues and appeals. The committee is responsible for the evaluation and interpretation of the approved academic policies of the college. Questions about interpretations of policies may be directed to CAM Advising and Student Services. Procedures and petition guidelines are available at the CAM website or by emailing CAMadvising@ucdenver.edu.

College of Arts & Media Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 93) section of the catalog.

Undergraduates Taking Graduate Coursework

College of Arts & Media undergraduate students are not typically permitted to take courses at the graduate level. Undergraduates interested in taking graduate-level courses should consult with the instructor and the department, as well as with their academic advisor.

Independent Study

The College of Arts & Media (CAM) has independent study policies that determine eligibility, registration and how independent study credits may apply toward bachelor's degrees. Students should consult a CAM advisor, program director, or Department chair for specific eligibility criteria and registration procedures. The number of semester hours (1, 2, or 3) to be earned for an independent study project shall be determined at the time of registration. A maximum of 12 semester hours of independent study may apply toward the bachelor's degree and cannot be used to replace existing and available courses. Enrolling in an independent study course requires dean's/advising office approval and is not guaranteed. Please contact CAMadvising@ucdenver.edu for additional information and appropriate paperwork. Independent study should be added by the census date (add/drop deadline) as noted on the academic calendar.

Internships

Internships provide important educational and professional experience. A maximum of 3 semester hours of internship credit per semester and 9 semester hours overall is allowed. Internship credit may not be awarded retroactively or after the student begins internship hours. Students should consult with an academic advisor about the counting of internship credits in their degree plans.

The college requires that students have the following to qualify for an internship:

- 60 completed semester hours
- Minimum of a 2.75 cumulative University of Colorado GPA

Specific academic programs may have additional eligibility requirements for an internship. Students seeking an internship should consult with the college's Office of Advising and Student Services and the Experiential Learning Center. Additional information is available by contacting CAMadvising@ucdenver.edu. Occasionally opportunities arise mid-semester; in such cases, students must file a Special Processing Form to add the course and, depending on the date, may be required to petition the associate dean for approval to add an internship.

Proficiency Testing

Degree students may take examinations for credit. To qualify for an examination, the student must be formally working toward a degree at CU Denver, have a GPA of at least 2.000 and be currently registered. Contact the registrar's office for instructions. A nonrefundable fee is charged. Students should contact their degree advising office to determine whether the credit will apply to their degree.

Students with sufficient experience and knowledge may contact CAMadvising@ucdenver.edu to discuss testing out of required course work. The College of Arts & Media does not waive credits or requirements; thus, if students successfully demonstrate mastery of the material (as determined by the appropriate faculty), they will be advised into substitute courses.

Holds

Periodically, students may find a hold placed on their registration by the Office of Advising and Student Services, requiring them to meet with a College of Arts & Media (CAM) advisor prior to registering. Students can view registration holds in the Student Center of their UCDAccess accounts. As other offices may also place a hold on a student's registration, students are encouraged to resolve any registration holds through the appropriate offices prior to their registration date/time.

All incoming CAM students will be flagged with advising holds which require a meeting with an academic advisor prior to registering for their first semester of courses. New first-year students are also required to attend New Student Orientation, and transfer students may be required to participate in an orientation as well.

Students on academic probation will have a hold placed on their registration and be required to connect with an academic advisor each semester in order to add classes. Consult the Academic Standing (p. 93) page in this catalog for details.

Adding a Course

College of Arts & Media (CAM) policy states that students who miss the first two class sessions of any CAM course can be administratively dropped. Likewise, students may not be permitted to add any CAM course if they have missed the first two class sessions.

Course Credit Limitations

Up to 8 semester hours of activity courses in physical education will count toward the 120 hours required for the degree.

Adding a Course After Census

Students wishing to add a full-term course after census must file a Late Add Petition with the college for review and consideration. Contact CAMadvising@ucdenver.edu for petition guidelines.

Administrative Drop Policy

Students who miss the first two class sessions of a College of Arts & Media course can be administratively dropped. Students who never attend class should not assume that they will be automatically dropped from the course. The student is responsible for dropping courses by published deadlines. Failure to do so will result in a charge of tuition and/or fees for the class and a final grade of "F".

Retroactive Drop/Withdrawal

After the completion of a semester, students wishing to attempt to withdraw from one or more courses in that semester must file a petition for retroactive action with the College of Arts & Media. Petitions should include documentation of circumstances that were beyond the student's control and that impacted the grade(s) and the student's ability to withdraw from the course(s) before the end of the semester. Petitions should be submitted within one year of the end of the original semester. Contact CAMadvising@ucdenver.edu for petition guidelines. If the petition is approved, the course(s) and grade(s) of W will appear on the transcript; students remain responsible for all tuition and fees associated with the course(s).

Grade Appeals

For College of Arts & Media courses:

- When a student has questions or concerns regarding academic issues such as project grades, final grades, attendance policies, etc., the student is encouraged to speak directly with the faculty member teaching the course.
- If resolution or clarity of understanding is not reached, the following procedure should be followed:
 - The student contacts the chair of the department offering the course to discuss the concerns and their point of view.
 - The department chair speaks with the faculty member to ascertain the faculty member's point of view.
 - The department chair facilitates a meeting between the student and faculty member to discuss the issue.
 - If the student still has concerns after completion of these procedures, the student should contact the College of Arts & Media associate dean of academic and student affairs.

For non-CAM courses, students should consult the school/college offering the course.

Pass/Fail

A minimum grade of C (2.000) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.700) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable **only** for major, minor or certificate courses in which the only grade available is Pass or Fail.

Courses taken to fulfill major/minor/ certificate requirements, Core English Composition, Core Mathematics, and the foreign language requirement may not be taken pass/fail (unless the course is only offered on a pass/fail basis).

No more than 6 semester hours pass/fail in any given semester. No more than 12 semester hours may be elected as pass/fail toward the degree.

No Credit

A minimum grade of C (2.000) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.700) or lower will not fulfill a major, minor or certificate requirement. Therefore, students are not permitted to take these courses for no credit.

Incomplete Grades

The College of Arts & Media (CAM) has strict policies for granting incomplete grades. They include but are not limited to the following:

- Reason for incomplete must be a verifiable circumstance beyond the student's control that made completion of the course impossible. The student must provide documentation.
- The majority of course requirements (75 percent) must have been completed with a passing grade to be eligible for an incomplete (C (2.000) for major/minor/certificate courses; C- (1.700) for select general education courses; D- (0.700) for most general education and general elective courses).
 - Whether the student has successfully completed 75% of the course with a passing grade is determined by the instructor and based on the requirements listed in the syllabus.
- CAM course completion agreement must be signed by both the instructor and student, with final approval by the dean's/advising office.
- All course work must be completed within one calendar year of the end of the original course, unless an earlier deadline is specified.
- Requests for a retroactive change from a letter grade to an incomplete will not be considered.

The student is responsible for requesting an incomplete grade and submitting all of the appropriate paperwork and obtaining approvals. Please contact CAMadvising@ucdenver.edu for additional information.

Attendance Policy

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor and must conform to university and instructor policies on attendance.

College of Arts & Media (CAM) policy states that students who miss the first two class sessions of any CAM course can be administratively dropped. Likewise, students may not be permitted to add any CAM course if they have missed the first two classes. Students should check with their instructor if they have any questions about their status in the course.

Course Repeat Policy

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student's GPA. Course credit toward graduation is counted only once for a typical course, no matter how many times the course is repeated. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. Special Topics and/or other departmental courses may also be repeatable for applicable credit within a certain range of total semester hours, per departmental/program policy. Consult a College of Arts & Media (CAM) advisor for details.

A minimum grade of C (2.000) is required for each course applied toward a CAM major, minor or certificate requirement. These courses/ requirements must be repeated if the student earns a final grade of C- (1.700) or lower. A grade of P is acceptable for major, minor or certificate courses in which the only grade available is Pass or Fail.

Film & Television

Chair: David Liban

Office: King Center, 506
Telephone: 303-315-7414

Overview

The Department of Film & Television offers a Bachelor of Fine Arts (BFA) in Film and Television, as well as minors in film and television production, film and television writing, film and television performance, and theatre, film and television. The department offers courses in these disciplines through an innovative curriculum in the context of a strategically designed liberal arts education.

Students have the opportunity to work directly with faculty, guest artists and fellow students through participation in the department's production program of films, television shows and web-based media projects, as well as a variety of student-produced projects. Denver-area film organizations, film screenings, lectures, concerts, exhibits and other cultural resources are regularly utilized throughout each student's course of study.

The Department of Film & Television also offers several internship opportunities including Hollywood Internships, Denver Industry Pathways, and a study abroad program in Bollywood, India.

Programs

- Film & Television Emphasis, BFA (p. 174)
- Film & Television Performance Minor (p. 175)
- Film & Television Production Minor (p. 175)
- Film & Television Writing Minor (p. 176)
- Theatre, Film & Television Minor (p. 176)

Faculty

Associate Professors:

David Liban, MFA, Brooklyn College

Hans Rosenwinkel, MFA, American Film Institute

Nate Thompson, MFA, North Carolina School of Arts

Assistant Professors:

Eric Jewett, BA Harvard University

Edward Tyndall, MFA, University of North Carolina at Greensboro

Assistant Professors Clinical Teaching Track:

Howie Movshovitz, PhD, University of Colorado Boulder

Jessica McGaugh, MFA, Syracuse University

Instructors:

Roma Sur, MA, University of Denver

Andrew Bateman, MFA, Temple University

Matthew Schnek, MFA, National Theatre Conservatory

James Phelan

Film and Television (FITV)

FITV 1001 - Fundamentals of Film and Television (3 Credits)

Provides fundamentals in academic theories surrounding visual culture. Topics include representation, spectatorship, mass media and popular culture, new media, and scientific images. Student participation is through discussion, creative projects, reading, and written response. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

Typically Offered: Fall, Spring.

FITV 1005 - Introduction to Theatre & Arts in the Community (3 Credits)

Discussion, workshops, and lectures designed to discover, analyze, and evaluate all aspects of the theatre experience: writing, acting, directing, staging, history, theory and its relationship to film & video. Attending plays and field trips to several Denver-area theaters, and demonstrations. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

FITV 1035 - Introduction to Filmmaking (3 Credits)

Students will be introduced to the concepts and practices of filmmaking. Through a series of hands-on exercises students will gain experience production management, cinematography, editing and client/director relationships. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to non-College of Arts and Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA

FITV 1040 - Lighting, Grip, and Sound Introductory Workshop (3 Credits)

The purpose of this course is to acquire basic competence with all film/video production equipment. The course acts as an introductory look at maintaining professionalism, efficiency, and safety in film/video sets for cast and crew. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media with the subplan FIT. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors within the College of Arts Media with the subplan FIT.

FITV 1050 - Production I Basics of Film and Television (3 Credits)

Learn the fundamentals of video production including idea creation, videography, composing a professional image, cinematic lighting, sound track recording and construction, non-linear software. Individual and collaborative productions for film, video, and TV will be created. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors & FTPM minors (production) within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors FTPM minors (production) within the College of Arts Media.

FITV 1110 - Production Design: Theatre, Film and Video (3 Credits)

This design research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 1115 - Horror in Western Culture and Cinema (3 Credits)

This course is designed to analyze the history, practice and production of the horror film. By examining the horror genre students analyze how cinema is both a reflection of the time it was produced as well as it impacts on art and society. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

FITV 1120 - Contemporary World Cinema (3 Credits)

This course will examine representative examples of films from around the world to understand the current interest and concerns of world cinema, as well as discern what concerns various countries around the world, and how those concerns are expressed. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FITV 1200 - The Culture of Television (3 Credits)

The course will combine viewing of television programs with reading, writing and discussing television as students begin to understand intellectually, and learn to take an analytical view of this remarkable phenomenon. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FITV 1550 - Scriptwriting 1 - Fiction (3 Credits)

Critical exploration of dramatic writing for stage and screen. Understand how imagery, character, story, narrative structure, literary conventions, and more, impact compelling writing. Utilize effective writing and critiquing strategies focused on drafting and writing an original film/TV script. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media with the subplan FIT. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors within the College of Arts Media with the subplan FIT.

Typically Offered: Fall, Spring.

FITV 1551 - Scriptwriting for Non-Majors (3 Credits)

Critical exploration of dramatic writing for stage and screen. Understand how imagery, character, story, narrative structure, literary conventions, and more, impact compelling writing. Utilize effective writing and critiquing strategies focused on drafting and writing an original film/TV script. Max hours: 3 Credits.

Grading Basis: Letter Grade

FITV 1600 - Writing Short Film:Non Fiction (3 Credits)

Students study basic writing elements such as idea generation, character building, and scene setting while writing short non-fiction screenplays or teleplays for production. Prereq: TFTV-BFA: FITV 1550. Prereq: FTWM minor: no pre-req. Restriction: Restricted to TFTV-BFA majors & FTWM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA: FITV 1550 Prereq: FTWM minor: no pre-req Restriction: Restricted to TFTV-BFA majors FTWM minors within the College of Arts and Media.

FITV 2040 - Editing and Post Production Techniques (3 Credits)

This course introduces the art of editing and post-production for film and television practices. Students will use various software applications; Adobe Premiere, Adobe After Effects and Photoshop as the platform to explore the fundamentals of visual storytelling, graphics, visual effects, compositing, color correction, compression concepts, input, output and software integration, and how that work can be integrated into varying film and television projects. Prereq: TFTV-BFA: FITV 1001. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 1001 Prereq: FTPM minor: FITV 1050 or FITV 1035

FITV 2050 - Production II Film and Television Techniques (3 Credits)

Through a series of assigned film and TV projects students will be introduced to various genres of filmmaking, while building upon the skills of preproduction, production, and post-production. Prereq: BFA: FITV 1050. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 1050 Prereq: FTPM minor: FITV 1050 or FITV 1035

Typically Offered: Spring.

FITV 2055 - Documentary Production (3 Credits)

Students produce non-fiction film/TV productions in collaboration with non-profit organizations while exploring and experiencing industry practices. Prereq: FITV 1050 + FITV 2090. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1050 + FITV 2090 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 2090 - Producing for Film and Television (3 Credits)

Students will learn the various aspects of planning, scheduling, budgeting, and managing both television and film productions. Students will develop skills for conceptualizing projects from script to screen.

Prereq: FITV 1550. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1550 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 2220 - Acting for Film and Television (3 Credits)

Provides the study, skill development and workshop experience for the actor in various media – including film, television, commercial, and voice-over work. Students do physical exercises, vocal training, develop vocabulary, and scene exercises. Prereq: BFA : FITV 1050 + FITV 1550. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors and FTPM minors in the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: BFA : FITV 1050 + FITV 1550 Prereq: FTPM minor: FITV 1050 or FITV 1035

Typically Offered: Fall.

FITV 2221 - Acting for Non-Majors (3 Credits)

Introduction to performance for film, TV and commercials. Students do physical exercises, vocal training, develop vocabulary, and scene exercises. Restriction: Restricted to non-College of Arts & Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to non-College of Arts and Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA

FITV 2650 - Sound for Film and TV (3 Credits)

Building upon basic understandings of audio for film and television techniques, students will get intermediate instruction and experience with field audio recording and audio post-production practices. Students will work with digital audio editing software to gain knowledge and skills in sweetening, mixing, and sound design. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 2670 - Cinematography (3 Credits)

Students create film and TV projects that exhibit effective use of light, composition, depth of field, focal length. Student directors will learn how to collaborate with cinematographers and understand the science of photography, lenses, and lighting. Prereq: FITV 2040 + FITV 1050. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2040 + FITV 1050 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

Typically Offered: Spring.

FITV 3040 - Live TV Multi-camera Directing (3 Credits)

Working in a multi-camera television studio environment, students in this course will experience each aspect of creating multiple live-to-tape television programs. Students will work in teams to create a television pilot as well as individual projects. Prereq: BFA: FITV 3050 + FITV 3500. Prereq: FTSM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTSM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTSM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 3050 + FITV 3500

Prereq: FTSM minor: FITV 1050 or FITV 1035

Typically Offered: Spring.

FITV 3050 - Junior Project Production (3 Credits)

Students will refine their knowledge of single-camera film and TV techniques in this hands-on, collaborative course. Students will conceptualize, develop, and shoot a short film or television project throughout the semester. Emphasis on storytelling, production design, production management, and cinematography. Prereq: FITV 2050 + FITV 1200 + FITV 2670 + FITV 2650. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2050 + FITV 1200 + FITV 2670 + FITV 2650 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 3060 - Junior Project Post Production (3 Credits)

Students will apply post-production skills learned in previous courses to edit projects produced in Prod 3/Jr Project. This course will emphasize the completion of a professional broadcast-quality production with full audio and visual sweetening. Students will attain advanced editing skills through a longer format project. Prereq: FITV 3050 + FITV 3500.

Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3050 + FITV 3500 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 3090 - Producing Episodic Television (3 Credits)

Students explore and develop skills in the collective practices necessary for the full production of an episodic television series. Students will actively participate in various aspects of episodic television production including preproduction, production, and post-production. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3050/FILM 3270 and FITV 3500/FILM 4500 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 3200 - History of Cinematic Arts I (3 Credits)

The development of cinema in the early 1880s brought with it a wealth of techniques still used today, from the close-up to crosscutting and montage. In this course students will view, analyze, research, and critique the beauty and sophistication of silent film from its beginnings through the late 1930s. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FITV 3220 - Advanced Acting Workshop for Film and Television (3 Credits)

Students will further explore techniques and practices in the performing for film and television projects. This is an intense workshop designed to better prepare students to perform for a variety of on-camera projects.

Prereq: FITV 2220 or FITV 2221. Restriction: Restricted to TFTV-BFA majors or FIPR Minors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2220 or FITV 2221 Restriction: Restricted to TFTV-BFA majors and FIPR Minors within the College of Arts Media

FITV 3264 - Advanced Digital Effects (3 Credits)

Students will study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. Prereq: FITV 2040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2040

FITV 3300 - History of Cinematic Arts II (3 Credits)

Take a journey through the many genres of film, from the introduction of sound to the present. Students will trace the development of various Hollywood genres and examine films that represent major developments in American cinema. In this course students will view, analyze, research, and critique films from 1938 to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FITV 3350 - Editing Aesthetics (3 Credits)

A historical, theoretical, and practical hands-on approach to deconstructing and utilizing editing aesthetics. Students will consider the theory behind editing strategies that elicit an emotional or response from viewers, and put those theories to practice through demonstrative production exercises as well as analytical writing. Prereq: FITV 2050. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2050

FITV 3500 - Writing for Episodic Television (3 Credits)

Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of television episodes for an original series. Prereq: TFTV-BFA FITV 1200 + FITV 2050. Prereq: FTWM minor: FITV 1551 Restriction: Restricted to TFTV-BFA majors and FTWM minors in the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA FITV 1200 + FITV 2050 Prereq: FTWM minor: FITV 1551

Restriction: Restricted to TFTV-BFA majors and FTWM minors in the College of Arts Media

FITV 3510 - Writing the Thesis (3 Credits)

Critical exploration of dramatic writing for the screen with a focus on advanced short narrative screenplays. The course serves as a precursor to the FITV thesis project. Students will utilize intensive workshop and writing techniques to develop original screenplays in preparation for the Department of Film and Television's senior thesis course. Prereq: TFTV-BFA and FTWM minor: FITV 3500. Prereq: Non-TFTV-BFA Majors and Non-FTWM minors must have taken any two of ENGL 3415, ENGL 3417, ENGL 2390 or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA and FTWM minor: FITV 3500 Prereq: Non-TFTV-BFA majors or non-FTWM minors must have taken any two of ENGL 3415, ENGL 3417, ENGL 2390

FITV 3520 - Advanced Screenwriting (3 Credits)

Critical exploration of advanced screenwriting techniques with a focus on mastering sequence structure for longform projects. Students will utilize intensive workshop and writing strategies to develop original content and a fundamental understanding of industry workflows. Students will read, analyze and discuss works-in-progress by all workshop participants and present their work for peer review. Topics related to working as a professional writer will also be explored. Prereq: FITV 1550 and FITV 1600. Restriction: Restricted to TFTV-BFA majors and FTWM minors, and by instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1550 and FITV 1600. Restriction: Restricted to TFTV-BFA majors and FTWM minors..

FITV 3550 - World Theatre (3 Credits)

Discussion, workshops and lectures designed to discover, analyze and evaluate the world theatre experience from countries outside of the United States. The course will explore theatre and its precedents in Asia, Africa, Eastern Europe and Latin America. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FITV 3570 - Directing for Film and Television (3 Credits)

Through a series of assigned video projects, students will practice the art of directing several film and television projects. Applying communication skills and directing techniques to the process. Prereq: TFTV-BFA:

FITV 2220 or FITV 2221 + FITV 2050. Restriction: Restricted to TFTV-BFA majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA: FITV 2220 or FITV 2221 + FITV 2050. Restriction: Restricted to TFTV-BFA majors.

FITV 3600 - Denver Film Festival (3 Credits)

Students in this course will know how to contextualize films in terms of content and form. Through film viewing, written assignments, and critical analysis students learn to describe, classify and appreciate narrative, craft and artistic intent. Max hours: 3 Credits.

Grading Basis: Letter Grade

FITV 3611 - Drama of Diversity (3 Credits)

Investigates the creation and reinforcement of gender, ethnic, and racial stereotypes in theatre, film, and television in the United States. The course explores how popular images are created by writers, directors, and performers, and become "reality" for the audiences for which they are intended. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

FITV 3770 - Advanced Production Design for Film and Television (3 Credits)

Students with further explore design elements found in film and television, and utilize class projects in conjunction with other student film projects. Prereq: THTR 1110 or FITV 1110. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: THTR 1110 or FITV 1110 Restriction: Restricted to TFTV-BFA majors within the College of Arts Media

Typically Offered: Fall.

FITV 4000 - Senior Thesis Production (3 Credits)

The first course of a two-part capstone experience in which students collaborate, plan, cast, budget, and produce a professional quality film/TV project or script. Projects/scripts will be completed in FITV 4010. Prereq: FITV 3060 + FITV 3040 or FITV 3090 + FITV 3200. Restriction: Restricted to TFTV-BFA majors within in the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3060 + FITV 3040 or FITV 3090 + FITV 3200 Restriction: Restricted to TFTV-BFA majors within in the College of Arts and Media Typically Offered: Fall.

FITV 4010 - Senior Thesis Post-Production (3 Credits)

Second course of a two-part capstone experience in which students collaborate on post-production to complete the film/TV/script project. Emphasis will be on editing, color-correcting, audio sweetening, graphics, finishing a fine-cut of their project; students will seek distribution and exhibition. Prereq: FITV 4000. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 4000 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media Typically Offered: Spring.

FITV 4020 - CAM Film Productions (3 Credits)

Under the supervision of a faculty member, this class works together as a group to create broadcast quality television projects. Projects will be designed for a PBS television market and may be aired as such. Prerequisite: FITV 2050. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FITV 2050 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 4050 - Advanced Cinematography (3 Credits)

In this production workshop, students will analyze films and storyboards, and shoot projects created for specific action and special effects outcomes. In addition, students will examine a variety of techniques used to create action scenes in preparation for the edit. Prereq: FITV 2670.

Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2670 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

Typically Offered: Fall.

FITV 4200 - Advanced Acting & Directing Workshop (3 Credits)

This class will be dedicated to exploring the art and craft of developing powerful performances. We will regularly divide into groups of three (one director & two actors) so that at least two-thirds of your time will be devoted to acting. Prereq: FITV 2570 or FITV 3570. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

D-ART FITV 2570/3570+TFTV-BFA

Typically Offered: Fall.

FITV 4400 - Acting for Film and TV Practicum (3 Credits)

The practice, study and critique of acting and directing for varying film/TV projects. The class will incorporate, preparatory work, on-camera performance, directing, and an in-depth critique of the resulting work. Prereq: TFTV-BFA: FITV 3220. Restriction: TFTV-BFA. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: TFTV-BFA: FITV 3220. Restriction: TFTV-BFA.

FITV 4440 - Color Correction and Mastering for Film and Television (3 Credits)

This course is designed to teach students the process of color grading and film finishing techniques. This includes use of industry standard color correction software and methods of providing deliverables for film and television distribution and exhibition. Prereq: FITV 2040. Restriction: Restricted to TFTV-BFA majors and FTPM minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2040. Restriction: Restricted to TFTV-BFA majors and FTPM minors.

FITV 4600 - Special Topics (1-3 Credits)

Specialized topics in film and video. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FITV 4840 - Independent Study: FILM (1-3 Credits)

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FITV 4939 - Internship in Film and TV (1-6 Credits)

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Film & Television Emphasis, BFA

Introduction

Please click here (p. 169) to see general Film & Television information.

The Department of Film & Television offers a Bachelor of Fine Arts (BFA) in Film and Television. This BFA emphasis provides intensive and practical training that requires successful completion of numerous film/TV projects, varying in styles from fiction to documentary. The emphasis is designed so that students will progress through the semesters as a cohort group. Undergraduates will not only work on their own projects but also will assist on numerous group projects. Students will graduate with both a theoretical and historical perspective, as well as a hands-on experience in film and television production. This program prepares students to begin their careers at entry-level positions in the film or television industry, start their personal creative work, or continue their studies in a graduate program. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Students seeking this BFA emphasis should apply to the university and be accepted under the Film & Television BFA program. The Department of Film & Television strongly encourages fall admission and requires a secondary departmental application. Please contact David.Walter@ucdenver.edu for application information. Given the cohort nature of the program, students should be aware that failing to take courses in order and/or failing to earn the minimum required grade in any course may delay their graduation date.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. At least 24 of the major semester hours must be earned at CU Denver.

Film & Television Performance Minor Introduction

Please click here (p. 169) to see general Film & Television Department information.

Students in this minor will receive an introductory education and practical experience in the art of on-camera performance. Through guidance from faculty, students will be instructed on methods of acting for various types of film and television projects. This will include fiction, non-fiction, voice work and understanding on how an actor works with directors, camera crews, and audio personnel. Students may also have opportunities to perform in student film productions produced within the department.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take all of the following Film and Television Performance Minor courses:		
FITV 2220	Acting for Film and Television	3
FITV 3220	Advanced Acting Workshop for Film and Television	3
FITV 3570	Directing for Film and Television	3
FITV 4200	Advanced Acting & Directing Workshop	3
FITV 4400	Acting for Film and TV Practicum	3
Total Hours		15

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Film & Television Production Minor Introduction

Please click here (p. 169) to see general Film & Television Department information.

This minor gives students a hands-on experience in both production and post-production, providing a foundation of basic skills and procedures in the film and television industry.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Take all of the following Film and Television Production Minor courses:		
FITV 1035	Introduction to Filmmaking	3
FITV 1040	Lighting, Grip, and Sound Introductory Workshop	3
FITV 2050	Production II Film and Television Techniques	3
Take two of the following Film and Television Production Minor courses:		
FITV 2040	Editing and Post Production Techniques	3
FITV 2220	Acting for Film and Television	3
FITV 3040	Live TV Multi-camera Directing	3
FITV 3350	Editing Aesthetics	3
Total Hours		15

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Film & Television Writing Minor

Introduction

Please click here (p. 169) to see general Film & Television Department information.

Students gain writing skills (fiction and non-fiction) for the development of episodic television and film scripts. Students also learn the practices and mechanics expected of professional screenwriters.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

Music & Entertainment Industry Studies

Chair: Richard Strasser
Office: Arts Building, Suite 288
Telephone: 303-315-7450
Fax: 303-315-7489

Overview

The music program prepares students for professional careers related to commercial performance, recording, music business and the entertainment and creative industries, as well as for graduate studies at leading conservatories. More specifically, the Department of Music & Entertainment Industry Studies (MEIS) offers a Bachelor of Science (BS) in Music. Students apply to an intended emphasis and track:

- Performance Emphasis (p. 203)
- Singer/Songwriter Emphasis (p. 206)
- Songwriter Entrepreneur Emphasis (p. 207)

Music Business Emphasis, on one of two tracks:

- Audition Track (p. 200)
- Non-Audition Track (p. 201)

Recording Arts Emphasis, on one of two tracks:

- Audition Track (p. 204)
- Non-Audition Track (p. 205)

Acceptance into MEIS is on a competitive basis with specific entrance evaluation requirements for both first year and transfer students. All applicants are placed in an enrollment pool and admission decisions are based on several factors, which include an indexed composite score of GPA and an audition (if applicable). Application materials must be received by the deadline.

Prospective students should refer to the MEIS (<https://artsandmedia.ucdenver.edu/areas-of-study/music-entertainment-industry/about-music-entertainment-industry-studies/>) website for current entrance requirements, deadlines and procedures.

All students in MEIS are required to abide by the policies and procedures outlined in the MEIS *Student Handbook* (available by contacting meis.dept@ucdenver.edu) as well as all university policies and codes of conduct.

Performance Emphasis

The performance emphasis (p. 203) includes specialized courses in small performance ensembles, applied private study, contemporary improvisation, and analysis and history. Students gain a diverse set of performance skills in commercial, jazz, classical and experimental music styles. The curriculum includes the presentation of junior and senior recitals. Students are required to pass a Sophomore Proficiency at the end of the sophomore year in order to progress into advanced performance and musicianship courses.

Students must pass an entrance audition to pursue the performance emphasis.

Singer/Songwriter Emphasis

Students in the singer/songwriter emphasis (p. 206) complete specialized courses in the songwriting and arranging repertoire while developing their performance skills through small performance ensembles and applied private study of voice, accompanying instrument and songwriting. The curriculum includes the presentation of junior and senior recitals. Students are required to pass a Sophomore Proficiency at the end of the sophomore year in order to progress into advanced performance and musicianship courses.

Students must pass a singer/songwriter entrance audition to pursue the singer/songwriter emphasis.

Songwriter Entrepreneur Emphasis

Students in the songwriter entrepreneur (p. 207) emphasis complete a balance of courses in songwriting and music business to develop knowledge for career prospects as independent musicians.

Music Business Emphasis

(Audition Track (p. 200)¹ or Non-Audition Track (p. 201)²)

The music business emphasis prepares undergraduates for careers in fields such as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution and entertainment law.

¹ Audition Track (for students pursuing the music business or recording arts emphasis)

- ² Non-Audition Track (for students pursuing the music business or recording arts emphasis)

Recording Arts Emphasis

(Audition Track (p. 204)¹ or Non-Audition Track (p. 205)²)

The recording arts emphasis focuses on contemporary analog and digital technology as it is used in music recording, sound reinforcement and media applications (Internet, video games, interactive art installations, etc.). While mastering technology skills and formats, students also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance.

- ¹ Audition Track (for students pursuing the music business or recording arts emphasis)

- ² Non-Audition Track (for students pursuing the recording arts emphasis)

Audition Track (for students pursuing the music business or recording arts emphasis)

The audition track provides an in-depth study of musicianship/performance through lectures and hands-on learning, while allowing students to specialize in their area of interest. As part of the admissions process, students must pass an entrance audition on a musical instrument or voice.

Students on the audition track must complete three semesters of music theory and ear training & sight singing courses, followed by a semester of jazz theory. In addition, students complete four semesters of class piano. All students in MEIS complete two music history courses.

Audition track students take four semesters of private lessons, culminating each semester in a performance for a jury of faculty. They also take four semesters of general recital, which culminates each semester in a performance for an audience of their peers.

Non-Audition Track (for students pursuing the music business or recording arts emphasis)

The non-audition track provides a broad overview of various musicianship/performance topics through lectures and hands-on learning. This track does not require an entrance audition.

Students on the Music Business (MB) or Recording Arts (RA) non-audition tracks complete one semester of music theory, and either two semesters of ear training & sight singing for RA, and one semester of ear training & sight singing for MB, one class piano or class guitar. Students may opt to complete up to two semesters of class piano or can switch to voice class or guitar class. Non-audition track students are required to take additional musicianship course work, including Music in Culture and a music history elective.

Non-Audition Track (for students pursuing the recording arts emphasis)

The non-audition track recording arts emphasis provides an in-depth review of recording arts topics through lectures and hands-on learning. This track does not require an entrance audition.

Students on the non-audition track complete one semester of music theory, two semesters ear training & sight singing, and class piano, guitar class, or voice class. All students in MEIS complete two music history courses.

Students are encouraged to contact the College of Arts & Media at CAM@ucdenver.edu to talk about the differences in curriculum and to determine which track is best suited to them.

See the **Graduate Catalog** or contact CAM@ucdenver.edu for information about the graduate programs in recording arts and media forensics.

Programs

- General Music Minor (p. 200)
- Music Business Emphasis, Audition Track, Music BS (p. 200)
- Music Business Emphasis, Non-Audition Track, Music BS (p. 201)
- Music Industry Studies Minor (p. 202)
- Performance Emphasis, Music BS (p. 203)
- Recording Arts Emphasis, Audition Track, Music BS (p. 204)
- Recording Arts Emphasis, Non-Audition Track, Music BS (p. 205)
- Singer/Songwriter Emphasis, Music BS (p. 206)
- Songwriter Entrepreneur Emphasis, Audition Track, Music BS (p. 207)

Faculty

Professors:

Stan Soocher, JD, New York Law School

Gregory Walker, DMA, University of Colorado

Associate Professors:

David Bondelevitch, MFA, University of Southern California

Lorne Bregitzer, MS, University of Colorado Denver

Storm Gloor, MBA, West Texas A&M University

Catalin Grigoras, PhD, University Politehnica Bucharest

Erin Hackel, DMA, University of Colorado

Sean McGowan, DMA, University of Southern California

Sam McGuire, MS, University of Colorado Denver

Paul Musso, MM, University of Denver

Richard Strasser, DMA, Manhattan School of Music

Assistant Professors:

Cecilia Wu, PhD, University of California Santa Barbara

Senior Instructors:

Peter Ellingson, DMA, University of Colorado

Owen Kortz, MM, University of Southern California

Todd Reid, MM, University of Cincinnati - Conservatory of Music

Instructors:

Gregory Garrison, DMA, University of Colorado Boulder

Andrew Guerrero, BS, University of Colorado Denver

Jeffrey Merkel, MS, University of Colorado Denver

Andrew Morell

Leslie Soich, MM, University of Colorado Boulder

Evan Shelton, MM, University of Denver

Music (MUSC)

MUSC 1011 - The Greatest Albums of All Time (3 Credits)

Explores the greatest recorded albums of the modern era. Students will gain historical perspective on specific groups and also learn about the tools and techniques used in their production process. For students who want to learn how to listen to music with greater understanding and appreciation. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 1111 - First-Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

MUSC 1540 - Introduction to Audio Production (3 Credits)

Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 1541 - Audio Production I (3 Credits)

Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. Coreq: MUSC 1542. Restriction: Restricted to MUSC-BS with a sub-plan of MRA or MST. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: MUSC 1542. Restriction: Restricted to MUSC-BS with a sub-plan of MRA or MST

MUSC 1542 - Audio Production Lab (1 Credit)

Lab component to Audio Production I. Focus is on digital audio workstation fluency including recording, editing, processing, signal flow, and automation, and multitrack mixing principles. Coreq: MUSC 1541. Restriction: Restricted to MUSC-BS majors withing the College of Arts and Media. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: MUSC 1541. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 1560 - Audio Production II (3 Credits)

Studies include theoretical and practical music production techniques with topics covering digital audio workstations, signal flow, digital signal processing, MIDI production, synthesis, and sampling. Team lab recording projects involve recording, mixing, and other music production techniques. Prereq: MUSC 1540 or MUSC 1541, and MUSC 1542. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1540 or MUSC 1541, and MUSC 1542. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 1800 - Acoustics for Audio Production (3 Credits)

This course studies the nature of sound and practical applications for critical listening and recording environments. Topics include the nature of sound, studio and concert hall design measurement and analysis. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2125 - Electronic Music Production Techniques (3 Credits)

Students will learn contemporary electronic music techniques using current software. The class will include MIDI sequencing, looping, sampling, FM synthesis, subtractive synthesis, and wavetable synthesis. Students will also learn how to appropriately use effects and digital editing. Prereq: MUSC 1560; Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1560; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 2450 - Performing Arts Management and Presentation (3 Credits)

Introduces students to nonprofit and for-profit arts organization issues in performance presentation including organization structure, performance production and management, development of leadership and organizational skills as well as a general understanding of the profession. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2510 - Topics in Recording Arts (3 Credits)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MUSC 2550 - Critical Listening for Recording Arts (3 Credits)

Students will be trained to recognize: boosts and cuts in different bands of frequencies at increasingly small increments, types of distortion, parameters for compression, delay, reverb and stereo imaging. Students will develop a vocabulary for describing sounds and improving auditory memory. Prereqs: MUSC 1560, 1800; Co-req: MUSC 2580; Restricted to BS-MUSC MRA or MST sub-plan only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereqs: MUSC 1560, 1800; Co-req: MUSC 2580; Restricted to BS-MUSC MRA or MST sub-plan only.

MUSC 2580 - Audio Production III (3 Credits)

Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track digital recording and stereo imaging. Team lab recording projects. Prereq: MUSC 1560, MUSC 1800; Co-req: MUSC 2550; Restricted to BS-MUSC MRA and MST sub-plans only. Cross-listed with MSRA 5550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1560, MUSC 1800; Co-req: MUSC 2550; Restricted to BS-MUSC MRA and MST sub-plans only.

MUSC 2590 - Mastering & Advanced Digital Audio (3 Credits)

A study and practice of the art of mastering. Topics covered include: history, monitoring, signal flow, metering, jitter, audio restoration, limiting, creating a CD pre-master, & mastering for new media. Students will get practical experience mastering their own projects. Prereq: MUSC 2550 & 2580; Restricted to MRA and MST sub-plan only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2550 2580; Restricted to MRA and MST sub-plan only.

MUSC 2600 - A History of Audio in 30 objects (3 Credits)

Explore the history of audio through the stories of 30 key objects. From Edison cylinders to Apple computers. This class will trace the development of recording technology and techniques, and discuss how they effect the way we work today. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2700 - Introduction to Music Business (3 Credits)

Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

MUSC 2750 - Introduction to Music Business (3 Credits)

Introduces music as a business and product emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2815 - Music Industry Topics (3 Credits)

Various topics related to music business and recording arts industries. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

MUSC 2851 - Introduction to the International Music Business (3 Credits)

Students are introduced to the fundamentals of the international music business in diverse countries, including through online discussions and research. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2852 - Introduction to International Music Technology (3 Credits)

Historical and current global innovations in music technology and their impact on popular music. From magnetic tape to DAWs, monophonic to immersive audio, Roland's 808 bass to Ableton Live. Japan, Germany, Sweden, and the UK are among those represented. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2853 - International Music Business Study Abroad (3 Credits)

Students engage in music-business field trips to international settings to attend industry events, interact with industry professionals and conduct research for a practical perspective on the increasing globalization of the music industry. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2854 - International Recording Arts Study Abroad (3 Credits)

Students become acquainted with music technology in a different country by visiting music conferences, recording studios, manufacturers, and historical landmarks. Students compare culturally-based standards and expectations of quality and communication to enhance their sense of professionalism in the field. Max hours: 3 Credits

Grading Basis: Letter Grade

MUSC 3125 - Sound and Music for Video Games (3 Credits)

This course will give students an overview of the function of sound and music for video games including: history, sound engines, types of audio utilized, stereo and surround sound localization, music capabilities of hardware configurations and future trends in sound for video games.

Prereq: MUSC 2580. Max hours: 3 Credit.

Grading Basis: Letter Grade

Pre: MUSC 2580

MUSC 3130 - Sound and Music For Video Games II (3 Credits)

Course is a continuation of Sound and Music for Video Games. Topics of study include non-linear music composition and implementation, advanced sound design techniques, optimization, and hands-on experience with modern game engines and game audio engines. Prereq: MUSC 3125. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3125. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3210 - Music and Entertainment Marketing (3 Credits)

In this course students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Prereq: MUSC 2700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2700 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3220 - Artist Management (3 Credits)

Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Prereq: MUSC 2700 Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2700 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 3250 - Music and Entertainment Marketing (3 Credits)

Students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700.

MUSC 3260 - Artist Management (3 Credits)

Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700.

MUSC 3265 - Music Industry Networking (3 Credits)

This course examines key networking strategies, processes and methods within the music industry. Students will research potential markets using social media, face-to-face interaction and other electronic means. Prereq: MUSC 3220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3220

MUSC 3505 - Introduction to Audio Post Production (3 Credits)

Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multi-media. Cross-listed with MSRA 5505.

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3515 - History of 20th Century Film Music (3 Credits)

This survey of the history of 20th century music in film will acquaint aspiring filmmakers and musicians with a history of the music, as well as concepts of film theory and the creative use of film music. Restricted to students with Junior or Senior status. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3530 - Live Sound Reinforcement (3 Credits)

This course focuses on the basic elements of sound reinforcement: acoustics, equalization, equipment and mixing techniques. The major emphasis is the production of the final sonic product. Prereq: MUSC 2580. Restriction: Restricted to Sophomore standing or higher and to MUSC-BS with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2580 Restriction: Restricted to Sophomore standing or higher. Restriction: Restricted to MUSC-BS with sub-plan of MRA or MST.

MUSC 3545 - Music Editing in Visual Media (3 Credits)

Music editing for film and television. Spotting notes, temp tracks, cue sheets, scoring session management, dubbing stage fixes, and Performing Rights Artists notes. Cross-listed with MSRA 5545. Prereq: MUSC 3505. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 3555 - Dialogue Editing & Mixing for Visual Media (3 Credits)

Dialogue editing and mixing for film and television. Recording Voiceover, Automated Dialogue Replacement, Group ADR, Efforts. Noise-reduction, mix levels, compression, limiting, EQ and use of reflected sound. Cross-listed with MSRA 5555. Prereq: MUSC 3505. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 3605 - Audio Post Production II (3 Credits)

Students will learn advanced Pro Tools techniques by designing, conceptualizing, and completing sound for a student film project. This interdisciplinary course prepares students for working relationships between Recording Arts, Film and Video areas and an entry level job in post production. Prereq: MUSC 3505; Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Cross-listed with MSRA 5605. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3615 - Topics In Music Business (3 Credits)

Various topics relating to the study of music business. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

MUSC 3650 - Music Touring (3 Credits)

Study of the important elements related to the successful execution of musical tours. Topics include tour management, deal memos and contracts, advancing a tour, tour routing, management/booking agents, merchandise sales, tour accounting, hand tour marketing. Prereq: MUSC 3210 and MUSC 3220. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and MUSC 3220. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 3690 - Concert Promotion and Venue Management (3 Credits)

This course gives students a working knowledge of touring, presenting, promoting, marketing and management of live concerts. They will undertake an in-depth analysis from various points of reference: issues for agent, independent promoter, venue manager, tour/production manager and performer. Prereq: MUSC 3210 and MUSC 3220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and MUSC 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3699 - Concert Promotion and Venue Management (3 Credits)

This course gives students a working knowledge of touring, presenting, promoting, marketing and management of live concerts. They will undertake an in-depth analysis from various points of reference: issues for agent, independent promoter, venue manager, tour/production manager and performer. Restricted to Music Business Minors. Prereqs: MUSC 3250 and MUSC 3260. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Business Minors. Prereqs: MUSC 3250 and MUSC 3260.

MUSC 3700 - Music and Entertainment Business in the Digital Age (3 Credits)

In this course students learn the trends and developments changing the industry in the Digital Age. Course focuses on current technology, terminology and business models shaping the industry, preparing students for entry into an evolving music and entertainment career.

Prereq: MUSC 3210 and 3220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3710 - CAM Records (3 Credits)

Provides students with an opportunity to use knowledge and skills from music business courses to create and execute initiatives while partnering with local artists and music-related entities for a hands-on learning experience that benefits the student and local music community. Prereq: MUSC 3210 and 3220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: MUSC 3210 and 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3715 - Music Business Modules (1 Credit)

Modular courses intended to expose students to specific business and management aspects of various subindustries within the music industry.. Prereq: MUSC 3690. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

MUSC 3720 - Law and the Music Industry (3 Credits)

Students will learn how to use and analyze music law principles through a review of essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 3690, 3700, 3710 and 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3690, 3700, 3710 and 3755 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3730 - Introduction to Music Cities (3 Credits)

In this course, students will examine the development and enhancement of music communities, using as templates the music communities in the city of Denver, the state of Colorado, and other cities throughout the world. Restriction: Restricted to Students with a Junior or Senior Standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3731 - Non Profit Entities in Music and Creative Economies (3 Credits)

Students explore the viability, creation, effective operation, and sustainability of a music-related non-profit entity within a music community and how it can strengthen the economic and social well-being of that community. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3732 - Advanced Music Cities (3 Credits)

Students explore how investment in a city's music economy can be beneficial to the development of both a city's physical and economic landscape. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3733 - Music Tourism (3 Credits)

Students will learn how to use music to drive local and regional tourism strategies. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3740 - Location Sound Recording (3 Credits)

Studies workflow and techniques for location recording for film, video, TV, and video games. Students will work in field and in the studio recording and producing sound effects. Topics include microphone selection, field recording, editing and related industry studies. Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3750 - Women in the Music Industry (3 Credits)

An exploration of the role of women in the music industry, from performers to recording professionals, managers, and executives. This course offers historical perspective on gender diversity in the industry, and explores current issues and its impact on music. Prereq: MUSC 2700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2700.

MUSC 3755 - Music Publishing (3 Credits)

Students will learn key issues related to music publishing and song marketing activities, as well as the function and responsibilities of music publishers. Students will gain insight into skills needed to operate a music publishing company. Prereq: MUSC 3210 and 3220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3760 - Music Publishing (3 Credits)

Students will learn key issues related to music publishing and song marketing activities, as well as the function and responsibilities of music publishers. Students will gain insight into skills needed to operate a music publishing company. Restricted to Music Business Minors.

Prereqs: MUSC 3250 and MUSC 3260. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Business Minors. Prereqs: MUSC 3250 and MUSC 3260.

MUSC 3770 - Music Licensing (3 Credits)

An examination of licensing and publishing agreements associated with the music industry. Course will also examine digital licensing agreements from a publishing and label perspective. Prerequisite: MUSC 3720 and MUSC 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: MUSC 3720 and MUSC 3755.

MUSC 3775 - Music Supervision (3 Credits)

An examination of processes and strategies associated with securing licenses for music in media outside the music industry. This course offers hands-on opportunity to make music selections for a variety of media using licensing/contract deals for composers, publishers, and labels.

Prereq: MUSC 3720 and MUSC 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: MUSC 3720 and MUSC 3755.

MUSC 3785 - Current Issues In the Music Business (3 Credits)

Class discusses and analyzes cutting-edge business and legal developments in the music industry, focusing particularly on the developments' impact on historical traditions, career paths and creative applications in the field. Prereq: MUSC 3690. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: MUSC 3690 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3790 - Video Production in the Arts: Music (4 Credits)

Introduces the development of the contemporary music video with an emphasis on stylistic and technical analysis. Combines a lecture demonstration format with hands-on videography. Open to music, theatre, fine arts majors, and students who have successfully completed at least one College of Arts and Media course. Max hours: 4 Credits.

Grading Basis: Letter Grade

MUSC 3845 - The Beatles (3 Credits)

This course explores the music, biography, cultural impact and business of the Beatles. Restriction: Students must be of sophomore-, junior-, or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

MUSC 3850 - History of the Music Industry (3 Credits)

This course investigates the historical development of the music industry from an economic, social, artistic, political, and technological perspective. It focuses on organizations, genres, business systems and influential individuals. Restriction: Restricted to MUSC-BS majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

MUSC 4100 - Advanced Composition (2 Credits)

Composition of extended forms. May be repeated once for credit. Prereq: MUSC 3200. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

MUSC 4210 - Advanced Music Law (3 Credits)

Students will conduct in-depth research on focused music law issues, and engage in a workshop setting in drafting, reviewing and negotiating music business contracts. Prereq: MUSC 3720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: MUSC 3720

MUSC 4400 - The International Music Business (3 Credits)

Students examine key elements of the music business structures of different countries, including the countries' trade organizations, industry executives, music artists (as examples of music business success), intellectual property principles and current music business issues.

Prereq: MUSC 3720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: MUSC 3720

MUSC 4500 - Topics in Professional Audio (1 Credit)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry.

Prereq: MUSC 4550. Cross-listed with MSRA 5500. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: MUSC 4550 Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4510 - Topics in Recording Arts (3 Credits)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry.

Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: MUSC 4550 Restriction: Restricted to MUSC majors with a sub-plan of MRA or MST

Typically Offered: Fall, Spring, Summer.

MUSC 4525 - Multimodal Interaction for Music (3 Credits)

This course explores human-computer interaction in music composition and performance. Students will learn to program and use open-source hardware to build novel and creative musical interfaces and instruments. Restriction: Restricted to Junior/Senior level students in the Recording Arts program. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior/Senior level students in the Recording Arts program (MUSC-BS MST or MUSC-BS MRA)

MUSC 4535 - Sound Effects & Foley for Visual Media (3 Credits)

Techniques for recording sound effects in the field and recording Foley in the studio. Use of library effects. Use of mixing techniques and plug-ins to create more complex sounds. Cross-listed with MSRA 5535. Prereq: MUSC 3505. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 4545 - Re-recording Mixing for Visual Media (3 Credits)

Techniques for mixing dialogue, ADR, music, sound effects, background ambiances and Foley. Different level standards and deliverables. Cross-listed with MSRA 5565. Prereq: MUSC 3555 or MUSC 4535. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3555 or MUSC 4535

MUSC 4575 - Surround Sound (3 Credits)

This lecture-lab course deals with surround sound in film, digital TV and DVDs. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Cross-listed with MSRA 5575. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4580 - Audio Production Seminar (3 Credits)

Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. (Music facility fee applies) Prereq: MUSC 3505; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: MUSC 3505; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4581 - Audio Production Seminar II (3 Credits)

A capstone project based course in which students complete professional quality projects in music production and/or post production. Students refine their engineering skills and develop new skills required for integration in the music industry such as portfolio design and resume development. Prereq: MUSC 4580. Cross-listed with MSRA 5581. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: MUSC 4580 Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST

MUSC 4740 - Music Business Analysis (3 Credits)

Students learn to analyze specific managerial situations unique to the music and entertainment industries and will understand aspects of finance, taxation, and management science. Prereq: MUSC 3690, 3700, 3710 and 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3690, 3700, 3710 and 3755 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 4800 - Music Industry Entrepreneurship (3 Credits)

MIE is a project-based course focused on individual entrepreneurial endeavors. Students will supply their own business, music, multi-media or audio projects. The class will focus on principles of entrepreneurship and helping student's develop those projects into viable businesses or creative releases. Restriction: Restricted to Juniors and Seniors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 4820 - Digital Music Techniques (3 Credits)

Studies the general principles and applications of digital music technology, emphasizing the function and operation of specific computer software. Topics include digital audio workstations, MIDI sequencers, digital signal processing programs, and distribution on optical discs and computer-based mediums. Prereq: Admittance to Recording Arts/Tech focus. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST

MUSC 4890 - Music Business Senior Seminar (3 Credits)

Seminar activities focus on students developing, discussing and completing individual capstone projects. This includes an in-depth research paper and in-class presentation to allow students to explore their relevant interests in the music business. Prereq: MUSC 3720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3720 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 4939 - Internship in MEIS (1-3 Credits)

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Performance Music (PMUS)

PMUS 1001 - Music Appreciation (3 Credits)

Explores the style of music in the major compositional periods, including contemporary pop styles. This course will not satisfy any degree requirements for music majors. For non-music majors who want to learn how to listen to music with greater understanding and pleasure. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

PMUS 1011 - World Pop (3 Credits)

Explores popular music from around the world with an emphasis on the latest trends. This is for non-music majors who want to learn about other cultures and learn how to listen to all music with greater understanding. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

PMUS 1020 - Beginning Musicianship (3 Credits)

Provides basic musical and theoretical skills to students who do not have the proficiency to enroll in Theory I and Ear Training I. Major concepts include an introduction to music fundamentals, basic ear training, introduction to sight singing and an applied understanding of the keyboard. This course will not satisfy any degree requirements for Music majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 1021 - Piano Class For Non-Majors (1 Credit)

Elementary group instruction in piano skills for non-majors. Course focuses upon development of basic reading and performance skills for the non-Music Major. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1022 - Piano Class II for Non-Majors (1 Credit)

Intermediate to Advanced instruction in piano skills for non-majors.

Course focuses on further development of reading and performance skills for the non-Music Major. Prereq: PMUS 1021 or permission of instructor.

Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1021

PMUS 1023 - Piano Class I (1 Credit)

This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Restriction: Restricted to MUSC-BS majors within the College of Arts & Media. For sub-plans MMM, MRA, MPF, SWR : Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B. For sub-plans MSB and MST: no coreqs. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts Media. For sub-plans MMM, MRA, MPF, SWR : Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B. For sub-plans MSB and MST: no coreqs.

PMUS 1024 - Piano Class II (1 Credit)

This course focuses on intermediate sight reading, technique, chord vocabulary, major and minor scales, and improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1023. Coreq: PMUS 1200 and 1210. Max hours: 1 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1023/MU 161B, 1100/MU 1110, and 1110/MU 1120 Coreq: PMUS 1200/MU 1130 and 1210 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1025 - Piano Class III (1 Credit)

Students entering this course are expected to have general fluency in major and minor scales. The course focuses on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1024. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1024 (sub-plans MMM or MRA or MPF or PRA or MST or MSB or PMT or SWR) Coreq: PMUS 2100 and PMUS 2110 (sub-plans MMM or MPF or MRA or PRA or SWR) Restriction: MUSC-BS

PMUS 1026 - Piano Class IV (1 Credit)

Students entering this course are expected to have fluency in sight reading, major and minor scales. The course focuses on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: PMUS 1025. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1025 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1040 - Class Guitar (1 Credit)

Designed to provide each student with a basic knowledge of the fretboard. The course material focuses on beginning note reading, basic chord forms and elementary improvisation. Students have the opportunity to perform in both individual and group settings. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1041 - Class Guitar II (1 Credit)

This group guitar class is designed to go beyond PMUS 1040 and provide students with an advanced knowledge of the fretboard. The course material focuses on advance position note reading, complex chord forms and scale vocabulary. Students have the opportunity to perform in both individual and group settings. Max hours: 1 Credit.

Grading Basis: Letter Grade

Repeatable. Max Credits: 1.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1045 - Class Guitar I for Non-Majors (1 Credit)

This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes and songs. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1046 - Class Guitar II for Non-Majors (1 Credit)

This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes and songs. Prereq: PMUS 1045. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1045

PMUS 1050 - Voice Class I (1 Credit)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1051 - Voice Class I for Non-Majors (1 Credit)

Voice technique and repertoire for non-music majors taught in a group setting. Students will learn basics of healthy singing technique and how to sing in multiple genres in both group and solo formats. For non-majors with little or no previous singing experience. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1060 - Voice Class II (1 Credit)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 1050, with opportunity to continue to develop individual skills in singing. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1061 - Voice Class II for Non-Majors (1 Credit)

Intermediate Voice technique for non-majors taught in a group setting. Students will learn elements of technique, style and repertoire geared toward non-majors. Some singing experience or successful completion of Voice I for Non-Music Majors required. Prereq: PMUS 1051 or permission from the instructor. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1051

PMUS 1100 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common practice period of classical music, and their relationship to contemporary music concepts. Coreq: PMUS 1110 and PMUS 1023. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1101 - Music Theory & Ear Training Lab (1 Credit)

Provides supplemental instruction and tutoring for students enrolled in Theory I and Ear Training Sight Signing I. Course activities include training in the following subject areas: scale formation and identification, chord spelling and identification, interval spelling and identification, basic harmonic analysis and rhythmic dictation. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

Typically Offered: Fall.

PMUS 1105 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common periods of practice, and their relationship to contemporary music concepts. Restriction: Restricted to General Music Minors, GMUS-MIN. Co-requisite PMUS 1115. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to General Music Minors, GMUS-MIN. Co-requisite PMUS 1115 and PMUS 1105.

PMUS 1110 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Coreq: PMUS 1100 and PMUS 1023. Max hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1115 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music.

Restriction: Restricted to General Music Minors, GMUS-MIN. Co-requisite PMUS 1105. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to General Music Minors, GMUS-MIN. Co-requisite PMUS 1115 and PMUS 1105.

PMUS 1119 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music.

Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB.

PMUS 1120 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common periods of practice, and their relationship to contemporary music concepts. Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB.

PMUS 1200 - Music Theory II (3 Credits)

The study of harmonic and melodic elements as they relate to modern, jazz, and commercial music. Topics include contemporary chord spelling, chord substitution, transposition, voice leading, harmonic analysis and modes. Prereq: PMUS 1023, 1100, and 1110. Coreq: PMUS 1210 and PMUS 1024. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1023/MU 161B, 1100/MU 1110, and 1110/MU 1120 Coreq: PMUS 1210 and 1024/MU 162B Restriction: Restricted to MUSC-BS majors within in the College of Arts and Media

PMUS 1210 - Ear Training and Sight Singing II (1 Credit)

An intermediate aural skills laboratory course that reinforces the concepts taught in Music Theory II through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music.. Prereq: PMUS 1100 and PMUS 1110. Coreq: PMUS 1200 and PMUS 1023. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1023/MU 161B, 1100/MU 1110, and 1110/MU 1120 Coreq: PMUS 1200/MU 1130 and 1024/MU 162B Restriction: Restricted to MUSC-BS majors within in the College of Arts and Media

PMUS 1211 - Ear Training and Sight Singing II (1 Credit)

An intermediate aural skills laboratory course that examines interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Prereq: PMUS 1119; Restricted to MUSC-BS majors with a sub-plan of MST. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1119; Restricted to MUSC-BS majors with a sub-plan of MST.

PMUS 1310 - Sight Reading and Improvisation (2 Credits)

Explores the techniques and concepts of instrumental jazz/commercial improvisation and beginning sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Prereq: PMUS 1200, 2.0 credits from PMUS 1801 to PMUS 1823 (MIS Applied Lesson). Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200 and (2.0 credit hours from PMUS 1801-1823)

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1420 - UCD A Cappella Voices Ensemble (1 Credit)

Beginning Ensemble. A cappella choir. This course will focus on choral singing to further the student's musical and vocal skills. Emphasis will be on successful preparation for the advanced a cappella groups. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 1440 - Acoustic Guitar Ensemble (1 Credit)

Beginning Ensemble. This course explores the techniques and repertoire of acoustic guitar. Musical styles include: jazz, Latin, bluegrass, Renaissance, Baroque, tango and blues. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 1470 - Performance Practice Ensemble (1 Credit)

This beginning-level ensemble explores individual and group performance settings for first year audition-based MEIS students. Course skills include: performance protocol, presentation, self assessment and peer assessment. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1480 - Improvisation I (2 Credits)

Introduction to the techniques and concepts of instrumental improvisation. Major concepts include identifying and improvising over common musical forms, understanding chord construction and chord/scale relationships, and developing an ability to improvise appropriately in a number of common styles. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 1500 - General Recital (1 Credit)

This pass/fail course is a co-requisite for all students enrolled in applied music instruction. Students will evaluate and critique musical performances and presentations as well as develop an informed understanding of live musical performance as it pertains to diversity of genre and excellence in musical achievement. Restriction: Restricted to MUSC BS majors, and GMUS minors. Repeatable. Max hours: 12 Credits.

Grading Basis: Pass/Fail Only

Repeatable. Max Credits: 12.

Restriction: Restricted to BS MUSC majors, and GMUS minors

PMUS 1502 - Applied Bass (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1522 - Applied Bassoon (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1532 - Applied Clarinet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1542 - Applied Bass Clarinet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1552 - Applied Flute (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1562 - Applied French Horn (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1572 - Applied Guitar (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1574 - Applied Guitar, Singer/Songwriter (1 Credit)

Private instruction guitar specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program and have declared guitar as their primary instrument. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1582 - Applied Banjo (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1610 - Topics in Performance Music (1 Credit)

Various topics related to music performance. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PMUS 1612 - Applied Drum Kit (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1620 - Topics: Performance Music II (2 Credits)

Various topics related to music performance. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1630 - Topics: Performance Music III (3 Credits)

Various topics related to music performance. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PMUS 1632 - Applied World Percussion (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1642 - Applied Piano (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1644 - Applied Piano, Singer/Songwriter (1 Credit)

Private instruction in piano specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program and have declared piano as their primary instrument. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1672 - Applied Electronic Digital Instrument (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Restriction: Restricted to MUSC majors within the College of Arts and Media. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1702 - Applied Violin (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1712 - Applied Viola (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1722 - Applied Cello (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1732 - Applied Voice (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1734 - Applied Voice, Singer/Songwriter (1 Credit)

Private instruction in voice specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1801 - Appl Electric Bass, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1802 - Appl String Bass, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1803 - Applied Guitar, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1804 - Applied Percussion, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1805 - Applied Drum Kit, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 1806 - Applied Piano, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1808 - Applied Voice, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1809 - Applied Electronic Digital Instrument, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1815 - Applied Banjo, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1821 - Applied Cello, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1822 - Applied Viola, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1823 - Applied Violin, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC majors

PMUS 1901 - Applied Electric Bass (1 Credit)

Private music lessons for General Music Minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music Minors, GMUS-MIN. Max hours: 1 Credit. Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1903 - Applied Guitar (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit. Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1905 - Applied Drum Kit (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit. Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1906 - Applied Piano (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music Minors, GMUS-MIN. Max hours: 1 Credit. Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1908 - Applied Voice (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restricted to General Music minors, GMUS-MIN.

PMUS 1909 - Applied Electronic Digital Instrument (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN.

Grading Basis: Letter Grade

Restricted to General Music minors, GMUS-MIN.

PMUS 1923 - Applied Violin (1 Credit)

Private music lessons for General Music minors majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restricted to General Music minors, GMUS-MIN.

PMUS 2020 - Prague's Musical Legacy (3 Credits)

Introduces students to composers and music of central Europe, with an emphasis on Czech music and culture. Additional topics include: aesthetics of central European film music; current trends in Slavic music; and the influence of the Czech language and history in music creation.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PMUS 2050 - The Holistic Musician (3 Credits)

This course is designed to examine and explore the development and practice of health and wellness for musicians, identifying and establishing career objectives, and developing core strategies to thrive as a contemporary artist-musician. Max hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 2092 - Commercial Piano Styles I (2 Credits)

This course will teach students how the piano is used in major commercial piano styles of the twentieth and twenty-first centuries. Students will develop a found of skills and knowledge that can be applied to professional music settings. Students must pass a piano audition or have permission from the instructor. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

Typically Offered: Fall.

PMUS 2093 - Commercial Piano Styles II (2 Credits)

This course will teach students in-depth stylistic performance skills, strategic improvisation, composition, and arranging. Students must pass a piano audition, or complete PMUS 2092, or have permission from the instructor. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC majors

PMUS 2095 - Commercial Guitar Styles and Theory - Harmony (2 Credits)

A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: chord voicing and inversions, jazz and commercial accompaniment styles including walking bass, bossa nova, funk and finger picking. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2096 - Commercial Guitar Styles and Theory - Melody (2 Credits)

A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: tetrachords, scales, modes, arpeggios, finger technique development and improvisation. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2097 - Commercial Singing I (2 Credits)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 2098 - Commercial Singing II (2 Credits)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 3010, with opportunity to continue to develop individual skills in commercial solo singing. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. Prereq: PMUS 3010. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 2100 - Music Theory III (3 Credits)

Exposes students to the theoretical aspects of Western European classical music from the Baroque period to the Classical period. Emphasis is placed on the melodic aspects of classical music including the creation of melody and the combining of melodies into polyphonic structures. Prereq: PMUS 1200, 1210, and 1024. Coreq: PMUS 1025 and 2110. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1024/MU 162B, 1200, and 1210 Coreq: PMUS 1025, PMUS 2110 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 2110 - Ear Training and Sight Singing III (1 Credit)

An advanced laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in Music Theory III to the performance of music. Prereq: PMUS 1200 and PMUS 1210.

Coreq: PMUS 2100 and PMUS 1023. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1024/MU 162B, 1200, and 1210 Coreq: PMUS 1025 and 2100 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

Typically Offered: Fall.

PMUS 2200 - Jazz Theory (3 Credits)

Explores music theory as it applies to the genres of jazz and popular music. The topics include the theory of jazz improvisation, an analysis of jazz and popular music forms, the transcription and analysis of pop/jazz rhythms and melodies, and chord substitutions. Prereq: PMUS 1200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200/MU 1130 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2220 - Songwriting Production (3 Credits)

This course explores methods of composition and arranging using sample-based software. Prereq: PMUS 1200, PMUS 1210 and MUSC 2300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200/MU 1130, 1210, and PMUS 2310/MUSC 2300

Restriction: Restricted to MUSC majors

PMUS 2310 - Introduction to Songwriting (3 Credits)

Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. Prereq: PMUS 1200, 2.0 credits from PMUS 1801 to PMUS 1823 (MIS Applied Lesson). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200 and (2.0 credit hours from PMUS 1801-1823)

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 2315 - Introduction to Songwriting (3 Credits)

Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. Prereq: PMUS 1105, 1115 and (1.0 credit from PMUS 1901-1923). Restriction: Restricted to General Music Minors GMUS-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1105, 1115 and (1.0 credit from PMUS 1901-1923).

Restriction: Restricted to General Music Minors GMUS-MIN.

PMUS 2320 - Songwriting Analysis (3 Credits)

This course presents an analysis of songs across genres and decades, including pop, rock, folk, singer/songwriter, punk, rap, indie, and bluegrass. Students isolate and compare lyrical, melodic, harmonic, rhythmic, and formal elements. Prereq: PMUS 1200. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200

PMUS 2420 - Electro/Acoustic Ensemble (1 Credit)

Intermediate Ensemble. This course will study established methods used as agents of musical creativity in the practice of improvised music. Focus on real-time musical collaboration utilizing musical vocabularies from a wide range of sources. Instrumentation of many kinds may be utilized.

Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2430 - Pop/Rock Ensemble (1 Credit)

Intermediate Ensemble. This course will focus on group rehearsals of contemporary music with challenging technical and vocal requirements. Students will gain experience in transcribing and creating simple arrangements, learning adequate musicality, performing presentation and group cooperation. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2435 - Hip Hop/R&B Ensemble (1 Credit)

Intermediate Ensemble. This course will focus on group rehearsals of hip hop and R&B with challenging technical and vocal requirements. Students will gain experience in transcribing and creating simple arrangements, learning adequate musicality, performing presentation and group cooperation. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PMUS 2450 - Bluegrass Ensemble (1 Credit)

Ensemble designed to give students the opportunity to explore Bluegrass music and related folk/country styles through performance, listening and discussion. Important artists, repertoire, musical trends, and historical perspectives will be studied. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

This ensemble will be comprised of students utilizing only laptop computers and mobile devices (e.g., iPads & iPhones) to create music. The ensemble will explore various contemporary styles including house, dance, ambient and other current electronic music. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

PMUS 2490 - Django Jazz Ensemble (1 Credit)

Ensemble designed to give students the opportunity to explore the genre "gypsy jazz" and related styles through performance, listening and discussion. Important artists, repertoire, musical trends, and historical perspectives will be studied. Open to advanced instrumentalists and vocalists, audition based. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2495 - New Electronics Orchestra Ensemble (NEO) (1 Credit)

A performance laboratory for the combination of electronic and acoustic instruments, including improvisation, composition, as well as live video and game sound design. Class requires either an audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2722 - Applied Cello (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 2732 - Applied Voice (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 2742 - Applied Tuba (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1742 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC majors

PMUS 2750 - Functional Guitar Skills: Acoustic Guitar Styles (2 Credits)

This course is designed to introduce students to the fundamental architecture and techniques of contemporary acoustic guitar styles. The first part of the course will explore the techniques, repertoire and styles of Fingerstyle Guitar, while the second half will be dedicated to Flatpicking styles and techniques. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2751 - Functional Guitar Skills: Electric Guitar Styles (2 Credits)

This course is designed to introduce students to the fundamental architecture and techniques of contemporary electric guitar styles with regard to studio and live performance situations. Students will also explore the business aspects of music performance including marketing, self-assessment, career strategies, recording, and press kits. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2855 - Music in Cuba Study Abroad (3 Credits)

Explores Cuban music in its cultural context, examining the development of musical genres, and the current musical and cultural landscape. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 3060 - Ensemble Engineer (1 Credit)

This engineer position is designed to provide audio support for a various performing ensembles. Duties include live audio reinforcement during concerts and rehearsals, audio archiving, organization and equipment management. Enrollment is limited to one semester for non-audition track students and two semesters for audition-track students. Prereq: MUSC 4530. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: MUSC 4530

PMUS 3070 - Ensemble Manager (1 Credit)

This manager position is designed to provide booking, promotional and organizational support for various performing ensembles. Enrollment is limited to one semester for non-audition track students and two semesters for audition-track students. Prereq: MUSC 3690. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: MUSC 3690

PMUS 3100 - US Music: Social & Political Impact (3 Credits)

Examines and describes the social meaning of American music with particular reference to the roles of major ethnic groups in the creation of this music and the way that the music reveals attitudes toward these groups. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Restriction: Restricted to MUSC majors

PMUS 3300 - Advanced Jazz Improvisation (2 Credits)

Explores the techniques and concepts of instrumental jazz/commercial improvisation and sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 2200 Restriction: Restricted to MUSC majors

PMUS 3310 - Songwriting Analysis & Creative Exercises (3 Credits)

Presents concepts of songwriting that build upon those presented in MUSC 2300. Students are expected to understand and discuss musical concepts and lyric structure and use these concepts in the creation of original songs. Prereq: PMUS 1024, PMUS 1200, and PMUS 1210. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1024/MU 162B, 1200, and 1210 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3320 - Popular Music Arranging (3 Credits)

This course will focus on techniques, technologies and strategies for contemporary arranging. Students score original compositions for various instrumentation using notation software. Prereq: PMUS 1200, PMUS 1210, and PMUS 1024. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200, PMUS 1210, and PMUS 1024 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3330 - Advanced Vocal Improvisation (2 Credits)

Provides study of harmony, style and advanced improvisation techniques for vocalists. Course activities include study of scat singing, syllables, accents, rhythmic patterns, and phrasing over standard chord changes in several genres. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PMUS 2200 Restriction: Restricted to MUSC majors

Typically Offered: Spring.

PMUS 3340 - Commercial Songwriting (3 Credits)

This course is designed to explore songwriting for publishing and that supports moving picture. Students will gain an understanding and have practical application of analyzing, understanding, writing and pitching music for publishing, film, tv and advertisement. Prereq: PMUS 3310.

Restriction: Restricted to Sophomore standing or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 3310 Restriction: Restricted to Sophomore standing or higher.

PMUS 3450 - Singer/Songwriter Ensemble (1 Credit)

Advanced Ensemble. Focus on student compositions of original songs with lyrics and instrumental accompaniment including creation of lead sheets for band performances. Individual and group songwriting is explored. Students participate in community-building activities including community engagement and a songwriting retreat. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 3460 - Ninth Street Singers Ensemble (1 Credit)

Signature Ensemble. Elite a cappella mixed choir. This course will focus on group rehearsals of various genres of vocal ensemble music, including pop, rock, jazz, musical theater, and gospel. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 3502 - Applied Bass (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502 and PMUS 2502 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3572 - Applied Guitar (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572 and PMUS 2572 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3582 - Applied Banjo (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582 and PMUS 2582 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3612 - Applied Drum Kit (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612 and PMUS 2612 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3632 - Applied World Percussion (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632 and PMUS 2632 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3642 - Applied Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642 and PMUS 2642 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3652 - Applied Jazz Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1652 and PMUS 2652 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3662 - Applied Saxophone (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1662 and PMUS 2662 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3672 - Applied Electronic Digital Instrument (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672 and PMUS 2672 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3692 - Applied Trumpet (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692 and PMUS 2692 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3702 - Applied Violin (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702 and PMUS 2702 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3712 - Applied Viola (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712 and PMUS 2712 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3722 - Applied Cello (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 and PMUS 2722 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3732 - Applied Voice (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 and PMUS 2732 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 3772 - Applied Singer/Songwriter (2 Credits)

This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Co-requisites - PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Typically Offered: Fall, Spring.

PMUS 3825 - Real History of Rock and Roll (3 Credits)

Examines the historical and social framework developments in music from its roots in country, through jazz and blues to current trends. Special emphasis is given to guest lecturers and their expertise performing, covering and presenting the music. Max hours: 3 Credits.

Lark is an advanced a cappella ensemble for female identifying individuals. Admission to this group is by audition only. Members must have strong sight reading skills, advanced musicianship and performance skills. Lark performs several times per semester. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 4502 - Applied Bass (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502, PMUS 2502, PMUS 3502 (two semesters each), and successful completion of Junior Recital. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4572 - Applied Guitar (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572, PMUS 2572, PMUS 3572 (two semesters each), and successful completion of Junior Recital. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4582 - Applied Banjo (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582, PMUS 2582, PMUS 3582 (two semesters each), and successful completion of Junior Recital. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4600 - Topics in Music Performance (3 Credits)

Various topics related to music performance. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MUSC majors

PMUS 4612 - Applied Drum Kit (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612, PMUS 2612, PMUS 3612 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4632 - Applied World Percussion (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632, PMUS 2632, PMUS 3632 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4642 - Applied Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642, PMUS 2642, PMUS 3642 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4672 - Applied Electronic Digital Instrument (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672, PMUS 2672, PMUS 3672 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4692 - Applied Trumpet (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Prereq: PMUS 1692, PMUS 2692, PMUS 3692 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4702 - Applied Violin (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702, PMUS 2702, PMUS 3702 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4712 - Applied Viola (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712, PMUS 2712, PMUS 3712 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4722 - Applied Cello (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722, PMUS 2722, PMUS 3722 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4732 - Applied Voice (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732, PMUS 2732, PMUS 3732 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC majors

PMUS 4772 - Applied Singer/Songwriter (2 Credits)
This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Plan Code: MUSC-BS SWR; Co-requisites - PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Typically Offered: Fall, Spring.

PMUS 4840 - Independent Study: PMUS (1-3 Credits)
Repeatable. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 3.

General Music Minor

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

The general music minor offers students the opportunity to gain an informed understanding of the field of music performance, its language and history. Courses cover applied lessons on a specific instrument and/or voice, music theory, ear training and general recital. Students will also take courses that deal with the function and operation of the music industry, including an introduction to the music business, audio production, and music in culture

Program Delivery

- This is an on-campus program.

Declaring This Major

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements. Contact the Music Department at MEIS.Dept@ucdenver.edu for more information on the minor.

Code	Title	Hours
Required Courses		
Take all of the following General Music Minor Required courses (17 semester hours/8 courses total):		
PMUS 1105	Music Theory I	3
PMUS 1115	Ear Training and Sight Singing I	1
PMUS 1901 - 1923	Applied Lessons	1
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1
MUSC 2750	Introduction to Music Business	3
MUSC 1540	Introduction to Audio Production	3
Take one of the following courses:		
PMUS 1021	Piano Class For Non-Majors	1
PMUS 1040	Class Guitar	1
PMUS 1045	Class Guitar I for Non-Majors	1
Take one of the following courses:		
PMUS 2315	Introduction to Songwriting	3
PMUS 3832	Music in Culture	1
Total Hours		17

Music Business Emphasis, Audition Track, Music BS

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

The music business emphasis prepares musicians for careers in such fields as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution and entertainment law.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the music business emphasis, audition track, are required to pass an entrance audition on their primary instrument or voice as part of the application process and to pass varying levels of performance proficiency as part of the curriculum. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)

- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Music Industry Studies Minor

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

Music is a rapidly evolving field that requires practitioners to have a broad understanding of the main functional areas and intimate knowledge of the creation and operation of music organizations. The music industry studies minor provides students with a strong foundation in the functional operations of the music industry. At the completion of the minor, students will have an in-depth knowledge of music marketing, artist management, concert promotion and music publishing.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. - Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements. Contact the Music Department at MEIS.Dept@ucdenver.edu for more information on the minor.

Code	Title	Hours
Required Courses		
Take all of the following Music Industry Studies Minor courses (15 semester hours/5 courses total):		
MUSC 2750	Introduction to Music Business	3
MUSC 3250	Music and Entertainment Marketing	3
MUSC 3260	Artist Management	3
MUSC 3699	Concert Promotion and Venue Management	3
MUSC 3760	Music Publishing	3
Total Hours		15

There is a recommended sequence for the Music Industry Studies course work. Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing and any prerequisite updates.

Performance Emphasis, Music BS Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

The performance emphasis includes specialized courses in small performance ensembles, applied private study, contemporary improvisation, and analysis and history. Students gain a diverse set of performance skills in commercial, jazz, classical and experimental music styles.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the performance emphasis are required to pass an entrance audition on their primary instrument or voice as part of the application process and to pass varying levels of performance proficiency as part of the curriculum. This includes passing a Sophomore Proficiency on their primary instrument or voice in order to maintain performance emphasis status. Each student is also required to successfully complete a junior recital and the 2-credit PMUS 4200 Senior Recital Project. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)

- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Recording Arts Emphasis, Audition Track, Music BS

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

The recording arts emphasis focuses on contemporary analog and digital technology as it is used in music recording, sound reinforcement and media applications (Internet, video games, interactive art installations,

etc.). While mastering technology skills and formats, musicians also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the recording arts emphasis, audition track, are required to pass an entrance audition on their primary instrument or voice as part of the departmental application process, and to pass varying levels of performance proficiency as part of the curriculum. Students must also gain admission to the recording arts emphasis before being able to take any of the upper-division (3000/4000 level) recording arts course work. Please see the recording arts website and contact the College of Arts & Media at CAM@ucdenver.edu for further information and any updates.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

PMUS 1500	General Recital	1
Musicianship		
Take all of the following Musicianship courses:		
PMUS 3832	Music in Culture	3
PMUS ____	Music History Elective	3
PMUS or MUSC ____	Music Elective	3
Take one of the following Musicianship courses:		
PMUS 1040	Class Guitar	1
PMUS 1023	Piano Class I	
Take one of the following Musicianship courses:		
PMUS 1023	Piano Class I	1
PMUS 1024	Piano Class II	
PMUS 1040	Class Guitar	
PMUS 1041	Class Guitar II	
PMUS 1050	Voice Class I	
Music & Entertainment Industry Studies Core		
Take the following Music & Entertainment Industry Studies Core course:		
MUSC 2700	Introduction to Music Business	3
Take one of the following Music & Entertainment Industry Studies Core courses:		
MUSC 3210	Music and Entertainment Marketing	
MUSC 3220	Artist Management	
Other Course		
Take the following course:		
MUSC 1800	Acoustics for Audio Production	3
Recording Arts Emphasis		
Take all of the following Recording Arts Emphasis courses:		
MUSC 1541	Audio Production I	3
MUSC 1542	Audio Production Lab	1
MUSC 1560	Audio Production II	3
MUSC 2550	Critical Listening for Recording Arts	3
MUSC 2580	Audio Production III	3
MUSC 2590	Mastering & Advanced Digital Audio	3
MUSC 3530	Live Sound Reinforcement	3
MUSC 3505	Introduction to Audio Post Production	3
MUSC 4580	Audio Production Seminar	3
Recording Arts Emphasis Electives		
Take twenty eight semester hours of Recording Arts Emphasis electives.		28

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Singer/Songwriter Emphasis, Music BS

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

Students in the singer/songwriter emphasis complete specialized courses in songwriting and arranging repertoire while developing their performance skills through small performance ensembles and applied private study of voice, accompanying instrument and songwriting.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the singer/songwriter emphasis are required to pass a singer/songwriter audition on their accompanying instrument **and** voice as part of the application process, and to pass varying levels of performance proficiency as part of the curriculum. This includes passing a Sophomore Proficiency in order to maintain singer/songwriter emphasis status. Each student is also required to successfully complete a junior recital and the 2-credit PMUS 4200 Senior Recital Project. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Code	Title	Hours
Music & Entertainment Industry Studies Core		
Take all of the following Music & Entertainment Industry Studies Core courses:		
MUSC 1540	Introduction to Audio Production	3
MUSC 2700	Introduction to Music Business	3
MUSC 3210	Music and Entertainment Marketing	3
MUSC 3220	Artist Management	3
MUSC 3755	Music Publishing	3
Musicianship Course Groups		
Take all of the following Musicianship course groups:		
<i>Group 1</i>		
PMUS 1100	Music Theory I	3
PMUS 1110	Ear Training and Sight Singing I	1
PMUS 1023	Piano Class I	1
<i>Group 2</i>		
PMUS 1200	Music Theory II	3
PMUS 1210	Ear Training and Sight Singing II	1
PMUS 1024	Piano Class II	1
<i>Group 3</i>		
PMUS 2200	Jazz Theory	3
PMUS 2110	Ear Training and Sight Singing III	1
PMUS 1025	Piano Class III	1
Musicianship		
Take one of the following Musicianship courses:		1-2
PMUS 1026	Piano Class IV	
PMUS 2750	Functional Guitar Skills: Acoustic Guitar Styles	
PMUS 2751	Functional Guitar Skills: Electric Guitar Styles	
Take all of the following Musicianship courses:		
PMUS 3832	Music in Culture	3
PMUS ____	Music History Elective	3
PMUS 2050	The Holistic Musician	3
Music Elective (2 semesters)		3
Singer/Songwriter Emphasis Course Groups		
Take all of the following Singer/Songwriter Emphasis course groups:		
<i>Group 1</i>		
PMUS 1574	Applied Guitar, Singer/Songwriter ¹	1
or PMUS 1644	Applied Piano, Singer/Songwriter	
PMUS 1500	General Recital	1
PMUS ____	Ensemble ²	1
<i>Group 2</i>		
PMUS 1574	Applied Guitar, Singer/Songwriter ¹	1
or PMUS 1644	Applied Piano, Singer/Songwriter	
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1
<i>Group 3</i>		
PMUS 1734	Applied Voice, Singer/Songwriter	1
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1

Songwriter Entrepreneur Emphasis, Audition Track, Music BS

Introduction

Please click here (p. 177) to see general Music & Entertainment Industry Studies information.

Students in the Songwriter Entrepreneur emphasis complete specialized courses that develop a balance of songwriting courses and business knowledge. The songwriter entrepreneur program major area consists of courses required in the singer songwriter major and the musicianship component comprises of courses that provide a general musical training for students.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website (<https://artsandmedia.ucdenver.edu/areas-of-study/music-entertainment-industry/about-music-entertainment-industry-studies/>) for detailed guidelines and information.
- Students who wish to pursue the Songwriter Entrepreneur emphasis are required to pass a **songwriter entrepreneur audition on their accompanying instrument AND voice as part of the application process**, and to pass varying levels of performance proficiency as part of the curriculum. This includes passing a Sophomore Proficiency in order to maintain Songwriter Entrepreneur emphasis status. Each student is also required to successfully complete a junior recital and the 2-credit PMUS 4200 Senior Recital Project.
- Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Code	Title	Hours
Take all of the following Musicianship course groups:

PMUS 1100	Music Theory I	3
PMUS 1110	Ear Training and Sight Singing I	1
PMUS 1023	Piano Class I	1
<i>Group 2</i>		
PMUS 1200	Music Theory II	3
PMUS 1210	Ear Training and Sight Singing II	1
PMUS 1024	Piano Class II	1
<i>Group 3</i>		
PMUS 2200	Jazz Theory	3
Take one of the following Musicianship courses:		
PMUS 1025	Piano Class III	1
PMUS 2095	Commercial Guitar Styles and Theory - Harmony	2
PMUS 2096	Commercial Guitar Styles and Theory - Melody	2
Take one of the following Musicianship courses:		

PMUS 1026	Piano Class IV	1
PMUS 2750	Functional Guitar Skills: Acoustic Guitar Styles	2
PMUS 2751	Functional Guitar Skills: Electric Guitar Styles	2

Take all of the following Songwriter Entrepreneurship Emphasis course groups:

Group 1

PMUS 1574	Applied Guitar, Singer/Songwriter	1
or PMUS 1644	Applied Piano, Singer/Songwriter	
PMUS 1500	General Recital	1
PMUS ____	Ensemble ²	1
PMUS 1470	Performance Practice Ensemble	1

Group 2

PMUS 1574	Applied Guitar, Singer/Songwriter	1
or PMUS 1644	Applied Piano, Singer/Songwriter	
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1

Group 3

PMUS 1734	Applied Voice, Singer/Songwriter	1
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1
PMUS 3450	Singer/Songwriter Ensemble	1

Group 4

PMUS 1734	Applied Voice, Singer/Songwriter	1
PMUS 1500	General Recital	1
PMUS ____	Ensemble	1

Take all of the following Music Business courses

MUSC 2700	Introduction to Music Business	3
MUSC 3210	Music and Entertainment Marketing	3
MUSC 3220	Artist Management	3
MUSC 3690	Concert Promotion and Venue Management	3
MUSC 3755	Music Publishing	3
MUSC 3700	Music and Entertainment Business in the Digital Age	3
MUSC 3710	CAM Records	3
MUSC 3720	Law and the Music Industry	3
MUSC 4740	Music Business Analysis	3
Music Business Elective		3

Take all of the following Music courses

PMUS ____	Ensemble	1
PMUS ____	Ensemble	1
MUSC 1540	Introduction to Audio Production	3
PMUS 2220	Songwriting Production	3
PMUS 3310	Songwriting Analysis & Creative Exercises	3
PMUS 3320	Popular Music Arranging	3
PMUS 3832	Music in Culture	3
PMUS 4310	Genre Songwriting for TV/Film and Emerging Media	3
PMUS ____	Music History Elective	
Music Electives		3

¹ Students must complete both semesters of applied instrument lessons on their primary audition instrument.

- ² Students must complete PMUS 1470 Performance Practice Ensemble during their first or second semester of Applied Music.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

Visual Arts

Chair: Michelle Carpenter

Office: CU Denver Building, 815N

Visual Arts Office: CU Building, Suite 800

Telephone: 303-315-1500

Overview

The Department of Visual Arts offers professional instruction in six interrelated areas: art history, art practices, 3D animation, digital design, illustration, and photography.

Visual Arts provides a vital educational environment where future artists, designers and art historians explore the horizons of their own talents in an atmosphere of critical dialogue and professional art and design practice. Students learn and experience various media of animation, digital design, drawing, illustration, painting, photography and transmedia sculpture, all within the rich context of a research university. Learning is predicated on both an understanding of art and media theory, and on the practical knowledge of methods and materials used in making art and design today. Art history studies focus on historical knowledge integrated with critical writing and analysis.

The department prides itself on fostering an appreciation for diverse approaches to visual culture and to reaching out to the larger art history, arts and design communities. Internships are available.

Graduating seniors receiving the Bachelor of Fine Arts (BFA) degree are required to participate in the BFA thesis exhibition during their last semester of study. This exhibition is scheduled for each spring term only.

Programs

- 3D Graphics and Animation Emphasis, BFA (p. 223)
- Art History Minor (p. 224)
- Art History, Fine Arts BA (p. 224)
- Art Practices Emphasis, BFA (p. 225)
- Digital Design Emphasis, BFA (p. 227)
- Digital Design Minor (p. 228)
- Illustration Emphasis, BFA (p. 228)
- Illustration Minor (p. 230)
- Painting and Drawing Minor (p. 230)
- Photography Emphasis, BFA (p. 231)
- Photography Minor (p. 232)
- Studio Art Minor (p. 232)
- Transmedia Sculpture Minor (p. 233)

Many of the above options require FINE 2600 Art History Survey I and/or FINE 2610 Art History Survey II. Either course may also count toward Core

Humanities (as part of the General Education requirements). Contact the College of Arts & Media at CAM@ucdenver.edu for details.

Faculty

Full Professors:

Joann Brennan, MFA, Massachusetts College of Art

Carol Golemboski, MFA, Virginia Commonwealth University

Rian Kerrane, MFA, University of New Orleans

Associate Professors:

Maria Elena Buszek, PhD, University of Kansas

Michelle Carpenter, MFA, University of Colorado Boulder

Brian DeLevie, MFA, University of Houston

Melissa Furness, MFA, University of Iowa

Quintin Gonzalez, MFA, Yale University

Bryan Leister, MFA, George Mason University

Jeffrey Schrader, PhD, New York University, MA, Oberlin College

Travis Vermilye, MFA, University of Michigan

Assistant Professor:

Yang Wang, PhD, The Ohio State University

Assistant Professor Clinical Teaching Track:

Howard Cook, MFA DC, National University

Senior Instructors:

Michael Brohman, MA, University of Colorado Denver

Vivian George, MFA, Yale University

Instructors:

William Adams, MA and MFA, University of New Mexico

Stephen Baker, MFA, National University California

Jeremy Brown, BA, Hampshire College

Paul Conner, BA, Art Institute of Colorado

Rebecca Heavner, MLA, University of Colorado Denver

Elizabeth Pugliano, PhD, Boston University

Stephen Schaf, MFA, Academy of Art University, San Francisco

Digital Animation (DACD)

DACD 2810 - DAC: Modeling 1 (3 Credits)

A lecture/lab course focused on the mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects with an emphasis on artistic excellence through application of current 3D technologies. Prereq: FINE 1810, FINE 1820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 and FINE 1820 Restriction: Restricted to FINE-BFA with ANI sub-plan majors within the College of Arts and Media

DACD 2820 - DAC: Surfacing and Lighting 1 (3 Credits)

A Lecture/Lab course focused on the fundamentals of lighting and surfacing in a digital 3D environment. Students will develop skills and knowledge about the processes and techniques involved in creating realistic and/or narratively powerful materials and lighting for 3D animated films. Prereq: FINE 1810, FINE 1820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 and FINE 1820 Restriction: Restricted to FINE-BFA with ANI sub-plan majors within the College of Arts and Media

DACD 2830 - DAC: Surfacing and Lighting 2 (3 Credits)

A Lecture/Lab course exploring advanced topics in the areas of surfacing, material design, lighting, and post-production. Students will further develop skills and knowledge learned in Surfacing and Lighting I.

Emphasis will be placed on collaborative workflows for lighting and material design. Prereq: DACD 2810, DACD 2820, Acceptance into DAC.

Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2810, DACD 2820, and acceptance into DAC (FINE_BFA ANI)

DACD 2850 - DAC: Modeling 2 (3 Credits)

A lecture/lab course focused on mastery of skills for creating organic digital 3D models. Students will develop skills/knowledge to shape, mold, transform/articulate, and deform digital 3D shapes. Focus will be on creating digital models, with an emphasis on artistic excellence through application of current 3D technologies. Prereq: DACD 2810, DACD 2820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2810, DACD 2820, and acceptance into DAC (FINE_BFA ANI)

DACD 3810 - DAC: Production Practices (3 Credits)

This is a lecture/lab course focused on the creation and implementation of collaborative workflows for CG filmmaking. Students will learn about 3D production pipelines and how they can be used to effectively and efficiently collaborate on large-scale projects. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE-BFA ANI)

DACD 3820 - Animation 1: Introduction to Animation and Rigging (3 Credits)

A studio course focused on foundational skills for animating digital 3D objects/characters. Students explore the process/techniques of key frame/pose-to-pose animating considering character performance, thought, constraints and velocity with an emphasis on artistic excellence through applications of current 3D technologies. Prereq: FINE 1810 and FINE 1820 and acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 and FINE 1820, and acceptance into DAC (FINE-BFA ANI)

DACD 3821 - DAC: VFX Rigging & Animation I (3 Credits)

A studio course focused on foundational skills for animating and rigging full digital 3D characters. Students explore the process/techniques of rigging for motion capture characters and adjusting their performance with consideration for thought, and animation with an emphasis on realistic VFX driven character performance. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE-BFA ANI)

DACD 3830 - Advanced Character Animation (3 Credits)

A studio course focused on mastery of skills for rigging and animating digital 3D characters. Students explore the processes/techniques of animation rigging and its relationship to animating character performances. Prereq: DACD 3820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI)

DACD 3831 - Character FX (3 Credits)

A studio course focused on mastery of skills for rigging and animating digital 3D characters and objects and advance motion capture techniques. Students explore the processes/techniques of animation rigging and its relationship to realistic simulation of dynamic objects. Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI)

DACD 3835 - DAC: Visual Effects (3 Credits)

A lecture/lab course exploring the theory/techniques of creating visual effects sequences. Students explore how to develop complete effects shots, including shooting live plates, camera tracking, visual effects, and compositing, with an emphasis on artistic excellence through application of current 3D technologies. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE-BFA ANI)

DACD 3846 - Production I (3 Credits)

The first in a three-semester capstone experience focusing on the DAC-BFA thesis short. Students assemble a team, organize/develop production management tools, story animatic, and begin work on a high-production-value short or experience through an academic simulation of a real-world studio pipeline. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE_BFA ANI)

DACD 4810 - Production II (3 Credits)

The second in a three-semester capstone experience focusing on the production/post-production of the BFA thesis short. With teams formed and production plans set and initiated in DACD 3846: Production I, the student team completes its high-production-value animated short or experience. Prereq: DACD 3845 or DACD 3846, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3845 or DACD 3846, and acceptance into DAC (FINE_BFA ANI)

DACD 4820 - Production III (3 Credits)

The final semester of the DAC capstone experience focusing on finalizing their DAC-Senior-Short, preparing the student to enter the professional-world/graduate school, confirming their BFA Thesis presenting their body of work, website, demo-reel, and professional personal branding/resumes and becoming skilled at cover letters. Prereq: DACD 3845 or DACD 3846, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Pass/Fail Only

Prereq: DACD 3845 or DACD 3846, and acceptance into DAC (FINE_BFA ANI)

Fine Arts (FINE)

FINE 1000 - Fostering Creativity (3 Credits)

Through discussions, readings, writings and creative investigations, students will delve into theoretical and experiential approaches to creativity and consider how different kinds of creativity and passions can be identified, cultivated and leveraged in their current and future academic and professional lives. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

FINE 1001 - Introduction to Art (3 Credits)

The course introduces visual analysis and critical examination of art from prehistory to modern times. Through reading, vocabulary development, group discussions, tests, and research projects, students will learn how to appreciate art and critically evaluate form, content, and context. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression; Denver Core Requirement, Arts.

FINE 1002 - International Perspectives through Animation (3 Credits)

This course is a look at world political, economic, social, and technological challenges through the lens of animation and visual storytelling. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FINE 1003 - Creative Coding (3 Credits)

Through discussions, readings, writings, and creative investigations, students will identify and evaluate the digital tools and software present in everyday life while they explore and learn the basics of computer code and the power of code as a creative tool. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1100 - Drawing I (3 Credits)

This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of drawing as a way of learning to see. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1111 - First-Year Seminar (1-3 Credits)

Restriction: Restricted to Freshman level students. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to Freshman level students

FINE 1120 - Photographic Fundamentals (3 Credits)

Students learn fundamentals of digital photography through creative assignments that promote a broad understanding of the photographic medium. Topics include digital camera operation, sizing and resolution, principles of design, and interpreting photographic meaning. This course is designed for non-art majors. Restriction: Open to all students except FINE-BFA & BA. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Open to all students except FINE-BFA BA

FINE 1140 - Topics in Photography (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 1150 - Introduction to Darkroom Photography (3 Credits)

Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, and alternative darkroom techniques are explored through demonstrations, critiques, readings, and discussions of historical and contemporary photography. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1400 - Two Dimensional Design (3 Credits)

Focuses on the concepts and visual elements of all forms of two-dimensional art. Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1450 - Visual Culture: Ways of Seeing (3 Credits)

A core course for majors and non-majors Visual Culture: Ways of Seeing explores how the meaning of imagery is encoded in cultural settings and transforms globally through changing technology and is integrated into daily life. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

FINE 1500 - Three-Dimensional Design (3 Credits)

Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1810 - PREDAC: 3D Foundations (3 Credits)

A lecture/lab course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Class lectures, demonstrations and hands-on application will expose the student to the expectations for commercial high-end 3D animation production. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1812 - 3D Computer Graphics: Producing Animation (3 Credits)

An online course that explores the theory, practices and fundamentals of the producing 3D animation. Students will explore the foundations of the animation process Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1820 - PREDAC: Animation Foundations (3 Credits)

A lecture/lab course that explores the foundations of animation. Primary focus is an introduction to foundational animation techniques and methods. Class lectures, demonstrations and hands-on application will expose the student the expectations for high-end animation production. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 1822 - 3D Computer Graphics: Introduction to Digital 3D (3 Credits)

An online course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2020 - Drawing II (3 Credits)

Students explore complex problems in the representation of space and learn observational drawing methods. Perceptual and constructed perspective is utilized to visualize three-dimensional form. Contemporary and historical artworks are studied with emphasis on the design of effective compositions. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 2030 - Life Drawing (3 Credits)

This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills and relate the principles of composition and design to figure drawing. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 2105 - PRE-DIGD – Human-Centered Design, Innovation and Prototyping (3 Credits)

Introduces collaborative interdisciplinary design and innovation from a human perspective. Using the wide array of Inworks prototyping facilities, teams of students will design and implement human-oriented projects of increasing scale and complexity, in the process acquiring essential innovation and problem-solving skills. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2140 - Topics in Photography (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 2155 - Introduction to Digital Photography (3 Credits)

Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development. Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2200 - Painting I (3 Credits)

This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2405 - Introduction to Digital Design (3 Credits)

A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2406 - Introduction to Digital Art & Imaging (3 Credits)

A project-based exploration of vector, raster, and motion-based digital media. Through project critiques, discussion and demonstration students will create projects explore the creative and expressive potential of digital media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2415 - Typography Studio (3 Credits)

A studio course that teaches principles of typography and organization that is the foundation of design and artistic practice. Through drawing, editing, and moving typographic forms, students will create projects that examine how typography is used to create meaning. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2420 - The Language of Design : What Makes Design Work (3 Credits)

Through lectures, readings and discussions students explore essential contemporary design movements and designers and their effects on design, visual culture and communication. In addition, students learn and practice critical thinking skills and have the opportunity to learn and practice design processes and problem solving techniques. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2425 - Essential Type-Design Applications (3 Credits)

A studio devoted to learning the essential design-software needed to complete basic graphic design projects. Through lectures and creative projects students will learn how to create, manipulate, and prepare various types of art files for print or digital publishing. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2428 - Introduction to Scientific Media Design (3 Credits)

Through lectures, writings, readings, and discussions students will be introduced to Scientific Media Design as a profession as well as the history and emerging directions in the field. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2500 - Bronze Casting (3 Credits)

Students learn lost wax casting with ceramic shell investment and bonded sand. Modeling, foundry work, centrifugal casting and welding for cast metal are introduced, as is steel fabrication and mixed media. Individual vocabularies are explored and design skills acquired. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

FINE 2510 - Wood and Metal Sculpture (3 Credits)

Wood, metal fabrication and introduction of the found object are premise for the exploration of individual visual vocabularies. Investigation and design are applied towards developing conceptual ideas while students advance skills in the metal and wood studios. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

Typically Offered: Fall.

FINE 2600 - Art History Survey I (3 Credits)

A lecture course studying Western and non-Western art from prehistory to medieval times, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students demonstrate knowledge of historical developments and an ability to analyze the arts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

FINE 2610 - Art History Survey II (3 Credits)

A lecture course studying Western and non-Western art from the Renaissance to today, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students demonstrate knowledge of historical developments and an ability to analyze the arts. Prerequisite applicable only for FINE-BA majors: FINE 2600. No prerequisite for all others. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BA and FINE 2600

Additional Information: Denver Core Requirement, Humanities.

FINE 2812 - 3D Computer Graphics: 3D Surface Modeling (3 Credits)

An online course focused on mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 1810 or 1812 and 1820 or 1822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 or 1812 and 1820 or 1822

FINE 2822 - DAC: Digital Cinematography (3 Credits)

A lecture/lab course focuses on mastery of digital cinematography and visual storytelling. This course translates key production techniques: composition, camera craft, depth of field, camera blocking, and more, into the 3D world. This unique approach bridges the gap between traditional live-action cinematography and cutting-edge 3D animation, giving the students skills/knowledge about cinematic theory, practices and methods, as applied to digital 3D content creation. Prereq: FINE 1810, FINE 1820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 and FINE 1820 Restriction: Restricted to FINE-BFA with ANI sub-plan majors within the College of Arts and Media

FINE 2832 - 3D Computer Graphics: 3D Lighting and Rendering (3 Credits)

An online course focused on mastery of lighting the digital 3D environment. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D lighting. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 2812 and 2822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2812 and 2822

FINE 2852 - 3D Computer Graphics: 3D Character Creation (3 Credits)

An online course focused on mastery of skills for creating digital 3D characters. Students will develop skills/knowledge to create digital characters. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 2812 and 2822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2812 and 2822

FINE 2995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

FINE 3010 - Illustration I: Image Making (3 Credits)

In a demonstration of expressive media, students develop their own point-of-view and style. Students work in a variety of media while learning historic and contemporary trends in illustration. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3014 - The Graphic Novel Workshop (3 Credits)

This course introduces students to the visual language of the graphic novel through the creation of sequential imagery and page development. Students will delve into the pictorial methods found in both historical and contemporary comic books, Manga and alternative cartooning. Prereq: FINE 1100; Prereq: FINE-BFA ILS: FINE 2030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100; Prereq: FINE-BFA ILS: FINE 2030

FINE 3030 - The Media of Drawing (3 Credits)

This course introduces students to the notion of drawing from life through an exploration of drawing methods/materials in the creation of artist's books- including learning various binding techniques and studying movement and juxtaposition as we draw in and from these books. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3040 - Color Theory: Studio and Screen-Based Practice (3 Credits)

This hybrid course delves into how color is essential to traditional studio-based and digital media artists through focusing on visual color and light perception, color mixing with pigment and digital applications, and the interaction of color. Prereq: FINE 1100, 1400. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100 and FINE 1400

FINE 3050 - Figure Painting (3 Credits)

This course is an exploration of representing the human form in pictorial space. Students will gain a knowledge of figural color, proportion, scale and space; and will understand the conceptual and visual weight carried by expressive gesture and figural form. Prereq: FINE 2030 and FINE 2200. Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610. Prereq PNDW-MIN: FINE 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2030 and FINE 2200 Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610 Prereq PNDW-MIN: FINE 2200

FINE 3115 - Mixed Media and Photography (3 Credits)

Students create artwork using techniques that combine photography and mixed media. Topics include expanding the photograph to a 3-dimensional form, working with light-sensitive materials, and manipulating the print surface. Students develop creative concepts that are enhanced by cross-disciplinary methods. Prereq: FINE 2155. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2155

FINE 3130 - Photography, Optics and Perspectives in Italy (3 Credits)

In this study abroad seminar course, students develop an understanding of their work within the context of the history of art and photography, particularly the artistic and scientific breakthroughs of the Renaissance, by exposing them to strategies and theories exemplified by the remarkably diverse and historically significant artwork that is available in collections in Florence, Italy. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3135 - Historic Photographic Processes in Italy (3 Credits)

Investigates the relationship between critical concepts and alternative photographic processes in the unique cultural and artistic setting of Florence, Italy. Students create images using historic photographic methods such as salted paper, P.O.P., albumen, photo-polymer gravure and bromoil. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3156 - Photography Studio and Lighting (3 Credits)

Students learn lighting techniques that inform the conceptual and aesthetic qualities of their photographs. Topics covered include studio practice; location photography; commercial business practices; shooting and lighting techniques; and professional presentation. Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 2155. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 2155

FINE 3160 - Color and the Constructed Image (3 Credits)

Students explore traditional color photography, concept development and expressive uses of the medium. Topics include chromogenic printing, color theory, and 4x5 technique in assignments that focus on constructed imagery. Students learn about the creative impact of color on photographic representation. Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 1150

FINE 3161 - The Silver Fine Print (3 Credits)

Students learn advanced black and white darkroom techniques while translating ideas into photographic form. Techniques include the zone system, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photographic artists, techniques, and movements. Prereq: FINE-BFA PHO FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150

FINE 3162 - The Digital Fine Print (3 Credits)

Students learn the fine art of digital printing as it relates to photographic practice and theory. Assignments focus on conceptual development, advanced image manipulation, workflow, color management, and digital ink jet printing. Students gain insight into the role of digital imaging in contemporary culture. Prereq: FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 2155. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 2155

Typically Offered: Fall.

FINE 3171 - Concepts and Processes in Photography (3 Credits)

Students develop skills in alternative photographic techniques. Processes covered include camera-less and pinhole photography, reticulation, non-silver printing, liquid emulsions, digital/traditional cross-manipulation. Students gain insights into the relationship between ideas and experimental ways of creating images. Spring only. Prereq: FINE-BFA PHO: FINE 3161. Prereq: FINE 1150. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3161. Prereq: FINE 1150.

FINE 3172 - Photography and Community (3 Credits)

Students learn strategies for creating visual narratives through photographic projects that involve the Denver community. Projects incorporate service learning, documentary photography, text and image, digital manipulation, digital printing, scanning, and handmade artist books. Spring only. Prereq: FINE-BFA PHO: FINE 3161, FINE 3162. Prereq: FINE 2155. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3162. Prereq: FINE 2155.

FINE 3200 - Intermediate Painting and Drawing (3 Credits)

In this course students develop a body of work that expands on previous course work, to make the transition from assignment-based work to an independent body of work, and to prepare for advanced level study in painting and drawing. Prereq: FINE 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2200

FINE 3240 - Abstract Painting and Drawing (3 Credits)

This course explores the methods of abstraction as applied to painting and drawing. Through developing a body of paintings and drawings, students will gain an understanding of complex formal structures in the development of their work. Prereq: FINE 1100, FINE 2200. Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2200, FINE 2600, FINE 2610. Prereq PNDW-MIN: FINE 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100, FINE 2200 Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2200, FINE 2600, FINE 2610 Prereq PNDW-MIN: FINE 2200

FINE 3300 - Painting, Drawing and the Printed Image (3 Credits)

This course explores the role of technology in the history of painting/drawing alongside studio practice. Students produce works that explore personal symbolism through the combination of graphically printed and hand-produce marks while utilizing technology as a tool in painting/drawing. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3340 - Topics in Studio Art (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 3342 - Topics in Studio Art (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 3343 - Topics in Studio Art (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 3400 - Designing for Web and Mobile Apps (3 Credits)

In a design laboratory, students learn how to design for the web and mobile devices. Through lectures, writings, readings, discussion and critiques, students will learn about HTML, CSS, CMS, web hosting, analytics and the principles of UX/UI. Restriction: Restricted to sophomore standing or above. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

FINE 3404 - Typography II (3 Credits)

A design laboratory that teaches advanced principles of typography including multiple page documents and complex typographic systems for print and screen. Students will create complex design projects that explore the relationship between type and image. Prereq: FINE 2415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2415

FINE 3405 - Introduction to Digital Video (3 Credits)

A studio course for non-design-majors that focuses on the basics of storytelling using digital video. Through class projects, screenings, discussions and readings, students explore the concepts of montage and strategies to develop compelling video for artistic and commercial purposes. Prereq: FINE-BFA APC: FINE 2155. Note: class may not be taken by Digital Design or Transmedia majors for credit toward degree. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA APC: FINE 2155

FINE 3410 - Illustration II: Digital Media (3 Credits)

Students consider the diverse perspectives of clients, viewers, and context while developing concept art and imaginative illustrations. Digital workflows, visual research, and an iterative process are emphasized. Prereq: FINE 3010. Restriction: FINE-BFA ILS or FINE-BFA APC. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3010. Restriction: FINE-BFA ILS or FINE-BFA APC

FINE 3414 - Motion Design I (3 Credits)

A course devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students create projects that explore topics using video, animation, time and motion using a non-linear digital editing software. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or the SCOM certificate. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or SCOM.

FINE 3415 - Design Studio I (3 Credits)

In a design laboratory students learn to turn ideas into visual solutions through the application of design principles. Through lectures, writings, readings, discussion and critiques of projects assigned students will build visual literacy in relation to digital design. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to FINE-BFA majors with sub-plan of DIG or DIGD minors within the College of Arts and Media.

FINE 3417 - Design Research (3 Credits)

This seminar class examines methods and processes used by designers to better understand the content they are asked to communicate while addressing increasingly complex social, technological and economic problems. Class topics will include: user interface and experience design, demographics, storyboarding, branding, and concept mapping. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to FINE-BFA majors with sub-plan of DIG or DIGD minors within the College of Arts and Media.

FINE 3420 - Printing Preparation and Process (3 Credits)

Through print shop visits, creating, manipulating, and preparing various types of art files for print or digital publishing, students will explore the history, various processes, and file preparation that are essential to producing final designed products. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3424 - Interactive Media (3 Credits)

A foundational interactive design workshop exploring how to convey message and deliver information. Through critiques of projects, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Prereq: FINE 3414 and FINE 3415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3414 and FINE 3415. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN.

FINE 3434 - 3D Motion Design (3 Credits)

A course devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment.

Restrictions: Restricted to FINE-BFA DIG or DIGD MIN. Prereq: FINE 3444, 3464. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3444, 3464 Restrictions: Restricted to FINE-BFA DIG or DIGD MIN

Typically Offered: Fall.

FINE 3444 - Interactive Media II (3 Credits)

An intermediate interactive design workshop devoted to using interactive design to solve communication and information problems at scale.

Through investigations, readings and discussions students will create projects that explore user experience design, accessibility, and advanced research techniques. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3424, 3454. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3424, 3454 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Fall.

FINE 3450 - Digital Painting (3 Credits)

Digital Painting is a studio designed for student exploration of artistic expression using digital tools for traditional painting and illustration techniques. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3454 - Motion Design II (3 Credits)

An intense course devoted to using time and motion as a medium for communicating ideas and information. Through creative investigations, readings and discussions students explore linkages between non-linear editing, animation and 3-dimensional animation as used in motion graphics. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3414 and FINE 3415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3414, 3415. Restriction: Restricted to FINE-BFA DIG.

Typically Offered: Spring.

FINE 3464 - Design Studio II (3 Credits)

In a studio environment students will develop advanced projects using animation, interactivity and motion graphics to create innovative solutions to design problems. Students will learn to apply design theory to practice through discussion, critiques and assigned projects. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3424, 3454. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3424, 3454 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Spring.

FINE 3474 - Narrative and Experience (3 Credits)

A workshop-laboratory that focuses on narrative structure and its ability to create, control and manipulate viewer and user-experience. Through creative explorations, students will examine issues of identity, reception and audience and develop approaches to creating user-centered works of art/design. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3444, 3464. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3444, 3464 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Spring.

FINE 3500 - Installation Art (3 Credits)

Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use incorporates found, fabricated and new media. Prereq FINE-BFA APC: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610, FINE 2500, FINE 2510. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610, FINE 2500, FINE 2510

Typically Offered: Spring.

FINE 3505 - Environmental Art (3 Credits)

Students create site-specific work to exist in a certain place or describe a specific location. This involves temporary outdoor landscaping combined with sited sculptural elements and gallery exhibition. The formal, political, historical, public, ecological, geographical and social context of the urban/rural environment will be explored. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE-BFA APC: FINE 1500

FINE 3510 - Mold Design & Casting (3 Credits)

Mold design and construction using rubber, alginate and plaster is introduced for casting in metal, resin, glass, synthetics, concrete, plastic, paper and biodegradable materials. Drawing is included. Exploration of life size and small-scale castings. Prereq FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

FINE 3515 - Public Art (3 Credits)

Students connect with professional/visiting artists installing public art works in Denver. Public relations, installation techniques, curatorial and administration skills are developed. Students learn to establish, maintain and promote public art collections. Prereq FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq FINE-BFA APC: FINE 1500

FINE 3520 - Sculpture: Contemporary Artists and Concepts (3 Credits)

Provides the art student (sculpture majors and non-majors) with a focused opportunity to look at contemporary sculpture, installation and performance art, and to examine the philosophical issues, processes, and methods, motivating practicing artists today. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3525 - Prototyping Sculpture (3 Credits)

This course will focus on contemporary professional practices and will cover topics such as project planning, an introduction to computer-aided design, fabrication, and digital outsourcing for the production of sculptural works. Prereq: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE 1500

Typically Offered: Fall.

FINE 3530 - Electronic Art (3 Credits)

Video, sound and projection in contemporary sculpture. Introduction to sensors and motors and data visualization. A bridge between the digital laboratory and the sculpture studio in the context of object making, gallery and networked media. Prereq FINE-BFA APC: FINE 1500, FINE 3405. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq FINE-BFA APC: FINE 1500, FINE 3405

Typically Offered: Spring.

FINE 3550 - Iron Casting (3 Credits)

Students learn traditional and innovative mold making techniques for casting iron. Casting techniques include working with found objects, lost wax, ceramic shell and sand molds. Furnace design and equipment fabrication are researched. Public performance is integral to the class. Prereq FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA APC: FINE 1500

FINE 3555 - Concepts in Sculpture (3 Credits)

This course addresses varying topics and trends in sculpture. Students produce work focused on issues in the professional field and develop their voice as an artist through thematic exploration. Course content rotates each semester to cover the dynamics of the field. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: FINE-BFA APC: FINE 1500

FINE 3556 - Concepts in Painting and Drawing (3 Credits)

This course addresses topics and trends in painting and drawing. Students produce work focused on issues in the professional field and develop their creative voice through thematic exploration. Course content rotates each semester to cover the dynamics of the field. Prereq: FINE 2200. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: FINE 2200

FINE 3557 - Concepts in Illustration (3 Credits)

This course addresses varying topics and trends in illustration. Students produce work exploring contemporary issues in the professional realm and develop their distinctive illustrative voice through multiple media. Course content rotates each semester to cover the dynamics of the field. Prereq: FINE 2010. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE 2010

FINE 3630 - History of Photography (3 Credits)

Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3631 - Photography: Theory and Criticism (3 Credits)

Students investigate the historical texts of photographic criticism. Readings relate to photography as a fine art form, concentrating on 1970 to the present. Through discussions, readings and critical writing, students examine and appreciate the significance of photographic theory. Spring only. Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing.

FINE 3635 - Photography Now (3 Credits)

Students investigate trends in fine art photography from 1990 through the present. By examining current topics, styles, and techniques students gain insights into contemporary photographic practice and its relationship to the history and future of the medium. Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing.

FINE 3636 - Through the Lens: Photography and Diversity (3 Credits)

Students examine social issues relating to non-dominant cultures, minority groups, biases, and privileges through the lens of photographic imagery. Lectures, discussions, and assignments offer insights into the ways that photography both reflects and impacts attitudes about cultural diversity in the United States. Restriction: Restricted to students with Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

FINE 3640 - Topics in Art History I: Art Before Modernism (1-3 Credits)

Variable: Art History lecture course pertaining to art before Modernism. Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 3644 - Topics in Art History II: Modern and Contemporary (1-3 Credits)

Variable: Art History lecture course pertaining to art since Modernism.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 3775 - Asian Art, 1850 to Now (3 Credits)

A lecture-based course about developments in art and architecture of China, Japan, and Korea after 1850. Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Additional Information: Denver Core Requirement, International Perspectives.

FINE 3814 - Digital 3D Methods: Motion Graphics for Animators (3 Credits)

An online course is an introduction to Motion Graphics, devoted to understanding time based imagery that focuses on utilizing video, typography and 3D content as a creative communication tool. Students will create projects that explore video, animation, time and motion. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3840 - Exploring Storyboarding- Foundational Techniques and Approaches (3 Credits)

Exploring Storyboarding will help you fall in love with making cinema.

This course is a foundation to the art and craft of visual storytelling. This course teaches the language film, and techniques for illustrating action, composition, character, and drama.

Grading Basis: Letter Grade

FINE 3841 - Creating Visual Story - Narrative Techniques and Visual Design (3 Credits)

This course explores narrative methods used in animation, film, and connects film theory to visual storytelling. This course empowers you to engage with story process, and understand film theory as an interesting, integral, part of the visual storytelling creative process. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3842 - Storyboarding for Cinema and Game Previsualization (3 Credits)

A lecture/lab course covering the foundations of the cinematic storyboarding process/techniques used for previsualization in the film, entertainment design and game industries. Students will develop skills/knowledge for creating storyboards study and understand film theory, storytelling, film language and grammar, and filmic composition. Prereq: FINE 3841 or Junior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3841 or Junior standing

FINE 3845 - DAC: Preproduction for Story (3 Credits)

A seminar course focused on the story development/preproduction phases for the DAC senior thesis short. The principle focus of the course will be story development, preproduction activities and organizing the production team and production pipeline for the thesis short. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE_BFA ANI)

FINE 3850 - DAC: Dynamic Simulation (3 Credits)

A lecture/lab course exploring the theory/techniques of dynamic and particle simulations for 3D content. Students explore how to develop effects (smoke, fire, steam, explosions) and dynamic materials (cloth), with an emphasis on artistic excellence through application of current 3D technologies. Restriction: Restricted to Junior standing or higher. Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

FINE 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FINE 3995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

FINE 4000 - The Business of Art (3 Credits)

Through research, discussion and projects, students learn marketing, copyright and business practices necessary for a career as an illustrator or artist. Students will develop professional materials, identify potential markets and implement a plan to promote their work. Restriction: FINE-BFA or FINE-BA and junior or senior class standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA DRW: FINE 3220, 3230, and 3310

FINE 4001 - Illustration III: Investigative Methods (3 Credits)

Students will learn to use writing, research methods, and market analysis to develop original and unique approaches to illustration. Projects will explore how media choices and production processes impact potential markets and responses from the public. Prereq: FINE 3410. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts & Media. Max Hours: 3 Credits.

Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3410. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts Media.

Typically Offered: Spring.

FINE 4002 - Illustration IV: Thesis Development (3 Credits)

Students will examine historical and contemporary trends in illustration while developing a research topic and writing a thesis paper. Students will produce new work and illicit responses from faculty and outside industry mentors as they begin to prepare a professional illustration portfolio.

Prereq: FINE 4001. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4001. Restriction: FINE-BFA ILS

Typically Offered: Fall.

FINE 4003 - Illustration BFA Thesis (3 Credits)

Students will present their thesis project proposal, create original illustrations for their BFA Thesis exhibition and develop a professional illustration portfolio. Students will be expected to document their process and implement a promotional plan in order to build an audience for their work. Prereq: FINE 4002. Restriction: FINE-BFA ILS. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE 4002. Restriction: FINE-BFA ILS

Typically Offered: Spring.

FINE 4020 - Anatomy for the Artist (3 Credits)

An intensive study of the human figure, focusing on its structure, movement and proportions. Skeletal and muscular systems are explored in depth using the classic texts of artistic anatomy to enhance students' drawings from observation. Prereq: FINE 2030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2030

FINE 4050 - Design in a Global Workplace (3-6 Credits)

Through intensive participatory workshops, study tours, and lectures this class examines the advantages of interdisciplinary community-based collaboration. This class also examines the complexities of cross discipline collaborations including multiple professional agendas, political and business establishments and the needs of the community. Repeatable.

Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Summer.

FINE 4140 - Topics in Photography (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 4195 - Advanced Photography I (3 Credits)

Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prereq: FINE-BFA PHO: FINE 3156, 3160, 3171, 3172, and 3630. Prereq: FINE 3161, 3162, 3171. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3156, 3160, 3171, 3172, and 3630. Prereq: FINE 3161, 3162, 3171

FINE 4196 - Advanced Photography II (3 Credits)

Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prerequisite: FINE 4195. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prerequisite: FINE 4195

FINE 4215 - Interdisciplinary Studio (3 Credits)

This is the first level of advanced studies in art practices where students create a body of work that expresses a more complex individual vision. Students learn to develop their creative work with self-selected materials and processes in support of focused concepts. Prereq: FINE 3500.

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 3500

FINE 4340 - Topics in Studio Art (1-3 Credits)

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FINE 4350 - Topics in Digital Design (1-3 Credits)

Specialized topics are offered in new design technologies, theories, processes and conceptual thinking. Course subjects are unique and changing semester to semester. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE-BFA DIG: FINE 1500, 3414, 3415, 3424 or FINE-BFA SMD:

FINE 3414, 3415, 3424 or FINE-BFA TRM: FINE 2405, 3400, and 3405

FINE 4400 - Design Studio III (3 Credits)

Set up as a collaborative studio, students learn to identify problems in the cultural and urban environment and design solutions that address those problems. Through discovery and research students will learn how design can be a catalyst for change. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or SCOM. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or SCOM.

Typically Offered: Fall.

FINE 4411 - Immersive Storytelling I (3 Credits)

This theory/research-oriented course teaches students in media and technical fields how to tell stories interactively using 360-degree video and computer-generated scenes that subjects experience through leading virtual reality headsets. We will touch on creating content for larger format immersive experiences. Restriction: Sophomore standing or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

FINE 4420 - Interactive Media III (3 Credits)

An advanced interactive design workshop where students will use current industry tools to explore a range of topics such as emerging technologies, design interactive prototypes, and experiential design. Through prototyping, discussion, readings, and critiques, students will create unique projects that explore contemporary and futurist topics. Prereq: FINE 3444. Restriction: Restricted to FINE-BFA DIG. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3444. Restriction: Restricted to FINE-BFA DIG.

FINE 4421 - Immersive Storytelling II (3 Credits)

This research-oriented course advances student skills in the media and technical issues of telling stories interactively using 360-degree video and computer-generated scenes that subjects experience through leading virtual reality headsets. Creating content for larger format immersive experiences is discussed further. Prereq: FINE 4411. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4411

FINE 4425 - Motion III (3 Credits)

An intense workshop-laboratory devoted to advanced motion design techniques. Through creative investigation, the study of motion theory and hierarchy, compositing, filming techniques, broadcast parameters, aesthetics, typography and technical issues students will develop the in-depth knowledge necessary to excel as design professionals. Prereq: FINE 3454. Restriction: Restricted to FINE-BFA DIG. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3454. Restriction: Restricted to FINE-BFA DIG.

FINE 4434 - Virtual Landscapes (3 Credits)

In a studio environment students will explore place in relation to contemporary digital art practice. Through readings, lectures and production of projects assigned, students will create work that addresses the natural, urban and virtual environment. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-DIG: FINE 3414, 3415, 3424 or FINE-BFA SMD: FINE 3414, 3415, and 3424 or FINE-BFA TRM: FINE 3434 and 3438

FINE 4435 - Nudge: Behavioral Design 1 (3 Credits)

A studio course where students learn to develop 'nudge' solutions through the use of behavioral methods and theories. A 'nudge' is an attempt to influence people's choices and behavior in a predictable way without limiting their options or significantly changing incentives. Through field trips and observation, students will gain knowledge and skills in the field of behavioral design, including dual cognitive processing, choice architecture, behavioral mapping, and cognitive biases. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 4446 - Visualization & Infographics (3 Credits)

In our data and information-rich society, visual representations of data can be useful for making sense of available information and fostering understanding. This course engages students in critique existing work and encourages a thoughtful design process toward creation of information graphics and simple data/information visualizations.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 3015/1015 or FINE-BFA DIG and FINE 3444 or FINE-BFA SMD and FINE 2030, 3444, BIOL 2061 and BIOL 2081 or FINE-BFA ANI: FINE 1820, 2810, and 2830

Typically Offered: Fall.

FINE 4447 - Presenting Science (3 Credits)

Sophisticated graphical components can help a viewing audience understand complex scientific information more clearly. This project-based learning course engages students in creation of thoughtful graphic explanations of science for the purpose of enhancing scientific presentations and audience comprehension. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 4448 - BioMedical 3D Animation (3 Credits)

3D Animation can be a powerful tool for telling stories rooted in science and medicine. This course provides opportunity to learn from existing animated works while honing skills in storyboarding, narrative and 3D animation with focus on biology, science, and health education. SMD students explore and research BFA thesis topics. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE-BFA SMD + FINE 3434, 4020 and 4446 Prereq: FINE-BFA DIG + FINE 3434 and 3444

FINE 4450 - Social Engagement by Design (3-6 Credits)

Through lectures, discussions and conducting onsite research in international settings, students will become familiar with professional practitioners' Perspectives and experiences in the field of socially engaged design while interrogating current practices, policies, and expectations that inform community engagement and by Design.

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Summer.

FINE 4480 - Design Thesis Research (3 Credits)

Through lectures, studio visits and research, students will engage the profession and examine the role of the artist as a designer. Projects will focus on resumes, interview techniques, portfolio and business practices to prepare students for entering the design profession. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 4400. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4400 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Fall.

FINE 4495 - Design Thesis Project (3 Credits)

Through critique, research, and writing students will critically explore a thesis topic and develop professional quality visual solutions. Students will create work that expresses their personal artistic vision in relation to significant contemporary and historical artists and practice. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 4480. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4480 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Spring.

FINE 4505 - Sculptural Drawing (3 Credits)

Students apply traditional and mixed media drawing skills, photography and digital reproduction to depict the sculptural object in two and three-dimensional space. Students learn to construct small-scale models and develop sculpture proposals. Drawing as sculpture medium is explored.

FINE BFA APC: FINE 1500, FINE 3405. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500, FINE 3405

Typically Offered: Spring.

FINE 4515 - Advanced Art Practices (3 Credits)

Students in this course develop a body of work that expresses complex individual vision across media. Students learn to develop their artistic practice with self-directed processes in support of focused concepts in multiple studio areas. Prereq: FINE 3500. Coreq: FINE 4950. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 4215 Coreq: FINE 4950

FINE 4522 - Interdisciplinary Art in Ireland (6 Credits)

The interdisciplinary course introduces students to the methods and concepts of contemporary site-specific art as critical theory through lecture and critique and as practice in the rural/urban landscape and studio along Ireland's County Clare coastline in the Burren region. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

FINE 4523 - Topics in Art History I: Art Before Modernism (1-3 Credits)

Variable: Art History lecture course pertaining to art before Modernism.

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4524 - Topics in Art History II: Modern and Contemporary Art (1-3 Credits)

Variable: Art History lecture course pertaining to art since Modernism.

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4525 - Museum Studies (3 Credits)

A seminar about museums and art galleries as institutions for the preservation and exhibition of cultural materials. Through writing assignments, discussions, site visits, and analysis, students will demonstrate knowledge and critical thinking on the display of art.

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4600 - History of Modern Design:Industrial Revolution-Present (3 Credits)

A lecture course involving the history of design from the Industrial Revolution to the present. The course will address the graphic design, typography, architecture, "Decorative arts", and new media from each period/major design movement in that time frame. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4610 - Pre-Columbian Art (3 Credits)

A lecture course on the art and architecture of Mesoamerica and the Andes before the Spanish conquest. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Cross-listed with FINE 5610. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4620 - American Art (3 Credits)

A lecture course on the art of the United States from colonial times to World War II. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4630 - History of Latin American Art:1520-1820 (3 Credits)

A lecture course studying Latin American art of 1520-1820, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the arts. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Cross-listed with FINE 5630. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4670 - Greek and Roman Art (3 Credits)

A lecture course on art and architecture from ancient Greece and Rome. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4680 - Art of the Middle Ages (3 Credits)

A lecture course on western European art and architecture from the fourth to the fourteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4700 - Italian Renaissance Art (3 Credits)

A lecture course about developments in Italian Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4705 - Northern Renaissance Art (3 Credits)

A lecture course about developments in Northern Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4710 - Baroque and Rococo Art (3 Credits)

A lecture course on Italy, Spain, France, England, and the Netherlands during the seventeenth and eighteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4712 - Applied Digital Media (1-3 Credits)

This lab course provides students with the opportunity to execute practical applications in the use of digital 3D media for commercial and/or non-profit venue. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

FINE 4730 - Arts of Japan (3 Credits)

A lecture course on selected themes and periods in Japanese art. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4750 - Arts of China (3 Credits)

A lecture course on selected themes and periods in the arts and architecture of China. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4770 - Art of India and Southeast Asia (3 Credits)

A lecture course on selected themes and periods in the arts of India and Southeast Asia. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4790 - Methods in Art History (3 Credits)

A seminar about the various research methodologies in the history of art. Through reading, discussion, research, writing assignments, and presentations, students will demonstrate knowledge of art historiography. Prereq: FINE-BA: FINE 2600 and FINE 2610; ENGL 2070 or ENGL 3084 or ENGL 4180 or ENGL 4280. Prereq: FINE-BFA: FINE 2600 and FINE 2610. All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BA: FINE 2600 and FINE 2610; ENGL 2070 or ENGL 3084 or ENGL 4180 or ENGL 4280. Prereq: FINE-BFA: FINE 2600 and FINE 2610. All other students must be at junior- or senior-level standing.

Typically Offered: Fall.

FINE 4825 - Architectural Visualization (3 Credits)

A lecture/lab course covering the 3D visualization of architectural projects. Students will develop skills/ knowledge about the techniques for creating realistic 3D models, texturing, lighting, and presentation. Special emphasis will be placed creating realism in modeling, materials, lighting, and professional renderings. Prereq: FINE 1820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1820

FINE 4840 - Independent Study: FINE (1-3 Credits)

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FINE 4950 - Studio BFA Thesis (3 Credits)

Studio: BFA Thesis involves the preparation, exhibition and critical faculty response to students' Creative work. Course work focuses on contemporary trends in the arts, the commerce of the arts and the professional practices necessary to an artist' Self-promotion. Max hours: 3 Credits.

Grading Basis: Pass/Fail Only

Restrictions: Restricted to senior FINE-BFA majors within the College of Arts and Media.

FINE 4951 - Bachelor of Art Thesis (3 Credits)

A seminar that emphasizes creative and original research through the composition of a substantial paper on a topic in art history. Through discussion, presentations, and individual readings, students will demonstrate skills in research, writing, and critical thinking. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 4790 Restriction: Restricted to FINE-BA majors with a sub-plan of ART within the College of Arts and Media.

FINE 4970 - Modernist Art (3 Credits)

A lecture course about developments in Modernist art and architecture from the late 18th century to 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of the period's historical developments and an ability to analyze its art. Prereq: FINE 2600 and FINE 2610 for FINE-BA and FINE-BFA majors ONLY. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4980 - Gender in Contemporary Art (3 Credits)

This lecture course will address ways in which gender issues have affected the creation and study of visual arts since the early 20th century, with an emphasis on art and culture since World War II. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4981 - Topics Seminar in Art History I: Tattoos and Body Art (3 Credits)

From prehistoric traditions to modern revivals, tattooing has proved to be an enduring feature of artistic practice. The seminar will analyze examples of tattoos from different cultures and contexts, so as to understand the variety in form and function. Prereq: FINE 2600: Art History Survey I and FINE 2610: Art History Survey II. Cross-listed with FINE 5981. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2600 and FINE 2610.

FINE 4990 - Contemporary Art: 1960 to Present (3 Credits)

A lecture course about developments in art and architecture since 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 4993 - Topics Seminar in Art History I: Art before Modernism (3 Credits)

Variable: Art History seminar pertaining to art before Modernism. Prereq: FINE 2610 for FINE-BA and FINE-BFA majors ONLY. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq FINE-BFA/FINE-BA: FINE 2610

FINE 4994 - Topics Seminar in Art History II: Modern and Contemporary Art (3 Credits)

Variable: Art History seminar pertaining to Modern and contemporary art. Prereq: FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable.

Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq FINE-BFA/FINE-BA: FINE 2610

FINE 4995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

3D Graphics and Animation Emphasis, BFA

Introduction

Please click here (p. 209) to see general Visual Arts information.

The 3D graphics and animation emphasis is a competitive and rigorous four-year curriculum focused on preparing students to work in a wide variety of fields that use animated digital computer graphics (CG), including entertainment, film and television, gaming, medicine, and science.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Students who are applying for entrance into the 3D graphics and animation emphasis must submit a portfolio, as described below. The 3D graphics and animation emphasis accepts applications only once per year. Students who meet the requirements and are accepted will be able to register for advanced 3D animation courses.

A Note About Tuition Rates

- The 3D graphics and animation emphasis courses (DACD 2810 DAC: Modeling 1-DACD 4820 Production III) are billed at a different rate than the standard course tuition due to the state-of-the-art technology used in the classroom. For more information regarding this rate, contact the College of Arts & Media at CAM@ucdenver.edu.

Eligibility

Students are eligible to apply to the 3D graphics and animation emphasis after completing the following courses with a grade of C (2.0) or better each and a minimum overall animation course GPA of 2.8:

- FINE 1810 PREDAC: 3D Foundations
- FINE 1820 PREDAC: Animation Foundations

Please note that FINE 1810 PREDAC: 3D Foundations and FINE 1820 PREDAC: Animation Foundations are billed at regular tuition rates.

Portfolio Application Requirements

The student's application must be submitted electronically no later than the last Friday of May. Detailed instructions are provided during the spring semester in either FINE 1810 PREDAC: 3D Foundations or FINE 1820 PREDAC: Animation Foundations. Students can also contact the Director of the Digital Animation Center (Associate Professor Dane Webster at dane.webster@ucdenver.edu) if they have additional questions.

Selection for entrance into the 3D graphics and animation emphasis is a competitive process (by faculty review) that requires:

- Submission by the candidate of a "Portfolio Demo Reel". The reel must include original works from FINE 1810 PREDAC: 3D Foundations and FINE 1820 PREDAC: Animation Foundations as well as representative works created in other visual arts courses completed during the first year of the program. The Portfolio Demo Reel must be turned in as a .mov/mp4 (Quicktime, H.264, 1280x720 minimum frame size, 16:9 aspect ratio). Still work should be a

component of the reel and should be on screen for at least 3 seconds but no more than 10 seconds. Name and contact information should appear at the beginning and end of the reel. The reel should not be greater in length than 1.5 minutes.

- A "breakdown sheet": the run time at which the work occurs, and which describes what work is included on the submission reel, and, if collaborative in nature, what aspect of the work shown was created by the applicant. Turn in a PDF file only please.
- A one page double-spaced written statement regarding the applicant's aspirations as a productive and contributing member of the 3D graphics and animation cohort and the CG community as a whole. Turn in a PDF file only please.

Students should show only their best work and show the very best work first. Students should be selective since reels may only be 3.5 minutes long. Music is not recommended for professional reels, but if music is used, students should choose wisely.

For more portfolio information, please see the College of Arts & Media 3D graphics and animation website and the Digital Animation Center website, or contact the College of Arts & Media at CAM@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- A minimum of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
- At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
- At least 24 semester hours of total visual arts courses must be upper-division.

Code	Title	Hours
Pre-Portfolio		
Take all of the following Pre-Portfolio courses:		
FINE 1810	PREDAC: 3D Foundations ((Fall only))	3
FINE 1820	PREDAC: Animation Foundations (Spring only)	3
3D Graphics and Animation Emphasis		
Take all of the following 3D Graphics and Animation Emphasis courses (available only to students accepted to emphasis via portfolio review):		
DACD 2810	DAC: Modeling 1	3
DACD 2820	DAC: Surfacing and Lighting 1	3
DACD 3810	DAC: Production Practices	3
DACD 3820	Animation 1: Introduction to Animation and Rigging	3

DACD 3830	Advanced Character Animation	3
DACD 3846	Production I	3
DACD 4810	Production II	3
DACD 4820	Production III	3
FINE 3841	Creating Visual Story - Narrative Techniques and Visual Design	3
Take one of the following:		
DACD 2830	DAC: Surfacing and Lighting 2	3
DACD 2850	DAC: Modeling 2	3
Take one of the following:		
FINE 3850	DAC: Dynamic Simulation	3
FINE 3845	DAC: Preproduction for Story	3
Take all of the following courses:		
FINE 1002	International Perspectives through Animation	3
FINE 1100	Drawing I	3
FINE 1500	Three-Dimensional Design	3
FINE 2155	Introduction to Digital Photography	3
FINE 2822	DAC: Digital Cinematography	3
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
Upper Division Art History Elective		
Take one of the following:		
FINE 4990	Contemporary Art: 1960 to Present	3
Or Upper Division Art History Elective		
Take nine semester hours of Visual Arts Elective. These may include studio, lecture, study abroad, internship or art history courses		9
Total Hours		78

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Art History Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

The art history minor familiarizes students with the principal traditions of art history and includes a selection of lecture courses in advanced studies. This program provides a strong introduction to historical developments while developing analytical skills in research, writing and visual culture.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

- Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take all of the following Art History Minor courses:		
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
Electives		
Take nine semester hours of upper-division Art History electives.		9
Total Hours		15

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this minor.

Art History, Fine Arts BA

Introduction

Please click here (p. 209) to see general Visual Arts information.

The art history emphasis familiarizes students with a range of developments in the history of art while developing skills in critical thinking, writing, research and the study of visual culture. After a two-semester introduction to the foundations of art and architectural history, students choose from an array of advanced courses on specific topics. This curriculum concludes with capstone seminars on the methods of art historical scholarship as well as a thesis project.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 21 semester hours of all visual arts credits (at any level) must be taken at CU Denver.
4. At least 18 semester hours of total visual arts courses must be upper-division.

Code	Title	Hours
Studio Arts		
Take all of the following Studio Arts courses:		
FINE ____	2-dimensional Studio Arts course	3
FINE ____	3-dimensional Studio Arts course	3
FINE ____	Studio Arts Elective	3
English		
Take one of the following English courses:		
ENGL 2070	Grammar, Rhetoric and Style	3
ENGL 3084	Multimedia Composition	3
ENGL 4180	Argumentation and Logic	3
ENGL 4280	Proposal and Grant Writing	3
Art History (Entry Level)		
Take all of the following Art History courses (entry level):		
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
Electives		
Take a minimum of three semester hours of Pre-20th Century Art History elective.		
Take an additional eighteen semester hours of upper-division (3000/4000-level) Art History electives (six courses).		
Art History Capstone		
Take all of the following Art History Capstone courses:		
FINE 4790	Methods in Art History	3
FINE 4951	Bachelor of Art Thesis	3
Total Hours		45

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved studio arts courses and art history electives, as well as more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Art Practices Emphasis, BFA

Introduction

Please click here (p. 209) to see general Visual Arts information.

The Art Practices emphasis provides students with a comprehensive education in visual art practices, which includes creative influences, ideas, materials, tools and skills, as well as theory and art history, with an emphasis on current trends in contemporary art. Art Practices is designed for students whose creative ideas move across media and who are looking for a more comprehensive critical approach to developing their art practice. Art Practices provides students with focused professional skills in two self-selected areas of studio art, whereby the student can develop a fully formed and thoughtful body of work with conceptual impact.

The emphasis is a focused degree program that provides students with greater knowledge and tools to make them competitive in the professional world of contemporary art. The work of contemporary artists is a dynamic combination of materials, methods, concepts, and subjects that challenge traditional assumptions and definitions. Contemporary artists give voice to the varied and changing landscapes of identity, values, and beliefs in the increasingly global culture of our diverse and technologically advancing world. Artists today explore ideas, concepts, questions, and practices that examine the past, describe the present, and imagine the future. This program is designed to address the needs of students looking to become successful emerging artists with the skills to become active individuals in the art world through multiple outlets through exhibitions and sales, arts education, curation, critical art writing, art therapy, fabrication, public art, entrepreneurship, art consulting, costume and set design, fashion/accessory and textile design, performance art, portraiture, various facets of business employment and much more!

Students may choose from two areas for their primary concentration: Painting and Drawing or Transmedia Sculpture. They then select a secondary concentration—different from their primary concentration from the following: Painting and Drawing, Illustration, Transmedia Sculpture or Photography. Students take 21 semester hours in their primary concentration and 15 semester hours in their secondary concentration.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. A minimum letter grade is required for each course in the major for the course to satisfy the degree requirement. All grades apply to the major and are averaged to generate the major-specific GPA.
 - a. A minimum grade of C (2.0) is required to satisfy degree requirements for any major course taken at CU Denver.
 - b. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement, but is calculated in the major GPA.
 - c. A grade of P is acceptable for courses in which the only grade available is Pass or Fail
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Code	Title	Hours
Arts Foundation		
Take all of the following Arts Foundation courses: ¹		
FINE 1100	Drawing I	3
FINE 1400	Two Dimensional Design	3
FINE 1500	Three-Dimensional Design	3
FINE 2155	Introduction to Digital Photography	3
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
Main Studio Concentration		
Take all of the Main Studio Concentration courses from one of the following categories: ¹		21
Transmedia Sculpture (p. 226)		
Painting and Drawing (p. 226)		
Secondary Studio Concentration		
Take all of the Secondary Studio Concentration courses from one of the following categories: ²		15
Transmedia Sculpture (p. 226)		
Painting and Drawing (p. 226)		
Illustration (p. 227) ³		
Photography (p. 227)		
Visual Arts		
FINE 3405	Introduction to Digital Video	3
FINE 3500	Installation Art	3
FINE 4990	Contemporary Art: 1960 to Present	3
Electives		
Take three semester hours of Pre-20th Century Art History elective.		3
Take three semester hours of upper-division Art History elective.		3
Take nine semester hours of Visual Arts electives. ⁴		9
Capstone		
FINE 4950	Studio BFA Thesis	3
Total Hours		81

¹ Note: students should choose a main and secondary concentration before continuing with upper-division (3000/4000-level) studio courses. Any 1000/2000-level course may be taken prior to making concentration selections.

- ² Note that the Secondary Concentration must be different from the Main Concentration.
- ³ Note: students wishing to select Illustration as a secondary concentration area must participate in the Illustration portfolio Day. For more information, please click here (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/illustration/illustration-portfolio-review-sign-up/>).
- ⁴ These may include studio, lecture, internship or art history courses.

Main Studio Concentration

Take all of the Main Studio Concentration courses from **one** of the following categories (Transmedia Sculpture OR Painting and Drawing):

Transmedia Sculpture

Code	Title	Hours
FINE 2500	Bronze Casting	3
FINE 2510	Wood and Metal Sculpture	3
FINE 3510	Mold Design & Casting	3
FINE 3555	Concepts in Sculpture	3
FINE 4505	Sculptural Drawing	3
FINE 4215	Interdisciplinary Studio	3
FINE 4515	Advanced Art Practices	3

Painting and Drawing

Code	Title	Hours
FINE 2030	Life Drawing	3
FINE 2200	Painting I	3
FINE 3030	The Media of Drawing	3
FINE 3200	Intermediate Painting and Drawing	3
FINE 3556	Concepts in Painting and Drawing	3
FINE 4215	Interdisciplinary Studio	3
FINE 4515	Advanced Art Practices	3

Secondary Studio Concentrations

Take **all** of the Secondary Studio Concentration courses from **one** of the following categories (Transmedia Sculpture or Painting and Drawing or Illustration or Photography). Note that the Secondary Concentration must be different from the Main Concentration.

Transmedia Sculpture

Code	Title	Hours
FINE 2500	Bronze Casting	3
FINE 2510	Wood and Metal Sculpture	3
FINE 3510	Mold Design & Casting	3
FINE 3555	Concepts in Sculpture	3
FINE 4505	Sculptural Drawing	3

Painting and Drawing

Code	Title	Hours
FINE 2030	Life Drawing	3
FINE 2200	Painting I	3
FINE 3030	The Media of Drawing	3
FINE 3200	Intermediate Painting and Drawing	3
FINE 3556	Concepts in Painting and Drawing	3

Illustration

Code	Title	Hours
FINE 2405	Introduction to Digital Design	3
FINE 3010	Illustration I: Image Making	3
FINE 3014	The Graphic Novel Workshop	3
FINE 3300	Painting, Drawing and the Printed Image	3
FINE 3410	Illustration II: Digital Media	3

Photography

Code	Title	Hours
FINE 1150	Introduction to Darkroom Photography	3
FINE 3161	The Silver Fine Print	3
FINE 3162	The Digital Fine Print	3
FINE 3171	Concepts and Processes in Photography	3
FINE 4195	Advanced Photography I	3

Note that the FINE 3556 Concepts in Painting and Drawing Concepts in Painting and Drawing course and the FINE 3555 Concepts in Sculpture Concepts in Sculpture course encompass rotating course topics and can be taken up to four times each, with a different topic. These topics are as follows: Concepts in Painting and Drawing-Abstraction, Narrative and Pop Culture, Figuration, and Spatial Approaches; Concepts in Sculpture-Modeling for Manufacture, Social Engagements, Iron Casting, Public and Environmental Art.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Digital Design Emphasis, BFA

Introduction

Please click [here](#) (p. 209) to see general Visual Arts information.

The digital design emphasis integrates aesthetic, creative and critical thought with expertise in electronic media and graphic design. Configured as an interdisciplinary arts and design laboratory, digital design offers a hands-on education combining new art technologies and design research to promote an understanding of the cultural impact and use of digital technology to solve human, social and business problems. Through this interdisciplinary approach combining arts and communication, digital design strives to produce artists and designers who will use technology in innovative ways in both commercial and artistic spheres.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 63) to go to information about declaring a major.
- Students who are applying for entrance into the digital design emphasis must submit a portfolio, as described below. The digital design emphasis accepts applications only once a year. Students who meet the requirements and are accepted will be able to register for upper-division digital design courses.

Eligibility

The student has completed, or is in the process of completing, the following courses with a grade of C (2.0) or better in each:

Code	Title	Hours
FINE 1000	Fostering Creativity	3
FINE 2405	Introduction to Digital Design ¹	3
FINE 2415	Typography Studio ¹	3

¹ offered in the fall at CU Denver.

Portfolio Application Requirements

Students applying to the digital design emphasis present a portfolio to be reviewed by design faculty. The deadline for submission will be November 1, 5:00pm (Mountain Time). The portfolio submission must be formatted and presented to the specifications listed on the Portfolio Review page [here](#). There is no fee to apply.

Questions

For general inquiries see the Digital Design Program page [here](https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/digital-design/) (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/digital-design/>). For Portfolio review questions see the Portfolio Review page [here](https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/portfolio-reviews/) (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/portfolio-reviews/>).

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click [here](#) (p. 93) for information about Academic Policies

Program Requirements

- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
- At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
- At least 24 semester hours of total visual arts courses must be upper-division.

Digital Design Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

The digital design minor integrates creative thinking with experience using digital applications in the production of graphic design and motion graphics. Configured as an interdisciplinary arts and design laboratory, this minor offers a practical understanding of how digital technology can be applied to help solve human, social and business problems.

Program Delivery

- This is an on-campus program

Declaring This Minor

- Students who are declaring a Digital Design minor must complete two introductory Digital Design courses with a grade of C or better, as described below. Students who meet the requirements will be eligible to register for certain upper-division studio Digital Design courses.

Eligibility

The student has completed, or is in the process of completing, the following courses with a grade of C (2.0) or better in each:

Code	Title	Hours
FINE 2405	Introduction to Digital Design ¹	3
FINE 2415	Typography Studio ¹	3

¹ Offered typically only in the fall term at CU Denver

Questions

- For general inquiries see the Digital design Program page here (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/digital-design/>).

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

- All courses for this minor must be taken at CU Denver unless approved otherwise by the digital design faculty advisor.
- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to major requirements.

Code	Title	Hours
Required Courses (Entry Level)		
Take all of the following Digital Design Minor courses (entry level):		
FINE 2405	Introduction to Digital Design	3
FINE 2415	Typography Studio	3
Required Courses		
Take all of the following Digital Design Minor courses (available only to students after declaring):		
FINE 3414	Motion Design I	3
FINE 3415	Design Studio I	3
FINE 3424	Interactive Media	3
FINE 3434	3D Motion Design	3
FINE 4600	History of Modern Design:Industrial Revolution-Present	3
Total Hours		21

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and more information about this minor.

Illustration Emphasis, BFA

Introduction

Please click here (p. 209) to see general Visual Arts information.

The Illustration emphasis integrates fine art, mixed media and digital practices with conceptual thinking, research and storytelling in the production of creative work. As a practice, Illustration focuses on skills and concepts in the professional development of a student's individual vision and approach to illustrative arts. Marketing, business and design practices prepare students to discuss and view their work in a design context and for particular commercial markets and galleries. Courses are taught in state-of-the-art drawing and computer labs using the Adobe software suite alongside hands-on studio facilities. Illustration students gather skills to easily work across multiple artistic media—including design, drawing, painting, printmaking, and 3D media for the development of motion and spatial projects.

Students gain the ability to establish freelance illustration studio practice, as well as multi-faceted professional skills and flexibility in working with designers, creative directors, and art directors. Graduates are prepared to write and illustrate concepts and stories in preparation for studios, and the editorial, publishing and advertising markets.

Students in the illustration emphasis receive instruction in conceptual illustration, digital illustration, rendering, perspective, painting, exhibition preparation, professional practices and the use of various artistic and illustration techniques. In preparation for a professional illustration career, the course work allows students to master numerous essential digital and traditional tools and work to successfully bring the two together in ambitious and innovative illustrative work.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Students who are applying for entrance into the illustration emphasis must participate in portfolio review day, as described below. The illustration emphasis accepts applications once a year during the Spring semester. Students who meet the requirements and are accepted go on to take upper-division illustration courses.

Eligibility

The student has completed, or is in the process of completing, the following courses:

Code	Title	Hours
FINE 1100	Drawing I	3
FINE 1400	Two Dimensional Design	3
FINE 1500	Three-Dimensional Design	3
FINE 2020	Drawing II	3
FINE 2155	Introduction to Digital Photography	3
FINE 2200	Painting I	3

A minimum cumulative fine arts/art history GPA of 2.0

Portfolio Review Requirements

Students applying to the illustration emphasis present a portfolio and unofficial transcript(s) from CU Denver and all previous post-secondary educational institutions. Portfolio reviews will take place on the first Friday in **April approximately between 12:00pm and 5:00pm (Mountain Time)**. Faculty review works in person, which must be formatted and presented to the specifications listed on the Portfolio Review page here. There is no fee to apply.

Questions

For general inquiries see the Illustration Program page here (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/illustration/>). For Portfolio review questions see the Portfolio Review page here (<https://artsandmedia.ucdenver.edu/areas-of-study/visual-arts/portfolio-reviews/>).

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Code	Title	Hours
Pre-Portfolio		
Take all of the following Pre-Portfolio courses:		
FINE 1100	Drawing I	3
FINE 1400	Two Dimensional Design	3
FINE 1500	Three-Dimensional Design	3
FINE 2020	Drawing II	3
FINE 2155	Introduction to Digital Photography	3
FINE 2200	Painting I	3
Lower-Division Visual Arts		
Take one of the following lower-division Visual Arts courses:		3
FINE 2405	Introduction to Digital Design	
FINE 2406	Introduction to Digital Art & Imaging	
Take all of the following lower-division Visual Arts courses:		
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
FINE 2030	Life Drawing	3
FINE 2415	Typography Studio	3

Illustration Emphasis

Take all of the following Illustration Emphasis courses: ¹

FINE 3010	Illustration I: Image Making	3
FINE 3410	Illustration II: Digital Media	3
FINE 4000	The Business of Art	3
FINE 4001	Illustration III: Investigative Methods	3
FINE 4002	Illustration IV: Thesis Development	3

Upper-Division Visual Arts

Take **all** of the following upper-division Visual Arts courses:

FINE 3014	The Graphic Novel Workshop	3
FINE 3300	Painting, Drawing and the Printed Image	3
FINE 3450	Digital Painting	3
FINE 4990	Contemporary Art: 1960 to Present	3

Electives

Take three semester hours of Pre-20th Century Art History elective.	3
Take twelve semester hours of Visual Arts electives. ²	12

Capstone

Take the following Capstone course:

FINE 4003	Illustration BFA Thesis	3
Total Hours		78

¹ To be taken after gaining acceptance to emphasis via portfolio day

² These may include studio, lecture, internship or art history courses.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Illustration Minor

Introduction

Please click here (p. 209) to see general Visual Arts information

The illustration minor is designed for students interested in broadening their visual communication skills and obtaining an introductory understanding of what is involved in the production of client-driven visual work. Undergraduates explore digital as well as hand-produced techniques and gain a basis for combining the two in a seamless manner in rendered illustrative works. This minor allows students to complement their major area of study with professionally effective visual communication skills.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate

requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take all of the following Illustration Minor courses:		
FINE 1100	Drawing I	3
FINE 1400	Two Dimensional Design	3
FINE 2405	Introduction to Digital Design	3
FINE 3010	Illustration I: Image Making	3
Select two of the following Illustration Minor electives:		6
FINE 3014	The Graphic Novel Workshop	
FINE 3300	Painting, Drawing and the Printed Image	
FINE 3410	Illustration II: Digital Media	
FINE 3450	Digital Painting	
FINE 4000	The Business of Art	
Total Hours		18

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Painting and Drawing Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

The painting and drawing minor is designed for students interested in broadening their skills in the production of painterly and hand-drawn works of art. Undergraduates are introduced to a variety of techniques and ideas, exposed to several historical and contemporary art practices, and experience studio practice and participate in art dialogue. This minor allows students to complement their major area of study with applied visual problem-solving strategies and techniques, as well as with an ability to enhance their interests through studio art practice and discourse.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

- Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take all of the following Painting and Drawing Minor courses:		
FINE 1100	Drawing I	3
FINE 2200	Painting I	3
FINE 3200	Intermediate Painting and Drawing	3
FINE 3556	Concepts in Painting and Drawing	3
Take two of the following Painting and Drawing Minor courses:		6
FINE 2030	Life Drawing	
FINE 3030	The Media of Drawing or FINE 3995Travel Study	
FINE 3300	Painting, Drawing and the Printed Image	
FINE 3450	Digital Painting	
FINE 3556	Concepts in Painting and Drawing ¹	
Total Hours		18

¹ Course concept must be different than previously taken. The FINE 3556 Concepts in Painting and Drawing course encompasses rotating course topics and can be taken up to four times, with a different topic. These topics are as follows: Concepts in Painting and Drawing-Abstraction, Narrative and Pop Culture, and Figuration.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Photography Emphasis, BFA

Introduction

Please click here (p. 209) to see general Visual Arts information.

Students in the photography emphasis develop skills in traditional and digital photography while refining their creative and conceptual approaches to the medium. The photography curriculum emphasizes individual artistic development that integrates the history of photography, critical theory and contemporary practice. Through an exploration of photographic techniques, students are given the tools to create visually compelling images that communicate their artistic ideas.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

Questions

For more information, please contact CAM@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Arts & Media Graduation Requirements (p. 166)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
- At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
- At least 24 semester hours of total visual arts courses must be upper-division.

Code	Title	Hours
Foundations		
Take all of the following Foundations courses:		
FINE 1100	Drawing I	3
FINE 1150	Introduction to Darkroom Photography	3
FINE 1400	Two Dimensional Design	3
FINE 1500	Three-Dimensional Design	3
FINE 2155	Introduction to Digital Photography	3
FINE 2600	Art History Survey I	3
FINE 2610	Art History Survey II	3
Photography Emphasis		
Take all of the following Photography Emphasis courses:		
FINE 3156	Photography Studio and Lighting	3
FINE 3160	Color and the Constructed Image	3
FINE 3161	The Silver Fine Print	3
FINE 3162	The Digital Fine Print	3
FINE 3171	Concepts and Processes in Photography	3
FINE 3172	Photography and Community	3
FINE 4195	Advanced Photography I	3
FINE 4196	Advanced Photography II	3
Visual Arts		
Take all of the following Visual Arts courses:		
FINE 3630	History of Photography	3
FINE 3631	Photography: Theory and Criticism	3
FINE 3635	Photography Now	3
FINE 4990	Contemporary Art: 1960 to Present	3

Electives

Take three semester hours of Pre-20th Century Art History elective.	3
Take three semester hours of Studio Arts elective in an area outside of photography.	3
Take nine semester hours of Studio Arts electives.	9
Take six semester hours of Visual Arts electives. ¹	6

Capstone

Take the following Capstone course:	
FINE 4950	Studio BFA Thesis
	3
Total Hours	81

¹ These may include studio, lecture, internship or art history courses.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cam/>).

Photography Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

Students in the photography minor develop a broad range of technical and conceptual skills that expand their knowledge of image-making. The curriculum of the minor emphasizes photography as a tool for creative expression while integrating the history of photography and contemporary artistic practices. Through an exploration of both digital and analog processes, students select intermediate level courses that enable them to successfully employ a variety of photographic strategies.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Students who wish to declare this minor should contact the College of Arts & Media at CAM@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses (Entry Level)		
Take all of the following Photography Minor courses (entry level):		
FINE 1150	Introduction to Darkroom Photography	3
FINE 2155	Introduction to Digital Photography	3
FINE 3630	History of Photography	3
Required Courses		
Take three of the following Photography Minor courses:		9
FINE 3135	Historic Photographic Processes in Italy	
FINE 3156	Photography Studio and Lighting	
FINE 3160	Color and the Constructed Image	
FINE 3161	The Silver Fine Print	
FINE 3162	The Digital Fine Print	
FINE 3171	Concepts and Processes in Photography	
FINE 3172	Photography and Community	
ARCH 3602	Architecture Photography (available only to architecture majors)	
Total Hours		18

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Studio Art Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

This general minor in studio art offers students the opportunity to explore creative studio practice in one or multiple areas (e.g., photography, transmedia sculpture, painting and drawing) along with an introduction to art history.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate

requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

- Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take two of the following Studio Art Minor courses:		6
FINE 1100	Drawing I	
FINE 1150	Introduction to Darkroom Photography	
FINE 1400	Two Dimensional Design	
FINE 1500	Three-Dimensional Design	
FINE 2155	Introduction to Digital Photography	
FINE 2200	Painting I	
FINE 3500	Installation Art	
Electives		
Take six semester hours of Studio Arts electives.		6
Take three semester hours of upper-division Studio Arts elective.		3
Take three semester hours of Art History elective.		3
Total Hours		18

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, prerequisite updates and for lists of approved electives and more information about this minor.

Transmedia Sculpture Minor

Introduction

Please click here (p. 209) to see general Visual Arts information.

The transmedia sculpture minor provides experiences that span digital practice, traditional metal casting, mold making, woodworking and fabrication processes. Students learn how to use a wide variety of equipment that encompass the breadth of sculpture today, from metal, wood and assembled sculpture, to installation and performance work, to live media and interactive digital work.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 93) for information about Academic Policies

Program Requirements

- Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.

- A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
- Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Code	Title	Hours
Required Courses		
Take all of the following Transmedia Sculpture Minor courses:		
FINE 1500	Three-Dimensional Design	3
FINE 2500	Bronze Casting	3
FINE 2510	Wood and Metal Sculpture	3
Take three of the following Transmedia Sculpture Minor courses:		9
FINE 3500	Installation Art	
FINE 3510	Mold Design & Casting	
FINE 3555	Concepts in Sculpture ¹	
FINE 4505	Sculptural Drawing	
FINE 4215	Interdisciplinary Studio	
Electives		
Take three semester hours of Art History elective.		3
Total Hours		21

- ¹ Note that the FINE 3555 Concepts in Sculpture course encompasses rotating course topics and can be taken up to four times, each time with a different topic. These topics are as follows: Concepts in Sculpture-Modeling for Manufacture, Social Engagements, Iron Casting, Public and Environmental Art.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

Denver, CO 80217-3364

Overview

The College of Engineering, Design and Computing at the University of Colorado Denver meets the needs of the Denver metropolitan area by providing nationally accredited engineering education programs in a flexible format that suits both students and employers. Recognizing the importance for students to pursue professional studies and related employment simultaneously, the college offers undergraduate and graduate degree programs in bioengineering, civil engineering, construction engineering and management, construction management, mechanical engineering, electrical engineering and computer science through late afternoon and evening studies or through a more traditional schedule of day classes.

A listing of the fields in which engineers work would have hundreds of entries. The following list is a brief summary of the engineering fields available at CU Denver.

Bioengineering offers opportunities for interdisciplinary undergraduate training for a bachelor of science degree and graduate training for master of science and doctor of philosophy degrees. Our programs are uniquely integrated with the CU Anschutz Medical Campus. Students enjoy opportunities to learn from clinicians and engineers and to perform research or medical device design in world-class hospitals and clinical research labs. Bioengineering is one of the fastest growing job markets this decade, according to the Bureau of Labor Statistics. A degree in this area provides numerous opportunities to work in health care, biomedical industry, government regulatory agencies and academia.

Civil engineering offers an interesting and challenging career in the design and construction of buildings, bridges, dams, aqueducts and other structures; in transportation systems including highways, canals, pipelines, airports, rapid transit lines, railroads and harbor facilities; in the distribution of water and the regulation of rivers; in the development of water resources for urban use, industry and land reclamation; in the control of water quality through water purification and proper waste treatment; in the construction and contracting industry; and in the problems concerned with our physical environment and the growth of cities.

Computer science offers graduates the solid foundation needed for jobs in computing and enabling technology encompassing many areas across diverse fields such as healthcare, business, natural & applied sciences, mathematics and visual arts. Career paths in computer science involve designing and implementing software, devising new computer applications and developing effective ways to solve computing problems.

Construction engineering and management enables engineers, construction managers, architects, business majors and others to advance within a wide variety of construction career paths or to transition into the dynamic, exciting and high paying building industry. Graduates will find exciting, well-paid careers in the expanding and interconnected industry of architecture, engineering and construction as it embraces dynamic new concepts like smart cities, connected infrastructure and evolving value propositions.

Electrical engineering offers careers that include research in development of new electrical or electronic devices, instruments or products; design of equipment or systems; production and quality control of electrical products; and sales or management for private industry or government. There are numerous specialties within electrical engineering. Among them are the design and application of computer systems and digital engineering; electromagnetic fields and microwave devices; control systems; communication theory and signal processing; electrical integrated circuits and electron devices; and energy and power systems.

Mechanical engineering offers a wide range of interesting and challenging career opportunities in research, design, development, manufacturing, testing and marketing for either private industry or government. Mechanical engineers help develop a wide range of products such as engines, transmissions, compressors, pumps, oil field drilling rigs, missiles, space satellites, earth-moving equipment, container-manufacturing machines, medical equipment and many other products encountered in daily life.

Educational Goals

The College of Engineering, Design and Computing has established the following goals and objectives for undergraduate education:

- successful completion of the fundamental core courses, primarily lower division, in mathematics and the physical sciences
- successful completion of the required upper-division courses in engineering science, analysis and design
- successful completion of real-world engineering design projects that require integration of engineering, economic and social skills
- successful completion of a series of humanities and social science courses that introduce the student to societal problems and historical perspectives
- evidence, through close student/faculty contact, of development of professionalism, ethics and concern for the multifaceted human element of engineering
- evidence, from successful completion of a full engineering curriculum, of the ability to maintain professional competency through lifelong learning
- evidence, through successful completion of a series of communications-oriented courses and project presentations, of an ability to communicate effectively with professionals and laypersons alike

Accreditation

Our undergraduate programs in bioengineering, civil engineering, electrical engineering and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>). The undergraduate program in computer science is accredited by the Computing Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

Freshman Year

Fundamentals taught in the freshman year are of critical importance in the more advanced classes. Special attention should be given to taking courses in the proper sequence. (Course requirements for freshmen are detailed in the typical curriculum given under each department.) All students are urged to consult their instructors whenever they are experiencing difficulties with course materials or for questions related to the class.

Internships

Internships are a way for students to gain professional experience while studying at CU Denver. Many internship positions lead to permanent employment opportunities upon graduation. Please contact the Experiential Learning Center at 303-315-7258 for information on the specific eligibility requirements.

Scholarships

The College of Engineering, Design and Computing awards various undergraduate scholarships to support the education of engineering students. These awards are provided through funds generously given by industry, alumni and other donors. Once admitted, students may view and apply for these scholarships through the student portal (<https://passport.ucdenver.edu/login.php>). Please note that the list of scholarships for which a particular student is eligible automatically populates. For additional information on other types of financial aid, consult the Tuition/Financial Aid FAQs section (p. 52).

College of Engineering, Design and Computing Admissions Information

Freshman Applicants

For direct admission to the College of Engineering, Design and Computing, freshman applicants must meet the following criteria:

Direct Admission to:

BS in Bioengineering
BS in Civil Engineering
BS in Construction Engineering and Management
BS in Computer Science
BS in Electrical Engineering
BS in Mechanical Engineering

Criteria:

- Minimum 3.0 cumulative high school GPA **and**
- Minimum 24 ACT Composite and 25 ACT Math Score **or**
- Minimum 1180 SAT Composite and 590 SAT Math Score

Direct Admission to:

BA in Computer Science
BS in Construction Management

Criteria:

- Minimum 2.6 cumulative high school GPA **and** one of the following requirements:
- Minimum 22 ACT Composite **or** 22 ACT Math
- Minimum 1110 SAT Composite **or** 540 SAT Math

Admission to Pre-Engineering

Students who do not meet the criteria for direct admission to a major will be considered for admission to pre-engineering with a major interest.

Criteria:

- Minimum 2.600 cumulative high school GPA **and** one of the following two requirements:
- Minimum 22 ACT Composite **or** 22 ACT Math
- Minimum 1110 SAT Composite **or** 540 SAT Math

Admission to College of Liberal Arts and Sciences - Undeclared

- Students who do not meet the criteria for direct admission to a major or pre-engineering, but otherwise meet the university's admission criteria, will be admitted to the College of Liberal Arts and Sciences as an undeclared major.

For International Students Who Did Not Graduate From a U.S. High School

The ACT/SAT requirement is waived; instead, students must meet the minimum cumulative high school GPA requirement above and have completed three (3) years of high school math with a cumulative 2.7 GPA in math courses.

Transfer Applicants

For direct admission to the College of Engineering, Design and Computing, transfer applicants must meet the following criteria:

DIRECT ADMISSION TO:

BS in Bioengineering
BS in Civil Engineering
BS in Construction Engineering and Management
BS in Computer Science
BS in Electrical Engineering
BS in Mechanical Engineering

Criteria:

- Minimum 3.0 overall GPA with a grade of B- or better in Calculus I **or**
- Minimum 2.75 overall GPA **and** a minimum 2.5 GPA (based on most recent course attempts) in Calculus I, Calculus II, and Calculus-based Physics I with corresponding lab, with a grade of C- or better in each course.

NOTE: For admission into the computer science major, calculus-based Physics I is not required, but will be accepted

DIRECT ADMISSION TO:

BA in Computer Science
BS in Construction Management

Criteria:

- Minimum 2.5 overall GPA
- Completion of at least one of the following courses with a grade of C or better: College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II

ADMISSION TO PRE-ENGINEERING

Students who do not meet the criteria for direct admission to a major will be considered for admission to pre-engineering with a major interest.

Criteria:

- Minimum 2.5 overall GPA
- Completion of at least one of the following courses with a grade of C or better: College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II

ADMISSION TO COLLEGE OF LIBERAL ARTS AND SCIENCES - UNDECLARED

- Transfer students who do not meet the criteria for direct admission to a major or pre-engineering, but otherwise meet the university's admission criteria, will be admitted to the College of Liberal Arts and

Sciences as an undeclared major, or in the case of an IUT, remain in their current CU Denver school or college.

Application Deadlines

UNDERGRADUATE

Fall: July 31
Spring: December 31
Summer: May 31

Please visit the College of Engineering, Design and Computing website (<https://engineering.ucdenver.edu/undergraduate-programs/admissions/>) for additional information.

(For Graduate Programs and information please refer to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-engineering-design-computing/#departmentstext>) catalog.)

College of Engineering, Design and Computing Graduation Requirements

For additional information regarding graduation policies and procedures, please visit the Graduation section of the catalog.

Hours

A minimum of 130 semester hours is required for students seeking the bachelor of science (BS) in civil engineering; a minimum of 128 semester hours is required for the BS in bioengineering, computer science, construction engineering and management, electrical engineering, and mechanical engineering; and a minimum of 120 credit hours is required

for the BS in construction management and the bachelor of arts in computer science.

Grade Point Average (GPA)

A minimum cumulative GPA of 2.0 is required for all courses attempted, for all required courses and for all courses taken within the student’s major department.

Hours in Residence

At least 30 semester hours of course work applicable to an undergraduate degree in engineering must be taken at CU Denver while a declared student in good standing at the College of Engineering, Design and Computing. Students must be enrolled in the college for at least the final two semesters prior to graduation.

Note: The electrical engineering program requires at least 40 hours of course work applicable to a bachelor of science degree in electrical engineering, which must be taken at CU Denver while a declared student in good standing at the College of Engineering, Design and Computing.

Mathematics and Physics Requirements

Each major in the College of Engineering, Design and Computing includes specific math and physics requirements, which can overlap with CU Denver Core Curriculum requirements (p. 104) in the categories of Mathematics or Biological and Physical Sciences. An overview of these requirements is laid out below:

Mathematics

Code	Title	Hours
MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 2421	Calculus III (not required for computer science students)	4
MATH 3195	Linear Algebra and Differential Equations	4
Total Hours		16

Physics

Code	Title	Hours
PHYS 2311	General Physics I: Calculus-Based	4
PHYS 2321	Intro Experimental Phys Lab I	1
PHYS 2331	General Physics II: Calculus-Based	4
PHYS 2341	Intro Experimental Phys Lab II (not required for civil or electrical engineering students)	1
Total Hours		10

Notes:

- BS computer science students may take their science course track in biology, chemistry or physics. Please see the BS [computer science curriculum](#) (p. 271) for details. BA computer science students must take at least one biology, chemistry, or physics course + lab in addition to another lab-based science course. Please see the BA computer science curriculum (p. 269) for details.
- Please see the individual major pages in the Programs (p. 759) area for a full picture of the specific major requirements
- Please see the CU Denver Core Curriculum (p. 104) for a full picture of degree requirements

Faculty Recommendation

The recommendation of the faculty of the department offering the degree and the approval of the faculty of the College of Engineering, Design and Computing is required for graduation.

Major

Complete all requirements associated with your individual major. Please visit the individual program pages for major requirements.

Applying for Graduation

When a student in the College of Engineering, Design and Computing is within 30 hours of completing their degree, an appointment should be scheduled with an advisor to perform a 30-hour check. The 30-hour check is required before the student may graduate.

In addition to the above requirement, all students in the College of Engineering, Design and Computing must also meet with their advisor in the semester prior to the semester in which they wish to apply for graduation to ensure all academic and administrative requirements are met. Failure to do so may interfere with a student's ability to graduate.

It is the sole responsibility of the student to understand and follow the policies, procedures, dates and deadlines of the CU Denver campus and the College of Engineering, Design and Computing. Failure to do so may obstruct a student's ability to graduate.

Academic Honors

In recognition of superior scholarship, academic honors are awarded at the time of graduation based on the cumulative University of Colorado undergraduate GPA, including the final semester of coursework. To be eligible for honors, a student must have completed a minimum of 60 semester hours at the University of Colorado (on any CU campus). Grades earned at institutions outside of the CU system will not be considered. For Special Honors, a student must have earned a cumulative CU GPA of at least 3.800; for Honors, a GPA between 3.600 and 3.799 is required. Since grades earned during the semester of graduation are considered, academic honors are notated in the commencement program as "pending" and are officially recorded on the diploma and transcript if granted.

College of Engineering, Design and Computing Academic Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 93) section of the catalog.

Undergraduates Taking Graduate Coursework

With advisor approval, an undergraduate engineering student may be granted the opportunity to take graduate courses to be counted toward an undergraduate degree. A maximum of 6 semester hours of graduate-level University of Colorado course work taken as an undergraduate can be considered for credit toward a graduate degree. Only a grade of B (3.000) or above will be considered for graduate-level credit. All consideration of graduate work to be counted toward both an undergraduate and a graduate degree must be approved by an advisor.

Course Load/Restriction

Undergraduate students employed less than 10 hours per week should consider registering for courses as outlined in the departmental curricula. Additional courses may be allowed when there is satisfactory evidence that the student has the capability to handle the added load. Permission to take more than 19 hours may be granted by written petition and approval of the department chair and the dean's office.

Registration for Non-Degree Seeking Students

Non-degree students may apply 12 semester hours of course work (or up to 18 if taken in one semester) toward a bachelor's degree in engineering from CU Denver. Non-degree graduate students may apply 9 semester hours of graduate-level course work toward a master's degree in engineering from CU Denver.

Withdrawal

After the tenth week of the semester, dropping a course requires a petition signed by the department chair. Only under very extenuating circumstances, such as a documented medical or personal emergency, will petitions for dropping courses be approved after the tenth week of the semester.

Retroactive Drop/Withdrawal

The university specifies the date up to which students may drop a course using the online course registration and schedule adjustment system. This date usually occurs at the end of the first week of classes for that semester. After this date, students must use a Schedule Adjustment Form to add or drop courses from their schedules. This form requires the signature of the course instructor. Beyond the end of the tenth week of the semester, this form also requires the signature of the department advisor in which the student is majoring. The student's department will verify that the course being dropped is not a co-requisite to another course in which the student is enrolled that semester. If so, then the other course must also be dropped. A course withdrawal after the tenth week of the semester is at the discretion of the instructor and the student's department, and signatures must be obtained from both. No course withdrawals will be approved after the end of the 14th week of the semester for any reason except unforeseen circumstances beyond the student's control.

A complete withdrawal from the semester requires the same Schedule Adjustment Form, but it only requires the signature of the dean of the student's college and the Financial Aid Office, if applicable.

Note: The student is responsible for informing the university offices of any change in schedule that may affect enrollment requirements for matters such as financial aid, scholarships, or international visas.

Grade Appeals

Final grades, as reported by instructors, are to be considered permanent and final. Grade changes will be considered only in cases of documented clerical error and must be approved by the dean.

Pass/Fail

The primary purpose for offering courses on a pass/fail grade basis is to encourage students, especially juniors and seniors, to broaden their educational experience by electing challenging upper-division humanities and social sciences elective courses without serious risk to

their academic records. In general, pass/fail should be limited to 3000- or 4000-level humanities and social sciences courses. Students must process the pass/fail form during the first two weeks of the semester. A maximum of 16 semester hours may be taken pass/fail, including courses taken in the honors program.

No courses required for the completion of an engineering degree will be accepted for credit if taken with the university standard pass/fail process. This includes all required and elective BIOL, CHEM, ENGR, MATH, and PHYS courses and any College of Engineering, Design and Computing discipline course (BIOE, CSCI, CVEN, CEMT, ELEC, and MECH). CU Denver core curriculum courses may be eligible, BUT because certain categories of core courses are not eligible (e.g., math and natural and physical sciences), students are strongly recommended to consult their advisor prior to requesting this grading option. If a student selects Pass/Fail grading for an ineligible course, the student will be required to repeat it for a letter grade to satisfy degree requirements.

No Credit

An engineering student must request approval before enrolling for no credit (NC) for any course. Required courses must be taken for credit. Once a course has been taken NC, the course cannot be repeated for credit.

Incomplete Grade

An incomplete may be given by the instructor for circumstances beyond the student's control, such as a documented medical or personal emergency. When it is given, the student and the departmental office must be informed in writing, by the instructor, what the student is expected to do in order to remove the incomplete grade as well as the date by which the tasks are to be completed. The instructor will assign an "I" distinction. The student is expected to complete the course requirements (e.g., the final examination or term paper), within the established deadline and not to retake the entire course. The majority of course requirements (75%) must have been completed with a passing grade to be eligible for an incomplete. An "I" distinction will be converted automatically to a grade of F after one year if the specified work is not completed.

It is the student's responsibility to ensure that all courses marked as incomplete are officially completed before the tenth week of the student's final semester in school.

Attendance Policy

Successful work in the College of Engineering, Design and Computing is dependent upon regular attendance in all classes. Students who are absent should make arrangements with instructors to make up the work missed. Students who for illness or other good reason miss any examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in an F in the course.

Course Repeat Policy

Undergraduate students may not register for credit in a course in which they already have received a grade of C- or higher. For required courses (including technical electives): an F grade necessitates subsequent satisfactory completion of the course; students must repeat a prerequisite course in which a grade of D+ or lower was earned before moving on to the subsequent course.

If students do not successfully complete (C- or higher) an engineering class on the second attempt, they must obtain written approval from their major department to enroll for the course for the third time. When a course is retaken because of a D or F grade, both grades will appear on the transcript and both will be averaged into the GPA. Any exceptions to these policies must be made by written petition through the Office of the Dean.

Academic Integrity and Discipline Policies

CU Denver Campus Policy 7050, Academic Integrity (https://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/7XXX%20Student%20Affairs/7050%20-%20Academic%20Integrity.pdf), defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as

1. a student's use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or
2. actions that interfere with the ability of the instructor to fairly judge the work of the student or other students.

Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one's responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for more detailed definition)

Students are expected to know, understand and comply with the ethical standards of the university. Examples of academic dishonesty include, but are not limited to the following:

1. *Plagiarism*

Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.

2. *Cheating*

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.

3. *Fabrication and Falsification*

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.

4. *Multiple Submissions*

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

5. *Misuse of Academic Materials*

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, and falsification of university documents.

6. *Complicity in Academic Dishonesty*

Complicity involves knowingly allowing or contributing to another's academic misconduct.

School/College Specific Policy

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery or falsification of official records and similar acts or attempts to engage in such acts are grounds for suspension or expulsion from the university.

In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student's own.

The college has a Student Honor Code that all students are required to sign when they meet with their academic advisor. The code outlines the college's expectations of its students and faculty in establishing and maintaining the highest standards in academic work and is available on the college website (<http://engineering.ucdenver.edu> (<http://engineering.ucdenver.edu/>)) under Student Services > Policies and Forms.

The college also has a committee on discipline that hears cases of alleged violations of academic ethics and recommends disciplinary action. In a case of proven academic dishonesty/misconduct, the committee may invoke penalties that may include probation, suspension or expulsion. In a case of suspension or expulsion, a distinction may be placed on a student's academic record indicating the action was due to academic dishonesty/misconduct. Students who suspect or observe violations of academic ethics should report them to their instructor, the department chair or the Office of the Dean.

In addition, there is a student Academic Honor Code at CU Denver. The code is published in a brochure available from the Office of Student Life. Information regarding all student grievance procedures may be obtained in that office.

Bioengineering

Chair: Robin Shandas

Denver Office: North Classroom 2204

Anschutz Office: Bioscience 2

Fax: 303-724-5800

E-mail: bioengineering@ucdenver.edu

Website: engineering.ucdenver.edu/bioengineering (<https://engineering.ucdenver.edu/academics/departments/bioengineering/>)

Overview

The Department of Bioengineering bridges engineering and medicine with a core mission of applying engineering principles and analyses to improving human health. The department will fulfill this mission by providing opportunities for training, research, and service in bioengineering to faculty, students, and residents of Colorado and the greater Rocky Mountain region.

Program Objectives

The Department of Bioengineering offers high-quality training in bioengineering that is both flexible and multidisciplinary. A design-based focus permeates every aspect of our training philosophy which can be summarized by the following question: what does the user want and how can I best utilize my bioengineering training to achieve this need? Our academic instruction focuses on developing core competencies in life sciences, quantitative methods, technology, and research methods.

Undergraduate Information

The program offers a bachelor of science (BS) degree in bioengineering. All undergraduate students begin the program on the CU Denver (Auraria) campus. In consultation with faculty advisors, each student chooses elective courses, training pathways, and research to fit talents, preparation, and career plans.

The BS in bioengineering degree will prepare students for careers in the biomedical industry, in hospital, government, or academic research labs, in regulatory agencies such as the FDA, and for further education in graduate school, medical school, or other advanced health sciences program.

The minimum of 128 semester hours is required to earn the BS degree, including 58 credits in bioengineering premajor coursework and 24 credits in general education core at the Denver campus. This training is complemented by 46 credits in the upper-level bioengineering major and track specialization courses at the CU Anschutz Medical Campus.

All students interested in bioengineering will commence their studies in the department as pre-majors. Admittance to the major will be granted to students who have successfully completed all pre-major courses and who meet the program's selection criteria.

BS/MS option

For full-time undergraduate CU Denver bioengineering students in the major, the bioengineering BS/MS option provides students the opportunity to begin graduate work while completing the undergraduate degree. Students are able to take six credits toward the master of science during the last year in the major as part of the bachelor of science technical electives, accelerating the time to obtain a graduate degree. Visit our website or contact us at bioengineering@ucdenver.edu.

Faculty

Professors:

Robin Shandas, PhD

Email: robin.shandas@cuanschutz.edu

Specialties: Novel methods for translational bioengineering

Keith Neeves, PhD

Email: keith.neeves@cuanschutz.edu

Specialties: Hematology and oncology

Associate Professors:

Richard Benninger, PhD

Email: richard.benninger@cuanschutz.edu

Specialties: Optical microscopy, pancreatic islet biology and biophysics, diabetes

Cathy Bodine, PhD

Email: cathy.bodine@cuanschutz.edu

Specialties: Assistive technology, rehabilitation engineering

Jeffrey Jacot, PhD

Email: jeffrey.jacot@cuanschutz.edu

Specialties: Stem cells and heart tissue engineering

Kendall Hunter, PhD

Email: kendall.hunter@cuanschutz.edu

Specialties: Soft tissue mechanics, vascular and cardiac imaging diagnostics, translational biomechanics

Daewon Park, PhD

Email: daewon.park@cuanschutz.edu

Specialties: Biomaterials, drug delivery, tissue engineering and regenerative medicine

Assistant Professors:

Emily Gibson, PhD

Email: emily.gibson@cuanschutz.edu

Specialties: Microfluidics technology, optical microscopy, and spectroscopy

Chelsea Magin, PhD

Email: chelsea.magin@cuanschutz.edu

Specialties: Bio-inspired materials for tissue engineering, R & D product development

Bradford Smith, PhD

Email: bradford.smith@cuanschutz.edu

Specialties: Lung structure-function relationships, optimized mechanical ventilation, and high performance computing

Instructors:

Cassandra Howard, MSC

Email: cassandra.howard@cuanschutz.edu

Specialties: Medical device innovation and biodesign

Steven Lammers, PhD

Email: steven.lammers@cuanschutz.edu

Specialties: 3D printing & design, bioprintable materials, tissue engineering of 3D cellularized scaffolds

Jennifer Wagner

Email: jennifer.wagner@cuanschutz.edu

Specialties: Medical imaging, 3D modeling, surgical guides/tools, tissue engineering, and material characterization

Associate Clinical Professors:

Michael Yeager

Email: michael.yeager@cuanschutz.edu

Specialties: Cardiopulmonary disease, autoimmunity, in vivo cell lineage tracing & imaging

Associate Research Professors:

Richard Weir, PhD

Email: richard.weir@cuanschutz.edu

Specialties: Neural engineering, biomechatronic design, and rehabilitation engineering

Assistant Research Professors:

Brisa Pena, PhD

Email: brisa.penacastellanos@cuanschutz.edu

Specialties: Material science, atomic force microscopy, cardiac tissue engineering, and miRNA delivery

Vitaly Kheyfets, PhD

Email: vitaly.kheyfets@cuanschutz.edu

Specialties: Vascular/ventricular function, cellular metabolism in cardiovascular disease, and pulmonary hypertension

Affiliated Faculty

Students receive instruction from affiliate faculty in the University of Colorado system, including CU Boulder and the CU School of Medicine. Faculty research areas include Imaging and Biophotonics; Cardiovascular Biomechanics and Hemodynamics; Orthopedic Biomechanics; Surgery; Ophthalmology; and Neuroscience Engineering.

Bioengineering (BIOE)

BIOE 1010 - Bioengineering Design and Prototyping I (3 Credits)

BIOE 1010 introduces students to bioengineering, and provides an introduction to possible careers and research topics in bioengineering. Students also learn human anatomy by understanding how to incorporate visual human data sets into computer prototyping and design tools.

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing.

Typically Offered: Fall.

BIOE 1020 - Bioengineering Design and Prototyping II (3 Credits)

BIOE 1020 extends work from BIOE 1010 by introducing students to practical skills around computer-aided design (CAD), modeling and prototyping with focus on project-oriented work aimed at design, prototyping and metrology of specific medical devices. Prereq: ENGR 1200 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: ENGR 1200 with a C- or higher.

Typically Offered: Spring.

BIOE 2010 - Introduction to Programming for Bioengineers (2 Credits)

Digital computers are the primary tools of modern engineers. This class introduces the undergraduate to general computing concepts, computer languages, and programming techniques. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing.

Prereq: MATH 1401 with a C- or higher. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 2020 - Introduction to Computational Methods for Bioengineers (2 Credits)

A modern engineer is required to solve problems involving the physical world not only on paper, but also using numerical tools implemented on digital computers. This class introduces the students a first set of numerical algorithms for the solution of calculus-based engineering problems. Prereq: BIOE 2010 and MATH 2411 with a C- or higher.

Restriction: Restricted to BIOE-BS majors. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 2010 and MATH 2411 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design, and Computing.

BIOE 2840 - Independent Study in Bioengineering (1-6 Credits)

Covers topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 3010 - Bioinstrumentation (3 Credits)

This course is intended for junior bioengineering students to facilitate their development into bioengineering investigation. The course has been designed to introduce fundamental principles of circuit theory, analog and digital electronics and biological instrumentation techniques commonly used in biomedical research. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3020 - Introduction to Biomechanical Analysis (3 Credits)

This course will offer an overview of solid and fluid mechanics, as applied to biomechanical systems. After completing this course, students should have enough understanding of biomechanics to: (1) perform and interpret basic analytical of biomech. systems: (2) analytically reason through a design: (3) and choose a specialty. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195 and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3030 - Introduction to Biomaterials (3 Credits)

This course will cover different kinds of biomaterials in biomedical applications, and their physiological response in the biological environment. In addition, it will cover material properties, host response, and characterization techniques. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3040 - Physiology for Bioengineering (3 Credits)

This course will introduce students to central concepts in human physiology. This includes the structure, function and homeostatic role of key organs within the body; the engineering principles governing these systems and processes; and designing engineering-based solutions to overcome dysfunction in disease. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3050 - Cell & Molecular Bioengineering (3 Credits)

An examination of the structure and function of eukaryotic cells. Emphasis is placed on mechanisms of intracellular and transmembrane transport, cellular control, gene expression, and intercellular and intracellular signaling. Experimental methods and applications will be discussed. Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 3051 - Cell & Molecular Bioengineering Lab (1 Credit)

Laboratory experience in cell and molecular biology techniques. Experimental methods and applications will be discussed and performed including basic microscopy, PCR, purification and separation techniques, and protein assays. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Co-req: BIOE 3050. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Co-req: BIOE 3050 Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3060 - Biostatistics, Measurement and Analysis (3 Credits)

Students will learn and apply parametric statistics, including t-tests, ANOVA, and regression methods, using commercially available statistical software to the analysis of clinical and/or biological data. Further, they will be introduced to measurement error and the propagation of error technique. Restriction: Restricted to BIOE-BS majors. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 3070 - Bioengineering Lab I (3 Credits)

Core bioengineering lab required of all major students. This lab introduces students to experimental techniques in the areas of Biomaterials, Biomedical Instrumentation, and Biomechanics. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 3071 - Bioengineering Lab II (3 Credits)

Lab sequence 2 of 2. A series of modules focused on quantitative techniques relative to Bioengineering. Modules will include Physiological data acquisition and analysis, Medical Imaging and Assistive Technologies. Prereq: BIOE 3070 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3070 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing.

BIOE 3090 - Introduction to BioDesign (3 Credits)

BioDesign I is the first course in a three sequence design process that provides students with a framework for identifying medical needs through clinical observation, environment analysis and product screening. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 3939 - Undergraduate Internship (1-6 Credits)

Department of Bioengineering Internship. Credit may be applied toward technical electives in the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 3 Credits. Semester Hours: 1 to 3

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 4035 - Undergraduate BioDesign II (3 Credits)

This represents the second semester of the core undergraduate Biodesign sequence. Students gain experience around Design and Prototyping, Verification and Validation, and evaluation of key components around biomedical technology development. Prereq: BIOE 3090. Restriction: Restricted to full Bioengineering majors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3090 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4039 - Mechatronics and Embedded Systems (3 Credits)

The course focuses on the design and construction of microprocessor-controlled electro-mechanical systems. Lectures review critical circuit topics (Ohm's law, RLC circuits, DC and AC signals, diode and transistor circuits, operational amplifiers, and digital signals), introduce microprocessor architecture and programming, discuss sensor and actuator component selection, robotic systems, and design strategies for complex, multi-system devices. Lab work reinforces lectures and allows hands-on experience with robotic and embedded systems design. Students must design and build an embedded systems device related to assistive technology. Cross-listed with BIOE 5039. Restriction: Restricted to students with BIOE major designation, or instructor approval. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 4045 - BioDesign III (3 Credits)

This course represents the capstone culmination of the core undergraduate Biodesign experience. Students finalize all design, prototyping, testing and validation components, and present the project per professional standards to professionals and peers. Prereq: BIOE 4035 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 4035 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4053 - Optics and Microscopy in Biomedical Research (3 Credits)

Undergraduate overview of optical imaging, ranging from classical microscopy to advanced, non-linear techniques and includes theory, technology and applications in biomedical sciences. This will prepare students for developing and applying state-of-the-art optical imaging in their research. Cross-listed with BIOE 5053. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4054 - Regulatory Affairs (3 Credits)

This course covers standards of quality assurance and regulatory pathways that guide biomedical engineering industry. Cross-listed with BIOE 5054. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 4057 - Rehabilitation and Assistive Technology (3 Credits)

This course provides students with an overview of technologies and their use by and for persons with disabilities. Cross-listed with BIOE 5057. Restriction: Restricted to students with BIOE designation, or with instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 4058 - Intro to Design, Disability, and Aging (3 Credits)

This course provides an introduction to the topic of disability and aging and the application of bioengineering principles for persons living with functional impairment(s) across the lifespan. Cross-listed with BIOE 5058. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 4063 - 3D Modeling for Bioengineers (3 Credits)

This course instills in the 3D modeling skills specific to the biomedical industry. Topics include computer aided design (CAD), medical imaging, image processing, patient specific image to three-dimensional (3D) model reconstruction, non-uniform rational b-spline (NURBS) surfaces, finite element and computational fluid dynamics (FEA/CFD) analyses and physical modeling using rapid prototyping. Prereq: 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

Typically Offered: Fall, Spring.

BIOE 4064 - Advanced MatLab For Bioengineers And Life Scientists (3 Credits)

MatLab programming for undergraduate bioengineers and life scientists. Topics include MatLab syntax and optimization as well as techniques for working with scalars, time-series, images and multi-dimension datasets. Surface/Curve fitting, modeling, automation and classification will be covered. Cross-listed with BIOE 5064. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4067 - Human Factors and Usability Testing for Bioengineers (3 Credits)

This course provides an introduction to human factors testing and evaluation in the context of medical devices and assistive technology (AT). Particular focus will be given towards designing and applying usability testing to inform product design decisions or improvements. Topics include human factor considerations for aging and disabled populations (and their care providers), usability techniques, user experience data collection and interpretation, etc. Students will engage in hands-on human factors assessments such as contextual inquiry of surgery patients, cognitive walkthroughs with simulating disability, and product usability testing and iteration. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOE 4068 - Introduction to Medical Imaging (3 Credits)

This course will introduce undergraduates to the basic physics, technologies, and clinical methodologies underlying Ultrasound, MRI, CT, PET and SPECT imaging systems. The course will include lectures, and visits to campus hospital and research imaging systems as well as hands on ultrasound labs. Cross-listed with BIOE 5068. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4069 - Advanced Biomechanics for Undergraduates (3 Credits)

This course covers advanced topics such as blood flow dynamics, introduction to non-linear finite deformation techniques, blood rheology, and computational techniques. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Cross-listed with BIOE 5069. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4073 - Neural Interfaces and Bionic Limbs (3 Credits)

This course will introduce undergraduates to topics in neural interfaces (Brain machine interfaces, peripheral nerve interfaces etc), the issues involved in the design of mechatronic limb systems and the decoding algorithms used to map the neural interface to the mechatronic limb. Cross-listed with BIOE 5073. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4083 - Polymers in Biomedical Applications (3 Credits)

This course will introduce undergraduate students to fundamental synthetic method and basic characteristics of various polymeric biomaterials and their crucial roles in different biomedical applications. It will also cover how the polymers can be modified to enhance biomedical applications. Cross-listed with BIOE 5083. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4085 - Tissue Engineering (3 Credits)

This course covers tools, techniques, characterization and applications in modern tissue engineering. Cross-listed with BIOE 5085. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing

BIOE 4420 - Special Topics in Bioengineering (1-3 Credits)

Special topics of particular interest to undergraduate in the Bioengineering program. Registration requires departmental approval. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors.

BIOE 4840 - Independent Study in Bioengineering (1-6 Credits)

Covers advanced topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department Consent Required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 4929 - Undergraduate Research Project (1-6 Credits)
Department of Bioengineering Research Project. Credit may not be applied toward the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Department Consent Required. Restriction: Restricted to BIOE-BS majors.

Bioengineering, BS

Introduction

Please click here (p. 239) to see Bioengineering department information.

The undergraduate program at CU Denver is a highly rigorous program instilling competencies in biomedical science, engineering, and mathematics and biomedical design, while emphasizing the professional competencies of leadership, communication, presentation and critical problem solving. Our mission is to improve human health through the application of engineering principles, ideas, methods and inventions to solve important clinical problems. Bioengineering is a highly interdisciplinary field that brings together:

- 1. engineering and mathematics
- 2. biological, chemical and physical sciences
- 3. clinical medicine

The undergraduate bioengineering program provides training at both the Denver campus and the Anschutz Medical Campus.

Graduates of the undergraduate program in bioengineering are expected to attain at least one of the following objectives within a few years after graduation:

- 1. Be employed as a professional in the biomedical engineering field or related industry using knowledge and skills obtained in the program.
- 2. Be progressing toward an advanced degree in:
 - a. health sciences or medical school
 - b. graduate school
 - c. business or law school, or other advanced professional programs.

Program Educational Objectives (PEOs) can be found on the department’s website.

Program Delivery

- This is an on-campus program.
- Upper-division major courses will be taught at the Anschutz Medical Campus.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Students can be admitted to the bioengineering major by meeting the incoming freshmen, transfer and Intra-University Transfer (IUT) (p. 63) Admissions guidelines.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

The bioengineering major requirements include three different types of courses: downtown courses, upper-division bioengineering courses, and technical electives.

Downtown Courses; Students must complete all 58 credits of math, biology, chemistry, physics and lower-division bioengineering requirements with a C- or higher prior to transitioning to the Anschutz Medical Campus. Credit for some of these courses may be achieved through high school Advanced Placement (AP) course work and exams, International Baccalaureate (IB) coursework and exams, as well as transfer credit.

Code	Title	Hours
Mathematics		
MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 2421	Calculus III	4
MATH 3195	Linear Algebra and Differential Equations	4
Biology		
BIOL 2010	Organisms to Ecosystems (Gen Bio)	3
BIOL 2011	Organisms to Ecosystems Lab (Gen Bio)	1
BIOL 2020	Molecules to Cells (Gen Bio)	3
BIOL 2021	Molecules to Cells Lab (Gen Bio)	1
Chemistry		
CHEM 2031	General Chemistry I	3
CHEM 2038	General Chemistry Laboratory I	1
CHEM 2061	General Chemistry II	3
CHEM 2068	General Chemistry Laboratory II	2
CHEM 3411	Organic Chemistry I	4
CHEM 3418	Organic Chemistry Lab I	1
Physics		
PHYS 2311	General Physics I: Calculus-Based	4
PHYS 2321	Intro Experimental Phys Lab I	1
PHYS 2331	General Physics II: Calculus-Based	4
PHYS 2341	Intro Experimental Phys Lab II	1
Other Courses		
ENGR 1200	Fundamentals of Engineering Design Innovation	3
BIOE 1020	Bioengineering Design and Prototyping II	3
BIOE 2010	Introduction to Programming for Bioengineers	2
BIOE 2020	Introduction to Computational Methods for Bioengineers	2
Upper-Division Bioengineering ¹		
BIOE 3010	Bioinstrumentation	3
BIOE 3020	Introduction to Biomechanical Analysis	3
BIOE 3030	Introduction to Biomaterials	3
BIOE 3040	Physiology for Bioengineering	3
BIOE 3050	Cell & Molecular Bioengineering	3
BIOE 3051	Cell & Molecular Bioengineering Lab	1

BIOE 3060	Biostatistics, Measurement and Analysis	3
BIOE 3070	Bioengineering Lab I	3
BIOE 3071	Bioengineering Lab II	3
BIOE 3090	Introduction to BioDesign	3
BIOE 4035	Undergraduate BioDesign II	3
BIOE 4045	BioDesign III	3
Bioengineering Technical Electives		
Select 12 credit hours		12
Option I - Approved Technical Electives (p. 245)		
Option II - Petition Courses (p. 245)		
Total Hours		104

¹ Upper-division major classes will be taught at the Anschutz Medical Campus. These classes build upon the downtown coursework and provide the next level of instruction in bioengineering. Student can enroll in these courses once they have completed the downtown courses with a C- or higher and are in good academic standing.

Bioengineering Technical Electives Guidelines

Bioengineering students are required to take 12 credit hours of technical electives to complete their undergraduate degree. Technical electives are upper-division (3000 or 4000-level) or graduate (5000+) bioengineering courses taken after matriculation to the pre-bioengineering major. Students are responsible for meeting all prerequisites for technical electives.

Students may select any combination of approved BIOE courses for technical electives or by petition, which requires approval from the Bioengineering Undergraduate Affairs Committee. Petitions are required for selecting a BIOE course not currently approved or to take more than three credit hours of non-bioengineering courses.

Option I - Approved Technical Electives

Students may select any combination of approved Bioengineering (BIOE) courses and up to three credit hours of non-bioengineering courses.

Code	Title	Hours
BIOE 4XXX-5XXX		3
BIOE 4XXX-5XXX		3
BIOE 4XXX-5XXX		3
BIOE 4XXX-5XXX or approved non BIOE 4XXX-5XXX		3

BS/MS students are required to take BIOE 5010 Cell and Molecular Biology for Bioengineers or BIOE 5011 Systems Physiology for Bioengineers and BIOE 5020 Analytics and Machine Learning in Bioengineering as 6 of the 12 credits that apply as Technical Electives and MS coursework.

Code	Title	Hours
BIOE 5010	Cell and Molecular Biology for Bioengineers	3
or BIOE 5011	Systems Physiology for Bioengineers	
BIOE 5020	Analytics and Machine Learning in Bioengineering	3
BIOE 4XXX-5XXX		3
BIOE 4XXX-5XXX or approved non-BIOE 4XXX-5XXX		3

Option II - Petition Courses

Students may petition to have up to 6 credit hours of non-bioengineering courses (upper division) for technical electives. (CHEM, MATH, BIOL, MECH, ELEC).

Code	Title	Hours
BIOE 4XXX-5XXX		3
BIOE 4XXX-5XXX		3
Non-BIOE 4XXX-5XXX		3
Non-BIOE 4XXX-5XXX (must petition a second non-BIOE course)		3

Students may also petition to have a non-bioengineering course added to the approved list by submitting a current syllabus as part of the petition process.

Approved Bioengineering Technical Electives

Code	Title	Hours
BIOE 4039/5039	Mechatronics and Embedded Systems (Fall)	3
BIOE 4053/5053	Optics and Microscopy in Biomedical Research (Spring)	3
BIOE 4054	Regulatory Affairs (Fall)	3
or BIOE 5054	Regulatory Affairs	
BIOE 4057/5057	Rehabilitation and Assistive Technology (Fall)	3
BIOE 4063/5063	3D Modeling for Bioengineers (Fall)	3
BIOE 4064/5064	Advanced MatLab For Bioengineers And Life Scientists (Fall)	3
BIOE 4067/5067	Human Factors and Usability Testing for Bioengineers (Spring)	3
BIOE 4068/5068	Introduction to Medical Imaging	3
BIOE 4069/5069	Advanced Biomechanics for Undergraduates (Fall)	3
BIOE 4073/5073	Neural Interfaces and Bionic Limbs	3
BIOE 4083/5083	Polymers in Biomedical Applications (Spring)	3

Special Topics

Code	Title	Hours
BIOE 4420/5420	Special Topics in Bioengineering (Intro to Design, Disability and Aging (Spring))	1-3
BIOE 4420/5420	Special Topics in Bioengineering (Medical Device Life Cycle (Spring))	1-3
BIOE 4420/5420	Special Topics in Bioengineering (Bioengineering Design Hack for Global Health (Winterim))	1-3

Note: Special Topics offerings can change each semester. Review Course offerings on UCD Access for current offerings. All BIOE 4420 Special Topics in Bioengineering/BIOE 5420 Special Topics in Bioengineering courses can apply towards Technical Electives.

Internship/Independent Study/Research

Code	Title	Hours
BIOE 3939	Undergraduate Internship	1-6
BIOE 4840	Independent Study in Bioengineering	1-6
BIOE 4929	Undergraduate Research Project ¹	1-6

¹ Student can utilize no more than 3 credits hours of combined research and independent study towards technical electives.

Graduate

Code	Title	Hours
BIOE 5010	Cell and Molecular Biology for Bioengineers (Fall)	3
BIOE 5011	Systems Physiology for Bioengineers (Spring)	3
BIOE 5020	Analytics and Machine Learning in Bioengineering (Fall) ¹	3
BIOE 5021	Numerical Methods for Engineering Analysis (Spring)	3
BIOE 5420	Special Topics in Bioengineering (Stem Cell and Regenerative Medicine (Fall))	1-6
BIOE 5420	Special Topics in Bioengineering (Graduate Biodesign (Fall))	1-6

¹ Required for BS/MS students. Students can choose to take BIOE 5010 Cell and Molecular Biology for Bioengineers or BIOE 5011 Systems Physiology for Bioengineers.

Approved Non-Bioengineering Technical Electives

Code	Title	Hours
BIOL 3832	General Genetics	3
BIOL 3244	Human Anatomy	5
BIOL 3611	General Cell Biology	3
BIOL 3763	Biostatistics	4
BIOL 4644	Advanced Human Anatomy Laboratory	2
BIOL 5024	Introduction to Biotechnology	3
CHEM 3810	Biochemistry	4
CHEM 3421	Organic Chemistry II	4
CHEM 4810	General Biochemistry I	3
CSCI 3412	Algorithms	3
CSCI 3508	Introduction to Software Engineering	3
CSCI 4287	Embedded Systems Programming	3
ELEC 3030	Electric Circuits and Systems	3
MATH 4650	Numerical Analysis I	3
MECH 4020	Biomechanics	3
MECH 4025	Advanced Biomechanics	3
MECH 4175	Finite Element Analysis in Machine Design	3

Website: [ucdenver.edu/civil/](http://www.ucdenver.edu/civil/) (<http://www.ucdenver.edu/civil/>)

Overview

Mission Statement

The mission of the Department of Civil Engineering:

- deliver high-quality comprehensive degree programs (BS, MS, MEng, PhD) to all of our students at both the undergraduate and graduate levels

- matriculate students who excel in professional practice and leadership and who possess compassion and respect for people of all cultural backgrounds
- teach our classes with excellence, whether in a traditional classroom setting or online
- offer our students state-of-the-art laboratories, equipment and classrooms with the latest technology needed for a complete learning experience
- develop ambitious and innovative research programs involving both faculty and students through funding from federal, state and local sources
- provide supportive mentoring and guidance to our students through teaching, research and advising
- produce students who can work as leading professionals in civil engineering and in many other fields for which civil engineering knowledge can be a foundation

Undergraduate Information

The CU Denver undergraduate civil engineering curriculum places balanced emphasis on five principal areas of civil engineering practice: structures, transportation, environmental, water resources and geotechnical engineering. In each of these areas, the student receives instruction in planning, design and analysis methods. Relevant computing skills are taught early in the program of study and used frequently in subsequent courses. The department also offers undergraduate degrees with industry-backed curriculum in construction engineering and management and construction management.

A minimum of 130 semester hours is required to earn a bachelor of science in civil engineering degree. The bachelor of science in construction engineering and management requires a minimum of 128 semester hours, and the bachelor of science in construction management requires a minimum of 120 semester hours. The department provides advising to help students develop an efficient study plan. The student must satisfactorily complete all the course work in the curriculum, satisfy all university graduation requirements, and maintain at least a 2.0 GPA in the civil engineering courses.

Programs

- Civil Engineering, BS (p. 252)
- Construction Engineering and Management, BS (p. 254)
- Construction Management, BS (p. 255)
- Construction Management Minor (p. 256)

Faculty

Professors:

Yail Jimmy Kim, PhD, Queen's University, Professional Engineer (PEng)-Canada

Wesley Marshall, PhD, University of Connecticut, PE-Connecticut

David C. Mays, PhD, University of California at Berkeley, PE-Colorado, California

Kevin L. Rens, PhD, Iowa State University, PE-Colorado

Associate Professors:

Caroline Clevenger, PhD, Stanford University, PE, RA-Colorado

Arunprakash Karunanithi, PhD, University of Connecticut

Chengyu Li, PhD, Arizona State University; PE-Colorado, North Carolina, New Mexico, Washington; SE-Utah, Arizona, Washington

Assistant Professors:

Moatasseem Abdallah, PhD, University of Illinois at Urbana-Champaign

Heidi Brothers, PhD, University of Cincinnati

Allison Goodwell, PhD, University of Illinois at Urbana-Champaign

Frederick R. Rutz, PhD, University of Colorado, PE-Colorado

Professors Emeriti:

Paul E. Bartlett, MS, University of Colorado, PE-Colorado

Nien-Yin Chang, PhD, Ohio State University, Professional Engineer (PE)-Ohio and Colorado

James C.Y. Guo, PhD, University of Illinois at Urbana-Champaign, PE-Colorado

David W. Hubly, PhD, Iowa State University, PE-Colorado

Bruce N. Janson, PhD, University of Illinois at Urbana-Champaign

Lynn E. Johnson, PhD, Cornell University, PE-Connecticut

Oren G. Strom, PhD, University of Texas at Austin

Civil Engineering (CVEN)

CVEN 1025 - Civil Engineering Graphics and Computer Aided Design (3 Credits)

Introduces microcomputer-based, menu-driven, 2-D and 3-D computer-aided design systems; standard Civil Engineering industry details and some three-dimensional modeling of solid objects; principles on engineering drawing and descriptive geometry with applications specifically geared for civil engineers. Prereq: High School Geometry and Algebra. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 1067 - Introduction to Civil Engineering (1 Credit)

Introduces civil engineering and the many career choices in this broad field. Covers the history of the profession, current civil engineering projects, societal and global implications, technologies used, professional ethics, sustainability, and licensure. Max hours: 1 Credit.

Grading Basis: Letter Grade

CVEN 1800 - Special Topics (1-6 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CVEN 1840 - Independent Study (1-6 Credits)

This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CVEN 2121 - Analytical Mechanics I (3 Credits)

A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311 with a C- or higher and Prereq/Coreq: MATH 2411. Cross-listed with MECH 2023. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2311 with a C- or higher. Prereq/Coreq: MATH 2411.

CVEN 2200 - Computing Methods in Civil Engineering (3 Credits)

Introduces MATLAB computer programming for engineering applications. Students will learn programming concepts such as relational and logical operations, branching statements and loops. They will apply these concepts in the MATLAB platform to write programs to solve several engineering problems. Prereq: CVEN 1025 and MATH 2411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 1025 and MATH 2411 with a C- or higher

CVEN 2212 - Surveying for Construction and Engineering (2 Credits)

Survey observations used by engineers and surveyors using levels and total stations to make sure things are put in the right place and leveled; analysis and adjustment of measured loops, traverses; areas and volumes; methods used in construction; analysis of error sources; and presentation of results. Course includes a required lab section. Max hours: 2 Credits.

Grading Basis: Letter Grade

CVEN 2214 - Surveying for Engineering (1 Credit)

Survey observations used by engineers and surveyors using levels and total stations to make sure things are put in the right place and leveled; analysis and adjustment of measured loops, traverses; areas and volumes; methods used in construction; analysis of error sources; and presentation of results. This course does not include a lab. Max hours: 1 Credit.

Grading Basis: Letter Grade

CVEN 2800 - Special Topics (1-6 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CVEN 2840 - Independent Study (1-6 Credits)

This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CVEN 3111 - Analytical Mechanics II (3 Credits)

A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies; energy and momentum methods for particles, systems of particles and rigid bodies. Prereq: CVEN 2121 or MECH 2023 and MATH 2411 with a C- or better. Cross-listed with MECH 2033. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 or MECH 2023 and MATH 2411 with a C- or better.

CVEN 3121 - Mechanics of Materials (3 Credits)

Mechanical properties of materials, stresses and strains in members subjected to tension, compression and shear, combined stresses, flexural and shearing stresses in beams, deflections of beams, column analysis, principal stresses. Prereq: CVEN 2121 or MECH 2023 and MATH 2411 with a C- or better. Cross-listed with MECH 3043. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 or MECH 2023 and MATH 2411 with a C- or better.

CVEN 3141 - Introduction to Structural Materials (2 Credits)

To learn the fundamental characteristics of structural materials, including steel, concrete, masonry, timber, and composites; to learn how to test structural materials in the laboratory; and to learn how to interpret test data for engineering applications. After completing this course, students are expected to understand the behavior of structural materials and establish necessary background for structural design courses. Prereq or Coreq: CVEN 3121 or MECH 3043. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CVEN 3121 or MECH 3043.

CVEN 3200 - Computational Methods for Civil Engineers (3 Credits)

This course introduces advanced programming and data analysis skills pertinent to the range of civil engineering disciplines. Topics will include numerical methods, statistical analysis, and programming techniques for measurements and data collection. Languages and tools may include Excel, Matlab, Python, and Arduino. Prereq: (IWKS 2300 or ENGR 1100) and (MATH 3800 or CVEN 3611) with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade

Prereq: (IWKS 2300 or ENGR 1100) and (MATH 3800 or CVEN 3611) with a C- or higher.

CVEN 3212 - Plane Surveying For GIS Majors (3 Credits)

This course will present the concepts and practical materials for surveying instruments, survey data collection methods and data processing with applications in GIS. It will cover the shape of the Earth theory, Map projections, Datum, 2D and 3D coordinate transformation methods and coordinate geometry problems. Prereq: MATH 1401 and 2411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 3313 - Fluid Mechanics (3 Credits)

Fundamentals of fluid mechanics. Topics include fluid properties, hydrostatics, the continuity principle, the energy principle, the momentum principle, similitude and dimensional analysis, drag, and friction for laminar and turbulent flow in closed conduits. Prereq: CVEN 2121 or MECH 2023 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023 or CVEN 2121 with a C- or higher

CVEN 3323 - Hydrosystems Engineering (3 Credits)

Civil engineering hydraulics applied to the hydrologic cycle; surface- and groundwater resources; precipitation, streamflow, and groundwater measurements; and basics of reservoir operation, open channel hydraulics, and storm water design. Prereq: CVEN 3313 and ENGR 1100 or IWKS 2300 with a C- or higher. Restriction: Restricted to Civil Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3313 and ENGR 1100 or IWKS 2300 with a C- or higher. Restriction: Restricted to Civil Engineering majors.

CVEN 3401 - Introduction to Environmental Engineering (3 Credits)

Introduces students to the broad field of environmental engineering. Topics include essential chemical, biological, and risk assessment concepts needed for addressing environmental problems. Major unit operations and processes used for treating wastewater and potable drinking water. An overview of technologies used for treating particulate and gaseous air pollutants, managing solid wastes, and remediating hazardous wastes. The course also introduces environmental sustainability, green engineering, life cycle assessment and other systems oriented concepts. Prereq: CHEM 1130 or CHEM 2031 or ENGR 1130 with a C- or better. Cross-listed with CVEN 5401. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 1130 or CHEM 2031 or ENGR 1130 with a C- or better.

CVEN 3414 - Water Supply and Distribution Systems (3 Credits)

Planning and design for potable water supply and distribution. Topics include the civil engineering design process, pressurized pipe networks, pump selection, water demand estimation, surface- and groundwater resources, and reservoir operation. Design project and field trip required. Prereq: CVEN 3313 with a C- or higher. Coreq: CVEN 2200. Restriction: Restricted to Civil Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3313 with a C- or higher Coreq: CVEN 2200 Restriction: Restricted to Civil Engineering Majors

CVEN 3505 - Structural Analysis (3 Credits)

The focus of this course is on the understanding of structural analysis principles and application of techniques. We will build upon topics initiated in prerequisite courses. Topics include: Introduction to loads, structural idealization, analysis of trusses, arches, beams and frames, cables, influence lines, beam deflections, and introductions to matrix analysis and computer-assisted analysis. The course will be fast-paced and mathematically rigorous. Prereq: CVEN 3121 or MECH 3043 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3121 or MECH 3043 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 3602 - Transportation Engineering (3 Credits)

This course will introduce you to the concepts and methods of transportation engineering, planning and management. This course will emphasize traffic engineering. Topics will include vehicle dynamics, traffic flow fundamentals, accident analysis, signal timing, highway capacity analysis, level of service analysis, freeway operations, and evaluation procedures for alternative transportation projects. Prereq: C- or better in MATH 1401 or Junior Standing or instructor permission. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: C- or better in MATH 1401 or Junior Standing or instructor permission

CVEN 3611 - Engineering Statistics (3 Credits)

Covers statistical methods for engineering studies. Topics include common probability distributions, sample design, descriptive statistics, hypothesis testing of one or two populations, tests of discrete versus continuous random variables, analysis of variance, linear and non-linear multiple regression models, non-parametric tests of fit. Prereq: Math 1401 Calculus I and Math 2411 Calculus II. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 and MATH 2411

CVEN 3718 - Geotechnical Engineering I (3 Credits)

Soil formation, phase diagram, soil constituents and behavior, description of soils, classification, clay minerals, compaction, soil improvement, capillarity, shrinkage, swell, collapsible soil, frost action, flow through porous media, and consolidation. Lab experiments, including specific gravity, grain size analysis, liquid and plastic limits, and consolidation, are to be conducted in concert with the lectures. Prereq: CVEN 3121 or MECH 3043 with a C- or higher. Pre or Coreq: CVEN 3313. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3121 or MECH 3043 with a C- or higher Pre or Coreq: CVEN 3313 Restriction: Restricted to Civil or Construction Engineering majors

Typically Offered: Fall, Spring.

CVEN 3800 - Special Topics: 3800 (1-6 Credits)

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 3840 - Independent Study (1-8 Credits)

This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 4000 - Senior Seminar (0 Credits)

Required for all Civil Engineering majors. This course is generally taken the semester of graduation. To complete this course one must complete the fundamentals of engineering exam from the national council of examiners for engineering and surveying, attend any required course meetings, and complete an ethics assignment. Failure to attend the required meeting(s) of this course will delay graduation. Prereq or Coreq:

CVEN 4067. Max hours: 0 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CVEN 4067

Typically Offered: Fall, Spring.

CVEN 4025 - Autocad Civil 3d & Advanced Civil Engineering Graphics (3 Credits)

Lectures target civil engineering industry specific site information modeling software and geospatial industry specific geographical information systems software to elevate students' knowledge of each software to an in-depth understanding. Laboratory exercises will focus on civil drafting and design, producing documentation, and general project workflows. Additional laboratory exercises will focus on geospatial data creation, data management, and cartographic display. Prereq: CVEN 1025. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 1025

CVEN 4067 - Senior Design Projects (3 Credits)

Senior civil engineering students, working in teams, are assigned significant open-ended design problems requiring the synthesis of material learned in previous engineering courses for solution. Design teams work independently under the supervision of a civil engineering faculty member. Prereq: Graduation Agreement and one design course. Co-req: A second design course. Restriction: Restricted to Civil Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4427 or 4565 or 4575 or 4585 or 4602 or 4738 with a C- or higher Coreq: CVEN 4427 or 4565 or 4575 or 4585 or 4602 or 4738

Restrictions: Restricted to Civil Engineering majors.

CVEN 4077 - Engineering Economy (3 Credits)

Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Prereq: Junior standing. Cross-listed with MECH 4147. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to junior standing majors in the College of Engineering, Design and Computing

CVEN 4087 - Engineering Contracts (3 Credits)

Laws met by the practicing engineer, types of contracts, specification writing, laws on contracts, agency, partnership, sales and property, with primary emphasis on rights and duties of the engineer. Prereq: Senior standing. Cross-listed with CVEN 5087. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to senior standing majors in the College of Engineering, Design and Computing

CVEN 4230 - Construction Engineering Systems (3 Credits)

Course provides an introduction to construction engineering management including building mechanical and electrical systems.

Restrictions: Restricted to Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Junior standing or higher.

CVEN 4388 - Site Engineering (3 Credits)

Course introduces the fundamentals of site engineering which require understanding and interpreting landforms, slopes, contour lines, grading, drainage, and earthwork to storm water management, hydrology reports, designing roadways, and street networks. Other topics include designing for ADA and concepts of sustainability in site design. Note: CAD experience is recommended. Cross-listed with CVEN 5388. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 4424 - Field Methods for Sustainable Development: Colombia (3 Credits)

Course will introduce students to international sustainable development in both lab and field work in Colombia, partnering with communities on sustainable development projects across cultures and disciplines both within and outside of engineering, and emphasizing community interaction. Travel fees are required. Note: Personal essay, letter of recommendation, and interview with instructor required. Cross-listed with CVEN 5424. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 4426 - Pipe Network and Sewer Design (3 Credits)

Design of pressurized pipe networks for water supply and sanitary sewers for wastewater collection. Topics include the civil engineering design process, estimation of water and wastewater design loads, and design of pressurized pipe networks and sanitary sewers including pump selection, service reservoirs, lift stations, and relevant software. Design project and field trip required. Prereq: CVEN 3313 and Prereq or Coreq: ENGR 1100 or IWKS 2300 with a C- or better. Cross-listed with CVEN 5426. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3313. Prereq or Coreq: ENGR 1100 or IWKS 2300 with a C- or better.

CVEN 4427 - Storm Water System Design (3 Credits)

This course covers urban watershed analysis, design rainfall and hydrologic losses, flood frequency and design event, rational method for peak runoff prediction, street hydraulic capacity and safety, culvert hydraulics, street inlet collection system, and storm sewer system design and flow analysis. Prereq: CVEN 3323 and senior standing. Restriction: Restricted to Civil Engineering majors. Cross-listed with CVEN 5427. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3323 with a C- or higher Restriction: Restricted to Civil Engineering majors

CVEN 4537 - Numerical Methods for Engineers (3 Credits)

Introduces numerical analysis. Solution of linear and non-linear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: CSCI 1410, MATH 3191 and 3200. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1410, MATH 3191 and MATH 3200 with a C- or higher

CVEN 4565 - Timber Structure Design (3 Credits)

Design of wood roof, wall, and floor systems including beams, columns, trusses, diaphragms and shear walls for vertical and lateral loads.

Connection design, glued-laminated members, plywood, and engineered lumber are incorporated. Prereq: CVEN 3505 and CVEN 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5565. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4575 - Structural Steel Design (3 Credits)

Design of structural steel members and their connections. Prereq: CVEN 3505 and 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4585 - Reinforced Concrete Design (3 Credits)

The course objective is to introduce the students to the principles of structural design in reinforced concrete. The course emphasizes determining loads for structural design and using these loads to design reinforced concrete members. Prereq: CVEN 3505 and 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4590 - Design of Prestressed Concrete (3 Credits)

To learn the basic concepts of analysis and design of prestressed concrete, which is reinforced concrete in which steel is tensioned against the concrete, thereby introducing compression in concrete and hence overcoming the tensile weakness of concrete relative to its compressive strength. Cross-listed with CVEN 5590. Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4591 - Design of Composite Structures (3 Credits)

The objective of this course is to provide engineering students with an overall awareness of the application and design of composite structures. Practical examples are discussed based on theory. Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5591. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4602 - Highway Engineering (3 Credits)

Evaluates alternate highway routes. Discusses highway drainage, finance, maintenance, pavement design, traffic operations and principles of economic analysis. Analyses of the impact of the highway on the environment. Cross-listed with CVEN 5602. Prereq: CVEN 3602 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4612 - Traffic Impact Assessment (3 Credits)

Covers (1) procedures to satisfy state and local requirements for transportation impact studies, (2) methods to perform trip generation, distribution, and traffic assignment for impact analyses, and (3) analysis of transportation impacts on residential communities, mode choice, regional business (downtown or suburban), peak and off-peak travel times, noise, safety, parking and pedestrians. A course project requires students to develop an application of analysis software to a case study area. Prereq: CVEN 3602 with a C- or better. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better.

CVEN 4621 - Highway Capacity Analysis (3 Credits)

Covers the principles and applications of highway capacity analysis for freeways and arterials, ramps and interchanges, weave and merge sections, signalized and unsignalized intersections, roundabouts, pedestrian areas and transit. Emphasis is on level-of-service analysis procedures in the Highway Capacity Manual, although other approaches are also discussed. Additional topics include roadway characteristics, vehicle dynamics, human factors, speed and volume studies, travel time surveys and traffic flow characteristics. Prereq: CVEN 3602 with a C- or better. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better.

CVEN 4719 - Design & Construction of Geosynthetic Soil Structures (3 Credits)

Theory of reinforced soil; Mechanical and hydraulic properties of geosynthetics; Soil-geosynthetic interaction behavior; Design concepts of GRS structures; Design and construction of GRS retaining walls; Design and construction of GRS embankments and slopes; Design and Construction of GRS foundations. Prereq: CVEN 3718 and 4728. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: CVEN 3718 and 4728 with a C- or higher

CVEN 4728 - Geotechnical Engineering II (2 Credits)

Shear behavior and strength, and basic applications of shear strength (such as earth pressure and retaining structures, bearing capacity of footings, and slope stability). Lab experiments, including permeability, direct shear, unconfined compression, and triaxial tests, are to be conducted in concert with the lectures. Prereq: CVEN 3708/3718.

Restriction: Restricted to Civil Engineering majors. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3708/3718 with a C- or higher Restriction: Restricted to Civil Engineering majors

Typically Offered: Fall, Spring.

CVEN 4738 - Intermediate Foundation Engineering (3 Credits)

Applies principles of soil mechanics to the analysis and design of foundations and earth structure. Theories of consolidation, earth pressure, slope stability, and bearing capacity. Studies settlement of structures, shallow and deep foundations, retaining walls and excavations. Cross-listed with CVEN 5738. Prereq: CVEN 3141 and 3718 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3141 and 3718 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4780 - Engineering Geology (3 Credits)

Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Prereq: MATH 2411 and CVEN 2121. Cross-listed with CVEN 5780 and GEOL 4780, 5780. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 and MATH 2411 with a C- or higher

CVEN 4800 - Special Topics (3 Credits)

Supervised study of special topics of interest to students under guidance of instructor. Prereq: Permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 4840 - Independent Study (1-6 Credits)

This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 4939 - Internship (1-3 Credits)

Civil Engineering undergraduate internship. Department consent required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Construction Engineering and Management (CEMT)

CEMT 1000 - Introduction to Construction Management (1 Credit)

Course provides an introduction to the construction industry and project management. Student will learn basic CM terminology, roles and responsibilities associated with a construction project, and construction documents. Max hours: 1 Credits.

Grading Basis: Letter Grade

CEMT 2100 - Construction Management Fundamentals (3 Credits)

This course focuses on introducing the field of construction engineering and management. Topics will include introduction to construction management and work process; drawings; cost estimating; project planning and control; construction operations and job site management; quality and safety management; and building information modeling. Course participants will gain knowledge about construction engineering and management through lectures, exercises, class presentations, projects and group activities. Course includes a field trip to a construction site and guest speakers from the construction industry as the course time allows. Max hours: 3 Credits.

Grading Basis: Letter Grade

CEMT 2300 - Heavy Civil Construction and Equipment (3 Credits)

Course includes an introduction to heavy civil construction equipment, materials, labor and methods. Students will learn to perform comparative cost analysis for owning and operating heavy equipment; and perform the proper selection, applications, utilization and productivity of heavy equipment with the associated labor and logistics. Max hours: 3 Credits.

Grading Basis: Letter Grade

CEMT 3100 - Field Engineering and Management (3 Credits)

se includes an overview of field engineering and management. Students will assess basic design of temporary structures, quality assurance and quality control, and materials testing and processing. Students will learn the fundamentals of soils engineering. Students will be able to apply surveying concepts and generate site layout. Students will learn the basics of safety, accident prevention, risk management, and regulatory compliance on construction sites. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4067 - Construction Senior Capstone (3 Credits)

Students will work in teams to formulate or design a construction project requiring the synthesis of material learned in previous courses. The student teams will establish goals, plan and accomplish tasks, meet deadlines, analyze risk and uncertainty, and demonstrate leadership and management skills. Teams will coordinate and communicate with a range of stakeholders and give final presentations. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4231 - Construction Materials and Methods (3 Credits)

This course serves as an introduction to the primary materials and methods used to construct buildings and infrastructure across the United States, including concrete, wood and steel. Students explore processes related to specifying and installing materials, as well as analyze various material performance characteristics. Students are required to complete lectures, videos and class activities. Students also research and present information on a wide range of materials and construction processes.

Prereq: CEMT 2100 or CVEN 4230. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4232 - Construction Planning and Control (3 Credits)

This course presents knowledge on planning and controlling of construction projects. Students will learn the basics of construction planning to develop work breakdown structure and activity list, estimate activity cost and duration, and identify job logic and precedence relationships. Several scheduling techniques will be presented in this class, including bar chart, network scheduling, uncertainty in scheduling (PERT), limited resources scheduling, resource leveling, line of balance, and time-cost tradeoff analysis. Furthermore, this class will provide knowledge on cash flow analysis and construction control techniques such as Earned Value method. Students will acquire skills on the use of currently available computer scheduling and planning software such as Primavera 6 and Navisworks Manage to create 5D models to visualize sequence of the construction activities. In addition, students will form teams and work on a project throughout the semester to apply the skills that they learn in class. Cross-listed with CVEN 5232. Prereq: CEMT 2100 or CVEN 4230 and a statistics course (MATH 2830, 3800, CVEN 3611, ELEC 3817, or BANA 2010). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230 and a statistics course (MATH 2830, 3800, CVEN 3611, ELEC 3817, or BANA 2010)

CEMT 4233 - Construction Cost Estimating (3 Credits)

This course presents the application of scientific principles to rough and detailed cost estimating for construction. The course starts with an introduction to estimating and how it fits in bid/proposal process and construction management. Quantity take offs, putting costs to those quantities, overhead costs, cost markups and profits; and computerized estimating will be explored. The project includes quantity take and cost estimate for the concrete and metals portion of an actual project. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4234 - Sustainable Construction (3 Credits)

This course will serve as an introduction to major components and technologies used in sustainable design and construction to create healthy, environmentally-sensitive built environments. Content focuses on construction processes, renewable energy systems, healthy buildings, natural and cultural resources, and traditional as well as cutting-edge building techniques. Course participants will gain knowledge about effective sustainable practices through active learning by engaging in case studies, class presentations, and group activities. Numerous guest speakers will share first-hand experience regarding implementation and professional practice of sustainable principles in the real-world. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4236 - Project Management Systems (3 Credits)

Address the basic nature of managing projects and the advantages and disadvantages to this approach. Introduce the characteristics, techniques, and problems associated with initiating, planning, executing, controlling, and closeout of projects. Learn about the International Standards of PM and how to use them. Develop a management perspective about projects to help develop future project managers. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CEMT 4239 - Introduction to Temporary Structures and Construction Engineering (3 Credits)

This course will introduce the many types of temporary structures that are integral in the completion of construction projects. The temporary structures to be discussed include but are not limited to formwork, falsework, scaffolding, Support of Excavation (SOE), and equipment bridges. Construction Engineering will also be introduced including the application of structural engineering to crane picks and demolitions. The course includes planning, management and design aspects. The project includes the delivery of a formwork design that stresses the importance of constructability, cost, while providing updates throughout the project to the instructor. Cross-listed with CEMT 5239. Prereq: CEMT 2100 with a C- or better and junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 with a C- or better and junior standing or higher.

CEMT 4240 - Building Information Modeling (BIM) (3 Credits)

Building Information Modeling is an advanced approach to facility design and construction using object-oriented 3-D models. It can be integrated in the design and construction for analytical purposes, including design, visualization, quantity takeoff, cost estimating, planning, and facility management. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4242 - Construction Safety (3 Credits)

This course is a study of safety practices in the construction industry and the specific safety procedures used in safety management of a construction project. Topics include safety risks inherent in construction projects, the roles of government, the judicial system, the insurance industry, designers and project owners in safety management and the economic impact of injuries. Advanced topics include safety risk quantification and analysis, design for safety and emerging technologies. Prereq: CEMT 2100 or CVEN 4230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230.

CEMT 4939 - Internship (1-6 Credits)

Construction Engineering and Management Internship. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Civil Engineering, BS

Introduction

Please click [here](#) (p. 246) to see Civil Engineering department information.

The objectives of the bachelor of science in civil engineering program are to produce graduates who:

- are able to perform the technical analyses and design tasks of entry-level civil engineers
- can successfully work toward professional engineering licensure
- communicate effectively, both orally and in writing
- understand the importance of leadership skills, team building and ethical practice
- value lifelong learning and improvement through graduate degrees or professional study

- appreciate the importance of community involvement and social contribution civil engineers are dedicated to improving our living environment

Civil engineering offers an interesting and challenging career in the design, construction, and maintenance of buildings and urban infrastructure; in transportation systems, including highways, airports, rapid transit lines, railroads, and harbor facilities; in the development of water resources, including reservoirs for storage, canals for irrigation, dams for power generation, stormwater management for drainage, groundwater recharge for contamination prevention, wastewater treatment for environmental protection, and water purification for drinking purposes; in the construction industry; including foundations, bridges, concrete and steel structures, in problems concerned with environmental preservation; and in the sustainable development of cities. In preparing for work in such a broad field, the civil engineering student studies mathematics, basic science, communication, social science and humanities, engineering science and civil engineering design. CU Denver's civil engineering graduates usually find their first professional employment with consulting engineering firms, government agencies and various industries.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CVEN courses attempted.

Construction Engineering and Management, BS

Introduction

Please click here (p. 246) to see Civil Engineering department information.

The construction engineering and management bachelor of science offers the rigors of engineering problem-solving and design with business and management courses, coupled with construction engineering and management courses. Students receive an innovative interdisciplinary education that combines coursework in engineering, construction, business and architecture.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

MATH 3800	Probability and Statistics for Engineers	
ELEC 3817	Engineering Probability and Statistics	
BANA 2010	Business Statistics	
Electives		

Select 11 credits of elective courses in math, science, architecture, business, engineering, construction or technical communication. 11

Total Hours 120-122

¹ Could earn a minor in Entrepreneurship by taking 2 additional ENTP courses as technical electives

Note

Up to two 5000-level CEMT or CVEN courses may be applied to a civil engineering master's degree.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cedc/>).

Construction Management Minor Introduction

Please click here (p. 246) to see civil engineering department information.

Construction management involves the design, planning and management of the construction, maintenance and disposal of the built environment. This includes buildings, transportation systems, utilities and commercial, industrial, residential and environmental projects. Examples include highways, bridges, airports, buildings, dams, reservoirs, light and high-speed rail systems, hospitals, laboratories, residential communities, utilities and environmental restoration projects.

The construction management minor is designed for CU Denver undergraduates in engineering, architecture, business and other related disciplines who want to grow their skills and expertise in the fields of construction and engineering. The curriculum has been developed with the encouragement and review of a team of industry professionals and allows students to learn skills to facilitate entry into the construction industry.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 63) to go to information about declaring a major/minor.
- To enroll in the construction management minor, complete the top portion of the Construction Management Minor Coursework form. Email the form to civilengineering@ucdenver.edu or bring it to the Department of Civil Engineering office, located in North Classroom 3037.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- All courses must be taken in residence CU Denver (no transfer hours). A minimum 2.0 GPA is required for courses applied to this minor with no individual course grade below C- (1.7).

Code	Title	Hours
CEMT 2100	Construction Management Fundamentals	3
CEMT 4232/5232	Construction Planning and Control	3
Select one of the following		3-6
CEMT 4231/5231	Construction Materials and Methods	
ARCH 3130 & ARCH 3430	Construction Practices: Material and Structural Systems and Construction Practices: Building Envelope	
CEMT Electives		
Select one of the following		3
CEMT 2300	Heavy Civil Construction and Equipment	
CEMT 3100	Field Engineering and Management	
CEMT 4233/5233	Construction Cost Estimating	
CEMT 4234/5234	Sustainable Construction	
CEMT 4240/5240	Building Information Modeling (BIM)	
CEMT 4242/5242	Construction Safety	
CEMT 4236/5236	Project Management Systems	
or		
MGMT/ISMG 4900	Project Management and Practice	
Another CEMT 3000 level or above, by permission only		
Total Hours		12-15

Note: Students may take two 5000-level CEMT courses and later apply them to CEM master's degree.

Computer Science and Engineering

Chair: Gita Alaghband

Overview

Mission Statement

With the advances in technology and the rapid and prevalent growth of the information-based economy, computer science has become an enabling science for nearly all disciplines that impact engineering, science, business, health and government. The future of the discipline promises even more innovative advances. The Department of Computer Science and Engineering at the University of Colorado Denver is committed to providing outstanding education and research training to our diverse undergraduate and graduate students for productive

careers in industry, academia and government in the Denver metropolitan area, state and beyond. Our faculty strive for excellence in teaching, research and service by covering a broad spectrum of the discipline's core fundamentals, as well as applied aspects including those of interdisciplinary nature. We actively engage our students in classroom and out-of-classroom research and help them develop the skills needed to solve complex real-world technological problems of modern society.

Undergraduate Information

Computer Science Program

Computers as a combination of software and hardware have become significant to the whole of society. They affect the way in which business is conducted and the way people study and learn. Very important is the use of computers to develop new avenues of human communication, interaction and cooperation. Communication networks and the combination of text with audio and video are providing more people with fingertip access to a vast array of information and knowledge.

The computer scientist is a professional who must be prepared to apply his or her skills, knowledge and creativity in a rapidly changing field. The computer science program at CU Denver prepares students for such creative work. The emphasis is on fundamental concepts and basic principles with a long useful life. The program is composed of five major study areas: mathematics, basic or engineering science, required computer science, technical electives and the CU Denver core curriculum.

Bachelor of Science in Computer Science Curriculum

The mathematics, basic science and computer science core requirements give the student a broad exposure to the concepts, methods and practice of computer science and engineering; the student learns the fundamentals of producing solutions to problems.

Technical electives are chosen to add depth to a student's knowledge in an area of special interest.

The CU Denver undergraduate core curriculum is designed to give the student an exposure to knowledge outside his or her major. For students in the College of Engineering, Design and Computing, courses in the humanities, social sciences and human communications are required.

To be awarded the bachelor of science in computer science, a student must satisfactorily complete all course work shown in the curriculum below, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all computer science courses attempted (see "Policy on Academic Progress" in the introductory section of this chapter). Students must meet with an undergraduate advisor each semester to assure that they are on track within the degree program and are aware of the current requirements of the program. An additional source of information is the CS Undergraduate Advising Handbook available online on the department's website. Students must complete a 30-hour checkout before registering for the last 30 semester hours of their program. In addition, each student must complete an approved graduation plan within the academic year of their intended graduation date. For advising policies, see the BS-CS handbook on our website.

The bachelor of science in computer science program is accredited by the Computing Accreditation Commission (CAC) of ABET.

Note: Prerequisites must be taken before a course that requires them and be completed with a grade of C- or better. Co-requisites are to be taken concurrently. Prerequisites will be strictly enforced.

Computer Science Scholars Program: Dual BS/MS

The Computer Science (CS) Scholars Program provides high-performing and motivated undergraduate students the opportunity to begin graduate work at the master's level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 hours of graduate-level computer science courses for both the Bachelor of Science (BS) and the Master of Science (MS) degree. This accelerates the time to obtain a graduate degree for the student, saving both time and expense.

Program Guidelines

Students admitted into the CS Scholars Program will be allowed to take 5000-level courses in computer science while still completing their undergraduate degree in computer science. CS Scholars are allowed to apply up to 12 credit hours (4 courses) of 5000-level courses toward both their BS degree in computer science, as technical electives, and their MS degree in computer science.

The following guidelines are applied to students in the BS Scholars Program:

- Dual credit CSIS 5000-level courses must be taken at CU Denver and must be courses selected from category A or B as required by the MS degree in computer science (outlined in the CU Denver computer science Graduate Handbook).
- Students must score a B- or higher in their 5000-level computer science courses for the course to be applied toward the MS degree. A passing grade below a B- will contribute to the BS degree requirements, but not to the MS degree requirements.
- Students cannot apply more than 12 credit hours of graduate coursework to the MS degree taken prior to the completion of the BS degree.
- Students must apply for the CS Scholars Program before their final year of courses to receive dual credit for 5000-level courses. Students will be considered undergraduate students until all requirements for the BS degree in computer science are completed.
- The BS degree will be conferred the semester during which these requirements are completed. At that time, students will also be considered an MS student. Students then continue to fulfill the remaining requirements for their MS degree in computer science (thesis option or project option or course only option). CS Scholars are expected to finish their MS degree in 2 semesters upon completion of their BS degree (course only option), plus a summer session for students pursuing an MS project or thesis.

Admission Requirements

- Must be a full-time undergraduate student in computer science at CU Denver in good standing, with a minimum of 60 credit hours completed toward the BS degree in computer science, and must have completed CSCI 3412 Algorithms, CSCI 3453 Operating System Concepts, and CSCI 3287 Database System Concepts.
- Must have a minimum cumulative GPA of 3.3 or a 3.5 GPA in CS major coursework.

- Must complete an application to the CS Scholars Program, including a dual degree course plan. The application must be approved by the student's CS academic advisor and submitted to the CS department.
- Must apply and be accepted into the CU Denver MS program in computer science for the semester during which they will enter the CS Scholars Program dual-credit program.

Bachelor of Arts Computer Science Curriculum

The mathematics, basic science, computer science core requirements and computer science technical electives give the students a solid foundation in computer science; the student learns the fundamentals of computational thinking.

Students are encouraged to focus their free electives towards their area of interest to earn a certificate, minor or double major. The bachelor of arts in computer science is modeled as CS+X where X is a component of the degree consisting of 38 credit hours that students can use to pursue their passion in a different field toward a minor, double major, or even additional CS education. The program shares the same computer science courses as the BS in CS with fewer math and CS requirements. Students can use the 38 credits of free electives in fields such as graphic design, mechanical engineering, marketing, biology, physics, architecture, entrepreneurship, business, communications and any other subject offered at CU Denver. The program is composed of five major study areas: mathematics, basic science, required computer science, technical electives, free electives and the CU Denver core curriculum.

The CU Denver undergraduate core curriculum is designed to give the student an exposure to knowledge outside his or her major. For students in the College of Engineering, Design and Computing, courses in the humanities, social sciences and human communications are required.

To be awarded the bachelor of arts in computer science, a student must satisfactorily complete all course work shown in the curriculum below, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all computer science courses attempted (see "Policy on Academic Progress" in the introductory section of this chapter). Students must meet with an undergraduate advisor each semester to assure that they are on track within the degree program and are aware of the current requirements of the program. An additional source of information is the BA-CS Undergraduate Advising Handbook available online on the department's website. Students must complete a 30-hour checkout before registering for the last 30 semester hours of their program. In addition, each student must complete an approved graduation plan within the academic year of their intended graduation date. For advising policies see BA-CS Handbook.

Note: Prerequisites must be taken before a course that requires them. Co-requisites are to be taken concurrently. Prerequisites will be strictly enforced.

Computer Science Scholars Program: Dual BA/MS

The Computer Science (CS) Scholars Program provides high-performing and motivated undergraduate students the opportunity to begin graduate work at the master's level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 hours of graduate-level computer science courses for both the Bachelor of Arts (BA) and the Master of Science (MS) degree. This accelerates the

time to obtain a graduate degree for the student, saving both time and expense.

The following guidelines are applied to students in the BA Scholars Program:

- If accepted, students remain in an Undergraduate status until receiving their BA degree, then move into a Graduate status with an intent of completing the MS in Computer Science within a year.
- Students can take up to four graduate courses while in an Undergraduate status.
- Complete the following courses while in undergraduate status including all pre-requisites: CSCI 3453 Operating System Concepts, CSCI 4591 Computer Architecture, MATH 2411 Calculus II and MATH 3195 Linear Algebra and Differential Equations.
- Students must meet with a CS Graduate advisor within a semester of acceptance into the Dual BA/MS Program.
- Students with a prior associates or bachelor degree completing the BACS may apply for the Dual BA/MS Program their last semester.

To apply for the Dual BA/MS Program, students must:

- Be a full-time undergraduate student in computer science at CU Denver in good standing, with a minimum of 60 credit hours completed toward the BACS degree.
- Complete the following courses: MATH 2411 Calculus II, CSCI 3412 Algorithms, CSCI 3453 Operating System Concepts, and CSCI 3287 Database System Concepts.
- Commit to completing the following two courses while in undergraduate status: CSCI 4591 Computer Architecture and MATH 3195 Linear Algebra and Differential Equations.
- Have a minimum cumulative GPA of 3.3 or a 3.5 GPA in CS major coursework.

Undergraduate Certificate in Cybersecurity and Secure Computing

The goal of the undergraduate certificate of Cyber Security & Secure Computing program is to reduce vulnerability in the national information infrastructure by promoting higher education and research to help prepare cyber defense professionals for careers in both the public and the private sector. The curriculum of this certificate has been created to meet all criteria of NICE (National Initiative for Cybersecurity Education) undergraduate level of certification.

Certificate Objectives

This certificate program focuses on both the technical and analytical aspects of advanced cyber security and defense.

Program Objectives

- Master the fundamental concepts of cyber security principles and techniques.
- Learn about potentials for cyber security threats and attacks.
- Master cyber-defense tools, methods, and components to secure systems.
- Learn how to take appropriate measures should a system compromise occur.
- Learn principles and practices for secure computing

Learning Outcomes

- Be able to describe and apply the fundamental concepts of cyber security principles and techniques.
- Be able to analyze potential cyber threats and attacks.
- Be able to use cyber defense tools, methods, and components to properly secure systems.
- Be able to effectively and quickly evaluate and mitigate if systems are threatened or compromised.

Certificate Eligibility

Current students in good standing in an undergraduate computer science program (BA or BS), and those completing their minor in computer science are eligible. Applications from other CU Denver majors or non-degree students will be evaluated based on their current transcript. The student's application is subject to the approval of the computer science and engineering department chair.

Students planning to pursue a Cybersecurity & Secure Computing Certificate in Computer Science and Engineering should apply as early as possible to facilitate course planning, and no later than census date of the semester prior to graduation with their undergraduate degree.

Process to Attain Certificate Objectives

The following classes need to be taken with a grade of C- or better:

Code	Title	Hours
CSCI 3761	Introduction to Computer Networks	3
CSCI 3453	Operating System Concepts	3
CSCI 4034	Theoretical Foundations of Computer Science	3
CSCI 4741	Principles of Cybersecurity	3
CSCI 4743	Cyber and Infrastructure Defense	3
Total Hours		15

Students must take and pass each course with a grade of C- or better. The Cybersecurity & Secure Computing Certificate requires a minimum cumulative GPA of 2.0.

Programs

- Computer Science, BA (p. 269)
- Computer Science, BS (p. 271)
- Computer Science Minor (p. 272)
- Cybersecurity and Secure Computing Undergraduate Certificate (p. 273)

The Department of Computer Science and Engineering offers BA, BS, MS, and PhD degrees, as well as a minor and several certificates:

- The undergraduate BS degree (p. 271) is awarded in computer science (CS) and is ABET accredited. This curriculum is a rigorous study covering theoretical, software, systems and hardware interfaces providing students with a coherent and in-depth education of key components of the field.
- The **Computer Science Scholars Program** (dual BA/MS or BS/MS) provides high-performing and motivated undergraduate students the opportunity to begin course work at the graduate level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 credits of graduate-level CS courses for both the bachelor of science (BS)/bachelor of arts (BA) and the master of science (MS).

- The undergraduate BA degree (p. 269) is awarded in computer science (CS). It offers a flexible degree program designed with a modular approach that allows students to combine their computer science education with another academic field of their interest.
- The undergraduate certificate of Cybersecurity & Secure Computing (p. 273) is designed for students pursuing an undergraduate degree and will help prepare to be cyber defense professionals for careers in both the public and the private sector.
- The **MS degree** is awarded in computer science to those students who wish to pursue graduate studies to further develop their education. The MS in CS graduate program covers the core knowledge of key concepts of computer science as well as offers flexibility to pursue specializing in various fields of interests.
 - A track in **Data Science in Biomedicine** is offered as a MS thesis option. Students who choose this track will adopt biomedical applications of data science to learn data science methodologies and technologies.
- The **graduate certificate in software engineering** is designed for working professionals, or computer science students beginning their careers, who are in the field of software engineering and/or software development.
- The **graduate certificate in cybersecurity & defense** is designed for working professionals in the field of computer science, network and/or security operations. The certificate program in Cyber Security and Defense will prepare Computer Science professionals to identify, analyze, and mitigate technical cybersecurity-related vulnerabilities, exploits and attacks against network and critical cyber infrastructure.
- The **Computer Science and Information Systems (CSIS) PhD** is awarded by the College of Engineering, Design and Computing.
- The multidisciplinary **Engineering and Applied Science PhD** degree is available through the Department of Computer Science and Engineering.
- Any undergraduate student currently enrolled in a CU Denver degree program with a major other than computer science may earn a minor in computer science (p. 272). This includes students from the College of Engineering, Design and Computing, the College of Liberal Arts and Sciences, the School of Public Affairs, the College of Arts & Media, and the School of Education & Human Development.

The most up-to-date information on all programs offered through the computer science and engineering department can be obtained from the department's website at engineering.ucdenver.edu/cse (<http://engineering.ucdenver.edu/cse/>). Please also see our Graduate Catalog for more details regarding these programs.

Faculty

Professors:

Gita Alaghband, PhD, University of Colorado

Research areas: parallel and distributed systems, parallel algorithms, applications and languages, high-performance computing

Tom Altman, PhD, University of Pittsburgh

Research areas: algorithms, optimization, theory

Min-Hyung Choi, PhD, University of Iowa

Research areas: computer graphics, animation, virtual reality, human computer interface

Douglas Sicker, PhD, University of Pittsburgh

Research areas: cybersecurity and wireless systems

Professor (Clinical Teaching Track):

Dave Ogle, PhD, Ohio State University

Research areas: networks

Associate Professors:

Ellen Gethner, PhD, University of British Columbia; PhD, Ohio State University

Research areas: graph theory, number theory, combinatorics, discrete geometry, computational geometry, visualization, algorithms

Ilkyeun Ra, PhD, Syracuse University

Research areas: computer networks, cloud computing, high-performance computing, distributed computing systems

Assistant Professors:

Mazen Al Borno, PhD, University of Toronto

Research areas: health technology, computational models of human movement for applications in motor neuroscience, rehabilitation, wearable technology and robotics

Farnoush Banaei-Kashani, PhD, University of Southern California

Research areas: big data management, big data mining, data science, geospatial data analysis, data stores (NewSQL)

Ashis Biswas, PhD, University of Texas at Arlington

Research areas: machine learning, data mining, big data analysis, bioinformatics

Liang He, PhD, Nankai University

Research areas: cyber-physical systems, cognitive battery management, IoTs, mobile computing

Haadi Jafarian, PhD, University of North Carolina Charlotte

Research areas: proactive security for cyber threats, big data analytics for cyber threat intelligence, security for cyber-physical systems & critical infrastructures, security for IoTs, security analytics & automation, science of security

Zhengxiong Li, PhD, SUNY Buffalo

Research areas: Internet of Things, cybersecurity, emerging technologies and applications

Assistant Professors (Clinical Teaching Track):

Madhuri Debnath, PhD, University of Texas at Arlington

Research areas: data mining, spatio-temporal data analysis, data science, machine learning

Salim Lakhani, PhD, Purdue University

Research areas: cloud computing and security, distributed computing & database systems

Senior Instructors (Clinical Teaching Track):

Diane Yoha, MS, University of Colorado Denver

Research areas: artificial intelligence, linguistic geometry, natural language processing

Professors Emeriti:

Boris Stilman, PhD, National Research Institute for Electrical Engineering, Moscow, Russia

Computer Science (CSCI)

CSCI 1001 - Computer Forensics I (3 Credits)

Topics covered: how to conduct a computer forensic exam; how an individual can hide data on a computer; how the investigator can find that hidden data. This course will also incorporate hands-on learning through the use of a forensic software package. (Non-CS majors) Max Hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 1350 - Introduction to Computing in Society (3 Credits)

This is an introductory course for individuals who would like to learn about the field of computer science, how modern computing is affecting society, and the basics of computer programming. We will explore how computing has changed society, how intertwined in our daily lives computer programs have become, and how these programs are created. We will explore these topics while learning the basics of computer programming with a modern programming language. Prereq: High School Algebra. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Math.

CSCI 1410 - Fundamentals of Computing (3 Credits)

First course in computing for those who will take additional computer science courses. Covers the capabilities of a computer, the elements of a modern programming language, and basic techniques for solving problems using a computer. Coreq: CSCI 1411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: CSCI 1411.

CSCI 1411 - Fundamentals of Computing Laboratory (1 Credit)

This laboratory is taken with CSCI 1410 and will provide students with additional help with problem solving and computer exercises to compliment the course material covered in CSCI 1410. Coreq: CSCI 1410. Max Hours: 1 Credit.

Grading Basis: Letter Grade

D-En CO: CSCI 1410 coreq

CSCI 1510 - Logic Design (3 Credits)

The design and analysis of combinational and sequential logic circuits. Topics include binary and hexadecimal number systems, Boolean algebra and Boolean function minimization, and algorithmic state machines. Lecture/lab includes experiments with computer-aided design tools. This course requires the level of mathematical maturity of students ready for Calculus I. Max hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 1800 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CSCI 2002 - Computer Forensics II (3 Credits)

This is a continuation of CSCI 1001 This course will cover: computer forensics for advanced operating systems (Mac, Linux, and Unix) and mobile device forensics. This course will incorporate hands-on-learning by utilizing a computer forensics software package. (Non CS majors) Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1001

CSCI 2132 - Circuits and Electronics (3 Credits)

This course is designed to serve as the basic course in CSE curriculum for second year bachelor students. It introduces the fundamentals of the analog and digit circuit abstraction and applications. Topics include: resistive elements, networks, sources, switches, MOS transistors, digital abstraction, amplifiers, energy storage elements. A web-based laboratory will allow students to have hands-on experiments. Prereq: MATH 2411, PHYS 2331, and CSCI 1510. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1510, MATH 2411, and PHYS 2331

CSCI 2312 - Object Oriented Programming (3 Credits)

Programming topics in a modern programming language. The emphasis is on problem solving using object oriented and Generic Programming. Topics include advanced I/O, classes, inheritance, polymorphism and virtual functions, abstract base classes, exception handling, templates, and the Standard Template Library. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411

CSCI 2421 - Data Structures and Program Design (3 Credits)

Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion.

Programming exercises are assigned through the semester. Prereq: CSCI 2312 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2312 with a grade of C- or higher.

CSCI 2511 - Discrete Structures (3 Credits)

Covers the fundamentals of discrete mathematics, including: logic, sets, functions, asymptotics, mathematical reasoning, induction, combinatorics, discrete probability, relations and graphs. Emphasis on how discrete mathematics applies to computer science in general and algorithm analysis in particular. Prereq: MATH 1401 with a C- or higher (Calculus I). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher

CSCI 2525 - Assembly Language and Computer Organization (3 Credits)

Topics include computer architecture, program execution at the hardware level, programming in assembly language, the assembly process, hardware support of some high-level language features, and a program's interface to the operating system. Programming exercises are assigned in this course. These exercises involve the use of specific hardware in designated laboratories. Prereq: Grade of C- or higher in the following courses: CSCI 1410, CSCI 1411 and CSCI 1510. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410, CSCI 1411 and CSCI 1510.

CSCI 2571 - Fundamentals of UNIX (3 Credits)

Introduces the UNIX operating system and its family of related utility programs. History and overview, versions, and common features. File operations, utilities, shells, editors, filters and data manipulation. Shell programming communications and networking, windowing environments, mail and Internet. Programming tools. Simple system administration.

Credit will not count toward BSCSE degree. Prereq: Familiarity with operating systems and/or a programming course. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 2800 - Special Topics (3 Credits)

Max Hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 2930 - Practical System Administration (3 Credits)

Introduces students to essential system administration topics including, but not limited to, IT design and configuration methodologies, desktop support, building and configuring production level servers, network technologies and troubleshooting, security, virtualization, storage, and server operating systems. Prereq: CSCI 1410 or an equivalent introductory computer programming course. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1410

Typically Offered: Fall, Spring.

CSCI 2940 - NAND to Tetris: Foundations of Computer Systems (3 Credits)

Introduces the principles of computer systems that underlie the global information age. Starting from first principles, students gradually construct a simple hardware platform and a modern software hierarchy, yielding a working basic yet powerful computer system. Only introductory programming experience is required. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 3300. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 2941 - Game Design and Development I (3 Credits)

Introduces principles of computer game development, building on the rich interplay of computer science, graphics design, physics, music, and narrative. Students develop interactive 2D and 3D games and a final project. Substantial software development involved, but requires only introductory programming experience. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 3400. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 2942 - IoT: The Internet of Things (3 Credits)

In a world where everything is connected to everything else, how does that work? This course introduces techniques for (1) designing systems that can sense the environment and respond to humans in meaningful ways and (2) creating networks of physical objects that collect and exchange data. Such systems might include wearable sensors, interactive art, and Internet-connected home devices. Working individually and in teams, students will develop projects using Inworks' materials, devices, and fabrication tools. The course involves considerable prototyping and software development but requires only introductory programming and prototyping experience. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 4120. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 3287 - Database System Concepts (3 Credits)

Introduces database design, database management systems, and the SQL standard database language. Includes data modeling techniques, conceptual database design, theory of object-relational and relational databases, relational algebra, relational calculus, normalization and database integrity. Prereq: Grade of C- or higher in the following courses: ENGL 1020, CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: ENGL 1020, CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3320 - Advanced Programming (3 Credits)

The course will cover a wide range of advanced programming topics via focusing on development of cross-platform applications. The focus will be on problem solving and developing applications with modern languages (such as C++, Java, Objective-C) & frameworks, including Xcode, Angularjs (with Javascript, HTML5, CSS), Phonegap, & Webstorm. Prereq: CSCI 2421. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2421 with a C- or higher

CSCI 3412 - Algorithms (3 Credits)

Design and analysis of algorithms. Asymptotic analysis as a means of evaluating algorithm efficiency. The application of induction and other mathematical techniques for proving the correctness of an algorithm. Data structures for simplifying algorithm design, such as hash tables, heaps and search trees. Elementary graph algorithms. Assignments include written work and programming projects. Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and 2511. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and 2511. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3415 - Principles of Programming Languages (3 Credits)

Introduces programming language design concepts and implementation issues. Includes language concepts such as control structures and data types, formal language specification techniques, and syntactic and semantic implementation issues. Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and CSCI 2525. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and CSCI 2525. Restriction: Restricted to undergraduate Computer Science Majors and Minors.

CSCI 3453 - Operating System Concepts (3 Credits)

Covers the principles of computer operating systems and the essential components of an operating system. Topics include: I/O devices, file systems, CPU scheduling and memory management. Prereq: Grade of C- or higher in the following courses: CSCI 3412 and CSCI 2525. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 3412 and CSCI 2525. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 3508 - Introduction to Software Engineering (3 Credits)

Introduces principles and practices of software engineering: software life-cycle models, requirements engineering, analysis and design tools, human factors risk management, program certification, project management and intellectual property rights. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3511 - Hardware-Software Interface (3 Credits)

Hardware and software techniques needed to control and program device interfaces. Input and output devices, computer peripherals, device drivers and interfaces are introduced. Specific programmable devices are used in class projects. Prereq: Grade of C- or higher in CSCI 2525. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2525. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3515 - Internet of Things: Sensing, Communication & Control (3 Credits)

The Internet of Things (IoT) is transforming our physical world into a complex and dynamic system of connected devices on an unprecedented scale. This course covers the basic components of IoT systems: sensing, communication, control, and power supply, as well as case studies on the design of real-world IoT applications, including voice authentication, activity monitoring, and battery management. This course integrates both the theories/science of IoTs and their hands-on implementation, as well as the basic practice of data collection, processing, analysis, and visualization. Prereq: CSCI 2312 & 2421. Restriction: Restricted to Computer Science majors and minors (CSCI-BS, CSCI-BA, and CSCI-MIN). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2312 2421 Restriction: Restricted to Computer science majors and minors (CSCI-BS, CSCI-BA, and CSCI-MIN)

CSCI 3560 - Probability and Computing (3 Credits)

Events and probability. Discrete random variables. Moments of random variables. Conditional probability and expectation. The probabilistic method. Markov chains and random walks. Continuous distributions and the Poisson process. Entropy, randomness and information. Randomized algorithms. Prereq: Grade of a C- or higher in CSCI 2511 and MATH 2411. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of a C- or higher in CSCI 2511 and MATH 2411. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3740 - Computer Security (3 Credits)

Introduces basic knowledge from the computer security area. Topics covered in this course include: Cybersecurity Ethics, Penetration Testing, Secure Programming Practices, and Life-Cycle Security. Students will gain the understanding of ethics in cybersecurity with the tools for ethical decision making, learn methods of exploiting vulnerabilities and perform penetration testing on a simple network, understand the characteristics of secure programming with the ability to implement programs that are free from vulnerabilities, and understand security related concerns in a system Life-Cycle and how security principles can be applied to improve security throughout a system. Prereq: CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3761 - Introduction to Computer Networks (3 Credits)

Introduction and overview of computer networks. Topics include Internet protocols, network devices, network security, and performance issues. Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 3800 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to Computer Science Majors and Minors (CSCS-BA, CSCI-BS, CSCI-MIN, CMSC-MS)

CSCI 3840 - Independent Study: CSCI (1-3 Credits)

Restriction: Restricted to undergraduate Computer Science Majors and Minors. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to undergraduate Computer Science Majors and Minors.

CSCI 3916 - Web API (3 Credits)

JavaScript Web technologies for front-end development and back-end development. Building a full end to end solution with a mobile or web front-end, Web API and NoSQL database. Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors

CSCI 3920 - Advanced Programming with Java and Python (3 Credits)

This course introduces the fundamental concepts to develop programs and projects using modern software engineering techniques using two different programming languages (Java and Python). It will cover and apply pattern design approaches, reusable components driven by everyday needs within many software developments, the relationships between object oriented programming concepts and software design concepts. It will dig deeper into techniques to program single threaded applications as well as advanced techniques to construct concurrent and distributed applications. Prereq: Grade of C- or higher in the following courses: CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors

CSCI 3963 - Network Structures (3 Credits)

This interdisciplinary course examines how the technological, social and economic worlds are connected and how the study of networks sheds light on these connections. Topics include: how opinions spread through society; the robustness and fragility of financial networks; the technology and economics of Web information and on-line communities. Prereq: Grade of C- or higher in MATH 2411. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in MATH 2411. Restricted to Computer Science Majors and Minors.

CSCI 4034 - Theoretical Foundations of Computer Science (3 Credits)

Introduces abstract models for computation, formal languages and machines. Topics include: automata theory, formal languages, grammars and Turing machines. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4110 - Applied Number Theory (3 Credits)

Every year, Topics include divisibility, prime numbers, congruences, number theoretic functions, quadratic reciprocity, special diophantine equations, cryptography, computer security, and engineering applications. Cross-listed with CSCI 5110. Prereq: Grade of C- or higher in one of the following courses: MATH 3000 or CSCI 2511. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in MATH 3000 or CSCI 2511. Restricted to Computer Science Majors and Minors.

CSCI 4172 - Complexity and Problem Solving (3 Credits)

Theoretical and practical aspects of solving complex problems, in particular, but not limited to, NP-complete and PSPACE-complete problems. Various heuristic and approximation algorithms, including greedy, ant, and Genetic Algorithms will be studied. This course is by instructor's permission only. Prereq: Grade of C- or higher in CSCI 4034. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 4034. Restricted to Computer Science Majors and Minors.

CSCI 4173 - Computational Complexity and Problem Solving (3 Credits)
Solid, in-depth theoretical foundation in computing, computational complexity, and algorithmics. Additional topics include various algorithms for both discrete and non-discrete problem domains. Models of Computation, Computational Complexity, Time Complexity Classes, Space Complexity Classes, The Theory of NP-completeness. Prereq: Grade of C- or higher in CSCI 4034. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 4034. Restricted to Computer Science Majors and Minors.

CSCI 4202 - Introduction to Artificial Intelligence (3 Credits)
Topics include heuristic search, games playing algorithms, application of predicate calculus to AI, introduction to planning, application of formal grammars to AI. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4211 - Mobile Computing and Programming (3 Credits)
This course contains two main simultaneous tracks, namely mobile computing and mobile programming. A series of lectures on various aspects of mobile computing provides an understanding of challenges and solutions in design and implementing mobile systems. The main topics include mobile sensing, human mobility and its technical implication. Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4220 - Social Networks & Informatics (3 Credits)
The main topics covered by the course will include 1) social network data structures, 2) basic random graph models and graph algorithms; 3) recommendation systems and predictive models 4) query suggestion and content analysis 5) link analysis and community detection 6) the spread of information, disease, and influence on networks. This course builds a solid foundation in social informatics technology. Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Cross-listed with CSCI 5220. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Programs restricted to: CSCI-BS, CSCS-BA, CSCI-MIN.

CSCI 4287 - Embedded Systems Programming (3 Credits)
Embedded Systems Programming happens across a spectrum of Domains. Embedded Systems Programming in the Small is characterized by the creation of small applications in high volumes. Embedded Systems Programming in the Large is characterized by the creation of medium to large applications in one-off or low volumes using specialized Operating Systems such as Real-time Operating Systems. Students will current languages, and are expected to have basic Operating Systems understanding. Prereq: Graded with C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4408 - Applied Graph Theory (3 Credits)
Introduces discrete structures applications of graph theory to computer science, engineering and operations research. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits. Matching and covering problems, shortest route and network flows. Prereq: Grade of C- or higher in one of the following courses: MATH 3000 or CSCI 2511. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in MATH 3000 or CSCI 2511. Restricted to Computer Science Majors and Minors.

CSCI 4411 - Computational Geometry (3 Credits)
Many practical and aesthetic algorithmic problems have their roots in geometry. Applications abound in the areas of computer graphics, robotics, computer-aided design, and geographic information systems, for example. A selection of topics from convex hull, art gallery problems, ray tracing, point location, motion planning, segment intersection, Voronoi diagrams, visibility and algorithmic folding will be covered. Cross-listed with CSCI 5411. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4455 - Data Mining (3 Credits)
Introduces concepts, techniques and methodologies to discover patterns in data. Topics include (but are not limited to) data preprocessing and cleansing, data warehousing, pattern mining, classification, prediction, cluster analysis, outlier detection, and online data analytics. Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5455. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4501 - Java (3 Credits)
Comprehensive course on Java programming. Coverage of programming language constructs of Java and the core libraries that come with Java: coverage of advanced topics, including technologies for building distributed applications, and interacting with a database. Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restricted to Computer Science Majors and Minors.

CSCI 4551 - Parallel & Distributed Computing (3 Credits)
Examines a range of topics involving parallel and distributed computing. Topics include language constructs for concurrency, work distribution, synchronization, and communication. Throughout, design of example scientific computing algorithms for parallel and distributed computation will be introduced. Prereq: Grade of C- or higher in Math 3195 (or both MATH 3191 and MATH 3200), CSCI 3415 & CSCI 3453. Restricted to Computer Science Majors and Minors. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- or higher in Math 3195 (or both MATH 3191 and MATH 3200), CSCI 3415 CSCI 3453. Restricted to Computer Science Majors and Minors.

CSCI 4555 - Compiler Design (3 Credits)

Introduces the basic techniques used in translating programming languages: scanning, parsing, symbol table management, code generation, code optimization and error recovery. Prereq: Grade of C- or higher in CSCI 3412 and CSCI 3415. Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412 and CSCI 3415. Restricted to Computer Science Majors and Minors.

CSCI 4565 - Introduction to Computer Graphics (3 Credits)

Introduces two and three dimensional computer graphics. Topics include scan conversion, geometric primitives, transformation, viewing, basic rendering, and illumination. Emphasis is on programming using "C" and "C++" Open GL. Pre-req: Grade of C- or higher in CSCI 3412 and (MATH 3191 or MATH 3195). Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5565. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: Grade of C- or higher in CSCI 3412 and (MATH 3191 or MATH 3195). Restricted to Computer Science Majors and Minors.

CSCI 4570 - Virtual and Augmented Reality (3 Credits)

This course covers the fundamental concepts and technologies of virtual and augmented reality, and it introduces recent advances in the field. Topics include 3D user interaction, immersive environments, tele-presence, mobile AR, human perception, and VR/AR applications. Restricted to computer science majors and minors. Pre-requisite: CSCI 3412. Cross-listed with CSCI 5570. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Programs restricted to: CSCI-BS, CSCI-BA, CSCI-MIN.

CSCI 4580 - Data Science (3 Credits)

Introduces concepts and techniques that enable data cycle from data extraction to knowledge discovery, including but not limited to data exploration, hypotheses testing, data organization, data featurization, supervised and unsupervised data modeling and learning, scaling-up analytics, and data visualization. Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors & Minors. Cross-listed with CSCI 5580. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4591 - Computer Architecture (3 Credits)

Deals with how assembly language maps to hardware, and basic hardware techniques implemented in computers. Topics include logic design of arithmetic units, data control path processor logic, pipelining, memory systems, and input-output units. The emphasis is on logic structure rather than electronic circuitry. Students must know basic control logic design and be familiar with an assembly language before taking this course. Prereq: Grade of C- or higher in CSCI 2525. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2525. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4630 - Linguistic Geometry (3 Credits)

Linguistic Geometry (LG) is a type of Game Theory in Artificial Intelligence, which permits to overcome combinatorial explosion and generate optimal strategies in real time. LG is currently changing the paradigm of military command and control in the USA and abroad. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5619. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4640 - Universal Compiler: Theory and Construction (3 Credits)

Theoretical foundations and step-by-step hands-on experience in the development of a compiler, which can tune itself to a new programming language. This is a must-take course for future software developers as well as those interested in applications of the theory of Computer Science. Cross-listed with CSCI 5640. Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4650 - Numerical Analysis I (3 Credits)

Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Cross-listed with CSCI 5660, MATH 4650, and MATH 5660. Prereq: MATH 2411, MATH 3191 or MATH 3195, and programming experience. Restriction: Restricted to Computer Science Majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2411 and (MATH 3191 or MATH 3195), and programming experience. Restricted to Computer Science Majors.

CSCI 4660 - Numerical Analysis II (3 Credits)

Numerical differentiation and integration, numerical solution of ordinary differential equations, and numerical solutions of partial differential equations as time allows. Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), MATH or CSCI 4650 or 5660 and programming experience. Restricted to Computer Science Majors. Cross-listed with CSCI 5661, MATH 4660 and 5661. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), MATH or CSCI 4650 or 5660 and programming experience. Restricted to Computer Science Majors. Typically Offered: Spring.

CSCI 4738 - Senior Design I (3 Credits)

This is an advanced practical course in which students design, implement, and document and test software systems for use in industry, non-profits, government and research institutions. The course offers practical experience by working closely with project sponsors. It also offers extensive experience in oral and written communication throughout the software life cycle. Prereq: Grade of C- or higher in CSCI 3287, CSCI 3415, CSCI 3453, and CSCI 3508. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3287, CSCI 3415, CSCI 3453, and CSCI 3508. Restricted to Computer Science Majors and Minors.

CSCI 4739 - Senior Design II (3 Credits)

This course is a continuation of Senior Design I. Students must have taken Senior Design I in order to enroll for Senior Design II. In this course, the projects begun in Senior Design I are completed and presented.

Prereq: CSCI 4738. Restricted to undergraduate Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 4738. Restricted to Computer Science Majors and Minors.

CSCI 4741 - Principles of Cybersecurity (3 Credits)

Focuses on the most common threats to cybersecurity as well as ways to prevent security breaches or information loss. Topics will include: understanding and thwarting hacker methods, authentication, cryptography, programming security, malware analysis, web, database and file server security, network and enterprise security methods. Prereq: Grade of C- or higher in CSCI 3287 and CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3287 and CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4742 - Cybersecurity Programming and Analysis (3 Credits)

Focuses on cybersecurity related programming and analysis skills. Topics include: network and security application development, intrusion detection, automating security hardening. Students will design and develop security applications in multiple programming languages. Undergraduate algorithms and programming knowledge expected. Prereq: CSCI 3415. Restricted to undergraduate Computer Science Majors and Minors. Cross-listed with CSCI 5742. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3415. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4743 - Cyber and Infrastructure Defense (3 Credits)

Presents analytical study of state-of-the-art attack and defense paradigms in cyber systems and infrastructures. Analysis will focus on: theoretical foundations of cybersecurity, practical development of novel technical defense techniques and analysis of alternatives. Knowledge of undergraduate-level networking. Cross-listed with CSCI 5743. Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3761. Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4771 - Introduction to Mobile Computing (3 Credits)

Provides an in-depth understanding of the fundamentals in mobile computing and studies the existing and proposed solutions for ubiquitous computing. This course focuses on systems and networking issues involved with supporting mobility. Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5771. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restricted to Computer Science Majors and Minors.

CSCI 4788 - Bioinformatics (3 Credits)

Provides a broad exposure to the basic concepts and methodologies of bioinformatics and their application to analyzing genomic and proteomic data. Topics may include dynamic programming algorithms, graph theoretic techniques, hidden Markov models, phylogenetic trees, RNA/protein structure prediction and microarray analysis. Cross-listed with MATH 4788, PHYS 4788. Prereq: Grade of C- or higher in CSCI 1410, CSCI 1411 and MATH 3195 or 3191. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 1410, CSCI 1411 and MATH 3195 or 3191. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4800 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to Computer Science Majors and Minors (CSCS-BA, CSCI-BS, CSCI-MIN, CMSC-MS)

CSCI 4840 - Independent Study (3 Credits)

Restricted to undergraduate Computer Science Majors and Minors with senior standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to undergraduate Computer Science Majors and Minors with senior standing.

CSCI 4910 - User Experience Design (3 Credits)

A how-to course for any technologist who has endured difficult interfaces and wants to design effective user interfaces that respect and advance the user experience. Course includes: Psychology, HCI personas, scenarios, prototyping, and evaluation for desktop and mobile applications. Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2312 and CSCI 2421. Restricted to Computer Science Majors and Minors.

CSCI 4920 - Computer Game Design and Programming (3 Credits)

Computer Game Design and Programming introduces practical and example driven approaches to modern 3D game development. Topics include 3D modeling, character animation, UI design, scripting, texture mapping, and sound effect. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4929 - Internship (3 Credits)

Faculty and employer-supervised employment in industry. Enrollment is limited to students who fully complete a contract for cooperative education credit by the last day of the drop or add period. Prereq: CSCI 3508. Restricted to undergraduate students in the Bachelors of Arts in Computer Science Program (CSCS-BA). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3508. Restriction: Restricted to undergraduate students in the Bachelors of Arts in Computer Science Program (CSCS-BA).

CSCI 4930 - Machine Learning (3 Credits)

Provides theoretical and computational foundations in machine learning to design and develop intelligent applications to perform object recognition, personalized recommendations, improve cybersecurity, fact-checking, forecasting and finding communities based on three classes of algorithms: supervised, unsupervised, semi-supervised and reinforcement learning. Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) & CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5930. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4931 - Deep Learning (3 Credits)

Provides a foundation on deep learning; a sought-after skill in machine learning. Topics include neural network design & learning, restricted Boltzmann machine, convolution neural network, recurrent neural network, LSTMs, deep reinforcement learning, autoencoders, and evolving computation frameworks like TensorFlow, Keras. Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200) and CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5931. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4939 - Internship (3 Credits)

Faculty or employer-supervised employment in industry. Enrollment is limited to students who fully completed a contract for cooperative education credit by the last day of the drop or add period. Prereq: Grade of C- or higher in CSCI 3415. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Grade of C- or higher in CSCI 3415. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4951 - Big Data Systems (3 Credits)

Presents a practical while in-depth review of the principles of a series of modern data processing systems (e.g., Hadoop, Spark, TensorFlow) designed to address the Big Data challenges. In combination, these systems enable the data to knowledge (Big) data lifecycle. Prereq: Grade of C- or higher in MATH 3195 (or MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5951. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

Engineering (ENGR)

ENGR 1000 - Introduction to Engineering (1 Credit)

Introduces engineering profession, engineering design and practice; and the tools used by engineers to accomplish design. The specialties within engineering are described. Students are involved in application projects and use word processors, spreadsheets and engineering software. Note: ENGR 1000 cannot be substituted for ELEC 1201. Prereq: High school trigonometry. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

ENGR 1100 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with IWKS 2300. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGR 1111 - Psychological and Social Implications of Technology (3 Credits)

This course will explore the impact of technology and its advances on human beings from an emotional, psychological, and social perspective. Discussions will include ethical, moral, and multicultural implications of technological advances from a global perspective and will require students to critically analyze issues that arise from such advances. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to majors with 12 credit hours or less at CU Denver.

ENGR 1130 - Chemistry for Engineers (5 Credits)

An introductory lecture and recitation course designed to meet the general chemistry requirement for engineering students. Topics include atoms, molecules, moles, stoichiometry, chemical bonding, atomic & molecular structures, thermodynamics and kinetics. The course will highlight the application of chemistry to engineering disciplines. Note: Suggested background of one year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent) strongly recommended. Max Hours: 5 Credits.

Grading Basis: Letter Grade

ENGR 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects or design. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGR 1208 - Special Topics (3 Credits)

Restriction: Restricted to Engineering and pre-engineering students only. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to Engineering and pre-engineering students only.

ENGR 1218 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 1228 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 1238 - Special Topics (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 1248 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 1258 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 1268 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 1278 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 1288 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 1298 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2208 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2218 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2228 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2238 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2248 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2258 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2268 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2278 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2288 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 2298 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3208 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3218 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3228 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3238 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3248 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3258 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3268 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3278 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3288 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3298 - Special Topics (1-3 Credits)
Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENGR 3400 - Technology and Culture (3 Credits)
Explores the cultural and political foundations of technology and the impact of technology upon the individual and society. Contributions to technological advances and the impact of technology on women and diverse ethnic groups are examined in the context of specific engineering designs and case studies. Prereq: One course in social sciences, one course in humanities, one course in science. (Satisfies the multicultural diversity requirement of the UCDHSC core curriculum). Max Hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Cultural Diversity.

ENGR 3600 - International Dimensions of Technology and Culture (3 Credits)

This course provides students with an understanding of how science, technology and international issues interrelate in a world that has become more interconnected and interdependent. The course will focus on the technical, organizational and cultural aspects of information and other technologies with an emphasis on their impact on third world countries. Prereq: One course in social sciences, one course in humanities, one course in science. (Satisfies the international perspectives requirement of the UCDHSC core curriculum). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

ENGR 3995 - Global Technology, Business & Culture (3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Summer.

ENGR 4150 - Seminar: Special Topics in Engineering (1 Credit)

A flexible seminar format dealing with topics of special interest in engineering. Topics vary from semester to semester. Prereq: Senior standing. Cross-listed with ENGR 5150 and 7150. Max Hours: 1 Credit.

Grading Basis: Pass/Fail Only

Restriction: Restricted to senior standing or higher

Typically Offered: Fall, Spring.

ENGR 4208 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4218 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4228 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4238 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4248 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4258 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4268 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4278 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4288 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4298 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4800 - Science Engineering and Culture for Undergraduates (3 Credits)

Course for undergraduate international and limited English proficient (LEP) students to improve success in science and engineering degree programs through senior research paper writing, advanced STEM English skills and cross cultural training. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGR 4840 - Independent Study (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Computer Science, BA

Introduction

Please click here (p. 256) to see computer science department information.

The bachelor of arts (BA) in computer science (CS) degree is designed to create transformational relationships among computer science and other fields of their interest across the university. It will allow undergraduate students with interests and passion in myriad fields to complement these with contemporary computer science knowledge, skills, and attitudes that will render them immediately impactful in today's rapidly changing workforce.

Graduates will be able to demonstrate a broad range of understanding in mathematics, computer software, algorithms, programming and a specialization of their choice across the CU Denver curriculum. Graduates will be able to:

- Apply algorithmic reasoning to a variety of computational problems
- Design, implement, and document solutions to needed computational problems
- Implement software systems that meet specific design requirements
- Use current tools or computing techniques to implement and evaluate programs or computer-based solutions.
- Apply computer science techniques and tools to solve problems in a chosen application area.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CSCI courses attempted.

Undergraduate students in the CSE department are required to have a personal laptop, with the following specifications, before starting 3000-level classes:

Specifications Minimum for:		Recommended
Operating System	Windows 10 1809+	Windows 10 1809+
CPU	Intel Core i5 dual-core 1.6 GHz or Intel Core i5 quad core 1.4 GHz	Intel Core i5/i7 2.2 GHz or faster
RAM	8GB (upgradable to 16GB)	12 to 16GB
Disk Space	256GB Hard Disk Drive (HDD) with 100GB free Upgradable to 512GB SSD	512GB Solid State Drive (SSD) with 100GB free
Hard Disk Speed		Install Windows and Applications on a SSD
Graphic Card	Integrated Graphics Card	Dedicated Graphics Card
Display	1280x720 Resolution	1920x1024 Resolution
Network Connectivity	Ethernet + Wifi	Ethernet + Wifi

The BA in computer science requires 120 credits including: 24 credits of CU Denver core curriculum, 7 credits of mathematics, 8 credits of physical science, 43 credits of computer science, and 38 credits of free electives.

Take 43 credits of computer science courses including:

Code	Title	Hours
CU Denver Core Curriculum		
Select 24 credits		24
Computer Science Core		
CSCI 1410	Fundamentals of Computing	3
CSCI 1411	Fundamentals of Computing Laboratory	1
CSCI 2312	Object Oriented Programming	3
CSCI 2421	Data Structures and Program Design	3
CSCI 2511	Discrete Structures	3
CSCI 3287	Database System Concepts	3
CSCI 3412	Algorithms	3
CSCI 3508	Introduction to Software Engineering	3
Computer Science (CSCI)		
Select seven 3000-level courses (21 credits) not applied to the above 22 credits ¹		21
Mathematics		

MATH 1401	Calculus I	4
Select additional 2000+ level math course		3

Science
Students will need to complete 8 credits (2 courses with associated labs) of natural and physical sciences with labs. A minimum of 4 credits will need to come from the CU Denver core natural and physical courses w/labs intended for science majors.

Complete a minimum of 4 credits (one set): 4

BIOL 2020 & BIOL 2021	Molecules to Cells (Gen Bio) and Molecules to Cells Lab (Gen Bio)
CHEM 2031 & CHEM 2038	General Chemistry I and General Chemistry Laboratory I
PHYS 2010 & PHYS 2321	College Physics I and Intro Experimental Phys Lab I
PHYS 2311 & PHYS 2351	General Physics I: Calculus-Based and Applied Physics Lab I
PHYS 2311 & PHYS 2321	General Physics I: Calculus-Based and Intro Experimental Phys Lab I

Additional courses with associated labs that can be counted toward the science requirement to achieve 8 credits: 4

ANTH 1303	Introduction to Biological Anthropology
BIOL 1550	Basic Biology: Ecology and the Diversity of Life
BIOL 1560	Basic Biology: From Cells to Organisms
CHEM 1474	Core Chemistry: Chemistry for Everyday
CHEM 1494	Forensic Chemistry
ENVS 1044 & ENVS 1045	Introduction to Environmental Sciences and Introduction to Environmental Sciences Laboratory
GEOL 1073 & GEOL 1074	Physical Geology: Surface Processes and Physical Geology: Surface Processes Laboratory
GEOL 1083 & GEOL 1084	Physical Geology: Internal Processes and Physical Geology: Internal Processes Laboratory
PHYS 1052	General Astronomy I
BIOL 2010 & BIOL 2011	Organisms to Ecosystems (Gen Bio) and Organisms to Ecosystems Lab (Gen Bio)
CHEM 2061 & CHEM 2068	General Chemistry II and General Chemistry Laboratory II
PHYS 2020 & PHYS 2341	College Physics II and Intro Experimental Phys Lab II
PHYS 2331 & PHYS 2341	General Physics II: Calculus-Based and Intro Experimental Phys Lab II
PHYS 2331 & PHYS 2361	General Physics II: Calculus-Based and Applied Physics Lab II

Free Electives	
Select for students' area of concentration	
Total Hours	
120	

¹ Or above

Please note CS courses that are not part of the BACS can be counted toward satisfying free electives. This can help with taking systems courses to prepare for the required background for some advanced CS/ breadth areas of interest.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/cedc/>).

Computer Science, BS

Introduction

Please click here (p. 256) to see computer science department information.

Undergraduate computer science students at CU Denver are able to tailor their degree to their interests and goals. Students are exposed to the breadth of the field including machine learning & data science, computer graphics & game design, programming, software engineering, systems, scientific computing, secure computing, theory and cyber-physical systems.

The computer science bachelor of science program is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

The educational objectives of the computer science undergraduate program are to produce graduates who:

- Advance professionally as productive, practicing professionals in computer science and related careers through the continued development of their expertise and skills.
- Further develop their knowledge, skill set, and career opportunities through graduate education and/or professional studies.
- Function effectively as part of a team to succeed in their professional careers.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CSCI courses attempted.
3. Undergraduate students in the CSE department are required to have a personal laptop, with the following specifications, before starting 3000-level classes:

Specifications Minimum for:		Recommended
Operating System	Windows 10 1809+	Windows 10 1809+
CPU	Intel Core i5 dual-core 1.6 GHz or Intel Core i5 quad core 1.4 GHz	Intel Core i5/i7 2.2 GHz or faster
RAM	8GB (upgradable to 16GB)	12 to 16GB
Disk Space	256GB Hard Disk Drive (HDD) with 100GB free Upgradable to 512GB SSD	512GB Solid State Drive (SSD) with 100GB free
Hard Disk Speed		Install Windows and Applications on a SSD
Graphic Card	Integrated Graphics Card	Dedicated Graphics Card
Display	1280x720 Resolution	1920x1024 Resolution
Network Connectivity	Ethernet + Wifi	Ethernet + Wifi

The BS computer science degree requires 128 credits including: 24 credits of CU Denver Core Curriculum, 12 credits of mathematics, 10 credits of physical science, 3 credits of engineering design, and 79 credits of computer science.

Code	Title	Hours
CU Denver Core Curriculum		
Select 24 credits		24
Engineering Design		
ENGR 1200	Fundamentals of Engineering Design Innovation	3
Computer Science		
CSCI 1410	Fundamentals of Computing	3
CSCI 1411	Fundamentals of Computing Laboratory	1
CSCI 2312	Object Oriented Programming	3
CSCI 2421	Data Structures and Program Design	3
CSCI 2511	Discrete Structures	3
CSCI 3287	Database System Concepts	3
CSCI 3412	Algorithms	3
CSCI 3508	Introduction to Software Engineering	3
CSCI 4034	Theoretical Foundations of Computer Science	3
Computer Science Core		
CSCI 1510	Logic Design	3
CSCI 2525	Assembly Language and Computer Organization	3
CSCI 3415	Principles of Programming Languages	3
CSCI 3453	Operating System Concepts	3
CSCI 3761	Introduction to Computer Networks	3
CSCI 4551	Parallel & Distributed Computing	3
CSCI 4591	Computer Architecture	3
Capstone Courses		
CSCI 4738	Senior Design I	3
CSCI 4739	Senior Design II	3
Data Science		
Select one of the following:		3
CSCI 4455	Data Mining	
CSCI 4580	Data Science	
CSCI 4930	Machine Learning	
CSCI 4931	Deep Learning	

CSCI 4951	Big Data Systems	
Computer Science		
Select one of the following:		3
CSCI 3560	Probability and Computing	
CSCI 4650	Numerical Analysis I	
CSCI 4110	Applied Number Theory	
Secure Computing		
Select one of the following:		3
CSCI 4741	Principles of Cybersecurity	
CSCI 4742	Cybersecurity Programming and Analysis	
CSCI 4743	Cyber and Infrastructure Defense	
System Software		
Select two of the following:		6
CSCI 3511	Hardware-Software Interface	
CSCI 4287	Embedded Systems Programming	
CSCI 4565	Introduction to Computer Graphics	
3000-Level or Above Computer Science Course		
Select four courses of any 3000-level or above Computer Science (CSCI) course that is not applied to the above 67 credits.		12
Mathematics		
MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 3195	Linear Algebra and Differential Equations ¹	4
Science		
Select a two-course sequence with lab of the following:		10
<i>Choice 1</i> ²		
BIOL 2010 & BIOL 2011	Organisms to Ecosystems (Gen Bio) and Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 & BIOL 2021	Molecules to Cells (Gen Bio) and Molecules to Cells Lab (Gen Bio)	
<i>Choice 2</i> ²		
CHEM 2031 & CHEM 2038	General Chemistry I and General Chemistry Laboratory I	
CHEM 2061 & CHEM 2068	General Chemistry II and General Chemistry Laboratory II	
<i>Choice 3</i>		
PHYS 2311 & PHYS 2321	General Physics I: Calculus-Based and Intro Experimental Phys Lab I	
PHYS 2331 & PHYS 2341	General Physics II: Calculus-Based and Intro Experimental Phys Lab II	
Total Hours		128

¹ Students can substitute both MATH 3191 Applied Linear Algebra and MATH 3200 Elementary Differential Equations for MATH 3195 Linear Algebra and Differential Equations

² Additional credits needed to reach 10 may come from an advanced science course beyond CHEM 2061 General Chemistry II or beyond BIOL 2010 Organisms to Ecosystems (Gen Bio), an additional CS elective, math beyond CALC II, or one of the engineering disciplines (not GEN-ED. courses).

Measurable Outcomes

The bachelor of science in computer science program must enable its students to attain, by the time of graduation:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science Minor

Introduction

Please click here (p. 256) to see Computer Science department information.

The Department of Computer Science and Engineering offers a minor in computer science. The requirements for the minor are listed below.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 63) to go to information about declaring a major/minor.
- To declare the CS minor, students must complete and send a Minor Declaration Form to the engineering dean's office. Once declared, students are required to meet with a CS advisor to complete the CS minor coursework form. The CS Minor declaration must be completed to register for 3000 level courses.
- For more information or an advising appointment, contact the Department of Computer Science and Engineering at 303-315-1408 or visit the Lawrence Street Center (1380 Lawrence Street), suite 800.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Any undergraduate student currently enrolled in a CU Denver degree program with a major other than computer science may earn a minor in computer science.
2. A CS Minor plan of study must be completed and approved by a CS advisor.
3. A student must fulfill all prerequisites for the courses he/she selects. See the catalog course descriptions for prerequisite information for each course.

- All courses taken for the minor must have a CSCI prefix and be taught by a CS faculty member.
- All courses taken for the minor must be completed with a C- or better with a 2.0 GPA average for all eight courses.

Code	Title	Hours
MATH 1401	Calculus I	4
CSCI 1410	Fundamentals of Computing	3
CSCI 1411	Fundamentals of Computing Laboratory	1
CSCI 2312	Object Oriented Programming	3
CSCI 2421	Data Structures and Program Design	3
Four additional CSCI courses ¹		12
Total Hours		26

¹ One of which may be at the 2000 level. All others must be at the 3000-level or higher.

Cybersecurity and Secure Computing Undergraduate Certificate

Introduction

The goal of the undergraduate certificate of Cybersecurity & Secure Computing program is to reduce vulnerability in the national information infrastructure by promoting higher education and research to help prepare cyber defense professionals for careers in both the public and the private sector. The curriculum of this certificate has been created to meet all criteria of NICE (National Initiative for Cybersecurity Education) undergraduate level of certification.

Certificate Objectives

This certificate program focuses on both the technical and analytical aspects of advanced cybersecurity and defense.

Program Objectives

- Master the fundamental concepts of cybersecurity principles and techniques.
- Learn about potentials for cybersecurity threats and attacks.
- Master cyber-defense tools, methods, and components to secure systems.
- Learn how to take appropriate measures should a system compromise occur.
- Learn principles and practices for secure computing

Certificate Eligibility

Current students in good standing in an undergraduate computer science program (BA or BS), and those completing a minor in computer science are eligible. Applications from other majors at CU Denver or non-degree students will be evaluated based on their current transcript. The student's application is subject to the approval of the computer science and engineering department chair.

Students planning to pursue a Cybersecurity & Secure Computing Certificate in Computer Science and Engineering should apply as early as possible to facilitate course planning, and no later than census date of the semester prior to graduation with their undergraduate degree.

Process to Attain Certificate Objectives

The following classes need to be taken with a grade of C- or better:

Code	Title	Hours
CSCI 3761	Introduction to Computer Networks	3
CSCI 3453	Operating System Concepts	3
CSCI 4034	Theoretical Foundations of Computer Science	3
CSCI 4741	Principles of Cybersecurity	3
CSCI 4743	Cyber and Infrastructure Defense	3
Total Hours		15

Students must take and pass each course with a grade of C- or better. The Cybersecurity & Secure Computing Certificate requires a minimum cumulative GPA of 2.0.

Learning Outcomes

- Be able to describe and apply the fundamental concepts of cybersecurity principles and techniques.
- Be able to analyze potential cyber threats and attacks.
- Be able to use cyber defense tools, methods, and components to properly secure systems.
- Be able to effectively and quickly evaluate and mitigate if systems are threatened or compromised.

Electrical Engineering

Chair: Stephen D. Gedney

Program Manager: Annie Schweitzer Bennett

Administrative Assistant: Karla Flores

Office: North Classroom 2615

Telephone: 303-315-7520

Email: electrical@ucdenver.edu

Website: ucdenver.edu/electrical-engineering (<https://ucdenver.edu/electrical-engineering/>)

Overview

Electrical Engineering Programs

Modern electrical engineering is a very broad and diverse field. Never before has there been such a challenge and opportunity for electrical engineering to serve mankind. Today's electrical engineers are involved in the development of technology, materials and products to improve the quality of life. They are concerned with the generation and transmission of power, the control and utilization of natural and synthetic resources, the communication of data and information and the intelligent use of computers in consumer as well as industrial products and processes. Systems in electrical engineering range in size from microprocessors through megawatt energy conversion systems to global audio and video communication networks.

At CU Denver, the electrical engineering curriculum prepares students for careers in product design, manufacturing, research, development, operation and plant engineering, technical sales and application engineering. The goal is to educate and inspire students to achieve their maximum career potential.

Mission Statement

We provide graduate programs and an ABET-accredited undergraduate program that are accessible to a diverse group of students-students of different racial and cultural backgrounds, full-time students as well as

those who have considerable work and family commitments outside their academic learning and students with a wide variety of work experiences.

Undergraduate Information

Entering students begin their program with a solid foundation in mathematics, physics, chemistry and computers. Social science, humanities and communication courses provide a diverse background. Intensive courses follow in the theory and laboratory application of digital logic and electrical circuits, electromagnetic fields, electronics, computer engineering, Internet of Things (IoT), signals and systems, controls, electrical machines and power systems and microprocessors. Throughout the entire course of study, students reinforce their understanding of theory through laboratory experience and extensive design projects. A strong background is provided in all of the major fields of electrical engineering: circuits and electronics, microcomputers, signal and image processing, communications, autonomous and robotic systems, power and energy conversion, and automatic control systems and instrumentation. Ethics is an integral part of the curriculum. During the senior year, advanced undergraduate-level courses in different specialty areas, design projects and professional electives allow the student to explore areas of special interest.

Students should supplement this information about the curriculum by consulting a copy of the *Department of Electrical Engineering Advisement Guide*, which may be obtained in the Department of Electrical Engineering office located in North Classroom 2615. The *Department of Electrical Engineering Advisement Guide* contains the latest information concerning the curriculum as well as guidelines and procedures with which each student should be familiar. To be awarded the bachelor of science in electrical engineering, a student must satisfactorily complete 128 semester hours, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all electrical engineering courses attempted. Appointments to see any of the departmental advisors may be made by calling 303-315-7520.

Faculty

Professors:

Hamid Fardi, PhD, University of Colorado Boulder
Stephen Gedney, PhD, University of Illinois at Urbana-Champaign
Mark Golkowski, PhD, Stanford University
Fernando Mancilla-David, PhD, University of Wisconsin at Madison
Jaedo Park, PhD, The Pennsylvania State University
Miloje Radenkovic, PhD, University of Belgrade, Yugoslavia

Associate Professors:

Tim Chifong Lei, PhD, University of Michigan
Dan Connors, PhD, University of Illinois Urbana-Champaign

Assistant Professors:

Vijay Harid, PhD, Stanford University
Chao Liu, PhD, Purdue University
Alireza Vahid, PhD, Cornell University

Senior Instructor:

Lary Speakman, BS, University of Colorado Denver

Electric Engineering (ELEC)

ELEC 1510 - Digital Logic (3 Credits)

The design of combinatorial and sequential switching circuits. Topics include Boolean algebra, Boolean function minimization technique, combinatorial circuit analysis and synthesis, synchronous sequential circuit analysis and synthesis, algorithmic state machine design, asynchronous sequential circuit analysis and synthesis. Max hours: 3 Credits.

Grading Basis: Letter Grade

ELEC 1520 - Programming for Electrical Engineers (3 Credits)

An introductory course in programming using C/C++ and Python. The objective of the course is to examine the design of programs using language concepts, data structures, algorithms, and object-oriented design techniques to solve fundamental engineering problems. Students develop skills to program, construct data structures, and test & debug solutions, while gaining knowledge of the fundamental elements and operation of computer systems. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ELEC 2132 - Circuit Analysis I (3 Credits)

Introduces circuit analysis: basic principles, operational amplifier circuits, first-order and second-order circuits, steady-state sinusoidal analysis with phasor mathematics. Prerequisite: Math 2411 with a C- or higher and Phys 2311 with a C- or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: PHYS 2311 and MATH 2411 with a C- or higher

ELEC 2142 - Circuit Analysis II (3 Credits)

Sequential course after ELEC 2132. Topics include: Solution of circuits using Laplace transforms, frequency domain analysis, additional steady-state solutions, Bode plots, active filters, pulses, impluses, and computer-aided analysis. Prerequisite: Math 2421 with a C- or higher and Phys 2331 with a C- or higher, Elec 2132 with a C- or higher. This course can be taken stand alone without a lab. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2132, MATH 2421 and PHYS 2331 with a C- or higher.

ELEC 2520 - Embedded Systems (3 Credits)

A second semester computer engineering course covering microcontroller & microprocessor-based embedded system design and interfaces including peripherals, development tools, constraints and interfacing between physical world and device. Prereq: ELEC 1520 with a C- or higher. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: ELEC 1520 with a C- or higher.

ELEC 2531 - Logic Laboratory (1 Credit)

Experiments in digital logic utilizing both computer simulation and actual analysis using integrated circuits. Initially, combinational logic circuits are studied, including circuits such as binary adders and multipliers, followed by sequential circuits, including counters. Meters and oscilloscopes are introduced. Use of computer-aided design tools facilitating design, simulation, and implementation of digital systems using field-programmable logic devices are an integral part of the entire course. Coreq: ELEC 1510. Max hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: ELEC 1510.

ELEC 2651 - Signal Processing (3 Credits)

Introduction to discrete-time signal processing and frequency domain analysis. Sampling and interpolation, discrete Fourier transform, effects of filtering and modulation of signals. Concepts are explored in the context of multimedia, communications, and data analysis applications. Emphasizes computer-based signal processing using MATLAB. Prereq: ELEC 1520. Coreq: MATH 3195 or MATH 3191. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 1520. Coreq: MATH 3195 or MATH 3191.

ELEC 3030 - Electric Circuits and Systems (3 Credits)

This basic electrical engineering course is for non-majors (does not apply to BSEE degree). Students study circuit analysis, transformers, electric motors, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331 with a C- or higher. Restriction: Restricted to majors within the College of Engineering, Design and Computing. Cross-listed with MECH 3030. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 and PHYS 2331 with a C- or higher Restriction:

Restricted to majors within the College of Engineering, Design and Computing

ELEC 3133 - Electromagnetic Fields (3 Credits)

Fundamental physics and applications of electric and magnetic fields are covered. Topics include: vector analysis in multiple coordinate systems, Maxwell's equations in free space and material regions including boundary conditions, static and quasi-static electric and magnetic fields, uniform plane waves for free space and for materials. Prerequisite:

MATH 2421 with a C- or higher and PHYS 2331 with a C- or higher, ELEC 2132 with a C- or higher, MATH 3195 with a C- or higher. Restriction:

Restricted to students within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2132, MATH 2421, MATH 3195 (or MATH 3191 and MATH 3200), and PHYS 2331 all with a grade of C- or higher. Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 3164 - Energy Systems (3 Credits)

Explores various energy resources and modern conversion systems utilized to generate, store, process, and deliver electric power. Topics include electromechanical, electrochemical, and renewable energy systems, as well as switch-mode power processing and power networks. Prereq: ELEC 2142 with a C- or higher, and ENGR 1130 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or higher, and ENGR 1130 with a C- or higher.

ELEC 3225 - Electronics (4 Credits)

BJT and FET transistor models at high frequencies, multistage amplifiers, frequency response of amplifiers. Feedback, operational amplifiers, oscillators, power amplifiers, and introduction to power electronics. Prereq: ELEC 2142, PHYS 2331 and ENGR 1130. Restriction: Restricted to students within the College of Engineering, Design and Computing. Max

hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142, PHYS 2331 and ENGR 1130. Restriction: Restricted to students within the College of Engineering, Design and Computing.

ELEC 3316 - Signals and Systems (3 Credits)

Introduces the fundamentals of signals and systems analysis. Topics include: time domain analysis of continuous and discrete time systems, frequency domain (Laplace and z-transform) analysis, applications to filters and feedback systems, Fourier transform for both continuous and discrete time signals, sampling and signal reconstruction, applications to communication systems and state space representation. Learning experience is enhanced by using MATLAB-based examples and experiments. Prereq: ELEC 2142 with a C- or higher, MATH 3195 with a C- or higher or MATH 3191 and MATH 3200 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or higher, MATH 3195 with a C- or higher or MATH 3191 and MATH 3200 with a C- or higher.

ELEC 3520 - Intelligent Systems: IoT & Cyber-Physical Systems (3 Credits)

A computer engineering course covering intelligent systems that include applications with connected Internet-of-Things (IoT) devices and cyber-physical elements. An intelligent system consists of a collection of computing devices communicating with one another and capable of interacting with the physical world. The course explores the system design and software development process to deploy real-time embedded applications in real-world scenarios. Topics include multiple hardware and software systems necessary to perform sensing, actuation, processing, and communication with connected computing devices. Prereq: ELEC 2520. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: ELEC 2520.

ELEC 3701 - Machine Learning for Engineers (3 Credits)

The course introduces the mathematical formalism and software for machine learning approaches in electrical engineering problems. Selected applications include signal detection, signal classification, remote sensing, imaging, and model optimization. Topics include: linear and logistic regression, support vector machines, clustering, artificial neural networks, hypothesis testing, and Bayesian analysis. Prereq: ELEC 3618 with a C- or better and MATH 3195 with a C- or better or MATH 3191 and MATH 3200 and ELEC 2520 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3817 with a C- or better AND (MATH 3195 or (MATH 3191 and MATH 3200 with a C- or better and ELEC 2520))

ELEC 3724 - Energy Systems Laboratory (1 Credit)

Provides hands-on experience on electromechanical, electrochemical, and semiconductor-based energy conversion systems. Sessions include operation of induction motor and generator, energy storage, and renewable energy experiments. Prereq: ELEC 2142. Prereq or Coreq: ELEC 3164. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 2142 Coreq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 3817 - Engineering Probability and Statistics (3 Credits)

Topics include: definition of probability, conditional probability, independence, combined experiments and Bernoulli trials, random variables, joint distribution and density functions, correlations, sample mean and variance. Also, introduction to random processes, auto and cross correlation functions, spectral density of random signals, responses of a linear system to random inputs. Prereq: MATH 3195 and 2421. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 and 3195 (or MATH 3191 and MATH 3200)

Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 3900 - Circuit Design and Fabrication Laboratory (3 Credits)

Hands on laboratory course that involves electrical measurement and diagnosis in the context of electrical circuit design, fabrication, and validation. Standard benchtop tools of oscilloscope, signal generator, digital multi-meter, DC power supply are introduced. Final project involves layout and fabrication of a printed circuit board (PCB). Prereq: ELEC 3225 and ELEC 2142. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225 and ELEC 2142.

ELEC 3939 - Internship (1-3 Credits)

Students gain engineering design experience involving application of specific technical concepts and skills in a supervised industrial environment. (Must have approval from ELEC faculty.) Prereq: ELEC 2142. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 2142

ELEC 4005 - IC Design (3 Credits)

Explores digital integrated circuit design including MOS processing steps, physical operation, building blocks of digital circuits, advanced nMOS, pMOS and CMOS circuit design, silicon VLSI technology and circuit and chip level. Spice and lay-out Editor are used. The physical relationship between circuit design and actual silicon layout and structure and technology are emphasized. Prereq: ELEC 3225. Cross-listed with ELEC 5005. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225.

ELEC 4025 - Device Electronics (3 Credits)

A course relating performance and limitations of solid state devices to their structures and technology. For both advanced circuit and device engineers. Semiconductor physics and technology, pn-junction and MOS devices used in modern integrated circuits. Prereq: ELEC 3225 and senior standing. Cross-listed with ELEC 5025. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225 Restriction: Senior standing

ELEC 4133 - Advanced Electromagnetic Fields (3 Credits)

A course focused on electromagnetic waves. Topics include: electromagnetic power, reflection and transmission of uniform plane waves in layered media, rectangular wave guides, two-conductor transmission lines, Smith Chart representation of wave impedance and reflection. Prereq: ELEC 3133. Cross-listed with ELEC 5033. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4134 - Introduction to Microwave Circuit Design (3 Credits)

This course provides the basic principles of microwave circuit design, including transmission line theory, network parameters, signal flow graphs, design of high frequency matching networks, filters, hybrids and couplers using waveguide elements, high frequency amplifier and mixer design. Prereq: ELEC 3133. Cross-listed with ELEC 5134. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133

ELEC 4136 - Control Systems Analysis (3 Credits)

Introduces students to the fundamentals of analysis and design of feedback systems. Topics include: mathematical models of linear continuous-time systems applied to modeling physical systems in the time and frequency domain, control system characteristics, Routh's stability and transient response analysis, Nyquist stability and polar plots, analysis and design of linear control systems by root locus and frequency response, methods, compensator implementation, finite-precision numerical effects, round-off errors, and computer-based design applications. Prereq: ELEC 3316. Coreq: ELEC 3817. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 Coreq: ELEC 3817 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4164 - Electric Drive Systems (3 Credits)

Covers power electronics drives for rotating electric machinery. Topics include power electronics elements for drives, load characteristics, dynamic modeling of AC machines, fundamental control algorithms, simulation and practical commercial drives. Prereq: ELEC 3164. Cross-listed with ELEC 5164. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4170 - Electric Drive Systems Laboratory (1 Credit)

Offers hands-on experience on rotating electric machine drive simulations and commercial systems. Sessions include pulse-width modulation (PWM) inverter, induction, DC, and synchronous machine drives. Matlab/Simulink and a commercial inverter will be utilized. Cross-listed with ELEC 5170. Prereq or Co-req: ELEC 4164/5164 or equivalent. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or Coreq: ELEC 4164 or ELEC 5164

ELEC 4174 - Power Electronic Systems (3 Credits)

Topics to be covered include: power electronics fundamentals and applications in power systems; uncontrolled, semi-controlled and fully controlled power semiconductors; converters design and control. Prereq: ELEC 3164. Cross-listed with ELEC 5174. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4184 - Power Systems Analysis (3 Credits)

Topics to be covered include: complex power; per-unit quantities; modeling of generators, transformers and transmission lines; power flow problem; economic dispatch; faults and sequence networks; and an introduction to power system protection and dynamics. Prereq: ELEC 3164. Cross-listed with ELEC 5184. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4225 - Advanced Electronics (3 Credits)

Switching state models of discrete components and integrated circuits, including logic gates, comparators, and operational amplifiers. Input, output, and transfer characteristics. Non-ideal properties. Analog-digital and digital-analog conversion. MOS-integrated circuits. Prereq: ELEC 3215, 3225. Restriction: Restricted to students within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3215, 3225. Restriction: Restricted to students within the College of Engineering, Design and Computing.

ELEC 4247 - Communication Theory (3 Credits)

Introduces the principles of analog and digital communication systems. Series expansion and Fourier Series and transforms. The sampling theorem. Stochastic principles and noise. Linear systems and Fourier analysis. Design of transmitters and receivers: modulation and demodulation schemes. Some information theoretic concepts: source coding, channel coding, channel capacity and performance measures. Prereq: ELEC 3316 and 3817. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: ELEC 3316 and 3817

ELEC 4248 - Digital Communication Systems (3 Credits)

Introduces digital communication systems covering elements of information theory; mathematical representation of signals and systems; modulation and demodulation for the additive Gaussian noise channel; performance analysis of various transmission formats; synchronization; coded waveforms; decoding algorithms; and other related topics. Prereq: ELEC 3316, 3817; recommended ELEC 4247. Cross-listed with ELEC 5248. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: ELEC 3316 and 3817

ELEC 4249 - Space Communications Systems (3 Credits)

Presents the art of space communications system design around the framework of the link budget and the essential analysis tool of the radio system designer. The budget is examined from theoretical and practical viewpoints. Pointers and motivation for further study in each of the related engineering disciplines are provided. Topics to be examined include satellite orbits, propagation, antennas, noise, modulation, coding and hardware or software. Prereq: Permission of instructor. Cross-listed with ELEC 5249. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ELEC 4276 - Digital Control Systems (3 Credits)

Topics to be covered include: discrete-time systems and the z-transform, characteristics of open-loop and closed-loop discrete-time systems, time-response characteristics and stability analysis, design of digital and hybrid control systems using z-transform, root locus, frequency domain, and state variable compensation techniques, compensator on, implementation, and computer-based design applications. Prereq: ELEC 3316 and ELEC 3817. Cross-listed with ELEC 5276. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316

ELEC 4309 - Senior Design Project I (3 Credits)

Design methodology and tools, project planning and team building, ethics in engineering and research, career planning and portfolio building. Project designs are completed and presented to the class. Prereq:

Students must complete their Senior/30 hour check prior to enrollment.

Coreq: ELEC 3133, 3164, 3225, 3316, 3520, 3701, 3724, 3817 and 3900.

Restriction: Restricted to undergraduate majors within the College of Engineering, Design and Computing. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ELEC 3133, 3164, 3225, 3316, 3520, 3701, 3724, 3817 and 3900.

Restriction: Restricted to undergraduate majors within the College of Engineering, Design and Computing

ELEC 4319 - Senior Design Project II (3 Credits)

Project designs completed in ELEC 4309 are constructed and tested.

Oral and written presentations of the completed project performance are required. Prereq: ELEC 4309 in subsequent academic semester. Students must complete their Graduation Agreement prior to enrollment. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 4309 Restriction: Restricted to majors within the College of Engineering, Design and Computing

ELEC 4333 - Introduction to Computational Electromagnetics (3 Credits)

An intro to computational electromagnetics based on the Finite Difference Time-Domain (FDTD) covering, finite difference methods, the Yee algorithm, numerical error, stability, boundary conditions, source excitations, hands-on programming experience and application of FDTD to real problems. Prereq: ELEC 3133. Cross-listed with ELEC 5333. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133

ELEC 4373 - Optical Engineering (3 Credits)

This course introduces some of the most important concepts in optical engineering and prepares students a solid foundation to apply them to applications in the industry and academic research. Prereq: ELEC 3133 Electromagnetic Fields. Cross-listed with ELEC 5373. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133

ELEC 4375 - Engineering Neuroscience (3 Credits)

In this course, mathematical models and data processing strategies will be introduced as well as other cutting-edge research techniques to help students understand how these techniques can be applied to solve modern neuroscience problems. Prereq: ELEC 3316 or graduate standing. Cross-listed with ELEC 5735 and NRSC 7674 (Anschutz Medical Campus course). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 or Graduate Standing

ELEC 4406 - Control Systems Laboratory (1 Credit)

This lab includes system identification, design of velocity control systems, design of PID controllers and control systems using state variable feedback. Prereq or Coreq: ELEC 4136 or 4276. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or Coreq: ELEC 4136 or 4276.

ELEC 4423 - Radio Frequency Laboratory (1 Credit)

Projects involve modern RF analyzers, wave-guide devices, time-domain techniques, characterization of filters/amplifiers, signal propagation and scattering, harmonic mixing, and radio frequency identification. Students will gain experience using MATLAB for data acquisition and processing. Prereq: ELEC 3133 and ELEC 3225. Cross-listed with ELEC 5423. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 3133 and ELEC 3225.

ELEC 4435 - Advanced Electronics Laboratory (1 Credit)

Projects related to digital logic, analog and digital switches, A/D and D/A converters, and design of signal filters. Prereq: ELEC 3225 and 3735; Prereq or Coreq: ELEC 4225. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 3225, 3735 Coreq: ELEC 4225

ELEC 4444 - Power Systems Laboratory (1 Credit)

This lab introduces the student to modern computational tools used in power system analysis. Algorithms to solve the "power flow problem," the "economic dispatch problem," and the "optimal power flow problem" are discussed and implemented in the Matlab-Simulink mathematical analysis software package. Coreq: ELEC 4184. Max hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: ELEC 4184.

ELEC 4466 - Adaptive Control System Design (3 Credits)

Basic concepts in adaptive feedback control. Overview of application areas. Stability of non-linear systems and hyperstability approach to the design of adaptive controllers. Passivity concept and Liapunov stability. Design of model reference adaptive systems, self-tuning regulators, stochastic adaptive, and dual control systems. Computer-based design applications. Emphasis is placed on design projects. Prereq: ELEC 4136 or 4276. Cross-listed with ELEC 5466. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 4136 or 4276 Coreq: ELEC 4247 or 4248

ELEC 4467 - Communications Laboratory (1 Credit)

Analysis and design in three main areas: traditional analog communications at low and medium frequencies, digital communications, and microwave communications systems. Extensive use of spectrum analysis from low frequencies up to microwave range. Projects include noise, AM, FM, PM, PLL, sampling, quantizing, encoding, TDM, FSK, QPSK, 16QAM, receivers, and satellite communications systems. Prereq: ELEC 3735; Prereq or Coreq: ELEC 4247 or ELEC 4248. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 3735 and 4247 or 4248

ELEC 4474 - Power Electronics Laboratory (1 Credit)

The power electronics laboratory introduces students to seven fundamental switchmode power conversion topologies, along with voltage and current feedback control, assembled on a reconfigurable power pole circuit board with external power supplies and laboratory. Coreq: ELEC 4174. Cross-listed with ELEC 5474. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: ELEC 4174 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4501 - Microprocessor Based Design (3 Credits)

Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design. Software/Operating System is implemented for realtime I/O. Prereq/ Coreq: ELEC 3520. Cross-listed with ELEC 5501. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq/Coreq: ELEC 3520.

ELEC 4511 - Hardware-Software Interface (3 Credits)

Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time programming techniques are considered. Graduate level requires additional projects and homework. Prereq: ELEC 3520. Cross-listed with ELEC 5511. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

ELEC 4521 - Microprocessor Laboratory (1 Credit)

Provides support for the projects assigned in ELEC 4501 - a complete embedded system is designed, built and tested. Coreq: ELEC 4501. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: ELEC 4501

ELEC 4555 - VLSI Circuit Simulation (3 Credits)

Computer methods for large integrated circuits. Theory and practice of VLSI circuit simulation. Nodal formulations of networks. Computer generation of sensitivities. Modeling active devices. DC solution of nonlinear networks. Prereq: ELEC 3225. Cross-listed with ELEC 5555. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225.

ELEC 4561 - Hardware-Software Lab (1 Credit)

Projects related to the software interface of a processor to external devices. Topics include A/D converters, serial and parallel interfaces. Prereq: ELEC 3520 and Coreq: ELEC 4511. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 3520 and Coreq: ELEC 4511.

ELEC 4637 - Digital Signal Processing (3 Credits)

Discrete-time signals and systems in the time and frequency domain. Digital filter structures, design of FIR filters by windowing, optimum approximations of FIR filters. Design of digital IIR filters from continuous time domain. Computer-aided design of digital filters. The discrete Fourier transform and DSP algorithm implementation. Analysis of finite word length effects. Application of digital signal processing. Prereq: ELEC 3316 and 3817. Cross-listed with ELEC 5637. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 and ELEC 3817

ELEC 4644 - Introduction to Biomedical Imaging (3 Credits)

An important component of the recent expansion in biomedical engineering is the area of biomedical imaging. This ELEC 4644/5644 course is an introduction to biomedical imaging systems, not only covering the fundamentals of imaging physics but also the applications of four primary biomedical imaging modalities: X-Ray Computed Tomography (CT), Magnetic Resonance Imaging (MRI), Nuclear Medicine (i.e. PET, SPECT), and Ultrasound Imaging. Prereq: ELEC 3316. Cross-listed with ELEC 5644. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316

ELEC 4678 - Quantum Computing (3 Credits)

The course teaches students the principles, the algorithms and the programming methods of quantum computing, and also discusses the associated physics and mathematics background required. Other related topics such as quantum communication and quantum entanglement will also be discussed. Prereq: PHYS 2331 and ELEC 3817 with a C- or better. Cross-listed with ELEC 5678. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2331 with a C- or better, and ELEC 3817 with a C- or better.

ELEC 4688 - Introduction to Nondestructive Testing (3 Credits)

A basic, broad understanding of the principles of nondestructive testing and evaluation is provided. The main objective of this course is to attract students to NDT fields and eventually help address the increasing needs of NDT engineers and technicians. Interaction and collaboration with local NDT industries will also be emphasized. As an introductory course, a broad interdisciplinary knowledge of NDT will be covered in the following sub-areas: Visual, Penetrant, Magnetic Particle, Eddy Current, Microwave, Ultrasonic, and Radiography. Prereq: ELEC 3316. Cross-listed with ELEC 5688. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316

ELEC 4723 - High Performance Computer Architecture (3 Credits)

High Performance Computer Architecture covers the design of advanced computing systems. In particular, the course includes the design of modern microprocessors, characteristics of the memory hierarchy, and issues involved in multithreading and multicore architectures. Prereq: ELEC 3520. Cross-listed with ELEC 5723. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

ELEC 4727 - Computer Vision & Image Processing Acceleration (3 Credits)

Real-time constraints on computer-vision and image processing applications have motivated numerous explorations of multicore architectures to provide more efficiency through hardware parallelism and acceleration. This course undertakes the study of image processing and computer vision algorithms in the context of parallel hardware.

Prereq: ELEC 3520. Cross-listed with ELEC 5727. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

ELEC 4755 - Renewable Energy Systems (3 Credits)

This course focuses on the modeling, analysis and control of grid-connected wind and photovoltaic energy systems. Prereq: ELEC 3164. Cross-listed with ELEC 5755. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4800 - Special Topics (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ELEC 4840 - Independent Study: ELEC (1-3 Credits)

An opportunity for independent creative work. Prereq: Permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

Electrical Engineering, BS

Introduction

Please click here (p. 273) to see Electrical Engineering department information.

Program Objectives

The educational objectives of the electrical engineering undergraduate program are to produce graduates who, within a few years of graduation, will:

- Demonstrate professional advancement as productive practicing engineers who continuously develop their technical expertise, as demanded by the rapidly changing technologies.
- Attain enhanced and broadened knowledge via graduate education in either engineering or other fields such as science, mathematics, business, medicine, and law.

These objectives are consistent with the mission of the University of Colorado Denver, congruent with the goals of the College of Engineering, Design and Computing and reflective of the mission of the Department of Electrical Engineering.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. The particular curriculum to be satisfied by each student is the one published in the catalog current at the time of the student's 30-hour senior checkout.
2. A graduation agreement should be requested by each student before completing registration for the student's last semester.
3. All electrical engineering students must satisfactorily complete ELEC 4309 Senior Design Project I and ELEC 4319 Senior Design Project II in consecutive semesters.
4. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
5. Students must maintain a minimum 2.0 GPA in all ELEC courses attempted.

Computer Engineering Minor

Introduction

Please click here (p. 273) to see electrical engineering department information.

The minor in computer engineering provides an opportunity to gain a more in-depth knowledge of computing technology, programming digital hardware, interfacing digital hardware, internet of things, microcontrollers and microprocessors, sensor technology, as well as computer vision and image processing. The calculus sequence required for most engineering programs is not a prerequisite for the computer engineering minor.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 63) to go to information about declaring a major/minor.
- Contact the Department of Electrical Engineering for a Computer Engineering Minor Coursework form.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must meet all prerequisites for all ELEC courses taken.
2. The minimum GPA is 2.0 with no individual course grade below C-
3. The student's application is subject to department approval.
4. Students may apply minor courses toward their major when applicable.

¹ If related to computer engineering and with approval by the electrical engineering department chair

Electrical Engineering Minor Introduction

Please click here (p. 273) to see electrical engineering department information.

Electrical engineers use mathematics and physics tools and theory to develop systems ranging from smart electric grids, embedded systems and computer engineering products, integrated electronics, wired and wireless communications, networking sensing and imaging devices, and information technology. Students enrolled in the minor of electrical engineering will be given the opportunity to learn the fundamentals of electrical engineering as well as be introduced to some advanced applications. Students will be exposed to many real world applications and have hands-on engineering design experiences.

Students are encouraged to start this minor in their sophomore year of study.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 63) to go to information about declaring a major/minor.
- Contact the Department of Electrical Engineering for an Electrical Engineering Minor Coursework form.

Inworks

Director: Kristin Wood, PhD

Denver Office: CU Building, 1st Floor

Anschutz Office: CU Strauss Library

Telephone: 303-315-0047 (Denver), 303-724-4120 (Anschutz)

Website: inworks.ucdenver.edu (<https://inworks.ucdenver.edu>)

Overview

Inworks is an innovation initiative of the University of Colorado Denver | Anschutz Medical Campus, based in the College of Engineering, Design and Computing. As a home for creators, thinkers, designers, and makers, we're a collaborative community of learners and leaders committed to solving humanity's most pressing problems. In our two state-of-the-art prototyping labs, we draw on expertise from many disciplines to synthesize unique solutions to real-world challenges. At Inworks, we learn

and teach through making, but we don't just make things – we make them matter.

Our mission is to impart skills and habits of minds that allow people to collaboratively create impactful solutions to human problems.

When you take an Inworks course, the process of innovation is demystified. You'll learn the human-centered design process; it will guide you as you move from problem to prototype. In our prototyping labs you can access technologies to 3D print, solder a circuit, or grow a biomaterial. But don't expect to do it alone, because Inworks is a space that catalyzes meaningful collaboration. Students of all majors will find a place here.

Inworks offers a minor, an undergraduate certificate, and a graduate certificate in Human-Centered Design and Innovation.

Programs

- Human-Centered Design and Innovation Minor (p. 284)
- Human-Centered Design and Innovation Undergraduate Certificate (p. 284)

InWorks (IWKS)

IWKS 2100 - Human-Centered Design, Innovation and Prototyping (3 Credits)

Introduces collaborative interdisciplinary design and innovation from a human perspective. Using the wide array of Inworks prototyping facilities, teams of students will design and implement human-oriented projects of increasing scale and complexity, in the process acquiring essential innovation and problem-solving skills. Cross-listed with ARCH 3705. Prereq: none. Participants of all backgrounds are encouraged to register; no previous design or prototyping experience is required. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 2300 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with ENGR 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3100 - 3D Design, Computation and Prototyping (3 Credits)

Introduces the design and computer-controlled fabrication of three-dimensional objects using both additive (3D printing) and subtractive (laser cutter, CNC router/mill) processes. Increasingly complex projects throughout the semester using various CAD/CAM software tools will explore design strategies for digital fabrication. Prerequisites: None; no previous design or prototyping experience is expected or required. Cross-listed with IWKS 5170 and ARCH 3706. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3180 - Inworks: Choose Your Own Adventure: Experiences in Design, Innovation and Prototyping (1-3 Credits)

Provides weekly speakers, workshops and other experiences that educate and enrich across the design, innovation and prototyping landscape. Students may choose to participate in any five (for one credit), ten (for two credits) or fifteen (for three credits) activities. Each week, participating students will attend the scheduled activity, and then create a meaningful response that reflects the impact of that activity on their thinking or practice. Prerequisites: None. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

IWKS 3200 - Data Science for Innovators (3 Credits)

Introduces techniques for capturing, processing, visualizing, and making meaning out of large datasets. With the exponential growth and decreasing cost of data collection tools such as genome sequencing, social media, crowd sourced data, mobile phone apps, remote sensors, and data from other publically available sources, innovators are able to harness a rich array of data in their designs. This course will introduce the fundamentals of working with online data and large data sets, introduce widely used data analysis and visualization tools, and culminate in a cumulative project that incorporates data in a significant way. Suggested Background: IWKS 2300 or similar experience. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3300 - NAND to Tetris: Foundations of Computer Systems (3 Credits)

Introduces the principles of computer systems that underlie the global information age. Starting from first principles, students gradually construct a simple hardware platform and a modern software hierarchy, yielding a working basic yet powerful computer system. Only introductory programming experience is required. Suggested Background: IWKS 2300 or similar computing experience. Cross-listed with CSCI 2940. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3400 - Game Design and Development I (3 Credits)

Introduces principles of computer game development, building on the rich interplay of computer science, graphics design, physics, music, and narrative. Students develop interactive 2D and 3D games and a final project. Substantial software development involved, but requires only introductory programming experience. Suggested Background: IWKS 2300 or similar computing experience. Cross-listed with CSCI 2941. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3540 - Synthetic Biology for Innovators (3 Credits)

Introduces the fundamentals of synthetic biology for those who seek to use it as tool for innovation. Synthetic biology allows us to engineer new biological systems and redesign existing biological components by integrating aspects of biotechnology, evolutionary and molecular biology, systems biology, computer engineering, computational biology, and genetic engineering. Advancement in technological tools and techniques make this material accessible to motivated individuals from many disciplines, and no biology background is required. Culminates with a final team project focused on designing synthetic biology solutions that address human need. Suggested Background: None. No previous background in biology is required. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3550 - Innovation Law and Policy (3 Credits)

Introduces legal and regulatory foundations related to innovation, including intellectual property, telecommunications, electronic commerce, the Internet, biotechnology, ethical and equity considerations, and financing. These issues are examined from the perspectives of the legal, business, capital, development, consumer, and policy-making communities. Suggested background: IWKS 2100. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 3600 - Innovating for the Developing World (3 Credits)

Explores the design and development of products and services that can be sustainably and gainfully used by the world's poorest citizens. Students in interdisciplinary teams will design, implement and evaluate viable solutions to a real problem faced by people in the developing world. The goal is to develop an understanding of the extraordinary challenges faced by individuals for whom basic survival is not a given, and the knowledge and skills necessary to create designs that respond appropriately to those unique circumstances. Provides a foundation for further study and practice in the area of technology and development. Suggested Background: IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3620 - Mobile App Development (3 Credits)

Introduces mobile application development, including front-end mobile application clients, data handling, connectivity to back-end services and cloud hosting. The course provides an overview and comparison of technical approaches employed by Apple iOS, Google Android, and cross-platform development environments. Students will install, develop, test, and distribute mobile applications while addressing challenges associated with development for any mobile platform: limited screen size and memory, gesture based GUI, varying connectivity, and the wide variety of target mobile devices. Suggested Background: IWKS 2300 or similar computing experience. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3700 - Innovation and Society (3 Credits)

Analyzes impact of innovative design on work, sense of self and social systems, in education, healthcare, finance, and other sectors. Investigates how people customize / "hack" technologies they use, and the moral / ethical implications of being designers. Students will research the impact of an innovation of their choice and share via essays, models, videos, or another medium of their choice. Suggested Background: None. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3850 - Product Design (3 Credits)

Explores the design requirements associated with creating a product that will be manufactured in large quantities and used by potentially thousands of users. These requirements are often very different from those associated with creating a working prototype. This gap between prototype creation and starting a business offers an interesting and unique set of design challenges. As part of the course, teams of students will engage in a realistic product design cycle. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4100 - Advanced Human-Centered Design and Prototyping (3 Credits)

Explores user-centered design paradigm from a broad perspective, emphasizing how user research and prototype assessment can be integrated into different phases of the design process. Teams of students develop expertise in the design, development, and critique of solutions to important human problems. Suggested background: IWKS 2100 & 3100. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4120 - IoT: The Internet of Things (3 Credits)

In a world where everything is connected to everything else, how does that work? This course introduces techniques for (1) designing systems that can sense the environment and respond to humans in meaningful ways and (2) creating networks of physical objects that collect and exchange data. Such systems might include wearable sensors, interactive art, and Internet-connected home devices. Working individually and in teams, students will develop projects using Inworks' materials, devices, and fabrication tools. The course involves considerable prototyping and software development but requires only introductory programming and prototyping experience. Suggested Background: IWKS 2100 & 2300. Cross-listed with CSCI 2942. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4450 - Game Design and Development II (3 Credits)

Continuation of IWKS 3400, with increased emphasis on more advanced techniques including 3D rendering; lighting simulation; vertex, pixel and geometry shaders; shadows; terrain building; bump, parallax, and parallax occlusion mapping; shading; ray tracing; bloom; and high dynamic range lighting. Suggested Background: IWKS 3400. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4500 - Bio-Design and Innovation (3 Credits)

Introduces the biodesign innovation process, which involves identifying important human needs and inventing meaningful solutions to address them. The course examines how biotechnology and bio-inspired innovation improve the form and function of our design world through innovative materials and novel approaches to developing buildings, food, medicine, infrastructure and more. Readings and in-class debates will raise critical issues in contemporary bioethics. For their final projects, students will choose to create and prototype a speculative biodesign concept, or work in the bio lab on the development of a real-world biodesign solution of their choosing. Suggested Background: IWKS 2100 & 3100. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4520 - Design for Healthful Human Longevity (3 Credits)

Introduces contemporary studies, therapies, theories, and research on aging, age related disease, and innovations for longer healthier human lives. Guest lecturers, seminar discussions, readings and discussions will inform student projects that address challenges to prolonged, healthy, disease-free lives. Suggested Background: IWKS 2100 and 3700. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4650 - Innovating for the Developing World (3 Credits)

Explores the design of products and services that can be sustainably used by the world's poorest citizens. Students design, implement and evaluate solutions to real problems in the developing world. Provides a foundation for further study and practice. Suggested Background: IWKS 3500 & 3600. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4680 - Case Studies in Design (3 Credits)

Explores why some projects succeed and others fail. Many human-centered interventions fail to meet their designers' objectives, reflecting the unique challenges associated with matching human need with feasibility. Explores how innovators can increase their chances for success by examining several successful (and unsuccessful) designs. Suggested Background: IWKS 2100 & 3700. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4700 - Unconventional Design for Online Learners (3 Credits)
Explores how design-thinking and user-centered design can be used to develop and improve technology-mediated learning. Using a team-based project-oriented approach, students design, develop, and evaluate new modalities for digital education. Projects include ways to educate both general and targeted audiences. Suggested Background: IWKS 3700. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4800 - StartUp: Creating a New Venture from Scratch (4 Credits)
Teams of students are guided to create and launch a new company in a single semester. Culminates in a "pitchfest" to area entrepreneurs and venture capitalists. One of two alternative capstone courses for the Inworks Minor in Design and Innovation. Requires enrollment in the Inworks HCDI minor or certificate, or instructor permission. Suggested Background: Completion of at least three other Inworks courses. Max hours: 4 Credits.

Grading Basis: Letter Grade

IWKS 4900 - Undergraduate Capstone (4 Credits)
Working closely with project sponsors, students design, implement, and evaluate a project for use in local industry and non-profit organizations. One of two alternative capstone courses for the Inworks Minor in Design and Innovation. Prereq: IWKS 2100 and enrollment in the Inworks HCDI minor or certificate. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: IWKS 2100 and enrollment in the Inworks HCDI minor or certificate

IWKS 4930 - Special Topics in Human Centered Design and Innovation (1-4 Credits)
Emergent issues and professional developments in design, innovation and prototyping. Consult the current online Inworks Course List for semester offerings as new special topics courses are frequently added. With permission, may be repeated for credit. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

IWKS 4970 - Independent Study in Human Centered Design and Innovation (1-4 Credits)
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to design, innovation and prototyping. With permission, may be repeated for credit. Enrollment requires permission of an Inworks faculty member. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Human-Centered Design and Innovation Minor

Introduction

The Inworks minor in Human-Centered Design and Innovation (HCDI) is a flexible six-course program that allows you to explore Design Thinking, Computational Thinking, and Radical Interdisciplinarity, building toward Innovation.

Inworks is a space that catalyzes meaningful collaboration, and students of all majors will find a place here. Why collaborate with students of different majors? The hardest problems we face need solutions, which are often found at the intersection of different disciplines. Without people

from across the spectrum coming together, those solutions might not be discovered.

Also, no matter what you're studying, a focus on human-centered design will help you to deepen your understanding of the problems in your field, making you more effective as you navigate them.

Please contact your undergraduate advisor about adding the undergraduate minor in HCDI or email us at inworks@ucdenver.edu for more information.

Human-Centered Design and Innovation Undergraduate Certificate

Introduction

Providing a basic understanding of design and innovation processes, the Inworks undergraduate certificate in Human-Centered Design and Innovation (HCDI) will prepare you to contribute to interdisciplinary teams that seek to address complex human problems.

Please contact your undergraduate advisor about adding the undergraduate certificate in HCDI or email us at inworks@ucdenver.edu for more information.

Mechanical Engineering

Chair: Samuel W. J. Welch

Overview

Mission Statement

The mission of the Department of Mechanical Engineering is to contribute to the economic development of the state of Colorado and the Denver metropolitan area by providing high-quality bachelor's, master's (MS and MEng) and PhD programs in mechanical engineering for a diverse group of working students.

Program Objectives

The program offered by the Department of Mechanical Engineering of the University of Colorado Denver can be completed in the afternoon and evening hours to accommodate both working and traditional students. The department seeks to graduate a diverse population of students with a bachelor's degrees who within a few years of graduation are able to:

1. be employed by a diverse group of industries, research laboratories and educational institutions
2. pursue careers in engineering, interdisciplinary areas, research and education
3. pursue post-graduate education and advanced degrees.

Undergraduate Information

The mechanical engineer is concerned with satisfying the needs of society using a combination of material, human and economic resources. Mechanical engineering covers a wide spectrum of activities in the engineering profession. These activities include the conversion and

transmission of energy and associated power processes; the kinematic, dynamic, strength and wear considerations, as well as economic aspects of the development, design and use of materials, machines and processes; and the analysis, synthesis and control of entire engineering systems.

The mechanical engineering curriculum begins with a strong emphasis on mathematics, physics and chemistry. It continues with a concentration in engineering sciences, including solid and fluid mechanics; thermodynamics, heat and mass transport; materials; and systems analysis and control. It concludes with laboratory and design courses that demonstrate the ways in which scientific knowledge is applied in the design and development of useful devices and manufacturing processes.

The mechanical engineering program may be roughly subdivided into two-year groupings. In the first two years, the program emphasizes the fundamentals of mathematics and basic science that are essential for an understanding of most branches of engineering. In the last two years of the program, the curriculum emphasizes engineering science and design and provides technical electives in the following areas:

- thermodynamics
- heat transfer
- fluid mechanics
- solid mechanics
- motorsports engineering
- bioengineering
- dynamics and controls
- computer-aided design and manufacturing
- composite materials
- additive manufacturing
- computational solid and fluid mechanics
- design engineering and science

Concurrent Bachelor's/Master's Degrees

In addition to the bachelor of science in mechanical engineering, the department offers a concurrent bachelor's/master's degree. Students wishing to obtain a BS degree with a major in mechanical engineering and either the MS or the MEng degree in mechanical engineering may do so with up to 6 semester hours of 5000-level or above courses applying to both degrees. The 5000-level courses must meet the degree requirements for the graduate degree sought and must be suitable technical electives for the undergraduate degree. This option is open only for students seeking both degrees at CU Denver. Students must meet admission requirements to be accepted into the graduate program. Completion of two 5000-level courses does not guarantee admission into the graduate program. Please see an advisor for restrictions and guidelines.

Programs

- Mechanical Engineering, BS (p. 291)

Faculty

Associate Professors:

R. Dana Carpenter, PhD, Stanford University

Kannan N. Premnath, PhD, Purdue University

Ronald A. L. Rorrer, PhD, Virginia Polytechnic Institute and State University, PE-Colorado

Samuel W. J. Welch, PhD, University of Colorado Boulder

Christopher M. Yakacki, PhD, University of Colorado Boulder

Assistant Professors:

Maryam Darbeheshti (clinical teaching track), PhD, University of Denver

Guoying Dong, PhD, McGill University

Brecca Gaffney, PhD, University of Denver

Kai Yu, PhD, Georgia Tech University

Senior Instructor:

Joseph F. Cullen Jr., MS, University of Colorado

Instructor:

Douglas Gallagher, BS engineering physics, Colorado School of Mines

Professors Emeriti:

James Gerdeen, PhD, Stanford University

Peter E. Jenkins, PhD, Purdue, MBA, Pepperdine, Professional Engineer, PE-Texas

J. Kenneth Ortega, PhD, University of Colorado Boulder

Associate Professor Emeritus:

B. Thomas Arnberg, MS, University of Colorado

Engineering (ENGR)

ENGR 1100 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with IWKS 2300. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGR 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects or design. Max hours: 3 Credits.

Grading Basis: Letter Grade

Mechanical Engineering (MECH)

MECH 1025 - CAD and Graphics for Mechanical Engineering (3 Credits)

Introduction to 3-D computer-aided design software, solid modeling, industry-standard engineering drawing practices, and engineering graphics. Applications to mechanical engineering. Prereq: High School Geometry and Algebra. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 1045 - Manufacturing Processes Design (3 Credits)

Basic manufacturing background will be provided to engineering students in order to: (1) apply manufacturing specifications to the design of mechanical devices, and (2) communicate with technical personnel in a production environment. Topics cover metal casting, bulk and sheet metal forming, material removal and joining and fastening processes. Prereq: MECH 1025 or CVEN 1025 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 1025 or CVEN 1025 with a C- or higher

MECH 1208 - Special Topics (1-3 Credits)

Subject matter to be selected from topics of current technological interest. Credit to be arranged. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

MECH 2023 - Statics (3 Credits)

A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311 with a C- or higher. Coreq: MATH 2411. Cross-listed with CVEN 2121. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2311 with a grade of C- or higher Coreq: MATH 2411

MECH 2024 - Introduction to Materials Science (3 Credits)

The development of the physical principles relating the structural features of materials to their observed properties. Prereq: ENGR 1130 or CHEM 1130 or (CHEM 2031 and CHEM 2038 and CHEM 1999AE). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGR 1130 or CHEM 1130 or (CHEM 2031 and CHEM 2038 and CHEM 1999AE) with a C- or higher.

MECH 2030 - Analysis Techniques in Mechanical Engineering (3 Credits)

Introduces experimental methods and mathematical analysis used in engineering. Spreadsheets are used to analyze engineering data and prepare tables and graphs. Introduction to computer programming using MATLAB. Prereq: MATH 1401 and MECH 1025 with a grade of C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 and MECH 1025 with a C- or higher

MECH 2033 - Dynamics (3 Credits)

A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, and general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies, energy and momentum methods for particles, systems of particles, and rigid bodies. Prereq: MECH 2023 or CVEN 2121 with a C- or higher. Cross-listed with CVEN 3111. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023 or CVEN 2121 with a C- or higher

MECH 2034 - Properties of Engineering Materials (1 Credit)

Experiments to determine material properties and the effect of processing on properties important in mechanical design. Materials include metal, polymers, and composites. Loadings include tension, compression, and bending under static, dynamic impact and creep states. Coreq: MECH 2024. Max hours: 1 Credits.

Grading Basis: Letter Grade

Coreq: MECH 2024

MECH 2208 - Special Topics: 2208-2298 (1-3 Credits)

Subject matter to be selected from topics of current technological interest. Credit to be arranged. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

MECH 3010 - Elementary Numerical Methods and Programming (3 Credits)

A development of basic numerical methods used to solve engineering problems. Introduction to MATLAB to implement numerical simulations. Coreq: MATH 3195 (or MATH 3191 and MATH 3200). Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: MATH 3195 (or MATH 3191 and MATH 3200). Restricted to majors in CEDC Mechanical Engineering.

MECH 3012 - Thermodynamics (3 Credits)

Introduces thermodynamic properties and state relationships, processes and cycles with work and heat transfer. Applications of the first and second laws to energy-related engineering systems. Prereq: MATH 1401 and PHYS 2311 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 and PHYS 2311 with a C- or higher

MECH 3021 - Introduction to Fluid Mechanics (3 Credits)

Applies exact and approximate theories to engineering problems in fluids. Examples include potential flow theory, Euler's equations for inviscid fluids, Bernoulli's equations, Navier-Stokes equations, and pipe flow. Prereq: MECH 2033, MECH 3012 and MATH 2421 with a grade C- or higher. Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033, MECH 3012 and MATH 2421 with a grade C- or higher. Restricted to majors in CEDC Mechanical Engineering.

MECH 3022 - Thermodynamics II (3 Credits)

Generalized thermodynamic cycles; general thermodynamic cycle considerations, compressor, expander, heat exchanger processes, refrigeration cycles, mixtures and combustion. Prereq: MECH 3012 or ENGR 3012 and MATH 2421 with a C- or higher. Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: (MECH 3012 or ENGR 3012) AND MATH 2421 with a C- or higher
Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 3023 - System Dynamics I: Vibrations (3 Credits)

Modeling of dynamical systems. Analysis of single and multiple degree of freedom systems. Introduction to continuous systems. Prereq: CVEN 3111 or MECH 2033 with C- or higher; MATH 3195 or MATH 3191 and MATH 3200 and MECH 3010 with a C- or higher. Coreq: CVEN 3121 or MECH 3043. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033 or CVEN 3111 and (MATH 3195 or MATH 3191 and MATH 3200) and MECH 3010 with a grade of C- or higher Coreq: MECH 3043 or CVEN 3121 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3027 - Measurements (3 Credits)

Principles of digital and analog measurements; systems for sensing, transporting, modifying, and outputting information; systematic and random error analysis. The laboratory includes a variety of instruments and components illustrating fundamental experimental measurement techniques and methods. Prereq: MECH 3030 or ELEC 3030, MATH 3195 or (MATH 3191 & MATH 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3030 or ELEC 3030, MATH 3195 or (MATH 3191 MATH 3200) with a C- or higher. Restricted to majors in CEDC Mechanical Engineering.

MECH 3028 - Laboratory of Mechanical Measurements (1 Credit)

Modern techniques for Mechanical measurements. Laboratory includes techniques for the calibration of transducers and analysis of Statistical uncertainty. Data Acquisition Systems used for Signal acquisition and measurement of common mechanical quantities, such as displacement, velocity, acceleration and force. Design and characterization of a second order measurement system based on strain gages. Coreq: MECH 3027.

Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: MECH 3027

MECH 3030 - Electric Circuits and Systems (3 Credits)

Basic electrical engineering concepts for non-majors. Basic study of circuit analysis (RLC and Op-amps), transformers and motor equations, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331 with a C- or higher. Restricted to majors in CEDC Mechanical Engineering. Cross-listed with ELEC 3030. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 and PHYS 2331 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3031 - Fluids/Thermal Laboratory (1 Credit)

Laboratory exercise in compressible and incompressible fluid flow; steady state and transient heat transfer. Prereq: MECH 3012 with a grade of C- or higher. Coreq: MECH 3021 and CVEN 3313. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 1 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3012 with a C- or higher Coreq: MECH 3021 or CVEN 3313 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3032 - Electric Circuits and Systems Lab (1 Credit)

Basic electrical engineering lab for MECH majors. Coreq: MECH 3030 or ELEC 3030. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 1 Credits.

Grading Basis: Letter Grade

Coreq: MECH 3030 or ELEC 3030 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3035 - Design of Mechanical Elements (3 Credits)

Review of mechanics of materials and stress analysis; detailed design of various machine elements such as fasteners, springs, brakes and gears. Includes design project. Prereq: MECH 2024 and MECH 3043 with a grade C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2024 and MECH 3043 with a grade C- or higher. Restricted to majors in CEDC Mechanical Engineering.

MECH 3042 - Heat Transfer (3 Credits)

Basic laws of heat transfer by conduction, convection, and radiation with engineering design applications. Includes design project. Prereq: MECH 3021 with a grade C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3021 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3043 - Strength of Materials (3 Credits)

Application of exact and approximate theories of stress and displacement to engineering problems in solids. Examples include torsion of rods and bending of beams. Combined stresses, principal stresses and energy methods are examined. Prereq: MECH 2023 or CVEN 2121 with a C- or higher. Cross-listed with CVEN 3121. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023 or CVEN 2121 with a C- or higher

MECH 3045 - Principles of Additive Manufacturing (3 Credits)

This course will introduce students to additive manufacturing (AM) techniques and design for additive manufacturing (DfAM). Additive manufacturing is no longer thought of as simply "rapid prototyping," but is influencing the way manufacturing is performed at almost every level of the product lifecycle. It will influence practically every manufacturing system of the future. This course will cover the fundamentals, applications, and implications of AM such that students will understand why and when to use AM, as well as challenge their traditional thinking of design and what is possible. At the end of this course, students should be able to: (1) Describe the 7 processes of AM, and understand their advantages and limitations. (2) Have hands-on experience in using several different AM processes, including building, modifying, and repairing their own AM machine. (3) Understand the wide variety of AM applications beyond prototyping. This includes tooling, production, performance improvement, customization, art, and more. (4) Understand how AM can be used in a product's lifecycle from beginning to end. (5) Use "generative design software" and "topology optimization" to unlock complex designs to be created with AM. (6) Assess the cost and value of AM processes. Prereq: MECH 1045 and MECH 2024 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 1045 and MECH 2024 with a grade of C- or higher.

MECH 3065 - Intermediate Dynamics (3 Credits)

An in-depth study of Newtonian dynamics with constraints. Mechanism synthesis using graphical and analytic techniques. Prereq: MECH 2033 or CVEN 3111 and MECH 3010 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033 or CVEN 3111 and MECH 3010 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3147 - Bioengineering (3 Credits)

Explores engineering principles that have application in biology, and principles discovered in biology which may have application in engineering. Some topics covered are: cell biology, molecular biology, viscoelasticity, physical theory of plant cell growth aerodynamics, fluid mechanics, biofluid dynamics and animal flight. Restriction: Restricted to MECH majors with junior standing within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MECH majors with junior standing within the College of Engineering, Design and Computing

MECH 3208 - Special Topics (1-3 Credits)

Subject matter to be selected from topics of current technological interest. Credit to be arranged. Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3840 - Independent Study (1-3 Credits)

This category is intended for upper-division level special topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3939 - Internship (1-3 Credits)

Undergraduate internship course for credit. Must be approved by department and handled subject to experiential learning office rules. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4020 - Biomechanics (3 Credits)

Static and dynamic biomechanical analysis, effects of mechanical loading on bone and cartilage, design considerations in orthopaedic devices, muscle function, biomechanics of human movement, cardiovascular biomechanics. Prereq: MECH 2023, 2033, MATH 3195 or 3200 with a C- or higher. Cross-listed with MECH 5020. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023, 2033, MATH 3195 or 3200 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing Typically Offered: Summer.

MECH 4023 - System Dynamics II: Controls (3 Credits)

Introduces the Laplace Transformation. Control system analysis using root locus and frequency response methods. Basic compensation techniques are to be covered. Prereq: MECH 3023 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3023 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4024 - Mechanical Behavior of Materials (3 Credits)

Studies the response of materials to applied stresses. Emphasis is on the understanding of the relationships between structure and properties. Fracture mechanics and fatigue are introduced. Prereq: MECH 3024 with a C- or higher. Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5024. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3024 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4025 - Advanced Biomechanics (3 Credits)

This course provides training in computational and experimental methods for biomechanical engineering analysis. Topics include finite element analysis of biological systems, orthopedic device design, medical imaging analysis, mechanical characterization of biological tissues, and biomechanics of human movement. Prereq: MECH 4020. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 4020

MECH 4035 - Senior Design I (3 Credits)

Group and individual projects to design engineering components and systems. Design methodology, product specs, creativity, design reviews, communication, presentations, and report writing are emphasized.

MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 3035 with a grade C- or higher and 40 hours of MECH courses. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3035 with a grade C- or higher and 40 hours of MECH courses. Restricted to majors in CEDC Mechanical Engineering.

MECH 4045 - Senior Design II (3 Credits)

Student teams manufacture and construct and/or redesign mechanical parts or assemblies that they designed in previous course (MECH 4035). A proposal, oral progress reports, and a final written report and demonstration are required. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 4035 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 4035 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4110 - Numerical Methods for Engineers (3 Credits)

Introduces numerical analysis. Solution of linear and nonlinear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: MATH 3195 or (3191 and 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3195 OR (MATH 3191 and 3200) with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 4112 - Internal Combustion Engines (3 Credits)

Students obtain a sufficient understanding of internal combustion engines that will allow them to perform analysis of combustion thermodynamics and actual cycles, including heat addition, heat loss, air/fuel flow, and engine design and performance. Prereq: MECH 3012 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5112. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3012 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4114 - Designing with Composites (3 Credits)

Analysis and design of polymers and polymer-based composites. Failure criteria include static strength, stiffness, creep, fatigue, impact and fracture toughness. Design criteria include strength-to-weight ratio and cost-to-strength ratio. Prereq: MECH 3043 or CVEN 3121 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5114. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3043 or CVEN 3121 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4115 - Applied Plasticity and Creep (3 Credits)

Plastic deformation of materials applied to bulk and sheet metal manufacturing processes such as extrusion, rolling and sheet metal. Linear and nonlinear viscoelastic creep with applications to plates and shells. Prereq: MECH 3043 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5115. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3043 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4116 - Robotics (3 Credits)

Introduces kinematics, dynamics, and control of robot manipulators. Emphasis is placed on computer use in control of actual robots and in computer simulation of mathematical models of robots. Students must turn in a project report based on the computer simulation. Prereq: MECH 3065 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3065 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4120 - Methods of Engineering Analysis (3 Credits)

Selected topics from real analyses with applications to engineering analyses. Topics include vector calculus, ordinary differential equations, partial differential equations, and calculus of variations. Prereq: MATH 3195 or (MATH 3191 and MATH 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5120. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3195 OR (MATH 3191 and 3200) with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 4132 - Power Plant Systems Design (3 Credits)

Detailed engineering analysis and design of a thermal power plant, including heat balance, selection of equipment (boiler, turbines, heat exchangers, pumps, cooling tower), performance evaluation, economic evaluation and feasibility studies. Prereq: MECH 3022 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3022 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4135 - Mechanical Systems Design (3 Credits)

Detailed engineering design of mechanical systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 3035 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3035 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4136 - Control Systems Design (3 Credits)

Detailed engineering design of control systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 4023 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 4023 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4141 - Fluid Mechanics (3 Credits)

Viscous incompressible fluid flows. Topics include derivation of equations governing viscous compressible fluid motion; specializations to simple flows; boundary-layer theory; similarity solutions; introduction to turbulence and Reynolds stresses. Prereq: MECH 3021 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5141. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3021 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4142 - Thermal Systems Design (3 Credits)

Detailed engineering design of thermal/fluids systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 3010, MECH 3021, and MECH 3042 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3010, MECH 3021 and MECH 3042 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering.

MECH 4147 - Engineering Economy (3 Credits)

Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth, and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Restriction: Restricted to MECH majors at the junior or higher level standing within the College of Engineering, Design and Computing. Cross-listed with CVEN 4077. Max Hours: 3 Credits. Semester Hours: 3 to 3

Grading Basis: Letter Grade

Restriction: Restricted to MECH majors at the junior or higher level standing within the College of Engineering, Design and Computing

MECH 4155 - Air Conditioning Design (3 Credits)

Basic principles of heating and ventilating systems. Determination of heating and cooling loads. Design and layout of heating, ventilating, and air conditioning systems. Includes design project. Prereq: MECH 3022 and MECH 3042 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3022 and 3042 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4160 - Introduction to Operations Research (3 Credits)

Introduces operations research, including mathematical programming models, models for decision alternatives, for procurement and inventory, and for queuing operations. Prereq: MATH 3195 or (MATH 3191 and MATH 3200) with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3195 OR (MATH 3191 and 3200) with a C- or higher
Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 4163 - Rigid-Body Dynamics (3 Credits)

Review of Newtonian dynamics, Lagrange's equations for particles, systems, and rigid bodies. Conservative and non-conservative systems, moments of inertia, principal axes, angular momentum and Euler equations. Illustrations from spinning bodies, including tops, gyro-compass and rotating machinery. Prereq: MECH 2033 or CVEN 3111, MATH 3195 or (MATH 3191 and MATH 3200) with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5163. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033 or CVEN 3111 and (MATH 3195 or MATH 3191 and MATH 3200) with a grade of C- or higher. Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4166 - Computerized Numerical Control (CNC) Manufacturing (3 Credits)

Modern manufacturing engineering concepts using computerized numerical control (CNC). The students learn state-of-the-art CNC methodologies, including digitizing, drawing, generating codes, and manufacturing, using modern CNC machines. Restriction: Restricted to MECH majors with junior standing within the College of Engineering, Design and Computing. Cross-listed with MECH 5166. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MECH majors with junior standing within the College of Engineering, Design and Computing

MECH 4175 - Finite Element Analysis in Machine Design (3 Credits)

Students learn basic theory of finite element analysis (FEA) as it applies to stress analysis and design of mechanical components. Commercial package will be used giving students practical experience in the use of FEA. Prereq: MECH 3035 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5175. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3035 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4176 - Introduction to Sports Engineering (3 Credits)

Sports Engineering requires working both with the principles of biomechanics and the principles of engineering design and analysis. Using biomechanics is necessary in understanding the forces on the interface between the human athlete and his/her equipment. Recommended Prereq: MECH 2033, 3012 and 3021. Cross-listed with MECH 5176. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4177 - Energy Conversion (3 Credits)

This introductory Energy Conversion course introduces the basic background, terminology, and fundamentals of various forms of energy conversion. The topics covered will include: fuel cells, batteries, photovoltaic systems, solar thermal, and wind energy. Recommended Prereq: MECH 3012. Cross-listed with MECH 5177. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4178 - Solar Engineering (3 Credits)

This course provides the student with the basic ideas and calculation procedures on how solar processes work and how their performance can be predicted. Recommended Prereq: MECH 3012. Cross-listed with MECH 5178. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4179 - Introduction to Turbomachinery (3 Credits)

This introductory Turbomachinery course introduces the basic background, terminology, and fundamentals of various forms of turbomachines. The analysis of the various turbomachines will be focused on the performance of the turbomachine. Recommended Prereq: MECH 3012. Cross-listed with MECH 5179. Max hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4195 - Solid Modeling (3 Credits)

This is a basic course in solid modeling using Solid Works computer software. Topics include feature-based modeling, parametric part design, parent/child relationships, use of datums, patterning, relations, sweeps, blends, assembly, tolerancing, rapid prototyping, CNC manufacturing, CMM inspection, and Step standards. Restriction: Restricted to major in CEDC Mechanical Engineering with junior standing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MECH majors with junior standing within the College of Engineering, Design and Computing

MECH 4208 - Special Topics (1-3 Credits)

Subject matter to be selected from topics of current technological interest. Credit to be arranged. Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5208. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4228 - Special Topics (1-3 Credits)

Prereq: MECH 3032 (Electric Systems-Circuits Lab). Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: MECH 3032.

MECH 4238 - Special Topics (1-3 Credits)

Restricted to majors in CEDC Mechanical Engineering. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4840 - Independent Study (1-3 Credits)

This category is intended for upper division level special topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Restriction: Restricted to majors in CEDC Mechanical Engineering. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

Mechanical Engineering, BS

Introduction

Please click here (p. 284) to see Mechanical Engineering department information.

The mechanical engineer is concerned with satisfying the needs of society using a combination of material, human and economic resources. Mechanical engineering covers a wide spectrum of activities in the engineering profession. These activities include the conversion and transmission of energy and associated power processes; the kinematic, dynamic, strength and wear considerations, as well as economic aspects of the development, design and use of materials, machines and processes; and the analysis, synthesis and control of entire engineering systems.

The program offered by the Department of Mechanical Engineering of the University of Colorado Denver can be completed in the afternoon and evening hours to accommodate both working and traditional students. The department seeks to graduate a diverse population of students with a bachelor's degrees who within a few years of graduation are able to:

1. be employed by a diverse group of industries, research laboratories and educational institutions
2. pursue careers in engineering, interdisciplinary areas, research and education
3. pursue postgraduate education and advanced degrees

The mechanical engineering curriculum begins with a strong emphasis on mathematics, physics and chemistry. It continues with a concentration in engineering sciences, including solid and fluid mechanics; thermodynamics, heat and mass transport; materials; and systems analysis and control. It concludes with laboratory and design courses that demonstrate the ways in which scientific knowledge is applied in the design and development of useful devices and manufacturing processes.

The mechanical engineering program may be roughly subdivided into two-year groupings. In the first two years, the program emphasizes the fundamentals of mathematics and basic science that are essential for an understanding of most branches of engineering. In the last two years of the program, the curriculum emphasizes engineering science and design and provides technical electives in the following areas:

- thermodynamics
- heat transfer
- fluid mechanics
- solid mechanics
- motorsports engineering
- bioengineering
- dynamics and controls
- computer-aided design and manufacturing
- composite materials
- additive manufacturing
- material science
- computational solid and fluid mechanics
- design engineering and science

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Engineering, Design and Computing Graduation Requirements (p. 236)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. CVEN 2121 Analytical Mechanics I and CVEN 3111 Analytical Mechanics II may be substituted for MECH 2023 Statics and MECH 2033 Dynamics respectively.
2. Not all courses may be offered every semester.
3. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
4. Students must maintain a minimum 2.0 GPA in all MECH courses attempted.
5. Students must complete a minimum of 128 semester hours of course work.
6. The last 30 hours must be earned as a degree-seeking student in the College of Engineering, Design and Computing at CU Denver.

Code	Title	Hours
Required Courses		
MECH 1025	CAD and Graphics for Mechanical Engineering	3
ENGR 1100	Fundamentals of Computational Innovation	3
ENGR 1200	Fundamentals of Engineering Design Innovation	3
MECH 2023	Statics	3
or CVEN 2121	Analytical Mechanics I	
MECH 2033	Dynamics	3
or CVEN 3111	Analytical Mechanics II	
ELEC 3030	Electric Circuits and Systems	3
MECH 1045	Manufacturing Processes Design	3
MECH 2024	Introduction to Materials Science	3
MECH 2034	Properties of Engineering Materials	1
MECH 3010	Elementary Numerical Methods and Programming	3
MECH 3012	Thermodynamics	3
MECH 3021	Introduction to Fluid Mechanics	3
MECH 3022	Thermodynamics II	3
MECH 3023	System Dynamics I: Vibrations	3
MECH 3027	Measurements	3
MECH 3028	Laboratory of Mechanical Measurements	1
MECH 3031	Fluids/Thermal Laboratory	1
MECH 3032	Electric Circuits and Systems Lab	1
MECH 3035	Design of Mechanical Elements	3
MECH 3042	Heat Transfer	3

MECH 3043	Strength of Materials	3
MECH 4023	System Dynamics II: Controls	3
MECH 4035	Senior Design I	3
MECH 4045	Senior Design II	3
MECH 4142	Thermal Systems Design	3

Technical Electives

Select 6 semester hours of the following:	18

MECH 2208/4208/5208	Special Topics: 2208-2298 ¹	
MECH 3045	Principles of Additive Manufacturing	
MECH 3147	Bioengineering	
MECH 3208	Special Topics	
MECH 3939/5939	Internship	
MECH 4020/5020	Biomechanics	
MECH 4025/5025	Advanced Biomechanics	
MECH 4110	Numerical Methods for Engineers	
MECH 4112	Internal Combustion Engines	
MECH 4114	Designing with Composites	
MECH 4116	Robotics	
MECH 4120	Methods of Engineering Analysis	
MECH 4141	Fluid Mechanics	
MECH 4147	Engineering Economy	
MECH 4155	Air Conditioning Design	
MECH 4163	Rigid-Body Dynamics	
MECH 4175	Finite Element Analysis in Machine Design	
MECH 4176	Introduction to Sports Engineering	
MECH 4177	Energy Conversion	
MECH 4178	Solar Engineering	
MECH 4179	Introduction to Turbomachinery	
MECH 4228/5228	Special Topics (Special Topics)	
MECH 4238	Special Topics (Special Topics)	

Mathematics

MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 2421	Calculus III	4
MATH 3195	Linear Algebra and Differential Equations	4

Science

ENGR 1130	Chemistry for Engineers	5
PHYS 2311	General Physics I: Calculus-Based	4
PHYS 2321	Intro Experimental Phys Lab I	1
PHYS 2331	General Physics II: Calculus-Based	4
PHYS 2341	Intro Experimental Phys Lab II	1

Total Hours	116

¹ Intro to Comp Fluid Dynamics, Buckling & Stability, Prototyping, Low Speed Aerodynamics, Feedback and Optimal Control, Tribology, Intermediate Controls, Road Vehicle Dynamics, IC Engines, Linear Optimal Control, Experimental Mechanics, Vehicle Instrumentation, LA Green Roof, Introduction to Aerodynamics, Vehicle Design, Polymer Viscoelasticity, Robotics

Undergraduate Student Academic Advice and Information

Undergraduate Advising Office

North Classroom, 1030

Phone: 303-315-7100

Email: CLAS_Advising@ucdenver.edu

Website: <https://clas.ucdenver.edu/advising/>

Students in the college are expected to assume responsibility for planning their academic programs in accordance with college policies and major requirements. To assist undergraduate students, the college maintains the CLAS Academic Advising Office. Students meet with a CLAS staff advisor upon matriculation into the college through one of the established orientations for first-year freshmen or transfer students.

Undergraduate students can find their assigned CLAS staff advisor in the “Advisor” box in their Student Center. The CLAS staff advisor advises undergraduate students about CU Denver and CLAS graduation requirements, and certifies that CU Denver core requirements and CLAS graduation requirements have been met.

As soon as students have determined a major, minor or certificate granting program they should meet with a faculty advisor as early in their career as possible. The faculty advisor will be responsible for the student’s major, minor or certificate advising and for certification of the completion of program requirements at graduation.

Students planning to ultimately earn a degree from one of the professional schools should also see an advisor in that school or college.

The mission of the College of Liberal Arts and Sciences is to foster academic excellence, to create and impart knowledge critical to a modern society and a global economy, and to ensure the acquisition of skills essential for professional careers and graduate study. Our vision is to enact a new paradigm for a liberal arts education that retains the proven values of a broad education while imparting career-oriented skills throughout the curriculum.

Today’s university graduates need to be critical thinkers who are able to apply knowledge and skills from multiple disciplines to unscripted, real-world problems. A College of Liberal Arts and Sciences (CLAS) education involves mastery of essential learning outcomes, such as creative problem solving, oral and written communication, quantitative literacy, intercultural competence, and ethical reasoning, which provide students with the tools to become lifelong learners who are adaptive and innovative. While establishing a broad foundational education, CLAS gives students the opportunity to dig deeply into disciplinary and interdisciplinary majors, which train them in scholarly fields, traditions, and methods of analysis. This combination of breadth and depth prepares students for our twenty-first century world, which requires flexibility and mobility, as new jobs develop and careers change at an ever-faster pace. CLAS graduates enter a wide variety of occupations and pursue advanced degrees in academia and in professions like law and medicine.

The CLAS curriculum provides rigorous academic programs while offering a number of flexible learning opportunities, such as the Individually Structured Major, to meet our students’ varied needs and objectives. The college draws on our downtown location and makes use of the city’s many resources through student internships, experiential learning programs, and partnerships with Denver businesses and non-profit organizations. CLAS students have excellent opportunities to participate in first-class faculty research, and the college prides itself on its faculty-mentored undergraduate research programs and applied research in the community.

Explore CLAS Undergraduate programs here (p. 293).

College of Liberal Arts and Sciences Educational Goals

A CU Denver liberal education combines world-class knowledge in specific disciplines with the comprehensive skills and dispositions that students need for success and that our society needs its citizens to possess. In a world where content knowledge rapidly becomes obsolete and where graduates may have a dozen different jobs, these skills and dispositions are crucial. Employers increasingly look for employees who

can think critically, communicate clearly, and solve complex problems. A liberal education may be the most vocational education that today’s student can earn. A liberal arts and sciences education truly is “learning with purpose.”

The College of Liberal Arts and Sciences provides undergraduates at CU Denver with a broad and multilayered education consisting of:

1. **In-depth knowledge** of the major disciplines of the humanities, natural and physical sciences, and social and behavioral sciences that call the College of Liberal Arts and Sciences home.
2. **Intellectual and practical skills**, including inquiry and analysis, critical thinking, creative thinking, written communication, oral communication, university-level reading, quantitative literacy, information literacy, teamwork, and complex problem solving—practiced at progressively more challenging levels.
3. **Personal and social responsibility**, including civic knowledge and engagement (local and global), intercultural knowledge and competence, ethical reasoning and action, and foundation of skills for lifelong learning.
4. **Integrative and applied learning**, synthesizing knowledge and skills from multiple disciplines and experiences to address complex, real-world problems in our diverse local, national and global communities.

College of Liberal Arts & Sciences Admissions Information

Applicants whose cumulative GPA and test scores meet or exceed the middle 50 percent range are considered strong candidates for admission to the College of Liberal Arts and Sciences. Visit the Undergraduate Admissions (p. 39) information to learn more.

College of Liberal Arts & Sciences Graduation Requirements

For additional information regarding CU Denver Graduation policies and procedures, please visit the Graduation section of the catalog.

For additional information regarding CLAS Undergraduate academic policies and procedures, please visit the CLAS Policies (p. 312) tab.

CLAS Graduation Requirements

Code	Title	Hours
<i>All CLAS majors must fulfill the CU Denver General Education Core requirements, in addition to the following CLAS Graduation Requirements.</i>		15-26

A single course may fulfill up to two requirements in the following areas: CU Denver Core Curriculum, CLAS Graduation requirements, a major program, a minor program, or a certificate program, with the following exceptions:

The course cannot fulfill more than two requirement/elective areas in a student's degree.

The course cannot fulfill two CLAS Graduation requirements.

The course cannot fulfill CLAS Graduation requirements, if it is already fulfilling CU Denver Core Curriculum.

Major, minor and certificate programs may impose restrictions around double counting courses. Students should consult catalog entries for CLAS programs to learn about program specific restrictions.

Communicative Skills

Students must complete this requirement with a minimum grade of C- or higher. Students cannot complete the Communicative Skills requirement using pass/ fail grading:

Code	Title	Hours
<i>Take one of the following</i>		3
COMM 2050	Business and Professional Speaking	
COMM 1001	Presentational Speaking	
ENGL 3001	Critical Writing	
ENGL 3084	Multimedia Composition	
ENGL 3154	Technical Writing	
ENGL 3170	Business Writing	
ENGL 4175	Writing in the Sciences	
ENGL 4190	Advanced Topics in Writing & Digital Studies	
HIST 2001	The Uses and Misuses of History	
PHIL 2441	Logic, Language and Scientific Reasoning	

Second Language Proficiency

Code	Title	Hours
<i>Students must meet the CLAS Second Language Proficiency requirement.</i>		0-10

Students can fulfill second language proficiency through one of the following ways:

- Students must complete this requirement with a minimum grade of C- or higher. Students cannot complete the Second Language Proficiency requirement using pass/ fail grading.
- Completion of a second semester or higher college-level language course taught in the designated non-English language with a minimum grade of C- (1.7). American Sign Language is included.
- Satisfactory proficiency testing (i.e. CU Denver Modern Language Placement Testing, BYU FLATS (Foreign Language Achievement Testing Services), CLEP)

- Completion of a second-year/level II high school non-English language course or higher with a minimum grade of C- (1.7) in the second semester of the second-year or later. No college credit is earned for high school coursework.
- Completion of one year of AP non-English Language & Culture, AP non-English Literature & Culture, IB non-English Language B or IB Classical Language courses with a minimum of C- (1.7) or higher. No college credit is earned for AP or IB coursework, unless the student earns a sufficient score on the corresponding exam. Note: the one year of AP or IB courses must be in the same content area and non-English or Classical language.
- Student has temporary valid non-immigrant visa status, is from a non-English speaking country and meets the CU Denver English Language Proficiency requirements for admission.
- Students whose primary language is not English may provide official documentation and/or satisfactory proficiency testing results to demonstrate their primary language proficiency.

Students who are unsure should consult with their CLAS advisor to determine whether they have met the secondary language proficiency requirement, prior to completing coursework.

Natural and Physical Sciences, Mathematics

Code	Title	Hours
<i>In addition to the CU Denver Core Curriculum requirement in Biological and Physical Sciences, students must take a second lab-based CLAS course from the CU Denver Core Curriculum Course listing for Natural and Physical Sciences, Mathematics knowledge area with a lab or a course from one of the following¹</i>		3-4
<i>College of Liberal Arts and Sciences majors must complete at least two lab science courses.</i>		

¹ Courses with BIOL, CHEM, GEOL, MATH, or PHYS may apply as long as at least two lab sciences are completed.

CU Denver Core Curriculum Knowledge Area: Natural and Physical Sciences, Mathematics (p. 104)

For additional information regarding CLAS policies and procedures, please visit the CLAS Academic Policies website (<https://clas.ucdenver.edu/faculty-staff/content/academic-policies/>).

Academic Excellence

College Honors

A student who performs superlatively in course work in the college will be awarded a bachelor's degree accompanied by the statement "with distinction". To be eligible for graduation with distinction, a student must have either completed a minimum of 45 semester CU Denver hours in the student's junior and senior years with a CU cumulative GPA of at least 3.750, or have completed a minimum of 45 semester CU Denver hours in the student's overall CU Denver career with a CU Cumulative GPA of at least 3.750. A maximum of 6 out of the final 45 CU Denver semester hours may be completed with a grade of P (on P/F option).

Departmental Honors

Departments in the college offer programs through which students can qualify for Latin honors: cum laude, magna cum laude or summa cum laude. Determination of the level of honors is made by the department. Detailed information can be obtained from the individual departments.

Dean's List

Every semester, the College of Liberal Arts and Sciences publishes a Dean's List, honoring students who demonstrate high scholastic achievement. To be eligible for the Dean's List, students must earn a minimum 3.750 semester grade point average in all CU hours taken during the semester. In addition, students must complete, for letter grades, a minimum of 9 semester hours (6 summer) in structured CLAS courses, excluding independent study, cooperative education, and internships. Term GPAs are not rounded up; therefore, a 3.750 or higher is necessary in order to qualify for the Dean's List.

Students who qualify for the CLAS Dean's List will receive notification via email from the CLAS Advising Office approximately 4-6 weeks after the end of the semester.

At this time, it is uncertain if funding for the Dean's List Scholarship will be available for the 2020-2021 academic year. Should funding become available, eligible students will be notified via email after the Spring 2021 semester ends.

Outstanding Undergraduate

Every Commencement (Summer/Fall and Spring) the College of Liberal Arts and Sciences recognizes up to two graduating students (one BA and one BS) by awarding them "Outstanding Undergraduate." This award

is merit based. Candidates will submit a written application, including letters of recommendation. Finalists will be interviewed by members of the Academic Standards Committee.

To be eligible, students must:

1. Apply for graduation on or before census date of the term they are graduating.
2. Have a 3.80 or higher cumulative CU GPA. Cumulative GPAs are not rounded up.
3. Have a total of 60 credits or more from CU Denver at the end of the semester that they are scheduled to graduate (Fall/Summer and Spring).

Requirements

The Major

The Bachelor of Arts and Bachelor of Science majors in CLAS require a minimum of 30 credit hours and no more than 56¹ credit hours of coursework in the major discipline (subject code). Interdisciplinary and individually structured (p. 492) majors may have exceptions. Minimum GPA and allowable grades: 2.0 minimum major GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS majors may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

¹ Note: Courses applying to CU Denver Core Intellectual Competency requirements (English Composition I & II and Mathematics) are not included in this calculation.

The Minor

Minors require a minimum of 15 semester hours (may be interdisciplinary). A minimum of 6 upper division semester hours are required (may be interdisciplinary (p. 492)). Minors require a minimum of 9 semester hours in residence. Minimum GPA and allowable grades: 2.0 minimum minor GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS minors may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

The Certificate

Undergraduate certificates require a minimum of 12 semester hours (may be interdisciplinary (p. 677)). A minimum of 6 upper division semester hours are required. Because a certificate is a CU certification of a student's specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residence at CU Denver. No transfer courses may be applied to CLAS certificate program requirements. Minimum GPA and allowable grades: 2.0 minimum certificate GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS certificate may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

Upper-Division Requirements

A minimum of 45 credit hours of upper-division level (3000-level or higher) coursework must be completed. A minimum of 16 upper division semester hours are required in the major discipline. Interdisciplinary and individually structured (p. 492) majors may have exceptions to the 16 credit minimum in the major discipline. Additional upper division level

credit requirements for CLAS majors, minors and certificates may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

College Minimum Grade

Undergraduate students enrolled in CLAS major, minor or certificate programs must earn a minimum grade of C- or higher in all courses that count toward their major, minor or certificate (required and elective courses). If the major/minor/certificate program wishes to require a higher grade for certain types of courses, like discipline specific capstone experiences/ senior seminars, etc., those courses need to be taken in residence from CLAS faculty/enrolled at CU Denver. If the CLAS major/minor/certificate program requires students to take ancillary courses (courses that are not taught by the major/minor/certificate program), the program may not impose higher minimum course grades for those ancillary courses. Major/minor/certificate faculty advisors reserve the right to make substitutions to in residence requirements when appropriate.

CLAS Residence Requirements

Undergraduate CLAS majors must earn a minimum of 30 credit hours with letter grades, in residence. In residence is defined as credit hours taken from the College of Liberal Arts and Sciences subject codes (<https://clas.ucdenver.edu/>), taught by CLAS faculty, while enrolled at CU Denver. Additional residence requirements for CLAS majors, minors and certificates may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

Internships

Undergraduate students may seek credit from an employment experience that contains academic content and is sponsored by a CLAS faculty member. Internships are helpful for career exploration early in a student's academic career or for job experience after developing academic content in the major.

Students must have a minimum 2.750 cumulative GPA in a minimum of 15 credit hours of CU Denver course work. A maximum of 12 credit hours of internship credit per semester and 12 credit hours overall can be applied toward the 120 credits required for graduation. There may also be limits on the number of credits permitted to take during a semester or total for a specific course ID. Undergraduate students should contact the Experiential Learning Center for details about the internship contract and faculty sponsorship requirements.

Independent Study

Independent studies are faculty-mentored, individually structured courses or research or creative projects designed and scheduled outside of the standard course grid. Independent study allows for investigations beyond the structured curriculum and classroom and exploration of content material that closely relates to faculty and student interest. However, the College of Liberal Arts and Sciences does not guarantee that credit earned through an independent study will count toward graduation requirements or be accepted as transfer credits. A maximum of 12 semester hours of independent study coursework can apply toward the 120 semester hour graduation requirement. This includes Directed Research.

The CU Denver campus requires manual registration using a Special Processing Form for students participating in independent study. This form constitutes the course syllabus agreement between faculty and student. The Special Processing Form requires

1. project title,
2. short, detailed project description, including texts and practical application of skills, and
3. explicit performance or grading criteria.

The faculty should separately negotiate a schedule of meetings and deadlines with the student. The form is reviewed and approved by a CLAS Associate Dean/Assistant Dean prior to student registration.

The College faculty developed the following requirements relating to student and faculty participation in independent study. Faculty seeking to waive or modify any of the policies below should work with the appropriate CLAS Associate Dean/Assistant Dean.

Student Requirements

- Enrollment as a CLAS student or, if enrolled in another major/minor, school/college, or institution, signed authorization on the Special Processing Form by the advisor/chair/dean of the originating school/college or institution prior to review by the CLAS associate or assistant dean.
- Graduate student status for 5840 (or higher), junior or senior status for 4840, sophomore status for 2840.
- Minimum GPA of 2.5 for undergraduates and 3.0 for graduate students.
- Submission of the Special Processing Form prior to the third week of a regular semester. After the third week, a petition to add is required. Summer and intensive sessions will have different deadlines.

Faculty Requirements

- CLAS tenured, tenure-track, Clinical Teaching Track, Senior Instructor, or Instructor rank.
- CLAS graduate faculty status for faculty sponsoring graduate independent study.
- Direct, not indirect, supervision by the designated CLAS faculty member.
- For instructor-rank faculty, approval by the department chair, though all untenured faculty should limit the number of independent studies and are advised to consult with the chair before taking them on.

Project Requirements

- CLAS discipline or directly discipline related content, though may be interdisciplinary.
- Unique or individually executed project content for each student.
- Not available as, or part of, a structured course offered during the same term.
- 3 student participation hours per week for each credit hour requested. Note: 4:1 ratio in summer.

Physical Education

A maximum of 8 semester hours of Physical Education can apply toward the 120 semester hour graduation requirement.

Pass/Fail

Courses used to satisfy CLAS graduation requirements may be taken as pass/fail, except to fulfill the Communicative Skills, Second Language Proficiency, major, minor or certificate requirements. Students may select the pass/fail grading option for most courses. In addition to CU Denver policies covering the pass/fail grading option (see the Registration and Records chapter of this catalog). CLAS students must adhere to the following college pass/fail grading policies:

1. Courses used to complete a student's major, minor and certificate may not be taken on a pass/fail basis.
2. Courses required to demonstrate proficiency may not be taken on a pass/fail basis: ENGL (core curriculum), MATH (core curriculum) and first two semesters of second language.
3. Courses used to satisfy the intellectual competencies section of the CU Denver core curriculum may not be taken on a pass/fail basis.
4. Courses in the knowledge area section of the CU Denver core curriculum may be taken on a pass/fail basis.

CLAS requires a minimum of 30 credit hours of courses with letter grades. No more than 6 hours pass/fail any semester. A maximum of 16 credit hours may be taken pass/fail and counted toward and undergraduate degree.

Second Bachelor's Degree

Students who have earned a bachelor's degree from the University of Colorado Denver or other regionally accredited institutions may earn an additional bachelor's degree through the College of Liberal Arts and Sciences provided that:

1. the major for the additional bachelor's degree is distinctly different from the major(s) of the previous degree(s);
2. all university graduation requirements are met;
3. all College of Liberal Arts and Sciences graduation requirements are met; and
4. all major requirements are met.

Note: Students who earned a previous bachelor's degree at the University of Colorado and plan on returning to earn an additional bachelor's degree must reapply for admission to the university. This rule applies to second bachelor's degrees only. Students pursuing double majors must complete requirements for both majors at the time of graduation, in order to earn a double major.

Explanation of Course Numbers

The course numbering system used at CU Denver identifies the class standing required for enrollment. Students are expected to take 1000-level courses in their freshman year, 2000-level courses in their sophomore year, 3000-level courses in their junior year and 4000-level courses in their senior year. Courses at the 5000 and 6000 level are restricted to master's-level business students, and courses at the 7000 level are restricted to PhD students.

Transfer Credit Information

College Level Examination Program (CLEP)

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to evaluation by the faculty advisor in the department or program, when an exact equivalency has not been determined, and is treated in a similar way as IB, AP or transfer credit. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit can apply toward the 120 semester hour graduation requirement.

Guidelines for Transfer Evaluation and Application

- Courses must be exact equivalencies for Communicative Skills, otherwise they may apply to the other categories identified.

- o Always seek evaluation of a transfer course for direct equivalency.

- o Courses transferring from ENGL or COMM subject codes will be reviewed for application to the CLAS Communicative Skills requirement. ENGL courses must be 3000 or above. COMM course may apply if taken at the 1000, 2000, 3000 or 4000 level. The review will include determining if the course covers "writing", "rhetoric", "composition" or "speaking" and subject code for authorization. All other subject codes or ENGL courses at the 1000 or 2000 level must seek a petition to the Associate Dean for exceptions.

- o Anything that does not meet the above criteria must seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course.

- CLAS Humanities, excludes lower division level ENGL transfer courses that mention the following topics in the title: writing (unless course description details that the course is in criticism or theory), composition, rhetoric, theory (unless literary theory), research (unless related to literature or literary studies), editing, linguistics, grammar, rhetoric (unless course description details that the course is in criticism or theory), workshop. CU Denver English faculty will review and evaluate syllabi when necessary. The area also excludes language acquisition courses
- For other CLAS graduation requirement areas, transfer courses must come from one of the identified subject codes for each area. For any outliers, the course must be taken from a College of (Liberal) Arts and Sciences and must be reviewed by a CLAS Associate Dean.

- o Always seek evaluation of a transfer course for direct equivalency.

- o Transfer courses without a direct equivalency to a CU Denver course must be similar in scope and content to other courses approved to apply in each of the CLAS graduation requirement areas. Anything that does not meet the above criteria, but does come from a College of (Liberal) Arts and Sciences must seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course. We advise reviewing the Minimum Transfer Standards and Transfer Credit Level Determination policies (p. 88).

Administrative Policies

Incomplete Grade

When a student has special circumstances that make it impossible to complete course assignments, faculty members may choose to award an incomplete grade. All incomplete courses are assigned a grade of Incomplete ("I"). Incomplete grades are *not* awarded for poor academic performance or as a way of extending assignment deadlines. A CLAS course completion agreement form (https://clas.ucdenver.edu/faculty-staff/sites/default/files/attached-files/incomplete_policy_and_form_rev_12.20.pdf) documenting assignments to be completed as well as the agreed upon due dates is required when faculty and student agree on an incomplete grade. Both parties should keep copies of this agreement and a copy should be retained in the department office or with a designated party such as the department's Director of Undergraduate Studies. **Faculty are not required to award an Incomplete.**

To be eligible for an incomplete grade, students must:

- Have participated in the class for a significant proportion of the term
- Have successfully completed a significant proportion of the course assignments
- Have special circumstances (verification may be required) that preclude the student from attending class and/or completing graded assignments
- Make arrangements to complete missing assignments with the original instructor by a mutually agreed upon date but within one calendar year. These, as well as assignments and grades completed up to the point that the incomplete is awarded, should be documented on the course completion agreement.

After the agreed upon date or maximum of a calendar year, the “I” reverts to an “F” grade on the student’s transcript if the instructor fails to submit a change of record request to report the earned grade. Any request to allow a grade change after the one-year period must be petitioned to the CLAS Academic Standards Committee.

In order to be on the graduation lists, a student must resolve all incomplete grades before the last day of classes in the semester in which they intend to graduate.

Students should not re-enroll in a course in which they have an incomplete. Re-enrollment in a course in which a student has an “I” could result in a loss of tuition and an “F” grade on the student’s transcript for the original course. A student with an “I” does not need to be enrolled in any course or earning any credits to complete the incomplete work. Completing an “I” does not require any additional tuition payment.

Course Repeat Policy

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student’s GPA. Course credit toward graduation is counted only once for a typical course no matter how many times the course is repeated. Some types of courses (e.g. Directed Research, Internships, Independent Studies, Special Topics, etc.) may be repeatable for applicable credit within a certain range of total credit hours. Special Topics courses may be repeatable for applicable credit within a certain range of total credits hours, as long as each topic is unique and different. See course descriptions for the max semester hours applicable from each course.

Administrative Add Policy

The College of Liberal Arts and Sciences may provide permission to a student or may add a student to a class with student and instructor permission through Census, provided the room has capacity for that student and all prerequisites have been met, or explicit exception to a prerequisite has been granted and no other circumstances are preventing the student from being eligible, i.e. course overload, time conflict or holds that prevent normal addition of a class and require additional approvals. After Census, a student must petition and obtain permission from the appropriate assistant/associate dean for this to occur, according to deadlines posted in the academic calendar.

Administrative Switch Policy

The College of Liberal Arts and Sciences may grant an administrative switch from one section of a course to another section of the same course or from one course to another course, with the approval of the appropriate assistant/associate dean, waiving the \$100 drop fee, if a student has enrolled in a section of a course in error or can demonstrate circumstances beyond their control and can no longer attend the original section of the course.

Administrative Drop Policy

The College of Liberal Arts and Sciences reserves the right to administratively drop a student from a course if they have not met all system enforced prerequisites or met the attendance policies as stated in course syllabi, with the approval of the appropriate assistant/associate dean. The student will be notified that an administrative drop will occur prior to that action taking place. All administrative drops must occur prior to Census so that students do not receive a W on the transcript and are not held financially responsible for full tuition, though there may be fees incurred that students are financially responsible for paying. In the case of an administrative error, students may petition to drop a course through their CLAS advisor. If approved students will be dropped from the course, will not receive a W on the transcript and will receive a tuition refund.

Retroactive Drop/Withdrawal

In the event of circumstances that preclude a student from successfully completing a class, it is the student’s responsibility to carry out drop procedures before the end of the semester. It is against normal college policy to allow a student to drop after the completion of the semester for which grades are already posted. Students who must stop attending one or more of the classes in which they are enrolled for a term, but who fail to properly drop, may be eligible for a retroactive drop or withdrawal. Courses must have occurred no more than seven years prior to the date of the retroactive drop/withdrawal petition to be eligible.

It is the responsibility of the student seeking a retroactive drop/withdrawal to submit a complete written petition. Detailed instructions can be obtained from the CLAS Academic Advising Office, or the Graduate School for graduate students.

Academic Integrity And Discipline Policies

CU Denver Campus Policy 7050, Academic Integrity (https://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/7XXX%20Student%20Affairs/7050%20-%20Academic%20Integrity.pdf), defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as

1. a student’s use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student’s work in meeting course and degree requirements, or
2. actions that interfere with the ability of the instructor to fairly judge the work of the student or other students.

Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one’s responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for more detailed definition)

Students are expected to know, understand and comply with the ethical standards of the university. Academic dishonesty is defined as a student's use of unauthorized assistance with intent to deceive an instructor or other such people who may be assigned to evaluate the student's work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

1. *Plagiarism*

Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.

2. *Cheating*

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.

3. *Fabrication and Falsification*

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.

4. *Multiple Submissions*

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

5. *Misuse of Academic Materials*

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, and falsification of university documents.

6. *Complicity in Academic Dishonesty*

Complicity involves knowingly allowing or contributing to another's academic misconduct.

As members of the CU Denver academic community, faculty and students accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in all forms of academic work. While most violations center around cheating or plagiarism, the CU Denver Academic Honor Code is more comprehensive and includes the following categories: plagiarism, cheating, fabrication and falsification, multiple submission, misuse of academic materials and complicity in academic dishonesty.

The CLAS Academic Ethics Committee, composed of faculty, students and staff, is charged with establishing academic ethics policies and, when necessary, evaluating ethics charges against students. Faculty and students should be familiar with the Academic Honor Code for the Denver campus (see the Academic Policies chapter) and the CLAS Academic

Ethics Policies, available from the CLAS Academic Advising Office, North Classroom, 1030 and online.

Faculty who charge student(s) with a violation of the Academic Honor Code may lower a student's grade without review. If the faculty decision concerning the alleged violation affects the student's assignment or course grade, a letter to the student is required with copies to the Department Chair and the CLAS Associate Dean for Student Affairs. Students charged with an ethics violation are required to continue to participate in the class and may appeal the faculty decision to the CLAS Academic Ethics Committee. Students charged with a violation of the Academic Honor Code are encouraged to meet with an advisor in the CLAS Academic Advising Office to review their rights and obtain assistance with procedures.

Petitioning for Exceptions to Standing Academic Policy

The CLAS Academic Standards Committee is responsible for the administration of the academic policies of the college as established by the faculty. This committee constitutes the bridge between the faculty in its legislative capacity and the students upon whom the legislation comes to bear. The committee is empowered to grant waivers of exemptions from and exceptions to the academic policies of the college. Students wishing to submit a petition to the committee should meet with an advisor in the CLAS Academic Advising Office first to discuss the petition. The Graduate Council reviews grievances related to procedural issues for graduate students that cannot be resolved at the college level.

Students in the College of Liberal Arts and Sciences may appeal a grade. Every attempt is made to resolve grade disputes at the department level. However, unresolved grade issues may be appealed to the CLAS Academic Standards Committee and initiated through the CLAS Academic Advising Office, North Classroom, 4002, 303-556-2555. Details of the grade appeal policies are available in the CLAS Academic Advising Office.

Proficiency Testing

Degree-seeking students may take examinations for credit. To qualify for an examination, the student must be formally working toward a degree at CU Denver, have a GPA of at least 2.000 and be currently registered. Contact the registrar's office for instructions. A nonrefundable fee is charged. Students should contact their degree advising office to determine whether the credit will apply to their degree.

Students with sufficient experience and knowledge may receive credit for a specific course by taking a comprehensive examination given by the faculty.

Anthropology

Overview

Undergraduate Information

Anthropology Major

Anthropology is the study of human origins and evolution, the present conditions of human life and the prospects for the future. It considers human beings as biological and social entities and seeks to explain both diversities and commonalities of peoples and cultures. For undergraduates, anthropology provides a rich overview of human life. It also introduces them to a variety of skills and practical research methods anthropologists apply in laboratory and field studies of the ecological constraints on human existence, the cultural bases of individual and organizational behavior and the problems and circumstances relating to the maintenance of today's healthy, productive human action in general.

Anthropological training provides entry to a variety of careers in archaeology, museology, education, community service, public administration, public health, international affairs and business. The specific skills it provides are useful to students of environmental design, city planning, community development, the medical and nursing professions and allied health sciences, law, public affairs and secondary education.

Click here (p. 324) to see the requirements for the major.

Departmental Honors Requirements

Students wishing to graduate with departmental honors in anthropology must have a cumulative GPA of at least 3.5, with a 3.7 minimum GPA in anthropology for *cum laude* (3.8 for *magna cum laude* and 3.9 for *summa cum laude*), as well as prepare an honors thesis of high quality. They must also take ANTH 4810 Integrating Anthropology. Interested students should inquire in the department no later than two semesters before graduation.

Anthropology Minor

Click here (p. 325) to see the requirements for a minor.

Anthropology (ANTH)

ANTH 1000 - Anthropology: Past and Present (3 Credits)

Anthropology is the study of humankind in all of its diversity and complexity. Anthropologists have traditionally approached the study from four distinct perspectives: biological, cultural, linguistic and archaeological. This course considers how anthropologists study humankind from these four perspectives and the robust picture of humanity that emerges. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ANTH 1302 - Introduction to Archaeology (4 Credits)

Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course

is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul; Denver Core Requirement, Behavioral Sciences.

ANTH 1303 - Introduction to Biological Anthropology (4 Credits)

Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

ANTH 2102 - Culture and the Human Experience (3 Credits)

An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul; Denver Core Requirement, Behavioral Sciences.

ANTH 2400 - Exploring Culture through Social Media (3 Credits)

Introduction to social media and analysis applied to cultural change. Focus on theories and practices of non-fiction image-making and "doing digital ethnography" to examine a range of experience and knowledge among different societies, communities, technologies, policy discourses and ourselves. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 2840 - Independent Study (1-3 Credits)

Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

ANTH 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

ANTH 3000 - Globalization, Migration and Transnationalism (3 Credits)

Examines the cultural dynamics of globalization, including: the development of special economic zones in the global south, rural to urban migration, transnational migration, the maintenance of transnational ties, and cross-border social formations. Reviews the dynamics of globalization through case studies and film. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

ANTH 3006 - Sustainable Development and Equity (3 Credits)

Investigates theories, policies and discourses of development and equity and their relationship to health, socio-environmental problems. Considers the connections between green environmental knowledge and neoliberalism, the success and failures of development along public health, economic equality, social justice and ecological lines. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Teikyo.

ANTH 3008 - Contemporary World Problems: An Anthropological Perspective (3 Credits)

This course examines contemporary problems confronting humanity from an anthropological perspective - a historical, holistic and comparative framework that will be used to critically assess these issues and identify forces driving them. Problems to be addressed include climate and environmental change, resource depletion, and poverty and inequality. Prereq: Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 3042 - Lost Worlds and Crystal Skulls (3 Credits)

This class explores the differences between science and pseudoscience specifically within the realm of anthropology. Scientific method and critical thought are employed in a way that trains students to question and recognize the difference between fact and fiction in data. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3045 - Cannabis Culture (3 Credits)

Familiarizes students with anthropological approaches to the culture of cannabis, including medicinal and recreational. Topics: history, cultural uses, legalization, cannabis capitalism, health effects, race and inequality, regulatory policies, retailing and consumption. Ethnographic research for data collection emphasized. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3101 - Foundations of Cultural Anthropology (3 Credits)

Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: ANTH 2102 with a C- or higher. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

ANTH 3121 - Language, Culture, and Communication (3 Credits)

Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

ANTH 3142 - Cultural Diversity in the Modern World (3 Credits)

An in-depth analysis of the phenomena of culture and application of the culture concept to understanding cultural diversity in the modern world. Applies the concept of culture to several basic aspects of human social life, for example: social class and gender relations, ethnicity, racism and sexism, education, health and economic behavior. Students explore these issues in the context of case studies of particular groups and/or communities, focusing primarily on the diversity of cultural expression in contemporary U.S. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

ANTH 3150 - Special Topics in Medical Anthropology (3 Credits)
Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers (3 Credits)

Explores the relationship between human migration, voluntary and forced and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with PBHL 3200. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3202 - Anthropology of Health Care Policy (3 Credits)

Uses the tools and methods of cultural anthropology to analyze health care reform in the U.S. We examine analyses of the current health care system, debates over its reform, compare the US health care system to that of health care systems worldwide. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3210 - Urban Food Systems and Sustainability (3 Credits)

Urbanites are increasingly removed from the complex of factors that provide us food. Being concerned about sustainability, we need to understand the complex webs in food systems and their implications for the health and natural systems. This problem-based course will wrestle with urban food systems organized to address the 3 E's of sustainability: environmental, economic, and equity. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3250 - Climate, Environment and Society (3 Credits)

This course will engage social theory and case studies to examine Climate Change, its impact and consequences for human life, and what communities and societies are doing to address it. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3301 - World Prehistory (3 Credits)

Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Note: Introductory course in Archaeology (ANTH 1302) recommended. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3310 - Colorado Archaeology (3 Credits)

A survey of the prehistoric and protohistoric peoples of the five major culture areas of Colorado: the Four Corners, Great Basin, Rocky Mountains, High Plains, and Front Range. Of special interest will be the study of the initial peopling of Colorado, economic and political organization, ethnic interaction and the history of archaeological work in the region. Prereq: ANTH 1302 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1302 with a C- or higher.

ANTH 3315 - North American Archaeology (3 Credits)

Course provides a survey of the prehistoric and historic archaeology of the United States, Canada and Northern Mexico. Current knowledge of the subject and current debates are discussed. Prereq: ANTH 1302 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1302 with a C- or higher.

ANTH 3316 - History of Human Environmental Impacts (3 Credits)

Humans exist as active members of an ecosystem. There is increasing awareness that human actions have changed the environment and continue to do so. While ecologists, climatologists, and engineers work to address current and future environmental problems, the discipline of archaeology can provide a time depth and crosscultural breadth of perspective on how such issues have impacted human societies. This course will investigate and critically assess the claim that environmental and ecological factors have played a key role in the dissolution of once thriving civilizations. Examples will be drawn from across time and space, specifically emphasizing the archaeological record and the perspective it provides on a problem that is of critical relevance today. In this course students will: 1) Learn how humans have engaged with their environments over the course of our species' evolutionary history; 2) Critically assess contemporary discussions of collapse and ecocide by contextualizing human environment interactions within the frameworks of resilience, niche construction, and ecosystem engineering; 3) Use 'lessons from the past' to inform contemporary ecological debates; 4) Objectively evaluate the factual basis of various claims made about how humans affect, have affected, and likely will affect their environments; 5) Actively engage with the community to build sustainable gardens. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3320 - Southwestern Archaeology (3 Credits)

Considers the origins, characteristics, and interrelationships of the major culture areas in the American southwest, including the Anasazi, Hohokam, Mogollon, Sinagua and Northern Mexico. Note: ANTH 1302 recommended but not required. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3330 - Topics in Archaeology (3 Credits)

A flexible format for addressing specific topics in archaeology. Examples include the archaeology of the Great Plains, the Mediterranean Region, etc. Prereq: ANTH 2102 with a C- or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ANTH 2102 with a C- or higher.

ANTH 3410 - Anthropology of Work (3 Credits)

Explores the culture of workforces and workplaces. Ethnographic methods and collaborative research practices comprise the framework of the course to examine people, occupations and work cultures engaged in production and consumption of commodities at local and global levels. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3420 - Anthropology and Politics of the Global Tobacco Epidemic (3 Credits)

Examines anthropological perspectives on tobacco, tobacco-related health policy making, and cigarette manufacturers and leaf-buying companies in the global tobacco epidemic. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3500 - Human Osteology (4 Credits)

Provides in-depth knowledge of human osteology, including the following topics: skeletal anatomy; age, sex and stature determination; skeletal trauma/pathology; and taphonomy. Recitation component provides hands-on experience with skeletal material. Prereq: ANTH 1303 with a C- or higher. Max Hours: 4 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 3512 - Human Evolution (3 Credits)

Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303 with a C- or higher. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 3550 - Forensic Anthropology (3 Credits)

Provides an introduction to methods used in forensic anthropology for investigating human remains in cases of medicolegal importance, including recovery, attribution of demographic characteristics, analysis of disease and trauma and determination of personal identity. Prereq: ANTH 1303 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 3560 - Human Variation and Adaptation (3 Credits)

This course explores the nature of modern human biological variation and adaptation. We address the evolutionary and biological theory that informs our study of contemporary human anatomy and physiology. Topics covered include, the nature vs. nurture debate, variation in skin pigmentation and the concept of "race", skeletal adaptations, adaptations to extreme environments and sexbased variation. Term offered: every other year. Prereq: ANTH 1303 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 3590 - Primate Behavior Research at the Zoo (3 Credits)

Students will review information on primates, learn about data collection models, design a behavior observation project on captive primates, collect and analyze behavior data, write and present a formal scientific paper. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3666 - Anthropology of Death (3 Credits)

The primary goal of the course is to identify and understand the range of human expression through the treatment of human remains in anthropological literature with focus on burials, mortuary practices, and associated rituals. Along with more theoretical papers, specific case studies will be used to address a variety of topics and issues, such as historic and prehistoric social organization, bio-archaeology, cannibalism, human sacrifice, mummification, the ethics of studying human remains, and the treatment of pets in prehistory. The time range that we will cover in the course will span from the Neolithic to the early 20th century, and numerous cultures from all parts of the globe will be our subject matter. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3700 - Current Topics in Anthropology (3 Credits)

This undergraduate course offers a flexible format for addressing specific topics of special interest in anthropology, such as: aging, race and prejudice, class, warfare and aggression, ethnicity, myth and folklore, language and communication, Colorado prehistory and topics in evolutionary theory. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ANTH 3910 - Cross-Cultural Field Experience (3-6 Credits)

An intensive contact with another culture through supervised travel in the U.S. or in a country other than the United States. Written reports required. Note: Class includes pre-trip orientation lectures; in-country lectures by local resource people and supervising CU-Denver faculty. Max Hours: 6 Credits.

Grading Basis: Letter Grade

ANTH 3939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4000 - Special Topics in Anthropology (1-4 Credits)

Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Junior standing or higher. Cross-listed with ANTH 5000.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4010 - Medical Anthropology: Global Health (3 Credits)

This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Junior standing or higher. Cross-listed with ANTH 5014. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4030 - Ethnobiology (3 Credits)

Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Junior standing or higher. Cross-listed with ANTH 5030. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4040 - Anthropology of Food and Nutrition (3 Credits)

Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Junior standing or higher. Cross-listed with ANTH 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4050 - Quantitative Methods in Anthropology (3 Credits)

Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedures. Prereq: Junior standing or higher. Cross-listed with ANTH 5053. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4060 - Evolutionary Medicine (3 Credits)

Evolutionary medicine is a relatively new approach for understanding patterns of human health and disease. In this course, students will learn how human evolutionary history has shaped our susceptibility and resistance to both chronic and infectious diseases. Prereq: ANTH 1303 with a C- or higher. Cross-listed with ANTH 5060 and PBHL 4060. Max Hours: 3 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 4070 - Culture of Development and Globalization (3 Credits)

Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Note: students should consult with the instructor prior to enrolling in this course. Prereq: Junior standing or higher. Cross-listed with ANTH 5070. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4080 - Global Health Practice (3 Credits)

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: Junior standing or higher. Cross-listed with ANTH 5080 and PBHL 4080. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4090 - Drug Syndemic (3 Credits)

Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: Junior standing or higher. Cross-listed with ANTH 5090 and PBHL 4090. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4121 - Zooarchaeology (3 Credits)

Introduction to the theory and methods of zooarchaeology through lectures, readings, and hands-on lab work identifying and analyzing mammalian skeletal material. Students will learn what mammalian remains indicate about biological and cultural evolution of humans. Cross-listed with ANTH 5121. Prereq: ANTH 1303 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

D-CL-Pre: ANTH 1303 with a C- or higher.

ANTH 4150 - Human Biocultural Adaptability (3 Credits)

The chief concern of this course is the relationship between ourselves and our surroundings and the very immediate ways the environments in which we live affect us. The view is of ourselves as a part of, not apart from, these environments. Prereq: Junior standing or higher. Cross-listed with ANTH 5150. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4170 - Culture and the Environment (3 Credits)

Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: Junior standing or higher. Cross-listed with ANTH 5170. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4180 - The Nature of Power (3 Credits)

Introduces the major theories of power used in contemporary anthropology, with an emphasis on cross-cultural perspectives. Explores how power is defined, determined and exercised globally and locally and how different systems of power articulate with one another. Prereq: Junior standing or higher. Cross-listed with ANTH 5180. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4200 - Gender in Cross-Cultural Perspective (3 Credits)

A comparative analysis of gender-based status and social roles of women and men, with women's status and roles emphasized due to their near-universal construction as the "Other" sex. Examines in cross- and sub-cultural context the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: Junior standing or higher. Cross-listed with ANTH 5200. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4230 - Anthropology and Community Based Participatory Research (3 Credits)

The seminar explores anthropological critiques, knowledge production and multi-media approaches to community based participatory research (CBPR) such as photovoice and digital storytelling to understand the history of CBPR and analyze partnerships between university researchers and community representatives. Cross-listed with ANTH 5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 4260 - Human Reproductive Ecology (3 Credits)

Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: Junior standing or higher. Cross-listed with ANTH 5260. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4270 - Anthropology of the Body (3 Credits)

Explores how society, through culture, creates collective and individual bodies; embodied experience across the life course; and the body as an expression of social power, bodily modification and adornment. Note: ANTH 2102 or ANTH 3101 are recommended be taken before this course for undergraduate students. Cross-listed with ANTH 5270. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 4290 - Anthropology and Public Health (3 Credits)

"This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: Junior standing or higher. Cross-listed with ANTH 5290. Max hours: 3 Credits."

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4300 - Migrant Health (3 Credits)

This course examines health issues associated with transnational migration from an anthropological point of view. Drawing upon case studies, we examine the health of migrant communities in both host and sending nations. Prereq: Junior standing or higher. Cross-listed with ANTH 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4320 - Archaeology of Mexico and Central America (3 Credits)

Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Junior standing or higher. Cross-listed with ANTH 5320. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4330 - Lithic Analysis (3 Credits)

Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: Junior standing or higher. Cross-listed with ANTH 5330. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4350 - Anthropology of Globalization (3 Credits)

This course provides an overview of anthropological contributions to the study of globalization. Particular attention is devoted to: transformations in global capitalism, state and immigration policy, transnational families, health and transnationalism. Prereq: Junior standing or higher. Cross-listing ANTH 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4380 - Archaeology of Hunters-Gatherers (3 Credits)

Explores the theory and methods used by archaeologists to investigate prehistoric hunter gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Prereq: Junior standing or higher. Cross-listed with ANTH 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4390 - Laboratory Methods in Archaeology (3 Credits)

Methods and theories of archaeology are used to scrutinize the collection and interpretation of data and the relationships of archaeology to other disciplines. Core materials emphasize the critique of basic archaeological assumptions. Note: Course content varies slightly each time it is offered, in response to student needs and the availability of projects (e.g., laboratory work, urban excavation, survey and mapping). May be repeated for credit when topics change. Prereq: Junior standing or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: junior standing or higher

ANTH 4400 - Archaeology of Power and Inequality (3 Credits)

Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Prereq: Junior standing or higher. Cross-listed with ANTH 5400. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4440 - Museums in the 21st Century (3 Credits)

This is an advanced course on natural history/anthropology museums. It will examine practical issues facing museums, and consider the complex questions that museums raise. The class includes lectures, discussions, and hands-on collection work, and exhibit/ outreach development. Cross-listed with ANTH 5440. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 4450 - Development and Conservation: Contemporary Issues (3 Credits)

Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: Junior standing or higher. Cross-listed with ANTH 5450. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4460 - Development and Conservation: Theory and Practice (3 Credits)

Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and globalization are studied. Prereq: Junior standing or higher. Cross-listed with ANTH 5460. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4500 - Advanced Issues in Human Evolution (3 Credits)

This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Prereq: Junior standing or higher. Cross-listed with ANTH 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4550 - Primate Comparative Anatomy (3 Credits)

Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Prereq: Junior standing or higher. Cross-listed with ANTH 5550. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4560 - Human Ecology (3 Credits)

Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Junior standing or higher. Cross-listed with ANTH 5560. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4570 - Landscape Archaeology (3 Credits)

Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: Junior standing or higher. Cross-listed with ANTH 5570. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4580 - Neanderthals and the Origin of Modern Humans (3 Credits)

Focuses on the human fossil record for the taxon *Homo sapiens*, including the earliest members of this group ("early" or "archaic" *Homo sapiens*), the Neanderthals and so-called "anatomically modern" *Homo sapiens*. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: Junior standing or higher. Cross-listed with ANTH 5580. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4590 - Primate Behavior (3 Credits)

Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Prereq: Junior standing or higher. Cross-listed with ANTH 5590. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4600 - Medical Anthropology (3 Credits)

Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Junior standing or higher. Cross-listed with ANTH 5600. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4640 - Darwinian Approach to Human Behavior (3 Credits)

The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Prereq: Junior standing or higher. Cross-listed with ANTH 5640. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4800 - Special Topics in Medical Anthropology (3-9 Credits)

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: Junior standing or higher. Repeatable. Cross-listed with ANTH 5800. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4810 - Integrating Anthropology (3 Credits)

Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Note: this course assumes that students have completed course work equivalent to a minor in anthropology. Prereq: Junior standing or higher. Cross-listed with ANTH 5810. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of anthropology. Note: Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ANTH 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ANTH 4910 - Field Experience in Archaeology (3-6 Credits)

Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Prereq: Junior standing or higher. Cross-listed with ANTH 5910. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4995 - Global Study Topics (3-9 Credits)
This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.
Repeatable. Max Hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

Anthropology, BA

Introduction

Please click here (p. 316) to see Anthropology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 40 ANTH credit hours.
2. Students must complete a minimum of 24 upper division (3000-level and above) ANTH credit hours. Most upper division courses have lower division prerequisites.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 21 ANTH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Anthropology majors are advised to take MATH 2830 Introductory Statistics for their CU Denver Core Curriculum Mathematics requirement.

Required Courses

Code	Title	Hours
Take all of the following		11
ANTH 1302	Introduction to Archaeology	4
ANTH 1303	Introduction to Biological Anthropology	4
ANTH 2102	Culture and the Human Experience	3

Other Courses

Code	Title	Hours
Take at least three of the following		9
ANTH 3101	Foundations of Cultural Anthropology	3
ANTH 3121	Language, Culture, and Communication	3
ANTH 3301	World Prehistory	3
ANTH 3512	Human Evolution	3

Electives

Code	Title	Hours
Take 20 elective credit hours from the Anthropology Department.		20
ANTH 1000	Anthropology: Past and Present	3
ANTH 1111	First Year Seminar	3
ANTH 2400	Exploring Culture through Social Media	3
ANTH 3000	Globalization, Migration and Transnationalism	3
ANTH 3006	Sustainable Development and Equity	3
ANTH 3008	Contemporary World Problems: An Anthropological Perspective	3
ANTH 3042	Lost Worlds and Crystal Skulls	3
ANTH 3045	Cannabis Culture	3
ANTH 3121	Language, Culture, and Communication	3
ANTH 3142	Cultural Diversity in the Modern World	3
ANTH 3150	Special Topics in Medical Anthropology	3
ANTH 3200	Human Migration: Nomads, Sojourners, and Settlers	3
ANTH 3202	Anthropology of Health Care Policy	3
ANTH 3210	Urban Food Systems and Sustainability	3
ANTH 3250	Climate, Environment and Society	3
ANTH 3310	Colorado Archaeology	3
ANTH 3315	North American Archaeology	3
ANTH 3316	History of Human Environmental Impacts	3
ANTH 3320	Southwestern Archaeology	3
ANTH 3330	Topics in Archaeology	3
ANTH 3410	Anthropology of Work	3
ANTH 3420	Anthropology and Politics of the Global Tobacco Epidemic	3
ANTH 3500	Human Osteology	4
ANTH 3550	Forensic Anthropology	3
ANTH 3560	Human Variation and Adaptation	3
ANTH 3590	Primate Behavior Research at the Zoo	3
ANTH 3666	Anthropology of Death	3
ANTH 3700	Current Topics in Anthropology	3
ANTH 3910	Cross-Cultural Field Experience	3-6
ANTH 3939	Internship	1-3
ANTH 4000	Special Topics in Anthropology	1-4

ANTH 4010	Medical Anthropology: Global Health	3
ANTH 4030	Ethnobiology	3
ANTH 4040	Anthropology of Food and Nutrition	3
ANTH 4050	Quantitative Methods in Anthropology	3
ANTH 4060	Evolutionary Medicine	3
ANTH 4070	Culture of Development and Globalization	3
ANTH 4080	Global Health Practice	3
ANTH 4090	Drug Syndemic	3
ANTH 4121	Zooarchaeology	3
ANTH 4150	Human Biocultural Adaptability	3
ANTH 4170	Culture and the Environment	3
ANTH 4180	The Nature of Power	3
ANTH 4200	Gender in Cross-Cultural Perspective	3
ANTH 4230	Anthropology and Community Based Participatory Research	3
ANTH 4260	Human Reproductive Ecology	3
ANTH 4270	Anthropology of the Body	3
ANTH 4290	Anthropology and Public Health	3
ANTH 4300	Migrant Health	3
ANTH 4320	Archaeology of Mexico and Central America	3
ANTH 4330	Lithic Analysis	3
ANTH 4350	Anthropology of Globalization	3
ANTH 4380	Archaeology of Hunters-Gatherers	3
ANTH 4390	Laboratory Methods in Archaeology	3
ANTH 4400	Archaeology of Power and Inequality	3
ANTH 4440	Museums in the 21st Century	3
ANTH 4450	Development and Conservation: Contemporary Issues	3
ANTH 4460	Development and Conservation: Theory and Practice	3
ANTH 4500	Advanced Issues in Human Evolution	3
ANTH 4550	Primate Comparative Anatomy	3
ANTH 4560	Human Ecology	3
ANTH 4570	Landscape Archaeology	3
ANTH 4580	Neanderthals and the Origin of Modern Humans	3
ANTH 4590	Primate Behavior	3
ANTH 4600	Medical Anthropology	3
ANTH 4640	Darwinian Approach to Human Behavior	3
ANTH 4800	Special Topics in Medical Anthropology	3-9
ANTH 4810	Integrating Anthropology	3
ANTH 4840	Independent Study	1-3
ANTH 4880	Directed Research	1-6
ANTH 4910	Field Experience in Archaeology	3-6
ANTH 4995	Global Study Topics	3-9

Anthropology Minor

Introduction

Please click [here](#) (p. 316) to see Anthropology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Minor

- Please see your advisor.
- Click [here](#) (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click [here](#) (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 ANTH credit hours.
2. Students must complete a minimum of 9 upper division (3000-level and above) ANTH credit hours. Most upper division courses have lower division prerequisites.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ANTH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. All upper division core courses must be taken from CU Denver faculty in order to count for specific requirements. Upper division courses from other schools will only count as electives.

Required Courses

Code	Title	Hours
<i>Take at least three of the following:</i>		9
ANTH 1302	Introduction to Archaeology	
ANTH 1303	Introduction to Biological Anthropology	
ANTH 2102	Culture and the Human Experience	
ANTH 3101	Foundations of Cultural Anthropology	

ANTH 3301	World Prehistory
ANTH 3512	Human Evolution

Electives

Code	Title	Hours
<i>Take 9 elective credit hours from the Anthropology Department.</i>		9
ANTH 1000	Anthropology: Past and Present	3

Chemistry

Chair: Haobin Wang

Office: Science Building, 3071 E

Telephone: 303-315-7634

Fax: 303-315-7633

Website: clas.ucdenver.edu/chemistry (<http://clas.ucdenver.edu/chemistry/>)

Overview

Undergraduate Information

Chemistry is the study of matter and its transformations, from the smallest scale - atoms and subatomic particles - to the macromolecules that provide structure and function to living organisms. Chemistry is often called the “central science” because it touches on other STEM disciplines including physics, biology, medicine, environmental science, geology, mathematics, materials science, technology, and many others. A degree in Chemistry or Biochemistry can prepare you for a wide range of meaningful careers discovering and applying scientific knowledge.

Modern chemistry combines computer modeling and experimental observation using procedures that are much safer and more environment-friendly than in past generations. Learning chemistry also teaches you important critical thinking skills that can be valuable in any career.

For more information regarding major options, contact a Major Advisor: Dr. Vanessa Fishback vanessa.fishback@ucdenver.edu, or Dr. Marta K. Maron marta.maron@ucdenver.edu.

Click here (p. 337) to learn about the requirements for the Major in Chemistry.

Click here (p. 335) to learn about the requirements for the Major in Biochemistry.

Click here (p. 338) to learn about the requirements for the American Chemical Society Certified Major in Chemistry.

Chemistry Minor

For more information contact the Chemistry Minor Advisor: Dr. Priscilla Burrow at priscilla.burrow@ucdenver.edu. All Chemistry minors should contact the minor advisor the semester prior to the semester of planned graduation.

Click here (p. 342) to learn about the requirements for a Minor in Chemistry.

Certificate in Biochemistry

For more information contact the Biochemistry Major Advisor: Dr. Vanessa Fishback at vanessa.fishback@ucdenver.edu. Students applying for the certificate should contact the major advisor during the semester prior to the semester of planned certificate award.

Click here (p. 341) to learn about the Certificate in Biochemistry.

Chemistry BS/MS Program

Click here (p. 340) to learn about our BS/MS Program. For more information contact the Graduate Advisor Dr. Scott Reed at scott.reed@ucdenver.edu.

Departmental Honors

Qualified students are encouraged to participate in the Chemistry Honors Program. Three levels of honors are awarded by the CU Denver Chemistry Department.

To earn *cum laude* honors in Chemistry or in Biochemistry, a student must satisfy one of the following criteria:

1. an overall GPA of 3.2 or better and a chemistry GPA of 3.5 or better; or
2. an overall GPA of 3.2, a chemistry GPA of 3.2 or better, and six hours of CHEM 4880 Directed Research, spread over a minimum of two semesters.

To earn *magna cum laude* or *summa cum laude* honors in Chemistry or Biochemistry, a student must satisfy each of the following criteria:

1. an overall GPA of 3.2 or better,
2. a chemistry GPA of 3.5 or better;
3. six hours of CHEM 4880 Directed Research, spread over a minimum of two semesters with a GPA of 3.2 or better;
4. Presentation and approval of a thesis based on the independent study research to a faculty advisory committee. If the thesis is approved, the faculty committee can recommend graduation at either the *magna cum laude* (high) or *summa cum laude* (highest) level.

Guidelines for Thesis

The advisory committee is to include three faculty from the University, including at least one faculty member from Chemistry and at least one faculty member from outside the department. If the PI is chemistry department faculty, then the PI is the chair of the committee. If the PI is faculty in another department, the student needs to recruit a Chemistry faculty member who has familiarity with the research topic to serve as committee chair. The student should have the committee members in place during the first month of the semester in which the student plans to graduate.

The committee chairperson by agreeing to serve validates that the presented research has been performed by the student.

The thesis is written using the primary journal style of the research sub-specialty. The student gives committee members the finished thesis two weeks prior to the thesis presentation unless the student has been otherwise informed by the committee members. The student organizes the time and place of examination. The last date to schedule the oral examination of the thesis is the Friday before the last week of the regular semester. This gives the student two weeks to make corrections and changes specified by the committee. The last day to turn in a completed and signed off thesis is the Friday of finals week at 4 pm. The committee signs the Thesis Examination Form, gives a copy to departmental advisor along with a copy of the thesis.

Graduate Information

At the graduate level, an MS degree program is offered. Students with MS degrees have job opportunities in research and technical laboratory services. In addition, flexible programs can be designed to combine chemical knowledge and skills with other interests of the MS-level student (e.g., biology or environmental science). Please go to the **Graduate** catalog to read about our graduate programs.

Programs

- Biochemistry, BS (p. 335)
- Chemistry, BS (p. 337)
- Chemistry, BS - ACS Certified (p. 338)
- Chemistry, BS/MS (p. 340)
- Biochemistry Certificate (p. 341)
- Chemistry Minor (p. 342)

Faculty

Professors:

Robert Damrauer, PhD, Massachusetts Institute of Technology
David Engelke, PhD, Washington University (St. Louis)
Doris Kimbrough, PhD, Cornell University
Hai Lin, PhD, University of Science and Technology of China
Scott Reed, PhD, University of Oregon
Haobin Wang, PhD, Wayne State University
Xiaotai Wang, PhD, University of Virginia

Associate Professors:

Jefferson Knight, PhD, Yale University
Yong Liu, PhD, University of Michigan
Xiaojun Ren, PhD, Jilin University
Marino Resendiz, PhD, University of California, Los Angeles
Liliya Vugmeyster, PhD, State University of New York at Stony Brook

Assistant Professors:

John D. (Nick) Fisk, PhD, University of Wisconsin

Emilie Guidez, PhD, Iowa State University

Jung-Jae Lee, PhD, University of Notre Dame

Clinical Associate Professors:

Marta Maroñ, PhD, University of Colorado Boulder

Clinical Assistant Professor:

Priscilla Burrow Crocker, PhD, University of Colorado Boulder

Instructors:

Vanessa Fishback, PhD, University of Northern Colorado

Kyoung Kim, PhD, University of Notre Dame

Chemistry (CHEM)

CHEM 1000 - Foundations for General Chemistry (3 Credits)

This is a lecture- only course intended for students pursuing a degree in science or a health-related field. The course is designed for students who have never had a chemistry course or who have not taken general chemistry in 5+ years. Topics include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, energy and temperature, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, stoichiometry, types of chemical reactions, balancing equations, electron configurations, and chemical bonding. Enrollment in this course is strongly encouraged prior to enrollment in Chem 2031 if the student does not have a strong and recent background in general chemistry. Note: College Algebra or the equivalent is strongly recommended for optimal student success. Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 3 Credits. Grading Basis: Letter Grade

CHEM 1115 - Chemistry Content (1-3 Credits)

Covers content areas of undergraduate chemistry. Topics include periodicity; the mole and chemical bonding; the kinetic theory and states of matter; chemical reactions; solutions and chemical equilibria. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Max hours: 3 Credits. Grading Basis: Letter Grade

CHEM 1130 - Engineering General Chemistry (5 Credits)

A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent) are strongly recommended for optimal student success. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Max hours: 5 Credits. Grading Basis: Letter Grade

CHEM 1474 - Core Chemistry: Chemistry for Everyday (4 Credits)

Focuses on the common household chemicals that affect us on a daily basis. Students explore current topics in chemistry and the underlying chemistry of nuclear power, plastics, sunscreens, food, acid rain, etc. Home-based laboratory experiments with safe, common substances. No co-credit: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

CHEM 1494 - Forensic Chemistry (4 Credits)

This one semester chemistry lecture and laboratory course is designed to engage a non-science major through the high-interest topic: criminal investigations. In this course, using the theme of forensic science students will be introduced to a basic understanding of chemistry, the physical and chemical properties of matter, simple types of chemical reactions and equations, and molecular structure of drugs and biomolecules. Note: Two years of high school science and one year of high school algebra are strongly recommended for optimal success. Students will not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: spring, summer. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab. Typically Offered: Spring, Summer.

CHEM 1575 - Chemistry: History and Policies (4 Credits)

A study of the building blocks of all matter: chemicals. A focus on how the study of chemistry began and how it has changed over the course of history. The course explores how chemistry has impacted man from the earliest times: from the Bronze Age to the present and beyond. Students learn about the first use of manufactured chemical substances in history and the progression of chemical knowledge throughout history. Students also study how certain substances introduced into the environment throughout history have affected the environment and what policies have been put in place to control or remediate the release of these substances. Eight home-based laboratory experiments will be performed during the semester. High school algebra is strongly recommended preparation for this course. Math concepts critical for this course include basic operations#addition, subtraction, multiplication and division#, order of operations, exponents, square roots and the ability to rearrange and solve algebraic equations. Term offered: fall. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHEM 2031 - General Chemistry I (3 Credits)

This is the first of a two semester sequence designed for students pursuing a degree in science or a health related field. Chem 2031 is designed for students who have recently completed high school chemistry or Chem 1000 with a C- or better. Note: Non- science majors should review the course description for Chem 1474 as an alternative, non-majors science CU Denver Undergraduate Core course, with lab credit. Topics covered include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, empirical formulas, thermochemistry, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, balancing equations, stoichiometry, types of chemical reactions, solution stoichiometry and dilutions, electron configurations, chemical bonding, Lewis Dot Theory, Valence Shell Electron Pair repulsion Theory, and other topics as time allows. This course is a prerequisite or co-requisite for General Chemistry 1 Lab, Chem 2038. No co-credit with CHEM 2081. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. It is strongly recommended that students have taken CHEM 1000 and MATH 1110 or their high school equivalents to be adequately prepared to succeed in this course. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

CHEM 2038 - General Chemistry Laboratory I (1 Credit)

Laboratory course designed to accompany Chem 2031. Topics include gravimetric analysis, statistical analysis, stoichiometry, Avogadro's number, thermochemistry, atomic spectroscopy, paper chromatography, and gas laws. No co-credit with CHEM 2088. Coreq: CHEM 2031 or CHEM 2081. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Coreq: CHEM 2031 or CHEM 2081

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

CHEM 2061 - General Chemistry II (3 Credits)

This is a continuation of Chem 2031 and is the second course of a two semester sequence designed for students pursuing a degree in science or a health related field. CHEM 2061 builds upon the understanding of chemistry rooted in the molecular nature of matter and change from General Chemistry I and expands to include topics such as intermolecular forces, solution chemistry, kinetics, chemical equilibrium, acid-base chemistry, buffer chemistry, solubility, thermodynamics and time permitting, electrochemistry. Specific topics include: the use of bonding theories to explain the relationships between atomic structure, molecular shape, and macroscopic properties of matter including boiling point, vapor pressure, surface tension, viscosity, and capillarity; the understanding of molecular structure to explain the energetics of solution formation as well as vapor pressures of pure liquids and solutions; the application of rates of reactions to define the state of equilibrium; the application of problem solving techniques for systems at equilibrium to acid/base and solubility chemistry; and the thermodynamic underpinnings of chemical reaction rates and the spontaneous conversion of chemical species to attain a state of dynamic equilibrium. This course is a prerequisite or co-requisite for General Chemistry II Lab, Chem 2068. Prereq: CHEM 2031 or 2081 with a C- or higher. No co-credit with CHEM 2091. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prereq: CHEM 2031 or 2081 with a C- or higher

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

CHEM 2068 - General Chemistry Laboratory II (2 Credits)

Laboratory course designed to accompany Chem 2061. Topics include colligative properties, spectroscopic analysis, kinetics, equilibrium, acid-base chemistry, titrations, and qualitative analysis of metal cations. No co-credit with CHEM 2098. Prereq: CHEM 2038 or 2088 with a C- or higher. Coreq: CHEM 2061 or 2091. Term offered: fall, spring, summer. Max hours: 2 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Prereq: CHEM 2038 or 2088 with a C- or higher Coreq: CHEM 2061 or 2091

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

CHEM 2081 - Honors General Chemistry I (3 Credits)

Topics include gas laws, thermochemistry, the quantum mechanical model of the atom, periodic properties, bonding and molecular geometry and intermolecular forces. Prepares students to take upper division chemistry courses. Honors section: Course assumes knowledge of stoichiometry and basic atomic structure. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Working knowledge of high school algebra and advanced high school chemistry are required. Restriction: Restricted to Chemistry Honors students (CH01). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Chemistry Honors students.

CHEM 2088 - Honors General Chemistry I Laboratory (2 Credits)

Laboratory experiments on topics covered in CHEM 2031 or CHEM 2081, gaining experience in observing, recording, and interpreting physical and chemical phenomena. Offers smaller sections and greater access to specialized techniques, open ended experiments, and instrumentation, requiring a faster pace and more sophisticated work. Note: Students may not receive credit for this course if they have already received credit for CHEM 2038. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Coreq: CHEM 2031 or CHEM 2081. No co-credit with CHEM 2038. Term offered: fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq: CHEM 2031 or CHEM 2081. Restriction: Restricted to Chemistry Honors students.

CHEM 2091 - Honors General Chemistry II Lecture (3 Credits)

Continuation of CHEM 2081. Additional topics may include kinetics, equilibria and thermodynamics. Note: Students may not receive credit for this course if they have already received credit for CHEM 2061. Note: Admission into specific CU Denver program or consent of the instructor is required. Prereq: CHEM 2081 or 2031 with a C- or higher. Restriction: Restricted to Chemistry Honors students (CH01). No co-credit with CHEM 2061. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2081 or 2031 with a C- or higher Restriction: Restricted to Chemistry Honors students (CH01)

CHEM 2098 - Honors General Chemistry II Laboratory (2 Credits)

Students perform laboratory experiments on topics covered in General Chemistry II (CHEM 2061) or the companion Honors General Chemistry II course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Honors General Chemistry II Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, and instrumentation. Students use the laboratory skills they developed in Honors General Chemistry I Laboratory to work independently with a special emphasis on recording, interpreting, and expressing data, chemical safety, the scientific literature, innovation in the laboratory, and presentation of scientific information in oral and poster formats. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Prereq: CHEM 2038 or CHEM 2088. Coreq: CHEM 2091 or CHEM 2061. Restriction: Restricted to Chemistry Honors Students. No co-credit with CHEM 2068. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2038 or CHEM 2088 Coreq: CHEM 2091 or CHEM 2061 Restriction: Restricted to Chemistry Honors Students

CHEM 2300 - Nutritional Chemistry (3 Credits)

Introduces nutrition intended primarily for majors in nursing, physical therapy, physical education. Topics include structure and metabolism of carbohydrates, lipids and proteins, functions of vitamins and minerals and food constituents. Prereq: CHEM 1000 or CHEM 1474 or CHEM 2031 or CHEM 2081 with a C- or better. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 1000 or CHEM 1474 or CHEM 2031 or CHEM 2081 with a C- or better.

CHEM 2600 - Introductory Topics in Chemistry (1-3 Credits)

This course is designed primarily for non-chemistry majors. Students will explore a special topic related to chemistry or biochemistry. A description of topics to be covered in the current semester is maintained on the Chemistry department website. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CHEM 2840 - Independent Study: CHEM (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

CHEM 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CHEM 3011 - Inorganic Chemistry (3 Credits)

The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3421 or CHEM 3491 with a C- or higher

CHEM 3018 - Inorganic Chemistry Laboratory (2 Credits)

Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011 with a C- or higher. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3011 with a C- or higher

CHEM 3111 - Analytical Chemistry (3 Credits)

Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

Typically Offered: Fall.

CHEM 3118 - Analytical Chemistry Laboratory (2 Credits)

CHEM 3118 provides a strong background in those chemical principles that are particularly important to analytical chemistry, such as the ability to obtain high-quality analytical data. Students gain experience with techniques of sampling and analysis, including an introduction to instrumental methods. Additionally, students develop the skills needed to solve analytical problems in a quantitative manner, with the aid of spreadsheet tools. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3111 or CHEM 3481. Term offered: fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3111 or CHEM 3481.

Typically Offered: Fall.

CHEM 3411 - Organic Chemistry I (4 Credits)

Lecture course for science majors. Topics covered include Structure and Bonding, Stereochemistry, Alkanes, reactions of alkenes, alkyl halides, alcohols and other functional groups, reaction mechanism and spectroscopy. Prereq: CHEM 2061 or 2091 with a C- or higher. No co-credit with CHEM 3481. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

CHEM 3418 - Organic Chemistry Lab I (1 Credit)

Laboratory course for science majors. Topics include methods of purification, separation and analysis of organic compounds; organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 2068 or 2098 with a C- or higher. Coreq: CHEM 3411 or CHEM 3481. No co-credit with CHEM 3488. Term offered: fall, spring, summer. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 2068 or 2098 with a C- or higher Coreq: CHEM 3411 or CHEM 3481

CHEM 3421 - Organic Chemistry II (4 Credits)

Lecture course for science majors. A continuation of Chem 3411. Topics covered include spectroscopy, aromaticity, reactions of alkynes, conjugated dienes, benzene, benzene derivatives, aldehydes, ketone, carboxylic acids, carboxylic acid derivatives, enols, enolates and amines, reaction mechanisms and syntheses. Prereq: CHEM 3411 or 3481 with a C- or higher. No co-credit with CHEM 3491. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or 3481 with a C- or higher.

CHEM 3428 - Organic Chemistry Lab II (1 Credit)

Laboratory course for science majors. A continuation of CHEM 3418. Topics include analysis of organic unknowns, organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 3418 or 3488 with a C- or higher; Coreq: CHEM 3421 or CHEM 3491. Note: Students will not receive credit for CHEM 3428 if they take it after successfully completing CHEM 3498. Term offered: fall, spring, summer. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 3418 or 3488 with a C- or higher Coreq: CHEM 3421 or 3491

CHEM 3481 - Majors Organic Chemistry I (4 Credits)

Lecture course for science majors. An accelerated and in-depth approach to organic chemistry. Intended for chemistry majors and advanced premedical, pre-dental, pre-pharmacy and other health related careers requiring a full year of organic chemistry. Instructor permission required. Topics covered include Structure and Bonding, Stereochemistry, Alkanes, reactions of alkenes, alkyl halides, alcohols and other functional groups, reaction mechanism and spectroscopy. Prereq: CHEM 2091 with a C- or higher and Coreq: CHEM 3418 or 3488 OR Prereq: CHEM-BS Majors or BICM-BS Majors and CHEM 2061 or CHEM 2091 with a C- or higher and Coreq: CHEM 3418 or CHEM 3488. No co-credit with CHEM 3411. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2091 Coreq: CHEM 3418 or 3488 OR Prereq: (CHEM-BS/ADL or BICM-BS/ADL) and CHEM 2061 or CHEM 2091 Coreq: CHEM 3418 or CHEM 3488

CHEM 3488 - Majors Organic Chemistry Laboratory I (1 Credit)

Laboratory course for science majors. Honors laboratory class to accompany CHEM 3411 or CHEM 3481. Topics include methods of purification, separation and analysis of organic compounds through extended experiments; organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3411 or CHEM 3481. Instructor permission required to enroll. Note: No co-credit with CHEM 3418. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 2068 or 2098 with a C- or higher Coreq: CHEM 3411 or CHEM 3481

CHEM 3491 - Majors Organic Chemistry II (4 Credits)

Lecture course for science majors. A continuation of Chem 3481. An accelerated and in-depth approach to organic chemistry. Intended for chemistry majors and advanced pre-medical, predental, pre-pharmacy and other health related careers requiring a full year of organic chemistry. Instructor permission required. Topics covered include spectroscopy, aromaticity, reactions of alkynes, conjugated dienes, benzene, benzene derivatives, aldehydes, ketone, carboxylic acids, carboxylic acid derivatives, enols, enolates and amines, reaction mechanisms and syntheses. Prereq: CHEM 3411 or CHEM 3481 and CHEM 3418 or CHEM 3488 with a C- or higher and instructor consent are required in order to enroll in this course. No co-credit with CHEM 3421. Term offered: spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or CHEM 3481 and CHEM 3418 or CHEM 3488 with a C- or higher

CHEM 3498 - Majors Organic Chemistry Laboratory II (2 Credits)

Laboratory course for science majors. A continuation of CHEM 3418 or CHEM 3488. Topics include multi-step organic reactions, workups and spectroscopy and an independent research project. Emphasis on use of the chemical literature, scientific writing and scientific presentation. Prereq: Students must be a Chemistry or Biochemistry major (CHEM-BS, CHEM-ADL, CHEM-BS2, BICM-BS or BICM-ADL). Students must have completed CHEM 3411 or CHEM 3481 and CHEM 3418 or CHEM 3488 with a C- or higher. Students must have completed CHEM 3421 or CHEM 3491 with a C- or higher or be co-enrolled. Others may be permitted by the instructor. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: Chemistry or Biochemistry major (CHEM-BS, CHEM-ADL, CHEM-BS2, BICM-BS or BICM-ADL) and CHEM 3411 or 3481 and CHEM 3418 or 3488 with a C- or higher. And Pre/Coreq: CHEM 3421 or 3491 with a C- or higher.

CHEM 3810 - Biochemistry (4 Credits)

Introduces the principles of biochemistry for science and health science-oriented majors. This survey course covers the important aspects of modern biochemistry including macromolecular structure, enzymology, and metabolism in one semester. Prereq: BIOL 2061 or 2097 and CHEM 3411 or 3481 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2061 or 2097 and CHEM 3411 or 3481 with a C- or higher

CHEM 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CHEM 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have a junior standing and at least a 2.75 GPA and must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

CHEM 4010 - Advanced Inorganic Chemistry (3 Credits)

Covers the fundamental principles of inorganic chemistry. Topics include atomic structure and periodicity, molecular symmetry, bonding, structural chemistry, main-group chemistry, coordination chemistry, and organometallic chemistry. Requisite knowledge in Undergraduate Inorganic and Physical Chemistry assumed. Cross-listed with CHEM 5010. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4110 - Advanced Analytical Chemistry (3 Credits)

Explores the fundamental principles of analytical chemistry. Topics will focus on meteorology (the science of making measurements), measurements based on energy transfer (e.g. spectroscopic analysis), and measurements based on mass transfer (e.g. chemical separations and electrochemistry). Requisite knowledge in Undergraduate Instrumental Analysis is assumed. Cross-listed with CHEM 5110. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4121 - Instrumental Analysis (3 Credits)

Surveys instrumental methods of analysis, emphasizing atomic and molecular spectroscopy, mass spectrometry, surface characterization, and chromatography techniques. Students are introduced to a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. Prereq: CHEM 3111 or CHEM 3481, CHEM 3421 or CHEM 3491, PHYS 2331 or PHYS 2020 and CHEM 4521 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3111 or CHEM 3481, CHEM 3421 or CHEM 3491, PHYS 2331 or PHYS 2020 and CHEM 4521 with a C- or higher.

Typically Offered: Spring.

CHEM 4128 - Instrumental Analysis Laboratory (2 Credits)

CHEM 4128 demonstrates a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Required of chemistry majors and open to other students in CHEM 4121. Prereq: CHEM 3118 and 4538 with a C- or higher. Coreq: CHEM 4121. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3118 and 4538 with a C- or higher Coreq: CHEM 4121

Typically Offered: Spring.

CHEM 4221 - Practical Applications of Spectroscopy (3 Credits)

This course surveys spectroscopic methods in order to deduce the structure of organic compounds from an examination of spectra, with an emphasis on infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy, and ultraviolet spectroscopy. Students will be introduced to a wide array of powerful and elegant tools for obtaining qualitative information about the structure of matter. This course will require a good amount of thought, yet all of the concepts and associated mathematical manipulations are within the reach of a student who has met the prerequisites. Prereq: CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5221. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or 3481 with a C- or higher.

CHEM 4310 - Advanced Organic Chemistry (3 Credits)

An exploration of structure, bonding and reactivity in organic modules that includes extensive analysis of the chemical literature, culminating in written and seminar presentations of individual projects. Requisite knowledge in Undergraduate Organic Chemistry and Physical Chemistry is assumed. Restriction: Restricted to degree-granting Graduate programs. Cross-listed with CHEM 5310. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4421 - Cannabis Chemistry (3 Credits)

An exploration of the terpene to cannabinoid compounds including biosynthesis pathways; human receptor structures and mechanism; current analytical methods for Quality Assurance and Quality Control and current research in medical applications. Prerequisite: Organic Chemistry I with a C- or higher (Chem 3411 or Chem 3481), and corequisite/prerequisite: Organic Chemistry II (CHEM 3421 or CHEM 3491). Cross-listed with CHEM 5421. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Organic Chemistry I with a C- or higher (Chem 3411 or Chem 3481), and corequisite/prerequisite: Organic Chemistry II (CHEM 3421 or CHEM 3491).

CHEM 4500 - Foundations of Physical Chemistry (3 Credits)

This course prepares students for CHEM 4511 and/or 4521. The goal is to bridge the gap between algebra- and calculus-based physics courses and to introduce essential math concepts and skills in Calculus III that are relevant to the Physical Chemistry course sequence 4511/4521. Pre: PHYS 2020 or (prereq or coreq) PHYS 2331, CHEM 3421 or CHEM 3491 and MATH 2411 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: PHYS 2020 or (prereq or coreq) PHYS 2331, CHEM 3421 or CHEM 3491 and MATH 2411 with a C- or higher.

CHEM 4510 - Computational Chemistry (3 Credits)

Classical and ab initio molecular dynamics are covered from theory to application. Students have access to high-performance computational resources and cover current topics in the field. Requisite knowledge in Undergraduate Physical Chemistry is assumed. Cross-listed with CHEM 5510. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics (3 Credits)

Includes study of the laws of thermodynamics, thermochemistry, chemical equilibria, solutions and statistical mechanics. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4511. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 -OR- CHEM 4500 with a C- or higher) OR co-requisite/pre-requisite MATH 3511 with a C- or higher.

Typically Offered: Fall.

CHEM 4518 - Physical Chemistry Laboratory: Reaction Analysis (2 Credits)

Instruction in the experimental techniques of physical chemistry with emphasis on the properties of gases, thermodynamics and chemical equilibrium. Pre- or Co-Requisite CHEM 4511 with a C- or higher if completed before CHEM 4518. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Pre- or Co-Requisite CHEM 4511 with a C- or higher if completed before CHEM 4518.

CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy (3 Credits)

Continuation of CHEM 4511, with emphasis on chemical kinetics, quantum mechanics, molecular structure and spectroscopy. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4521. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 -OR- CHEM 4500 with a C- or higher) OR co-requisite/pre-requisite MATH 3511 with a C- or higher.

Typically Offered: Spring.

CHEM 4530 - Advanced Physical Chemistry (3 Credits)

Explores fundamental properties of molecules (bond length and strength, the potential energy surface, reaction rates, etc.) and examines how these properties are measured, using original literature as the primary source, and culminating in written and seminar presentations of individual projects. Requisite knowledge in Undergraduate Physical Chemistry is assumed. Cross-listed with CHEM 5530. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4538 - Physical Chemistry Laboratory: Molecular Structure (2 Credits)

CHEM 4538 explores the central principles of physical chemistry, with emphasis on quantum chemistry, spectroscopy, and computational methods. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Pre or Co-requisite CHEM 4511 or CHEM 4521 with a C- or higher if completed before CHEM 4538 Term offered: fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Pre or Co-Requisite CHEM 4511 or CHEM 4521 with a C- or higher.

CHEM 4548 - Physical Biochemistry Laboratory (2 Credits)

Experimental techniques of physical chemistry emphasizing thermodynamics, kinetics, and spectroscopy of biological molecules. Fulfills the Physical Chemistry Lab requirement for Biochemistry Emphasis majors. Prereq: CHEM 3498 or CHEM 4828. Prereq or Coreq: CHEM 4511 or CHEM 4521 with a C- or higher. Recommended Preparation: CHEM 4810. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3498 or CHEM 4828. Pre or Coreq: CHEM 4511 or CHEM 4521 with a C- or higher.

Typically Offered: Spring.

CHEM 4600 - Advanced Topics in Chemistry (1-3 Credits)

Upper-level majors in chemistry or a related discipline explore a special topic in chemistry or biochemistry. A description of topics to be covered in the current semester is maintained on the Chemistry department website. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CHEM 4610 - Understanding & Presenting Chemical Research (1-2 Credits)

This course will improve your ability to systematically search for chemical information, help you interpret the information you find, & improve your ability to summarize and present that information. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Cross-listed with CHEM 5610. Term offered: fall, spring. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

CHEM 4630 - Programming for Data Analysis in the Physical Sciences (1 Credit)

This course will be taught using live coding format (the instructor will code live in the classroom with the students). In this course, you will learn to process data using python scripts that you will write. Data include for example absorption spectra, protein pdb files, coordinate files. You will also learn how to use Python libraries and write functions (for example to create high resolution graphs). Finally, you will learn best coding practices, how to keep track of different versions of your code and share your code using Github. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Having completed a semester of Organic Chemistry is recommended preparation for optimal student success. Cross-listed with CHEM 5630. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

CHEM 4655 - Teaching Assistant Bootcamp (1 Credit)

This course is 4-5 8-hour days of intensive training in suitable pedagogy for general chemistry and organic chemistry laboratory classes, procedures for teaching laboratory sections, and laboratory techniques. Students must have a teaching assistant contract with the Chemistry Department in order to take this course. Cross-listed with CHEM 5655.

Term offered: fall. Repeatable. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

CHEM 4700 - Environmental Chemistry (3 Credits)

A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5700. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3111 or CHEM 3411 or CHEM 3481 with a C- or higher

CHEM 4810 - General Biochemistry I (3 Credits)

In-depth introductory course for chemistry, science and health science majors. Topics include structure and energetics of proteins; mechanisms and kinetics of enzymes; structure and function of carbohydrates, lipids and nucleic acids. Prereq or Coreq: CHEM 3421 or CHEM 3491 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3421 or CHEM 3491 with a grade of C- or higher.

CHEM 4815 - Structural Biology of Neurodegenerative Diseases (3 Credits)

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Prereq: 1) BIOL 2051 & BIOL 2071 or BIOL 2095 & BIOL 2096, and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Prereq or Coreq: PHYS 2020 or PHYS 2331 with a C- or higher. Cross-listed with CHEM 5815, BIOL 4815, and BIOL 5815. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2051 BIOL 2071 or BIOL 2095 BIOL 2096, and 2)

CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher Prereq or Coreq: PHYS 2020 or PHYS 2331 with a C- or higher

CHEM 4820 - General Biochemistry II (3 Credits)

Advanced course for chemistry, science and health science majors. Topics include energetics and pathways for metabolism of carbohydrates, lipids, and amino acids. Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4825 - Biochemistry of Metabolic Disease (3 Credits)

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher and 2) BIOL 2051 & BIOL 2071 or BIOL 2095 and BIOL 2096 with a C- or higher. Cross-listed with CHEM 5825, BIOL 4825 and BIOL 5825. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 and 2) BIOL 2051 BIOL 2071 or BIOL 2095 and BIOL 2096

CHEM 4828 - Biochemistry Lab (2 Credits)

Focuses on modern laboratory techniques for biochemical research, with an emphasis on methods for protein isolation, purification and characterization. Students perform experiments including chromatography, electrophoresis, molecular cloning, spectrophotometry, and enzyme activity assays. Prereq: CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4835 - Biochemistry of Gene Regulation and Cancer (3 Credits)

Explores the biochemical and molecular aspects of cancer biology. Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher and 2) BIOL 2051 & 2071 or BIOL 2095 & BIOL 2096 with a C- or higher. Cross-listed with CHEM 5835, BIOL 4835, and BIOL 5835. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 and 2) BIOL 2051 BIOL 2071 or BIOL 2095 and BIOL 2096

CHEM 4840 - Independent Study: Chem (1-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

CHEM 4845 - Molecular Modeling and Drug Design (3 Credits)

Advanced course in biochemistry. An introductory course on modern molecular modeling techniques and their applications to computer-aided rational drug design. Prereq: CHEM 3411 with a C- or higher and either PHYS 2020 or PHYS 2331 with a C- or higher. Cross-listed with CHEM 5845. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 3411 with a C- or higher and either PHYS 2020 or PHYS 2331 with a C- or higher.

CHEM 4860 - Bioinorganic Chemistry: Bioinorganic compounds in medicine (3 Credits)

Explore the roles of metals in biochemistry and medicine by studying chemical/physical properties of metal coordinated compounds. The course focus on metal coordination resulting biopolymer folding and the function of macromolecules that is involved into iron cytochromes, zinc and copper enzymes, iron sulfur proteins, oxygen transport, iron storage, electron transfer, inorganic model compounds, metals in medicine, and toxicity of inorganic species. Topic is extended to biomedical application such as chemotherapy. Prereq: CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 5860. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

Biochemistry, BS

Introduction

Please click here (p. 326) to see Chemistry department information.

Biochemistry is the chemistry of life - the molecules, reactions, and energy transformations that underlie structure and function in all living organisms. The study of biochemistry combines knowledge from chemistry, biology, physics, and mathematics (and sometimes other disciplines) to understand how life works at the molecular level. This integrated scientific knowledge will be essential for understanding the future of human health, sustainable energy, and the environment.

The BS Biochemistry program at CU Denver strongly emphasizes connections between basic science and human health. Required coursework covers much of the foundational knowledge and skills for graduate and health professions entrance exams. Several courses explore connections between cutting-edge biochemical research and different diseases. Students are encouraged to take advantage of undergraduate research opportunities in biochemistry and related fields either at CU-Denver or on the nearby Anschutz Medical campus. Graduates learn skills in critical thinking, problem solving, and scientific communication for careers in the health and natural sciences.

A BS in Biochemistry stands out as a premiere accomplishment in applications for professional degree programs, including pharmacy, medicine, nursing, dentistry, medical technology, and many others.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Qualified majors are strongly urged to participate in directed research and departmental honors programs. We also strongly encourage Biochemistry majors to participate in the Chemistry department by serving as learning assistants or teaching assistants.

Students interested in the Biochemistry major or a double Chemistry and Biochemistry major should consult regularly with a Biochemistry Majors Advisor, Dr. Vanessa Fishback or Dr. Marta Maroñ.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 74 credit hours, including a minimum of 33 CHEM credit hours and a minimum of 26 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 14 credits hours with CU Denver faculty including CHEM 4518 Physical Chemistry Laboratory: Reaction Analysis or CHEM 4538 Physical Chemistry Laboratory: Molecular Structure or CHEM 4548 Physical Biochemistry Laboratory.

Program Restrictions, Allowances and Recommendations

1. A student who has declared a Biochemistry major at CU Denver may not take additional chemistry courses outside of the department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate Biochemistry advisor. No more than 3 additional hours of such pre-approved transfer credits will be allowed.
2. All courses applied to the Biochemistry major need to be taken within ten years of the graduation date with the exception of General Chemistry I and II Lecture and Laboratory (CHEM 2031/2038 and CHEM 2061/2068). In the event that the student would like to apply for expired credit for Organic I Lecture (CHEM 3481), the student will need to test at the 50th percentile on the ACS Standardized Exam for Organic Chemistry I.
3. PHYS 2321 Intro Experimental Phys Lab I and PHYS 2341 Intro Experimental Phys Lab II are specifically designed for students in non-Physics majors and can be paired with either PHYS 2010 College Physics I and PHYS 2020 College Physics II or PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based lectures. Students pursuing a second major in Physics should complete PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based and PHYS 2351 Applied Physics Lab I and PHYS 2361 Applied Physics Lab II.
4. Students may double major in Biochemistry and Chemistry. Students can apply the requirements for both majors, if the respective courses are a major requirement for both the Chemistry and Biochemistry major. Students must select unique Chemistry or Biochemistry

elective courses to satisfy elective course credit requirements for both majors. A course cannot fulfill more than two requirement/ elective areas in a student’s degree.

Required Courses

Code	Title	Hours
Take all of the following:		33
CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	3
CHEM 2038 or CHEM 2088	General Chemistry Laboratory I Honors General Chemistry I Laboratory	1
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	3
CHEM 2068 or CHEM 2098	General Chemistry Laboratory II Honors General Chemistry II Laboratory	2
CHEM 3481	Majors Organic Chemistry I	4
CHEM 3488	Majors Organic Chemistry Laboratory I	1
CHEM 3491	Majors Organic Chemistry II	4
CHEM 3498	Majors Organic Chemistry Laboratory II	2
CHEM 4500	Foundations of Physical Chemistry ¹	3
CHEM 4511 or CHEM 4521	Physical Chemistry: Thermodynamics and Kinetics Physical Chemistry: Quantum and Spectroscopy	3
CHEM 4810 or CHEM 5810	General Biochemistry I Graduate Biochemistry I	3
CHEM 4828	Biochemistry Lab	2
Select one of the following:		
CHEM 4518	Physical Chemistry Laboratory: Reaction Analysis	2
CHEM 4538	Physical Chemistry Laboratory: Molecular Structure	2
CHEM 4548	Physical Biochemistry Laboratory	2

¹ Students who choose Physics **Sequence A** can substitute MATH 3511 Mathematics of Chemistry in place of CHEM 4500 Foundations of Physical Chemistry.

Advanced Biochemistry Electives

Code	Title	Hours
Select three of the following:		9
BIOL 4125	Molecular Biology Laboratory	3
CHEM 4815	Structural Biology of Neurodegenerative Diseases	3
CHEM 4820	General Biochemistry II	3
CHEM 4825	Biochemistry of Metabolic Disease	3
CHEM 4835	Biochemistry of Gene Regulation and Cancer	3
CHEM 4845	Molecular Modeling and Drug Design	3
CHEM 4880	Directed Research ²	1-6
CHEM 4860	Bioinorganic Chemistry: Bioinorganic compounds in medicine	3
CHEM 4600/5600	Advanced Topics in Chemistry ³	1-3
CHEM 5830	Graduate Biochemistry II	4

² For faculty-mentored research projects related to biochemistry. Major credit for this course requires prior approval from the Biochemistry majors advisor and the research mentor. Major credits do not count toward departmental Honors requirements.

³ Certain topics, with permission from the Biochemistry Advisor

Molecular Science Electives

Code	Title	Hours
Select two of the following not previously selected as a required course or advanced biochemistry elective course:		6
CHEM 4121	Instrumental Analysis	3
CHEM 4421/5421	Cannabis Chemistry	3
CHEM 4511	Physical Chemistry: Thermodynamics and Kinetics	3
CHEM 4521	Physical Chemistry: Quantum and Spectroscopy	3
CHEM 4700	Environmental Chemistry	3
CHEM 4880	Directed Research	1-6
BIOL 3124	Introduction to Molecular Biology	3
BIOL 3225	Human Physiology	4
BIOL 3611	General Cell Biology	3
BIOL 3654	General Microbiology	5
BIOL 3763	Biostatistics	4
BIOL 3804	Developmental Biology	3
BIOL 3832	General Genetics	3

PHYS 2020	College Physics II	4
PHYS 2341	Intro Experimental Phys Lab II	1

⁴ Refer to note 3 under Program Restrictions, Allowances and Recommendations for alternative Physics lab information.

⁵ Students who choose Physics **Sequence A** can substitute MATH 3511 Mathematics of Chemistry in place of CHEM 4500 Foundations of Physical Chemistry.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/chemistry/undergraduate-students/bs-biochemistry/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Chemistry, BS

Introduction

Please click here (p. 326) to see Chemistry Department information.

A Chemistry degree can prepare you for a meaningful career in:

- Developing renewable energy solutions for climate change
- Ensuring safe and pure air and drinking water
- Discovering materials for new devices using nanotechnology
- Analyzing medical samples to detect rare and dangerous diseases
- Contributing to Colorado's and America's mining and petroleum industries
- Contributing to Colorado's emerging natural products and pharmaceuticals industries.

A BS in Chemistry also stands out as a premiere accomplishment in applications for professional degree programs, including pharmacy, medicine, nursing, dentistry, medical technology, and many others. Previous BS Chemistry graduates from CU-Denver have gone on to medical, dental, and pharmacy schools; to Ph.D. programs in chemistry and biomedical sciences; and to productive careers in the biotech, pharmaceutical, and medical technology industries.

The Chemistry Department offers two options for a chemistry degree: a BS Chemistry or a BS Chemistry ACS Certified. Students interested in the chemistry major should consult regularly with the chemistry major advisor, Dr. Marta K. Maroñ (marta.maron@ucdenver.edu). The Advisor can help you select the track that best fits your future goals. A complete

description of the chemistry major programs may be obtained in the Department of Chemistry office (Science 3071) or Department website.

Qualified majors are strongly urged to participate in directed research with a research faculty member and in the departmental honors program. We also strongly encourage chemistry majors to participate in the Department by serving as graders, learning assistants, and/or teaching assistants. Contact the chemistry major advisor for more information and/or questions.

American Chemical Society (ACS) Certified Degree.

The ACS Certified degree requires a more thorough background than the minimum requirements for a Chemistry BS degree. Students planning on going into industry upon completing their Bachelor of Science are at an advantage completing the ACS Certified degree option.

- The ACS certified degree is open to all Chemistry majors regardless of future plans.
- See the ACS certified degree program page (p. 338) for additional coursework.

These Degree requirements are subject to periodic revision by the Academic Department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 66 credit hours, including a minimum of 45 CHEM credit hours and a minimum of 18 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division level (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 14 CHEM credit hours with CU Denver faculty, including CHEM 4128 Instrumental Analysis Laboratory, CHEM 4518 Physical Chemistry Laboratory: Reaction

Analysis or CHEM 4538 Physical Chemistry Laboratory: Molecular Structure.

Program Restrictions, Allowances and Recommendations

1. A student who has declared a Chemistry major at CU Denver may not take additional chemistry courses outside of the Department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate Chemistry/Biochemistry advisor. No more than 3 additional hours of such pre-approved transfer credits will be allowed.
2. All courses applied to the Chemistry major need to be taken within ten years of the graduation date with the exception of General Chemistry I and II Lecture and Laboratory (CHEM 2031/2038 and CHEM 2061/2068). In the event that the student would like to apply for expired credit for Organic I Lecture (CHEM 3481), the student will need to test at the 50th percentile on the ACS Standardized Exam for Organic Chemistry I.
3. PHYS 2321 Intro Experimental Phys Lab I and PHYS 2341 Intro Experimental Phys Lab II are specifically designed for students in non-Physics majors and can be paired with either PHYS 2010 College Physics I and PHYS 2020 College Physics II or PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based lectures. Students pursuing a second major in Physics should complete PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based and PHYS 2351 Applied Physics Lab I and PHYS 2361 Applied Physics Lab II.
4. Students may double major in Biochemistry and Chemistry. Students can apply the requirements for both majors, if the respective courses are a major requirement for both the Chemistry and Biochemistry major. Students must select unique Chemistry or Biochemistry elective courses to satisfy elective course credit requirements for both majors. A course cannot fulfill more than two requirement/elective areas in a student's degree.

Chemistry, BS - ACS Certified Introduction

Please click here (p. 326) to see Chemistry Department information.

The Chemistry Department offers two options for a chemistry degree: a BS Chemistry or a BS Chemistry ACS Certified. Students interested in the chemistry major should consult regularly with the chemistry major advisor, Dr. Marta K. Maroñ (marta.maron@ucdenver.edu). The Advisor can help you select the track that best fits your future goals. A complete description of the chemistry major programs may be obtained in the Department of Chemistry office (Science 3071) or Department website.

Qualified majors are strongly urged to participate in directed research with a research faculty member and in the departmental honors program. We also strongly encourage chemistry majors to participate in the Department by serving as graders, learning assistants, and/or teaching assistants. Contact the chemistry major advisor for more information and/or questions.

Students planning chemistry as a career should be familiar with the recommendations of the American Chemical Society (ACS) for the professional training of chemists. The ACS certification requires students following the BS program of study take foundation courses in the five sub-disciplines of chemistry: analytical chemistry, biochemistry, inorganic chemistry, organic chemistry and physical chemistry. In addition, students take an in-depth (second semester) course in four out of the five sub-disciplines and are required to complete 400 hours of laboratory work post General Chemistry Laboratories. Laboratory work has to encompass four of the five sub-disciplines. General Chemistry I and II with laboratories are considered introductory courses and are prerequisites to foundation courses. No chemistry course with a grade of less than C (2.0) can be applied toward ACS certification. Students should check with the undergraduate chemistry major Advisor for details.

These Degree requirements are subject to periodic revision by the Academic Department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- Students must complete a total of 72 credit hours, including a minimum of 51 CHEM credit hours and 18 credit hours in ancillary coursework.
- Students must complete a minimum of 16 upper division level (3000-level and above) CHEM credit hours.

- Students must earn a minimum grade of C (2.0) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
- Students must complete a minimum of 14 CHEM credit hours with CU Denver faculty, including CHEM 4128 Instrumental Analysis Laboratory, CHEM 4518 Physical Chemistry Laboratory: Reaction Analysis or CHEM 4538 Physical Chemistry Laboratory: Molecular Structure.

Program Restrictions, Allowances and Recommendations

- A student who has declared a chemistry major at CU Denver may not take additional chemistry courses outside of the department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate advisor. No more than 3 additional hours of such pre-approved transfer credits will be allowed.
- All courses applied to the chemistry major need to be taken within ten years of the graduation date with the exception of General Chemistry I and II Lecture and Laboratory (CHEM 2031/2038 and CHEM 2061/2068). In the event that the student would like to apply for expired credit for Organic I Lecture (CHEM 3481), the student will need to test at the 50th percentile on the ACS Standardized Exam for Organic Chemistry I.
- PHYS 2321 Intro Experimental Phys Lab I and PHYS 2341 Intro Experimental Phys Lab II are specifically designed for students in non-Physics majors and can be paired with either PHYS 2010 College Physics I and PHYS 2020 College Physics II or PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based lectures. Students pursuing a second major in Physics should complete PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based and PHYS 2351 Applied Physics Lab I and PHYS 2361 Applied Physics Lab II.
- Students may double major in Biochemistry and Chemistry. Students can apply the requirements for both majors, if the respective courses are a major requirement for both the Chemistry and Biochemistry major. Students must select unique Chemistry or Biochemistry elective courses to satisfy elective course credit requirements for both majors. A course cannot fulfill more than two requirement/elective areas in a student's degree.

Chemistry, BS/MS

Introduction

Please click here (p. 326) to see Chemistry department information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

While students are completing a BS degree in chemistry, they may also complete some of the requirements for an MS degree in chemistry by participating in the BS/MS program using the following guidelines:

1. The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. Up to 12 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MS degree. With prior approval, these courses may also be applied toward the BS Chemistry (p. 337), BS Biochemistry (p. 335) or ACS certification requirements (p. 338) for the BS Chemistry degree.
3. The chemistry department will waive the requirement for placement examinations in each area of chemistry for which the student has completed the undergraduate sequence of courses and laboratories at the Downtown Campus with grades of B (3.0) or better for each course.
4. The student must apply for and be admitted to the MS program the semester that they plan to complete the BS Chemistry (p. 337), BS Biochemistry (p. 335) or ACS certification requirements (p. 338) at the Downtown Campus.

The BS/MS program allows undergraduate students who have begun their research as undergraduates to complete up to 12 semester hours toward the 30 semester hours required for an MS degree in chemistry while they are still completing their BS degree. This makes it possible for students to complete an MS degree in chemistry in only one year beyond the BS degree in chemistry (p. 337) or biochemistry (p. 335). Students entering the MS program through the BS/MS program option must fulfill all of the requirements of the Plan I or Plan II MS degree programs, which can be found here (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/chemistry/chemistry-ms/>).

To learn more about the Student Learning Outcomes for the Chemistry MS program, please visit our website (<https://clas.ucdenver.edu/chemistry/graduate-students/program-learning-goals/>).

To learn more about the Student Learning Outcomes for the Chemistry BS program, please visit our website (<https://clas.ucdenver.edu/chemistry/undergraduate-students/bachelor-science/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Biochemistry Certificate

Introduction

Please click here (p. 326) to see Chemistry department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with a Biochemistry advisor Dr. Vanessa

Fishback or Dr. Marta Maroñ to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Students should meet with the Biochemistry major advisor Dr. Vanessa Fishback or Dr. Marta Maroñ to file a certificate plan prior to the semester of graduation. The certificate is available to degree-seeking undergraduates, non-degree seeking students and students pursuing a chemistry minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 93) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 15 credit hours chosen from the approved courses.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours chosen from the approved courses below.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.7. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must 15 credit hours from the approved required and elective courses with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. All courses must be taken within ten years of receipt of the Biochemistry Certificate with the exception of General Chemistry I and II Lecture and Laboratory (CHEM 2031/2038 and CHEM 2061/2068). In the event that the student would like to apply for expired credit for Organic I Lecture (CHEM 3481), the student will need to test at the 50th percentile on the ACS Standardized Exam for Organic Chemistry I.
2. Prerequisite courses do not have to be completed at CU Denver. Required courses including electives must be completed in residency at CU Denver. Any residency exemptions need to be approved in writing by the Biochemistry advisor prior to the course(s) being taken at another institution.

Prerequisite Courses

Code	Title	Hours
Take the following:		
CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	3
CHEM 2038 or CHEM 2088	General Chemistry Laboratory I Honors General Chemistry I Laboratory	1
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	3

CHEM 2068	General Chemistry Laboratory II	2	CHEM 3111	Analytical Chemistry	3
or CHEM 2098	Honors General Chemistry II Laboratory		CHEM 4121	Instrumental Analysis	3
BIOL 2010	Organisms to Ecosystems (Gen Bio)	3	CHEM 4511	Physical Chemistry: Thermodynamics and Kinetics	3
or BIOL 2030	Honors Organisms to Ecosystems (Gen Bio)		CHEM 4521	Physical Chemistry: Quantum and Spectroscopy	3
BIOL 2011	Organisms to Ecosystems Lab (Gen Bio)	1	CHEM 4815	Structural Biology of Neurodegenerative Diseases	3
or BIOL 2031	Honors Organisms to Ecosystems Lab (Gen Bio)		CHEM 4820	General Biochemistry II	3
BIOL 2020	Molecules to Cells (Gen Bio)	3	CHEM 4825	Biochemistry of Metabolic Disease	3
or BIOL 2040	Honors Molecules to Cells (Gen Bio)		CHEM 4828	Biochemistry Lab	2
BIOL 2021	Molecules to Cells Lab (Gen Bio)	1	CHEM 4835	Biochemistry of Gene Regulation and Cancer	3
or BIOL 2041	Honors Molecules to Cells Lab (Gen Bio)		CHEM 4845	Molecular Modeling and Drug Design	3
CHEM 3411	Organic Chemistry I	4	CHEM 4860	Bioinorganic Chemistry: Bioinorganic compounds in medicine	3
or CHEM 3481	Majors Organic Chemistry I		CHEM 5830	Graduate Biochemistry II	4
CHEM 3418	Organic Chemistry Lab I	1	PHYS 3151	Biophysics Outlook I	2
or CHEM 3488	Majors Organic Chemistry Laboratory I		& PHYS 3161	and Biophysics Outlook II ¹	
CHEM 3421	Organic Chemistry II	4	PHYS 3452	Biophysics of the Cell NM	4
or CHEM 3491	Majors Organic Chemistry II		PSYC 3832	Neural Basis of Learning	3
CHEM 3428	Organic Chemistry Lab II	1			
or CHEM 3498	Majors Organic Chemistry Laboratory II				

Required courses

Code	Title	Hours
BIOL 3611	General Cell Biology	3
<i>Select one of the following Biochemistry courses:</i>		
CHEM 3810	Biochemistry	4
CHEM 4810	General Biochemistry I	3
CHEM 5810	Graduate Biochemistry I	4
<i>Select one of the following Biochemistry courses:</i>		
CHEM 4815	Structural Biology of Neurodegenerative Diseases	3
CHEM 4820	General Biochemistry II	3
CHEM 4825	Biochemistry of Metabolic Disease	3
CHEM 4835	Biochemistry of Gene Regulation and Cancer	3
CHEM 4845	Molecular Modeling and Drug Design	3
CHEM 4860	Bioinorganic Chemistry: Bioinorganic compounds in medicine	3
CHEM 5830	Graduate Biochemistry II	4
Total		9-10

Electives

Code	Title	Hours
<i>Select two of the following not already completed:</i>		
BIOL 3124	Introduction to Molecular Biology	3
BIOL 3225	Human Physiology	4
BIOL 3763	Biostatistics	4
BIOL 3804	Developmental Biology	3
BIOL 3832	General Genetics	3
BIOL 4024	Introduction to Biotechnology	3
BIOL 4064	Cell Biology of Disease	3
BIOL 4125	Molecular Biology Laboratory	3
BIOL 4144	Medical Microbiology	3
BIOL 4165	Neurobiology	3
BIOL 4550	Cell Signaling	3
CHEM 3011	Inorganic Chemistry	3

¹ These two 1-credit courses together fulfill one elective requirement

Chemistry Minor

Introduction

Please click here (p. 326) to see Chemistry department information.

The objective of the chemistry minor is to provide broad introductory course work and laboratory experience to science majors without the more technical mathematical and chemical prerequisites required of the chemistry major. The chemistry minor is open to all CLAS students and should prove beneficial for science majors, pre-professional health science majors and students seeking science education certification.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 63) to go to information about declaring a major/minor.
- To register your minor in chemistry, please visit the CLAS advising office in NC 1130. After establishing your minor status, you are encouraged to meet with the chemistry minor advisor, Dr. Priscilla Burrow.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 24 semester hours of chemistry courses.
2. Students must complete a minimum of 15 upper division level (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved course lists.

Program Restrictions, Allowances and Recommendations

1. All courses applied to the chemistry major need to be taken within ten years of the graduation date with the exception of General Chemistry I and II Lecture and Laboratory (CHEM 2031/2038 and CHEM 2061/2068). In the event that the student would like to apply for expired credit for Organic I Lecture (CHEM 3481), the student will need to test at the 50th percentile on the ACS Standardized Exam for Organic Chemistry I.
2. Only one biochemistry course may count towards the minor. Non-majors wishing to focus in biochemistry should consult the requirements for the Biochemistry Certificate (p. 341) program.

Required Courses

Code	Title	Hours
CHEM 2031	General Chemistry I	3
or CHEM 2081	Honors General Chemistry I	
CHEM 2038	General Chemistry Laboratory I	1
or CHEM 2088	Honors General Chemistry I Laboratory	
CHEM 2061	General Chemistry II	3
or CHEM 2091	Honors General Chemistry II Lecture	
CHEM 2068	General Chemistry Laboratory II	2
or CHEM 2098	Honors General Chemistry II Laboratory	
CHEM 3011	Inorganic Chemistry	3
or CHEM 3111	Analytical Chemistry	
CHEM 3411	Organic Chemistry I	4
or CHEM 3481	Majors Organic Chemistry I	
CHEM 3421	Organic Chemistry II	4
or CHEM 3491	Majors Organic Chemistry II	

Upper Division Laboratory Courses

Code	Title	Hours
<i>Take one of the following</i>		1-2
CHEM 3018	Inorganic Chemistry Laboratory	2
CHEM 3118	Analytical Chemistry Laboratory	2
CHEM 3418	Organic Chemistry Lab I	1
CHEM 3488	Majors Organic Chemistry Laboratory I	1
CHEM 4828	Biochemistry Lab	2

Upper Division Electives

Code	Title	Hours
<i>Take one of the following</i>		
CHEM 3810	Biochemistry	4
CHEM 4010	Advanced Inorganic Chemistry	3
CHEM 4110	Advanced Analytical Chemistry	3
CHEM 4121	Instrumental Analysis	3
CHEM 4221	Practical Applications of Spectroscopy	3
CHEM 4421	Cannabis Chemistry	3
CHEM 4510	Computational Chemistry	3
CHEM 4511	Physical Chemistry: Thermodynamics and Kinetics	3
CHEM 4521	Physical Chemistry: Quantum and Spectroscopy	3
CHEM 4700	Environmental Chemistry	3
CHEM 4810	General Biochemistry I	3
CHEM 4840	Independent Study: Chem ¹	1-6
CHEM 4880	Directed Research ¹	1-6
CHEM 5010	Advanced Inorganic Chemistry	3
CHEM 5110	Advanced Analytical Chemistry	3
CHEM 5221	Practical Applications of Spectroscopy	3
CHEM 5310	Advanced Organic Chemistry	3
CHEM 5810	Graduate Biochemistry I	4

Communication

Chair: Lisa B. Keränen

Graduate Director: Amy Hasinoff

Undergraduate Director: Stephen J. Hartnett

Program Assistant: Michelle A. Médal

Undergraduate Advisors: e. j. Yoder and Yvette Bueno Olson

Internship Director: Megan Hurson

Office: Student Commons Building, 1201 Larimer Street, 3rd Floor, Room 3014

Telephone: 303-315-1919

Overview

The Department of Communication at the University of Colorado Denver enriches understanding of the roles of communication in everyday life, organizational settings and public affairs. While the roots of the study of communication trace back to the ancient arts of philosophy, rhetoric, and aesthetics, its contemporary practices speak to the opportunities and dilemmas of participating in a globalized, mediated and multicultural society. A major in communication develops knowledge and skills that are required for many different fields, including advertising, business, international relations, education, public service, government and politics, health care and public relations. Because college graduates are expected to change careers approximately seven times over the course of their lives, and because employers across a wide variety of fields seek applicants with strong oral and written communication skills, a degree in communication is a versatile and timely choice.

The department's classes are organized in five pathways, including community service and public affairs, global and intercultural

communication, health communication, media and cultural studies, and strategic communication. In addition, we offer a number of Inquiry and Analysis classes that bridge these areas. Across these pathways, students are encouraged to merge theoretical studies with practical applications, including in-service learning courses, travel study, internships, social justice projects and other experiential modes of learning. The Department of Communication seeks to cultivate the knowledge and ability to use communication to create a more equitable and humane world.

Undergraduate Information

Communication Major

Click here (p. 351) to learn about the requirements for a major in Communication.

Academic Honors

Academic honors are conferred at graduation on students whose achievements are above those required for the bachelor's degree. Three levels of honors are available to students. *Cum laude* honors are automatically earned by communication majors with a cumulative GPA of 3.0 and a GPA of 3.5 in 39 hours of communication courses. *Magna cum laude* and *summa cum laude* honors require the completion of COMM 4700 Thesis and Project Practicum. Additional information about academic honors may be obtained from the undergraduate advisor in communication.

Undergraduate Internships

Internships are opportunities for students to work in communication-related positions in the community and to receive academic credit for that work. These internships provide a way for students to maximize their communication background and their understanding of concepts, theories, models and frameworks within the communication discipline.

Students typically receive 3 hours of academic credit for a one-semester internship in which they work between 15 and 30 hours a week.

For further information about internships, contact Megan Hurson at megan.hurson@ucdenver.edu.

- Strategic Communication Undergraduate Certificate (p. 357)

Faculty

Professors:

Sarah Fields, PhD, University of Iowa

Stephen J. Hartnett, PhD, University of California at San Diego

Associate Professors:

Hamilton Bean, PhD, University of Colorado at Boulder

Larry Erbert, PhD, University of Iowa

Amy Hasinoff, PhD, University of Illinois at Urbana-Champaign

Lisa B. Keränen, PhD, University of Pittsburgh

Associate Professors (Clinical Track):

Patrick Shaou-Whea Dodge, PhD, University of Denver

Xiyuan Liu, PhD, University of Illinois at Chicago

Assistant Professors:

Soumia Bardhan, PhD, University of New Mexico

Catalina M. de Onis, PhD, Indiana University

Mia Fischer, PhD, University of Minnesota

Senior Instructors:

Kristy Frie, MA, Regis University

Yvette Bueno Olson, PhD, University of Miami

e. j. Yoder, PhD, University of Denver

Instructors:

Megan Hurson, PhD, University of Colorado Boulder

Diann Logan, MA, University of Colorado Denver

James McNeil, MA, University of Colorado Denver

Ali Nassiri, MA, University of Colorado Denver

Tamara Powell, PhD, University of California San Diego

Emeritus:

Brenda J. Allen, PhD, Howard University

Sonja K. Foss, PhD, Northwestern University

James F. Stratman, PhD, Carnegie-Mellon University

Barbara J. Walkosz, PhD, University of Arizona

Communication (COMM)

COMM 1001 - Presentational Speaking (3 Credits)

Theory and practice of presentational speaking in a variety of contexts to accomplish goals of asserting individuality, building community, securing adherence, discovering knowledge and belief, and offering perspectives.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 1011 - Fundamentals of Communication (3 Credits)

Studies communication theory and application. Topics include communication models, interpersonal communication and the concept of self, nonverbal communication, message preparation and analysis, and decision making. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul; Denver Core Requirement, Behavioral Sciences.

COMM 1021 - Introduction To Media Studies (3 Credits)

Explores the role of contemporary media in shaping our sense of ourselves and our world. The class surveys a broad array of critical approaches to understanding media. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

COMM 1041 - Interpersonal Communication (3 Credits)

Focuses on the theory and development of interpersonal relationships. Issues covered include the communication process, self versus others, self-esteem, person perception, the attraction process, nonverbal communication, relationship development and family communication. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 1051 - Topics in Communication (1-3 Credits)

Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 1071 - Introduction to Journalism (3 Credits)

Introduction to Journalism provides students a broad overview of the histories of, debates within, and best practices for journalism in print, digital, and other media. This is a writing intensive course. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

COMM 2017 - Dialog, Debate, and Disagreement (3 Credits)

Cultivates academic American English knowledge/skills merging cultural, rhetorical, and linguistic theories with experiential learning. The course is designed for bilingual and non-native English speakers. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2020 - Communication, Citizenship, and Social Justice (3 Credits)

Introduction to debates about and means of practicing citizenship and social justice. Issues may include democratic participation, electoral politics, community engagement, and civil rights. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2030 - Digital Democracy (3 Credits)

Constant technological innovation means most Americans experience democracy in online formats; this class equips students with tools for living in our digital age. Topics include analyzing websites, studying online political organizing, and learning how to produce materials for online advocacy. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2045 - Workplace Communication (3 Credits)

Focuses on theories and practices of leadership, teambuilding, relationship development and other workplace communication skills. The goal of the course is to help students develop advanced communication strategies for managing workplace challenges. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2050 - Business and Professional Speaking (3 Credits)

Development of communication skills often used in business and professional settings, with an emphasis on various kinds of presentations. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2051 - Introduction to Strategic Communication (3 Credits)

Provides students foundational skills of marketing & public relations, targeted political messaging, and organizational communication, merging theory & practices to study how strategic communication works in different media environments. Students will not receive credit for this class if they have already received credit for COMM 4635. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2071 - Media Writing Skills (3 Credits)

A survey course covering the major media writing types including: hard or straight news, features, review, editorials, web content, and social media, plus notetaking, interviewing, and editing skills, and an examination of media bias. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2075 - Researching and Writing in Comm (3 Credits)

This on-line class enables students to learn the research and writing skills that will enable them to excel in the rest of the classes they take to complete the Communication major. Because the course is intended for Communication majors, our readings and modes of analysis provide students an overview of the discipline in general and of the "Pathways" that structure our major. The class is writing intensive. Term offered: spring, summer, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 2081 - New Media Production and Management (3 Credits)

This course develops knowledge and skills in producing, distributing, and managing engaging new media content using the latest digital communication platforms. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2082 - Introduction to Environmental Communication (3 Credits)

Intro to Environmental Communication provides students with the foundations for analyzing public debates about environmental sustainability, global warming, economic development, corporate responsibility, and activist movements. Emphasis is placed on representations of these issues in TV, films, music, blogs, and public deliberation. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2140 - Argumentation (3 Credits)

Examines classical through contemporary theories, with special attention to types of propositions, burden of proof, analysis of issues, evidence, reasoning, fallacies, case construction, refutation and ethics. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2500 - Introduction to Health Communication (3 Credits)

Health industries are among the fastest growing sectors of the U.S. economy; this class enables students to begin thinking about their health, the health of their communities, and the health of the nation as systems of language and power. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade

COMM 3071 - Advanced Media Writing Skills (3 Credits)

This class builds upon the skills learned in COMM 1071, Introduction to Journalism, and COMM 2071, Media Writing Skills, by focusing on long-form writing that is suitable for magazines and websites. Prereq: Students must have completed COMM 2071 with a C- or higher, or receive permission from the instructor, to enroll in this course. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 2071 with a C- or higher, or receive permission from the instructor, to enroll in this course.

Typically Offered: Spring.

COMM 3230 - Chinese Communication & Culture in Context (3 Credits)

This course is designed for CU Denver students studying at the ICB program in Beijing. For such students, the course introduces Chinese communication practices & cultural expectations, easing the student's transition into life in Beijing. Field trips are required & will be announced 1st day of class. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 3231 - Famous U.S. Trials (3 Credits)

This introduction to the history of the U.S. trial court system will contextualize significant trials in historic and cultural moments. The course will explore the roles of legal communication and mass communication in contemporary and subsequent representations of the trial. Cross-list HIST 3231. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 3271 - Communication and Diversity (3 Credits)

Explores the complexities of communication across diverse identities such as race, ethnicity, and gender. Course attempts to seek solutions via sharing meaning and discovering common ground. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

COMM 3275 - Family Communication (3 Credits)

Explores family communication processes in traditional and nontraditional families through examination of theories and research on the family. Topics include conflict, family secrets, decision-making, and practical guidelines for improved communication in families. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 3640 - TV, Culture, & Communication (3 Credits)

This course examines television theories and histories, from broadcast TV to internet streaming. Investigating TV industries and representations, students will gain an understanding of TV's role in contemporary culture. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 3650 - Media and Society (3 Credits)

Approaches communication from a historical perspective, examining how major revolutions in communication technologies have influenced and impacted society over time. Term offered: fall, spring, summer. Prereq: COMM 1021 with a C- or higher or permission from the instructor. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 1021 with a C- or higher.

COMM 3660 - Social Media for Social Change (3 Credits)

Students analyze new social media platforms in terms of their textual and visual content, their software structure, and their interactive features, thus learning how to analyze and produce online content intended to spur social change. Prereq: Students must have completed COMM 1011 and COMM 2020 with a C- or higher, or receive permission from the instructor, to enroll in this course. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Students must have completed COMM 1011 and COMM 2020 with a C- or higher.

COMM 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

COMM 3939 - Internship (1-6 Credits)

Applies communication or technical communication concepts and skills in supervised employment situations. Note: This course fulfills the communication department's exit class requirement. Prereq: Students must have completed 15 credit hours at CU Denver and have a 2.75 GPA overall and must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

COMM 4000 - Communication and Sport (3 Credits)

Examines the language and imagery used in sporting discourse. Considers how sports reflect and refract culture, both positively and negatively. Cross-list COMM 5000. Term offered: fall, spring. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4015 - Communication and Civility (3 Credits)

Examines the central role of communication in the creation of a civil and humane society. The definition, understanding, and practices of civility in public discourse and in professional, social, and personal relationships are explored. Film, literature, music, and other texts are utilized to illustrate key concepts and serve as catalysts for discussion. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4020 - Feminist Perspectives on Communication (3 Credits)
Introduces the communication theories of major feminist theorists such as Mary Daly, Bell Hooks, and Sonia Johnson, with a focus on how their theories challenge and transform current understandings of communication. Cross-listed with COMM 5020. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4021 - Perspectives on Rhetoric (3 Credits)
Introduces major theories of rhetoric from classical through contemporary times, including the theories of Aristotle, Cicero, I. A. Richards, Kenneth Burke, Michel Foucault and Jurgen Habermas. Cross-listed with COMM 5021. Term offered: fall, spring, summer. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall, Spring, Summer.

COMM 4022 - Critical Analysis of Communication (3 Credits)
Surveys research methods used to analyze messages from rhetorical and critical perspectives. Cross-listed with COMM 5022. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4031 - Perspectives on Communication (3 Credits)
Overview of major theories and literature in the communication field that serve as the foundation for the study of communication. Max Hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4040 - Communication, Prisons, and Social Justice (3 Credits)
Examines the U.S. prison-industrial complex and enables students to envision ways of reducing crime and improving democracy by engaging in community service. Note: This course fulfills the communication department's exit class requirement. Strongly Recommended: Students complete COMM 2020 or COMM 2030 prior to taking this class. Cross-listed with COMM 5040. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4051 - Advanced Strategic Communication (3 Credits)
Provides senior-level training in hands-on communication environments where targeted messaging seeks specific outcomes. All students complete projects for community group, media outlet or corporation they choose. Students will not receive credit for this class if they have already received credit for COMM 4640. Note: This course fulfills the communication department's exit class requirement. Prereq: Students must have completed COMM 2051 or COMM 2071 or COMM 3680 with a C- or higher, or receive permission from the instructor, to enroll in this course. Cross-listed with COMM 5051. Term offered: fall, spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Students must have completed COMM 2051 or COMM 2071 or COMM 3680 with a C- or higher.

COMM 4082 - Wilderness Communication (3 Credits)
The primary goal of this course is to engage issues of wilderness, communication, and environmental sustainability. Students will read philosophical, theoretical, and academic literature on human symbolic constructions of wilderness. Cross-listed with COMM 5082. Term offered: summer, fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Summer.

COMM 4111 - Theories of Leadership (3 Credits)
Examines research and applications related to the major theories of leadership. Emphasizes a critical reading of research confirming or denying various theories, and stresses the historical development of theories of leadership behavior and characteristics. Cross-listed with COMM 5111. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4152 - Religion & Communication (3 Credits)
This course focuses on the relational/coconstitutive dynamics between religion, culture, and communication and how that shapes the world in which people live; how the legacy of political religious conflict, in conjunction with international culture wars, instigate socio-cultural conflict and change; and how an in-depth study of the dynamics of religion, culture, and communication can improve intergroup/intercultural/international relations or even negotiation/conflict resolution processes. Students will develop capacity to critically analyze the socio-cultural and political implication of religious ideology (radical and moderate), ways in which these ideologies are performed and communicated, and their (students') agency/ability to contribute to intercultural/international understanding, conflict resolution, civic engagement, and/or social justice efforts. In addition, upon completion, students should be prepared to engage in complex conversations about the idea of religion, its role and relevance in human lives, and recognize several commonalities and differences between their (students') and non-Western/other societies' worldviews, cultures, and communicative dynamics. We will engage these topics through multiple and diverse readings, examples from television, film, and social media, reflexive writing assignments, research and analytical activities, critical discussions, and experiential learning activities. Cross-listed with INTS 4152, RLST 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4215 - Ethics in Communication (3 Credits)
Designed to help students identify and address the daily ethical challenges that occur in private, social, and professional contexts. Focus is on recognizing, analyzing, and resolving real-world ethical dilemmas using diverse approaches to ethical decision making. Cross-listed with COMM 5215. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4221 - Research Methods: Qualitative (3 Credits)
Applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Cross-listed with COMM 5221. Max Hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4230 - Nonverbal Communication (3 Credits)
Studies nonverbal behaviors that accompany or replace verbal communication, including macrospace, proxemics, kinesics, facial expression, eye contact, gestures, vocal characteristics, touch and personal adornment. Cross-listed with COMM 5230. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4240 - Organizational Communication (3 Credits)
Addresses the relationships among such communication factors as flow, media, channel, diversity, information delivery and organization functioning, morale, and productivity. Stresses functional workplace skills and practices. Cross-listed with COMM 5240. Term offered: fall, spring. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4245 - Advanced Organizational Communication (3 Credits)
Explores critical theoretical perspectives on communication in complex organizations, including issues and standpoints that have not been included in mainstream theory and research. Analyzes assumptions and pragmatic solutions associated with these theories. Cross-listed with COMM 5245. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4255 - Negotiations and Bargaining (3 Credits)
Designed to allow students to study theories and apply concepts that explain the influences of various forms of mediating, reducing, and/or resolving conflict among individuals, groups, organizations, nations and cultures. Cross-listed with COMM 5255. Term offered: summer. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Summer.

COMM 4260 - Communication and Conflict (3 Credits)
Studies the influence of communication on intrapersonal, interpersonal, intragroup and intergroup conflict situations. Cross-listed with COMM 5260. Term offered: fall, spring, summer. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4262 - Mediation (3 Credits)
Explores theoretical and practical aspects of mediation in a variety of contexts ranging from divorce mediation to labor-management disputes. Cross-listed with COMM 5262. Term offered: fall, spring, summer. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4265 - Gender and Communication (3 Credits)
Examines gender as it is constructed, performed, evaluated, and negotiated through communication. Topics covered include the nature of gender, the gender binary, scientific research on gender, gender stories in popular culture, the process of crafting and performing gender stories, and responses to gender performances. Cross-listed with COMM 5265. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4268 - Communication and Diversity in U.S. History (3 Credits)
Explores issues of diversity and community in the construction of U.S. culture. Emphasis on legal and historical texts that codify or challenge majoritarian notions of difference and systems of social control. Cross-listed with COMM 5268. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4270 - Intercultural Communication (3 Credits)
Examines the philosophy, process, problems, and potentials unique to communication across cultural boundaries. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5270 and INTB 6270. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4280 - Communication and Change (3 Credits)
Examines the role of communication in change processes of various kinds, including social change and diffusion of innovations. Cross-listed with COMM 5280. Prereq: COMM 2082 with a C- or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: COMM 2082 with a C- or higher.

COMM 4282 - Environmental Communication (3 Credits)
Studies the communication processes involved in policies and practices affecting natural and human environments. Cross-listed with COMM 5282. Term offered: spring. Prereq: COMM 2082 with a C- or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: COMM 2082 with a C- or higher.

COMM 4290 - Web Design (3 Credits)
Covers writing web pages in HTML, beginning Photoshop, style sheets, bitmapped animations, issues of usable layout, navigability, structure, typography, and color on the web. Projects require students to develop static web sites. Cross-listed with COMM 5290. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4300 - Multimedia Authoring (3 Credits)
Analysis and evaluation of components of multimedia development and hands-on instruction featuring computer animation for advertising, training, and educational projects. Cross-listed with COMM 5300. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4430 - Communication, China, and the US (3 Credits)
This course provides a senior-level opportunity to study how China & the USA have spoken about and to each other, from the Opium War through the Cyber Wars, thus situating this nation in a world of globalizing communication. Note: this course fulfills the communication department's exit class requirement. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with COMM 5430. Term offered: fall. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4500 - Health Communication (3 Credits)
Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Note: This course fulfills the communication department's exit class requirement. Cross-listed with COMM 5500. Term offered: fall, spring. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4525 - Health Communication and Community (3 Credits)

This course provides a broad knowledge base about health disparities and culturally competent frameworks in healthcare by enabling students to engage in service learning projects with local health-related community groups. Note: this course fulfills the communication department's exit class requirement. Term offered: spring. Prereq: COMM 2020 or COMM 2030 or COMM 2050 with a C- or higher or permission from the instructor. Max Hours: 3 Credits. Grading Basis: Letter Grade

Prereq: COMM 2020 or COMM 2030 or COMM 2050 with a C- or higher. Typically Offered: Spring.

COMM 4550 - Rhetorics of Medicine & Health (3 Credits)

This senior seminar/bridge class investigates persuasion in contemporary medicine/health care from clinical settings through mass media. Case studies explore contagion, health policy, the body, death, and biopower. The course requires extensive discussion of readings and an original research project. Note: This course fulfills the communication department's exit class requirement. Cross-listed with COMM 5550. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

COMM 4558 - Digital Health Narratives (3 Credits)

This course blends readings, discussions and activities about health narratives with digital media production skills to teach students how to create compelling digital stories about health-related topics. Note: this course fulfills the communication department's exit class requirement. Cross-listed with COMM 5558. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: spring. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

COMM 4575 - Designing Health Messages (3 Credits)

Examines the roles of communication in the design and impact of health messages/campaigns. We will design and assess health communication messages/campaigns in a participatory, process-oriented way using varied communication tools. Prereq: COMM 2500 with a C- or higher or instructor permission. Cross-listed with COMM 5575. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: COMM 2500 with a C- or higher or instructor permission.

COMM 4600 - Media Theory (3 Credits)

Surveys a broad array of critical and interpretive approaches to the study of media. Approaches include political economic, semiotic, rhetorical, psychoanalytic, feminist, and cultural. Cross-listed with COMM 5600. Max Hours: 3 Credits. Grading Basis: Letter Grade

COMM 4601 - You Are What You Eat: Food as Communication (3 Credits)

Because food provides a communication channel for much of who we are as individuals, as a community and as a society this course analyzes food as a form of communication. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with COMM 5601. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall, spring, summer. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4610 - Communication, Media, and Sex (3 Credits)

Develop the tools to think critically about representations of sexuality and to understand the social construction of sexuality, the role of sexual representations in mass media and society, and the complex relationships between sexual acts, identities, and desires. Restriction: Restricted to class level Junior, Senior, or permission of instructor. Cross-listed with WGST 4610. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher

COMM 4611 - Rhetoric of Global Food Policy (3 Credits)

This course examines stakeholder relations, agendas, and debates about global food policy using rhetorical concepts and analysis. Topics include the framing of debates about agriculture, hunger and obesity, the greening of food governance, sustainable food systems, and more. This course fulfills the communication department's pathway course requirement. Cross-listed with INTS 4611. Prereq: Junior standing or higher. Term offered: spring, fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall, Spring.

COMM 4620 - Health Risk Communication (3 Credits)

Acquaints students with contemporary theory, research, and practice in health risk communication. Strongly Recommended: COMM 4500. Cross-listed with COMM 5620, ENVS 5620, and PBHL 4620. Max Hours: 3 Credits. Grading Basis: Letter Grade

COMM 4621 - Visual Communication (3 Credits)

Explores the social, cultural, and behavioral effects of visual images in a variety of contexts, including graffiti, film, advertising, art and architecture. Cross-listed with COMM 5621. Prereq: COMM 1021 with a C- or higher. Term offered: spring. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: COMM 1021 with a C- or higher.
Typically Offered: Spring.

COMM 4660 - Queer Media Studies (3 Credits)

Queer Media Studies is a discussion-based, writing-intensive seminar that examines the history and development of U.S. LGBTQI media by focusing on media texts and production, sociocultural context, and media reception. Cross-listed with COMM 5660, WGST 4660, WGST 5660. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall, spring. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall, Spring.

COMM 4665 - Principles of Advertising (3 Credits)

Provides a fundamental understanding and appreciation of advertising in today's global society, including consumer motivation, buying behavior, research, creative development and media planning. Cross-listed with COMM 5665. Prereq: COMM 1021 with a C- or higher. Term offered: fall, spring, summer. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: COMM 1021 with a C- or higher.
Typically Offered: Fall, Spring, Summer.

COMM 4680 - Mass Media Law And Policy (3 Credits)

Covers issues of mass communication and the law and ethics, including issues of the First and Fourth Amendments, communication regulations, intellectual property, public access and obscenity. Cross-listed with COMM 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4681 - Communication Issues in Trial Court Practices and Processes (3 Credits)

Introduces students to communication and language research aimed at improving the fairness, reliability, and validity of court and judicial processes, including lawyer-client interviews, interrogatories, jury selection, jury instructions, witness examination, and the use of language evidence in court. Strongly Recommended: ENGL 2030. Cross-listed with COMM 5681. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4682 - Political Communication (3 Credits)

Examines the communication processes involved in mediated political events. Topics include the stages of the campaign process, media coverage of the political campaign process, and literacy skills needed to understand political advertising. Cross-listed with COMM 5682. Prereq: COMM 2020 or COMM 2030 with a C- or higher. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 2020 or COMM 2030 with a C- or higher.

COMM 4683 - Media in the Courtroom (3 Credits)

Critically examines the complex issues raised by media involvement in criminal court cases, including effects of pre-trial publicity, cameras in the courtroom, participants who argue their stories to the media, the CSI effect, and other phenomena relevant to media influence. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

COMM 4688 - Senior Seminar: Transitioning from College to Career (3 Credits)

Synthesis experience for communication majors designed to prepare students to enter the job market and to integrate and reflect on their experience in communication. Must have senior standing. This course fulfills the communications department's exit course requirement. Restrictions: Restricted to students with senior standing. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Senior standing.

Typically Offered: Fall, Spring.

COMM 4700 - Thesis and Project Practicum (3 Credits)

Focuses on strategies of research design and writing for undergraduate students working on theses for Latin honors and for master's students seeking to complete a major research paper or thesis. Note: This course fulfills the communication department's exit class requirement. Cross-listed with COMM 6700. To be eligible to enroll in this course you must be a senior majoring in communication, have a cumulative GPA of 3.0 and have a GPA in your communication coursework of 3.5. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4710 - Topics in Communication (1-3 Credits)

Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Cross-listed with COMM 6710. Term offered: fall, spring, summer. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

COMM 4720 - Dynamics of Global Communication (3 Credits)

Explores the word "global" in a communication context by analyzing the relationships between world media, international events, economics and the geopolitics of culture. This analysis is supported by the application of mass, human and cultural communication theory. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with COMM 5720. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4750 - Legal Reasoning and Writing (3 Credits)

Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Strongly Recommended: ENGL 1020, ENGL 2030 and any 3000 level English course. Cross-listed with COMM 5750, PSCI 4757, 5747. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4760 - New Media and Society (3 Credits)

This course examines the relationship between new media (such as the internet and mobile phones) and society. Students will investigate the social and cultural aspects of communication technologies. Cross-listed with COMM 5760. Prereq: COMM 1021 and COMM 2020 with a C- or higher. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 1021 and COMM 2020 with a C- or higher.

Typically Offered: Fall, Spring.

COMM 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

COMM 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

COMM 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: fall, spring, summer. Repeatable. Max hours: 15 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 15.

Communication, BA

Introduction

Please click here (p. 343) to see Communication department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- Communication Department courses are offered in a variety of formats, including 8 and 16 week online classes and in person classes. Not all classes are offered in all formats. Talk to a major advisor for more information.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 COMM credit hours.
2. Students must complete a minimum of 15 upper-division (3000-level and above) COMM credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 COMM credit hours, 15 of which must be upper division, with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Communication majors may complete up to 6 credit hours of COMM 3939 Internship.

2. A maximum of 6 credit hours of independent study courses may be applied to the major.
3. No more than 56 Communication credit hours can count toward graduation.
4. Students may transfer in up to 21 COMM credits.
5. In addition to required Communication courses, students are required to take seven elective courses (21 hours), which may consist of classes chosen from any combination of Communication Pathway and Inquiry and Analysis courses.

- community service and public affairs
- global and intercultural communication
- health communication
- media and cultural studies
- strategic communication

Communication Minor

Introduction

Please click here (p. 343) to see Communication department information.

Knowledge in most professional settings means little unless it can be communicated effectively. The minor in communication is designed to provide students who are not communication majors with knowledge and skills in communication that are useful in any discipline or profession.

These Minor requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Minor advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is offered both on-campus and online.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 COMM credit hours (six courses).
2. Students must complete a minimum of 6 upper-division (3000-level and above) COMM credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 COMM credit hours with CU Denver faculty.

Required Courses

Code	Title	Hours
<i>Take all of the following Communication courses:</i>		12
COMM 1001	Presentational Speaking	3
	or COMM 2050 Business and Professional Speaking	
COMM 1011	Fundamentals of Communication	3
COMM 1021	Introduction To Media Studies	3
COMM 2020	Communication, Citizenship, and Social Justice	3

Elective Courses

Code	Title	Hours
<i>Take two upper-division level COMM courses (3000 level or above)</i>		6
COMM 3071	Advanced Media Writing Skills	3

Global and Intercultural Communication Certificate

Introduction

Please click here (p. 343) to see Communication Department information.

The Undergraduate Certificate in Global and Intercultural Communication will offer learners the opportunity to demonstrate expertise in global and intercultural communication. In an increasingly mobile and connected world, employees need to navigate complex international information systems, build multinational relationships, and create diverse and inclusive global businesses.

The Undergraduate Certificate in Global and Intercultural Communication will serve as a gateway for internships and careers related to advertising and marketing, international business, public relations, international journalism, foreign service, international law and negotiation, media and entertainment, and any other industry with a global focus. The certificate will also further the Communication Department's mission to guide students toward developing the skills, knowledge, and abilities necessary to use communication to create a more equitable and humane world.

Currently, global and intercultural communication exists as a pathway or cluster of courses from which students may choose at will. Creating a distinct global and intercultural communication certificate will help credential students and meet the needs of students from other majors who want to develop expertise in global and intercultural communication.

Program Delivery:

- This is an online and on-campus program.

Declaring This Certificate

- Students should declare interest in completing the Undergraduate Certificate in Global and Intercultural Communication by emailing Dr. ej Yoder at ej.yoder@ucdenver.edu.
- Before the end of their final semester, students must send a completed certificate application (<https://clas.ucdenver.edu/communication/certificates/>) to Dr. ej Yoder at ej.yoder@ucdenver.edu.
- The approved certificate will be mailed to the student, and recorded on their transcript, after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must also complete an online Application for Non-Degree Admission prior to registering for courses.

Additional information about the undergraduate certificate in Global and Intercultural Communication may be obtained from Dr. ej Yoder, at ej.yoder@ucdenver.edu.

General Requirements

Click here (p. 93) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 COMM credit hours.
2. Students must complete a minimum of 12 upper-division (3000-level and above) COMM credit hours.

3. Students must earn a minimum grade of B (3.0) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 3.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete all of the credit hours for the certificate with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses may not count for more than two graduation requirements. If a COMM major seeks to earn a global and intercultural communication certificate, the student may count COMM major classes toward the certificate but not for any other purpose.
2. Courses may be completed on campus or online.

Required Courses

Code	Title	Hours
<i>Take all of the following</i>		6
COMM 4270	Intercultural Communication	3
COMM 4720	Dynamics of Global Communication	3

Electives

Code	Title	Hours
<i>Take one of the following ¹</i>		3
ANTH 3121	Language, Culture, and Communication	3
ANTH 3142	Cultural Diversity in the Modern World	3
COMM 4430	Communication, China, and the US	3
COMM 4262	Mediation	3
COMM 4611	Rhetoric of Global Food Policy	3
COMM 4710	Topics in Communication	1-3
ENGL 3080	Global Cinema	3
ENGL 3798	International Perspectives in Literature and Film	3
ENGL 4460	Contemporary World Literature	3
ENGR 3600	International Dimensions of Technology and Culture	3
ENGR 3995	Global Technology, Business & Culture	3
ETST 3272	Global Media	3
HIST 3500	African History in Novels and Films	3
HIST 4461	The Modern Middle East	3
HIST 4462	Islam in Modern History	3
HIST 4621	Explorers and Exploration	3

¹ Some courses have prerequisites in their majors; students should see their major advisors for advice on which electives could count for them. Additional interdisciplinary global and intercultural studies electives may be approved by the certificate advisor.

Capstone

Code	Title	Hours
<i>Take one of the following Capstone courses ²</i>		3
COMM 3939	Internship (in Global and/or Intercultural Communication) (Internship)	1-6

COMM 4700	Thesis and Project Practicum (with an approved global or intercultural communication project)	3
COMM 4995	Global Study Topics (or an approved global study class from another unit)	1-15

² A global and/or intercultural communication related capstone must use experiential learning or a high impact practice. Additional capstone courses may be approved by the certificate advisor.

To learn more about the Student Learning Outcomes for this program, please visit our website (https://clas.ucdenver.edu/communication/certificates/#undergraduate_certificate_in_global_amp_intercultural_communication-27).

Health Communication Certificate Introduction

Please click here (p. 343) to see Communication Department information.

The Undergraduate Certificate in Health Communication (CHC) offers learners the opportunity to acquire and demonstrate expertise in health communication. The certificate program will provide students with a theoretically rich and practically relevant education in how health messages are generated, negotiated, assessed, and understood across a wide range of communication contexts, spanning intrapersonal communication to digital and mass media.

The Undergraduate Certificate in Health Communication serves as a gateway for internships and careers related to health, wellness, and medicine, and further the Communication Department's mission to guide students toward developing the skills, knowledge, and abilities necessary to use communication to create a more civil and humane world.

These requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Certificate

- Students should declare interest in completing the Undergraduate Certificate in Health Communication by emailing Dr. Tamara Powell at tamara.powell@ucdenver.edu. (tamara.powell@ucdenver.edu)
- Before the end of their final semester, students must send a completed certificate application (<https://clas.ucdenver.edu/communication/certificates/>) to Dr. Tamara Powell at tamara.powell@ucdenver.edu. (tamara.powell@ucdenver.edu)
- The approved certificate will be mailed to the student, and recorded on their transcript, after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must also complete an online Application for Non-Degree Admission prior to registering for courses.
- Additional information about the undergraduate certificate in Health Communication may be obtained from Dr. Tamara

Powell, Student Commons Building 3311, 303-315-0310, or tamara.powell@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 93) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 15 credit hours from approved courses.
- Students must complete a minimum of 12 upper division (3000-level and above) credit hours from approved courses.
- Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
- Students must complete all credit hours for the certificate with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Courses may not count for more than two graduation requirements.

Required Courses

Code	Title	Hours
<i>To build on a shared set of foundational theories, norms, and skills, all CHC-seeking students take the following:</i>		9
COMM 2500	Introduction to Health Communication	3
COMM 4500	Health Communication	3
COMM 4575	Designing Health Messages	3

Interdisciplinary Health Electives

Code	Title	Hours
<i>CHC-seeking students will then broaden their perspective on health communication by taking an interdisciplinary health elective. Students must complete at least one from the following courses:¹</i>		3
ANTH 4600	Medical Anthropology	3
COMM 4282	Environmental Communication	3
COMM 4525	Health Communication and Community	3
COMM 4550	Rhetorics of Medicine & Health	3
COMM 4558	Digital Health Narratives	3
COMM 4601	You Are What You Eat: Food as Communication	3
COMM 4611	Rhetoric of Global Food Policy	3
COMM 4620	Health Risk Communication	3
ENGL 4290	Rhetoric and the Body	3
ENGL 4745	Humanistic Writing About Medicine and Biology	3
ETST 3002	Ethnicity, Health and Social Justice	3
GEOG 3501	Geography of Health	3
PBHL 3030	Health Policy	3
PBHL 3041	Health, Culture and Society	3
PBHL 3070	Perspectives in Global Health	3

PBHL 4040	Social Determinants of Health	3
PHIL 4242	Bioethics	3
PSCI 4330	U.S. Health Policy	3
PSYC 3262	Health Psychology	3
SOCY 3440	Medical Sociology	3
SOCY 3570	Death & Dying: Social & Medical Perspectives	3
SOCY 4050	Health Disparities	3
SOCY 4110	Sociology of Health Care	3
SOCY 4220	Population Change and Analysis	3
SOCY 4270	Social Meanings of Reproduction	3

¹ Another elective with a health communication focus may be approved for the CHC in consultation with certificate advisor.

Required Capstone Project

Code	Title	Hours
<i>CHC-seeking students will complete their certificate by undertaking a semester-long capstone using experiential learning or high impact practices. Select one of the following:</i> ²		3
COMM 3660	Social Media for Social Change	3
COMM 3939	Internship	1-6
COMM 4051	Advanced Strategic Communication	3
COMM 4525	Health Communication and Community	3
COMM 4550	Rhetorics of Medicine & Health	3
COMM 4558	Digital Health Narratives	3
COMM 4620	Health Risk Communication	3
PBHL 4099	Capstone Experience in Public Health	3

² Additional discipline-specific health methods courses may be approved by the certificate advisor.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/communication/health-communication-certificate-learning-outcomes/>).

Mediation Undergraduate Certificate Introduction

Please click here (p. 343) to see Communication department information.

Mediation is a process in which conflict parties attempt to manage their differences with the assistance of a neutral third-party. The Certificate in Mediation is designed to provide intensive and in-depth training in mediation and communication skill competencies. Trained mediators are impartial process experts who utilize communication and conflict philosophy and theories to increase the probability of more favorable outcomes between parties in conflict. The undergraduate certificate is designed for communication majors or any student interested in developing practical skills in alternative dispute resolution. The courses in this certificate focus on alternative dispute processes that include strategies for managing conflict in personal, public, legal, political, governmental, and corporate contexts. These certificate requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly

urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Students should declare interest in completing the Undergraduate Certificate in Mediation by emailing Dr. Larry Erbert at larry.erbert@ucdenver.edu.
- Before the end of their final semester, students must send a completed certificate application (<https://clas.ucdenver.edu/communication/certificates/>) to Dr. Larry Erbert at larry.erbert@ucdenver.edu.
- The approved certificate will be mailed to the student, and recorded on their transcript, after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must also complete an online Application for Non-Degree Admission prior to registering for courses.

Additional information about the undergraduate certificate in Mediation may be obtained from Dr. Larry Erbert, Student Commons Building 3008, or larry.erbert@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 93) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete a minimum of 9 upper division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours for the certificate with CU Denver faculty.

Required Courses

Code	Title	Hours
<i>Take the following</i>		6
COMM 4262	Mediation	3
COMM 4255	Negotiations and Bargaining ¹	3
or COMM 4260 Communication and Conflict		

¹ Students may take both COMM 4255 Negotiations and Bargaining and COMM 4260 Communication and Conflict and then take one elective rather than two.

Elective Courses

Code	Title	Hours
<i>Take two of the following</i>		6
COMM 3271	Communication and Diversity	3
COMM 4240	Organizational Communication	3
COMM 4255	Negotiations and Bargaining ¹	3
or COMM 4260 Communication and Conflict		
COMM 4282	Environmental Communication	3

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/communication/mediation-certificate-learning-outcomes/>).

Strategic Communication Undergraduate Certificate

Introduction

Please click here (p. 343) to see Communication department information.

In keeping with worldwide transformations in information technology, media production, image consumption, message distribution, and norms of citizen engagement, the Department of Communication offers an Undergraduate Certificate in Strategic Communication (CSC).

Strategic Communication has been defined as the management function that entails planning, research, publicity, promotion and collaborative decision-making to help any organization's ability to listen to, appreciate and respond appropriately to those persons and groups whose mutually beneficial relationships the organization needs to foster as it strives to achieve its mission and vision.

These requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Students should declare interest in completing the Undergraduate Certificate in Strategic Communication by emailing Dr. Hamilton Bean at hamilton.bean@ucdenver.edu.
- Before the end of their final semester, students must send a completed certificate application (<https://clas.ucdenver.edu/communication/certificates/>) to Dr. Hamilton Bean at hamilton.bean@ucdenver.edu (hamilton.bean@ucdenver.edu).
- The approved certificate will be mailed to the student, and recorded on their transcript, after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must also complete an online Application for Non-Degree Admission prior to registering for courses.

Additional information about the undergraduate certificate in Strategic Communication may be obtained from Dr. Hamilton Bean, Student

Commons Building 3010, 303-315-1909, or hamilton.bean@ucdenver.edu (hamilton.bean@ucdenver.edu).

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 93) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete a minimum of 6 upper division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours for the certificate with CU Denver faculty.

Required Courses

Code	Title	Hours
<i>To build on a shared set of foundational theories, norms, and skills, all CSC-seeking students take two required courses in Communication</i>		6
COMM 2051	Introduction to Strategic Communication	3
COMM 2071	Media Writing Skills	3

Electives

Code	Title	Hours
<i>CSC-seeking students will then burnish their production skills by taking an elective from chosen areas of content expertise.</i>		
<i>Take at least at least one¹</i>		3
COMM 2081	New Media Production and Management	3
COMM 3660	Social Media for Social Change	3
COMM 3939	Internship	1-6
COMM 4665	Principles of Advertising	3
FINE 2155	Introduction to Digital Photography	3
FINE 2405	Introduction to Digital Design	3
FINE 2415	Typography Studio	3
FINE 3414	Motion Design I	3

¹ Another elective with a strategic communication focus may be approved for the CSC in consultation with Dr. Hamilton Bean or a Department of Communication advisor.

Capstone Project

Code	Title	Hours
<i>CSC-seeking students will complete their certificate by undertaking a semester-long capstone project conducted in conjunction with a community partner.</i>		
<i>Take one</i>		3
COMM 4051	Advanced Strategic Communication	3
or FINE 4400	Design Studio III

Economics

Chair: Brian Duncan

Program Assistant: Christine Lukvec

Office: Lawrence Street Center, LW-470

Telephone: 303-315-2030

Overview

Economics is the science of human behavior in market and non-market contexts. The rigorous and general scientific approach that characterizes economics lends itself to a remarkably wide field of practical application. Economists regularly apply their methods of analysis in fields such as government policy, international trade and finance, economic development, portfolio management and banking. But economics is increasingly seen as providing important insight into an enormous variety of social issues, including health care provision and health-related behaviors, law, criminal activity, environmental and natural resource problems, political activity, education, marketing and sports. The broad and rigorous training of economics majors accounts for the significant demand for their services in virtually every industry and government agency. Economics provides excellent preparation for advanced graduate study as well. Recent studies indicate that economics is a preferred undergraduate degree for those wishing to move on to prestigious business graduate programs and law schools.

Undergraduate Information

Economics Major

Click here (p. 366) to learn about the requirements for an Economics Major.

Click here (p. 675) to learn about the requirements for an Economics BA and Mathematics BS dual degree.

Economics Minor

Click here (p. 367) to learn about the requirements for an Economics Minor.

Economics Certificate

Click here (p. 368) to learn about the requirements for an Health and Development Economics Undergraduate Certificate.

Honors in Economics

Students wishing to earn departmental honors in economics should consult with their advisor no later than the beginning of their senior year.

Cum laude will be awarded to students who complete an economics major with a 3.5 GPA in all upper-division (3000+) courses in economics taken at CU Denver, with a minimum of eight such courses, and either two additional electives in economics beyond those required for the major, taken at the 4000 or higher level, or an acceptable honors thesis. The thesis must be approved by a three-member committee of department faculty and will include a presentation of the results to that committee. Students should register for the thesis, using ECON 4850 Honors Independent Study: ECON as the course number, as a 3-semester hour independent study, in addition to the regular requirements for the major.

Magna cum laude will be awarded to students who complete an economics major with a 3.7 GPA in all upper-division (3000+) courses

in economics taken at CU Denver, with a minimum of eight courses, and who complete an honors thesis designated as “acceptable” by their thesis committee.

Summa cum laude will be awarded to students who complete an economics major with a 3.88 GPA in all upper-division (3000+) courses in economics taken at CU Denver, with a minimum of eight courses, and who complete an honors thesis designated as “outstanding” by their thesis committee.

In order to be recognized in the graduation program as “Honors Pending,” a draft of the thesis must be submitted to the chair of the committee four weeks prior to the end of the semester. The oral presentation and other requirements must be completed one week before graduation.

In order to be recognized in the graduation program with the specific honors degree being conferred, e.g., *summa, magna*, etc., students must turn in the completed final copy of the honors thesis four weeks prior to the end of the semester, along with meeting other requirements by the week before graduation. Otherwise, recognition will come with the diploma after graduation.

Students who do not have an advisor should contact the department for assignment to an advisor. Students should meet with their advisor at least twice a year.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/economics/>) catalog to read about our graduate programs.

Economics (ECON)

ECON 1010 - Economics of Social Issues (3 Credits)

This course is designed for non-majors. Majors in economics will not receive credit toward departmental degree requirements. The focus of the course is on current issues in the economy, including poverty, social security, airline deregulation, government control of prices, economics of higher education, free trade, race and gender discrimination, unemployment, the role of government, and the national debt. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECON 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ECON 2012 - Principles of Economics: Macroeconomics (3 Credits)

Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol; Denver Core Requirement, Social Sciences.

ECON 2022 - Principles of Economics: Microeconomics (3 Credits)

Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

ECON 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Cross-listed with PBHL 3050 and PSYC 3050. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECON 3100 - Economics of Race and Gender (3 Credits)

Overview of the determinants of wages, employment and education in the labor market. Emphasizes the investigation of the evidence and theories of differentials that appear to be associated solely with race and sex, and public policies associated with discrimination and poverty. Prereq: ECON 2022 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

ECON 3300 - Economics of Crime and Punishment (3 Credits)

Presents the economic approach to crime. Teaches economic reasoning in the analysis of the determinants of criminal activity, provides an in-depth analysis of the importance of socioeconomic factors in determining crime. Investigates the relative importance of labor market conditions, deterrence, and other factors in the level of criminal activity. Also covers topics to reduce crime such as, the death penalty, issues around victimless crime and public choices. Prereq: ECON 2022 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 3366 - Managerial Economics (3 Credits)

Presents the basic core of economic theory and its use for sound managerial decision making. Emphasis on the practical applications of the concepts learned in economics to the resolution of everyday problems. Note: Students will not receive credit for ECON 3366 if they take it simultaneously or after successfully completing ECON 4310.

Prereq: ECON 2012 and 2022 with a C- or higher. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Econ 2012 or Econ 2022 with a C- or higher

Additional Information: Teikyo.

ECON 3400 - Economics of Sex and Drugs (3 Credits)

Examines the political and policy issues surrounding controversial topics in human behavior. Economic models and reasoning are applied to examine issues such as juvenile substance use and abuse, and teen pregnancy. Prereq: ECON 2022 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 3415 - Issues in International Trade and Finance (3 Credits)

A survey of International Trade and Finance is provided and then applied to contemporary issues such as gains from trade, global and local economic inequality, trafficking, global capital markets, debt, the Eurozone and transmission of inflations and recessions internationally. This course is for non-economics majors & economics minors. Students may not receive credit if they take it after they have completed ECON 4410 or ECON 4420. Prereq: Econ 2012 and Econ 2022 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2012 and 2022 with a C- or higher

ECON 3770 - Issues in Economic Development (3 Credits)

This is a survey course in development economics intended to provide a basic understanding of the economies of developing nations. Topics include issues and policies in economic development, comparative economic growth, demographic change, poverty, inequality, and migration. This course is for non-economics majors & economics minors. Students may not receive credit if they take it after they have completed ECON 4770. Prereq: Econ 2012 or Econ 2022 with a C- or higher. Term offered: spring, summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Econ 2012 or Econ 2022 with a C- or higher

ECON 3801 - Introduction to Mathematical Economics (3 Credits)

Introduces the use of mathematics in micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq or co-req: ECON 2012 with a C- or higher, prereq: ECON 2022 and College Algebra or higher (MATH 1110 or MATH 1070 or MATH 1401 or MATH 1130 or MATH 2411 or MATH 2421) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: ECON 2012 with a C- or higher, prereq: ECON 2022 and College Algebra or higher (MATH 1110 or MATH 1070 or MATH 1401 or MATH 1130 or MATH 2411 or MATH 2421) with a C- or higher

ECON 3811 - Statistics with Computer Applications (4 Credits)

Introduces statistical methods and their application to quantitative problems in economics and social sciences. Note: Recitation is required. Prereq or co-req: ECON 2022 AND Prereq: College Algebra or higher (MATH 1110, MATH 1070, MATH 1401, MATH 2411, MATH 2421, MATH 1130, or ECON 3801) with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq or co-req: ECON 2022 AND Prereq: College Algebra or higher (MATH 1110, MATH 1070, MATH 1401, MATH 2411, MATH 2421, MATH 1130, or ECON 3801) with a C- or higher.

ECON 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

ECON 4001 - Topics in Economics (3 Credits)

Studies special topics in economics to be selected by the instructor. Note: May be repeated for credit when topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ECON 4030 - Data Analysis with SAS (3 Credits)

Covers techniques for handling and interpreting economic data and conducting econometric analyses using SAS programming. Provides hands-on data management and analyses with large data sets with applications to business and economics, and prepare students for SAS Base Programmer certification exam. Prereq: ECON 3811 with a C- or higher. Cross-listed with ECON 5030. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 with a C- or higher

ECON 4050 - Special Economic Problems (1-8 Credits)

Provides students the opportunity to critically evaluate some practical and theoretical problems under supervision, and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: ECON 2012 and ECON 2022 with a C- or higher. Note: ECON 4050 for majors in economics, others by permission of instructor. Cross-listed with ECON 5050. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Econ 2012 or Econ 2022 with a C- or higher

ECON 4071 - Intermediate Microeconomic Theory (3 Credits)

Production, price and distribution theory. Study of value and distribution theories under conditions of varying market structures, with special references to the contribution of modern theorists. Prereq: ECON 3801 with a C- or higher or Calculus II or Calculus III with a B or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3801 with C- or higher or (MATH 2411 or MATH 2421 with B or higher)

ECON 4081 - Intermediate Macroeconomic Theory (3 Credits)

National income and employment theory. Primary emphasis placed on determination of employment and prices. Problems of unemployment and inflation analyzed and appropriate policies considered. Prereq: ECON 3801 with a C- or higher or MATH 2411 or MATH 2421 with a C or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3801 with C- or higher or (MATH 2411 or MATH 2421 with C or higher)

ECON 4090 - History of Economic Thought (3 Credits)

Traces the development of economic thought from ancient times to the 20th century. Considers the context in which these ideas were developed and their relationship to modern economic thought and contemporary economic problems. Note: Students may not receive credit for this course if they have already received credit for ECON 4091. Prereq: ECON 2012 and ECON 2022 with a C- or higher. Cross-listed with ECON 5090. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Econ 2012 or Econ 2022 with a C- or higher

ECON 4110 - Money and Banking (3 Credits)

Surveys major monetary and fiscal institutions such as commercial banks, the federal reserve system, savings institutions, and the structure of debt. The relationships between households, firms and financial intermediaries are explored, and the tools available to macroeconomic policy makers are described and evaluated. Prereq: ECON 4081 with a C- or higher. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4081 with a C- or higher.

ECON 4150 - Economic Forecasting (3 Credits)

Teaches forecasting techniques used in business and government to project trends and short-term fluctuations. Actual data are employed in instruction and labs. State-of-the-art spreadsheet and algorithms are introduced as part of the course work. Prereq: ECON 4811 with a C- or higher. Cross-listed with ECON 5150. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

ECON 4210 - Public Finance (3 Credits)

Surveys topics dealing with the economics of government activity, including the provision of public goods; the economics of the political process; welfare programs; pollution externalities; benefit-cost analysis; the U.S. tax structure; and the effects of taxes on economic behavior, economic performance and the distribution of income. Prereq: ECON 2022 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4240 - Economic Policy Analysis (3 Credits)

Deals with the application of economic analysis to the government policy-making process. Topics include public goods provision, externalities, cost-benefit analysis, judicial decision making, the economic analysis of the political process, government regulation of business, and tax incidence. Prereq: ECON 2012, ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2012, ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher)

ECON 4310 - Managerial Economics (3 Credits)

The course adapts standard theory to more realistically discuss enterprise structure, firm and managerial behavioral incentives, and strategic behavior. Once a foundation is laid, successful and unsuccessful strategies and case studies are presented. Cross-listed with ECON 5310. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ECON 4318 - Urban Economics (3 Credits)

Why do cities form and why are they so productive? How does the value of land change as the urban landscape develops? How do we address the difficulties that challenge modern cities, such as affordable housing, congestion, and crime? Prereq: ECON 3811 and ECON 4071 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 and ECON 4071 with a C- or higher.

ECON 4320 - Financial Economics (3 Credits)

This course focuses on the economics of decision-making under conditions of risk and uncertainty. Topics include theories of efficient markets, rational expectations, speculative bubbles, random walks, portfolio analysis, options, derivatives and future markets. Emphasis is on the application of basic theories to economic agents' behavior and case studies. Prereq: ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher), and ECON 3811 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher), and ECON 3811 with a C- or higher

ECON 4410 - International Trade (3 Credits)

Trade theory identifies who wins and loses from trade and why there are usually overall gains. Explores issues in immigration, globalization, income inequality, tariffs, dumping, the WTO, the environment, wages, and growth strategies among others. Prereq: ECON 3811 with a C- or higher. Cross-listed with ECON 5410. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 with a C- or higher

ECON 4420 - International Finance (3 Credits)

The international adjustment process, including the foreign exchange market, balance of payments disequilibria, price and income adjustment, fiscal and monetary policy, and the international monetary system.

Prereq: ECON 3811 with a C- or higher. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 with a C- or higher

ECON 4430 - Economic Growth (3 Credits)

Explores causes of rapid growth or decline over long periods for different regions of the world. Inequality, sustainability, culture, climate, technology and resources all play significant roles. Data and examples are used to determine the important influences. Prereq: ECON 2022 and ECON 3811 with a C- or higher. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 and 3811 with a C- or higher

ECON 4461 - Economic Incentives (3 Credits)

A free market can fail with poorly designed economic incentives. The course examines incentives at work in a wide range of markets and investigates the market conditions that lead to a high level of welfare for the society. One such condition is the incentive for every participant to reveal his/her true preference. The incentive environments examined in this course include the principal-agent problems, job market signaling, mandatory retirement, professor's tenure, auctions of artifacts and assets, private provision of public goods, marriage matching, matching of organ donation (kidneys and lungs), school admissions, and majority voting. Prereq: ECON 3811, ECON 4071 and (ECON 3801 or MATH 2411 or MATH 2421) with a B+ or higher, or instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811, ECON 4071 and (ECON 3801 or MATH 2411 or MATH 2421) with a B+ or higher, or instructor permission.

ECON 4530 - Economics of Natural Resources (3 Credits)

Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 2022 with a C- or higher. Cross-listed with ECON 5530. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4540 - Environmental Economics (3 Credits)

Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022 with a C- or higher. Cross-listed with ECON 5540. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4550 - Game Theory and Economic Applications (3 Credits)

An introduction to economic applications of game theory. Concepts such as strategic and extensive form games, existence and selection of equilibrium will be covered. These concepts will be applied to understand market structure, location decisions, price competition, contracting, and auctions. Prereq: ECON 4071 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4071 with a C- or higher

ECON 4610 - Labor Economics (3 Credits)

Studies problems associated with the determination of wages, hours, and working conditions in the American economy. Strong emphasis placed on current research in such areas as welfare reform, minimum wage, return to schooling, immigration, labor market discrimination, and trade unions. Prereq: ECON 4811 with a C- or higher. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

ECON 4640 - Sports Economics (3 Credits)

Applies economic analysis to sports. Explores topics such as competition, on-field performance, players' compensation, profits in professional sports, anti-trust and labor law, the impact of sports on local communities and the links between athletics and education. Prereq: ECON 2022 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4660 - Health Economics. (3 Credits)

This course focuses on the analysis of current health care markets. Topics include the production of health, demand for health care, physician and hospital behavior, health insurance, medical malpractice, health externalities, managed care and the affordable care act. Prereq: ECON 3811 and 2022. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 and 2022

ECON 4670 - Economics of Population and Growth (3 Credits)

Theoretical modeling and data analysis will be used to analyze the economic causes, consequences and policy responses to population change through changes in fertility, marriage, health, mortality and migration. Prereq: ECON 2022 and (ECON 3811 or ECON 4811) with a C- or higher or instructor approval. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 and (ECON 3811 or ECON 4811) with a C- or higher

ECON 4740 - Industrial Organization (3 Credits)

Examines the determinants of, and linkages between, market structure, firm conduct, and industrial performance. Topics include: determinants of the market size; impact of different market structures on prices and outputs; strategic behavior of firms to prevent entry or induce exit of rival firms; collusion; price discrimination; advertising; competition, monopoly, and innovation; implications for economic efficiency and public policy. Prereq: ECON 4071 with a C- or higher. Cross-listed with ECON 5740. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4071 with a C- or higher

ECON 4770 - Development Economics (3 Credits)

This course provides a theoretical and empirical framework for analyzing economic problems in developing countries focusing on the role of individuals, families and institutions. Topics include poverty traps, human capital accumulation, gender discrimination, microcredit and violent conflict. Prereq: ECON 4811 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

Typically Offered: Fall.

ECON 4811 - Introduction to Econometrics (3 Credits)

Introduces econometric methods and their applications to quantitative economic problems. Simple and multiple regression models and problems encountered in their applications are developed in lectures and applied computer projects. Prereq: ECON 3811 or MATH 3382 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 or MATH 3382 with a C- or higher.

ECON 4812 - Advanced Econometric Methods (3 Credits)

This course will focus on econometric methods used to generate causal inference in experimental and non-experimental settings. Topics covered will include the potential outcomes framework, randomized experiments, natural experiments, difference-in-differences, fixed effects, matching, instrumental variables, and regression discontinuity. Prerequisite:

ECON 4811 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

ECON 4840 - Independent Study: ECON (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ECON 4850 - Honors Independent Study: ECON (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Report as Full Time.

ECON 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Economics, 4 + 1 BA/ MA

Introduction

Please click here (p. 358) to see Economics department information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

Overview

The 5-year BA/MA program in economics allows qualified undergraduate students to take graduate level economic courses and count them towards their B.A. degree in economics. After completing the B.A. in economics, up to 12 graduate level ECON credits taken as an undergraduate student may be counted again towards the M.A. in Economics degree. This allows a student to complete both the B.A. and M.A. in economics in as few as five years. Students who decide not to pursue a M.A. degree in economics at CU Denver after earning a B.A. degree in economics retain their B.A. degree along with all other undergraduate credentials on their transcripts.

Admission Requirements

1. Meet all general admission requirements of the Graduate School
2. Be a current CU Denver Economics major with a GPA of 3.5 or better
3. The following courses must have been completed at CU Denver with a grade of B+ or better: MATH 2411 Calculus II, MATH 2421 Calculus III, ECON 4071 Intermediate Microeconomic Theory, and ECON 4811 Introduction to Econometrics
4. Students should apply in the semester when requirement 3 is satisfied (typically in the end of the fall semester of their junior year - as in the sample curriculum below)
5. Students who do not meet requirements 2 and 3 may apply, but must submit GRE scores and two letters of recommendation; otherwise both are waived
6. To apply, students should submit a regular application to the MA ECON program here: <https://application.admissions.ucdenver.edu/apply/>. Students who meet the admission requirements are not required to pay the application fee, submit GRE scores, letters of recommendation, or a personal statement. Students must contact the graduate advisor after their application is submitted to have this material waived (brian.duncan@ucdenver.edu)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 48 credit hours with a minimum of 33 ECON and 12 MATH credit hours.

2. Students must complete a minimum of 18 upper division (3000-level and above) credit hours in ECON electives, with a maximum of 12 graduate level (5000-level and above) ECON credit hours. A maximum of 6 credit hours at the 3000 level in ECON will count toward degree requirements.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and Students must earn a minimum grade of B- (2.7) in all graduate courses taken at CU Denver. Students must achieve a minimum cumulative major GPA of 2.0 and master's GPA of 3.0. All graded attempts in required and elective courses are calculated in the major GPA. Courses taken on a pass/fail basis will not count towards the degree.
4. Students must complete a minimum of 33 ECON credit hours applied to the BA, including ECON 4811 Introduction to Econometrics, and all graduate level courses applied to the MA with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

While students are completing a BA degree in economics (p. 366), they may also complete some of the requirements for an MA degree in economics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/economics/economics-ma/>) by participating in the BA/MA program using the following guidelines:

1. The student must apply and be accepted for participation in the BA/MA program prior to completion of the BA degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. Students need to take only three electives at the undergraduate level; the three electives taken at the graduate level are double counted in fulfilling both BA and MA graduation requirements. ECON 5803 (Graduate Mathematical Economics) is waived or can be counted as one graduate-level elective. The total dual credits are 12 hours.
3. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.
4. Only courses taken at CU Denver will apply in the GPA calculation.
5. Students will earn the BA degree in their fourth year upon completing all the requirements for the BA degree. Students are expected to be admitted to the Graduate School in their final two semesters prior to earning the MA degree.
6. All courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying major requirements.
7. Any courses taken in Economics may satisfy the elective requirement, other than internships and independent studies which require the approval of the department chair. Students must take at least six of the courses for the major from CU Denver faculty, including ECON 4811 Introduction to Econometrics. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty.
8. MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction

to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes before completing MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

Undergraduate Required Courses

Code	Title	Hours
<i>Take all of the following</i>		<i>30</i>
ECON 2012	Principles of Economics: Macroeconomics	3
ECON 2022	Principles of Economics: Microeconomics	3
ECON 4071	Intermediate Microeconomic Theory	3
ECON 4081	Intermediate Macroeconomic Theory	3
ECON 4811	Introduction to Econometrics	3
MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 2421	Calculus III	4
MATH 3382	Statistical Theory	3-4
or ECON 3811	Statistics with Computer Applications	

Undergraduate Electives

Code	Title	Hours
<i>Take six 3 credit hour courses in economics at the 3000-level or higher; a minimum of six credits must be at the 4000-level and a maximum of 12 credits may be at the graduate level.</i>		<i>18</i>
Internships and independent studies require approval of the department chair in order to be given credit as an economics course.		
ECON 3050	Decision Making	3
ECON 3100	Economics of Race and Gender	3
ECON 3300	Economics of Crime and Punishment	3
ECON 3366	Managerial Economics	3
ECON 3400	Economics of Sex and Drugs	3
ECON 3415	Issues in International Trade and Finance	3
ECON 3770	Issues in Economic Development	3
ECON 3801	Introduction to Mathematical Economics	3
ECON 3811	Statistics with Computer Applications	4
ECON 4001	Topics in Economics	3
ECON 4030	Data Analysis with SAS	3
ECON 4050	Special Economic Problems	3
ECON 4071	Intermediate Microeconomic Theory	3
ECON 4081	Intermediate Macroeconomic Theory	3
ECON 4090	History of Economic Thought	3
ECON 4110	Money and Banking	3

Admission Requirements

1. Meet all general admission requirements of the Graduate School
2. Be a current CU Denver Economics major with a GPA of 3.5 or better
3. The following courses must have been completed at CU Denver with a grade of B+ or better: MATH 2411 Calculus II, MATH 2421 Calculus III, ECON 4071 Intermediate Microeconomic Theory, and ECON 4811 Introduction to Econometrics
4. Students should apply in the semester when requirement 3 is satisfied (typically in the end of the fall semester of their junior year - as in the sample curriculum below)
5. Students who do not meet requirements 2 and 3 may apply, but must submit GRE scores and two letters of recommendation; otherwise both are waived
6. To apply, students should submit a regular application to the MS Health Economics program here: <https://application.admissions.ucdenver.edu/apply/>. Students who meet the admission requirements are not required to pay the application fee, submit GRE scores, letters of recommendation, or a personal statement. Students must contact the graduate advisor after their application is submitted to have this material waived (brian.duncan@ucdenver.edu)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 292)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 48 credit hours with a minimum of 33 ECON and 12 MATH credit hours.
2. Students must complete a minimum of 18 upper division (3000-level and above) credit hours in ECON electives, with a maximum of 12 graduate level (5000-level and above) ECON credit hours. A maximum of 6 credit hours at the 3000 level in ECON will count toward degree requirements.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and Students must earn a minimum grade of B- (2.7) in all graduate courses taken at CU Denver. Students must achieve a minimum cumulative major GPA of 2.0 and master's GPA of 3.0. All graded attempts in required and elective courses are calculated in the major GPA. Courses taken on a pass/fail basis will not count toward the degree.
4. Students must complete a minimum of 33 ECON credit hours applied to the BA, including ECON 4811 Introduction to Econometrics, and all graduate level courses applied to the MS with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

While students are completing a BA degree in economics (p. 366), they may also complete some of the requirements for an MS in health economics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/economics/health-economics-ms/>) by participating in the BA/MS program using the following guidelines:

1. The student must apply and be accepted for participation in the BA/MS program prior to completion of the BA degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. Students need to take only three electives at the undergraduate level; the three electives taken at the graduate level are double counted in fulfilling both BA and MS graduation requirements. ECON 5803 (Graduate Mathematical Economics) is waived or can be counted as one graduate-level elective. The total dual credits are 12 hours.
3. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.
4. Only courses taken at CU Denver will apply in the GPA calculation.
5. Students will earn the BA degree in their fourth year upon completing all the requirements for the BA degree. Students are expected to be admitted to the Graduate School in their final two semesters prior to earning the MS degree.
6. All courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying major requirements.
7. Any courses taken in Economics may satisfy the elective requirement, other than internships and independent studies which require the approval of the department chair. Students must take at least six of the courses for the major from CU Denver faculty, including ECON 4811 Introduction to Econometrics. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty.
8. MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes before completing MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

Undergraduate Required Courses

Code	Title	Hours
<i>Take all of the following</i>		30
ECON 2012	Principles of Economics: Macroeconomics	3

ECON 2022	Principles of Economics: Microeconomics	3
ECON 4071	Intermediate Microeconomic Theory	3
ECON 4081	Intermediate Macroeconomic Theory	3
ECON 4811	Introduction to Econometrics	3
MATH 1401	Calculus I	4
MATH 2411	Calculus II	4
MATH 2421	Calculus III	4
MATH 3382	Statistical Theory	3-4
or ECON 3811	Statistics with Computer Applications	

Undergraduate Electives

Code	Title	Hours
<i>Take six 3 credit hour courses in economics at the 3000-level or higher; a minimum of six credits must be at the 4000-level and a maximum of 12 credits may be at the graduate level.</i>		18
Internships and independent studies require approval of the department chair in order to be given credit as an economics course.		
ECON 3050	Decision Making	3
ECON 3100	Economics of Race and Gender	3
ECON 3300	Economics of Crime and Punishment	3
ECON 3366	Managerial Economics	3
ECON 3400	Economics of Sex and Drugs	3

Economics, BA

Introduction

Please click here (p. 358) to see Economics department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 40 ECON credit hours.
2. Students must complete a minimum of 18 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Courses taken on a pass/fail basis will not count towards the major.
4. Students must complete a minimum of 33 ECON credit hours, including ECON 4811 Introduction to Econometrics, with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.
2. Only courses taken at CU Denver will apply in the GPA calculation.
3. All courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying major requirements.
4. Any courses taken in Economics may satisfy the elective requirement, other than internships and independent studies which require the approval of the department chair. Students must take at least six of the courses for the major from CU Denver faculty, including ECON 4811 Introduction to Econometrics. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty.
5. MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes before completing MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

Economics Minor

Introduction

Please click here (p. 358) to see Economics department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases.

Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ECON credit hours.
2. Students must complete a minimum of 9 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ECON credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. At least two of the upper division courses must not overlap with courses for the student's major program.
2. Only courses taken at CU Denver will apply in the GPA calculation.
3. All courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying minor requirements.

Required Courses

Code	Title	Hours
<i>Take the following</i>		6
ECON 2012	Principles of Economics: Macroeconomics	3
ECON 2022	Principles of Economics: Microeconomics	3

Electives

Code	Title	Hours
<i>Take three upper-division (3000 level or higher) electives in economics</i>		9
Internships and independent studies require approval of the department chair in order to be given credit as an economics course.		
ECON 3050	Decision Making	3
ECON 3100	Economics of Race and Gender	3

Health and Development Economics Undergraduate Certificate

Introduction

Please click here (p. 358) to see Economics department information.

There is an increasing need for individuals who understand health related issues and policies, particularly those affecting developing countries, and have the quantitative skills that enable them to analyze and present real-world data to support effective decision-making. The purpose of the Certificate in Health & Development Economics is to provide students with a strong foundation in economic concepts, data analysis, and policy issues pertaining to healthcare and economic development. Students will learn how to use data to develop and evaluate programs and policies using modern statistical methods. The certificate gives students the applied skills and institutional knowledge increasing in demand in the

health research sector, enhancing the student's career and professional development. The certificate can also provide a springboard towards pursuing a graduate degree in Health Economics.

These certificate requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Certificate

Admission Requirements

- Be a current CU Denver undergraduate or graduate student in any discipline, or a CU Denver non-degree seeking student with a Bachelor's degree.
- Have a GPA of 2.0 or higher
- Have completed intermediate microeconomics and introduction to econometrics, or equivalent coursework or professional experience.

General Requirements

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 ECON credit hours.
2. Students must complete a minimum of 12 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required courses are calculated in the certificate GPA. Courses taken on a pass/fail basis will not count toward the certificate.
4. Students must complete all certificate credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. Students are expected to meet all course prerequisites or have the program director's approval.
2. CU Denver undergraduate students may complete the certificate concurrently with their major and/or minor degree program, counting the credits towards both the certificate and their B.A. or B.S. major/minor degrees. However, courses that have already been counted towards any degree already awarded may not be counted towards the certificate retroactively.
3. Undergraduate students are encouraged to use the certificate program as a bridge to a graduate degree. Qualified students in their senior year may substitute the graduate level ECON 5030 Data Analysis with SAS for ECON 4030 Data Analysis with SAS, ECON 7661 Health Economics I for ECON 4660 Health Economics., and/or ECON 7662 Health Economics II for ECON 4770 Development Economics. Undergraduate students, non-degree seeking students, and graduate students outside the economics department must meet

the prerequisite requirements or **have the graduate advisor's approval** prior to taking any graduate level econ course.

4. No course may be taken more than twice.

Required Courses

Code	Title	Hours
<i>Take the following</i>		12
ECON 4030	Data Analysis with SAS	3
ECON 4660	Health Economics.	3
ECON 4770	Development Economics	3
ECON 4812	Advanced Econometric Methods	3

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/economics/programs/certificate-health-development-economics/>).

English

Chair: Phillip Joseph

Associate Chair: Michelle Comstock

Program Coordinator: Francine Olivas-Zarate

Program Assistant: Janelle (Jenny) Dunington

Office: 1015 9th Street Park

Telephone: 303-315-7830

Fax: 303-315-7826

Overview

English majors learn to acquire and synthesize information and to present their ideas and opinions skillfully. They find employment in fields in which the sophisticated use of language is necessary for achievement and advancement. Many graduates go on to postgraduate study, not only in writing, film studies and literature, but to schools of medicine, law, journalism and business.

Undergraduate Information

English

Undergraduates wishing to major in English (ENGL) or the English Writing, Rhetoric and Technology (EWNT) must declare the major by the time they have completed 60 semester hours. The English major allows a student to choose from one of three options: literature, creative writing or film studies. Students interested in a double major must choose one option in English or the English Writing, Rhetoric and Technology major and are required to complete 21 different courses (63 hours).

Click here (p. 385) to learn more about the English Writing, Rhetoric, and Technology Major.

Click here (p. 381) to learn more about the English Major-Film Studies Option.

Click here (p. 379) to learn more about the English Major-Creative Writing Option.

Click here (p. 382) to learn more about the English Major-Literature Option.

BA in English With Secondary Teacher Licensure

Students seeking secondary English teacher licensure may pursue a BA in English with a restricted literature option. This enables them to complete their English major as well as fulfill requirements for licensure at the undergraduate level. See the description of the Undergraduate Teacher Licensure on the School of Education & Human Development

(SEHD) Urban Community Teacher Education program page for more information.

Departmental Honors

Latin honors may be earned by participating in the department's honors program. Students with a 3.5 GPA in English are encouraged to begin the program in their junior year. The program requires additional course work (3 hours) and affords students the opportunity to work individually with the professor of their choice. Detailed information is available in the English department office.

Minors

The Department of English also offers four separate minors. No courses taken for a minor may be counted toward an English major.

- Literature Minor (p. 389)
- English Writing, Rhetoric, and Technology Minor (p. 387)
- Creative Writing Minor (p. 387)
- Film Studies Minor (p. 388)

Additional Information

For additional information on majors, options, minors and certificates call the Department of English office at 303-315-7830.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/english/>) catalog to read about our graduate programs.

Programs

- English - Creative Writing Option, BA (p. 379)
- English - Film Studies Option, BA (p. 381)
- English - Literature Option, BA (p. 382)
- English Writing, Rhetoric, and Technology, BA (p. 385)
- Creative Writing Minor (p. 387)
- English Writing, Rhetoric, and Technology Minor (p. 387)
- Film Studies Minor (p. 388)
- Literature Minor (p. 389)
- Teaching English Language Learners Certificate (CTELL) (p. 390)
- Technical and Professional Writing Certificate (p. 391)

Faculty

Professors:

Joanne Addison, PhD, Purdue University
Colleen Donnelly, PhD, University of Washington
Jeffrey Franklin, PhD, University of Florida
Wayne Miller, MFA, University of Houston
Bradford K. Mudge, PhD, University of Texas, Austin
Cynthia Wong, PhD, University of Wisconsin, Milwaukee

Associate Professors:

Pompa Banerjee, PhD, University of Massachusetts
Brian Barker, PhD, University of Houston
Nicole Beer, PhD, University of Missouri-Columbia
Teague Bohlen, MFA, Arizona State University
Nancy Ciccone, PhD, University of California, Berkeley
Michelle Comstock, PhD, Purdue University

Sarah Hagelin, PhD, University of Virginia
Rodney Herring, PhD, University of Texas, Austin
Philip Joseph, PhD, State University of New York, Buffalo
Joanna Luloff, MFA, Emerson College; PhD, University of Missouri
Gillian Silverman, PhD, Duke University
John Tinnell, PhD, University of Florida, Gainesville
Ian Ying, PhD, University of Arizona

Assistant Professors:

Kari Campeau, PhD, University of Minnesota
Andrew Scahill, PhD, University of Texas, Austin

English (ENGL)

ENGL 1000 - Special Topics (3 Credits)

This topics course at the 1000 level is designed to offer flexibility for the English department for lower division offerings. Students may enroll up to 3 times to total no more than 9 credits but the topics must differ for each course. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGL 1010 - Writing Workshop (3 Credits)

Focuses on the abilities and skills needed to write effective expository prose. Emphasizes frequent writing, both in and out of class, with special attention to writing short essays well. Writers learn to write confidently at the sentence and paragraph levels, and to develop their grammatical and mechanical skills. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1020 - Core Composition I (3 Credits)

Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. Term offered: fall, spring, summer. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C01.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-C01, Communication; Denver Core Requirement, English Composition.

ENGL 1021 - Core Composition Workshop (1 Credit)

Prepares students for college-level reading and writing. Students receive one-on-one and small-group instruction on analytical and argumentative writing. Max hours: 1 Credit.

Grading Basis: Letter Grade

ENGL 1050 - Vocabulary for Professionals (3 Credits)

Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with LATN 1050. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ENGL 1200 - Introduction to Fiction (3 Credits)

Introduces class members to the works of famous authors as well as to major themes, elements, and techniques of fiction in both short stories and novels. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1400 - Literary Studies (3 Credits)

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing.

Note: Designed for students who are seriously interested in literature.

Note: this course assumes that students have completed or are currently taking ENGL 1020. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1601 - Storytelling: Literature, Film, and Television (3 Credits)

Asks students to explore how stories determine who we are. Everything people do fits into a narrative pattern, evident everywhere from TV news to memory to daily schedules. We tell ourselves stories about ourselves and others—how do these stories shape who we are as cultural beings?

Note: this course assumes that students have completed or are currently taking ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH2, Arts Hum: Lit Humanities.

ENGL 2030 - Core Composition II (3 Credits)

Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C02.

Grading Basis: Letter Grade

Prereq: ENGL 1020

Additional Information: Denver Core Requirement, English Composition; GT courses GT Pathways, GT-C02, Communication.

ENGL 2060 - Introduction to Writing & Digital Studies (3 Credits)

Introduces students to the topics of study in the English Writing major. Topics include writing studies (literacy, genre, research, and multimodality), rhetoric (history and theory), and the teaching of writing (pedagogy and practice). Prereq: ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 1020

ENGL 2070 - Grammar, Rhetoric and Style (3 Credits)

Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2156 - Introduction to Creative Writing (3 Credits)

Reading, discussing, writing short fiction and poetry in a workshop setting. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

ENGL 2250 - Introduction to Film (3 Credits)

Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2300 - Topics in Literature and Film (3 Credits)

Courses supplement the regular program of the department, offering such topics as: literary perceptions of motherhood, Asian-American literature, literary classics of science, and contemporary women writers. Note: Can be taken more than once if topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGL 2390 - Writing the Short Script (3 Credits)

Examines narrative screenwriting elements—premise, theme, conflict, protagonist/antagonist, setting/situation, dialogue, plot structure, imagery—required to create a strong narrative short film. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2450 - Introduction to Literature (3 Credits)

Provides the terms and skills for analyses of a variety of narratives. Develops critical thinking, reading, and writing necessary for succeeding in the discipline. Note: this course assumes that students have completed ENGL 1020. Note: required introductory course for English majors and English education. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2510 - Greek and Roman Mythology (3 Credits)

Surveys influential literature from Greece and Rome. Among the Greek works are Homer's epics, Sophocles's tragedies, Plato's and Aristotle's philosophical writings. Among the Roman works are the writings of Vergil, Ovid, the elegists and historians. A brief look at Augustine's writings concludes the course. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2520 - The Bible as Literature (3 Credits)

Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with RLST 2700. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2600 - Literary Classics (3 Credits)

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4600 - Modernism (3 Credits)

Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Prereq: Sophomore standing. Cross-listed with ENGL 5600. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4601 - Principles and Practices of Second Language Acquisition (3 Credits)

Overview of basic principles and practices in the learning and teaching of English as a second language. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5601. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ENGL 4610 - Narrative: Form and Theory (3 Credits)

A critical and theoretical exploration of the elements of narrative -e.g., plot, character, dialogue, discourse-in literature and film. This course is especially useful for fiction-writing students in the Creative Writing Track. Prereq: ENGL 2450. Cross-list ENGL 5610. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2450

ENGL 4651 - Second Language Writing (3 Credits)

Topics include: similarities between first & second language writing, the processes of composition & revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading/writing connection. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5651. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ENGL 4701 - Multimedia in the Community (3 Credits)

Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 or permission of instructor. Cross-listed with ENGL 5701. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 4720 - Honors in English (3 Credits)

Designed for students taking departmental honors in English. Prereq: Students must have written permission from the honors advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 4730 - Chaucer (3 Credits)

Extensive reading in Chaucer's works in Middle English, including his lyrics, dream visions, Troilus and Criseyde, and the Canterbury Tales. Examines sources, historical and ideological factors influencing the texts. Prereq: Sophomore standing. Cross-listed with ENGL 5730. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4740 - Honors in Writing (3 Credits)

Designed for students taking departmental honors in English writing. Prereq: Student must have written permission from honors director and faculty advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 4745 - Humanistic Writing About Medicine and Biology (3 Credits)

Investigates medical and biological writing over the last two centuries with an emphasis on reception, ethical issues, and the differences between professional and popular writing. Prereq: Sophomore standing. Cross-listed with ENGL 5745. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4755 - Illness & Disability Narrative (3 Credits)

Narratives of mental, chronic or terminal illness, and disability have become common over the past decades. There are a number of ways in which these stories are told by those reflecting on their experiences: individuals choosing to tell such stories must consider how their stories will be received and what they are revealing about themselves in dealing with their conditions. Many issues arise when looking at the production and reception of these narratives, including acceptance and assimilation, stigmatization, access and quality of treatment, discrimination, accommodation, pity and stereotyping responses. These narratives are consumed, usurped, and reacted to by clinicians, communities and society at large with their own agendas, expectations, fears and judgments of the stories and of the individuals telling their stories. This course is about the issues and concerns of producing an illness or disability narrative and the consumption/reception of those narratives by health professionals, communities, and society at large. Pre-req ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher. Cross listed with ENGL 5755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher.

ENGL 4770 - Topics in English: Film and Literature (3 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Sophomore standing. Cross-listed with ENGL 5770. Term offered: spring, fall. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

ENGL 4771 - Topics in English Film and Lit: Film (3 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Sophomore standing. Term offered: spring, fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall.

ENGL 4772 - Topics in English Film and Lit: Lit (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

ENGL 4773 - Topics in English Film and Lit: Am. Lit (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in American literature and/or film. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max Hours: 12 Credits

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

ENGL 4774 - Topics in English Film and Lit: Before 1650 (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film before 1650. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

ENGL 4775 - Topics in English Film and Lit: 1650-1900 (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film from 1650-1900. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

ENGL 4776 - Topics in English: Film and Lit: After 1900 (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film after 1900, e.g., Philosophy and Lit., Mental Health in Lit., Environmental Lit. Prereq: Sophomore standing or higher. Repeatable.

Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

ENGL 4800 - Special Topics in Creative Writing (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics may include projects in a specialized genre, such as science fiction or noir writing, or in a field of professional endeavor related to creative writing, such as the editing and production of a literary journal. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGL 4801 - Special Topics in Creative Writing: Poetry (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in poetry. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ENGL 4802 - Special Topics in Creative Writing: Fiction (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in fiction. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ENGL 4810 - Literary Editing Practicum (3 Credits)

Practicum for students interested in editing in a literary field, e.g., literary magazines, book manuscripts, anthology projects. Each semester the parameter of the practicum will be set by the instructor. Prereq: English majors and minors. All other students must have instructor's permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ENGL majors or minors

ENGL 4820 - Senior Poetry Workshop (3 Credits)

Capstone workshop for students within the Creative Writing major track or Creative Writing minor. Emphasis on a single, sustained project developed by the student. Prereq: ENGL 4025. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 4025

ENGL 4840 - Independent Study: ENGL (1-3 Credits)

Term offered: fall, spring. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ENGL 4850 - Senior Fiction Workshop (3 Credits)

Capstone workshop designed to deepen the understanding of narrative, and consciously apply the strategies of narrative craft to modern markets. Course will focus on the writing and publishing processes, culminating in a classroom narrative defense and submission to professional outlets. Prereq: ENGL 4055. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 4055

ENGL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Term offered: fall, spring. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGL 4920 - Directed Readings (3-6 Credits)

Explores an area of English literature not covered in regular course work. Note: May be taken as a precursor to honors essay, in which case student should consult with the honors advisor. Prereq: Senior standing. Max hours: 6 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Senior standing.

ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies (3 Credits)

Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. Term offered: fall, spring. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to Senior standing.

ENGL 4995 - Senior Writing Project (3 Credits)

Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Senior standing.

English - Creative Writing Option, BA

Introduction

Please click [here](#) (p. 369) to see English department information.

The course of study offered by the Department of English is designed to develop a student's ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance, and to provide the historical perspective from which to evaluate contemporary writing and to produce it. Students who complete the program in English are expected to have mastered the ability to express their ideas in creative work.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 63) to go to information about declaring a major.
- Students planning to major in English must consult with an advisor as soon as possible.
- Students may choose only one of the three options in the English major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click [here](#) (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 ENGL credit hours.
2. Students must complete a minimum of 27 upper division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 ENGL upper-division (3000-level and above) credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I and ENGL 2030 Core Composition II do not apply to the major.

2. Internship/cooperative education courses may be counted toward the major for students who have completed over 60 credit hours.
3. Students are not to exceed 56 English credit hours (any level).
4. Double majors in English and English Writing are exempt from the 56-hour rule and must complete 63 hours total for both majors.
5. The English Department also offers minors in Film Studies, Literature and English Writing, Rhetoric, and Technology. Courses counted in a minor cannot be counted toward the major.
6. Latin Honors may be earned by participating in the department's Honors Program. You are encouraged to begin the program in your junior year. The program requires additional coursework and affords you the opportunity to work individually with the professor of your choice. Handouts are available in the English office.

English - Literature Option, BA

Introduction

Please click here (p. 369) to see English department information.

The course of study offered by the Department of English is designed to develop a student's ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance, and to provide the historical perspective from which to evaluate contemporary writing. Careful study of the use of the English language also should help a student to resist the misuse and corruption of language in politics, the media, and elsewhere. Students who complete the program in English are expected to have mastered the ability to express their ideas in clear and succinct prose.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

4. Students must complete a minimum of 15 ENGL upper-division (3000-level and above) credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I, and ENGL 2030 Core Composition II are not included in the major.
2. Internship/cooperative education courses may be counted toward the major for students who have completed over 60 credit hours.
3. Students are not to exceed 56 English credit hours (any level).
4. Double majors in English and English Writing are exempt from the 56-hour rule and must complete 63 hours total for both majors.
5. The English Department also offers minors in Creative Writing, Film, and English Writing, Rhetoric, and Technology. Courses counted in a minor cannot be counted toward the major.
6. Latin Honors may be earned by participating in the department's Honors Program. You are encouraged to begin the program in your junior year. The program requires additional coursework and affords you the opportunity to work individually with the professor of your choice. Handouts are available in the English office.
7. Any of the following courses can be taken more than once, if the topic/title differs:
 - Any film or film theory courses (e.g., ENGL 3070 Film History I, ENGL 3080 Global Cinema, ENGL 3085 Film Directors, ENGL 3075 Film Genres, etc.)
 - Any ENGL 3330, ENGL 3331, ENGL 3332, ENGL 3333, and/or ENGL 3334 topics courses (e.g., Lit. of the City, Detective Lit., Science Fiction, Memoir)
 - Any ENGL 4770, ENGL 4771, ENGL 4772, ENGL 4773, ENGL 4774, ENGL 4775, and/or ENGL 4776 topics courses (e.g., Philosophy and Lit., Mental Health in Lit., Environmental Lit.)
 - Any ENGL 4000, ENGL 4001, ENGL 4002, ENGL 4003, and/or ENGL 4004 Studies of Major Authors courses (e.g., Nobel Laureates, Cather, Joyce)
 - Any women's lit. and/or feminist theory topics course
 - Any ENGL ethnic lit. topics course
 - Any ENGL identity topics course (e.g. LGBTQ Lit., Queer Theory)

Required Courses

Code	Title	Hours
<i>Take the following</i>		9
ENGL 1601	Storytelling: Literature, Film, and Television or ENGL 260 Literary Classics

English Writing, Rhetoric, and Technology, BA

Introduction

Please click here (p. 369) to see English department information.

The English Writing, Rhetoric and Technology major asks students to take one of two introductory courses, a multi-media course (two course options), a language theory/sociolinguistics course (three course option), and two advanced topics courses (with a range of options). The remainder of the degree is seven courses chosen from a long list, which can include two courses outside the English Writing focus (such as creative writing workshops, film courses, or courses in related majors). For all the details, please review the advising sheets for the English Writing, Rhetoric, and Technology major. Especially designed for future writers, the major offers a wide range of intensive writing experiences, combining such areas as rhetoric, and professional, general, and creative writing.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program offers courses both on-campus and online. You can take the English Writing, Rhetoric, and Technology Major fully online or fully on campus. Most of our students, however, end up taking a mix of online and on-campus courses in order to juggle changing work schedules and busy lives. You can decide what's best for you.

Declaring This Major

- Click here (p. 63) to go to information about declaring a major.
- Students planning to major in English Writing, Rhetoric, and Technology must consult with an advisor as soon as possible.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 109)
- CU Denver Core Curriculum (p. 104)
- College of Liberal Arts & Sciences Graduation Requirements (p. 295)
- Click here (p. 93) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 36 ENGL credit hours toward the major.
- Students must complete a minimum of 27 upper division (3000-level and above) ENGL credit hours.

- Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
- Students must complete a minimum of 15 ENGL upper division (3000-level and above) credits hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I and ENGL 2030 Core Composition II do not count toward the major, nor does CLEP or AP credit.
- Students may not count more than 56 credit hours of ENGL credit toward the major; double majors in English Writing, Rhetoric and Technology and English are exempt and are required to complete 63 credits of ENGL credit hours.
- A maximum of 6 credit hours of Internship/cooperative education courses may be counted toward the major for students who have completed 60 or more credit hours. Internships count as upper-division electives.
- The English Department also offers minors in Creative Writing, Film Studies, and Literature. Courses counted in a minor cannot be counted toward the major.
- Latin Honors may be earned by participating in the department's Honors Program. You are encouraged to begin the program in your junior year. The program requires additional coursework and affords you the opportunity to work individually with the professor of your choice. Handouts are available in the English office.
- Courses may not be used more than once between the Required Course Area and Electives.

Creative Writing Minor

Introduction

Please click here (p. 369) to see English department information.

Students who have an interest in writing poetry or fiction may enroll in the creative writing minor. The creative writing minor gives students the opportunity to complement their area of major study with experience writing and reading poetry or fiction.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ENGL credit hours with CU Denver faculty.

Program Allowances or Restrictions

1. Courses counted in a minor cannot be counted toward any English Major or English Writing, Rhetoric, and Technology Major.

Required Courses

Code	Title	Hours
<i>Take all of the following</i>		9
ENGL 2156	Introduction to Creative Writing	3
ENGL 2450	Introduction to Literature	3
ENGL 3020	Poetry Workshop	3
or ENGL 3050	Fiction Workshop	

Additional Electives

Code	Title	Hours
<i>Take one of the following, not taken above</i>		3
ENGL 3020	Poetry Workshop (if not taken above)	3
ENGL 3050	Fiction Workshop (if not taken above)	3
ENGL 4025	Advanced Poetry Workshop	3
ENGL 4055	Advanced Fiction Workshop	3

English Writing, Rhetoric, and Technology Minor

Introduction

Please click here (p. 369) to see English department information.

The English Writing, Rhetoric, and Technology minor allows students to complement their area of major study with systematic experience in writing.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is both an on-campus and online program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 6 ENGL upper-division (3000-level and above) credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/ fail.
4. Students must complete a minimum of 9 ENGL credit hours with CU Denver English faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1020 Core Composition I and ENGL 2030 Core Composition II do not count toward the minor, nor does CLEP or AP credit.
2. Internships are available for students who have completed over 60 credit hours and count toward the upper-division elective in the minor. Visit CU Denver’s Experiential Learning Center (ELC) for more information (Tivoli 260). A faculty sponsor is required for all internships.
3. Students are encouraged to take ENGL 1020 Core Composition I and ENGL 2030 Core Composition II before beginning the minor.
4. Courses counted in a minor cannot be counted toward any English Major.

Film Studies Minor

Introduction

Please click here (p. 369) to see English department information.

The film studies minor offers students the opportunity to gain an informed understanding of the sophisticated medium of film, its language and history. Courses cover critical writing about cinema, creative screenwriting, the evolution of Hollywood movies, international cinema, and film in its cultural context. The film studies minor makes a valuable complement to a range of undergraduate majors.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with

their minor advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Literature Minor

Introduction

Please click here (p. 369) to see English department information.

This program is designed for students who are interested in the study of English literature but who have elected to major in another area. The recommended series of courses allows students to become acquainted with some of the methods of literary study and with a number of the most important literary works. The literature minor allows students to complement their area of major study with systematic experience in literature.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 63) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- CU Denver General Graduation Requirements (p. 109)
- Click here (p. 93) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 upper-division (3000-level and above) ENGL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses in a minor cannot be counted toward the English major or English Writing, Rhetoric and Technology major.
2. Course requirements may not be met by independent study.
3. *Courses are repeatable if taken as a different genre/author/topic.

Note: Students are advised to fulfill the liberal arts and sciences core curriculum writing requirements (ENGL 1020 Core Composition I & ENGL 2030 Core Composition II) before enrolling in upper-division literature courses.

Required Course

Code	Title	Hours
<i>Take the following</i>		3
ENGL 2450	Introduction to Literature	3

Teaching English Language Learners Certificate (CTELL)

Introduction

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor and CLAS advisor to confirm the best plans of study before finalizing them.

The Certificate in Teaching English Language Learners (CTELL) is designed to help you gain the skills necessary to teach English Language Learners at a variety of levels. It is built to serve those who want to teach in multilingual public and private schools in America as well as those who plan to teach English overseas. This certificate also serves the needs of international students wanting to teach English in their home country or other countries.

The program, which can be completed through CU Online, is designed to build the necessary skills to teach adults English as a second language. It is primarily aimed at native speakers of English who want to teach overseas but may serve the needs of international students wanting to teach English in their home country or other countries. Opportunities exist for internships at CU Denver's ESL Academy, International College of Beijing (ICB) and other language schools.

Upon successful completion of the program, CTELL graduates will be able to:

- discuss the theoretical basis of English language instruction
- demonstrate a variety of effective English language teaching techniques
- explain, in pedagogically relevant ways, the linguistic structures of the English language

When can I start?

You may begin in any semester. There is no fixed deadline for application for admission.

Program Delivery

- This is an online program.

Declaring This Certificate

- Contact your advisor for more information.

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 12 upper-division (3000- level or higher) credit hours.
3. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. All credits for the certificate must be completed with CU Denver faculty.

Program Allowances or Restrictions

1. The same courses counted toward a minor or degree at CU Denver may also be used toward the requirements for a certificate, however a single course may not fulfill more than a total of two graduation requirements.

Required Courses

Code	Title	Hours
<i>Take all of the following:</i>		9
ENGL 3160	Language Theory	3

ENGL 4601	Principles and Practices of Second Language Acquisition	3
ENGL 4651	Second Language Writing	3

Electives

Code	Title	Hours
<i>Take 6 elective credits</i>		6
ENGL 3939	Internship (approved by the program advisor)	1-6
ENGL 4190	Advanced Topics in Writing & Digital Studies	3
ENGL 5093	Teaching of Writing (approval of instructor required)	3
LING 3100	Language in Society	3
Alternative elective approved by program advisor ¹		3

¹ Alternative electives must be approved by the program advisor.

Technical and Professional Writing Certificate

Introduction

Technical writers analyze audiences, visualize data, manage content, write reports, design apps and user interfaces, compose web pages, and communicate science to the public. Technical and professional writing is everywhere. It's a dynamic field and industry that is constantly changing to keep pace with new technologies, emerging problems, and audience needs. The Technical and Professional Writing Certificate prepares students to become innovative, collaborative, and technically proficient writers who can work across a range of fields, including business, health, nonprofits, technology, science, publishing, environment, and law.

Program Delivery

- The certificate can be completed through online, in-person, or hybrid courses.

Declaring This Certificate

- Please see your CLAS advisor. These certificate requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their certificate advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Certificate Program Requirements

1. Students must complete a minimum of 12 ENGL credit hours.
2. Students must complete a minimum of 9 upper-division (3000- level or higher) credit hours.

- Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
- All credits for the certificate must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Students must include an internship or a course (at least 3 credits) taken outside of the English department.
- Students must attend at least 3 Career Center (<http://www.ucdenver.edu/life/services/careercenter/Pages/default.aspx>) activities, which can include events, workshops, or 1-on-1 appointments.

Certificate Course Clusters

Students select a 3-credit course from each of the following course clusters:

Technical & Scientific Writing

These foundational courses introduce students to technical or scientific writing. Students can expect to gain an academic grounding as well as hands-on experience in technical or scientific writing.

Code	Title	Hours
<i>Take one of the following</i>		3
ENGL 3154	Technical Writing	3
ENGL 4175	Writing in the Sciences	3

Professional Writing

These courses offer students an opportunity to develop their TPW skills in a specific field or industry. Courses focus on the unique TPW skills and situations called for when writing for business, nonprofit, community, journalistic, or grant-writing contexts.

Code	Title	Hours
<i>Take one of the following</i>		3
ENGL 3170	Business Writing	3
ENGL 4280	Proposal and Grant Writing	3
ENGL 4701	Multimedia in the Community	3

Rhetorical Approaches

These courses ground students' TPW skills in rhetorical approaches to writing. Rhetorical approaches are anchored to audience, context, purpose and are attuned to the social and cultural contexts of communication.

Code	Title	Hours
<i>Take one of the following</i>		3
ENGL 2060	Introduction to Writing & Digital Studies	3
ENGL 2070	Grammar, Rhetoric and Style	3
ENGL 4190	Advanced Topics in Writing & Digital Studies (in approved topics)	3

Interdisciplinary Learning

Technical and professional communicators often collaborate with experts and contributors from a range of fields and backgrounds. This outside course requirement situates students to gain subject-matter expertise in a related field or internship.

Code	Title	Hours
<i>Take one of the following</i>		3
BIOL 3763	Biostatistics	4
COMM 3660	Social Media for Social Change	3
COMM 4282	Environmental Communication	3
ENGL 3939	Internship	1-6
IWKS 3200	Data Science for Innovators	3
IWKS 3620	Mobile App Development	3
PBHL 3030	Health Policy	3

Any upper-division course or internship deemed to be central to the student's writing goals in consultation with the certificate Director
